

**General Assembly**

Fifty-first session

Distr.: General

14 October 1996

Original: English

Agenda item 124**Financing of the United Nations Angola Verification Mission****Report of the Secretary-General***Summary*

The United Nations Angola Verification Mission (UNAVEM III) was established by the Security Council on 8 February 1995. The present report contains the financial performance report of UNAVEM III for the period from 9 February to 31 December 1995. Of the total appropriation of \$250,764,400 gross (\$247,283,900 net) provided for the maintenance of the Verification Mission, an amount of \$9,746,100 was rolled over to the period beginning 1 January 1996, with the concurrence of the Advisory Committee on Administrative and Budgetary Questions. Expenditures amounted to \$220,227,400 gross (\$216,898,100 net), resulting in an unencumbered balance of \$20,790,900 gross (\$20,639,700 net).

The unencumbered balance resulted primarily from delays in the deployment of military and civilian personnel and implementation of activities under the public information, mine-clearing and disarmament and demobilization programmes.

The action to be taken by the General Assembly, as set out in paragraph 9 of the present report, is a decision to credit Member States the unencumbered balance of \$20,790,900 gross (\$20,639,700 net) for the period from 9 February to 31 December 1995.

V. Planned and actual hours flown by helicopters and fixed-wing aircraft for the period from 9 February to 31 December 1995	38

I. Introduction

1. The Security Council, by its resolution 976 (1995) of 8 February 1995, authorized the establishment of the United Nations Angola Verification Mission (UNAVEM III) for an initial period of six months, until 8 August 1995. By its resolution 1008 (1995) of 7 August 1995, the Security Council extended the mandate of the Verification Mission for a further six-month period, until 8 February 1996.
2. The original cost estimate of the Verification Mission, as set out in the report of the Secretary-General of 6 June 1995 (A/49/433/Add.1), amounted to \$305,191,900 gross (\$300,004,800 net) for the period from 9 February to 31 December 1995. In view of actual delays in the implementation of mandated activities, the Advisory Committee on Administrative and Budgetary Questions, in its report of 28 June 1995 (A/49/927), recommended that the detailed consideration of the cost estimate be deferred until the fiftieth session and that updated budget information be provided to the Advisory Committee on the deployment of UNAVEM III. In accordance with the Advisory Committee's recommendation, the General Assembly, in its resolution 49/227 A of 20 July 1995, approved, as an interim measure, an initial appropriation of \$150 million gross (\$148 million net) for the period from 9 February to 8 August 1995.
3. As shown in annex I of the report of the Secretary-General of 6 November 1995 (A/50/651/Add.1), the revised cost estimate of UNAVEM III for the period from 9 February to 31 December 1995 amounted to \$268,072,500 gross (\$264,592,000 net). This reflected a 12 per cent decrease in gross terms from the original cost estimate and took into consideration the latest information on the phased deployment of military and civilian personnel, as well as the implementation of other mandated activities of the Verification Mission.
4. Based on the recommendation of the Advisory Committee on Administrative and Budgetary Questions, as contained in its report of 12 December 1995 (A/50/814), the Fifth Committee recommended that the General Assembly appropriate an amount of \$250,764,400 gross (\$247,283,900 net) for the period from 9 February to 31 December 1995. Taking into account resources previously provided, the General Assembly appropriated the additional amounts of \$34,851,497 gross (\$36,216,158 net) for the period from 9 February to 31 December 1995 and \$65,912,903 gross (\$63,067,742 net) for the period from 9 August to 31 December 1995, in its resolutions 50/209 A of 23 December 1995 and 50/209 B of 7 June 1996, respectively.

II. Financial performance report for the period from 9 February to 31 December 1995

5. Column 2 of annex I to the present report sets out, by budget line item, the apportionment of \$241,018,300 gross (\$237,537,800 net) as authorized by the General Assembly in its resolution 50/209 A, excluding the amount rolled over to the period beginning 1 January 1996, with the concurrence of the Advisory Committee. The related expenditures amount to \$220,227,400 gross (\$216,898,100 net), resulting in an unencumbered balance of \$20,790,900 gross (\$20,639,700 net). Supplementary information on the variances in requirements and costs is contained in annex II. The planned and actual deployment of military and civilian personnel is shown in annex III, while authorized staffing and actual deployment of military and civilian personnel is presented in annex IV. The planned and actual hours flown by helicopters and fixed-wing aircraft are outlined in annex V.
6. Owing to delays in the implementation of some activities, an amount totalling \$9,746,100 was rolled over to the period beginning 1 January 1996, with the concurrence of the Advisory Committee on Administrative and Budgetary Questions. This amount consisted of \$469,000 under infrastructure repairs, \$3,102,100 under mine-clearing programmes and \$6,175,000 under assistance for disarmament and demobilization.

