## Agenda item 135

### Financing of the United Nations Observer Mission in Liberia

#### Report of the Secretary-General

#### *Summary*

The United Nations Observer Mission in Liberia (UNOMIL) was established by the Security Council on 22 September 1993. The present report contains the financial performance report of UNOMIL for the period from 1 July 1995 to 30 June 1996. For the period from 1 July 1995 to 31 March 1996, an amount of \$30,470,500 gross (\$29,390,300 net) was provided for the maintenance of the Mission. These resources have been utilized for the period up to and beyond 30 June 1996. The expenditures for the period from 1 July 1995 to 30 June 1996 amounted to \$17,004,100 gross (\$15,946,400 net), resulting in an unencumbered balance of \$13,466,400 gross (\$13,443,900 net).

The unencumbered balance resulted primarily from the lower actual number of military and civilian personnel deployed and non-implementation of the public information and disarmament and demobilization programmes.

The actions to be taken by the General Assembly are set out in paragraph 9 of the present report and include the appropriation of the amount of \$12,169,600 gross (\$11,838,800 net) already authorized for the operation of the Observer Mission for the period from 1 February to 31 March 1996 and the extension of the appropriation period to 30 June 1996; and the crediting of Member States of the unencumbered balance of \$13,466,400 gross (\$13,443,900 net) for the period from 1 July 1995 to 30 June 1996.

## I. Introduction

1. The United Nations Observer Mission in Liberia (UNOMIL) was established by the Security Council in its resolution 866 (1993) of 22 September 1993 for an initial period of seven months. Its mandate has since then been extended and adjusted by subsequent resolutions of the Council, the latest being resolution 1083 (1996) of 27 November 1996, in which the Council extended the mandate of the Observer Mission until 31 March 1997.
2. The revised cost estimate of the Observer Mission, as set out in the report of the Secretary-General of 28 February 1996 (A/50/650/Add.2), amounted to \$34,946,700 gross (\$33,581,900 net) for the period from 1 July 1995 to 30 June 1996.
3. The resources provided by the General Assembly for the period from 1 July 1995 to 31 March 1996 amounted to \$30,470,500 gross (\$29,390,300 net), as follows:

<i>Period</i>	<i>Appropriation/ commitment authority</i>	<i>Amount (United States dollars)</i>		<i>References</i>
		<i>Gross</i>	<i>Net</i>	
1. 1 July-31 December 1995	Appropriation	8 527 300	7 943 300	Resolution 49/232 B of 12 July 1995
2. 1 January-31 January 1996	Appropriation	9 773 600	9 608 200	Resolution 50/210 of 23 December 1995
3. 1 February-31 March 1996	Commitment authority	12 169 600	11 838 800	Resolution 50/210
<b>Total</b>		<b>30 470 500</b>	<b>29 390 300</b>	

4. However, the General Assembly, by its decisions 50/482 A of 7 June 1996 and 50/482 B of 17 September 1996, decided to extend the utilization of these resources to 30 September and 31 October 1996, respectively.

## II. Financial performance report for the period from 1 July 1995 to 30 June 1996

5. Column 2 of annex I to the present report sets out, by budget line item, the apportionment of the amount of \$30,470,500 gross (\$29,390,300 net) authorized by the General Assembly. The related expenditure amounted to \$17,004,100 gross (\$15,946,400 net), and includes \$828,500 in respect of non-recurrent expenses and \$4,666,200 gross (\$3,955,100 net) for unliquidated obligations, resulting in an unencumbered balance of \$13,466,400 gross (\$13,443,900 net). Supplementary information on the variances in requirements and costs is contained in annex II. The planned and actual deployment of military and civilian personnel is shown in annex III, while authorized staffing and actual deployment of military and civilian personnel is presented in annex IV. The planned and actual hours flown by helicopters is outlined in annex V and the inventory of equipment looted from UNOMIL is presented in annex VI.
6. The unencumbered balance of \$13,466,400 gross (\$13,443,900 net) for the period from 1 July 1995 to 30 June 1996 was a result of:

