No. 7      n° 7  
July 1996      juillet 1996

United Nations    Nations Unies  
New York, 1996

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Where the designation "country or area" appears in the headings of tables, it covers countries, territories, cities or areas.

In some tables, the designation "developed" and "developing" economies is intended for statistical convenience and does not, necessarily, express a judgement about the stage reached by a particular country or area in the development process.

The *Monthly Bulletin of Statistics* was issued without a series symbol before January 1973.

Les appellations employées dans cette publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

L'appellation "pays ou zone" figurant dans certaines rubriques des tableaux désigne des pays, des territoires, des villes ou des zones.

Les appellations économiques "développées" et économies "en voie de développement" qui figurent dans certains tableaux sont utilisées pour plus de commodité dans la présentation des statistiques et n'impliquent pas nécessairement un jugement quant au stade de développement auquel sont parvenus un pays ou une zone donnés.

Avant janvier 1973 le *Bulletin mensuel de statistique* a été publié sans cote.

# INTRODUCTION

## Explanatory notes

The purpose of this publication is to present current monthly economic statistics for most of the countries and territories of the world. In addition, each month a different selection of special tables is presented showing annual and/or quarterly data on a variety of subjects illustrating important economic long-term trends and developments. Most of these special tables are also reproduced in the United Nations *Statistical Yearbook*. It is, however, considered to be useful to publish these data in the *Bulletin* as soon as they become available so that readers may have immediate access to the most current international statistical information.

### Sources

The statistics appearing in the *Bulletin* are, except where otherwise stated in the footnotes to the tables, obtained by the Statistics Division of the United Nations from official sources in the various countries. The following specialized agencies and inter-governmental bodies furnish data for the tables as indicated in the source references: Food and Agriculture Organization of the United Nations; International Civil Aviation Organization, International Labour Office, International Monetary Fund; International Rubber Study Group (London).

### Comparability of the data

A brief general note accompanies most tables. In describing the scope and nature of the data in the tables the *general notes* employ the international statistical terms and definitions in current use.

Where individual series differ fundamentally from the descriptions in the *General note*, the differences are indicated in footnotes to the extent that space is available. The reader is requested, however, to consult the *1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics* for detailed definitions and explanatory notes of the individual series.

Where a significant break in the homogeneity of a particular national series occurs, the point at which the break occurs is indicated by a horizontal/vertical line drawn across the column and the nature of the change is described, if space permits, in a footnote.

### Revisions and new series

Each issue contains all the revisions made in the figures up to the date of publication of the *Bulletin*. In general, figures for the latest months are to be regarded as provisional. All new series and principal revisions are described, wherever possible, in Annex II to the *Bulletin* in which they are first shown. These descriptions should be considered as additions and amendments to those given in the *1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics*.

### Country nomenclature

Designations which have changed in recent years are as follows:

Cambodia	Formerly Democratic Kampuchea.
China	Data relating to People's Republic of China generally include those for Taiwan Province in the field of statistics relating to population, area, natural resources, natural conditions such as climate, etc. In other fields of statistics, they do not include Taiwan Province unless otherwise stated.
Germany Federal Rep. of Germany Former German Democratic Rep.	Through accession of the German Democratic Republic to the Federal Republic of Germany with effect from 3 October 1990, the two German States have united to form one sovereign State. As from the date of unification, the Federal Republic of Germany acs in the United Nations under the designation of 'Germany'.
Czech Republic, Slovakia	Data for the Czech Republic and Slovakia, where available, are shown separately under the appropriate country name. For periods prior to 1 January 1993, where no separate data are available for the Czech Republic and Slovakia, unless otherwise indicated, data for the former Czechoslovakia are shown under the country name 'former Czechoslovakia'.
Myanmar, the Union of Yemen	Formerly Burma On 22 May 1990 Democratic Yemen and Yemen merged to form a single State. Since that date they have been represented as one Member with the name 'Yemen'.
Yugoslavia	Unless otherwise indicated, data provided for Yugoslavia prior to 1 January 1992 refer to the Socialist Federal Republic of Yugoslavia which was composed of six republics, whereas data provided for Yugoslavia after that date refer to the Federal Republic of Yugoslavia which is composed of two republics (Serbia and Montenegro).
Former USSR	In 1991, the Union of Soviet Socialist Republics formally dissolved into fifteen independent countries (Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Republic of Moldova, Russian Federation, Tajikistan, Turkmenistan, Ukraine and Uzbekistan). Whenever possible, data are shown for the individual countries. Otherwise, data are shown for the former USSR.

## Notes explicatives

Cette publication a pour objet de présenter des statistiques économiques mensuelles à jour pour la plupart des pays et territoires du monde. En outre, on y trouve chaque mois une série différente de tableaux spéciaux, contenant des données annuelles et/ou trimestrielles sur des sujets variés, qui illustrent les principales tendances économiques à long terme. La plupart de ces tableaux sont également reproduits dans l'*Annuaire statistique* des Nations Unies, mais on juge utile de publier ces données dans le *Bulletin* dès qu'elles sont disponibles, de façon que les lecteurs puissent accéder immédiatement aux statistiques internationales les plus récentes.

### Sources

Sauf indication contraire en note, les statistiques publiées dans le *Bulletin* ont été obtenues par la Division de statistique des Nations Unies de sources officielles dans les différents pays. Les institutions spécialisées et organisations inter-gouvernementales énumérées ci-après fournissent des données pour les tableaux ainsi que le mentionnent les indications de source: Organisation des Nations Unies pour l'alimentation et l'agriculture; Organisation de l'aviation civile internationale; Bureau international du travail; Fonds monétaire international; Groupe international d'études du caoutchouc (Londres).

### Comparabilité des données

Une courte *Remarque générale* accompagne la plupart des tableaux. Pour la rédaction de ces remarques qui indiquent la portée et la nature des statistiques contenues dans les tableaux, on a utilisé des termes statistiques internationaux et des définitions d'usage courant.

Lorsqu'une série s'écarte de manière fondamentale de la définition donnée dans la *Remarque générale*, la divergence est signalée en note, dans la mesure où l'on dispose de la place nécessaire. Toutefois, le lecteur est prié de se reporter au *1977 Supplément à l'Annuaire statistique et au Bulletin Mensuel de statistique des Nations Unies*, pour des définitions détaillées et des notes explicatives concernant certaines séries.

S'il y a discontinuité dans l'homogénéité d'une série statistique d'un certain pays, le point où se produit la coupure est indiqué par un trait horizontal en travers de la colonne ou par une barre verticale et la nature de changement est, si possible, mentionnée en note.

### Révisions et nouvelles séries

Chaque numéro contient toutes les rectifications apportées aux chiffres à la date de la publication du *Bulletin*. En général, les chiffres des derniers mois doivent être considérés comme provisoires. Toutes les nouvelles séries ainsi que les principales révisions sont commentées, autant que possible, dans l'annexe II du *Bulletin* dans laquelle elles paraissent pour la première fois. Ces renseignements constituent le complément ou la révision de ces données dans le *1977 Supplément à l'Annuaire statistique et au Bulletin Mensuel de statistique des Nations Unies*.

### Nomenclature des pays

Désignations changées dans les années récentes:

Cambodge	Anciennement Kampuchea démocratique.
Chine	Les données relatives à la République populaire de Chine comprennent en général les données relatives à la province de Taiwan lorsqu'il s'agit de statistiques concernant la population, la superficie, les ressources naturelles, les conditions naturelles tel que le climat, etc. Dans les statistiques relevant d'autres domaines, la province de Taiwan n'est pas comprise, sauf indication contraire.
Allemagne République Féd. d'Allemagne l'ancienne Rép. dém. allemande	En vertu de l'adhésion de la République démocratique allemande à la République fédérale d'Allemagne, prenant effet le 3 octobre 1990, les deux Etats allemands se sont unis pour former un seul Etat souverain. A compter de la date de l'unification, la République fédérale d'Allemagne est désigné à l'ONU sous le nom d'"Allemagne".
République tchèque, Slovaquie	Les données relatives à la République tchèque, et à la Slovaquie, lorsqu'elles sont disponibles, sont présentées séparément sous le nom de chacun des pays. En ce qui concerne la période précédant le 1er janvier 1993, pour laquelle on ne possède pas de données séparées pour les deux Républiques, les données relatives à l'ancienne Tchécoslovaquie sont, sauf indication contraire, présentées sous le titre 'ancienne-Tchécoslovaquie'.
Myanmar, l'Union du Yémen	Anciennement Birmanie Le Yémen et le Yémen démocratique ont fusionné le 22 mai 1990 pour ne plus former qu'un seul Etat, qui est depuis lors représenté comme tel à l'Organisation, sous le nom 'Yémen'.
Yougoslavie	Sauf indication contraire, les données fournies pour la Yougoslavie avant le 1er janvier 1992 se rapportent à la République fédérative socialiste de Yougoslavie, qui était composée de six républiques, alors que les données fournies pour la Yougoslavie après cette date se rapportent à la République fédérative de Yougoslavie, qui est composée de deux républiques (Serbie et Monténégro).
L'ancienne URSS	En 1991, l'Union des républiques socialistes soviétiques s'est séparé en 15 pays distincts (Arménie, Azerbaïdjan, Bélarus, Estonie, Géorgie, Kazakhstan, Kirghizistan, Lettonie, Lituanie, la République de Moldova, Fédération de Russie, Tadjikistan, Turkménistan, Ukraine, Ouzbékistan). Les données sont présentées pour ces pays pris séparément quand cela est possible. Autrement, les données sont présentées pour l'ancienne URSS.

# INTRODUCTION

## Explanatory notes (continued)

### Regional economic groupings:

CEUCA-Customs and Economic Union of Central Africa	Cameroon, Central African Republic, Congo and Gabon.
LAIA-Latin American Integration Association (formerly Latin American Free Trade Association)	Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Mexico, Paraguay, Peru, Uruguay, Venezuela.
CACM-Central American Common Market	Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua.
EU-European Union	Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, United Kingdom, Portugal, Spain, Sweden.
EFTA-European Free Trade Association	Iceland, Liechtenstein, Norway, Switzerland.
OPEC-Organization of petroleum exporting countries	Algeria, Ecuador, Gabon, Indonesia, Iran, Iraq, Kuwait, Libyan Arab Jamahiriya, Nigeria, Qatar, Saudi Arabia, U.A. Emirates and Venezuela.
ECOWAS-Economic Community of West African States	Benin, Burkina Faso, Cape Verde, Côte d'Ivoire, Gambia, Ghana, Guinée, Guinée-Bissau, Liberia, Mali, Mauritania, Niger, Nigeria, Senegal, Sierra Leone, Togo.

### Time period

The statistics are presented in the form of time series. As far as possible the figures are given for the calendar years 1989-1995 inclusive and for the most recent 18 months. Unless otherwise indicated, the annual figures are expressed as monthly averages.

Annual statistics for many of the tables shown in the *Bulletin* are available for 1975 and 1980 onward in the *Statistical Yearbook* fortieth issue prepared by the *Statistics Division of the United Nations*. The *Yearbook* also contains many other tables as well as a more comprehensive country coverage than the *Bulletin*.

### Units of measurement

Metric units are used in all tables in which the data are measured in weight, volume, length or area. The principal British and United States equivalent units are given in Annex I to this issue.

### Rounding of figures

When necessary each figure has been rounded off to the nearest final digit. For this reason there may be in some series an apparent slight discrepancy between the sum of the constituent items and the total as shown.

### Symbols employed

The following symbols have been used throughout the *Bulletin*.

- . = Not applicable.
- ... = Not available.
- = Magnitude zero.
- 0 = Magnitude not zero, but less than half of unit employed.
- \* = Provisional, preliminary or estimated figure.
- x = United Nations estimate.
- ◆ = Monthly average for quarter or index for quarter.
- # = Marked break in series.

Decimal figures are always preceded by a period (.).

Thousands and millions are separated by a space.

Significant breaks in the homogeneity of a series are indicated by a horizontal or vertical line across the column.

### Période couverte

Les statistiques sont présentées sous forme de séries chronologiques. Autant que possible, les chiffres donnés sont des chiffres annuels pour 1989-1995 et des chiffres mensuels pour les derniers dix-huit mois. Sauf indication contraire, les chiffres annuels représentent les moyennes mensuelles.

L'*Annuaire statistique* quarantième édition publié par la Division de statistique des Nations Unies contient, pour 1975, et les années partant de 1980, des statistiques annuelles correspondant à beaucoup de tableaux qui paraissent dans le présent *Bulletin*. L'*Annuaire* contient en outre de nombreux autres tableaux et englobe un ensemble beaucoup plus large de pays.

### Unités de mesure

Le système métrique est utilisé dans tous les tableaux dont les données sont mesurées en poids, volume, longueur ou surface. Une liste des principaux équivalents des unités métriques en unités anglaises et des Etats-Unis figure à l'Annexe I du présent numéro.

### Arrondissement de chiffres

Chaque fois qu'on l'a jugé nécessaire, les nombres ont été arrondis à l'unité. Il peut donc y avoir, pour certaines séries, une légère différence entre la somme des éléments constituants et le total indiqué.

