RESOLUTIONS

1995/2. Joint and Co-sponsored United Nations Programme on Human Immunodeficiency Virus/Acquired Immunodeficiency Syndrome

The Economic and Social Council,

Recalling its resolution 1994/24 of 26 July 1994 concerning the Joint and Co-sponsored United Nations Programme on Human Immunodeficiency Virus/Acquired Immunodeficiency Syndrome (HIV/AIDS) which was established to provide an internationally coordinated response to the HIV/AIDS pandemic, to provide global leadership in response to the epidemic and to achieve and promote global consensus on policy and programmatic approaches to the fight against HIV/AIDS.

Recalling further that the Programme is charged with promoting broad-based political and social mobilization to prevent and respond to HIV/AIDS within countries, ensuring that national responses involve a wide range of sectors and institutions, and advocating greater political commitment in responding to the epidemic at the global and country levels, including the mobilization and allocation of adequate resources for HIV/AIDS-related activities.

Emphasizing the urgent need to make the Programme operational as soon as possible, but no later than January 1996,

1. Welcomes the report of the Committee of Co-sponsoring Organizations of the Joint and Co-sponsored United Nations Programme on HIV/AIDS, 1/ which will be of assistance in the further consideration of the operations of the new programme, while recognizing the modifications that have been made to the arrangements set out in the report, as outlined by the Chairperson of the Committee, and the need for the Programme to operate in accordance with the provisions of Council resolution 1994/24;

2. Endorses the arrangements outlined in section VI of the report (Governance and management) and decides to add the following to the functions of the Programme Coordination Board listed in paragraph 101 of the report:

(a) To establish broad policies and priorities for the Programme, taking into account the provisions of General Assembly resolution 47/199 of 22 December 1992;

(b) To make recommendations to the co-sponsoring organizations regarding their activities in support of the Programme, including those of mainstreaming;

3. Requests the Programme Coordination Board to give detailed consideration to the report of the Committee of Co-sponsoring Organizations and to agree on the modalities for implementation of the arrangements set out in that report, taking into account the changes referred to in paragraphs 1 and 2 above;

4. Calls upon the co-sponsoring organizations, as soon as possible, to finalize and sign a legal document in the form of a memorandum of understanding outlining the responsibilities and functions of the co-sponsors, consistent with the provisions of Council resolution 1994/24, and to submit that document to the

Council, through the Programme Coordination Board at its first substantive session, for consideration at a resumed session;

5. Requests the Executive Director of the Joint and Co-sponsored United Nations Programme on HIV/AIDS to report on the status of implementation of the new programme, through the Board, to the Council early in 1996;

6. Decides that each of the six co-sponsors will participate in the work of the Programme Coordination Board and have full rights, except the right to vote;

7. Decides further that five non-governmental organizations will be invited to take part in the work of the Programme Coordination Board, in accordance with the report on the informal consultations on arrangements with regard to non-governmental organizations, submitted to the Council by the Permanent Representative of Australia and annexed to the present resolution;

8. Calls upon each of the six co-sponsoring organizations to give their full support to the establishment of, transition to and smooth functioning of the Joint and Co-sponsored Programme;

9. Appeals to all Governments, international institutions, non-governmental organizations and the private sector to support the Programme with adequate contributions to its resources;

10. Decides that the participation, as observers, of Member States and non-member States that are not members of the Board, in the work of the Board, should be consistent with the rules of procedure of the Council.

ARRANGEMENTS FOR THE PARTICIPATION OF NON-GOVERNMENTAL ORGANIZATIONS IN THE WORK OF THE PROGRAMME COORDINATION BOARD: REPORT ON THE INFORMAL CONSULTATION OF THE ECONOMIC AND SOCIAL COUNCIL

1. The meeting on 9 June 1995 considered the question of the final arrangements for the Programme Coordination Board, particularly the participation of non-governmental organizations, and the report of the Committee of Co-sponsoring Organizations of the Joint and Co-sponsored United Nations Programme on HIV/AIDS. The Board is a governance structure composed of Member States, with the participation of the six co-sponsors and eligible non-governmental organizations.

2. The deliberations of the meeting are summarized in the following terms:

(a) Non-governmental organizations would be invited to take part in the work of the Programme Coordination Board. Such invitations would need to be reviewed periodically. Non-governmental organizations invited should be those either in consultative status with the Economic and Social Council or in relationship with one of the six co-sponsoring organizations or on the roster of non-governmental organizations dealing with matters pertaining to HIV/AIDS, in

accordance with the rules, procedures and well-established practice of the United Nations system;

(b) The process of identification of the non-governmental organizations that sought to participate in the work of the Board would be determined by the non-governmental organizations themselves. The Board would formally approve the nomination of those organizations;

(c) There would be five such non-governmental participants, three from developing countries and two from developed countries and countries with economies in transition;

(d) In making the selection, non-governmental organizations would be encouraged to seek competent and relevant representatives, for example participation by groups concerned with economic and social development and groups representing people affected by HIV/AIDS;

(e) The need for rotation among non-governmental organizations was recognized; the appointment of an individual organization should not exceed three years;

(f) Non-governmental organizations would be advised of the terms and conditions of their participation. It would be made clear to them that such participation would include:

A seat at the table with 6 representatives of the Committee of Co-sponsoring Organizations and the 22 Member States;

Non-governmental organizations would be able to speak;

Non-governmental organizations would have no negotiating role;

Non-governmental organizations would not participate in any part of the formal decision-making process, including the right to vote, which is reserved for representatives of Governments;

(g) These arrangements for the participation of non-governmental organizations are not to be regarded as setting a precedent;

(h) Funding would be made available for the representatives of developing countries and for each of the three non-governmental organizations from developing countries to cover the costs of one representative each to attend Board meetings. Such funds would cover the cost of daily subsistence allowance and travel only and would be based on existing eligibility criteria.

3. It was also recommended that the Economic and Social Council should review the Programme at its organizational session for 1996.

1995/3. Target for world food programme pledges for the period 1997-1998

The Economic and Social Council,

Noting the comments of the Committee on Food Aid Policies and Programmes of the World Food Programme concerning the minimum target for voluntary contributions to the Programme for the period 1997-1998, 2/

Recalling General Assembly resolutions 2462 (XXIII) of 20 December 1968 and 2682 (XXV) of 11 December 1970, in which the Assembly recognized the experience gained by the World Food Programme in the field of multilateral food aid,

1. Recommends to the General Assembly the adoption of the draft resolution annexed to the present resolution;

2. Urges States Members of the United Nations and members and associate members of the Food and Agriculture Organization of the United Nations to undertake the preparations necessary for the announcement of pledges at the Seventeenth Pledging Conference for the World Food Programme.

PERIOD 1997-1998

The General Assembly,

Recalling the provisions of its resolution 2095 (XX) of 20 December 1965 to the effect that the World Food Programme was to be reviewed before each pledging conference,

Noting that the Programme was reviewed by the Committee on Food Aid Policies and Programmes of the World Food Programme at its thirty-seventh session and by the Economic and Social Council at its substantive session of 1994,

Having considered Economic and Social Council resolution 1995/3 of 13 July 1995 and the comments of the Committee on Food Aid Policies and Programmes, 2/

Recognizing the value of multilateral food aid as implemented by the World Food Programme since its inception and the necessity for continuing its action both as a form of capital investment and for meeting emergency food needs;

1. Establishes for the period 1997-1998 a target for voluntary contributions to the World Food Programme of \$1.3 billion;

2. Urges States Members of the United Nations and members and associate members of the Food and Agriculture Organization of the United Nations and

appropriate donor organizations to make every effort to ensure that the target is fully attained;

3. Requests the Secretary-General, in cooperation with the Director-General of the Food and Agriculture Organization of the United Nations, to convene a pledging conference for this purpose at United Nations Headquarters in 1996.