- (a) A deterioration of the peace process in Liberia beginning in December 1995, which led to the postponement of the scheduled implementation of the disarmament and demobilization programme previously scheduled for the period from 1 December 1995 to 31 March 1996 and the non-deployment of additional military and civilian personnel;
  - (b) The outbreak of fighting in Monrovia on 6 April 1996, which resulted in the repatriation of non-essential military and civilian personnel and the cancellation of air operations in April 1996.
7. It should be noted that the apportionment reflects the combination of the initial estimated requirements for the period from 1 July 1995 to 31 December 1995 and the revised requirements for the period from 1 January to 31 March 1996. The extended use of these resources to 30 June 1996 without adjustment to the earlier apportionment has been reflected in the varied explanations given for expenditures within certain of the major budget line items in the supplementary information in annex II B.
8. In accordance with the request made by the Advisory Committee on Administrative and Budgetary Questions in paragraph 14 of its report A/51/423 of 27 September 1996, the inventory of equipment looted from UNOMIL is presented in annex VI.

### **III. Action to be taken by the General Assembly at its fifty-first session**

9. The actions to be taken by the General Assembly at its fifty-first session in connection with the financing of UNOMIL are as follows:
  - (a) The appropriation of the amount of \$12,169,600 gross (\$11,838,800 net) authorized and assessed for the period ending 31 March 1996, under the terms of General Assembly resolution 50/210 and to extend the period covered by the appropriation from 31 March 1996 to 30 June 1996;
  - (b) The assessment on Member States of the amount of \$5,840,000 gross (\$5,494,500 net) already appropriated under the terms of General Assembly resolution 51/3 of 17 October 1996 for the period from 1 July to 30 November 1996 with offsetting from the unencumbered balance of \$13,466,400 gross (\$13,443,900 net) for the period from 1 July 1995 to 30 June 1996;
  - (c) A decision to credit Member States the remaining unencumbered balance of \$7,626,400 gross (\$7,949,400 net) for the period from 1 July 1995 to 30 June 1996 against their assessment for the period beyond 30 November 1996.

## Annex II

### Supplementary information on the financial performance report for the period from 1 July 1995 to 30 June 1996

#### A. Detailed variances in requirements and costs

Description	Estimate		Actual		Explanation	Supplementary explanation (paragraph in sect. B)
	Number of units	Unit/daily/monthly/annual cost (United States dollars)	Number of units	Unit/daily/monthly/annual cost (United States dollars)		
<b>1. Military personnel costs</b>						
<i>(a) Military observers</i>						
Mission subsistence allowance						
Number of military observers	160	—	71	—	Evacuation and repatriation of personnel	1
Daily rate						
First 30 days	—	120	—	120	Established rates	1
After 30 days	—	85	—	85	Established rates	1
Travel costs						
Repatriation trips	12	3 400	95	2 540	Lower actual cost	2
Rotation trips	53	6 800	70	5 080	Lower actual cost	2
Clothing and equipment allowance						
Total cost	—	15 400	—	12 900	Evacuation and repatriation of personnel	1
<i>(b) Military contingents</i>						
<i>(c) Other costs pertaining to military personnel</i>						
Contingent-owned equipment	—	—	—	—		—
Death and disability compensation	—	43 800	—	43 800	No change	3
<b>2. Civilian personnel costs</b>						
<i>(a) Civilian police</i>						
<i>(b) International and local staff</i>						
Number of international staff	106	—	59	—	Evacuation and repatriation of personnel	4
Number of local staff	511	—	118	—	Reduction of staff owing to non-implementation of disarmament and demobilization programme	5
Consultants	—	—	—	—		—
Overtime	—	—	—	—		—
General temporary assistance	—	—	—	—		—

Description	Estimate		Actual		Explanation	Supplementary explanation (paragraph in sect. B)
	Number of units	Unit/daily/monthly/annual cost (United States dollars)	Number of units	Unit/daily/monthly/annual cost (United States dollars)		
Common staff costs	—	2 724 400	—	2 625 400	Evacuation and repatriation of personnel	6
Mission subsistence allowance	—	1 661 600	—	1 595 600	<i>Idem</i>	6
Other travel costs	—	91 300	—	168 600	Increased travel for consultations on the peace process	7