### Signes conventionnels

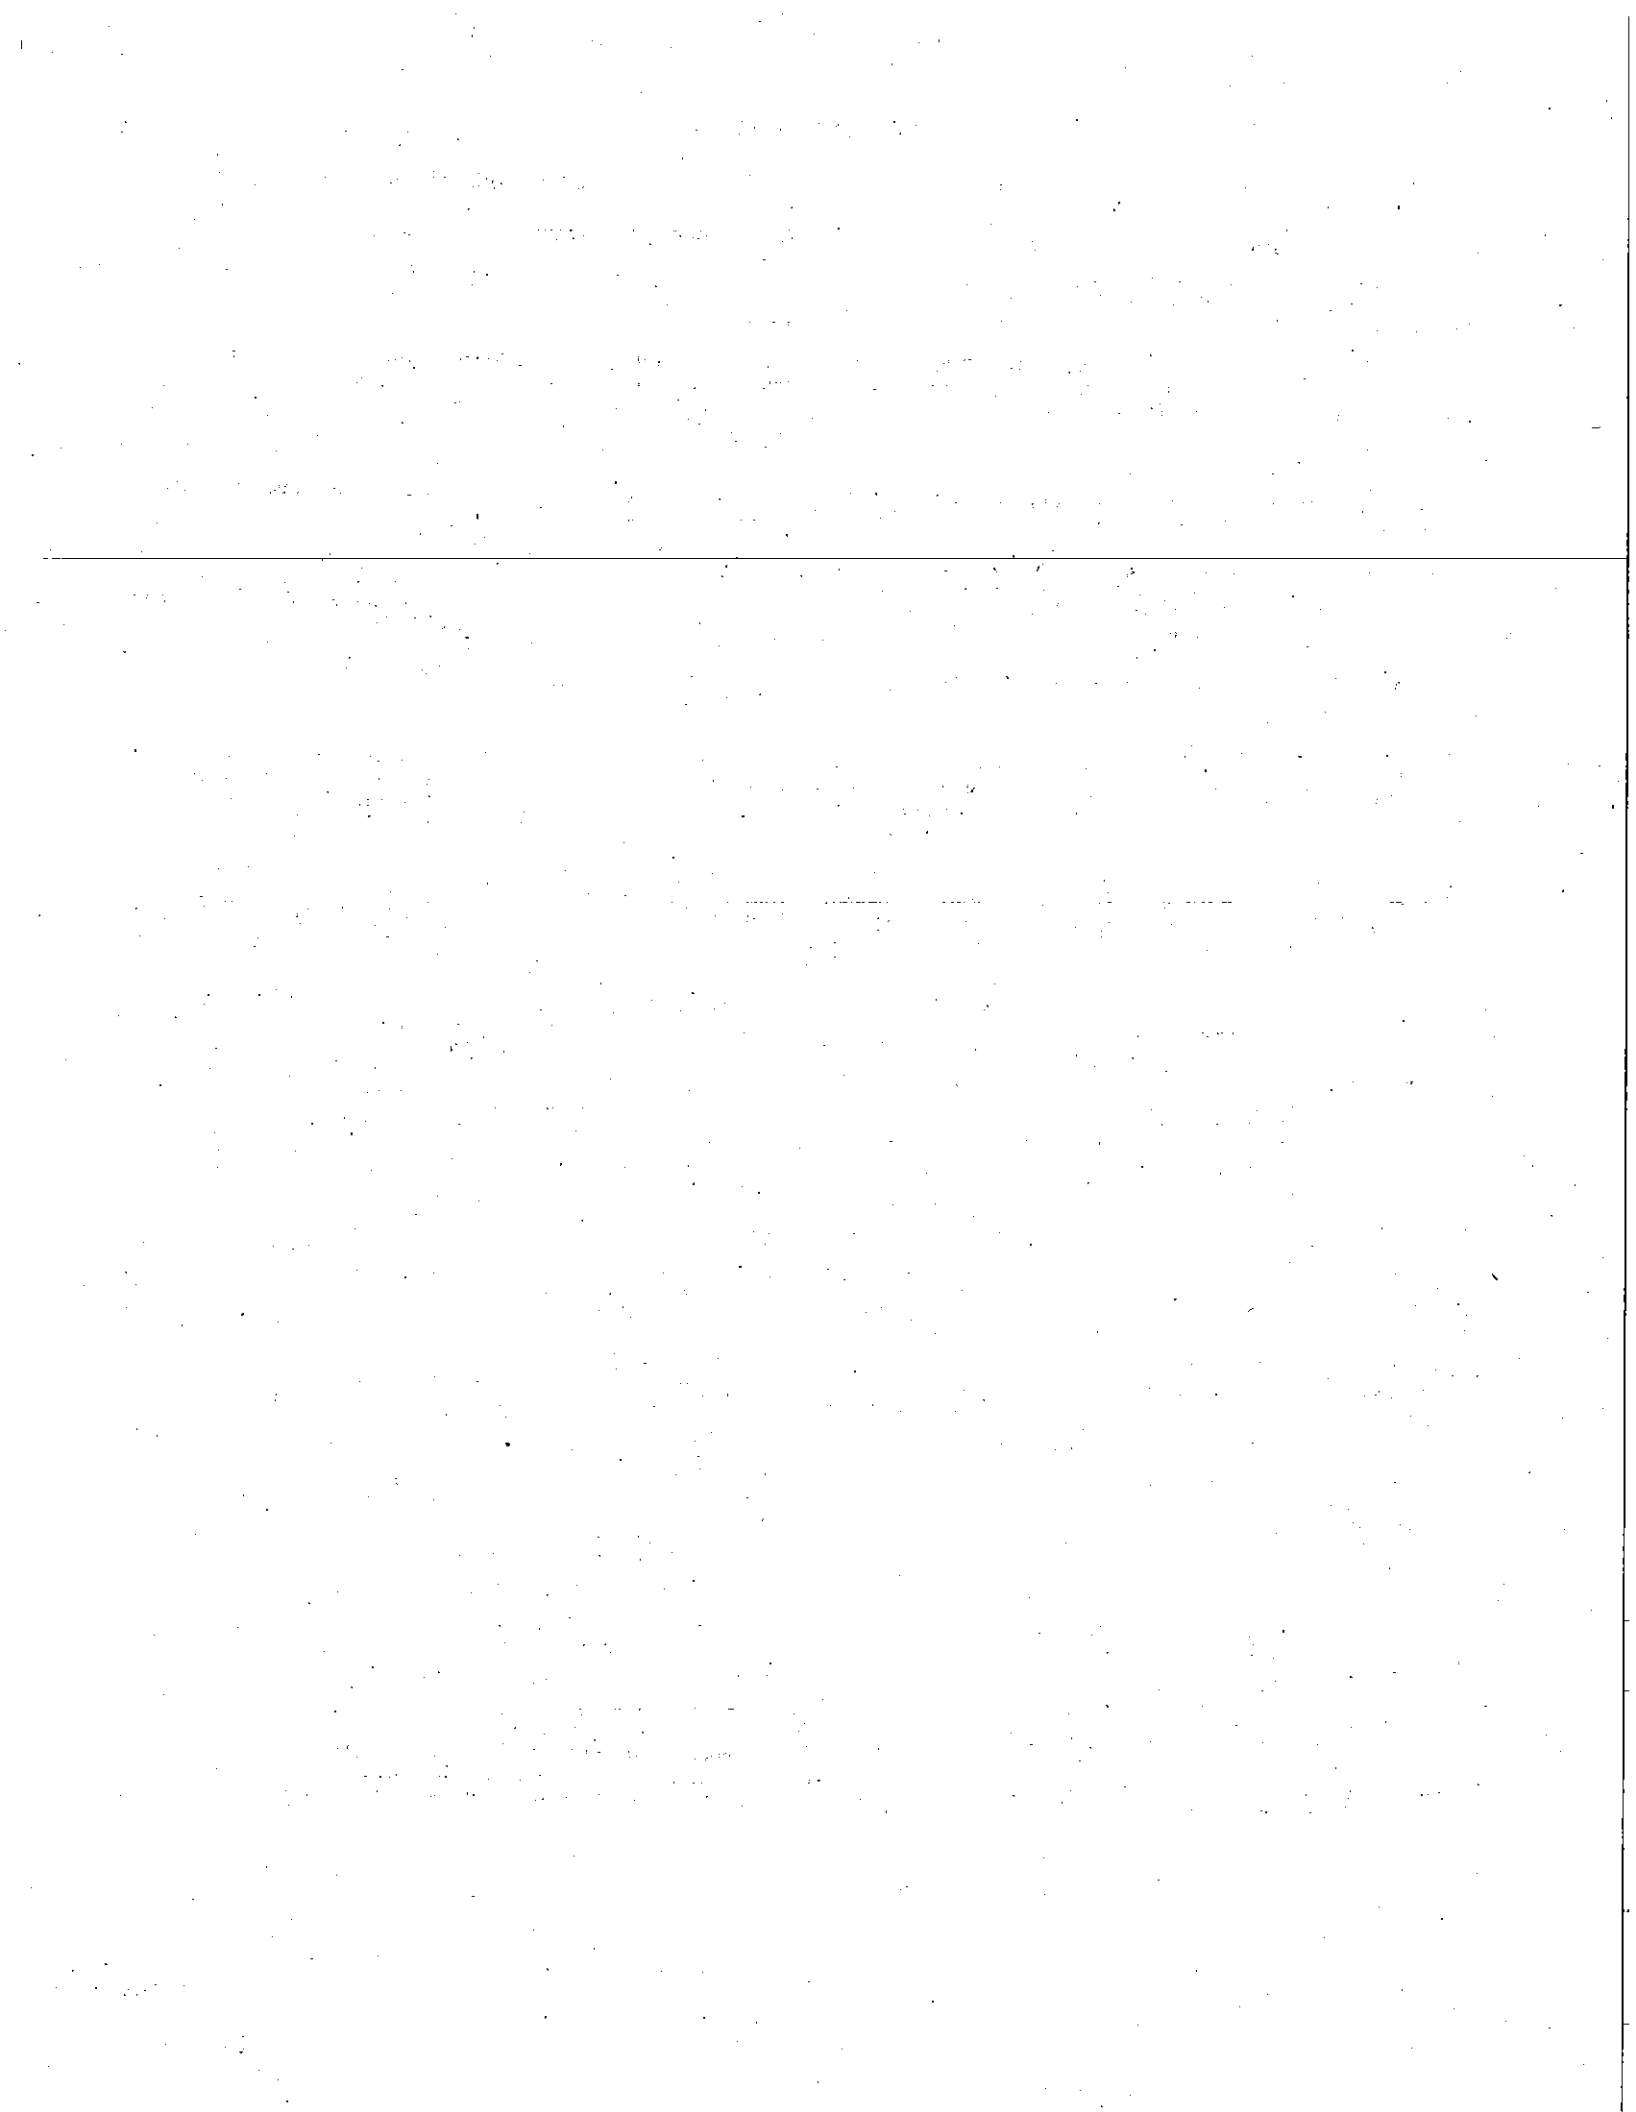

Les signes ci-après ont été utilisés dans le *Bulletin*.

- . = Ne s'applique pas.
- ... = Aucune donnée disponible.
- = Résultat rigoureusement zéro.
- 0 = Résultat inférieur à la moitié de la dernière unité retenue.
- \* = Donnée provisoire ou estimation.
- x = Estimation des Nations Unies.
- ◆ = Moyenne mensuelle pour le trimestre ou indice pour le trimestre.
- # = Une discontinuité notable dans la série.

Les décimales sont toujours précédées d'un point (.).

Les milliers et millions sont séparés par un espace.

Les discontinuités importantes dans l'homogénéité des séries sont indiquées par un trait horizontal ou vertical en travers de la colonne.

### General note.

Figures shown in italics indicate estimates of questionable reliability. Estimates marked by (\*) have been computed by the Population Division of the United Nations and are used whenever possible to fill gaps caused by the absence of an official estimate.

For detailed descriptions of the series and their limitations see the United Nations 1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics, the Demographic Yearbook and the Population and Vital Statistics Report, Statistical Papers, Series A.

# Marked break in series.

<sup>1</sup> Excluding nomads.

<sup>2</sup> See explanatory notes on data pertaining to Germany on page x.

<sup>3</sup> Including the Indian-held part of Jammu and Kashmir, the final status of which has not been determined.

<sup>4</sup> Excluding Rodrigues and other small islands.

<sup>5</sup> Excluding Jammu and Kashmir, the final status of which has not yet been determined. Also excluded are Junagadh, Manavadar, Gilgit and Baltistan.

### Remarque générale.

Les chiffres en italique sont des estimations discutables. Les estimations marquées par (\*) ont été calculées par la Division de la population des Nations Unies et sont utilisées chaque fois que possible lorsqu'une estimation officielle n'est pas disponible.

Des définitions détaillées des séries ainsi que des renseignements sur leur champ d'application se trouvent dans le 1977 Supplément à l'Annuaire statistique et au Bulletin mensuel de statistique des Nations Unies, ainsi que dans l'Annuaire démographique et dans le Population and Vital Statistics Reports, Statistical Papers, Series A.

# Une discontinuité notable dans la série.

<sup>1</sup> Non compris les nomades.

<sup>2</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

<sup>3</sup> Y compris la partie du Jammu et Cachemire occupée par l'Inde dont le statut définitif n'a pas encore été déterminé.

<sup>4</sup> Non compris Rodrigues et les autres petites îles.

<sup>5</sup> Non compris le Cachemire et le Jammu, dont le statut définitif n'a pas encore été déterminé. Non compris également, le Junagadh, le Manavadar, le Gilgit et le Baltistan.

### General note.

Data refer to live births which occurred or were registered during the period indicated. For detailed descriptions of the series and their limitations, see the United Nations 1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics and the Technical notes of the United Nations Demographic Yearbook. For the purpose of international comparability, this table is confined to countries for which complete or virtually complete registration data exist.

- <sup>1</sup> Data prior to January 1993 pertain to the former Czechoslovakia.
- <sup>2</sup> See explanatory notes on data pertaining to Germany on page x.
- <sup>3</sup> Excluding Rodrigues and other small islands.
- <sup>4</sup> Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

### Remarque générale.

Les données se rapportent aux naissances vivantes intervenues ou enregistrées au cours de la période indiquée. Des définitions se trouvent dans le 1977 Supplément à l'Annuaire statistique et au Bulletin mensuel de statistique des Nations Unies, ainsi que dans l'Annuaire démographique de l'ONU (Notes techniques sur les tableaux statistiques). Pour permettre la comparaison d'un pays à l'autre, ce tableau ne comprend que les pays où l'enregistrement des données est complet ou virtuellement complet.

- <sup>1</sup> Les données relatives à la période précédant janvier 1993 correspondent à l'ancienne Tchécoslovaquie.
- <sup>2</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.
- <sup>3</sup> Non compris Rodrigues et les autres petites îles.
- <sup>4</sup> A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

### General note.

Data refer to deaths which occurred or were registered during the period indicated. For detailed descriptions of the series and their limitations, see the United Nations 1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics and the Technical notes of the United Nations Demographic Yearbook. For the purpose of international comparability, this table is confined to countries for which complete or virtually complete registration data exist.

<sup>1</sup> Data prior to January 1993 pertain to the former Czechoslovakia.

<sup>2</sup> See explanatory notes on data pertaining to Germany on page x.

<sup>3</sup> Excluding Rodrigues and other small islands.

<sup>4</sup> Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

### Remarque générale.

Les données se rapportent aux décès intervenus ou enregistrés au cours de la période indiquée. Des définitions détaillées des séries ainsi que des renseignements sur leur champ d'application se trouvent dans le 1977 Supplément à l'Annuaire statistique et au Bulletin mensuel de statistique des Nations Unies, ainsi que dans l'Annuaire démographique de l'ONU (Notes techniques sur les tableaux statistiques). Pour permettre la comparaison d'un pays à l'autre, ce tableau ne comprend que les pays où l'enregistrement des données est complet ou virtuellement complet.

<sup>1</sup> Les données relatives à la période précédant janvier 1993 correspondent à l'ancienne Tchécoslovaquie.

<sup>2</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

<sup>3</sup> Non compris Rodrigues et les autres petites îles.

<sup>4</sup> A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

### General note.

Data refer to marriages performed, marriage licences issued, or marriages registered. In countries where the number of consensual marriages is large, the rates based on recorded marriages are correspondingly low. For detailed descriptions of the series and their limitations, see the United Nations 1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics and the Technical notes of the United Nations Demographic Yearbook.

- <sup>1</sup> Data prior to January 1993 pertain to the former Czechoslovakia.
- <sup>2</sup> See explanatory notes on data pertaining to Germany on page x.
- <sup>3</sup> Excluding Rodrigues and other small islands.
- <sup>4</sup> Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

### Remarque générale

Les données se rapportent soit aux mariages célébrés, soit aux permis de mariage délivrés, soit aux mariages enregistrés. Dans le pays où le nombre de mariages consensuels est important, les taux de nuptialité basés sur les mariages enregistrés sont donc peu élevés. Des définitions détaillées des séries ainsi que des renseignements sur leur champ d'application se trouvent dans le 1977 Supplément à l'Annuaire statistique et au Bulletin mensuel de statistique des Nations Unies ainsi que dans l'Annuaire démographique de l'ONU (Notes techniques sur les tableaux statistiques).

- <sup>1</sup> Les données relatives à la période précédant janvier 1993 correspondent à l'ancienne Tchécoslovaquie.
- <sup>2</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.
- <sup>3</sup> Non compris Rodrigues et les autres petites îles.
- <sup>4</sup> A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

General note.