7. The unencumbered balance resulted from savings primarily attributable to: (a) delays in the implementation of the mine-clearing and disarmament and demobilization programmes; (b) the lack of progress in the establishment of the independent UNAVEM radio station; (c) the delay in the deployment of military and civilian personnel; and (d) the cancellation of the requirement for naval operations.
8. However, these savings were offset in part by additional requirements under: (a) mission subsistence allowance (contingent personnel); (b) travel of military personnel and civilian police; (c) consultants, overtime and other travel costs of civilian staff; (d) Government-provided personnel; (e) premises and accommodation; (f) spare parts, repairs and maintenance for transport operations and communications equipment; (g) aviation fuel and aircrew subsistence allowance; (h) medical treatment and miscellaneous services; (i) miscellaneous supplies; (j) training programmes; (k) assistance to demobilized military forces; (l) commercial freight and cartage; and (m) provision towards the financing of the United Nations Logistics Base in Brindisi.

III. Action to be taken by the General Assembly at its fifty-first session

9. The action to be taken by the General Assembly at its fifty-first session in connection with the financing of UNAVEM III is a decision to credit Member States the unencumbered balance of \$20,790,900 gross (\$20,639,700 net) for the period from 9 February to 31 December 1995.

Annex I

Financial performance report for the period from 9 February to 31 December 1995

(Thousands of United States dollars)

20. Income from staff assessment		(3 480 500)		(3 239 300)	Idem.	104

B. Supplementary explanation

1. Military personnel costs

(a) *Military observers* 412 900

1. *Mission subsistence allowance.* The rate was increased from \$60 to \$65 per person per day effective 1 August 1995. Nevertheless, savings of \$463,500 were realized owing to the lower actual number of military observers deployed during the period. The planned and actual deployment of military observers are shown in annex III.
2. *Travel costs.* Additional requirements of \$42,400 resulted from the actual number of trips exceeding the estimated provision by 126. Actual travel totalled 330 trips (188 emplacements, 10 repatriations and 132 rotations) in comparison with the provision for 204 trips (99 emplacements, 8 repatriations and 97 rotations).
3. *Clothing and equipment allowance.* Additional requirements of \$8,200 resulted from the payment during this period of \$11,200 in respect of allowances for the period ending 8 February 1995.

(b) *Military contingents* 2 747 600

4. *Standard troop cost reimbursement.* Additional requirements of \$33,400 resulted from the higher actual troop strength of 29,409 person/months as compared with the estimated strength of 29,329 person/months. The planned and actual deployment of contingent personnel are shown in annex III.
5. *Welfare.* Savings of \$49,900 resulted from the lower number of personnel who had completed at least six months of service during the period, on which entitlement to recreational leave is based.
6. *Rations.* Savings of \$3,111,000 resulted primarily from actual requirements of 936,100 person/days being lower than the estimated total of 1,160,835 person/days and the lower cost of some rations provided through a letter-of-assist arrangement. Moreover, owing to the fact that their work was undertaken at sites where no catering facilities were located, personnel of the helicopter support unit could not be provided with rations; instead they were provided with a daily meal allowance.
7. *Daily allowance.* Additional requirements of \$70,400 resulted from the actual troop strength (954,922 person/days) exceeding the estimated strength (899,718 person/days) by 55,204 person/days.
8. *Mission subsistence allowance.* Additional requirements of \$290,800 were incurred as a result of the need for a daily meal allowance during the period for the helicopter support unit (with a maximum strength of 159) for the reason given in paragraph 6.
9. *Emplacement, rotation and repatriation of troops.* Additional requirements of \$16,500 resulted from: (a) the actual number of repatriations (618) being higher than previously estimated (576); and (b) unforeseen additional charges arising from the deployment and repatriation of the logistics battalion during the period May to August 1995 (\$1,131,700).
10. *Clothing and equipment allowance.* Additional requirements of \$2,200 resulted from the actual troop strength (29,409 person/months) being higher than the estimate (29,329 person/months).

