DEMOCRACY AND DEVELOPMENT

United Nations Mission for the Verification of Human Rights  
and of Compliance with the Commitments of the Comprehensive  
Agreement on Human Rights in Guatemala

Programme budget implications of draft resolution A/50/L.68

Statement submitted by the Secretary-General in accordance with  
rule 153 of the rules of procedure of the General Assembly

A. Requests contained in the draft resolution

1. By operative paragraphs 1 and 3 of draft resolution A/50/L.68, the General Assembly would:

(a) Welcome the report of the Secretary-General on the United Nations Mission for the Verification of Human Rights and of Compliance with the Commitments of the Comprehensive Agreement on Human Rights in Guatemala (MINUGUA) (A/50/881);

(b) Decide to authorize within existing resources and in a manner consistent with the effective fulfilment of its mandate the renewal of the mandate of the Mission for a further period of nine months and 13 days, that is, until 31 December 1996, in accordance with the recommendations of the Secretary-General.

B. Relationship of the proposed requests to the medium-term plan for the period 1992-1997

2. The above requests are related to subprogramme 1, Good offices, preventive diplomacy and peacemaking, of programme 1, Good offices, preventive diplomacy, peacemaking, peace-keeping, research and the collection and analysis of information, of the medium-term plan for the period 1992-1997, 1/ as revised.

C. Activities by which the proposed requests would be implemented

3. Under the terms of draft resolution A/50/L.68, MINUGUA would continue to fulfil the mandate entrusted to it under the Comprehensive Agreement on Human Rights and the Agreement on Identity and Rights of Indigenous Peoples (A/48/928-S/1994/448, annex I). This includes verification activities; cooperating with national institutions and entities for the effective protection and promotion of human rights; promoting international technical and financial cooperation with a view to strengthening such institutions; and contributing to develop a culture of respect for human rights.

D. Additional requirements for 1996

4. The additional requirements for the extension of the mandate of MINUGUA to 31 December 1996 would amount to \$21,060,700, net of staff assessment, as summarized below.

	<u>United States dollars</u>
Military personnel costs	438 000
Civilian police costs	1 291 700
Personal service contracts	4 341 700
Salaries and common staff costs	9 292 000
Mission subsistence allowance	2 844 700
Travel of staff	156 900
Rental and maintenance of premises	696 000
Rental of aircraft	858 000
Rental and maintenance of vehicles	456 000
Communications	215 300
Miscellaneous supplies and services	203 400
Freight and related costs	54 000
Human rights education/public information	195 000
Furniture and equipment	<u>18 000</u>
	<u>21 060 700</u>

5. A detailed breakdown of the additional requirements is contained in the annex to the present document.

E. Contingency fund

6. As the activities relating to MINUGUA are of an extraordinary nature they should continue to be dealt with outside the procedures related to the contingency fund, as provided for in paragraph 11 of annex I to General Assembly resolution 41/213 of 19 December 1986.

F. Potential for absorption

7. Operative paragraph 3 of draft resolution A/50/L.68 would authorize the renewal of the mandate of MINUGUA from "within existing resources". By section I of resolution 50/216 of 23 December 1995, the General Assembly approved the estimate of \$7,124,800 for MINUGUA for the period from 1 January to 31 March 1996 and authorized the Secretary-General to enter into commitments in an amount not exceeding a monthly level of \$2,329,700 should the mandate of MINUGUA be extended beyond 31 March 1996. The Assembly, by authorizing the Secretary-General to enter into commitments, recognized that the cost of the activities related to MINUGUA, estimated at \$28.1 million a year, could not be met from within existing resources. Moreover, by resolution 50/215 of 23 December 1995 on the proposed programme budget for the biennium 1996-1997, the General Assembly recognized that regular budget expenditures as a whole represented a total of \$2,712,265,200, but appropriated only \$2,608,274,000 and decided that anticipated reductions of \$103,992,000 would be achieved in the biennium.

8. The Secretary-General is currently identifying the significant reductions to meet the requirements set by the General Assembly. The requirements make it impossible for the Secretary-General to absorb additional expenditures without affecting existing mandated programmes and activities. Notwithstanding operative paragraph 3 of draft resolution A/50/L.68, additional programme demands, not foreseen at the time of the approval of the programme budget for the biennium 1996-1997, cannot be met from within existing resources.

G. Action required by the General Assembly

9. Should the General Assembly adopt draft resolution A/50/L.68, the Secretary-General would find it impossible to absorb the expenditures without affecting existing programmes and activities. Only if the General Assembly were to decide, within the framework of section II, paragraph 4, of resolution 50/214 of 23 December 1995, that existing programmes should be curtailed, postponed or terminated would it be possible to implement the mandate "within existing resources". In the absence of a decision of the General Assembly in this regard, an additional appropriation of \$21,060,700 would be required under section 3 of the programme budget for the biennium 1996-1997, 2/ for the continuation of the activities of MINUGUA to 31 December 1996. An additional

appropriation of \$1,737,500 would also be required under section 32, Staff assessment. 3/