1995/4. Science and technology for development

The Economic and Social Council,

Recognizing the unique role of the Commission on Science and Technology for Development as a global forum for the examination of science and technology questions, for improving understanding of science and technology policies for development and for the formulation of recommendations and guidelines on science and technology matters within the United Nations system, all in relation to development,

Recognizing further that the Commission, in carrying out its work, should pay special attention to the needs and requirements of developing countries, in particular the least developed countries, and that it should also take into consideration the relevant problems of countries with economies in transition,

Noting the efforts of the Commission to adopt a new working style consisting of panels and working groups that take advantage of the available expertise of representatives of States Members of the Commission and have responsibility for preparing draft reports for consideration by the Commission,

Taking note with appreciation of the reports prepared by the panels and working groups of the Commission, pursuant to decisions taken at its first session, entitled "Science and technology for basic needs: a bridge", 3/ "Science and technology for sustainable human development: the gender dimension", 4/ "Science and technology for integrated land management" 5/ and "Strengthening of linkages between the national research and development systems and industrial sectors", 6/ and the recommendations contained therein,

Noting also the other relevant documents submitted to the Commission for consideration at its second session, 7/

Recognizing the need to focus the future inter-sessional activities of the Commission on a limited number of substantive themes,

Recognizing further that information and communication are important requisites for planning, development and decision-making in science and

technology, and also recognizing the far-reaching implications of information technologies for society,

Basic needs, gender, land management, research and development, industrialization, coordination, financing and other matters arising from the first session of the Commission and work programme for the inter-sessional period 1995-1997

1. Invites Governments to undertake systematic reviews of each major component of their macroeconomic policy frameworks and to take measures to address any unwarranted disincentives for healthy and progressive informal and small and medium-sized productive sectors, and to create an enabling environment for the scientific and technological community to take initiatives to link technologies, in a participatory manner, with entrepreneurs from those sectors;

2. Decides to draw the attention of Member States to the importance of targeted research and development and the application of science and technology in helping to satisfy basic needs, requests the relevant United Nations bodies and donor organizations to assist interested countries in formulating policies and action plans to implement, evaluate and improve efforts for that purpose, and requests Member States and relevant organizations to report on the outcome of those endeavours to the Commission on Science and Technology for Development at its third session;

3. Decides that the Commission should assist the United Nations system in identifying and promoting replicable demonstration activities and programmes, involving different countries from diverse regions, that apply science and technology to the satisfaction of basic needs, and recommends that the operational mechanisms of the United Nations system, including the Department for Development Support and Management Services of the United Nations Secretariat, the regional commissions and other relevant organizations, such as the United Nations Development Programme, disseminate information and facilitate the application of science and technology in meeting basic needs;

4. Recognizes that the role of the United Nations in promoting better awareness of relationships between gender and science and technology is crucial, and requests the Secretary-General and United Nations organs and bodies to consider and take the necessary action to implement the recommendations addressed to the United Nations system contained in the report of the Panel on the Gender Implications of Science and Technology for Developing Countries, 8/ and to report thereon to the Commission at its subsequent sessions;

5. Recommends that all Governments adopt the Declaration of Intent on Gender, Science and Technology for Sustainable Human Development set out in the annex to the present resolution, conduct reviews of the national situation regarding gender and science and technology through special committees within or outside existing suitable mechanisms, formulate action plans, and report publicly and to the Commission on progress in achieving the goals of the declaration of intent by the end of 1996 and 1998, and calls upon donor countries and agencies to assist the follow-up activities of the committees;

6. Recommends that the principles set out in the report of the Panel on the Science and Technology Aspects of the Sectoral Issue on science and

technology for integrated land management ^{9/} be further elaborated to provide guidelines for the application of technologies that support integrated land management under site- and region-specific conditions, and, for that purpose, invites the Food and Agriculture Organization of the United Nations, the United Nations Environment Programme, the United Nations Centre for Human Settlements (Habitat) and the International Fund for Agricultural Development, in cooperation with the regional commissions, where appropriate, to elaborate such guidelines and work together with a view to designing programmes to address specific land management problems and assisting developing countries and economies in transition in implementing such programmes and sharing the information thus obtained;

7. Notes that the research and development systems in most developing countries, in particular the least developed countries, and in some countries with economies in transition, do not provide sufficient support to the improvement of sustainable industrial development in those countries, and recommends that the international community, through multilateral and bilateral aid and, generally, through the enhancement of linkages with enterprises, universities, foundations, research institutes, scientific laboratories, trade and professional associations, and other channels and mechanisms for international scientific and technological cooperation, should strengthen its support for countries undertaking reforms in their research and development systems and their efforts in building innovative capacities;

8. Requests Governments and intergovernmental and non-governmental organizations to give priority to effective access to networks, such as the Internet, by scientific and technical institutions in developing countries, in particular the least developed countries, and countries with economies in transition, through the provision of technical and other support for related investments, and to facilitate appropriate electronic communication among institutions engaged in science and technology for development;

9. Requests the Commission on Science and Technology for Development and the United Nations Conference on Trade and Development to liaise in establishing a programme of country reviews on science, technology and innovation policy for interested countries, also requests the Commission to consider providing advisory inputs, analytical support and evaluation, as need be, in the carrying out of such country reviews, and requests the United Nations Development Programme to explore the possibilities of contributing to the funding of such activities from its centrally controlled resources.

10. Recognizes that technological capacity-building is a major factor in the process of effective technology transfer and long-term growth, and invites the United Nations system and the international community to support the implementation of projects specially designed to foster technological capacity-building in interested countries, including least developed countries;

11. Recalls the agreed conclusions on coordination of the policies and activities of the specialized agencies and other bodies of the United Nations system related to science and technology for development adopted at its substantive session of 1994, ^{10/} and, in that context, decides that the Commission, in its substantive work, should maximize coordination in undertaking

its inter-sessional studies on specific issues by relating actively to competent United Nations organs and agencies, as well as other multilateral organizations;

12. Decides that the Commission, in reviewing the activities of the United Nations system in science and technology, should highlight innovative programme concepts and designs of common interest and bring them to the attention of the science and technology community, with an indication of their resource implications, and should use them as a basis for building ad hoc resource coalitions;

13. Decides also that the main substantive theme that will constitute the focus of the work of the Commission during the inter-sessional period 1995-1997 will be information technologies and their implications for development;

14. Decides further to set up panels and/or working groups to analyse, elaborate and make recommendations on issues related to information technologies, possibly including:

(a) Analysis of the application of information technologies in different groups of countries with a view to making recommendations to enhance the diffusion of information technologies in key sectors of their economies;

(b) The implications of the revolutionary improvements in the cost effectiveness of information technologies for the development of a global information infrastructure;

(c) Implications for the promotion of sustainable development, including the sustainable use of natural resources and the reduction of environmental degradation;

(d) The implications of such improvements for more effectively meeting basic human needs, such as education, health, water and food;

(e) The effects of information technology on social cohesion, economic growth and cultural values, including such issues as gender, employment, small-scale economic activities, production capability, improved governance and increased participation in the decision-making process;

(f) Public policy, legal, regulatory, institutional, financial, market, human resource and infrastructural requirements for the diffusion and application of information technology;

(g) Examination of the programmes of the organs, organizations and bodies of the United Nations system that relate to the global information infrastructure and their impacts, and the ways in which improved coordination and new avenues to be opened up for the coalition of resources could better assist developing countries and countries with economies in transition in gaining more effective access to information technology and participating to a greater extent in the development and application of information technology;

(h) Assessment of experiences and progress made with regard to access to networks, as referred to in paragraph 8 of the present resolution;

15. Notes the recommendations adopted at the Consultative Meeting on a Coalition of Resources for Science and Technology for Development; 11/

11/ See E/CN.16/1995/11.

recommends that, at the international level, a coalition of resources should focus on specific themes and common goals among recipients, donors and international financing institutions, including the World Bank and the regional development banks; that such themes and common goals should be based on voluntary and informal mechanisms that promote the full interaction of both donors and recipients; and that the feasibility of building science and technology into existing and broader coordination schemes should be considered; and also recommends that the Commission should provide a forum for exchanging views and interaction among partners of different networks and coordination schemes in the area of science and technology for development, drawing lessons from past experience in that area, a forum that could be held either as a segment of its biennial sessions or as an inter-sessional activity, as required and defined by the Commission in consultation with relevant United Nations bodies and international organizations;

16. Welcomes the important contribution to the work of the Commission on Sustainable Development made by the Commission on Science and Technology for Development in the area of integrated land management, and invites the Commission on Science and Technology for Development to continue contributing substantively and constructively to the work of the Commission on Sustainable Development on the science and technology components of Agenda 21; 12/

17. Invites the Commission on Science and Technology for Development to give consideration to ways and means of taking advantage of the twentieth anniversary of the United Nations Conference on Science and Technology for Development, held at Vienna from 20 to 31 August 1979, for the formulation of a common vision for the future contribution of science and technology for development;

18. Recognizes the importance of clean and safe energy technologies in the pursuit of sustainable development, and recommends that the Commission secretariat, in consultation with the Committee on New and Renewable Sources of Energy and on Energy for Development and other relevant international bodies, submit to the Commission at its third session an issues note that should identify scientific and technological aspects of sustainable energy systems that might be considered by the Commission in defining its future work programme;

19. Takes note of the report by the secretariat of the United Nations Conference on Trade and Development entitled "Scientific and technological aspects of the conversion of military capacities for civilian use and sustainable development: an overview of the main issues", 13/ and recommends the continuation of the work of the Commission on scientific and technological aspects of the conversion of military capacities in close cooperation with other relevant bodies of the United Nations system and with other organizations;

20. Expresses its appreciation to the Commission secretariat for its work in preparing timely and substantive documentation for the second session, reiterates its earlier decision that responsibility for implementation of the Commission's programme rests with members of the Commission, and that the

21. Requests the Secretary-General to provide the necessary resources for convening at least four inter-sessional ad hoc panels/workshops on specific issues in the field of science and technology, which will provide crucial input into the work of the Commission in terms of independent, specialized and expert advice;

22. Recognizes with appreciation the financial contributions made by Governments, foundations, institutions and individual donors to the work of the panels, as well as the important support received to that end from individuals, experts and non-governmental groups and United Nations bodies, and encourages them and all appropriate institutions to continue and enhance their support of the activities of the Commission in the inter-sessional period 1995-1997.