The series cover, in general, employment in non-agricultural activities. The data relate, unless otherwise stated, to wage-earners and salaried employees in mining, manufacturing, construction and building, transport, commerce, personal and public services. Employment in agriculture, forestry and fishing is not included.

The statistics usually refer to the total number at work at a specified date in each month or quarter. For certain countries, however, the data refer to the average number of employed in the period.

For additional details, see Statistical Yearbook 1993.

- 1 Annual averages: one month of each year.
- 2 Excluding armed forces.
- 3 Persons aged 15 years and over (Finland: 15-74; Italy, San Marino: 14; Norway: 16-74; Sweden: 16-64; Puerto Rico, Spain and U.S.A.: 16 years; Portugal: 12 years).
- 4 Civilian labour force.
- 5 Socialised sector.
- 6 All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories at the time indicated. See explanatory notes on data pertaining to Germany on page x.
- 7 Including working proprietors.
- 8 Revised scope.
- 9 Excluding sugar and tea factories.
- 10 Annual averages: average of less than 12 months.
- 11 Prior to 1992, index base: third quarter 1985=100.
- 12 Including forestry and fishing.

Remarque générale.

Les séries portent, en général, sur l'emploi dans les branches d'activités non agricoles. Les données se réfèrent, sauf indication contraire, aux ouvriers et employés des mines, des industries manufacturières, de la construction et du bâtiment, des transports, du commerce et des services privés et publics. Elles n'englobent pas l'emploi dans l'agriculture, les exploitations forestières et la pêche.

Les statistiques portent en général sur l'effectif total de la main-d'oeuvre active à une date déterminée du mois ou du trimestre. Toutefois, en ce qui concerne certains pays, les données portent sur le nombre moyen des salariés employés pendant la période.

Pour plus de détail, voir l'Annuaire Statistique 1993.

- 1 Moyennes annuelles: un mois de chaque année.
- 2 Non compris les forces armées.
- 3 Personnes âgées de 15 ans et plus (Finlande: 15-74; Italie, Saint Marin: 14; Norvège: 16-74; Suède: 16-64; Porto Rico, Espagne et Etats-Unis: 16; Portugal: 12).
- 4 Main d'oeuvre civile occupée.
- 5 Secteur socialisé.
- 6 Toutes les données se rapportant à l'Allemagne avant le 3 octobre 1990 figurent dans deux rubriques séparées basées sur les territoires respectifs de la République fédérale d'Allemagne et l'ancienne République démocratique allemande selon la période indiquée. Voir les notes explicatives sur les données concernant l'Allemagne à la page x.
- 7 Y compris les propriétaires exploitants.
- 8 Méthode révisée d'estimation.
- 9 Non compris fabriques de sucre et de thé.
- 10 Moyennes annuelles: moyenne de moins de 12 mois.
- 11 Avant de 1992, indices base: troisième trimestre 1985=100.
- 12 Y compris la sylviculture et les pêches.

General note.  
The series cover, in general, salaried employees and wage earners in manufacturing.

The statistics refer to the total number at work at a specified date in each month or quarter. For certain countries, however, the data refer to the average number employed in the period. For a few countries, very small establishments are excluded.

For additional details, see Statistical Yearbook 1993.

- 1 Including mining and quarrying. (Finland: including electricity, gas and water).
- 2 Persons aged 15 years and over (Italy, Rep. of Korea and San Marino: 14).
- 3 Base: 1980=100 (Colombia: beginning May 1991: base 1990=100).
- 4 Annual averages: one month of each year.
- 5 Socialised sector.
- 6 Revised method of estimation.
- 7 Including working proprietors.
- 8 Including unpaid family workers.
- 9 Excluding sugar and tea factories.
- 10 Annual data: average of less than 12 months.
- 11 Including electricity and water.
- 12 Wage-earners only.
- 13 Prior to 1992, index base: third quarter 1985=100.

Remarque générale.  
Les séries portent, en général, sur les employés et ouvriers des industries manufacturières.

Les statistiques portent en général sur l'effectif total de la main-d'œuvre active à une date déterminée du mois ou du trimestre. Toutefois, en ce qui concerne certains pays, les données portent sur le nombre moyen des salariés employés pendant la période. Non compris, pour quelques pays, les très petits établissements.

Pour plus de détail, voir l'Annuaire Statistique 1993.

- 1 Y compris les mines et les carrières. (Finlande: y compris l'électricité, gaz et l'eau).
- 2 Personnes âgées de 15 ans et plus (Italie, Corée, Rép de et Saint Marin:14).
- 3 Base: 1980=100(Colombie: à partir mai 1991: base 1990=100).
- 4 Moyennes annuels: un mois de chaque année.
- 5 Secteur socialisé.
- 6 Méthode révisée d'estimation.
- 7 Y compris les propriétaires exploitants.
- 8 Y compris les travailleurs familiaux non rémunérés.
- 9 Non compris fabriques de sucre et de thé.
- 10 Données annuels: moyenne de moins de 12 mois.
- 11 Y compris l'électricité et l'eau.
- 12 Ouvriers seulement.
- 13 Avant de 1992, Indices base: troisième trimestre 1985=100.

Source. International Labour Office.  
General note. The series generally represent the average hours actually worked by wage-earners. In a few cases, the data relate to hours paid for, or to normal hours, rather than actual hours worked.

Source. Bureau International du Travail.  
Remarque générale. Les séries représentent généralement le nombre moyen d'heures de travail effectuées par les ouvriers. Dans quelques cas, les données se rapportent aux heures rémunérées plutôt qu'au nombre d'heures de travail effectuées.

# MANPOWER

## 8. Unemployment(continued) – Chômage(suite)

### Source:

International Labour Office.

### Source of data:

- A. Labour force sample surveys.
- B. Employment office statistics.

### General note.

The series generally represent the total number of persons wholly unemployed and temporarily laid-off and are derived from unemployment insurance statistics, employment office statistics, or from sample surveys of the labour force. In using these series, consideration should be given to the source of the data. In general, the figures relating to percentage unemployed are calculated by expressing the number of unemployed in a given period as a percentage of the total number of employed and unemployed persons in the group considered during the same period.

For descriptions of the Individual series, see the United Nations 1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics.

1. Fourth quarter of each year.
2. Scope of series revised.
3. Data prior to January 1995 pertain to the territorial boundaries of the Fed. Rep. of Germany prior to 3 October 1990 (See explanatory notes on page x).
4. Persons aged 16 years and over.
5. Excluding agriculture, fishing and private domestic services.
6. Including persons who did not work in the country during the previous twelve months.
7. Compulsory unemployment insurance statistics.
8. Based on labour sample surveys.
9. Excluding persons temporarily laid off.
10. Registered unemployed.
11. Unemployed among members of unemployment insurance funds.
12. Excluding persons temporarily laid off. Excluding adult students registered for vacation employment.
13. Persons aged 15 years and over.
14. Beginning 1995: excluding registered applicants for work who worked more than 78 hours during the month.
15. Persons aged 10 years and over.
16. Excluding rural population of the northern region.
17. September of each year.

### Source:

Bureau International du Travail.

### Source des données:

- A. Enquêtes par sondage sur la main-d'oeuvre.
- B. Statistiques des bureaux de placement.

### Remarque générale.

Les séries représentent, en général, le nombre total des chômeurs et des personnes temporairement débauchées et proviennent des statistiques de l'assurance chômage, des statistiques des bureaux de placement et des enquêtes par sondage de la main-d'oeuvre. En employant ces séries, il faut tenir compte de la source des données. En général, pour établir les pourcentages de chômage, on calcule le rapport entre le nombre des ouvriers en chômage pour un groupe donné, pendant une certaine période, et l'effectif total des personnes employées et des chômeurs dans ce groupe, pendant la même période.

Pour les définitions de chacune des séries, voir le 1977 Supplément à l'Annuaire statistique et au Bulletin Mensuel de statistique des Nations Unies.

1. Quatrième trimestre de chaque année.
2. Portée de la série révisée.
3. Les données relatives à la période précédant janvier 1995 correspondent aux limites territoriales de la République fédérale d'Allemagne antérieure au 3 octobre 1990 (voir les notes explicatives à la page x).
4. Personnes âgées de 16 ans et plus.
5. Non compris l'agriculture, la pêche et les services domestiques privés.
6. Y compris les personnes qui n'ont pas travaillé dans le pays pendant les douze mois précédents.
7. Statistiques de l'assurance chômage obligatoire.
8. Basé sur les enquêtes par sondage de la main-d'oeuvre.
9. Non compris les personnes temporairement débauchées.
10. Chômeurs enregistrés.
11. Chômage parmi les membres des caisses d'assurance-chômage.
12. Non compris les personnes temporairement débauchées. Non compris les étudiants adultes qui s'enregistrent pour travailler pendant les vacances.
13. Personnes âgées de 15 ans et plus.
14. A partir de 1995: non compris demandeurs d'emploi enregistrés qui avaient travaillé plus de 78 heures pendant le mois.
15. Personnes âgées de 10 ans et plus.
16. Non compris la population rurale de la région du Nord.
17. Sept. de chaque année.

# INDUSTRIAL PRODUCTION

## 10. Index numbers of industrial production

(Continued)

1990=100

### General note

The national indices in this table are shown for the categories, 'Mining', 'Manufacturing', 'Electricity, gas and water', and 'Construction'. These categories are classified according to Major Divisions 2, 3, 4 and 5 of the United Nations International Standard Industrial Classification of All Economic Activities (ISIC) (Statistical Papers, Series M, No.4, Rev.2) or Tabulation Categories C, D, E and F of the revised version of ISIC (Statistical Papers, Series M, No.4, Rev.3), respectively. The indices for the categories which follow ISIC, Rev.3 are identified by footnotes to the table. Major deviations from ISIC in the scope of the indices for the above categories are also indicated in footnotes.

The category 'General' covers Mining, Manufacturing, and Electricity, gas and water, and does not cover, unless otherwise indicated, Construction. The indices for this category 'General', however, are the combination of the components shown and show all deviations from ISIC footnoted for the component series.

Unless otherwise stated, the monthly and quarterly indices are not adjusted for differences in the number of working days or seasonal variation. The indices marked by † have been calculated by the Statistics Division of the United Nations from component national indices. Detailed descriptions of the national series are given in the United Nations 1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics.

For the purpose of presentation, the national indices have been rebased to 1990=100, where necessary.

- 1 Annual figures: average of 12 months ending 30 June of the year stated.
- 2 Based on ISIC, Rev.3.
- 3 Excluding services to mining.
- 4 Monthly indices are adjusted for differences in the number of working days.
- 5 Annual figures: average of 12 months beginning 1 July of the year stated.
- 6 Excluding non-ferrous metal basic industries.
- 7 Beginning 1990, based on ISIC, Rev.3.
- 8 Excluding metal mining.
- 9 Excluding printing and publishing.
- 10 Excluding electricity, gas and water.
- 11 Excluding wood, furniture, printing and publishing.
- 12 Including logging and fishing.
- 13 Gross Domestic Product by industry at factor cost at 1986 prices.

- 14 Excluding natural gas.
- 15 Beginning 1991, base: 1991=100 and data based on ISIC, Rev.3. Prior to 1991, data pertain to the territorial boundaries of the Federal Republic of Germany prior to 3 October 1990. Also see explanatory notes on data pertaining to Germany on page x.
- 16 Including magnesite roasting.
- 17 Including car repairs.
- 18 Stone quarrying, clay and sand pits are included in manufacturing. Coal briquetting is included in mining.
- 19 Including waterworks and gasworks, excluding publishing.
- 20 Extraction of non-metallic minerals only.
- 21 Phosphate, potash and stone quarrying only.
- 22 Excluding paper and paper products.
- 23 Excluding mining.
- 24 Excluding fur and leather products, footwear, furniture and fixture, printing and publishing.
- 25 Including construction.
- 26 Excluding coal, crude petroleum, stone quarrying, clay and sand pits.
- 27 Excluding petroleum refineries.
- 28 Including coal mining, crude petroleum and petroleum refineries.
- 29 Gross Domestic Product at constant 1982-1983 prices. Annual figures: average of four quarters ending 31 March of the year stated.
- 30 Beginning 1996, based on ISIC, Rev.3.
- 31 Beginning 1992, based on ISIC, Rev.3.
- 32 Excluding furniture, printing and publishing.
- 33 Monthly and quarterly indices are adjusted for seasonal variations.
- 34 Covers phosphate rock, sea salt, ferrous and non-ferrous minerals only.
- 35 Excluding petroleum refineries, wearing apparels, leather, wood and plastic industries.
- 36 Including crude petroleum, natural gas and petroleum refineries.
- 37 Including non-ferrous metal basic industries.

10. Indices de la production industrielle

(Suite)

1990 = 100

**Remarque générale**

Les définitions des catégories, 'Mines', 'Industries manufacturières', 'Electricité, gaz et eau' et 'Construction', pour lesquelles des indices nationaux sont donnés dans ce tableau, correspondent à celles des branches 2, 3, 4 et 5 de la Classification internationale type par industrie de toutes les branches d'activité économique (CITI) (Etudes statistiques, série M, No. 4, Rev. 2) ou à celles des catégories C, D, E et F des tableaux de la version révisée de la CITI (Etudes statistiques, série M, No. 4, Rev. 3), respectivement. Les indices des catégories de la CITI, Rev. 3 sont indiqués dans les notes du tableau. Toutes différences importantes par rapport à la CITI dans la portée des indices de ces catégories, sont également indiquées dans ces notes.

La catégorie 'Général' couvre Mines, Industries manufacturières et Electricité, gaz et eau, mais ne couvre pas, sauf indication contraire, la Construction. Toutefois les indices de cette catégorie 'Général' ne portent que sur la combinaison des indices partiels indiqués, et partagent toutes les différences par rapport à la CITI notées dans le cas des indices partiels.

Sauf indication contraire, les indices mensuels et trimestriels ne sont pas corrigés pour tenir compte de l'inégalité du nombre de jours ouvrables ou des variations saisonnières. Les indices marqués par † ont été calculés par la Division de statistique de l'ONU à partir d'indices nationaux plus détaillés. Des descriptions plus détaillées de séries nationales sont données au numéro du 1977 Supplément à l'Annuaire statistique et au Bulletin Mensuel de Statistique des Nations Unies.

Pour les besoins de la présentation, les indices nationaux ont été dans certains cas recalculés en prenant 1990 = 100 comme base de référence.

<sup>1</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin de l'année indiquée.

<sup>2</sup> Tirées de la CITI, Rev. 3.

<sup>3</sup> Non compris les services relatifs aux mines.

<sup>4</sup> Les indices mensuels sont corrigés pour tenir compte de l'inégalité du nombre de jours ouvrables.

<sup>5</sup> Chiffres annuels: moyennes de douze mois commençant le 1er juillet de l'année indiquée.

<sup>6</sup> Non compris la métallurgie de base de métaux non-ferreux.

<sup>7</sup> Tirées de la CITI, Rev. 3 à partir de 1990.

<sup>8</sup> Non compris l'extraction des minerais métalliques.

<sup>9</sup> Non compris l'imprimerie et l'édition.

<sup>10</sup> Non compris l'électricité, le gaz et l'eau.

<sup>11</sup> Non compris l'industrie du bois et du meuble, l'imprimerie et l'édition.