**B. Supplementary explanation**

*Savings/(overruns)*  
*(United States dollars)*

**1. Military personnel costs**

(a) *Military observers* . . . . . 227 000

1. Savings under mission subsistence allowance (\$421,300) and clothing and equipment allowance (\$2,500) arose because of the evacuation of 88 military observers owing to the outbreak of hostilities in Monrovia on 6 April 1996 to Freetown and Dakar. The evacuated military observers were subsequently repatriated except for 10 observers who remained on standby in Freetown. Provision had originally been made for mission subsistence allowance for 29,700 person days for the period ending 31 March 1996, whereas only 24,600 person days were actually utilized. The savings realized from the unutilized person days were partly offset by more military observers receiving the higher rate of \$120 for the first 30 days owing to a higher number of rotation than anticipated. In addition, observers who were evacuated to Freetown and Dakar received the higher daily subsistence allowance of \$138 and \$145, respectively, rather than \$85 for Liberia. The planned and actual deployments of military observers are shown in annex III.

2. *Travel costs.* Additional requirements amounting to \$196,800 resulted from a higher number of rotation and repatriation than anticipated, owing in part to the evacuation and repatriation of military observers. Provision had been made for 12 repatriation and 53 rotation trips for military observers at an average cost of \$3,400 and \$6,800, respectively. However, during the period 95 observers were repatriated and 70 observers were rotated at an average cost of \$2,540 and \$5,080, respectively.

(b) *Military contingents* . . . . . —

(c) *Other costs pertaining to military personnel*

3. *Death and disability.* The amount allocated under this heading (\$43,800) has been fully obligated to cover claims from death, disability or injury of military personnel. As at 30 September 1996, the amount in unliquidated obligations (including prior periods) set aside for this purpose amounts to \$181,500.

**2. Civilian personnel costs**

(a) *Civilian police* . . . . . —

(b) *International and local staff* . . . . . 276 700

4. *International staff salaries.* The number of 54 international staff authorized for the period from 1 July to 31 December 1995 was increased to 106 effective 1 January 1996. However, despite the fact that the resources provided for this line item were only for the period up to 31 March 1996, the actual additional requirements up to 30 June 1996 amounted to only \$84,200. This minimal additional requirement was a result of the non-implementation of the disarmament and demobilization programme, which had originally been planned to be carried out beginning 1 December 1995 and was rescheduled to 1 April 1996. This resulted in the non-deployment of additional personnel authorized and the repatriation of non-essential international staff in place owing to the curtailment of UNOMIL's activities. The planned and actual deployment of international civilian personnel are shown in annex III.

5. *Local staff salaries.* Although the resources provided for this line item were only for the period up to 31 March 1996, savings of \$273,200 were realized for the same reasons indicated in paragraph 4 above. The planned and actual deployment of local civilian personnel are shown in annex III.

6. Savings of \$99,000 under common staff costs and \$66,000 under mission subsistence allowance respectively were realized for the same reasons indicated in paragraphs 4 and 5 above.