DECLARATION OF INTENT ON GENDER, SCIENCE AND TECHNOLOGY FOR SUSTAINABLE HUMAN DEVELOPMENT

All Governments agree to work actively towards the following goals:

1. To ensure basic education for all, with particular emphasis on scientific and technological literacy, so that all women and men can effectively use science and technology to meet basic needs.
2. To ensure that women and men have equal opportunities to acquire advanced training in science and technology and to pursue careers as technologists, scientists and engineers.
3. To achieve gender equity within science and technology institutions, including policy and decision-making bodies.
4. To ensure that the needs and aspirations of women and men are equally taken into account in the setting of research priorities and in the design, transfer and application of new technologies.
5. To ensure that all women and men have equal access to the information and knowledge, particularly scientific and technological knowledge, that they need to improve their standard of living and quality of life.
6. To recognize local knowledge systems, where they exist, and their gender-specific nature as a source of knowledge that is complementary to modern science and technology and is also valuable for sustainable human development.

1995/5. Work of the Committee of Experts on the
Transport of Dangerous Goods

The Economic and Social Council,

Recalling its resolution 1993/50 of 29 July 1993,

Noting the increasing volume of dangerous goods in world-wide commerce and the rapid expansion of technology and innovation,

Bearing in mind the continuing need to meet the growing concern for the protection of life, property and the environment through the safe transport of dangerous goods while facilitating trade,

Aware that, in order to achieve internationally harmonized laws, the Economic Commission for Europe, the specialized agencies and other international organizations involved in activities related to the transport of dangerous goods and interested Member States have responded positively to the Council's various resolutions adopted since 15 April 1953, and that, being committed to taking the recommendations of the Committee of Experts on the Transport of Dangerous Goods as a basis for the formulation of their requirements and regulations, including those concerning labelling and classification, those organizations therefore rely on the work of the Committee,

Noting the activities of the Economic Commission for Europe and the Central Office for International Carriage by Rail, as well as projects of other international organizations for restructuring their regulations applicable to the transport of dangerous goods,

Noting also the advice of the Committee to the effect that reformatting the provisions applicable to all modes of transport contained in the Recommendations on the Transport of Dangerous Goods into a model regulation, annexed to a basic recommendation, that could be directly integrated into all modal national and international regulations would enhance harmonization, facilitate regular updating of all instruments concerned by the relevant organizations or regulatory authorities, and result in overall considerable resource savings for the Governments of the Member States, the United Nations, the specialized agencies and other international organizations,

1. Takes note of the report of the Secretary-General on the work of the Committee of Experts on the Transport of Dangerous Goods during the biennium 1993-1994 14/ and of the new and amended recommendations approved by the Committee for inclusion in its existing recommendations, 15/ including a rationalized Manual of Tests and Criteria; 16/

2. Commends the Secretary-General for the timely publication of the eighth revised edition of the Recommendations on the Transport of Dangerous Goods 17/ in all the official languages of the United Nations;

1995/6. Role of the Committee of Experts on the Transport of Dangerous Goods in the development of a harmonized system of classification and labelling of chemicals for implementing chapter 19 of Agenda 21

The Economic and Social Council,

Recalling its resolution 468 (XV) G of 15 April 1953, in which it established the terms of reference of the Committee of Experts on the Transport of Dangerous Goods, in particular with regard to its role in recommending and defining groupings or classifications of dangerous goods on the basis of the character of risk involved, and recommending marks or labels for each grouping or classification which should identify the risk graphically and without regard to printed text,

Recalling also its resolution 645 (XXVIII) G of 26 April 1957, in which it invited the Secretary-General to continue his consultations with the Director-General of the International Labour Office on the best means of avoiding any overlapping of the work of the Committee with any work being undertaken in this field by the International Labour Organization,

Recalling further its resolution 1993/50 of 29 July 1993, in which it invited all Governments and the international organizations concerned with the implementation of chapter 19 of Agenda 21, 12/ and participating in the development of a globally harmonized system of classification and labelling of chemicals, to avoid duplication of work and to ensure that, to the greatest extent possible, the new system drew on, or was compatible with, the internationally well-recognized and implemented system developed by the Committee,

Bearing in mind that the Commission on Sustainable Development, at its second session, when reviewing progress in the implementation of Agenda 21 and, in particular, the sectoral cluster "Toxic chemicals and hazardous wastes", endorsed the priorities for action for the implementation of chapter 19 of Agenda 21, adopted by the International Conference on Chemical Safety, held at Stockholm from 25 to 29 April 1994, and welcomed in particular the targets and timetables agreed upon, 18/ including the date of 1997 for finalization of the technical work on classification criteria, 19/ and that the Commission called upon United Nations bodies and other international organizations to improve

international coordination to avoid unnecessary duplication of efforts and to strengthen the International Programme on Chemical Safety, 20/

Recalling its decision 1994/300 of 29 July 1994, in which it endorsed the decisions and recommendations contained in the report of the Commission on Sustainable Development, 21/ with the exception of that contained in chapter I, paragraph 24, and invited, inter alia, organs of the United Nations system to implement those decisions and recommendations and to take the necessary action to give them effective and transparent follow-up,

Noting that the Committee, to accelerate the work on global harmonization, is already cooperating with the International Labour Office, the World Health Organization, the United Nations Environment Programme and the Organisation for Economic Cooperation and Development with regard to criteria for health hazards and hazards to the environment,

Noting also that the Committee, after four years of fruitful work, has just finalized an extensive revision of its Manual of Tests and Criteria, 16/ related to the classification of flammable, explosive and reactive materials,

Noting further that the Director of the International Programme on Chemical Safety and the Director of the Working Conditions and Environment Department of the International Labour Office have requested the Committee to elaborate proposals for globally harmonized criteria for the classification of flammable, explosive and reactive materials, on the basis of the newly revised Manual of Tests and Criteria, which should take account of aspects not necessarily covered under transport safety regulations, that is, of other aspects such as the protection of workers, consumers and the general environment, in collaboration with experts in those aspects, 22/

Confirming the need for the Committee to participate actively in relevant activities associated with the implementation of Agenda 21, and to cooperate not only with international bodies involved in activities related to the transport of dangerous goods but also with those involved in other aspects of chemical safety,

1. Notes with satisfaction that the Committee of Experts on the Transport of Dangerous Goods has taken the necessary steps to collaborate with the international bodies and international organizations concerned with the implementation of chapter 19 of Agenda 21, in particular for the purpose of establishing and elaborating a harmonized classification and labelling system for chemicals, and to strengthen its links with the International Programme on Chemical Safety;

2. Requests the Committee, as a high priority in its work programme in accordance with Council resolution 1995/5 of 19 July 1995 on the work of the Committee:

(a) To elaborate, by the end of 1996, as requested by the International Programme on Chemical Safety and the International Labour Organization,

proposals for globally harmonized criteria for the classification of flammable, explosive and reactive materials, on the basis of the newly revised Manual of Tests and Criteria, taking account of aspects not necessarily covered under transport safety regulations, such as the protection of workers, consumers and the general environment, in collaboration with experts from the International Labour Organization and the Programme;

(b) To continue collaboration with the International Programme on Chemical Safety for the implementation of chapter 19 of Agenda 21;

3. Requests the Secretary-General to convene, in consultation with the Director-General of the International Labour Office, meetings of experts in the classification of physical hazards during sessions of the Subcommittee of Experts on the Transport of Dangerous Goods, or in conjunction with those sessions, taking into account, on the one hand, the programme of work of the Committee and its Subcommittee and, on the other, the calendar of conferences and the availability of resources to service such meetings.

1995/7. 2000 World Population and Housing Census Programme

The Economic and Social Council,

Recalling its resolution 1985/8 of 28 May 1985, in which it requested the Secretary-General to proceed with the development of a 1990 World Population and Housing Census Programme and recommended that States Members of the United Nations should undertake to carry out population and housing censuses during the period 1985-1994, as well as its earlier resolutions endorsing previous decennial programmes,

Noting with satisfaction the great efforts made by countries to carry out population and housing censuses as part of the 1990 World Population and Housing Census Programme and also the activities of the United Nations and funding agencies in support of national efforts in that regard,

Recognizing the increasing importance of the 2000 round of population and housing censuses for meeting data needs for the follow-up activities to the International Conference on Population and Development, held at Cairo from 5 to 13 September 1994, the World Summit for Social Development, held at Copenhagen from 6 to 12 March 1995, the Fourth World Conference on Women, to be held at Beijing from 4 to 15 September 1995, and the United Nations Conference on Human Settlements (Habitat II), to be held at Istanbul from 3 to 14 June 1996, and to other regional and national meetings,

Stressing that periodic population and housing censuses for a country as a whole and for each administrative area therein are one of the primary sources of data needed for effective development planning and the monitoring of population issues and socio-economic and environmental trends, policies and programmes aimed at the improvement of living standards,

Stressing also that population and housing censuses provide valuable statistics and indicators for assessing the situation of various special population groups, such as those affected by gender issues, children, youth, the

elderly, persons with an impairment/disability/handicap and the homeless and migrant population, and changes therein,

1. Urges Member States to carry out population and housing censuses during the period 1995-2004, taking into account international and regional recommendations relating to population and housing censuses and giving particular attention to advance planning and timely dissemination of census results to all users;

2. Calls upon Member States to continue to provide census results to the United Nations and other appropriate intergovernmental organizations to assist in studies on population, environment and socio-economic development issues and programmes;

3. Requests the Secretary-General to proceed with the development of the 2000 World Population and Housing Census Programme and to make the necessary preparations with a view to assisting countries in the successful implementation of the Programme.