(c) *Other costs pertaining to military personnel* —

11. *Contingent-owned equipment.* Owing to delayed deployment of contingent personnel to the mission area, a lower provision of \$20.5 million was recommended by the Advisory Committee in its report of 12 December 1995 (A/50/814). This amount has been fully obligated to cover the costs of reimbursement to troop-contributing Governments for the use of contingent-owned vehicles and other equipment.

12. *Death and disability.* The provision of \$3,044,000 has been fully obligated to cover potential claims from death, disability and injury to military personnel and civilian police observers. During the reporting period, eight deaths occurred in the mission area. Information on injuries and disabilities to personnel is currently being updated in anticipation of related claims.

2. Civilian personnel costs

(a) *Civilian police observers* 267 500

13. *Mission subsistence allowance.* The rate was increased from \$60 to \$65 per person per day effective 1 August 1995. Nevertheless, savings of \$495,700 were realized because of the lower actual number of civilian police deployed during the period.
14. *Travel costs.* Additional requirements of \$223,100 resulted from the actual number of travel (255 trips: 185 emplacements, 28 rotations and 42 repatriations), exceeding the estimate (165 trips: 129 emplacements and 36 rotations) by 90 trips.
15. *Clothing and equipment allowance.* Additional requirements of \$5,100 resulted from the payment of \$13,400 for allowances pertaining to the period ending 8 February 1995.

(b) *International and local staff* 5 537 000

16. *International salaries.* Savings of \$2,949,300 were realized from the slower rate of deployment of international staff during the period. The planned and actual deployment of international civilian personnel are shown in annex III.
17. *Local salaries.* Savings of \$525,200 were realized from the slower rate of deployment of local staff during the period. The planned and actual deployment of local staff are shown in annex III.
18. *Consultants.* The requirements of \$136,700 resulted from unforeseen requirements for travel costs and fees for eight consultants rendering advisory services in political affairs, civil engineering, interpretation/translation, logistics support and mission management.
19. *Overtime.* The unbudgeted requirements of \$230,000 were incurred owing to the unforeseen need for local staff to undertake various functions beyond regular working hours, including transportation support for seminars of the Joint Commission and other official functions, port clearance processing of mission material and engineering support for the establishment of UNAVEM premises throughout the mission area.
20. *Common staff costs.* Savings of \$627,500 were realized from the slower deployment of international and local staff during the period.
21. *Mission subsistence allowance.* The rate was increased from \$60 to \$65 per person per day effective 1 August 1995. However, savings of \$2,268,900 resulted from the slower deployment of international civilian staff.
22. *Other travel costs.* Additional requirements of \$467,200 resulted from the actual number of trips (50) exceeding the estimated provision (8) by 42 trips. Travel consisted primarily of trips between New York and the mission area for political consultations and administrative and technical purposes, while other trips from New York and the mission area to various destinations were related to the deployment of contingent personnel, the coordination of the peace process, on-site surveys for the logistic support service contract and other administrative and technical matters.

