

# General Assembly

Fifty-first session

Distr.: General

23 December 1996

Original: English

---

## Agenda item 126

### Financing of the United Nations Mission for the Referendum in Western Sahara

#### Report of the Secretary-General

#### *Summary*

The United Nations Mission for the Referendum in Western Sahara (MINURSO) was established by the Security Council on 29 April 1991. The present report contains the financial performance report of MINURSO for the period from 1 July 1995 to 30 June 1996. Of the total appropriation of \$67,110,000 gross (\$61,153,200 net) provided for the maintenance of the Mission, expenditures amounted to \$47,717,100 gross (\$44,466,100 net), resulting in an unencumbered balance of \$19,392,900 gross (\$16,687,100 net).

The unencumbered balance is primarily attributable to the non-implementation of the expansion of the Identification Commission and the subsequent suspension of its activities, which resulted in lower requirements under all headings except communications.

The action to be taken by the General Assembly, as set out in paragraph 6 of the present report, is a decision to credit Member States the unencumbered balance of \$19,392,900 gross (\$16,687,100 net) for the period from 1 July 1995 to 30 June 1996 against their future assessments.

## I. Introduction

1. The Security Council, by its resolution 690 (1991) of 29 April 1991, authorized the establishment of the United Nations Mission for the Referendum in Western Sahara (MINURSO). The period covered by the present report is based on Council resolutions 1002 (1995) of 30 June 1995, 1017 (1995) of 22 September 1995, 1042 (1996) of 31 January 1996 and 1056 (1996) of 29 May 1996.
2. On the basis of a monthly cost estimate for the period after 30 June 1995, as set out in annex I to the report of the Secretary-General of 7 March 1995 (A/49/559/Add.1 and Add.1/Corr.1), the original cost estimate for the period from 1 July 1995 to 30 June 1996 amounted to \$67,432,800 gross (\$61,476,000 net).
3. For the period from 1 July 1995 to 30 June 1996, the General Assembly appropriated the amount of \$67,110,000 gross (\$61,153,200 net) as follows:
  - (a) In its resolution 49/247 of 20 July 1995, the Assembly appropriated the amount of \$16,777,500 gross (\$15,288,300 net) for the period from 1 July to 30 September 1995 and authorized the Secretary-General to enter into commitments at a monthly rate not to exceed \$5,592,500 gross (\$5,096,100 net), subject to the decision of the Security Council to extend the mandate of MINURSO beyond 30 September 1995;
  - (b) In its decision 50/446 A of 22 December 1995, the Assembly appropriated the amount of \$22,370,000 gross (\$20,384,400 net) for the period from 1 October 1995 to 31 January 1996;
  - (c) In its resolution 51/2 of 17 October 1996, the Assembly appropriated the amount of \$27,962,500 gross (\$25,480,500 net) for the period from 1 February to 30 June 1996.

## II. Financial performance report for the period from 1 July 1995 to 30 June 1996

4. Column 2 of annex I to the present report sets out, by budget line item, the apportionment of the \$67,110,000 gross (\$61,153,200 net) appropriated for the period from 1 July 1995 to 30 June 1996. The related expenditures amounted to \$47,717,100 gross (\$44,466,100 net), resulting in an unencumbered balance of \$19,392,900 gross (\$16,687,100 net). Supplementary information on the variances in requirements and costs is contained in annex II. The authorized staffing, incumbency and vacancy rate are shown in annex III, while the planned and actual deployment of civilian and military personnel is presented in annex IV. The planned and actual hours flown by helicopters and fixed-wing aircraft are shown in annex V.
5. The unencumbered balance is primarily attributable to the non-implementation of the expansion of the Identification Commission and the suspension of its activities towards the end of the reporting period. As a result, savings realized from the lower actual number of civilian personnel deployed during the period accounted for 72 per cent, in gross terms, of the unencumbered balance. Additional savings, representing 10 per cent of the unencumbered balance, were also realized from the awarding of new contracts under air operations. These savings were reduced in part by higher actual requirements under communications.

### **III. Action to be taken by the General Assembly at its fifty-first session**

6. The action to be taken by the General Assembly at its fifty-first session, in connection with the financing of MINURSO, is a decision to credit Member States the unencumbered balance of \$19,392,900 gross (\$16,687,100 net) for the period from 1 July 1995 to 30 June 1996 against their future assessments.