7. *Other travel costs.* Additional requirements of \$77,300 under other official travel resulted from the higher incidence of travel between the field and headquarters, within the mission area and to neighbouring countries for extensive consultations on the deterioration of the peace process. A total of 18 round trips were actually undertaken between New York and Monrovia, consisting of 12 trips for two technical missions to evaluate the status of UNOMIL (\$73,568) and 6 trips for various consultations and briefings (\$27,483). There were also three round-trips undertaken by the Special Envoy of the Secretary-General and his adviser between New York, Accra and Abuja in order to attend various summit and other meetings on the Liberian peace process (\$22,036). In addition, 37 trips were undertaken by the Special Representative and his advisers to countries members of the Economic Community of West African States (ECOWAS), particularly Ghana and Nigeria (\$45,457) where most of the consultations and discussions between the major warring factions were being held.
- (c) *International contractual personnel* . . . . . —
- (d) *United Nations Volunteers* . . . . . 1 113 900
8. As a result of the non-implementation of the disarmament and demobilization programme, savings amounting to \$1,113,900 for United Nations Volunteers were realized. It had been anticipated that 110 Volunteers would be deployed during the reporting period, including 91 for the disarmament and demobilization programme. However, only 25 Volunteers were actually deployed during the reporting period.
- 3. Premises/accommodation** . . . . . **183 800**
9. Savings of \$3,100 under rental of premises and \$65,300 for alteration and renovation of premises resulted from having to vacate all UNOMIL offices, workshop and warehouses. In addition, only 1 of the 13 buildings that were to be used as field offices for the demobilization sites was actually rented and the planned renovation of most of the 13 demobilization sites was cancelled owing to the non-implementation of the disarmament and demobilization programme.
10. Savings of \$5,700 under maintenance supplies, \$8,900 under maintenance services and \$19,900 under utilities resulted from reduced operational activities during the reporting period and the change in office premises.
11. As a result of the non-implementation of the disarmament and demobilization programme, the 20 prefabricated buildings for which freight and site preparation cost provisions had been made were not transferred from the United Nations Assistance Mission for Rwanda (UNAMIR), resulting in savings of \$80,900 under construction/prefabricated buildings.
- 4. Infrastructure repairs** . . . . . —
12. No provision was made under this heading.
- 5. Transport operations** . . . . . **1 165 400**
13. Savings of \$979,800 under the purchase of vehicles were attributable to lower freight costs incurred for the transfer of 107 vehicles from UNAMIR and Brindisi. In addition, resources provided for the refurbishing of these vehicles were not utilized as most of the vehicles were subsequently looted. This resulted in savings of \$20,000 under workshop equipment, \$108,800 under spare parts, repairs and maintenance and \$59,400 for petrol, oil and lubricants. In addition, no vehicles were rented during the reporting period, resulting in savings of \$4,200 under rental of vehicles.
14. *Vehicle insurance.* An average of 123 vehicles were actually insured compared with the estimated average of 114 vehicles, which resulted in additional requirements of \$6,800 under third-party liability insurance.

**6. Air operations**

- (a) *Helicopter operations* . . . . . 285 700
15. *Hire/charter costs.* Savings of \$74,900 under hire cost resulted from the lower actual monthly hire cost and lower number of flight hours utilized by helicopters during the reporting period. It was anticipated that the Mission would hire one B-212 at a monthly rate of \$64,700 for six months from 1 July to 31 December 1995, two B-212 helicopters for the month of January 1996 at a monthly cost of \$72,000 and three B-212 helicopters for the months of February and March 1996 at a monthly rate of \$72,000. However, actual monthly hire cost was \$57,500 for one helicopter from 1 July 1995 to 21 February 1996 and two helicopters from 21 February to 22 April 1996 at a monthly hire cost of \$66,200 each with negotiated lower monthly flight hours to suit the Mission's operational requirements. Subsequently, as the contracts for the two helicopters were terminated during the April crisis, UNOMIL was required to charter one helicopter for its critical transportation requirements at a cost of \$8,000 per round trip for a total of \$48,000 for six flights between Freetown and Monrovia. Furthermore, expenditure was incurred for an additional fuel tank that was installed on one of the helicopters to provide reserve fuel for long distance flights (\$59,500). In addition, hire cost amounting to \$75,290 relating to the previous mandate period was carried forward to the current period owing to late receipt of invoices. The planned and actual hours flown by helicopters for the period are shown in annex V.
16. *Aviation fuel and lubricants.* Savings of \$64,500 resulted from the lower number of flight hours actually utilized and the termination of contract in April for the two helicopters. Provisions were made for 900 flight hours but the actual flight hours utilized were 346.
17. *Positioning/depositioning costs.* During the reporting period no expenditure was incurred for positioning/depositioning of the Mission helicopters, resulting in savings of \$40,000.
18. *Painting/preparations.* Savings of \$8,500 for painting and preparation resulted from the painting of the helicopters by the aircraft company at a lower cost than originally budgeted.
19. *Liability and war-risk insurance.* Savings of \$97,800 resulted owing to liability insurance for basic war risk, including hijacking and confiscation, being included in the basic hire cost.
- (b) *Fixed-wing aircraft* . . . . . —
- (c) *Aircrew subsistence allowance* . . . . . —
- (d) *Other air operation costs* . . . . . 5 700
20. *Landing fees and ground handling.* No expenditure was incurred during the reporting period, hence the savings of \$5,700 reported.