- (c) *United Nations Volunteers* 95 800
23. Savings of \$95,800 were realized from the slower deployment of volunteers during the period. The recorded expenditure includes an amount of \$184,900 to provide for administrative and travel costs for the eventual repatriation of the volunteers. The planned and actual deployment of volunteers is shown in annex III.
- (d) *Government-provided personnel* (44 600)
24. The unbudgeted requirements of \$44,600 resulted from unforeseen travel undertaken by Government-provided military personnel. Ten such personnel travelled from New York to various destinations in connection with the deployment of contingent personnel, evaluation of equipment and prefabricated accommodation and other administrative and logistic purposes.
3. **Premises/accommodation** (2 881 400)
25. *Rental of premises.* Additional requirements of \$1,464,700 were incurred owing to delays in the shipment and establishment of prefabricated accommodation, resulting in the need to rent hotel accommodation, primarily in Luanda. It was necessary and more economical to rent hotel accommodation than to rent generally unavailable and inadequate residential premises.
26. *Alteration and renovation of premises.* Additional requirements of \$50,600 for the upgrade of all mission premises to a minimum acceptable standard for accommodation resulted in actual requirements being higher than previously estimated.
27. *Maintenance supplies.* Additional requirements of \$688,700 resulted from actual requirements being higher than previously estimated for the maintenance of all UNAVEM premises at Luanda, six regional headquarters and some 60 observer team sites. The recorded expenditure includes steel mesh for fences (\$29,600), ready-mix concrete (\$62,400), wood products (\$95,100), steel (\$16,500), paint (\$70,000), plexiglass (\$87,100), miscellaneous supplies (\$13,100), flooring materials (\$12,000), 140 toilet systems (\$18,000), plumbing and drainage supplies (\$184,300), chlorine (\$1,700), miscellaneous spare parts, repair kits and tools (\$70,200), electrical supplies (\$47,300) and miscellaneous construction materials and supplies (\$339,800).
28. *Maintenance services.* Additional requirements of \$105,100 resulted from actual expenditures on contractual services related to engineering maintenance and support, pest control and upgrade of air-conditioning systems being higher than estimated. Moreover, expenditure of \$14,600 was incurred for the settlement of outstanding charges in respect of UNAVEM II.
29. *Utilities.* Additional requirements of \$75,100 resulted from higher actual requirements for generator fuel than previously estimated. Savings realized under requirements for propane (cooking) gas and water supply under contractual arrangements were offset by higher requirements for generator fuel. The recorded expenditure consisted of \$1,600 for propane (cooking) gas, \$33,000 for water provided under contractual arrangements and \$1,040,500 for generator fuel.
30. *Construction/prefabricated buildings.* Additional requirements of \$497,200 resulted from actual expenditures being higher than estimated. The recorded expenditure included freight charges for accommodation units transferred from the United Nations Operation in Somalia (UNOSOM), the United Nations Operation in Mozambique (ONUMOZ), the United Nations Protection Force (UNPROFOR) and the United Nations Logistics Base, additional purchases of units (including office accommodation, ablution and kitchen units), which could not be obtained through transfers from other missions or the Logistics Base and purchases of related materials and supplies for the repair, upgrade and maintenance of transferred units to meet minimum safety standards for occupancy.

4. **Infrastructure repairs** 1 000
31. *Upgrading of roads.* The provision was fully utilized to cover the repair and upgrading of existing roads, construction of internal roads, including drainage systems, and the rental of trenching equipment for road construction and repair. The apportionment excludes the amount of \$469,000, which was rolled over to the period beginning 1 January 1996, as authorized by the Advisory Committee.
32. *Repair of bridges.* Savings of \$1,000 resulted from actual requirements being slightly lower than previously estimated.
5. **Transport operations** 1 314 400
33. *Purchase of vehicles.* Savings of \$1,860,600 resulted from the actual number of transferred vehicles (717) being lower than the estimate (868). The recorded expenditure included freight charges (\$1,037,600) and the purchase of four vehicles (\$140,200), which could not be met through transfers from other peacekeeping operations.
34. *Workshop equipment.* Additional requirements of \$57,600 were due to actual requirements being higher than previously estimated. Equipment was purchased for the establishment of a total of nine workshops at mission headquarters, logistics bases at Viana and Lobito and each of the six regional headquarters. The recorded expenditure also includes the costs of replacements for worn and damaged equipment.
35. *Spare parts, repairs and maintenance.* Additional requirements of \$541,300 resulted from higher actual requirements for spare parts, repairs and maintenance for used vehicles transferred from other peacekeeping operations. In addition, an amount of \$100,000 was provided as the share of UNAVEM III towards related requirements of the United Nations Logistics Base.
36. *Petrol, oil and lubricants.* Additional requirements of \$14,800 resulted from actual expenditure being higher than previously estimated.
37. *Vehicle insurance.* Savings of \$67,500 resulted from the replacement of local third-party liability insurance coverage with worldwide third-party liability insurance during the latter part of the period.
6. **Air operations**
 - (a) *Helicopter operations* 81 300
38. *Hire/charter costs.* Savings of \$233,600 resulted from actual requirements being lower than previously estimated. In comparison with 1,960 planned hours, a total of 1,605 hours were actually flown by the seven military helicopters. The recorded expenditure also includes the short-term lease of two Dauphin SA-365C2 for the period from 13 to 30 March 1995 and one Bell B-412 medevac helicopter for the period from 9 to 19 May 1995. The monthly planned and actual hours flown by the seven military helicopters are presented in annex V to the present report.
39. *Aviation fuel and lubricants.* Additional requirements of \$152,300 resulted from unforeseen additional charges levied by the supplier for the delivery of fuel by air to remote and outlying areas. While provision was based on delivery by ground transportation, reliable and timely delivery of fuel to remote locations could only be undertaken with the use of specially equipped aircraft.
40. *Positioning/depositioning costs.* The provision was fully utilized to cover the cost of the deployment of seven military helicopters to Angola by air.
41. *Painting/preparation.* The provision was fully utilized to cover the painting and preparation costs of seven military helicopters.
42. *Liability and war-risk insurance.* The provision was fully utilized to cover the costs of additional war-risk insurance for seven military helicopters.

