COMMITTEE ON THE PEACEFUL USES OF OUTER SPACE

INFORMATION FURNISHED IN CONFORMITY WITH THE CONVENTION ON REGISTRATION OF OBJECTS LAUNCHED INTO OUTER SPACE

Note verbale dated 28 May 1996 from the Department of Foreign Affairs, Canada addressed to the Secretary-General

The Department of Foreign Affairs presents its compliments to the Secretary-General of the United Nations and, in compliance with its obligations under article IV of the Convention on Registration of Objects Launched into Outer Space,* has the honour to transmit information concerning the launch of RADARSAT I-A on 4 November 1995.

Additional data concerning the RADARSAT I-A satellite are provided in the annex.

^{*}General Assembly resolution 3235 (XXIX), annex, of 12 November 1974.

Annex

REGISTRATION DATA FOR CANADIAN SPACE LAUNCHES*

| Name of launching state: | Canada, United S | Canada, United States of America | |
|-----------------------------------|--|---|--|
| Designation: | RADARSAT I-A | RADARSAT I-A | |
| Date of launch: 4 November 1995 | | | |
| Location of launch: | Vandenberg, Cal | Vandenberg, California, United States of America | |
| Launch vehicle: | Delta-II | Delta-II | |
| Basic orbital parameters: | | | |
| | Nodal Period: Inclination: Apogee: Perigee: | 101.053 minutes 98.574 degrees 799.9 kilometers 783.5 kilometers | |
| General function of space object: | Remote Sensing - Earth Observation with enhanced imaging capabilities producing high resolution images of Earth's surface | | |
| Service Area: | Arctic Mode: essentially entire globe excluding South Pole to 79 degrees latitude Antarctic Mode: essentially the same as Arctic mode except that there is no coverage above about 79 degrees North latitude | | |
| Operating Entity: | Canadian Space Agency | | |