**7. Naval operations** . . . . . —

21. No provision was made under this heading.

**8. Communications**

- (a) *Complementary communications* . . . . . 309 300
22. *Communications equipment.* Savings amounting to \$236,500 resulted from the lower freight cost incurred in transferring the required equipment for UNOMIL from UNAMIR and Brindisi. In addition, resources provided for refurbishing the equipment were not utilized as most of these equipment were subsequently looted.
23. *Spare parts and supplies.* Savings of \$67,600 were realized when the planned transfer of the additional equipment from UNAMIR and Brindisi was put on hold as a result of the deterioration of the peace process and the curtailment of UNOMIL activities.

- 24. *Workshop and test equipment.* Savings of \$42,500 were realized owing to the reduced purchases of equipment for the mobile team sites which were not established as a result of the deterioration of the peace process in Liberia.
- 25. *Commercial communications.* Additional requirements of \$37,300 resulted when the satellite network of UNOMIL was damaged during the fighting in Monrovia in April, and given the poor state of the local communication system in Liberia, the INMARSAT satellite system was extensively utilized as the sole means of communication during the period. The expenditures (\$553,300) comprised transponder user charges (\$10,630), INMARSAT charges (\$395,800), telephone and telex charges (\$126,500) and pouch and postage charges (\$20,400).

(b) *Main trunking contract* . . . . . —

**9. Other equipment** . . . . . **744 900**

- 26. *Office furniture.* Savings of \$7,800 were realized from the reduced purchase of office furniture locally as most of the office furniture was supplied to UNOMIL from the United Nations Logistics Base at Brindisi.
- 27. *Office equipment.* Although provision was made for the cost of freight for 13 photocopiers that were to be transferred from the United Nations Logistics Base at Brindisi, the operational requirements of the Mission necessitated the purchase instead of 10 calculators (\$1,250), 2 typewriters (\$2,200), 4 copiers (\$3,900), an office safe (\$250), a fax machine (\$1,500) and the cost of freight (\$5,500), resulting in savings of \$1,000.
- 28. *Data-processing equipment.* Provision was made for the cost of freight and spare parts for equipment to be transferred from the United Nations Logistics Base at Brindisi and UNAMIR. However, most of the equipment transferred was looted or damaged. This necessitated the unplanned acquisition of 3 LaserJet printers (\$3,060), 6 desktop personal computers (\$13,580), Panasonic filing system (\$21,780), data backup equipment and accessories (\$25,600), 10 uninterrupted power supply (UPS) for computers 1.4 KVA (\$14,400), other accessories (\$5,150) and freight (\$10,000), to replace some of the looted equipment. Hence, the additional requirements of \$49,600.
- 29. *Generators.* Savings of \$88,600 resulted from the lower than expected freight charges for generators transferred from UNAMIR.
- 30. *Observation equipment.* Savings of \$18,600 resulted from the transfer of observation equipment from the United Nations Logistics Base at Brindisi.
- 31. *Medical and dental equipment.* Savings of \$30,000 resulted from no expenditure being incurred under this heading.
- 32. *Miscellaneous equipment.* Savings of \$43,200 resulted from the limited purchases of miscellaneous equipment owing to the curtailment of UNOMIL activities.
- 33. *Spare parts, repairs and maintenance.* Savings of \$42,900 were realized from the curtailment of UNOMIL activities.
- 34. *Water purification equipment.* Savings of \$562,400 resulted from the transfer of the 13 water purification units from UNAMIR rather than being purchased as was originally planned. Only freight charges were incurred for the transfer of the water purification equipment.

**10. Supplies and services**

(a) *Miscellaneous services* . . . . . 79 900

- 35. *Audit services.* The amount of \$14,900 authorized for external audit services was fully obligated for this purpose.