- (b) *Fixed-wing aircraft* 542 200
43. *Hire/charter costs.* Savings of \$416,000 resulted from the actual number of hours flown (9,059) being lower than planned (12,260). Annex V to the present report presents the planned and actual hours flown during the period.
44. *Aviation fuel and lubricants.* Additional requirements of \$25,100 resulted from the unforeseen requirement for the delivery of fuel by air to remote and outlying locations, for which additional charges were levied by the supplier.
45. *Positioning/depositioning costs.* Savings of \$30,300 were realized owing to lower actual costs for the positioning of 14 aircraft.
46. *Painting/preparation.* Savings of \$2,000 were due to actual costs being lower than estimated.
47. *Liability and war-risk insurance.* Savings of \$119,000 were realized from lower actual requirements for additional war-risk insurance and the inclusion of insurance in the base hire costs of some aircraft.
- (c) *Aircrew subsistence allowance* (123 800)
48. The unbudgeted requirements resulted from allowances provided to crews of aircraft for short-term stays outside the mission area, including regularly scheduled flights to South Africa and, as required, official flights to other destinations.
- (d) *Other air operation costs* 537 200
49. *Air traffic control services and equipment.* No expenditure was incurred under this line item owing to the upgrade of navigational equipment and aircraft facilities by the host Government.
50. *Landing fees and ground handling.* Savings of \$105,300 were realized primarily from the cessation of regularly scheduled flights to Namibia as a result of the closure of the UNAVEM office in Windhoek. In addition, UNAVEM flights to South Africa were provided free access to the Waterkloof Air Force Base, for which related charges were waived by the host Government.
51. *Fuel storage and containers.* No expenditure was recorded under this line item.
7. **Naval operations** 390 900
52. No expenditure was incurred under this heading owing to the cancellation of the original requirement for a naval unit of three patrol boats.
8. **Communications**
- (a) *Complementary communications* 561 900
53. *Communications equipment.* Savings of \$215,000 resulted from the quantity of equipment transferred from other peacekeeping operations being larger than previously estimated.
54. *Spare parts and supplies.* Additional requirements of \$266,300 resulted from higher actual requirements for spare parts and repair of used equipment in the mission area and those transferred from other peacekeeping operations.
55. *Workshop and test equipment.* Savings of \$169,800 resulted from actual requirements being lower than previously estimated.
56. *Commercial communications.* Savings of \$443,400 resulted from the delays in the deployment of troops and implementation of the quartering process owing to the postponement of the use of an additional 20 commercial local telephone lines and the delay in the delivery of two 30-channel microwave systems.