## Annex I

### Financial performance report for the period from 1 July 1995 to 30 June 1996

## Annex II

### Supplementary information on the financial performance report for the period from 1 July 1995 to 30 June 1996

#### A. Detailed variances in requirements and costs

Description	Apportionment		Actual		Explanation	Supplementary explanation (para. numbers in sect. B)
	Number of units	Unit/daily/monthly/annual cost (United States dollars)	Number of units	Unit/daily/monthly/annual cost (United States dollars)		
<b>1. Military personnel costs</b>						
<i>(a) Military observers</i>						
Number of military observers	231		237			
Mission subsistence allowance — daily rate		60		60	Rate has been in effect from 1 July 1994	1
Travel costs						
Rotation trips	180		237		Higher actual deployment	2
Clothing and equipment allowance						
Total costs		46 800		47 900	<i>Idem</i>	3
<i>(b) Military contingents</i>						
Standard troop cost reimbursement		610 800		512 300	Non-reimbursement to Force orderly staff	4
Welfare						
Total costs		7 200		6 900	<i>Idem</i>	5
Rations						
Rations (in person/days and daily costs)	157 315	9.50	100 375	9.50	Lower deployment of civilian personnel	6
Bottled water	281 415	1.25	207 320	1.25		
Daily allowance						
Total costs		22 800		18 900	Non-payment to Force Orderly staff	7
Mission subsistence allowance						
Total costs		174 000		184 300	Payment of charges for prior period	8
Emplacement, rotation and repatriation of troops	24		88		Higher actual rotation travel	9
Clothing and equipment allowance		40 800		33 800	Non-payment to Force Orderly staff	10
<i>(c) Other costs pertaining to military personnel</i>						
Contingent-owned equipment						
Total costs		1 016 400		1 016 400	No change	11

Description	Apportionment		Actual		Explanation	Supplementary explanation (para. numbers in sect. B)
	Number of units	Unit/daily/monthly/annual cost (United States dollars)	Number of units	Unit/daily/monthly/annual cost (United States dollars)		
Death and disability compensation		159 600		159 600	<i>Idem</i>	12
<b>2. Civilian personnel costs</b>						
<i>(a) Civilian police</i>						
Mission subsistence allowance						
Number of civilian police	160		76		Lower actual deployment	13
Travel costs (rotation trips)	160		76		<i>Idem</i>	14
Clothing and equipment allowance		32 400		9 400	<i>Idem</i>	15
<i>(b) International and local staff</i>						
International staff salaries						
Average number of staff for the period	320		207		Non-expansion of identification activities	16
Vacancy rate (percentage)	—		35			
Local staff salaries						
Average number of staff for the period	90		84		<i>Idem</i>	17
Vacancy rate (percentage)	—		6			
Consultants						
Number of persons	—		1		Appointment of Independent Jurist	18
Overtime (total costs)		24 000		13 800	Lower actual requirements	19
General temporary assistance						
Total costs		—		—		
Common staff costs (total costs)		8 113 200		5 795 000	Lower actual number of civilian staff	20
Mission subsistence allowance						
Total costs		6 994 800		4 162 200	<i>Idem</i>	21
Other travel costs (total costs)		33 600		114 000	Higher actual requirements	22
<i>(c) International contractual personnel</i>	—		—			23
<i>(d) United Nations Volunteers</i>	—		—			24
<i>(e) Government-provided personnel</i>						
Number of OAU observers	12		8		Lower actual deployment	25
Vacancy rate (percentage)	—		31			
<i>(f) Civilian electoral observers</i>	—		—			26