<sup>12</sup> Y compris l'exploitation forestière et la pêche.

<sup>13</sup> Produit intérieur brut par industrie au coût des facteurs aux prix de 1986.

<sup>14</sup> Non compris l'extraction du gaz naturel.

<sup>15</sup> A partir de 1991, on a adopté 1991 = 100 comme base de référence et les données sont tirées de la CITI, Rev. 3. Les données datant d'avant 1991 se rapportent aux limites territoriales de la République fédérale d'Allemagne antérieures au 3 octobre 1990. Voir également les notes explicatives à la page x.

<sup>16</sup> Y compris le rôtissage du magnésite.

<sup>17</sup> Y compris la réparation de véhicules automobiles.

<sup>18</sup> L'extraction de la pierre à bâtir, de l'argile et du sable est comprise dans les industries manufacturières. La fabrication de briquettes de charbon est comprise dans les mines.

<sup>19</sup> Y compris les usines à eau et les usines à gaz, non compris l'édition.

<sup>20</sup> Extraction des minéraux non métalliques seulement.

<sup>21</sup> Le phosphate, la potasse et l'extraction de la pierre à bâtir seulement.

<sup>22</sup> Non compris le papier et les articles en papier.

<sup>23</sup> Non compris les mines.

<sup>24</sup> Non compris l'industrie de la fourrure et du cuir, la fabrication des chaussures, la fabrication des meubles et des accessoires, l'imprimerie et l'édition.

<sup>25</sup> Y compris la construction.

<sup>26</sup> Non compris l'extraction du charbon, de pétrole brut, de la pierre à bâtir, de l'argile et du sable.

<sup>27</sup> Non compris les raffineries de pétrole.

<sup>28</sup> Y compris l'extraction du charbon, de pétrole brut et les raffineries de pétrole.

<sup>29</sup> Produit intérieur brut aux prix constants de 1982-1983. Chiffres annuels: moyennes de quatre trimestres finissant le 31 Mars de l'année indiquée.

<sup>30</sup> Tirées de la CITI, Rev. 3 à partir de 1996.

<sup>31</sup> Tirées de la CITI, Rev. 3 à partir de 1992.

<sup>32</sup> Non compris l'industrie du meuble, l'imprimerie et l'édition.

<sup>33</sup> Les indices mensuels et trimestriels sont corrigés pour tenir compte des variations saisonnières.

<sup>34</sup> Le phosphate de chaux, le sel-marin et les minerais ferreux et non-ferreux seulement.

<sup>35</sup> Non compris les raffineries de pétrole et les industries d'habillement, du cuir, du bois et du matière plastique.

<sup>36</sup> Y compris l'extraction de pétrole brut, les raffineries de pétrole et les produits de gaz naturel.

<sup>37</sup> Y compris la métallurgie de base des métaux non-ferreux.

## General note.

The figures relate to all grades of anthracite and bituminous coal, but exclude recovered slurries, lignite and brown coal, except where otherwise stated.

- Annual data net, monthly data gross.
- Bituminous coal. Sub-bituminous coal is included in data for lignite.
- Including lignite and waste (China: monthly data).
- Low grade coal at its hard-coal equivalent.
- See explanatory notes on data pertaining to Germany on page x.
- Including slurries.
- Including brown coal (Japan: about 7% of total production).
- Svalbard. Norwegian operated mines only.
- Annual figures: averages of twelve months ending 30 June.
- Including lignite (United States: beginning 1992).
- Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

## Remarque générale.

Les données se rapportent à toutes les qualités d'anthracite et de houille bitumineuse mais, sauf indication contraire, ne comprennent pas les schammes récupérées, le lignite et le "charbon brun".

- Données annuelles nettes, données mensuelles total.
- Charbon bitumineux. Charbon sousbitumineux est compris avec les données du lignite.
- Y compris le lignite et les déchets (Chine : données mensuelles).
- Charbon de qualité inférieure à l'équivalence de houille.
- Voir les notes explicatives sur les données concernant l'Allemagne à la page x.
- Y compris les schammes.
- Y compris le "charbon brun" (Japon : environ 7% de la production totale).
- Svalbard. Mines exploitées par la Norvège seulement.
- Chiffres annuels : moyennes de douze mois finissant le 30 juin.

General note.

The figures relate to lignite and brown coal.

1 Including sub-bituminous coal.

2 See explanatory notes on data pertaining to Germany on page x.

3 Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

Remarque générale.

Les chiffres se rapportent au lignite et au "charbon brun".

1 Y compris le charbon sous-bitumineux.

2 Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

3 A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

General note.

Data relate, as far as possible, to net production of natural gas.

- 1 Monthly data include shrinkage.
- 2 Annual data: averages of twelve months ending 30 June.
- 3 Monthly data include gas re-injected.
- 4 Monthly data include wasted gas.
- 5 Data prior to January 1991 pertain to the territorial boundaries of the Federal Republic of Germany prior to 3 October 1990 (See explanatory notes on page x).
- 6 See explanatory notes on data pertaining to Yugoslavia on page x.

Remarque générale.

Les données se rapportent, autant que possible, à la production nette du gaz naturel.

- 1 Données mensuelles : y compris perte en contraction.
- 2 Données annuelles : moyennes de douze mois finissant le 30 juin.
- 3 Données mensuelles : y compris le gaz réinjecté.
- 4 Données mensuelles : y compris le gaz perdu.
- 5 Les données relatives à la période précédant janvier 1991 correspondent aux limites territoriales de la Rép. féd. d'Allemagne antérieure au 3 octobre 1990 (voir les notes explicatives à la page x).
- 6 Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

**General note.**

Data exclude natural gas liquids. For some countries, original data expressed in units of capacity or volume have been converted to metric tons by use of the average specific gravities shown in the column headings. Data in thousands of cubic metres can be derived by dividing the figures shown in the table by the appropriate specific gravity. These volume data, in turn, can be converted into thousands of barrels by multiplication by a factor of 6.2898. Further information may be found in the 1993 Energy Statistics Yearbook (Statistical Papers, Series J, No. 37), United Nations.

- Including natural gas liquids.
- Data include petroleum from far sands (synthetic crude petroleum).
- Data prior to January 1991 pertain to the territorial boundaries of the Federal Republic of Germany prior to 3 October 1990 (See explanatory notes on page x).
- Including Neutral Zone on share basis.
- Sabah and Sarawak only.
- Fields condensates only.
- Annual figures: averages of twelve months ending 30 June.
- Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

**Remarque générale.**

Les données ne comprennent pas les condensats du gaz naturel. Pour certains pays, les données originales exprimées en unités de capacité ou de volume ont été converties en tonnes métriques à l'aide de la densité indiquée dans l'en-tête. Pour exprimer les données en milliers de mètres cubes, il suffit de diviser les chiffres qui figurent dans le tableau par le poids spécifique indiqué. On peut ensuite convertir les mètres cubes en barils en multipliant par 6.2898. Pour plus de détails, voir l'Annuaire 1993 des statistiques de l'énergie (Statistical Papers, Series J, No. 37), Nations Unies.

- Y compris les condensats provenant du gaz naturels.
- Les données comprennent le pétrole brut des sables bitumineux (pétrole brut synthétique).
- Les données relatives à la période précédant janvier 1991 correspondent aux limites territoriales de la République fédérale d'Allemagne antérieure au 3 octobre 1990 (voir les notes explicatives à la page x).
- Y compris la production de la Zone Neutre au pro-rata.
- Sabah and Sarawak seulement.
- Condensats obtenus des champs seulement.
- Chiffres annuels : moyennes de douze mois finissant le 30 juin.
- A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

**General note.**

Unless otherwise stated, the figures relate to the gross weight of marketable iron ores in the state in which they leave the mine, including manganese iron ores but excluding pyrites. The approximate per cent of iron content obtained from the ore in each country is shown immediately below the country heading in the table. The actual iron content may vary somewhat from period to period.

1 Annual figures: averages of twelve months ending 30 June.

2 See explanatory notes on data pertaining to Germany on page x.

3 Data refer to Peninsular Malaysia only.

4 See explanatory notes on data pertaining to Yugoslavia on page x.

**Remarque générale.**

Sauf indication contraire, les chiffres représentent le poids brut des minerais de fer vendables dans l'état dans lequel ils quittent la mine, y compris les minerais de fer manganésifères, mais non compris les pyrites. Les teneurs approximatives en fer des minerais produits dans chaque pays figurent dans les en-têtes de chaque colonne du tableau. Le contenu en métal peut varier légèrement d'une année à l'autre.

1 Chiffres annuels: moyennes de douze mois finissant le 30 juin.

2 Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

3 Les chiffres se réfèrent à la Malaisie péninsulaire seulement.

4 Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

### General note.

The figures relate to gross weight of crude ore mined.

<sup>1</sup> Annual figures: averages of twelve months ending 30 June.

<sup>2</sup> Dried equivalent of crude ore.

<sup>3</sup> See explanatory notes on data pertaining to Yugoslavia on page x.

### Remarque générale.

Les données se rapportent à l'extraction du poids brut du minerai brut.

<sup>1</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin.

<sup>2</sup> Equivalent desséché du minerai brut.

<sup>3</sup> Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

### General note.

Pb content of lead ores and concentrates and all other lead-bearing ores and concentrates intended for treatment for lead recovery.

<sup>1</sup> Content of concentrates.

<sup>2</sup> Annual figures: averages of twelve months ending 30 June.

<sup>3</sup> Excluding the content of mixed ores or concentrates.

<sup>4</sup> Including zinc content.

<sup>5</sup> Calculated as recoverable.

<sup>6</sup> See explanatory notes on data pertaining to Yugoslavia on page x.

### Remarque générale.

Pb contenu des minerais de plomb et concentrés et tous autres minerais plombifères et concentrés destinés à être traités en vue de l'extraction du plomb.

<sup>1</sup> Contenu des concentrés.

<sup>2</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin.

<sup>3</sup> Non compris le contenu des minerais mixtes ou concentrés mixtes.

<sup>4</sup> Y compris le contenu en zinc.

<sup>5</sup> Evalué comme récupérable.

### General note.

The figures relate to the SN content of tin concentrates and all other tin-bearing ores and concentrates intended for treatment for tin recovery.

<sup>1</sup> Data refer to Peninsular Malaysia only.

<sup>2</sup> Government production only.

<sup>3</sup> Annual figures: averages twelve months ending 30 June.

<sup>4</sup> Source: United Nations Conference on Trade and Development (Geneva).

<sup>5</sup> Including tin-wolfram concentrates.

<sup>6</sup> Source: World Metal Statistics (London).

### Remarque générale.

Les données se rapportent au contenu en étain des concentrés d'étain et tous autres minerais stannifères et concentrés destinés à être traités en vue de l'extraction de l'étain.

<sup>1</sup> Les chiffres se réfèrent à la Malaisie Péninsulaire seulement.

<sup>2</sup> Production de l'Etat seulement.

<sup>3</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin.

<sup>4</sup> Source: Conférence des Nations Unies sur le commerce et le développement (Genève).

<sup>5</sup> Y compris les concentrés de l'étain-wolfram.

<sup>6</sup> Source: World Metal Statistics (Londres).

**General note.**

The data relate to sifted (bolted) flours from soft and hard wheat, and from spelt. Bran and offal, wheat groats, meal, and flours obtained by milling cereals other than wheat, are excluded.

- 1 Annual figures: averages of twelve months ending 30 June.
- 2 Incomplete coverage (Belgium: industrial production; India: main establishments).
- 3 See explanatory notes on data pertaining to Germany on page x.
- 4 Annual figures: averages of twelve months beginning 1 April.
- 5 Data refer to Peninsular Malaysia only.
- 6 Including flour from other grains.
- 7 See explanatory notes on data pertaining to Yugoslavia on page x.

**Remarque générale.**

Les données représentent la farine blutée (tamisée) de blé tendre et blé dur et de l'épeautre. Le son et les autres résidus de la mouture, ainsi que le gruau de froment, et les semoules, et farines obtenues par la mouture de céréales autres que le blé, ne sont pas compris.

- 1 Chiffres annuels: moyennes de douze mois finissant le 30 juin.
- 2 Portée incomplète (Belgique: production industrielle; Inde: établissements principaux).
- 3 Voir les notes explicatives sur les données concernant l'Allemagne à la page x.
- 4 Chiffres annuels: moyennes de douze mois commençant le 1er avril.
- 5 Les chiffres se réfèrent à la Malaisie péninsulaire seulement.
- 6 Y compris la farine d'autres grains.
- 7 Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

**General note.**

The data refer to the total weight of cotton yarn, and yarn spun from cotton waste made for sale, on commission, or for further processing. Unless otherwise stated, tire cord yarn is not included.

- <sup>1</sup> Annual figures: averages of twelve months ending 30 June.
- <sup>2</sup> Including tire cord yarn.
- <sup>3</sup> Pure cotton yarn only.
- <sup>4</sup> See explanatory notes on data pertaining to Germany on page x.
- <sup>5</sup> Excluding yarn made from waste.
- <sup>6</sup> Factory production only.
- <sup>7</sup> Data refer to Peninsular Malaysia only.
- <sup>8</sup> See explanatory notes on data pertaining to Yugoslavia on page x.

**Remarque générale.**

Les données représentent le poids total de filés de coton et ceux provenant des déchets de coton, produits pour la vente directe du travail à façon, ou pour une transformation ultérieure. Sauf indication contraire, les filés pour armatures de pneumatiques ne sont pas compris.

- <sup>1</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin.
- <sup>2</sup> Y compris les filés pour armatures de pneumatiques.
- <sup>3</sup> Filés de coton pur seulement.
- <sup>4</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.
- <sup>5</sup> Non compris les filés fabriqués à partir de déchets.
- <sup>6</sup> Production des fabriques seulement.
- <sup>7</sup> Les chiffres se réfèrent à la Malaisie Péinsulaire seulement.
- <sup>8</sup> Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

**General note.**

The data refer to woven cotton fabrics and mixed cotton fabrics in the piece before undergoing finishing processes such as bleaching, dyeing, etc.

- 1 Annual figures: averages of twelve months ending 30 June.
- 2 After undergoing finishing processes.
- 3 Production by government owned enterprises only.
- 4 Including finished fabrics.
- 5 Mill production only.
- 6 Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.
- 7 All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories at the time indicated. Where data for united Germany (3 October 1990 and thereafter) are not available, they are shown separately under the designations Germany (Federal Republic) and Germany (former Democratic Republic) where available and pertain to the territorial boundaries prior to 3 October 1990. See explanatory notes on page x.

<sup>8</sup> Including silk fabrics.

**Remarque générale.**

Les données se rapportent aux tissus de coton et les tissus de coton mélangés en pièces, avant d'être soumis aux opérations de finissage telles que blanchiment, teinture, etc.

- 1 Chiffres annuels: moyennes de douze mois finissant le 30 juin.
- 2 Après les opérations de finissage.
- 3 Production des établissements d'état seulement.
- 4 Y compris les tissus finis.
- 5 Production des usines seulement.
- 6 A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.
- 7 Toutes les données se rapportant à l'Allemagne avant le 3 octobre 1990 figurent dans deux rubriques séparées basées sur les territoires respectifs de la République fédérale d'Allemagne et l'ancienne République démocratique allemande selon la période indiquée. En l'absence de données pour l'Allemagne unifiée (à compter du 3 octobre 1990), les données sont fournies séparément sous les rubriques Allemagne (République fédérale d') et Allemagne (ancienne République démocratique) et se rapportent aux limites territoriales antérieures au 3 octobre 1990 lorsqu'elles sont disponibles. Voir les notes explicatives à la page x.
- 8 Y compris les tissus de soie.