9. Other equipment 2 657 200

57. *Office furniture.* Savings of \$128,400 were realized from the transfer of furniture from other peacekeeping operations being more extensive than estimated.
58. *Office equipment.* Savings of \$85,200 resulted from the quantity of equipment transferred from other peacekeeping operations being larger than estimated.
59. *Data-processing equipment.* Savings of \$187,100 were realized from the quantity of transferred equipment being larger than estimated.
60. *Generators.* Savings of \$349,200 resulted from the quantity of transferred equipment being larger than estimated. Recorded expenditure includes freight costs for transferred equipment (\$305,400), the purchase of one generator (\$5,000) and related spare parts and supplies, including overhaul kits and metering and testing equipment (\$197,800).
61. *Observation equipment.* Savings of \$391,500 resulted from the larger quantity of equipment transferred from other peacekeeping operations.
62. *Petrol tank plus metering equipment.* Savings of \$198,400 were realized owing to the delay in the deployment of troops and the establishment of quartering areas, which also delayed the full implementation of the planned procurement of equipment.
63. *Water and septic tanks.* The unbudgeted requirements of \$40,700 resulted from the unforeseen need to purchase 5,000-litre septic tanks.
64. *Medical and dental equipment.* Savings of \$122,800 were realized owing to lower actual requirements for the contingent-owned field hospital, which was almost fully equipped upon deployment to the mission area.
65. *Accommodation equipment.* Additional requirements of \$85,100 resulted from actual requirements for the furnishing of containerized accommodation and Government-provided premises being higher than estimated.
66. *Refrigeration equipment.* Savings of \$1,012,100 resulted from requirements being met completely from the transfer of equipment from other peacekeeping operations. The recorded expenditure relates to freight charges for the transfer of equipment to the mission area.
67. *Miscellaneous equipment.* Savings of \$62,200 resulted from actual requirements being lower than previously estimated. The recorded expenditure consisted of: (a) industrial washing machines and clothes dryers (\$31,300); (b) freezers (\$19,900); (c) air-conditioners (\$210,100); (d) flat irons and ironing boards (\$4,800); (e) water pumps (\$9,600); (f) antiseptic fluid (\$2,000); (g) miscellaneous construction tools (\$55,600); (h) cutting and engraving equipment (\$10,200); (i) saws and routers (\$9,400); (j) hammers (\$7,300); (k) heavy-duty pallets/packaging equipment (\$93,000); (l) re-pressurization pumps (\$35,500); (m) video camera recorders (\$5,600); and (n) electric orbital sanders (\$1,100).
68. *Spare parts, repairs and maintenance.* Savings of \$339,300 were due to the delay in the identification of requirements for spare parts, resulting from the delay in the deployment of civilian staff.
69. *Water-purification equipment.* Additional requirements of \$93,200 resulted from actual purchases of equipment being higher than estimated. While provision was based primarily on the transfer of equipment from other peacekeeping operations and the United Nations Logistics Base, actual requirements called for the purchase of new equipment suitable for the geographical and climatic conditions in the mission area. The recorded expenditure consisted of: (a) 70 water purifiers in self-contained kits (\$512,100); (b) 10 large water-purification units (\$390,000); (c) storage tanks for purified water (\$73,700); (d) suction hoses and couplings (\$13,500); (e) refurbishment of two xenon water-purification units (\$32,000); (f) water pumps (\$334,500); (g) raw and purified water stores (\$32,700); (h) ultraviolet lamps and ballasts (\$16,900); (i) water filters (\$39,500); (j) water test and indicator kits (\$27,800); and (k) treatment chemicals and related supplies (\$220,500).

10. Supplies and services

- (a) *Miscellaneous services* 1 831 900
70. *Audit services.* The provision was fully obligated to cover the cost of the external audit conducted by the Government of India for the biennium 1994-1995.
71. *Contractual services.* Savings of \$2,044,900 resulted primarily from the actual cost of services rendered under the logistics support service contract (\$6,076,400) being lower than previously estimated (\$7,952,000). In addition, savings were also realized from lower actual requirements for laundry/linen services and grooming services (\$75,100) than previously estimated (\$346,200). Moreover, by utilizing surplus rations, no expenditure was incurred for catering services for seven local policemen who provide security services for a meal provision in lieu of remuneration. However, savings were offset in part by the unforeseen requirement for contractual services for the preparation of land for UNAVEM premises (\$132,800).
72. *Security services.* Savings of \$116,100 were realized from the actual cost of the security services contract (\$1,214,900) being lower than estimated (\$1,331,000).
73. *Medical treatment and services.* Additional requirements of \$121,500 were due to the higher incidence of malaria in the mission area, resulting in a higher number of medical evacuations to facilities outside the mission area.
74. *Claims and adjustments.* Savings of \$33,900 resulted from the actual number of claims being lower than previously estimated.
75. *Official hospitality.* Savings of \$14,100 were realized from lower actual requirements.
76. *Miscellaneous other services.* Additional requirements of \$255,600 resulted primarily from miscellaneous local contracts for various general services entered into by UNAVEM, pending the implementation of the logistics support service contract in July 1995. These contracts related to the provision of temporary local labour for *matériel* handling, site preparation and other general services at the six regional headquarters and observer team sites throughout the mission area (\$322,300). Other expenditure included: (a) bank and related charges (\$98,300); (b) contracts for the fumigation of mission facilities (\$3,400); and (c) preparation and shipment of deceased civilian personnel (\$4,000).
- (b) *Miscellaneous supplies* (1 325 900)
77. *Stationery and office supplies.* Additional requirements of \$329,800 resulted primarily from unforeseen requirements for the logistics support service contract. Under the terms of the contract, UNAVEM is responsible for providing the contractor with equipment and supplies to undertake its activities. The overexpenditure was also attributable to higher actual requirements for the public information programme and the disarmament/demobilization programme. While provision was based on an average cost of \$27,000 per month, the recorded expenditure indicates an actual average cost of \$57,800 per month.
78. *Medical supplies.* Additional requirements of \$469,300 were attributable to additional purchases of supplies to replace those transferred from other peacekeeping operations but deemed unfit for use. Furthermore, the higher incidence of malaria in the mission area necessitated the purchase of additional anti-malarial vaccines and related supplies.
79. *Sanitation and cleaning materials.* Savings of \$2,000 resulted from actual requirements being slightly lower than previously estimated.
80. *Subscriptions.* Additional requirements of \$5,900 resulted from actual requirements for the renewal of subscriptions during the period.
81. *Electrical supplies.* Additional requirements of \$395,600 resulted from the upgrading of electrical installations at all mission premises in line with the adoption of the standards of the Institution of Electrical Engineers. The recorded expenditure included: (a) cabling and fluorescent lighting (\$132,500); (b) flexible