Description	Apportionment		Actual		Explanation	Supplementary explanation (para. numbers in sect. B)
	Number of units	Unit/daily/monthly/annual cost (United States dollars)	Number of units	Unit/daily/monthly/annual cost (United States dollars)		
<b>3. Premises/accommodation</b>						
Rental of premises (total costs)		416 400		84 400	Non-utilization of 50 apartments	27
Alteration and renovation of premises						
Total costs		30 000		44 600	Construction of protective shelters for generators	28
Maintenance supplies (total costs)		24 000		14 600	Lower actual requirements	29
Maintenance services (total costs)		12 000		11 100	<i>Idem</i>	30
Utilities (total costs)		102 000		63 300	Lower actual requirements	31
<b>4. Infrastructure repairs</b>		—		—		32
<b>5. Transport operations</b>						
Workshop equipment						
Total costs		—		3 200	Purchase of one vehicle lift	33
Spare parts, repairs and maintenance						
Total costs		423 600		421 000	Lower actual requirements	34
Petrol, oil and lubricants						
Total costs		828 000		578 100	<i>Idem</i>	35
Vehicle insurance (total costs)		100 800		115 300	Higher actual cost of insurance per vehicle	36
<b>6. Air operations</b>						
(a) <i>Helicopter operations</i>						
Hire/charter costs						
Number of helicopters for the period	3		3			
Total costs		3 240 000		2 025 000	Lower actual costs under new contract	37
Aviation fuel and lubricants						
Total costs		1 262 400		1 521 800	Additional charges for delivery of fuel	38
Positioning/depositioning costs		—		201 000	Change in contract	39
Painting/preparation (total costs)		—		30 000	<i>Idem</i>	40
(b) <i>Fixed-wing aircraft</i>						
Hire/charter costs						
Number of aircraft for the period	3		3			
Total costs		2 390 400		1 938 000	Lower costs under new contracts	41
Aviation fuel and lubricants						
Total costs		1 707 600		986 000	Lower usage by Beechcraft B-200	42

## B. Supplementary explanation

### 1. Military personnel costs

(a) *Military observers* . . . . . (372 400)

1. *Mission subsistence allowance.* Additional requirements of \$125,300 resulted from the actual number (237) of military observers deployed during the period being higher than the estimate (231). The planned and actual deployment of military observers is shown in annex IV.
2. *Travel costs.* Additional requirements of \$246,000 resulted from the actual number (237) of rotations exceeding the estimated provision (180) by 57 trips.
3. *Clothing and equipment allowance.* Additional requirements of \$1,100 resulted from the actual average number (237) of observers deployed during the period being higher than the estimate (231).

(b) *Military contingents* . . . . . 490 600

4. *Standard troop cost reimbursement.* Savings of \$98,500 resulted from the actual troop strength of 483 person/months being lower than the estimated strength of 576 person/months. While provision was made for 48 military support personnel (40 medical and 8 Force Orderly), actual reimbursement was only payable to 40 medical personnel. Owing to the nature of their functions at Mission headquarters, the eight Force Orderly staff were provided with mission subsistence allowance in lieu of troop reimbursement. The planned and actual deployment of contingent personnel is shown in annex IV.
5. *Welfare.* Savings of \$300 resulted from the non-payment of recreational leave to the eight Force Orderly staff. While savings should have been higher, an amount of \$1,000 has been obligated to provide for military personnel who arrived in the mission area during the period but have not completed a six-month period of service.
6. *Rations.* Savings of \$637,600 resulted from the lower actual number of civilian police observers and international civilian staff deployed during the period. While provision was made for rations for an average of 431 persons at an average cost of \$9.50 per person/day and for bottled water for 771 persons at an average cost of \$1.25 per person/day, the recorded expenditure indicates that rations were provided to an average of 275 persons (\$948,800) and bottled water to an average of 568 persons (\$259,200).
7. *Daily allowance.* Savings of \$3,900 were realized from the actual troop strength (14,765 person/days) being lower than the estimated strength (17,520 person/days) by 2,755 person/days.
8. *Mission subsistence allowance.* Additional requirements of \$10,300 were incurred owing to the payment of \$14,400 in allowances in respect of the prior period.
9. *Emplacement, rotation and repatriation of troops.* Additional requirements of \$246,400 resulted from the actual number of rotations (88) exceeding the estimated provision by 64 rotations. While provision was made for 24 rotations at an average cost of \$4,600 per person, actual travel included two six-month rotations of 40 medical personnel and one annual rotation for 8 Force Orderly staff at an average cost of \$4,050 per person.
10. *Clothing and equipment allowance.* Savings of \$7,000 were realized from the actual troop strength (483 person/months) being lower than the estimated provision (576 person/months).

(c) *Other costs pertaining to military personnel* . . . . . —

11. *Contingent-owned equipment.* The provision of \$1,016,400 has been fully obligated to cover the costs of reimbursement to troop-contributing Governments for the use of contingent-owned vehicles and other equipment and consumable supplies.
12. *Death and disability.* The provision of \$159,600 has been fully obligated to cover potential claims from death, disability and injury to military personnel and civilian police observers. At present, the total unliquidated obligations available for this purpose for the period from inception to the current period

amount to \$624,160. Of this total, an amount of \$20,000 has been approved for payment in connection with a claim for injury to a military observer.