**General note.**

The data refer to the total production of processed and spun vegetable textile fibres other than cotton. Twine, cordage and rope are excluded. Group C includes yarn of all hard fibres classified under item 651.93 of the Standard International Trade Classification.

<sup>1</sup> Production of jute mills.

<sup>2</sup> Flax and hemp.

<sup>3</sup> Including yarn made from tow.

<sup>4</sup> Flax only.

<sup>5</sup> All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories at the time indicated. See explanatory notes on data pertaining to Germany on page x.

<sup>6</sup> Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

**Remarque générale.**

Les données représentent la production totale de filés de fibres textiles végétales autres que le coton. Cordes et cordages sont exclus. Les filés de fibres dures classifiées dans la position 651.93 de la Classification type pour le commerce international sont comprises dans le groupe C.

<sup>1</sup> Production d'usines de jute.

<sup>2</sup> Lin et chanvre.

<sup>3</sup> Y compris les filés d'étoupe.

**General note.**

The data refer to the weight of carded and combed (worsted) yarn spun for sale (including retail sale), on commission, or for further processing.

<sup>1</sup> Annual figures: averages of twelve months ending 30 June.

<sup>2</sup> Including cellulosic yarn and reclaimed wool.

<sup>3</sup> Including yarn of man-made staple.

<sup>4</sup> See explanatory notes on data pertaining to Germany on page x.

<sup>5</sup> Pure wool yarn only.

**Remarque générale.**

Les données se rapportent au poids des filés de laine cardée et peignée pour la vente (gros et détail), le travail à façon, ou pour une transformation ultérieure.

<sup>1</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin.

<sup>2</sup> Y compris les filés cellulosiques et la laine récupérée.

<sup>3</sup> Y compris filés de fibre artificielle.

<sup>4</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

<sup>5</sup> Filés de laine pure seulement.

### General note.

The figures refer to the total production of rayon (viscose and cuprammonium processes) and acetate (cellulose acetate process) continuous filaments, i.e. filament yarn and mono-filaments, and discontinuous fibres, i.e. staple and tow. Spun rayon or acetate yarn, as well as other manufactures of rayon and acetate, and the non-cellulosic man-made fibres (e.g. nylon, perlon, saran etc.) are excluded. Unless otherwise stated the data also exclude rayon and acetate waste.

1 Excluding rayon industrial and rayon textile fibres.

2 Including production of discontinuous fibres.

3 Data prior to January 1991 pertain to the territorial boundaries of the Fed. Rep. of Germany prior to 3 October 1990 (see explanatory notes on page x).

4 Data relates to both viscose and polyester.

5 Rayon fibres only.

6 Acetate filament only.

### Remarque générale

Les données représentent la production totale de filaments continus (c.à.d. les filés) composés des filaments et les monofilaments) et de fibres discontinues (c.à.d. les brins et les câbles 'faisceaux rompus') par les procédés à la viscose, au cuprammonium et à l'acétate. Les filés de fibranne ou de fibres d'acétate, de même que les autres produits manufacturés de rayonne et d'acétate et les fibres fabriquées à base non cellulosique (p. ex. nylon, perlon, saran, etc.) ne sont pas compris. Sauf indication contraire, les données ne comprennent pas non plus les déchets de rayonne ou d'acétate.

1 Non compris les fibres textiles de rayonne et les rayones d'industries.

2 Y compris la production des fibres discontinues.

3 Les données relatives à la période précédant janvier 1991 correspondent aux limites territoriales de la République fédérale d'Allemagne antérieure au 3 octobre 1990 (voir les notes explicatives à la p. x.).

4 Les données concernent tous les deux viscose et polyester.

5 Fibres de rayonne seulement.

6 Filaments d'acétate seulement.

#### General note.

The data refer to the fabrics in the piece before undergoing finishing processes such as bleaching, dyeing, make-up, etc.

<sup>1</sup> Including fabrics of non-cellulosic fibres.

<sup>2</sup> Including fabrics of natural silk.

<sup>3</sup> Finished fabrics.

<sup>4</sup> Including finished fabrics.

<sup>5</sup> See explanatory notes on data pertaining to Germany on page x.

<sup>6</sup> See explanatory notes on data pertaining to Yugoslavia on page x.

<sup>7</sup> Excluding cellulosic fibres.

<sup>8</sup> Including blankets and carpets of cellulosic fibres.

#### Remarque générale.

Les données se rapportent aux tissus en pièce avant d'être soumis aux opérations de finissage telles que blanchiment, teinture, etc.

<sup>1</sup> Y compris les tissus de fibres non cellulosiques.

<sup>2</sup> Y compris les tissus de soie naturelle.

<sup>3</sup> Tissus finis.

<sup>4</sup> Y compris les tissus finis.

<sup>5</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

<sup>6</sup> Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

<sup>7</sup> Non compris les tissus cellulosiques.

<sup>8</sup> Y compris les couvertures et les tapis en fibres cellulosiques.

### General note.

The table shows the production of non-cellulosic fibres (e.g., nylon, etc.) derived from natural and synthetic polymers, excluding glass fibres. Unless otherwise stated, the table shows continuous filaments including monofilament and slit film, and discontinuous fibres i.e. staple and tow. Waste and spun yarn are excluded.

<sup>1</sup> See explanatory notes on data pertaining to Germany on page x

<sup>2</sup> Data relates to both nylon and polyester.

<sup>3</sup> Data relates to polyester.

<sup>4</sup> "Delivered weight", approximately 3% less than "actual weight" (continuous filaments: "actual weight").

### Remarque générale

Le tableau se rapporte à la production des fibres non cellulosiques (nylon, etc.) dérivées des polymères naturels et synthétiques à l'exception des fibres de verre. Sauf indication contraire, le tableau indique les filaments continus y compris les monofilaments et les bandes de pellicule, et les fibres discontinues y compris les câbles. Les déchets et les filés sont exclus.

<sup>1</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

<sup>2</sup> Les données concernent tous les deux nylon et polyester.

<sup>3</sup> Les données concernent polyester.

<sup>4</sup> Les données sont exprimées en "poids de livraison", environ 3% moins du poids effectif (filaments continus: "poids effectif").

General note.

The data refer to the production of bleached, unsized or slack-sized printed paper without coating, of the type usually used for newspaper, weight from 45 to 60 gr. per square metre, usually with at least 70% of the weight of fibrous material derived from mechanical pulp.

- 1 Annual figures: averages of twelve months ending 30 June.
- 2 All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories of the time indicated. Where data for united Germany (3 October 1990 and thereafter) are not available, they are shown separately under the designations Germany (Federal Republic) and Germany (former Democratic Republic) where available and pertain to the territorial boundaries prior to 3 October 1990. See explanatory notes on page x.
- 3 Annual figures: averages of twelve months beginning 1 April.
- 4 Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

Remarque générale.

Les données se rapportent à la production de papier d'impression, blanchi, non collé ou peu encollé, non couché, du type ordinaire utilisé pour les journaux, poids de 45 à 60 gr. au mètre carré, contenant généralement au moins 70% en poids de matière fibreuse tirée de la pâte mécanique.

- 1 Chiffre annuel: moyennes de douze mois finissant le 30 juin.
- 2 Toutes les données se rapportant à l'Allemagne avant le 3 octobre 1990 figurent dans deux rubriques séparées basées sur les territoires respectifs de la République fédérale d'Allemagne et l'ancienne République démocratique allemande selon la période indiquée. En l'absence de données pour l'Allemagne unifiée (à compter du 3 octobre 1990), les données sont fournies séparément sous les rubriques Allemagne (République fédérale) et Allemagne (ancienne République démocratique) et se rapportent aux limites territoriales antérieures au 3 octobre 1990 lorsqu'elles sont disponibles. Voir les notes explicatives à la page x.
- 3 Chiffres annuels: moyennes de douze mois commençant le 1er avril.
- 4 À partir de janvier 1992 les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

Note. The figures refer only to copolymers of butadiene with styrene and acrylonitrile and to neoprene, butyl type rubber and stereo-regular rubbers. Latices are included (dry weight).

Remarque. Les données se rapportent seulement aux copolymères du butadiène avec le styrène, et l'acrylonitrile et au caoutchouc de type néoprène, butyl et stereo-regular caoutchouc. Les latex sont compris (poids sec).

General note.

The data refer to the production of rubber tires for passenger cars and commercial vehicles. Unless otherwise stated, data do not cover tires for vehicles operating off the road, motorcycles, bicycles and animal-drawn road vehicles. Data also exclude the production of inner tubes.

- 1 Metric tons.
- 2 Source: International Rubber Study Group (London).
- 3 All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories of the time indicated. Where data for united Germany (3 October 1990 and thereafter) are not available, they are shown separately under the designations Germany (Federal Republic) and Germany (former Democratic Republic) where available and pertain to the territorial boundaries prior to 3 October 1990. See explanatory notes on page x.
- 4 Including tires for motorcycles.
- 5 Including tires for vehicles operating off the road.
- 6 Data refer to peninsular Malaysia only.
- 7 Annual figures: averages of twelve months ending 30 June of year stated.
- 8 Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

Remarque générale.

Les données représentent la production de pneus en caoutchouc pour voitures particulières et véhicules utilitaires. Sauf indication contraire, elles ne correspondent pas aux pneus pour véhicules tous terrains ni aux pneus pour motocyclettes, bicyclettes et véhicules routiers à traction. Les données ne comprennent pas non plus la production de chambres à air.

- 1 Tonnes métriques.
- 2 Source: Groupe International d'Etudes du Caoutchouc (Londres).
- 3 Toutes les données se rapportant à l'Allemagne avant le 3 octobre 1990 figurent dans deux rubriques séparées basées sur les territoires respectifs de la République fédérale d'Allemagne et l'ancienne République démocratique allemande selon la période indiquée. En l'absence de données pour l'Allemagne unifiée (à compter du 3 octobre 1990) les données sont fournies séparément sous les rubriques Allemagne (République fédérale d') et Allemagne (ancienne République démocratique) et se rapportent aux limites territoriales antérieures au 3 octobre 1990 lorsqu'elles sont disponibles. Voir les notes explicatives à la page x.
- 4 Y compris enveloppes pour motocyclettes.
- 5 Y compris enveloppes pour véhicules tous terrains.
- 6 Les chiffres se réfèrent à la Malaisie péninsulaire seulement.
- 7 Chiffres annuels: moyennes de douze mois finissant le 30 juin de l'année indiquée.
- 8 A partir de janvier 1992 les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

### General note.

The figures cover, as far as possible, all hydraulic cements used in construction (portland, metallurgical, aluminous, natural, etc.)

1 Annual figures: averages of twelve months ending 30 June of year stated.

2 See explanatory notes on data pertaining to Germany on page x.

3 Data refer to Peninsular Malaysia only.

4 Shipments. Excluding natural cement.

5 Beginning January 1992, data refer to the Federal Republic of Yugoslavia.

Prior to that, date data refer to the Socialist Federal Republic of Yugoslavia.

### Rémarque générale.

Les données se rapportent, autant que possible, à tous les ciments hydrauliques employés à bâtir (portland, métallurgique, aluminieux, naturel, etc.)

1 Chiffres annuels: moyennes de douze mois finissant le 30 juin de l'année indiquée.

2 Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

3 Les chiffres se réfèrent à la Malaisie Péinsulaire seulement.

4 Livraisons. Non compris le ciment naturel.

5 A partir de janvier 1992 les données se rapportent à République fédérative de

Yugoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

#### General note

Unless otherwise stated, the figures relate to total production, in blast and electric furnaces, of pig-iron and ferro-alloys. Direct castings are also included.

- Excluding production of ferro-alloys in electric furnaces (Argentina, Australia, Austria, Bulgaria, Canada, Chile, Finland, France, Germany (former Dem. Rep.), Hungary, Portugal, Sweden, Turkey and former USSR; monthly figures).
- Annual figures: averages of twelve months ending 30 June of year stated.
- All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories at the time indicated. Where data for united Germany (3 October 1990 and thereafter) are not available, they are shown separately under the designations Germany (Federal Republic) and Germany (former Democratic Republic) where available and pertain to the territorial boundaries prior to 3 October 1990. See explanatory notes on page x.
- Ferro-alloys only.
- Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

#### Remarque générale

Sauf indication contraire, les données se rapportent à la production de fonte et de ferro-alliages dans les hauts fourneaux et les fours électriques. Les moulages de première fusion sont aussi compris.

- Non compris la production des ferro-alliages dans les fours électriques (Allemagne (ancienne Rép. dém.), Argentine, Australie, Autriche, Bulgarie, Canada, Chili, Finlande, France, Hongrie, Portugal, Suède, Turquie et anc. URSS; chiffres mensuels).
- Chiffres annuels: moyennes de douze mois finissant le 30 juin de l'année indiquée.
- Toutes les données se rapportant à l'Allemagne avant le 3 octobre 1990 figurent dans deux rubriques séparées basées sur les territoires respectifs de la République fédérale d'Allemagne et l'ancienne République démocratique allemande selon la période indiquée. En l'absence de données pour l'Allemagne unifiée (à compter du 3 octobre 1990), les données sont fournies séparément sous les rubriques Allemagne (République fédérale d') et Allemagne (ancienne République démocratique) et se rapportent aux limites territoriales antérieures au 3 octobre 1990 lorsqu'elles sont disponibles. Voir les notes explicatives à la page x.
- Ferro-alliages seulement.
- A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

#### General note.

Unless otherwise stated, the figures refer to total production of ingots and steel for casting. Wrought (puddled) iron is excluded.

<sup>1</sup> Annual figures: averages of twelve months ending 30 June of year stated.

<sup>2</sup> Ingots only.

<sup>3</sup> See explanatory notes on data pertaining to Germany on page x.

<sup>4</sup> Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

#### Remarque générale.

Sauf indication contraire, les chiffres se rapportent à la production totale de lingots et moulage bruts. Le fer puddlé n'est pas compris.

<sup>1</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin de l'année indiquée.

<sup>2</sup> Lingots seulement.

<sup>3</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

<sup>4</sup> A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

General note.

Unless otherwise stated, the figures relate to production of 'A' primary (virgin) aluminium from domestic and imported ores. Where important, separate series are shown for the production of 'B' secondary aluminium (i.e. derived from scrap).

- <sup>1</sup> Annual figures: averages of twelve months ending 30 June.
- <sup>2</sup> Source: World Metal Statistics (London).
- <sup>3</sup> Data prior to January 1991 pertain to the territorial boundaries of the Fed. Rep. of Germany prior to 3 October 1990 (see explanatory notes on pg. x).

- <sup>4</sup> Including alloys.
- <sup>5</sup> Including pure content of virgin alloys.
- <sup>6</sup> See explanatory notes on data pertaining to Yugoslavia on page x.

Remarque générale.

Sauf indication contraire, les données représentent la production 'A' d'aluminium de première fusion provenant des minerais et concentrés nationaux et importés. Cependant, on a ajouté des séries indiquant la production 'B' d'aluminium de deuxième fusion récupéré des déchets, lorsqu'elle est importante.