- and PVC cabling (\$177,900); (c) circuit breakers, panels, sockets and fixtures (\$194,100); (d) outdoor and flood lighting (\$28,600); and (e) other related miscellaneous supplies (\$76,500).
82. *Uniform items, flags and decals.* Savings of \$119,700 were attributable to the delay in the deployment of military and civilian personnel.
83. *Field defence stores.* Savings of \$4,700 were realized from actual requirements being lower than previously estimated.
84. *Operational maps.* Additional requirements of \$17,200 was incurred for the purchase of additional maps from commercial sources owing to the non-availability of maps from government sources.
85. *Quartermaster and general stores.* Additional requirements of \$234,500 resulted from higher actual requirements than estimated. The recorded expenditure includes \$36,500 for the settlement of outstanding charges in respect of UNAVEM II.
11. **Election-related supplies and services** —
86. No provision was made under this heading.
12. **Public information programmes** 1 633 500
87. *Equipment.* Savings of \$1,390,800 resulted from the absence of progress in the establishment of the UNAVEM radio station. The recorded expenditure includes freight charges for equipment transferred from other peacekeeping operations and the purchase of other essential equipment that could not be met through transfers. While most of the equipment transferred from other peacekeeping operations has been kept in storage in UNAVEM premises, some equipment was utilized for the production of UNAVEM programmes for broadcast in Angolan radio and television networks.
88. *Materials and supplies.* Savings of \$56,200 resulted from delays in the establishment of the UNAVEM radio station and the deployment of international civilian staff for the public information programme.
89. *Department of Public Information production costs.* No expenditure was incurred under this line item owing primarily to the delay in the establishment of the UNAVEM radio station. In addition, the Department's production activities could not be undertaken owing to the delay in the deployment of international civilian staff.
13. **Training programmes** (8 500)
90. Additional requirements resulted from actual expenditure for travel and related costs of 14 experts/facilitators from various points of origin to Angola in connection with training seminars conducted in August 1995.
14. **Mine-clearing programmes**
- (a) *Acquisition of equipment* 4 790 000
91. *Mine-clearing equipment.* Savings of \$2,222,000 were due to delays in the establishment of the demining school and the implementation of the commercial mine-clearance and verification contract. The commercial mine-clearance company commenced its operations in November 1995 while the demining school was not established until late November 1995, and only became fully operational in January 1996.
92. *Miscellaneous equipment.* For the same reason cited above, no expenditure was incurred under this line item. The apportionment excludes the amount of \$3,102,100, which was rolled over to the period beginning 1 January 1996, in accordance with the concurrence of the Advisory Committee.