**2. Civilian personnel costs**

- (a) *Civilian police* . . . . . 2 332 100
13. *Mission subsistence allowance.* Savings of \$1,820,500 were realized owing to the lower actual number (27,740 person/days) of civilian police deployed during the period in comparison with the estimated provision for 58,400 person/days.
14. *Travel costs.* Savings of \$488,600 were realized from: (a) the actual number of rotation travel (76) being lower than the estimate (160); and (b) the actual average cost of rotation (\$3,250 per person) being lower than originally estimated (\$4,600 per person).
15. *Clothing and equipment allowance.* Savings of \$23,000 were realized from the lower average number (76) of civilian police deployed during the period. Additional savings resulted from the earlier repatriation of personnel owing to the downsizing of the Mission during the reporting period.
- (b) *International and local staff* . . . . . 11 400 800
16. *International staff salaries.* Savings of \$6,423,100 were realized from the actual average number (207) of international staff deployed during the period being lower than the estimate (320). The planned and actual deployment of international civilian personnel is shown in annex IV.
17. *Local staff salaries.* Additional requirements of \$70,000 resulted from the payment of salary increments retroactive to the effective dates of change of local salary scales, as follows: (a) from 1 November 1995 for Rabat, Morocco; and (b) from 1 April 1995 for Nouakchott, Mauritania. The planned and actual deployment of local staff is shown in annex IV.
18. *Consultants.* Additional requirements of \$32,900 resulted from the appointment of the Independent Jurist, as reported by the Secretary-General to the Security Council on 30 March 1995 (S/1995/240). The services of the Independent Jurist are based on 90 working days for every six-month period at the rate of \$365 per working day.
19. *Overtime.* Savings of \$10,200 were realized from actual requirements being lower than originally estimated.
20. *Common staff costs.* Savings of \$2,318,200 were realized from the lower actual number of international (207) and local (84) staff deployed during the period, in comparison with the estimated provision for 320 international and 90 local staff.
21. *Mission subsistence allowance.* Savings of \$2,832,600 were realized from the lower actual number (207) of international civilian staff deployed during the period.
22. *Other travel costs.* Additional requirements of \$80,400 resulted from actual requirements being higher than the estimated provision. While provision was made for 12 trips (for a five-day stay of one person per trip) from the mission area to New York, actual travel undertaken consisted of: (a) one trip by two persons for technical training on Rapid Deployment Telecommunications Shelter; (b) one technical survey trip in April 1996 by five persons from New York to the mission area in connection with the downsizing of the Mission; (c) travel of staff to Agadir, Morocco, to arrange for the clearance and delivery of vehicles and other supplies transferred from the United Nations Logistics Base; (d) two round-trips from Athens to the mission area and one round-trip from Athens to Geneva by the Independent Jurist for consultations with the Secretary-General and officials of the Centre for Human Rights; (e) one trip by one Legal Officer from New York to the mission area to assist the Independent Jurist; (f) one trip by two staff members from New York to the mission area for the installation and training of staff on the SUN payroll system; and (g) two round-trips from the mission area to Geneva and one round-trip travel from the mission area to Portugal by the Acting Special Representative of the Secretary-General for political consultations with the Secretary-General.