Requests the Secretary-General to pay particular attention to the operational aspects of the follow-up to the Ninth Congress in order to assist interested States in strengthening the rule of law by reinforcing their national machinery, promoting human resource development, undertaking joint training activities and executing pilot and demonstration projects, and urges the Department for Development Support and Management Services of the Secretariat, the United Nations Development Programme, the World Bank, and other funding agencies to continue to provide financial support and assistance within the framework of their technical cooperation programmes;

7. Urges all entities of the United Nations system, including the regional commissions, and the regional institutes for the prevention of crime and the treatment of offenders and the relevant intergovernmental and non-governmental organizations to become actively involved in the implementation of the resolutions and recommendations of the Ninth Congress, paying particular attention to the needs and priorities identified by Member States;

Annex

GUIDELINES FOR COOPERATION AND TECHNICAL ASSISTANCE IN THE FIELD OF URBAN CRIME PREVENTION

A. Design and implementation of cooperation and assistance activities

1. Cooperation projects for urban crime prevention should take account of the principles set out below.

1. Local approach to problems

2. Urban crime is characterized by a multiplicity of factors and forms. A multi-agency approach and a coordinated response at the local level, in accordance with an integrated crime prevention action plan, will often be helpful. This should involve:

(a) A local diagnostic survey of crime phenomena, their characteristics, factors leading to them, the form they take and their extent;

(b) The identification of all the relevant actors that could take part in compiling the above-mentioned diagnostic survey in crime prevention as well as in the fight against crime, for example public institutions (national or local), local elected officials, the private sector (associations, enterprises), the voluntary sector, community representatives etc.;

(c) The establishment, wherever appropriate, of consultation mechanisms promoting closer liaison, the exchange of information, joint work and the design of a coherent strategy;

(d) The elaboration of possible solutions to these problems in the local context.

2. Integrated crime prevention action plan

3. The authors of an integrated crime prevention action plan, in order for it to be comprehensive and efficient, should:

(a) Define:

(i) The nature and types of crime problems to be tackled, such as theft, robbery, burglary, racial attacks, drug related crimes, juvenile delinquency and illegal possession of firearms, taking into account all the factors that may directly or indirectly cause such problems or contribute to them;

(ii) The objectives being pursued and the time by which they should be attained;

(iii) The action envisaged and the respective responsibilities of those involved vis-à-vis the implementation of the plan (for example, whether local or national resources are to be mobilized);

(b) Consider involving a range of actors representing in particular:

(i) Social workers and education, housing and health workers, in addition to the police, the courts, public prosecutors and probation services etc.;

(ii) The community: elected officials, associations, volunteers, parents, victims' organizations etc.;

(iii) The economic sector: enterprises, banks, business, public transport etc.;

(iv) The media;

(c) Consider the relevance to the crime prevention action plan of such factors as:

(i) Relationships in the family, between generations or between social groups etc.;

(ii) Education, religious, moral and civic values, culture etc.;

(iii) Employment, training, measures for combating unemployment and poverty;

(iv) Housing and urbanism;

(v) Health, drug and alcohol abuse;

- (vi) Government and community welfare aid for the least fortunate members of society;
- (vii) Combating the culture of violence and intolerance;
- (d) Consider providing for action at various levels:
 - (i) Primary prevention:
 - a. By promoting situational criminal prevention measures, such as target hardening and opportunity reduction;
 - b. By promoting welfare and health development and progress and by combating all forms of social deprivation;
 - c. By promoting communal values and respect for fundamental human rights;
 - d. By promoting civic responsibility and social mediation procedures;
 - e. By facilitating the adaptation of the working methods of the police and the courts;
 - (ii) Prevention of recidivism:
 - a. By facilitating the adaptation of methods of police intervention (rapid response, intervention within the local community etc.);
 - b. By facilitating the adaptation of methods of judicial intervention and implementation of alternative remedies:
 - i. Diversification of methods of treatment and of measures taken according to the nature and seriousness of the cases (diversionary schemes, mediation, a special system for minors etc.);
 - ii. Systematic research on the reintegration of offenders involved in urban crime through the implementation of non-custodial measures;
 - iii. Socio-educational support within the framework of the sentence, in prison and as preparation for release from prison;
 - c. By giving an active role to the community in the rehabilitation of offenders;
- (iii) After the sentence has been served: aid and socio-educational support, family support etc.;
- (iv) Protection of victims by practical improvements in their treatment by means of the following:
 - a. Raising awareness of rights and how to exercise them effectively;

- b. Reinforcing rights (in particular the right to compensation);
- c. Introducing systems of victim assistance.

B. Implementation of the action plan

1. Central authorities

4. The central authorities, to the extent consistent with their competence, should:

- (a) Provide active support, assistance and encouragement to local actors;
- (b) Coordinate national policy and strategies with local strategies and needs;
- (c) Organize consultation and cooperation mechanisms between the various administrations concerned at the central level.

2. Authorities at all levels

5. Competent authorities at all levels should:

- (a) Be constantly mindful of respect for the fundamental principles of human rights in promoting these activities;
- (b) Encourage and/or implement appropriate training and information to support all professionals involved in crime prevention;
- (c) Compare experiences and organize exchanges of know-how;
- (d) Provide a means of evaluating regularly the effectiveness of the strategy implemented and provide for the possibility of revising it.

1995/10. Criminal justice action to combat the organized smuggling of illegal migrants across national boundaries

The Economic and Social Council,

Recalling that the General Assembly, in its resolution 48/102 of 20 December 1993, requested the Commission on Crime Prevention and Criminal Justice at its third session to consider giving special attention to the question of the smuggling of aliens, in order to encourage international cooperation to address that problem within the framework of its mandate,

Recalling also its resolution 1994/14 of 25 July 1994, adopted on the recommendation of the Commission on Crime Prevention and Criminal Justice at its third session, in which it, inter alia, condemned the practice of smuggling illegal migrants, recognized that such smuggling was a widespread criminal activity frequently involving highly organized international syndicates, acknowledged the substantial role played by organized transnational crime in such smuggling and called upon all States to take effective and expeditious measures, such as the enactment or amendment of domestic criminal law, providing

appropriate penalties to combat all aspects of organized crime activities constituting such smuggling,

Alarmed by the significant increase in the activities of transnational criminal organizations that profit illicitly by smuggling illegal migrants and threatening the lives and human rights of migrants,

Concentrating its attention on crime prevention and criminal justice, in particular the activities of those who organize and facilitate the smuggling of illegal migrants,

Recognizing that organized international criminal groups are becoming increasingly active and successful in smuggling individuals across national boundaries,

Recognizing also that by trafficking in illegal migrants such criminal groups often make enormous profits that are frequently used to finance numerous other criminal activities, thus bringing great harm to the States concerned,

Concerned that such activities endanger the lives of the individual migrants involved and entail severe costs for the international community, including the costs of rescue, medical care, food, housing and transportation,

Acknowledging that socio-economic factors influence the problem of illegal migrant smuggling and also contribute to the complexity of current international migration,

Aware that smugglers, particularly in the State of destination of the illegal migrants being smuggled, often force migrants into forms of debt bondage or servitude, commonly involving criminal activities, in order to pay for their passage,

Convinced of the need for all States to provide humane treatment and to protect fully the human rights of migrants,

Recognizing that such illegal migrant smuggling has high social and economic costs, often contributing to official corruption, and burdens law enforcement agencies in all States where illegal migrants transit or are found,

Recalling the undertaking of States parties to the Supplementary Convention on the Abolition of Slavery, the Slave Trade, and Institutions and Practices Similar to Slavery, 32/ done at Geneva on 7 September 1956, to take all practicable and necessary legislative and other measures to bring about progressively and as soon as possible the complete abolition or abandonment of the practice of debt bondage,

Reaffirming respect for the sovereignty and territorial integrity of all States, including their right to control immigration flows,

Concerned that the smuggling of illegal migrants undermines public confidence in policies and procedures for lawful immigration and for ensuring the protection of genuine refugees,

Noting that the smuggling of illegal migrants can involve criminal activities in many States, including the State where the smuggling scheme was

32/ United Nations, Treaty Series, vol. 266, No. 3822.

planned, the State of nationality of the migrants, the State where the means of transport was prepared, the flag State of any vessels or aircraft that transport the migrants, States through which the migrants transit to their destination or in order to be repatriated, and the State of destination,

Commending those States that have enacted effective domestic legislation permitting seizure and forfeiture of all property, both real and personal, that is knowingly used in organized criminal activities aimed at smuggling illegal migrants, as well as all property, both real and personal, that constitutes, or is derived from, the proceeds of the smuggling, illegal transport, or labour of illegal migrants,

