1. Takes note of the report of the International Atomic Energy Agency;
2. Affirms its confidence in the role of the Agency in the application of nuclear energy for peaceful purposes;
3. Welcomes the measures and decisions taken by the Agency to maintain and strengthen the effectiveness and cost efficiency of the safeguards system in conformity with the Agency's statute, in particular, welcomes the establishment by the Board of Governors of a committee which began its work in July 1996 and is tasked with the drafting of a model protocol in order to strengthen the effectiveness and to improve the efficiency of the nuclear safeguards system and thereby reinforce and improve the Agency's capacity to detect any undeclared nuclear activities, and calls upon this committee to make every effort to bring its work to a successful conclusion at the earliest possible date;
4. Urges all States to strive for effective and harmonious international cooperation in carrying out the work of the Agency, pursuant to its statute; in promoting the use of nuclear energy and the application of the necessary measures to strengthen further the safety of nuclear installations and to minimize risks to life, health and the environment; in strengthening technical assistance and cooperation for developing countries; and in ensuring the effectiveness and efficiency of the safeguards systems of the Agency;

12. Requests the Secretary-General to transmit to the Director General of the Agency the records of the fifty-first session of the General Assembly relating to the activities of the Agency.