- <sup>1</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin.
- <sup>2</sup> Source: World Metal Statistics (Londres).
- <sup>3</sup> Les données relatives à la période précédant janvier 1991 correspondent aux limites territoriales de la République fédérale d'Allemagne antérieur au 3 octobre 1990 (voir les notes explicatives à la p. x).
- <sup>4</sup> Y compris les alliages vierges.
- <sup>5</sup> Y compris le contenu pur des alliages vierges.
- <sup>6</sup> Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

#### General note.

Unwrought product obtained by smelting (black or blister copper), by precipitation of concentration (cement copper or copper precipitate) of ores and concentrates.

- 1 Gross weight of blister copper.
- 2 Annual figures: averages of twelve months ending 30 June.
- 3 Including some production at the refined stage.
- 4 See explanatory notes on data pertaining to Germany on page x.
- 5 Production at the refined stage.
- 6 See explanatory notes on data pertaining to Yugoslavia on page x.

#### Remarque générale.

Produit non travaillé obtenu à partir des minerais concentrés par convertissage (cuivre noir ou cuivre blister), ou par précipitation ('cémantation')(cuivre de ciment ou précipités de cuivre).

- 1 Poids brut des blisters.
- 2 Chiffres annuels: moyennes de douze mois finissant le 30 juin.
- 3 Y compris quelque production au stade affiné.
- 4 Voir les notes explicatives sur les données concernant l'Allemagne à la page x.
- 5 Production au stade affiné.
- 6 Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

**General note.**

Refined copper obtained by fire-refining or electrolysis of primary crude metal (blister, black or cement copper). It can also be recovered from secondary materials (scrap). Electrolytic copper obtained directly from ore by leaching is included.

<sup>1</sup> Primary production only.

<sup>2</sup> Annual figures: averages of twelve months ending 30 June of year stated.

<sup>3</sup> Including alloys.

<sup>4</sup> Secondary production nil or negligible.

<sup>5</sup> See explanatory notes on data pertaining to Germany on page x.

<sup>6</sup> See explanatory notes on data pertaining to Yugoslavia on page x.

**Remarque générale.**

Cuivre affiné par affinage thermique ou électrolytique de la matière (métal brut) (cuivre blister, cuivre noir ou cuivre de ciment) ou par récupération à partir de produits secondaires (déchets de cuivre). Cette rubrique comprend le cuivre électrolytique obtenu directement à partir des minerais après lixiviation.

<sup>1</sup> Production primaire seulement.

<sup>2</sup> Chiffres annuels: moyennes de douze mois finissant le 30 juin de l'année indiquée.

<sup>3</sup> Y compris les alliages vierges.

<sup>4</sup> Production de deuxième fusion nulle ou négligeable.

<sup>5</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page x.

<sup>6</sup> Voir les notes explicatives sur les données concernant la Yougoslavie à la page x.

**General note.**

Soft lead and the lead content of antimonial lead recovered directly from lead ores and concentrates 'A' (primary) or from scrap 'B' (secondary). Remelted lead, lead bullions produced for export and the lead recovered in the form of alloys are excluded.

**Remarque générale.**

Plomb doux et le contenu en plomb antimonieux obtenu directement à partir des minerais et des concentrés de plomb 'A' (formes primaires) ou des déchets de plomb 'B' (formes secondaires). Le plomb refondu, le plomb d'oeuvre pour l'exportation et les quantités de plomb obtenues sous la forme d'alliages sont exclus.

<sup>1</sup> Annual figures: averages of twelve months ending 30 June.

### General note.

P = Gross production by enterprises whose main purpose is the generation of electric energy for public use. I+P = Total gross generation of electricity, including generation by industrial establishments generating primarily for own use.

- Annual figures: average of twelve months ending 30 June.
- Industrial production nil or negligible.
- Net production.
- All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories at the time indicated. Where data for united Germany (3 October 1990 and thereafter) are not available, they are shown separately under the designations Germany (Federal Republic) and Germany (former Democratic Republic) where available and pertain to the territorial boundaries prior to 3 October 1990. See explanatory notes on page x.
- Including sales.
- Annual figures: averages of twelve months beginning 1 April.
- Monthly figures, net production.
- Public utilities only (Japan, Kenya, Mexico and USA: monthly data only).
- Peninsular Malaysia only.
- Panama City, Colon and Bahia las Minas.
- Monthly data: net production except "Hydro" which is gross.
- Data for March, June, September and October are for five-week period.
- Beginning January 1992, data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

### Remarque générale.

P = Production brute des centrales dont le but essentiel est la production de l'énergie électrique pour les réseaux publics. I+P = Production brute totale d'électricité, y compris la production des entreprises industrielles qui produisent de l'énergie surtout pour leur propre usage.

- Chiffres annuels: moyennes de douze mois finissant le 30 juin.
- Production industrielle nulle ou négligeable.
- Production nette.
- Toutes les données se rapportent à l'Allemagne avant le 3 octobre 1990 figurent dans deux rubriques séparées basées sur les territoires respectifs de la République fédérale d'Allemagne et l'ancienne République démocratique allemande selon la période indiquée. En l'absence de données pour l'Allemagne unifiée (à compter du 3 octobre 1990), les données sont fournies séparément sous les rubriques Allemagne (République fédérale d') et Allemagne (ancienne République démocratique) et se rapportent aux limites territoriales antérieures au 3 octobre 1990 lorsqu'elles sont disponibles. Voir les notes explicatives à la page x.
- Y compris les ventes.
- Chiffres annuels: moyennes de douze mois commençant le 1er avril.
- Chiffres mensuels, production nette.
- Secteurs publics seulement (Japon, Kenya, Mexique et les Etats-Unis: chiffres mensuels seulement).
- Malaisie péninsulaire seulement.
- Ville de Panama, Colon et Bahia las Minas.
- Chiffres mensuels, production nette sauf "Hydro" dont la production est brute.

## EXTERNAL TRADE — COMMERCE EXTERIEUR

### General notes relating to the External Trade Statistics published in the Bulletin.

Tables 45 and 46 appear in each issue of the *Bulletin* showing current trade statistics by country, region and area. In addition, monthly data on international maritime transport are given in the Transport section (Table 48). Export price indices are given in the section on Wages and Prices (Table 49), and exchange rates are shown in the Finance section (Table 51). Other analytical trade data are presented quarterly, semi-annually and annually. These are presented in the form of special tables which are listed in the table of contents, together with the issues in which each series appears.

### Value of imports and exports

The descriptions given in the headings and footnotes to table 46 apply, unless otherwise stated, to table 45 as well. The regional totals of table 45 have been adjusted where necessary to approximate imports c.i.f. and exports f.o.b. in special trade, and to include countries not listed separately, and estimates where complete area data were not available. Balance of trade figures represent the difference of imports from exports. Annual rates of change are expressed in percentage terms, and are calculated as a geometric average between the periods specified. Due to annual revisions, quarterly figures may not add to annual figures.

### Quantum (Q.), unit value (U.V.) and price (P.) index numbers

Quantum indexes are averages designed to reflect changes in volume after elimination of the effects of price changes; unit value and price indexes reflect changes due to changes in average prices (unit values) and prices of commodities entering external trade.

### General definitions

Detailed general definitions conforming to the recommendations of the Economic and Social Council and its Statistical Commission define the series in tables 45 and 46. Together with descriptions of the national series, they are contained in the *United Nations 1977 Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics*; subsequent changes are indicated in Annex II.

**Territory.** The statistics refer to the customs area of the country; in most cases this coincides with geographical area.

**Systems of trade.** *Imports:* under the general trade system, both goods entering directly for domestic consumption and goods entered into customs storage are recorded, at the time of their first arrival, as imports; under the *special trade* system, goods are recorded as imports when declared for domestic consumption whether at time of entry or on withdrawal from customs storage.

*Exports:* outward moving goods consist of: (a) *national* goods i.e. those wholly or partly produced in the country; (b) *foreign* goods, neither transformed nor declared for domestic consumption in the country, which move outward from customs storage; (c) *nationalized* goods, i.e. foreign goods, declared for domestic consumption, which move outward without having been transformed. *General exports* comprise all three categories and, in the general trade system, the sum of (b) and (c) may be tabulated as re-exports. *Special exports* comprise categories (a) and (c). Direct transit trade, consisting of goods entering or leaving for transport purposes only, is excluded from both import and export statistics.

**Coverage of data.** In general, all inward moving goods, in the relevant administrative categories described above, are included if their movement adds to or subtracts from the material resources of the country compiling the statistics. Because their movement generally changes monetary rather than material resources, monetary gold together with currency and titles of ownership after their issue into circulation are excluded. Among the categories included where possible in the data are: ordinary commercial transactions, governmental transactions, foreign aid (governmental and private), trade of concessionaires and silver (except issued silver coin).

**Valuation.** It is usual for a country to base the valuation of its imports and exports on the values specified in contracts between importers and exporters adjusted to include transportation and related costs to its own frontier. This produces a c.i.f. transaction value for imports and an f.o.b. transaction value for exports. Where a country values its imports at the frontier of the exporting country, it is noted in the tables that import values are f.o.b.

### Remarques générales sur les statistiques du commerce extérieur publiées dans le Bulletin.

Les tableaux 45 et 46 contenant les statistiques de l'état du commerce par pays, par région, et par zone paraissent dans chaque numéro du *Bulletin*. En outre, des données mensuelles sur les transports maritimes internationaux figurent dans la section "transport" (tableau 48). Les indices des prix à l'exportation sont présentés dans la section "salaires et prix" (tableau 49), et le cours des changes figure dans la section "finances" (tableau 51). D'autres statistiques détaillées du commerce sont publiées tous les trimestres, tous les semestres ou une fois par an. Elles sont présentées sous forme de tableaux spéciaux qui sont mentionnés dans la table des matières, avec indication des numéros dans lesquels on trouve chacune de ces séries.

### Valeur des importations et des exportations

Sauf indication contraire, les précisions données dans les en-têtes de colonne et les renvois du tableau 46 valent aussi pour les statistiques au tableau 45. Les totaux régionaux au tableau 45 ont été, le cas échéant, ajustés de façon à correspondre à peu près au commerce spécial d'importation (valeur c.i.f.) et au commerce spécial d'exportation (valeur f.o.b.); ils tiennent compte également des pays qui ne figurent pas dans la liste et comprennent des estimations dans le cas des régions pour lesquelles les données ne sont pas complètes. Les chiffres de la balance commerciale représentent la différence entre les exportations et les importations. Les taux annuels de variations sont exprimés en pourcentage, et sont calculés suivant la moyenne géométrique pour les périodes indiquées. A la suite de révisions annuelles, le total des chiffres trimestriels peut ne pas correspondre aux chiffres annuels.

**Indices du quantum (Q.), de la valeur unitaire (V.U.) et des prix (P.)** Les indices du quantum sont des moyennes dont on élimine les effets des variations de prix pour montrer quelles sont les variations de volume; les indices de la valeur unitaire et des prix indiquent quelles sont les variations des prix moyens (ou des valeurs unitaires) ainsi que les prix des marchandises entrant dans le commerce extérieur.

### Définitions générales

Pour les séries publiées dans les tableaux 45 et 46, il existe des définitions générales, détaillées qui sont conformes aux recommandations du Conseil économique et social et de sa Commission de statistique. Ces définitions ainsi que des observations particulières par pays figurent dans le *United Nations 1977 Supplement à l'annuaire statistique et au Bulletin Mensuel de statistique des Nations Unies*; une liste cumulative des modifications apportées à ces définitions et observations figure à l'annexe II.

**Territoire.** Les statistiques concernent le territoire douanier du pays qui coïncide, en général, avec le territoire géographique.

**Système du commerce.** *Imports:* dans le système du commerce général à la fois les marchandises entrant directement pour la consommation nationale et les marchandises entrées dans les entrepôts des douanes sont enregistrées comme importations, au moment de leur première arrivée; dans le système du commerce spécial, les marchandises sont enregistrées comme importations lorsqu'elles sont déclarées pour la consommation nationale, soit au moment de leur entrée, soit lorsqu'elles sont retirées des entrepôts des douanes.

*Exports:* les marchandises sortant consistent (a) en marchandises nationales, c'est-à-dire entièrement ou partiellement produites dans le pays; (b) en marchandises étrangères, ni transformées, ni déclarées pour la consommation nationale dans le pays, qui sortent des entrepôts des douanes; (c) en marchandises nationalisées, c'est-à-dire marchandises étrangères, déclarées pour la consommation nationale, qui sont exportées sans avoir été transformées. Les *exportations générales* comprennent les 3 catégories et, dans le système du commerce général, le total de (b) et (c) peut être enregistré comme réexportations. Les *exportations spéciales* comprennent les catégories (a) et (c). Le commerce de transit direct, consistant en marchandises entrées ou sorties pour des seuls buts de transport, n'est pas compris dans les statistiques d'importations et d'exportations.

**Portée des données.** En général, toutes les marchandises entrées ou sorties dans les catégories administratives appropriées décrites plus haut, sont comprises si leur mouvement s'ajoute aux ressources matérielles du pays établissant les statistiques ou s'en retreuche. Vu que leur mouvement, en général, modifie plutôt les ressources monétaires que les ressources matérielles, l'or monétaire ainsi que les monnaies et titres de propriété après leur mise en circulation sont exclus. Parmi les catégories incluses, si possible, dans les données figurent: transactions commerciales ordinaires, transactions gouvernementales, aide de l'étranger et à l'étranger (gouvernementale et privée), commerce des concessionnaires, argent (excepté pièces de monnaie émises).

**Évaluation.** En général, les pays basent l'évaluation de leurs importations ou de leurs exportations sur les valeurs spécifiées dans les contrats entre importateurs et exportateurs et ajustées pour tenir compte des frais de transport et autres frais connexes jusqu'à leurs propres frontières. Le résultat est une valeur de transaction c.i.f. pour les importations et une valeur de transaction f.o.b. pour les exportations. Lorsqu'un pays évalue ses importations à la frontière du pays exportateur, les tableaux indiquent que les valeurs des importations sont f.o.b.

# EXTERNAL TRADE

## 45. Total Imports and Exports by Regions and Countries and Areas

Imports C.I.F. - Exports F.O.B. - Balance

(continued)

General Note: See page 93. System: G=General Trade; S=Special Trade. World imports and exports are the sum of imports and exports of Developed economies, Developing economies and Other. The regional totals for exports and imports have been adjusted to exclude the re-exports of countries or areas comprising each region. Estimates for certain countries or areas not shown separately as well as for those shown separately but for which no data are yet available are included in the regional and world totals. Regional totals containing estimated data are printed in bold italics.

Export and import values in terms of U.S. dollars are derived by the United Nations Statistics Division (UNSD) from data published in national publications, or from data on the Monthly Bulletin of Statistics Questionnaires for the following countries: American Samoa, Angola, Azerbaijan, Armenia, Belarus, Brunei Darussalam, Bulgaria, Cayman Is., China, Cook Is., Cuba, Faeroe Is., French Guiana, French Polynesia, Georgia, Greenland, Guadeloupe, Iran, Iraq, Kazakhstan, Kiribati, Kyrgyzstan, Lao P.D.R., Macau, Martinique, Rep. <sup>6</sup> Association Latino-Américaine d'Intégration. Antérieurement Association Latino-Américaine de Libre-Echange.

<sup>7</sup> Marché Commun de l'Amérique Central.