- (c) *International contractual personnel* . . . . . —
23. No provision was made under this heading.
- (d) *United Nations Volunteers* . . . . . —
24. No provision was made under this heading.
- (e) *Government-provided personnel* . . . . . 95 000
25. *Mission subsistence allowance.* Savings of \$95,000 were realized from the actual average number (8) of OAU observers deployed during the period being lower than the estimate (12). The planned and actual deployment of the observers is shown in annex IV.
- (f) *Civilian electoral observers* . . . . . —
26. No provision was made under this heading.
- 3. Premises/accommodation . . . . . 366 400**
27. *Rental of premises.* Savings of \$332,000 were realized from the non-utilization during the period of the provision for 50 apartments at a monthly cost of \$550 per apartment, owing to the non-implementation of the expansion of the Identification Commission which resulted in the lower number of international staff deployed during the period. The recorded expenditure relates to the continued lease of a central supply depot at Laayoune and a workshop at Es Semara.
28. *Alteration and renovation of premises.* Additional requirements of \$14,600 were incurred from the construction of protective shelters and storage facilities at Mission headquarters and at the team sites for generators to protect the equipment from extreme climatic conditions.
29. *Maintenance supplies.* Savings of \$9,400 resulted from actual requirements being lower than previously estimated for the maintenance of MINURSO premises.
30. *Maintenance services.* Savings of \$900 resulted from actual requirements being slightly lower than previously estimated.
31. *Utilities.* Savings of \$38,700 were realized from lower actual requirements for generator fuel and butane (cooking) gas as a result of the lower number of personnel deployed during the period.
- 4. Infrastructure repairs . . . . . —**
32. No provision was made under this heading.
- 5. Transport operations . . . . . 234 800**
33. *Workshop equipment.* Additional requirements of \$3,200 resulted from the purchase of one vehicle lift in addition to its current inventory.
34. *Spare parts, repairs and maintenance.* Savings of \$2,600 resulted from actual requirements being slightly lower than previously estimated. During the reporting period, the vehicle establishment of MINURSO consisted of 340 United Nations-owned vehicles (321 road and 19 stationary) and 8 contingent-owned vehicles.
35. *Petrol, oil and lubricants.* Savings of \$249,900 were realized from lower actual requirements resulting from the non-implementation of the expansion of the Identification Commission and the lower number of civilian personnel deployed during the period. The cost of fuel during the reporting period was \$0.31 per litre, as originally estimated.
36. *Vehicle insurance.* Additional requirements of \$14,500 resulted from the actual cost of local and worldwide insurance (\$355 per vehicle per annum) being higher than previously estimated (\$320 per vehicle per annum) for 340 United Nations-owned and 8 contingent-owned vehicles.

6. Air operations

(a) Helicopter operations . . . . . 724 600

37. *Hire/charter costs.* Savings of \$1,215,000 were realized from lower actual costs under a new contract obtained through the bidding process. While provision was made for three Bell B-212 helicopters for 75 block hours per month per aircraft, the new contract called for the lease of three MI-8 helicopters for 70 block hours and 30 additional hours per month per aircraft, at the rates of \$514 and \$300 per hour, respectively. The recorded expenditure relates to hire/charter costs of \$61,800 per month per aircraft for the period from 1 July 1995 to 1 March 1996 and \$45,000 per month per aircraft for the period from 2 March to 30 June 1996. Owing to the lower hire costs, savings were realized even though the actual hours flown (2,955) exceeded the provision for 2,700 planned hours. The monthly planned and actual hours flown by the helicopters are presented in annex V.
38. *Aviation fuel and lubricants.* Additional requirements of \$259,400 resulted from additional charges of \$43 per 200-litre barrel for the delivery of fuel at designated refuelling sites for helicopters. While provision for the Bell B-212 helicopters was based on a fuel usage of 850 litres per hour at a fuel cost of \$0.55 per litre, actual requirements for the MI-8 helicopters were for an average fuel usage of 750 litres per hour at a fuel cost of \$0.65 per litre, including delivery charges.
39. *Positioning/depositioning costs.* Additional requirements of \$201,000 were incurred from the positioning costs of three MI-8 helicopters as stipulated in the new contract, at a cost of \$67,000 per helicopter.
40. *Painting/preparation.* Additional requirements of \$30,000 were incurred for the painting and preparation of three MI-8 helicopters as stipulated in the new contract, at a cost of \$10,000 per helicopter.

(b) Fixed-wing aircraft . . . . . 1 257 700

41. *Hire/charter costs.* Savings of \$452,400 resulted from lower hire costs under new contracts, which were obtained through the bidding process, for two Antonov AN-26 and one Beechcraft B-200 aircraft effective 9 February 1996 and 3 February 1996, respectively. The reported expenditure relates to: (a) the base hire costs for two AN-26, at 75 block hours per month per aircraft, at a cost of \$37,715 per month per aircraft and the cost of 50 additional hours, as required, at a cost of \$200 per hour; and (b) the base hire cost for one B-200, at 65 block hours per month, at a monthly cost of \$63,700 for the period from 1 July 1995 to 31 January 1996 and \$50,700 for the period from 1 February to 30 June 1996, and the cost of 35 additional hours, as required, at a cost of \$400 per hour. Owing to the decrease in hire costs, savings were realized even though the actual number of hours flown (3,191) exceeded the provision for 2,700 planned hours. Annex V to the present report presents the planned and actual hours flown by fixed-wing aircraft during the period.
42. *Aviation fuel and lubricants.* Savings of \$721,600 were realized from: (a) the actual cost of fuel (\$0.30 per litre) being lower than originally estimated (\$0.494 per litre); and (b) the actual fuel usage of the Beechcraft B-200 (320 litres per hour) being lower than the estimated usage (1,200 litres per hour).
43. *Positioning/depositioning costs.* Additional requirements of \$23,000 relate to the positioning costs of two Antonov AN-26 aircraft in February 1996 in connection with the change in the contract.
44. *Painting/preparation.* Additional requirements of \$3,000 relate to actual requirements for two Antonov AN-26 aircraft in connection with the change in contract.
45. *Liability and war-risk insurance.* Savings of \$109,700 were realized from the inclusion of liability and additional war-risk insurance in the base hire costs of aircraft. The reported expenditure relates only to third-party liability insurance coverage for non-United Nations staff travelling on United Nations-chartered aircraft.
- (c) *Aircrew subsistence allowance* . . . . . (7 200)
46. The unbudgeted requirements of \$7,200 resulted from allowances provided to the crew of a fixed-wing aircraft in connection with an official trip to Geneva for the transfer and storage of Identification Commission documents.