36. *Contractual services.* Additional requirements of \$1,300 resulted since resources provided under this heading were for the period ending 31 March 1996, while expenditures incurred and being reported were until 30 June 1996.
37. *Security services.* Savings of \$13,400 for security services resulted from the cancellation of security services contract when UNOMIL offices were relocated to the Riverview compound, where security services were not needed.
38. *Medical treatment and services.* Savings of \$29,200 were realized owing to delays in the deployment and subsequent evacuation and repatriation of military and civilian personnel.
39. *Claims and adjustment.* The late submission of claims for loss of personal effects suffered by UNOMIL military and civilian personnel during the fighting in April 1996 resulted in savings of \$58,600 under this heading. Provision of required resources for such claims submitted by UNOMIL personnel for loss of personal effects has been included in the cost estimates for the period 1 July 1996 to 30 June 1997 (A/50/650/Add.4).
40. *Official hospitality.* Savings of \$800 reflect lower actual expenditure.
41. *Miscellaneous other services.* Additional requirements of \$20,800 resulted from the need to employ forklifts and crane services (\$33,145) in the movement of UNOMIL assets, including containers, from the old warehouse and workshop to the Mission's new consolidated warehouse. Forklifts and cranes were also utilized to move and load UNOMIL salvaged assets for shipment to Freetown after the outbreak of fighting in Monrovia in April. In addition, the Mission incurred high bank charges during the month of June 1996 in order to obtain cash in United States dollars.
- (b) *Miscellaneous supplies* . . . . . 77 600
42. *Stationery and office supplies.* Additional requirements of \$1,000 resulted since resources provided under this heading were for the period ending 31 March 1996, while expenditures incurred and being reported were until 30 June 1996.
43. Savings under medical supplies (\$20,200), sanitation and cleaning materials (\$17,200), subscription (\$2,000), uniform items, flags and decals (\$16,900) and quartermaster and general stores (\$24,300) resulted from delays in the deployment and subsequent evacuation and repatriation of non-essential military and civilian personnel and the non-implementation of the disarmament and demobilization programme.
44. *Operational maps.* Unbudgeted requirements of \$2,000 resulted from the need to procure operational maps of Liberia for military personnel.
- 11. Election-related supplies and services**
- (a) *Standard kits for registration teams* . . . . . —
45. No provision was made under this heading.
- (b) *Various election materials* . . . . . —
46. No provision was made under this heading.
- (c) *Election-related contractual services* . . . . . —
47. No provision was made under this heading.
- 12. Public information programmes** . . . . . 556 500
48. Savings of \$556,500 were realized from the non-implementation of the planned public information programme owing to the suspension of the disarmament and demobilization programme.

13. **Training programmes** . . . . . 34 200
49. Savings of \$34,200 resulted from the suspension of the scheduled training programmes for the senior officials of UNOMIL and ECOMOG.
14. **Mine-clearing programmes** . . . . . —
50. No provision was made under this heading.
15. **Assistance for disarmament and demobilization** . . . . . 8 872 400
51. Savings of \$6,192,400 under rehabilitation/reintegration assistance to demobilized military forces and \$2,680,000 under provision of food, including transportation and distribution resulted from the suspension of the planned implementation of the disarmament and demobilization programme which was delayed from 1 December 1995 to 1 April 1996 and eventually suspended.
16. **Air and surface freight** . . . . . (240 100)
52. *Commercial freight and cartage.* Additional requirements of \$240,100 for commercial freight and cartage include the UNOMIL share of the cost of two ships jointly chartered by UNOMIL and the World Food Programme (WFP) amounting to \$90,000 for the period from 24 April to 30 June 1996, for the emergency evacuation from Monrovia and for resupply between Freetown and Monrovia during the April 1996 hostilities.
17. **Integrated Management Information System** . . . . . 16 800
53. Savings of \$16,800 resulted from the actual proportional share of UNOMIL in the financing of the Integrated Management Information System for the biennium 1994-1995 being lower than previously estimated.
18. **Support account for peacekeeping operations** . . . . . (265 800)
54. The actual amount provided for support account for peacekeeping operations of \$920,100 which gave rise to the additional requirements of \$265,800 represents the UNOMIL share of the funding of the support account for the period up to 30 June 1996.
19. **Staff assessment** . . . . . 22 500
55. Savings of \$22,500 resulted from the reduction in the overall size of the Mission owing to the evacuation and repatriation of international civilian personnel and the termination of local personnel during the outbreak of fighting in Monrovia in April 1996.
20. **Income from staff assessment** . . . . . (22 500)
56. This amount is derived from item 19 above.

**Annex III**