- (b) *Supplies, services and operating costs* 537 800
93. *Wages and food supplement.* No expenditure was incurred under this heading owing to the delay in the establishment of the demining school.
94. *Miscellaneous services.* Savings of \$185,100 were realized from the delay in the establishment of the demining school, resulting in the non-utilization of related services previously estimated. Savings were also derived from the actual cost of the commercial mine-clearance and verification contract (\$6,527,600) being lower than previously estimated (\$6,532,700).
95. *Miscellaneous supplies.* Savings of \$128,400 were realized from delays in the establishment of the demining school and the implementation of the commercial mine-clearance and verification contract. The recorded expenditure reflects requirements of the demining school from its establishment in November 1995 and the commercial mine-clearance contract, for which activities also commenced in the same month.
- 15. Assistance for disarmament and demobilization**
- (a) *Rehabilitation/reintegration assistance to demobilized military forces* (1 721 100)
96. *Assistance to demobilized military forces.* Additional requirements of \$1,721,100 resulted primarily from actual requirements for 15 quartering areas being higher than previously estimated. The overexpenditure was also attributable to: (a) unforeseen requirements for household supplies and items for personal hygiene; and (b) replacement of damaged and/or stolen items. The recorded expenditure includes: (a) construction equipment (\$724,200); (b) household supplies and items for personal hygiene (\$2,560,600); (c) clothing (\$3,049,200); (d) construction and engineering materials and supplies (\$3,062,600); (d) transport of equipment and other supplies (\$371,000); (e) electrical and plumbing supplies (\$734,300); (f) water-storage and water-treatment equipment and supplies (\$1,356,900); (g) photo ID systems (\$556,600); (h) freight charges for transfer of data-processing equipment from the United Nations Assistance Mission for Rwanda (UNAMIR) (\$65,100); and (i) purchase of 137 microcomputer systems at a cost of \$1,760 per system (\$242,300).
- (b) *Provision of food, including transportation and distribution* 2 573 000
97. *Rations.* Savings of \$1,703,500 were attributable to: (a) the delay in the implementation of the quartering process; and (b) partial provision of rations by the World Food Programme (WFP). The apportionment excludes the amount of \$6,175,000, which was rolled over to the period beginning on 1 January 1996, with the concurrence of the Advisory Committee.
98. *Transportation.* Savings of \$869,500 resulted from the delay in the implementation of the quartering process.
- 16. Air and surface freight** 231 900
99. *Transport of contingent-owned equipment.* Savings of \$1,507,600 resulted from the delay in the deployment of contingent personnel and their equipment.
100. *Commercial freight and cartage.* Additional requirements of \$1,275,700 resulted from unforeseen additional requirements for freight charges from various points of origin to the mission area, port and handling charges and related services and rental of heavy trucks with trailers from local trucking companies for the inland transport of cargo within the mission area. The rental of trucks was required to supplement UNAVEM trucks in order to expedite the deployment by ground transport of cargo and contingent-owned equipment throughout the mission area. The recorded expenditure includes: (a) rental of 10 heavy trucks with trailers, at an average monthly cost of \$10,500 per truck, for the inland transport of general cargo and contingent-owned equipment from the greater Luanda area, Huambo and Lobito to

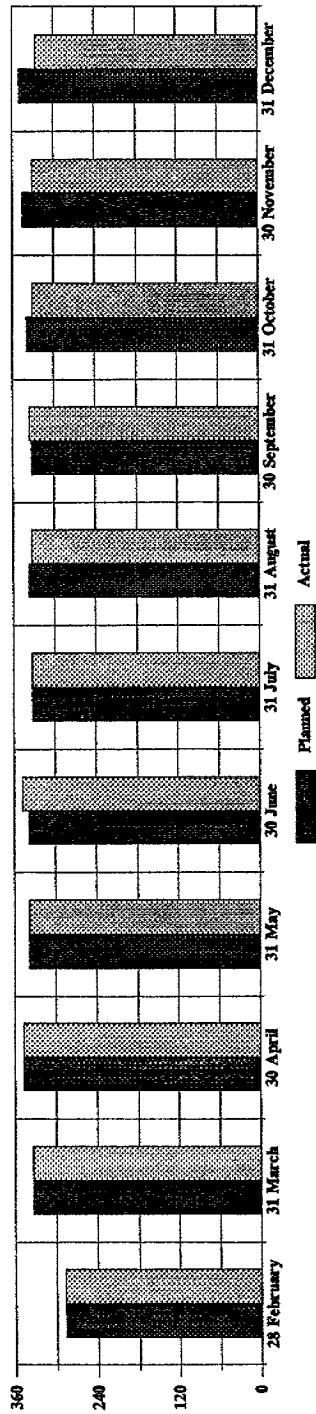

various points of deployment within the mission area (\$914,500); (b) freight charges for accommodation units, vehicles and equipment from other peacekeeping operations (\$616,100); (c) freight charges for general cargo, accommodation units and other equipment from France and South Africa to the mission area (\$190,700); and (d) port and handling charges, clearing charges and related services at air and sea ports (\$204,800).

17. **Integrated Management Information System** —
101. The proportional share of UNAVEM III in the financing of the Integrated Management Information System for the biennium 1994-1995 was fully utilized.
18. **Support account for peacekeeping operations** —
102. The full amount allocated was transferred to the support account for peacekeeping operations.
19. **Staff assessment** 151 200
103. Savings were realized from the delay in the deployment of international and local civilian staff.
20. **Income from staff assessment** (151 200)
104. This amount is derived from item 19 above.