<sup>8</sup> Avant janvier 1991, y compris le commerce effectué en accord avec le protocole additionnel au traité définissant la base des relations entre la République Fédérale d'Allemagne et l'ancienne République Démocratique Allemande.

<sup>9</sup> Avant janvier 1991, non compris le commerce effectué en accord avec le protocole additionnel au traité définissant la base des relations entre la République Fédérale d'Allemagne et l'ancienne République Démocratique Allemande. La valeur de ce commerce est la suivante, en millions de dollars des E.U.: -

Année: 1987 1988 1989 1990

Importations: 3712 3868 3854 5129

Exportations: 4140 4114 4351 13379

<sup>10</sup> Union européenne. Avant janvier 1995 non compris Autriche, Finlande, et Suède. Total UE avait été recalculé pour toutes les périodes données au tableau suivant la composition présente.

<sup>11</sup> Les données relatives à la période précédant janvier 1991 correspondent aux limites territoriales de la République Fédérale d'Allemagne antérieur au 3 octobre 1990. Aussi voir les notes explicatives sur les données concernant l'Allemagne à la page X.

<sup>12</sup> Les chiffres s'appuient sur les données de la balance des paiements; divers ajustements ont été apportés à leur couverture en fonction des statistiques douanières, qui concernent notamment la valeur des navires achetés à l'étranger.

<sup>13</sup> Association Européenne de Libre-Echange. Avant janvier 1995 y compris Autriche, Finlande, et Suède. Total AELE avait été recalculé pour toutes les périodes données au tableau suivant la composition présente.

<sup>14</sup> A partir de janvier 1992, les données se rapportent à Bosnie-Herzégovine, Croatie, Slovénie, TARY Macédoine, et la République Fédérative de Yougoslavie. Avant 1992, les données se rapportent à la République Fédérative Socialiste de Yougoslavie.

<sup>15</sup> A partir de janvier 1992, les données se rapportent à la République Fédérative de Yougoslavie. Avant 1992 les données se rapportent à la République Fédérative Socialiste de Yougoslavie.

<sup>16</sup> Voir les notes explicatives sur les données concernant l'Allemagne à la page X.

<sup>17</sup> A partir de l'année 1989 les données ne sont pas comparables aux données des périodes antérieures à cause de révisions de taux de change de mark au dollar des E.U.

<sup>18</sup> Les données de 1991 de l'ancienne URSS sont converties en dollar des E.U. en utilisant le taux de change commercial de rouble et ne sont pas comparables aux données des périodes antérieures.

<sup>19</sup> Non compris le commerce avec les autres pays de la région, excepté pour Estonie, Lettonie et Lituanie.

<sup>20</sup> Avant 1994 non compris le commerce avec les pays de Communauté des états Independants (CEI).

<sup>21</sup> Avant janvier 1994, les statistiques du commerce extérieur comprennent les réexportations.

<sup>22</sup> L'union douanière et économique de l'Afrique centrale. Non compris le commerce avec les autres pays membres de l'UDEAC.

<sup>23</sup> Communauté économique des états de l'Afrique de l'Ouest.

<sup>24</sup> Avant janvier 1992 non compris Arménie, Azerbaïdjan, Géorgie, Kazakstan, Kirghizistan, Tadjikistan, Turkménistan et Ouzbékistan. Total Asie en voie de développement avait été recalculé pour toutes les périodes données au tableau suivant la composition présente.

<sup>25</sup> Les données se rapportent aux exportations totales moins les exportations pétrolières de moyen-orient d'Asie. Dans ce cas, le pétrole est la somme des groupes CTCI 333, 334 et 335.

- 26 A partir de janvier 1992, les données se rapportent à la République fédérative de Yougoslavie. Avant cette date les données se rapportent à la République fédérative socialiste de Yougoslavie.

## TRANSPORT — TRANSPORTS

### General notes relating to tables 47 and 48.

#### 47. Railways: freight and passenger traffic.

Unless otherwise stated, the figures relate to the domestic and international traffic on all railway lines within each country irrespective of gauge, except railways entirely within an urban unit or plantation, and industrial, mining, funicular and cable railways. The series *net ton-kilometres* include all goods and livestock carried by fast or ordinary trains except service traffic, mail, baggage and non-revenue government stores.

The series *passenger-kilometres* include all passengers except military, government and railway personnel when carried without revenue. The passengers carried by more than one railway in the same country are counted only once.

#### 48. International maritime transport.

Unless otherwise stated, the figures represent the weight of all goods (including packing) and livestock in external trade loaded on and unloaded from sea-going vessels of all flags at the ports of the country in question. (A vessel is said to be sea-going if part at least of its voyage, while carrying the goods in question, is by sea). The goods excluded are: mail, bullion, specie, passengers' baggage, bunkers, ships' stores, ballast, ships and other floating appliances when delivered as goods without being loaded on other ships, government stores when carried in government vessels, and goods trans-shipped from an importing vessel to an exporting vessel. Goods unloaded into or loaded from bonded warehouses are included.

### Remarques générales sur les tableaux 47 et 48.

#### 47. Chemins de fer: trafic marchandises et voyageurs.

Sauf indication contraire, les données se rapportent au trafic national et international de toutes les lignes du pays considéré quel que soit l'écartement des voies; en sont exclus, les lignes entièrement urbaines ou desservant une plantation, une entreprise industrielle ou minière, les téléphériques et les funiculaires. *Tonnes-kilomètres nettes*: transports en petite ou grande vitesse (y compris bétail sur pied) à l'exception des transports en service, du courrier, des bagages et des transports gratuits des approvisionnements du gouvernement.

Les séries *voyageurs-kilomètres* comprennent tous les passagers, sauf les militaires, les fonctionnaires et le personnel des chemins de fer lorsqu'ils sont transportés gratuitement. Les passagers transportés par plus d'un réseau de chemins de fer dans le même pays ne sont comptés qu'une fois.

#### 48. Transports maritimes internationaux.

Sauf indication contraire, les données représentent le poids (emballage compris) de l'ensemble des marchandises (y compris bétail sur pied) embarquées ou débarquées au titre du commerce extérieur par des navires de haute mer sous tous pavillons dans les ports du pays considéré (un navire est dit de haute mer si une partie au moins de son voyage, pendant qu'il assure le transport des marchandises, se fait par mer). Sont exclus: courrier, or et argent en lingots, espèces, bagages des passagers, contenu des soutes, provisions de bord, lest, bateaux et autres engins flottants livrés en tant que marchandises sans être chargés sur navire, approvisionnements du gouvernement lorsqu'ils sont transportés à bord de navires de l'Etat ou gratuitement à bord de navires de la marine marchande, marchandises transbordées d'un navire importateur à un navire exportateur. Les marchandises en provenance ou à destination d'un entrepôt en douane sont comprises.

### General note

The indexes for primary commodities and non-ferrous base metals and their sub-indexes are weighted averages of price indexes of individual commodities, each of which is based on specific price quotations for representative grades of that commodity in countries that are major traders of the commodity. The weights are determined by the patterns of primary commodities exports in the base year 1980. All indexes are calculated in terms of United States dollars. The indexes are computed using various categories of prices such as export prices f.o.b., import prices c.i.f., wholesale

prices, commodity exchange prices, producer's prices and auction prices. For more details and comparable historical series see the United Nations' "Methods Used in Compiling the United Nations Price Indexes for External Trade", Volume 1, Statistical Papers Series M No. 82.

This table does not cover trade of countries of Eastern Europe and the former USSR.

1/ This classification is intended for statistical convenience and does not necessarily express a judgement about the stage reached by a particular country in the development process.

## Remarque générale

Les indices des matières premières et des métaux communs non ferreux ainsi que les indices de groupes et de sous-groupes représentent les moyennes pondérées des indices des prix individuels, l'indice de chaque marchandise étant fondé sur des cotations déterminées pour des variétés ou qualités représentatives de la marchandise en question dans les pays qui jouent un rôle important dans le commerce mondial de la dite marchandise. Les coefficients de pondération sont déterminés par la structure des exportations de produits primaires dans l'année de référence 1980. Tous les indices sont calculés par rapport au dollars des Etats-Unis. Les indices sont calculés à partir de diverses catégories de prix: prix à l'exportation f.a.b., prix à l'importation c.a.f., prix de gros, prix pratiqués par les

bourses de marchandises, prix à la production et prix des ventes aux enchères. Pour de plus amples détails et les séries historiques comparables, voir le document du Nations Unies intitulé "Méthodes Utilisées par les Nations Unies pour Etablir les Indices des Prix des Produits de Base Entrant dans le Commerce International", Tome 1, Etudes Statistiques Série M No. 82.

Ce tableau ne concerne pas le commerce des pays de l'Europe de l'Est et de l'ancienne URSS.

1/ Cette classification est utilisée pour plus de commodité dans la présentation des statistiques et n'implique pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays donné.

### General notes relating to tables 51-58

### Remarques générales sur les tableaux 51-58

The data in these tables are furnished by the *International Monetary Fund* (IMF). Descriptions of each of the national series are contained in the *Supplement to the Statistical Yearbook and the Monthly Bulletin of Statistics* and in *International Financial Statistics*, published monthly by the IMF.

Les données ont été communiquées par le *Fonds monétaire international* (FMI). Des définitions détaillées sont données dans le *Supplément à l'Annuaire statistique et au Bulletin Mensuel de statistique des Nations Unies* et dans les *Statistiques Financières Internationales*, publiées mensuellement par le FMI.

#### 51. Exchange rates

#### 51. Cours des changes

Foreign exchange rates are shown in units of national currency per U.S. dollar and refer to end-of-period quotations.

Les taux de change sont exprimés par un nombre d'unités de monnaie nationale pour un dollar des États-Unis et se rapportent aux cotations de fin de période.

Unless otherwise stated, the table refers to the midpoint (average of selling and buying rates) market rates for all dates so far as data are available. For dates prior to those for which market rates are available, the series represent fixed par value of central rates agreed with the fund.

Sauf avis contraire, le tableau indique les cours moyens (moyenne des cours à la vente et à l'achat) pour toutes les dates pour lesquelles des données sont disponibles. En ce qui concerne les dates antérieures à celles pour lesquelles on dispose de données, les séries portent sur les parités fixes, les taux centraux ou convenus avec le Fonds.

Reference should be made to *International Financial Statistics* and to the *Annual Report on Exchange Restrictions*, published by International Monetary Fund.

Il convient de se référer à la publication intitulée *Statistiques Financières Internationales* ainsi qu'à l'*Annual Report on Exchange Restrictions*, publiés par le Fonds monétaire international.

#### 52. Money supply

#### 52. Disponibilités monétaires

The money supply table in the *Monthly Bulletin of Statistics* shows money and reserve money.

Le tableau des disponibilités monétaires publié dans le *Bulletin mensuel de statistique* indique d'une part la monnaie, d'autre part la monnaie de réserve.

Money relates to the liabilities of the monetary system in currency and demand deposits to the domestic private sector.

Par "monnaie" on entend le passif du système monétaire sous forme de monnaie fiduciaire et en dépôts à vue à l'égard du secteur privé national.

Reserve money relates to the liabilities of the monetary authorities in currency and demand deposits to deposit money banks and the domestic private sector.

Par "monnaie de réserve" on entend le passif des autorités monétaires en monnaie fiduciaire et en dépôts à vue à l'égard des banques de dépôt et du secteur privé national.

#### 53. International reserves minus gold

#### 53. Réserves internationales moins l'or

The table reports the US dollar value of monetary authorities (central banks, currency boards, exchange stabilization funds and treasuries to the extent that they perform similar functions) holdings of Special drawing rights (SDRs), Reserve Position in the Fund, foreign exchange and the sum of these items which is Total Reserves minus gold.

Le tableau présente la valeur en dollars EU des avoirs des autorités monétaires (banque centrale, fonds de stabilisation des changes et, dans la mesure où il exerce des fonctions analogues, Trésor public) représentant: droits de tirage spéciaux (DTS), position de réserve au FMI, devises étrangères, plus la somme de ces éléments qui est Réserves total moins l'or.

*Special Drawing Rights* (SDR) are unconditional international reserve assets created by the Fund.

Les *droits de tirage spéciaux* (DTS) sont des instruments inconditionnels de réserve créés par le FMI.

*Reserve Positions* in the Fund are unconditional assets that arise from countries' gold subscriptions to the Fund, from the Fund's use of member currencies to finance drawings of others and from Fund Borrowings.

Les *positions de réserves* auprès du Fonds sont des instruments inconditionnels que créent les souscriptions-or des pays membres au capital du Fonds et l'utilisation par le Fonds des monnaies de membres pour financer les tirages d'autres membres et des emprunts du Fonds.

*Foreign exchange* is defined as holdings by monetary authorities (central banks, currency boards, exchange stabilization funds, and Treasuries to the extent that they perform similar functions) of claims on foreigners in the form of bank deposits, Treasury bills, short and long-term government securities, and other claims usable in the event of a balance-of-payments deficit, including non-marketable claims arising from inter-central bank and intergovernmental arrangements without regard to whether the claim is denominated in the currency of the debtor or the creditor.

Les *réserves de devises* sont les avoirs des autorités monétaires—banques centrales, offices des changes, fonds de stabilisation des changes et Trésors (dans la mesure où ceux-ci exercent des fonctions analogues) - en créances sur des étrangers sous forme de dépôts bancaires, bons du Trésor, fonds d'États à court et à long terme et autres créances utilisables en cas de déficit de la balance des paiements, y compris les créances non négociables résultant d'arrangements entre banques centrales et entre gouvernements que la créance soit libellée dans la monnaie du débiteur ou dans celle du créancier.

**54. Gold reserves**

The table reports data on official holdings of gold expressed in physical terms (millions of fine troy ounces) for all countries.

**55. Government bonds**

These series measure the trend of long-term interest rates. They usually comprise the yield to maturity (YM) or the current yield (CY) of a single issue of government or quasi-government bonds whose ownership is widely distributed and with a final maturity of not less than 10 years. Current yields based on "irredeemable or perpetual" government bonds (which carry no obligation of repayment at a fixed date but which usually are redeemable at the option of the government) are designated as YP.

**56. Market prices of industrial shares: index numbers**

Index numbers of market prices of industrial shares are based primarily on common shares traded on the leading exchange or exchanges of each country and are intended to cover a representative sample of industrial companies.

The indexes are intended to show the increase in value accruing to an investor who bought in the base period a list of shares corresponding in selection and amount to those contained in the index, who subsequently made only such changes in holdings as the substitution of new issues for retired issues, and who retained, in the form of shares, the proceeds of all rights, warrants and share dividends made available since the base period.

**57. Rates of discount of central banks**

Rates shown represent those rates at which the central bank either discounts or makes advances against eligible commercial paper and/or government securities for commercial banks or brokers. For countries with more than one rate applicable to such discounts or advances, the rate shown is the one at which the largest proportion of central bank credit operations is understood to be transacted. The importance of these rates as instruments of monetary control vary considerably from country to country and inter-country comparisons should not be made without further investigation.

**58. Money market rates**

Treasury bill rates represent the average tender rates per annum on new issues of bills (ordinarily 3-month issue) offered by Treasury during the period. Call money rates are the average rates per annum on loans which were available on demand in the open market during the period.

**54. Réserves d'or**

Le tableau présente les avoirs officiels en or exprimés en unités physiques (millions d'onces troy de fin) pour tous les pays.