Gravely concerned that a significant number of States have not yet enacted domestic criminal legislation to combat all aspects of the smuggling of illegal migrants,

1. Condemns once again the practice of smuggling illegal migrants in violation of international standards and national law, and without regard to the safety, well-being and human rights of the migrants;

2. Recognizes that the smuggling of illegal migrants continues to be a widespread international criminal activity frequently involving highly organized international syndicates that traffic in human cargo, without regard for the dangerous and inhumane conditions to which illegal migrants are subjected, and in flagrant violation of domestic laws and international standards;

3. Acknowledges the substantial and harmful role played by organized transnational crime in activities related to the smuggling of illegal migrants in many parts of the world;

4. Urges States to share information, to coordinate law enforcement activities between national authorities in cooperation with the competent international bodies and carriers engaged in international transport, and otherwise to cooperate, if their law permits, in order to trace and arrest those who organize the smuggling of illegal migrants and to prevent the illegal transport by smugglers of third-country nationals through their territory;

5. Calls upon Member States and relevant specialized agencies and international organizations to take into account socio-economic factors and to cooperate at the bilateral and multilateral levels in addressing all aspects of the problem of organized smuggling of illegal migrants, including by promoting technical assistance so as to assist countries, at their request, in developing and implementing policies to prevent and criminalize clandestine traffic in illegal migrants and to punish those who engage in organizing such activity;

6. Reaffirms the need to observe fully international and national law in dealing with the smuggling of illegal migrants, including the provision of humane treatment and strict observance of all human rights of migrants;

7. Reiterates that international efforts to prevent the smuggling of illegal migrants should not inhibit legal migration or freedom of travel, or undercut the protection provided by international law to refugees;

8. Encourages States to take prompt and effective preventive measures, such as increasing vigilance at coastal ports, airports and land borders, as well as enhancing the professional skills of relevant personnel, to frustrate

the objectives and activities of those who organize the smuggling of illegal migrants, thus protecting would-be migrants from exploitation and loss of life;

9. Calls upon all States that have not yet done so to take effective and expeditious measures such as the enactment or amendment if necessary of domestic criminal law, with a range of enforcement measures, providing appropriate penalties to combat all aspects of organized criminal activities constituting the smuggling and transport of illegal migrants, such as the production or distribution of false travel documents, money-laundering, extortion and misuse of international commercial aviation and maritime transport in violation of international standards;

10. Welcomes the report of the Secretary-General 33/ and the note by the Secretariat 34/ on measures taken by Member States and relevant specialized agencies and intergovernmental organizations to combat the smuggling of illegal migrants, which were prepared pursuant to General Assembly resolution 48/102;

11. Requests the Secretary-General to remind Member States that have not yet done so of the importance of responding to the notes verbales sent to all Member States on 10 February and 9 June 1994 concerning the criminal legislation that they have enacted and other measures that they have taken to combat the smuggling of illegal migrants, and to submit to the Commission on Crime Prevention and Criminal Justice at its fifth session an updated report on measures to combat such smuggling, containing a compilation and an analysis of the responses of Member States;

12. Decides that the ever-growing problem of organized smuggling of illegal migrants across national borders requires the continuing scrutiny of the international community in general and should be considered by the Commission on Crime Prevention and Criminal Justice at its fifth session in the context of the broader problem of organized transnational crime.

1995/11. Implementation of the Naples Political Declaration and Global Action Plan against Organized Transnational Crime

The Economic and Social Council,

Recalling General Assembly resolution 49/159 of 23 December 1994, in which the Assembly approved the Naples Political Declaration and Global Action Plan against Organized Transnational Crime, 35/ adopted by the World Ministerial Conference on Organized Transnational Crime, held at Naples, Italy from 21 to 23 November 1994, and urged States to implement them as a matter of urgency,

1995/12. Establishment of a clearing-house for international projects in the field of crime prevention and criminal justice

The Economic and Social Council,

Recalling General Assembly resolution 46/152 of 18 December 1991, in which the Assembly decided that the United Nations crime prevention and criminal justice programme should be devoted to providing States with practical assistance to achieve the goals of preventing crime and improving the response to crime,

Recalling also its resolution 1994/22 of 25 July 1994, in which it requested the Secretary-General to establish a database on technical assistance, integrating needs of Member States, particularly developing countries, as well as on existing collaborative arrangements and funding, taking into account regional concerns,

Recognizing the need for maximum efficiency and effective utilization of increasingly scarce developmental assistance at a time of growing difficulties in the prevention and control of crime,

Recognizing also that improving the clearing-house capacity of the United Nations crime prevention and criminal justice programme requires a steady and concerted effort on the part of Member States and other entities including institutes cooperating within the programme to work more closely and effectively in advancing the electronic exchange of information, the computerization of the administration of criminal justice, and the collection and dissemination of crime and justice information,

Recognizing further that the improvement of the clearing-house capacity of the United Nations crime prevention and criminal justice programme requires continuous efforts to create and maintain databases on current crime and justice developments globally, regionally and subregionally, the information from which should be made available through the computerized United Nations Crime and Justice Information Network, as part of a broader clearing-house function carried out by that programme,

Conscious that the present capacity of the Crime Prevention and Criminal Justice Branch of the Secretariat lags behind the growing need to provide timely information at the request of Member States and other interested parties, and that the management of the databases listed in the programme budget for the Branch requires a coordinated effort on the part of those parties,

Having considered the report of the Secretary-General on proposals for improving the clearing-house capacity of the United Nations crime prevention and criminal justice programme, 39/ prepared in response to resolution 3/3 of 5 May 1994 of the Commission on Crime Prevention and Criminal Justice, 40/

Noting that, in recent years, many international projects on crime prevention and criminal justice have targeted States in central and eastern Europe,

39/ E/CN.15/1995/6/Add.1.

40/ See Official Records of the Economic and Social Council, 1994, Supplement No. 11 (E/1994/31), chap. I, sect. C.

Fully aware that international cooperation is essential to successful efforts against international criminal activity,

Recognizing that there is no existing central repository with information on planned, ongoing or projected training and other projects in the field of crime prevention and criminal justice,

Taking note of the report of the Secretary-General on proposals for improving the clearing-house capacity of the United Nations crime prevention and criminal justice programme, which consolidate the approach to relevant crime and justice information activities that should be further intensified and made operational,

Taking note also of the initiatives taken by the European Institute for Crime Prevention and Control, affiliated with the United Nations, in the areas to which the present resolution refers,

1. Requests the Secretary-General, subject to the availability of extrabudgetary funds, to initiate a project to establish a regional database on international training and technical assistance projects in the field of crime prevention and criminal justice which, upon completion, would provide interested Governments, international organizations and other entities with information on concluded, ongoing or planned international projects in consultation and cooperation with the European Institute for Crime Prevention and Control, affiliated with the United Nations, which has offered to manage the database;

2. Invites all Member States, international organizations and other entities engaged in collaborative training and technical assistance projects in central and eastern Europe in the field of crime prevention and criminal justice to provide, to the extent of their ability, information to the Secretary-General for a regional clearing-house to facilitate the exchange of information to assist policy makers in all Member States in better allocating resources, identifying potential partners in cooperative projects and opportunities for collaborative action and improving support for an incremental approach to better prevent crime and ensure criminal justice, on the understanding that all information provided to the database may be restricted at the request of the provider;

3. Takes note of the form for providing information on technical assistance in the field of crime prevention and criminal justice, contained in annex II to the report of the Secretary-General on the technical cooperation and advisory services of the United Nations crime prevention and criminal justice programme; 41/

4. Recommends that the Secretary-General should view the project as a pilot project aimed at demonstrating the utility of a regional database on crime prevention and criminal justice, with a view to considering additional regional databases, or a global database;

5. Requests the Secretary-General to submit the results of the pilot project to the Commission on Crime Prevention and Criminal Justice at its fifth session.

DRAFT INTERNATIONAL CODE OF CONDUCT FOR PUBLIC OFFICE HOLDERS a/

I. GENERAL PRINCIPLES

1. A public office, as defined by national law, is a position of trust, implying a duty to act in the public interest. Therefore, the primary loyalty of public office holders shall be to the public interests of their country as expressed through the democratic institutions of government, and not to persons, political parties or specific government departments or agencies.

2. Public office holders shall ensure that they perform their functions in an efficient and effective manner. They shall at all times seek to ensure that

a/ The draft international code of conduct for public office holders was prepared by the Secretariat pursuant to resolution 7 of the Eighth United Nations Congress on the Prevention of Crime and the Treatment of Offenders. An earlier version of it was contained in annex II to the discussion guide on demonstration and research workshops (A/CONF.169/PM.1/Add.1). The Commission on Crime Prevention and Criminal Justice reviewed the draft and commented on it at its third session. Pursuant to Economic and Social Council resolution 1994/19, adopted on the recommendation of the Commission, the Director-General of the United Nations Office at Vienna sent the draft code to Member States seeking their comments. To date only two countries have provided comments and suggestions for amendments. The draft code in its present form was prepared by the Secretariat in the light of those comments and suggestions, the observations made during the third and fourth sessions of the Commission, and the input of the five regional preparatory meetings for the Ninth Congress. Revisions in the text are clearly marked for ease of reference.

