COMMITTEE ON RELATIONS WITH
THE HOST COUNTRY

LETTER DATED 24 JUNE 1996 FROM THE CHAIRMAN OF THE COMMITTEE ON
RELATIONS WITH THE HOST COUNTRY ADDRESSED TO PERMANENT MISSIONS
OF MEMBERS AND OF OBSERVERS TO THE UNITED NATIONS

Dear Colleague,

In order to assist members of the United Nations diplomatic community in settling into their New York posting, the Committee on Relations with the Host Country, among other measures, is continuing to explore the possibilities for the United Nations diplomatic community to be provided with more affordable health care services.

In this connection, the Committee has decided to circulate among missions accredited to the United Nations the attached health care questionnaire (annex I) with a view to ascertaining the needs and requirements which missions might have in this area. The ultimate goal of this effort is to identify providers of medical insurance programmes which would be in a position to offer programmes capable of meeting those needs and requirements.

Missions are not asked to identify themselves in responding to the questionnaire. The information received will be processed and synthesized, and then brought to the attention of prospective providers of health services.

In addition to the questionnaire, in order to maintain dialogue on these matters, it is proposed that when the missions respond to the questionnaire, they also complete a separate form (annex II) indicating the name of a contact person at the mission to whom further communications on this subject should be addressed. The questionnaire and the form should be returned either to me or to the Secretary of the Committee (Mr. S. Tarassenko, room S-3420 D, telephone number (212) 963-5380, fax number (212) 963-6430), who will detach the form from the questionnaire. The identity of the responding missions will remain confidential, and will be known only by the Chairman and the Secretary of the Committee.

We look forward to receiving the completed questionnaire from all missions, as the maximum number of responses should ensure the success of this project. It would be appreciated if the questionnaire could be returned as soon as possible, but not later than 31 July 1996.

(Signed) Nicos AGATHOCLEOUS