**55. Obligations d'Etat**

Ces séries représentent l'évolution des taux d'intérêt des obligations à long terme. Elles représentent habituellement le taux de capitalisation (YM) (rendement net jusqu'à l'échéance) ou le rendement courant (CY) d'une seule émission d'obligations de l'Etat ou d'organismes parastataux qui ont été largement diffusées. L'échéance finale de l'émission considérée doit en principe avoir lieu au moins 10 ans après la date d'émission. Les lettres YP désignent une série portant sur le rendement actuel des obligations d'Etat non amortissables ou perpétuelles (c'est-à-dire de celles dont la date de remboursement n'est pas fixée mais qui sont ordinairement amorties à la suite d'une décision de l'Etat).

**56. Cours des actions industrielles: indices**

Les indices des cours des actions industrielles se rapportent principalement aux actions ordinaires qui font l'objet de transactions à la bourse principale ou aux bourses principales de chaque pays et qui ont été réunies en un échantillon aussi représentatif que possible de sociétés industrielles.

Les indices visent à mesurer l'augmentation de la valeur d'un portefeuille identique à l'ensemble des actions comprises dans l'indice, dont la composition n'est changée que par la substitution de nouvelles actions en remplacement de celles qui sont retirées du marché, et qui n'aurait été augmentée que du nombre d'actions additionnelles acquises par conversion des droits, warrants et dividendes distribués à partir de l'année choisie comme base.

**57. Taux d'escompte des banques centrales**

Les données représentent les taux pratiqués par la Banque centrale à l'escompte, ou pour avance de fonds, dans toute transaction portant sur des effets négociables, soit effets commerciaux ou obligations du gouvernement détenus par les banques commerciales ou les courtiers. Pour les pays où il existe plus d'un taux valide pour de telles transactions, le tableau indique le taux que la banque centrale semble pratiquer pour la plupart de ces opérations. L'importance de ces taux dans le contrôle monétaire varie considérablement d'un pays à l'autre et toute comparaison doit être faite avec réserve.

**58. Taux de l'argent hors banque**

Les taux d'intérêt des bons du Trésor représentent les taux moyens annuels d'adjudication (tender rates) des nouvelles émissions de bons (généralement à 3 mois) offerts par le Trésor au cours de la période considérée. Les taux d'intérêt de l'argent au jour le jour représentent les taux moyens annuels pour les prêts pouvant être contractés sans préavis sur l'open market au cours de la période considérée.

1/ For the composition of the regions, see table 46 of this issue.

2/ Quantum indices are derived from value data and unit value indices. They are base period weighted.

3/ This classification is intended for statistical convenience and does not, necessarily, express a judgement about the stage reached by a particular country in the development process.

4/ South African Customs Union.

5/ Beginning 1 January 1992 data refer to the Federal Republic of Yugoslavia. Prior to that date, data refer to the Socialist Federal Republic of Yugoslavia.

6/ Regional aggregates are current period weighted.

## Civil aviation traffic (continued) – Trafic de l'aviation civile (suite)

Source: International Civil Aviation Organization (ICAO), Montreal

Unless otherwise stated, the figures shown under each country refer to revenue scheduled traffic of airline(s) registered in that country. Revenue scheduled traffic is traffic for which remuneration is received and which is carried on flights performed according to a published timetable. International refers to traffic carried by the airline(s) to, from, between or in countries other than the one in which the airline is registered. Cargo covers all goods, livestock and mail.

- 1 Aerolineas Argentinas only.
- 2 International operations represent 95% or more of the total.
- 3 International only. No domestic services in operation.
- 4 Including Varig, Transbrasil and Vasp.
- 5 Air Canada and Canadian only.
- 6 Including SAS international and domestic traffic.
- 7 Lacsca only.
- 8 SAS only.
- 9 Air France only.
- 10 Monthly data: EL AL only.
- 11 Alitalia only.
- 12 Monthly data: AERONAVES DE MEXICO and MEXICANA only
- 13 KLM and KLC ONLY.
- 14 Including SAS international and domestic traffic.
- 15 Aeroperu and Faucett only.
- 16 PAL only.
- 17 TAP only.
- 18 Including SAS international and domestic traffic.
- 19 SAA only.
- 20 Excluding airlines based in the United Kingdom territories and dependencies.
- 21 Yaounde Treaty States (Benin, Burkina Faso, Central African Rep., Chad, Congo, Côte d'Ivoire, Mali (since 1992), Mauritania, Niger, Senegal and Togo). Data relate to operations of Air Afrique only.
- 22 All data shown pertaining to Germany prior to 3 October 1990 are indicated separately for the Federal Republic of Germany and the former German Democratic Republic based on their respective territories at the time indicated. Where data for united Germany (3 October 1990 and thereafter) are not available, they are shown separately under the designations Germany (Federal Republic) and Germany (former Democratic Republic) where available and pertain to the territorial boundaries prior to 3 October 1990. See explanatory notes on page x.
- 23 Data prior to January 1993 pertain to the former Czechoslovakia.
- 24 Beginning 1992, data refer to the Russian Federation, AEROFLOT only.
- 25 Emirates only.
- 26 VIASA and LAV only.

Source: Organisation de l'Aviation civile internationale (OACI), Montréal.

Sauf indication contraire, les chiffres présentés au-dessous de chaque nom de pays concernent le trafic payant des services réguliers des entreprises de transport aérien immatriculées dans ce pays. On entend par trafic régulier payant le trafic assuré contre rémunération au moyen de vols effectués selon un horaire publié. Le trafic international est celui qu'assurent les entreprises de transport aérien à destination, en provenance ou à l'intérieur de pays autres que celui dans lequel l'entreprise est immatriculée, ou entre ces pays. Le fret comprend toutes les marchandises, le bétail sur pied et le courrier.

- 1 Aerolineas Argentinas seulement.
- 2 Les vols internationaux représentent 95% ou plus du total.
- 3 International seulement. Vols intérieurs non-existants.
- 4 Y compris Varig, Transbrasil et Vasp.
- 5 Air Canada et Canadian seulement.
- 6 Y compris le trafic international et domestique de SAS.

- 17 TAP seulement.
- 18 Y compris le trafic international et domestique de SAS.
- 19 SAA seulement.
- 20 Ne comprennent pas les lignes aériennes ayant des bases d'opérations dans les territoires et dépendances du Royaume-Uni.
- 21 Etats africains signataires du traité Yaoundé (Bénin, Burkina Faso, Rép. centrafricaine, Tchad, Congo, Côte d'Ivoire, Mali (depuis 1992), Mauritanie, Niger, Sénégal et Togo). Les données se rapportent aux vols de l'Air Afrique seulement.
- 22 Toutes les données se rapportant à l'Allemagne avant le 3 octobre 1990 figurent dans deux rubriques séparées basées sur les territoires respectifs de la République fédérale d'Allemagne et l'ancienne République démocratique allemande selon la période indiquée. En l'absence de donnée pour l'Allemagne unifiée (à compter du 3 octobre 1990), les données sont fournies séparément sous les rubriques Allemagne (République fédérale d') et Allemagne (ancienne République démocratique) et se rapportent aux limites territoriales antérieures au 3 octobre 1990 lorsqu'elles sont disponibles. Voir les notes explicatives à la page x.
- 23 Les données relatives à la période précédant janvier 1993 correspondent à l'ancienne Tchécoslovaquie.
- 24 A partir de 1992, les données se rapportent à la Féd. de Russie. AEROFLOT seulement.
- 25 Emirats seulement.
- 26 VIASA et LAV seulement.

National Accounts Statistics: Main Aggregates and Detailed Tables, United Nations, New York.  
This publication contains complete sets of tables conforming to the System of National Accounts methodology.

- (\*) Gross domestic product (GDP) in purchaser's values is the total of the gross expenditures on the final uses of the domestic supply of goods and services valued at purchaser's values less imports of goods and services valued c.i.f., or the sum of the compensation of employees, consumption of fixed capital, operating surplus and indirect taxes, net, of residents producers and import duties. This aggregate is based on A System of National Accounts Statistics (Studies in Methods, Series F, Rev. 3, United Nations, New York, 1968).
- (1) For the years 1986-1990, prices have been unchanged, therefore the estimates in current prices equal those in constant prices.
  - (2) Fiscal year beginning 1 July.
  - (3) Fiscal year beginning 1 April.
  - (4) Values at the base year do not match due to the revision of current prices series.
  - (5) Includes Eritrea.
  - (6) Fiscal year ending 7 July.
  - (7) Fiscal year ending 30 September.
  - (8) Data refer to East Bank only.
  - (9) In the National Accounts published by the Service Central de la Statistique et des Études Économiques of Luxembourg, imputed bank service charges provided to non-residents are not deducted in calculating GDP. For this reason, estimates of GDP published by the Luxembourg authorities are higher than those shown here, particularly for recent years.
  - (10) Excludes Windward Islands.
  - (11) Fiscal year ending 30 June.
  - (12) Excludes Zanzibar.

Cette publication comprend des séries complètes des tableaux établis conformément à la méthodologie du Système des comptes nationaux.

(\*) Le produit intérieur brut (PIB) aux prix d'acquisition est le total des emplois finals de biens et services aux prix d'acquisition diminué des importations C.A.F., ou bien la somme de la rémunération des salariés, de la consommation de capital fixe, de l'excédent net d'exploitation, des impôts indirects - nets des subventions d'exploitation - des producteurs résidents et des droits et taxes sur importations. Cet agrégat est fondé sur le Système de Comptabilité Nationale (Etudes méthodologiques, série F, Rev.3, Nations Unies, New York, 1968).

- (1) Les prix sont restés inchangés pour les années 1986 à 1990. En conséquence, les estimations à prix courants sont égales aux estimations à prix constants.
- (2) L'année fiscale commençant le 1er juillet.
- (3) L'année fiscale commençant le 1er avril.
- (4) Les données de l'année de base sont différents: en effet la série à prix courants a été révisée, mais pas la série à prix constants.
- (5) Y compris l'Érithrée.
- (6) L'année fiscale finissant le 7 juillet.
- (7) L'année fiscale finissant le 30 septembre.
- (8) Les données se réfèrent à la rive orientale seulement.
- (9) Dans le Comptes Nationaux publiés par le Service Central de la Statistique et des Études Économiques du Luxembourg, la production imputée des services bancaires fournis aux non-résidents n'est pas déduite lors du calcul du PIB. Pour cette raison les estimations du PIB publiées par le Luxembourg sont supérieures à celles montrées ici, particulièrement pour les années récentes.
- (10) Non compris les îles Windward.
- (11) L'année fiscale finissant le 30 juin.
- (12) Non compris le Zanzibar.

## Changes in series and tables

1. The Miscellaneous table "Schedule of daily subsistence allowance rates of United Nations officials", previously issued quarterly is being discontinued in the *Bulletin* as of March 1995. These data are now issued monthly in a separate publication prepared by the International Civil Service Commission, *Schedule of Daily Subsistence Allowance Rates* (United Nations publication, ISSN 1014-9600).
2. The table "Manufactured gas, production", previously issued monthly is being discontinued in the *Bulletin* as of April 1996.

## Changements dans les séries et tableaux

1. La parution du tableau divers "Barème des taux d'indemnités journalières de subsistance des fonctionnaires de l'ONU", publié trimestriellement précédemment, a cessé dans le *Bulletin* à partir du mois de mars 1995. Les données qui y sont contenues paraissent maintenant dans une publication mensuelle préparée par la Commission de la fonction publique internationale intitulée "Barème des taux d'indemnités journalières de subsistance des fonctionnaires de l'ONU" (publication des Nations Unies, ISSN 1014-9600).
2. Le tableau "Gaz d'usine, production", publié mensuellement, a cessé dans le *Bulletin* à partir du mois d'avril 1996.

### *Just issued*

#### **Demographic Yearbook 1994**

Series R, No. 25, 1131 pages, \$125.00, Sales No. E/F.96.XIII.1

On the forty-sixth issue of this comprehensive compilation of demographic and related statistics for over 200 countries or areas of the world features population censuses as the special topic. Tables cover economic characteristics of the population including economic activity by age and sex, economically active population by industry, occupation, status in employment by age and sex and the not economically active population by type of activity, age and sex. Wherever possible, statistics are shown for urban/rural areas. The annual tables give a world summary of basic demographic statistics, and statistics on the size, distribution and trends in population, natality, foetal mortality, infant and maternal mortality, general mortality, nuptiality, nuptiality and divorce.

#### **1994 International Trade Statistics Yearbook**

Clothbound, \$135.00, Volumes I and II

##### **Volume I. Trade by Country**

Series G, No. 43, 1272 pages, Sales No. E/F.96.XVII.2, Vol. I

Volume I provides historical information on the external trade performance of individual countries in terms of current values, and if available, exchange rate, volumes and prices. Information showing important commodities traded by an individual country (latest 4 years) and the country's trade with its major trading partners and regions (latest 5 years) is also given. Summary tables for each country show imports by broad economic categories, exports by industrial origin and the percentage share of the country's top ten trading partners and selected regions in relation to the total trade of the country. This volume contains data for 182 countries or reporting customs areas.

##### **Volume II. Trade by Commodity**

Series G, No. 43, 416 pages, Sales No. E/F.96.XVII.2, Vol. II

Volume II contains selected commodity tables showing total world trade of those commodities analysed by regions and countries.

#### **Manual for the Development of Statistical Information for Disability Programmes and Policies**

Series Y, No. 8, 119 pages, \$12.50, Sales No. E.96.XVII.4

This authoritative Manual will support a more systematic approach to data collection and development of statistical information related to

disability. It has been prepared for programme managers and others concerned with production and use of statistical information for implementing, monitoring and evaluating disability policies and programs.

#### **Compendium of Human Settlements Statistics 1995**

Series N, No. 5, 526 pages, \$65.00, Sales No. E.95.XVII.11

This publication presents human settlements statistics for 243 countries or areas and 338 cities in five general fields: population, land use, housing, infrastructure and services and crime. It focuses on the process of urbanization and characteristics of cities in developed and developing regions. The *Compendium* contains 30 tables and over 160 graphs highlighting main findings. Data were collected from national statistical offices and ministries through statistical questionnaires and other sources.

#### **Industrial Commodity Statistics Yearbook, 1993**

Series P, No. 33, 979 pages, \$110.00, Sales No. E/F.95.XVII.10

The twenty-seventh issue of this annual compilation provides statistics on the production of about 530 industrial commodities for approximately 200 countries or areas and the regional and grand totals for most of the statistical series. It also contains data by country on apparent consumption of about 200 industrial commodities for 1985-1993. The index of commodities, in alphabetical order and a table of correspondence between ISIC-based, SITC and Harmonized Commodity Description and Coding System (HS) codes are shown in the annexes.

#### **World Statistics in Brief**

##### **World Statistics Pocketbook 1995**

Series V, No. 16, 221 pages, \$10.00, Sales No. E.95.XVII.7

The 1995 edition of this handy pocketbook provides an easy-to-use international compilation of basic economic, social and environmental indicators for 205 countries and areas worldwide. It covers 58 key indicators in the areas of population, economic activity, agriculture, industry, energy, international trade, transport, communications, gender, education and environment, drawn from over 20 international statistical sources. The layout of one country or area to a page layout provides an easy-to-view comprehensive statistical profile of each country and the notes on sources and definition provide a valuable guide for further research by the in-depth user of these statistics.