The deletions mentioned in the notes below refer to words appearing in the version of the draft international code contained in the discussion guide (A/CONF.169/PM.1/Add.1, annex II) or in the background paper prepared by the Secretariat on international action against corruption (A/CONF.169/14, annex I).

1995/17. Enhanced regional cooperation to reduce the risks of drug abuse

The Economic and Social Council,

Alarmed at the escalation of drug abuse problems and at the increase in the range of substances being abused in all regions,

Recognizing that the negative implications of drug abuse have global, regional and national dimensions,

Also recognizing the negative consequences caused by the abuse of licit drugs,

Alarmed at the increasing rate of infection by the human immunodeficiency virus (HIV), hepatitis C and other blood-borne viruses associated with injecting drug use,

Deeply concerned that illicit demand for, production of, and trafficking in narcotic drugs and psychotropic substances are taking on new dimensions that threaten public health and the social, economic and political conditions in affected countries and areas,

Reaffirming the determination of the international community to fight against drug abuse and illicit trafficking in accordance with international law and, in particular, with respect for the principle of sovereignty and territorial integrity of States,

Recognizing that the Comprehensive Multidisciplinary Outline of Future Activities in Drug Abuse Control adopted by the International Conference on Drug Abuse and Illicit Trafficking 55/ and the Global Programme of Action adopted by the General Assembly at its seventeenth special session, 56/ on 23 February 1990, serve as useful guidelines for developing and implementing strategies to fight against the problems of drug abuse and illicit trafficking,

59/ NAR/INF/1982/5.

Commending the initiatives and collaborative efforts of many countries and the establishment of regional coordinating bodies,

Recognizing the progress achieved by the United Nations International Drug Control Programme in the development and implementation of subregional strategies, and commending it for its efforts,

Noting the success of the Asia Pacific Conference on Drug Abuse: a Balanced Approach, held at Sydney, Australia, from 29 May to 2 June 1994, and the declaration adopted by that Conference, in which countries of the region reaffirmed their commitment to the following goals: coordinating and implementing comprehensive measures in both supply and demand reduction; a partnership between health, law enforcement and other relevant agencies, including non-governmental organizations; and effectively addressing the health and social consequences of substance abuse,

Aware of the need for a more comprehensive, integrated and collaborative approach to control the supply of, and demand for, all drugs of abuse, in close cooperation with relevant organizations of the United Nations system and other regional and international organizations,

Recognizing that the complexity of the drug problem requires all sections of the community and Government to work together,

Also recognizing the importance of developing and implementing comprehensive national strategic plans that incorporate a range of supply and demand reduction measures and take into account the social, economic and cultural conditions of individual countries, of establishing national coordinating mechanisms with the involvement of personnel responsible for both law enforcement and demand reduction, of identifying national priorities and coordinating the implementation of strategic plans, and of providing mechanisms for evaluation and, where necessary, redirection of strategies,

Recognizing the need for countries to adopt a range of culturally appropriate prevention strategies, including treatment, education, information and rehabilitation, and addressing the social and family problems that may lead to drug abuse and the transmission of infectious diseases, such as acquired immunodeficiency syndrome and hepatitis, through the use of shared injecting equipment,

1. Urges all States and relevant organizations to strengthen their efforts to cooperate with the United Nations International Drug Control Programme in the development and implementation of subregional strategies and to give meaning and substance to the United Nations Decade against Drug Abuse;

1995/18. Promoting the use of memoranda of understanding to facilitate cooperation between customs authorities and other competent administrations and the international trading community, including commercial carriers

The Economic and Social Council,

Deeply concerned about the unlawful use of commercial carriers for the illicit traffic in narcotic drugs and psychotropic substances and in precursors and essential chemicals,

Recalling its resolution 1993/41 of 27 July 1993,

Recalling also article 15 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, 60/ which provides for cooperation between appropriate authorities, including customs and commercial carriers,

Recognizing the importance of the use of memoranda of understanding concluded between the World Customs Organization, originally established as the Customs Cooperation Council, and international trade and transport organizations, as a means to improving cooperation in combating illicit drug trafficking,

Noting that a review undertaken by the World Customs Organization of the effectiveness of the programme of memoranda of understanding has revealed that both customs operations and trade have benefited from the adoption of such a programme,

Noting also that an increasing number of States have implemented memoranda of understanding,

Noting further that the adoption of a programme of memoranda of understanding has enabled States to improve the capacity of their law enforcement agencies to target and intercept illicit drug trafficking without hindering the free movement of innocent persons and legitimate international trade,

60/ United Nations publication, Sales No. E.91.XI.6.

1. Commends the World Customs Organization for its work in demonstrating the effectiveness of the programme of memoranda of understanding developed at both national and international levels to combat illicit drug trafficking;

4. Also invites more countries and trade organizations to take part in the programme of memoranda of understanding;

5. Urges all States that have not already done so to implement fully article 15 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, by taking appropriate measures to prevent the use of commercial means of transport for the trafficking of illicit drugs;

6. Requests the Secretary-General to transmit the present resolution to all Governments for consideration and implementation.

1995/19. Demand for and supply of opiates for medical and scientific needs

The Economic and Social Council,

Emphasizing that the need to balance the global licit supply of opiates against the legitimate demand for opiates for medical and scientific purposes is central to the international strategy and policy of drug abuse control,

Noting the fundamental need for international cooperation and solidarity with the traditional supplier countries in drug abuse control in general and in the universal application of the provisions of the Single Convention on Narcotic Drugs of 1954 61/ in particular,

Having considered the Report of the International Narcotics Control Board for 1994, 62/ in which it is stated that in 1993 the consumption of opiates was

61/ United Nations, Treaty Series, vol. 520, No. 7515.

higher than the production of opiate raw materials, and that in 1994 there was a shortage of supply,

Noting that the traditional supplier countries held very limited stocks of opiate raw materials at the end of 1994,

Noting the importance of opiates in pain relief therapy as advocated by the World Health Organization,

1. Urges all Governments to continue contributing to the establishment and maintenance of a balance between the licit supply of and demand for opiates for medical and scientific needs, the achievement of which would be facilitated by maintaining, in so far as their constitutional and legal systems permit, support to the traditional supplier countries, and to cooperate in preventing the proliferation of sources of production and manufacture for export;

2. Urges Governments of all producing countries to adhere strictly to the provisions of the Single Convention on Narcotic Drugs of 1961 and to take effective measures to prevent diversion to illicit channels or otherwise not engage in licit production of opiate raw materials;

3. Urges all Governments to comply fully with the relevant recommendations contained in the Report of the International Narcotics Control Board for 1994 in this respect;

4. Commends the International Narcotics Control Board for its efforts in monitoring the implementation of the relevant Economic and Social Council resolutions and, in particular:

(a) In urging the Governments concerned to restrict global production of opiate raw materials to a level corresponding to the actual licit needs and to avoid any proliferation of production;

(b) In convening meetings for establishing a balance between licit demand for and supply of opiates, during sessions of the Commission on Narcotic Drugs, with the main States importing and producing opiate raw materials;

5. Requests the Secretary-General to transmit the present resolution to all Governments for consideration and implementation.

1995/20. Measures to strengthen international cooperation to prevent diversion of substances listed in table I of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988 and used in the illicit manufacture of stimulants and other psychotropic substances

The Economic and Social Council,

Concerned about the recent discovery of world-wide diversion of vast quantities of ephedrine and pseudoephedrine from licit manufacture and trade to be used for the illicit manufacture of methamphetamine,

Recognizing the rapid increase in illicit trafficking and use of stimulants throughout the world, and the need for the international community to strengthen countermeasures against the illicit trafficking in stimulants and their precursors,

Taking note of the proliferation of the illicit manufacture of a variety of drugs, especially stimulants, which has occurred throughout the world, and the fact that such massive production depends upon an equally massive diversion of substances listed in table I of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, 60/

Realizing that brokers frequently serve as mediators in transactions involving substances listed in table I which are ultimately diverted,

Recognizing the need for the international community to renew its commitment to cooperation through the exchange of information and to strengthen countermeasures against the illicit traffic in and abuse of psychotropic substances, in particular stimulants, and their precursors,

Noting with appreciation the publication entitled Precursors and Chemicals Frequently Used in the Illicit Manufacture of Narcotic Drugs and Psychotropic Substances: Report of the International Narcotics Control Board for 1994 on the Implementation of Article 12 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, 63/ and welcoming the initiative taken jointly by the International Narcotics Control Board and the Pompidou Group of the Council of Europe to hold a meeting of experts to review the issue of brokers dealing with precursors and psychotropic substances and to consider concrete measures effectively to control the operations of brokers,

Recalling its resolutions 1981/7 of 6 May 1981, 1992/29 of 30 July 1992 and 1993/40 of 27 July 1993,

1. Urges Governments, where appropriate, to invoke article 12, paragraph 10 (a), of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, in order to give importing countries advance notice of any shipment of substances listed in table I of that Convention;

2. Requests the Government of an exporting country, subject to its legal provisions, to provide the following information to the competent authorities of the importing country prior to any export, even when the importing country has not yet formally requested such notification under article 12, paragraph 10 (a), of the 1988 Convention:

(a) Name and address of the exporter and importer and, when available, of the consignee;

(b) Name of the substance listed in table I of the 1988 Convention;

(c) Quantity of the substance to be exported;

(d) Expected point of entry and expected date of dispatch;

(e) Such other information as the exporting Government may deem relevant;

63/ United Nations publication, Sales No. E.95.XI.1.

