Agenda item 4

SUBSTANTIVE THEME: STRATEGIES AND ACTIONS FOR THE  
ERADICATION OF POVERTY

Draft resolution submitted by the Chairperson of the  
Working Group, Mr. Sten Arne Rosnes (Norway)

Strategies and actions for the eradication of poverty

The Commission for Social Development,

Recalling General Assembly resolution 50/161 of 22 December 1995 on the implementation of the outcome of the World Summit for Social Development,

Recalling also General Assembly resolution 49/110 of 19 December 1994 and other relevant resolutions of the Assembly related to international cooperation for the eradication of poverty in developing countries as well as Assembly resolution 50/107 of 20 December 1995 on the observance of the International Year for the Eradication of Poverty and proclamation of the first United Nations Decade for the Eradication of Poverty,

Recalling further Economic and Social Council resolution 1995/60 of 28 July 1995 and Council decision 1995/324 of 12 December 1995, both related to the special session of the Commission for Social Development in 1996,

Recognizing that broad-based and sustained economic growth in the context of sustainable development is necessary to sustain social development and social justice, particularly as regards efforts to eradicate poverty,

Alt. 1: Recognizing also that poverty is a global problem affecting all countries, in particular developing countries, and that the complexity of poverty requires the implementation and integration of policies and strategies as well as a wide range of measures and actions at the local, national, regional and international levels,

Alt. 2:           Recognizing also that poverty is a global problem affecting all countries and that the multidimensional nature of poverty requires a comprehensive and integrated approach to poverty eradication (in the national and international domains),

Recalling that (, while) the main responsibility for the formulation and implementation of the strategies, policies, programmes and actions required to (combat/eradicate) poverty rests primarily at the national level (, there is also an urgent need for stronger international cooperation and the support of international institutions to assist countries in their efforts to eradicate poverty and to provide basic social protection and services) (, they cannot be successfully achieved without the collective commitment and efforts of the international community),

Reaffirming that the role of the State and the commitment of Governments are of fundamental importance in combating poverty and in improving living conditions, and that Governments should focus their efforts and policies on addressing the root causes of poverty and providing for the basic needs of all,

Recognizing that over one billion people in the world today live under unacceptable conditions of poverty, mostly in developing countries, and particularly in rural areas of low-income Asia and the Pacific, Africa, Latin America and the Caribbean, and the least developed countries, (and recognizing also that people living in absolute poverty, particularly women, are on the increase,) resulting in limited access, inter alia, to income, resources, education, health care, nutrition, shelter, sanitation and safe water (, and that in all developing countries, particularly in Africa and in the least developed countries, the same trends are observed in other regions),

Alt. 1:           Recognizing also that mainstreaming a gender perspective into all policies and programmes aimed at combating poverty and that empowerment of women will be critical factors in the eradication of poverty, since women constitute the majority of people living in poverty,

Alt. 2:           Recognizing also that mainstreaming a gender perspective into all policies and programmes aimed at eradicating poverty and that empowerment of women, who constitute the majority of people living in poverty, is crucial in the eradication of poverty,

Recognizing further that the eradication of illiteracy, the universalization of basic education and the access to education for all are essential in the eradication of poverty,

Alt. 1:           Reaffirming that the strengthening of the family is essential to the eradication of poverty,

Alt. 2:           Recognizing further that the (economic and political) empowerment of families and their individual members is an indispensable strategy in combating poverty,

/...

Recognizing further that the media have an important role to play in promoting awareness of the complex issues surrounding poverty,

Stressing the necessity for promoting and implementing policies and strategies to create a supportive external economic environment, through, inter alia, cooperation in the formulation and implementation of macroeconomic policies, trade liberalization, mobilization and/or provision of new and additional financial resources that are both adequate and predictable and mobilized in such a way as to maximize the availability of such resources for sustainable development, using all available funding sources and mechanisms, enhanced financial stability and ensuring of increased access of developing countries to global markets, productive investment and technologies, and appropriate knowledge,

Considering that the international community at the highest political level has already reached a consensus and committed itself to the eradication of poverty in the major United Nations conferences and summits organized since 1990,

Having considered the report of the Secretary-General 1/ on strategies and actions for the eradication of poverty: policy and programme considerations in the formulation of integrated strategies for poverty eradication, meeting the basic human needs of all and promotion of self-reliance and community-based initiatives,

Noting the discussions that took place on this issue during the panel discussions and the discussion with representatives of inter-agency task forces on the follow-up to international conferences and summits,

Recalling that the commitment to the goal of eradicating poverty in the world, through decisive national actions and international cooperation, is an ethical, social, political and economic imperative of humankind,

1. Reaffirms that all States and all people shall cooperate in the essential task of eradicating poverty as an indispensable requirement for sustainable development, in order to decrease the disparities in standards of living and better meet the needs of the majority of people of the world;

2. Stresses that stronger political will, at the national and international levels, is a prerequisite of the eradication of poverty;

3. Recognizes that it is helpful to set achievable output-oriented targets for efforts to eradicate poverty in order to provide a common vision for all countries;

4. Stresses that (reducing/eradicating) poverty can be achieved (in each country only) on the basis of a (clear and lasting/strong) political will (of the State based on national consensus/at the national and international levels)

8. Emphasizes the crucial importance of reinforcing the means and capacities for people to participate in the formulation and implementation of social and economic policies and programmes through decentralization and open management of public institutions;