3. Requests, for any substance listed in table I of the 1988 Convention, the Government of an importing country, upon receipt of any form of pre-export notification from the exporting country, to undertake, through its regulatory authorities and in cooperation with the law enforcement authorities, an investigation of the legitimacy of the transaction, and, with the possible assistance of the International Narcotics Control Board, to convey information thereon to the exporting country;

4. Urges Governments of exporting countries at the same time to conduct their own investigation in questionable cases and to seek information and views from the Board, international organizations and Governments as appropriate, inasmuch as additional facts establishing suspicion may be available to them;

5. Requests Governments, where there is sufficient evidence that a substance may be diverted into illicit channels, to stop the shipments or, where circumstances warrant, to cooperate in controlled deliveries of suspicious shipments in special circumstances if the security of the shipment can be sufficiently ensured, if the quantity and nature of the chemical involved is such that it can be managed feasibly and safely by the competent authorities, and if all States whose cooperation is necessary, including transit States, agree to the controlled delivery;

6. Urges Governments to exercise, as a matter of urgency, increased vigilance over the activities of brokers handling substances listed in table I of the 1988 Convention, in view of the special role that some of them play in the diversion of such substances, and to subject them to licensing or other effective control measures as necessary;

7. Also urges Governments to ensure, as far as possible, that shipments entering or leaving free ports, free zones and bonded warehouses be subject, where permitted, to the controls necessary to safeguard against diversion;

8. Further urges Governments, subject to the provisions of national legislation on confidentiality and data protection, to inform the Board on a regular basis, upon request of the Board and in the form and manner provided for by it, of the quantities of substances listed in table I of the 1988 Convention that they have imported, exported or transshipped, and encourages them to estimate their annual licit needs;

9. Requests the Board, drawing upon the capabilities of the United Nations International Drug Control Programme, to collect information pursuant to paragraph 8 above, and to further develop and strengthen its database, in order to assist Governments in preventing diversion of substances listed in table I of the 1988 Convention and the Commission on Narcotic Drugs in discussing the control of illicit manufacture of, trafficking in and use of psychotropic substances, especially of stimulants and their precursors, and in formulating policy recommendations in this field;

10. Requests all Governments to provide the Secretary-General, subject to the provisions of national legislation on confidentiality and data protection, with names and addresses of the manufacturers, within their countries, of substances listed in table I of the 1988 Convention, and requests the Secretary-General to include that information in the publication entitled Manufacture of Narcotic Drugs and Psychotropic Substances under International Control; 64/

11. Requests the Secretary-General, with the assistance of the Executive Director of the Programme and in consultation with the Board, to convene, drawing upon voluntary contributions from Governments, expert meetings in 1995 and 1996 of regulatory and law enforcement authorities of interested Governments, in order to discuss countermeasures against the illicit manufacture of and trafficking in psychotropic substances, particularly stimulants, and the illicit use of their precursors on the basis of the study to be prepared in accordance with paragraph 12 of the present resolution;

12. Also requests the Secretary-General, with the assistance of the Executive Director of the Programme and in consultation with the Board, to undertake within existing resources a thorough study on stimulants and the use of their precursors in the illicit manufacture of and trafficking in drugs, and to prepare a report thereon for submission to the Commission, taking into account any comments that may be made on the study at the expert meetings referred to in paragraph 11 of the present resolution;

13. Encourages Governments to consider strengthening, where necessary, the working mechanisms to prevent diversion of substances listed in table II of the 1988 Convention, as described in the present resolution;

14. Requests the Secretary-General to transmit the present resolution to all Governments for consideration and implementation, and asks the Board, in cooperation with the Programme, to report on its implementation to the Commission at its thirty-ninth session.

1995/28. Improvement of the status of women in the Secretariat

The Economic and Social Council,

Recalling Articles 1 and 101 of the Charter of the United Nations,

Recalling also Article 8 of the Charter, which provides that the United Nations shall place no restrictions on the eligibility of men and women to participate in any capacity and under conditions of equality in its principal and subsidiary organs,

Recalling further the relevant paragraphs of the Nairobi Forward-looking Strategies for the Advancement of Women, 89/ especially paragraphs 79, 315, 356 and 358,

Recalling further the relevant resolutions and decisions of the General Assembly, the Economic and Social Council and other bodies that have continued to focus on this area since the adoption of Assembly resolution 2715 (XXV) of 15 December 1970, in which the question of the employment of women in the Professional category was first addressed,

Concerned at the serious and continuing underrepresentation of women in the Secretariat, particularly at the higher decision-making levels,

Convinced that the improvement of the status of women in the Secretariat could significantly enhance the effectiveness and credibility of the United Nations, including its leadership role in advancing the status of women world wide and in promoting the full participation of women in all aspects of decision-making,

Recalling the goal, set in General Assembly resolutions 45/125 of 14 December 1990 and 45/239 C of 21 December 1990 and reaffirmed in Assembly resolutions 46/100 of 16 December 1991, 47/93 of 16 December 1992, 48/106 of 20 December 1993 and 49/167 of 23 December 1994, of a 35 per cent overall participation rate of women in posts subject to geographical distribution by 1995,

88/ General Assembly resolution 40/34, annex.

89/ Report of the World Conference to Review and Appraise the Achievements of the United Nations Decade for Women: Equality, Development and Peace, Nairobi, 15-26 July 1985 (United Nations publication, Sales No. E.85.IV.10), chap. I, sect. A.

Noting with concern that the current rate of increase in the appointment of women may not be sufficient to achieve the objective of a 35 per cent participation rate of women in posts subject to geographical distribution by 1995,

Recalling the goal, set in General Assembly resolution 45/239 C and reaffirmed in Assembly resolutions 46/100, 47/93, 48/106 and 49/167, of a 25 per cent participation rate of women in posts at the D-1 level and above by 1995,

Noting with disappointment that the participation rate of women in posts at the D-1 level and above remains unacceptably low, and well below the 25 per cent goal,

Noting the efforts made in the past year by the Secretary-General and the Office of Human Resources Management of the Secretariat to integrate the objectives set by the General Assembly for the improvement of the status of women in the Secretariat into the overall strategy for the management of the Organization's human resources, and noting also that such a comprehensive approach will be conducive to enhancing the status of women in the Secretariat,

Recognizing the importance of providing equal employment opportunities for all staff,

Aware that a comprehensive policy aimed at preventing sexual harassment should be an integral part of personnel policy,

Commending the Secretary-General for his administrative instruction on procedures for dealing with cases of sexual harassment, 90/

Bearing in mind that a visible commitment by the Secretary-General is essential to the achievement of the targets set by the General Assembly,

1. Takes note of the report of the Secretary-General on the improvement of the status of women in the Secretariat 91/ while regretting the lateness in the availability of the report;

2. Also takes note of the strategic plan of action for the improvement of the status of women in the Secretariat (1995-2000) contained in section IV of the report, and of the goals and objectives of the strategic plan as proposed by the Secretary-General;

3. Urges the Secretary-General to implement fully the strategic plan of action, noting that his visible commitment is essential to the achievement of the targets set by the General Assembly and the goals and objectives contained in the strategic plan;

4. Welcomes the intention of the Secretary-General to ensure implementation of the strategic plan through, inter alia, the issuance of clear and specific instructions as to the authority and responsibility of all managers in implementing the plan and the criteria by which performance will be appraised;

90/ ST/AI/379.

91/ A/49/587 and Corr.1.

5. Urges the Secretary-General, in accordance with the Charter of the United Nations and in a manner consistent with the strategic plan, to accord greater priority to the recruitment and promotion of women in posts subject to geographical distribution, particularly in senior policy-level and decision-making posts and within those parts of the United Nations system and the specialized agencies where representation of women is considerably below the average, in order to achieve the goals set in General Assembly resolutions 45/125 and 45/239 C of an overall participation rate of 35 per cent by 1995 and, in posts at the D-1 level and above, of 25 per cent by 1995;

6. Also urges the Secretary-General to examine further existing work practices within the United Nations system with a view to increasing flexibility so as to remove direct or indirect discrimination against staff members with family responsibilities, including consideration of such issues as spouse employment, job-sharing, flexible working hours, child-care arrangements, career-break schemes and access to training;

7. Further urges the Secretary-General to increase the number of women employed in the Secretariat from developing countries, particularly those that are unrepresented or underrepresented, and from other countries that have a low representation of women, including countries in transition;

8. Requests the Secretary-General to ensure that equal employment opportunities exist for all staff;

9. Also requests the Secretary-General to enable, from within existing resources, the focal point for women within the Secretariat effectively to monitor and facilitate progress in the implementation of the strategic plan;

10. Strongly encourages Member States to support the strategic plan and the efforts of the United Nations and the specialized agencies to increase the percentage of women in the Professional category, especially in posts at the D-1 level and above, by identifying and sending forward more women candidates, encouraging women to apply for vacant posts and creating national rosters of women candidates to be shared with the Secretariat, the specialized agencies and the regional commissions;

11. Requests the Secretary-General further to develop comprehensive policy measures aimed at the prevention of sexual harassment in the Secretariat;

12. Also requests the Secretary-General to ensure that a progress report on the status of women in the Secretariat containing, inter alia, information on activities undertaken towards the achievement of the goals and objectives contained in the strategic plan and policy measures aimed at the prevention of sexual harassment in the Secretariat is presented to the Commission on the Status of Women at its fortieth session, in accordance with the relevant rules concerning the timetable for delivery of documentation, and to the General Assembly at its fiftieth session.

1995/29. Convention on the Elimination of All Forms of
Discrimination against Women

The Economic and Social Council,

Bearing in mind that the Convention on the Elimination of All Forms of Discrimination against Women 92/ is a key international human rights instrument for the promotion of equality between women and men,

Welcoming the increasing number of States parties to the Convention, which has reached one hundred and thirty-nine,

Noting with deep concern that the Convention is still one of the human rights instruments with a large number of reservations, many of which run contrary to the object and purpose of the Convention, despite the fact that some States parties have withdrawn their reservations to it,

Recalling the Vienna Declaration and Programme of Action 93/ adopted by the World Conference on Human Rights, held at Vienna from 14 to 25 June 1993, in which the Conference stipulated that the human rights of women and of the girl child were an inalienable, integral and indivisible part of universal human rights,

Recalling also that, in the Vienna Declaration and Programme of Action, the Conference recommended the adoption of new procedures to strengthen the implementation of the commitment to women's equality and human rights and called upon the Commission on the Status of Women and the Committee on the Elimination of Discrimination against Women to examine quickly the possibility of introducing the right of petition through the preparation of an optional protocol to the Convention on the Elimination of All Forms of Discrimination against Women, 94/

Noting suggestion No. 7, on elements for an optional protocol to the Convention, adopted by the Committee on the Elimination of Discrimination against Women at its fourteenth session, 95/

Recalling General Assembly resolution 47/94 of 16 December 1992, relating to the scheduling of the meetings of the Committee,

Recalling also Council resolution 1994/7 of 21 July 1994 and relevant resolutions adopted by the General Assembly to support the work of the Committee,

Welcoming General Assembly resolution 49/164 of 23 December 1994 and decision 49/448 of 23 December 1994, providing for a meeting of States parties to the Convention in 1995 to consider the revision of article 20, paragraph 1, of the Convention,

92/ General Assembly resolution 34/180, annex.

93/ Report of the World Conference on Human Rights, Vienna, 14-25 June 1993 (A/CONF.157/24 (Part I)), chap. III.

94/ Ibid., sect. II, para. 40.

95/ See Official Records of the General Assembly, Fiftieth Session, Supplement No. 38 (A/50/38), chap. I.

Aware that the workload of the Committee has increased because of the growing number of States parties to the Convention, and that the annual session of the Committee is still the shortest of all the annual sessions of the human rights treaty bodies,

Welcoming the Committee's efforts further to improve its working methods, inter alia, by adopting concluding observations containing specific suggestions and recommendations,

1. Welcomes the fact that the States parties to the Convention on the Elimination of All Forms of Discrimination against Women, at their eighth meeting, held on 22 May 1995, have already considered the revision of article 20, paragraph 1, of the Convention to allow the Committee on the Elimination of Discrimination against Women to meet annually with sufficient time for the effective performance of its functions under the Convention; 96/

2. Supports the request made by the Committee at its twelfth session for additional meeting time, with adequate support from the Secretariat, so as to allow the Committee to meet for three weeks for its fifteenth session, and recommends that the request made by the Committee at its fourteenth session to hold two sessions in 1996, each of three weeks' duration, be considered favourably, within the existing level of budgetary resources;

3. Welcomes the efforts made by the Committee to improve its procedures and working methods, and encourages it to continue such efforts, within its mandate;

4. Notes that suggestion No. 7, on elements for an optional protocol to the Convention, adopted by the Committee at its fourteenth session, was transmitted to the Commission on the Status of Women for consideration;

5. Requests the Secretary-General to invite Governments, intergovernmental organizations and non-governmental organizations to submit their views on an optional protocol to the Convention, including those related to feasibility, taking into account the elements suggested by the Committee in its suggestion No. 7;

6. Requests the Secretary-General to submit to the Commission on the Status of Women at its fortieth session a comprehensive report, including a synthesis, on the views expressed in accordance with paragraph 5 above, if possible six weeks prior to the commencement of the session;

7. Decides that the Commission should establish an in-session open-ended working group for a two-week period at its fortieth session to consider the report requested in paragraph 6 above with a view to elaborating a draft optional protocol to the Convention on the Elimination of All Forms of Discrimination against Women;

8. Once again urges all States that have not yet done so to become parties to the Convention;

9. Encourages States to consider limiting the extent of any reservation they lodge to the Convention, to formulate any reservation as precisely and as narrowly as possible, and to ensure that no reservation is incompatible with the object and purpose of the Convention or otherwise contrary to international law;

96/ See CEDAW/SP/1995/2.

10. Requests States parties to the Convention to review their reservations regularly with a view to withdrawing them expeditiously so that the Convention may be fully implemented;

11. Encourages States parties that are behind schedule in submitting their periodic reports to the Committee on the Elimination of Discrimination against Women to do so promptly, and requests the Committee to follow up this problem;

12. Urges the Secretary-General to continue to publicize widely the decisions and recommendations of the Committee.

1995/43. Assistance for the reconstruction of Madagascar following the natural disasters of 1994

The Economic and Social Council,

Recalling General Assembly resolution 48/234 of 14 February 1994 on emergency assistance to Madagascar and its own resolution 1994/36 of 29 July 1994 concerning the measures to be taken following the cyclones and floods that had affected Madagascar,

Having considered the report of the Secretary-General on the implementation of resolution 1994/36, 111/

Noting with concern that, despite the efforts made by the Government of Madagascar and by the international community, in particular the organizations of the United Nations system, the resources mobilized are inadequate and that Madagascar remains vulnerable to the impact of natural disasters,

Bearing in mind the fact that, apart from the immediate damage, such repeated climatic phenomena have residual effects which weaken the country's economic base, hold up its economic and social progress, and frustrate its development policy,

111/ A/50/292-E/1995/115.

Considering that the country's sustainable development requires a capacity to overcome the after-effects of natural disasters and that disaster aid and relief should accordingly include a long-term dimension,

1. Urges all States to continue and intensify their participation in the implementation of the programmes for the recovery and reconstruction of the areas and sectors affected by the cyclones and floods;

2. Requests international and regional organizations, the specialized agencies, financial institutions and voluntary institutions to support, within the framework of their respective programmes, the requests for assistance formulated by the Government of Madagascar during the recovery and reconstruction phase;

3. Invites international cooperation to take into account, in the objectives of its assistance operations, the need to reduce the country's vulnerability to natural disasters and to safeguard its development process;

4. Requests the Secretary-General to take the necessary measures to help the Government of Madagascar to mobilize the resources needed to overcome the effects of the natural disasters and neutralize their repercussions on the development process;

The General Assembly,

Recalling its resolution 35/18 of 10 November 1980, by which it proclaimed the period 1981-1990 as the International Drinking Water Supply and Sanitation Decade,

Recalling also its resolution 45/181 of 21 December 1990, in which it expressed its deep concern about the slow rate of progress in the provision of services in water and sanitation,

Deeply concerned that at the current rate of progress the provision of drinking water will be insufficient to satisfy the needs of a very large number of people by the year 2000 and that the lack of progress in the provision of basic sanitation services is likely to have dramatic environmental and health consequences in the near future,

(b) To undertake, as appropriate, legal, regulatory and institutional reforms designed to bring about the management of water resources at the lowest appropriate level, including stake-holder participation and the involvement of the private sector, and to adopt strategies for capacity-building;

(c) To assign high priority to programmes designed to provide basic sanitation and excreta disposal systems to urban and rural areas and to the treatment of waste waters, with provisions for community involvement;

(d) To formulate and implement investment strategies and cost recovery policies aimed at generating a flow of financial resources commensurate with needs, taking into account the needs and conditions of the peri-urban and rural poor;

(e) To establish or strengthen a nationwide water and sanitation monitoring system, making full use, as appropriate, of the information support system developed by the Joint Monitoring Programme of the World Health Organization and the United Nations Children's Fund;

4. Calls upon the organizations of the United Nations system and other relevant organizations to intensify their efforts concerning financial and technical support for developing countries and countries with economies in transition;

5. Urges donor Governments, multilateral financial and development institutions and non-governmental organizations to give favourable and appropriate consideration to requests for grants and concessional financing, particularly with regard to environmental sanitation and sewerage and to waste-water treatment projects, which are intended to implement programmes consistent with the provisions and recommendations referred to in paragraph 3 of the present resolution;

A