- (d) *Other air operations costs* . . . . . (10 300)
47. *Landing fees and ground handling.* Additional requirements of \$10,300 resulted from actual requirements being higher than previously estimated. While provision was estimated at \$2,700 per month, actual requirements averaged \$3,500 per month.
7. **Naval operations** . . . . . -
48. No provision was made under this heading.
8. **Communications**
- (a) *Complementary communications* . . . . . (190 200)
49. *Communications equipment.* Additional requirements of \$16,900 were incurred from: (a) freight charges for the transfer of equipment from ONUMOZ (\$10,100); (b) one operator console with keyboard, as replacement for worn equipment (\$3,800); and (c) telephone equipment and related supplies (\$3,000). The equipment was required to enhance the communications network throughout the mission area.
50. *Spare parts and supplies.* Savings of \$9,000 were realized from actual requirements being lower than originally estimated.
51. *Workshop and test equipment.* The unbudgeted requirements of \$33,600 resulted from the need to purchase additional workshop equipment as follows: (a) one workshop bench; (b) one wall fan; (c) one tool kit with metering capability; (d) miscellaneous electrical supplies; and (e) shelves for the repair and storage of communications equipment.
52. *Commercial communications.* Additional requirements of \$148,700 resulted from actual requirements being higher than the provision. The reported expenditure also includes the payment of \$84,600 for outstanding charges in respect of the prior period from August 1994 to June 1995.
9. **Other equipment** . . . . . 43 000
53. *Office furniture.* Additional requirements of \$2,100 resulted from the purchase of replacement furniture for worn/damaged furniture.
54. *Office equipment.* The unbudgeted requirements of \$7,200 resulted from the purchase of equipment to replace damaged/worn equipment.
55. *Data-processing equipment.* Savings of \$6,000 were attributable to actual requirements being lower than originally estimated. The reported expenditure relates to: (a) software upgrade of the payroll system (\$5,400); and (b) maintenance fees for the SUN accounting system (\$6,400).
56. *Refrigeration equipment.* The unbudgeted requirements of \$1,000 resulted from the purchase of refrigerators to replace damaged/worn equipment.
57. *Miscellaneous equipment.* Savings of \$26,700 were realized from actual requirements being lower than originally estimated. The reported expenditure includes: (a) heaters (\$1,600); (b) washing/drying machine (\$700); (c) air conditioners (\$3,500); (d) fans and motor fans (\$8,600); (e) metal bench seat (\$2,800); (f) air safety equipment (\$10,000); and (g) other miscellaneous equipment for Mission headquarters and the team sites (\$6,100).
58. *Spare parts, repairs and maintenance.* Savings of \$20,600 resulted from actual requirements being lower than previously estimated and, in part, from the non-expansion of the activities of the Identification Commission.

**10. Supplies and services**

- (a) *Miscellaneous services* . . . . . (13 100)
- 59. *Audit services.* The provision has been fully obligated to cover the cost of the external audit conducted during the biennium 1994-1995.
- 60. *Contractual services.* Additional requirements of \$4,200 resulted from the actual costs of laundry services and other contractual services being higher than previously estimated.
- 61. *Official hospitality.* Savings of \$800 were realized from lower actual requirements than previously estimated.
- 62. *Miscellaneous other services.* Additional requirements of \$9,700 resulted from bank and related charges for which provision had not been made. The reported expenditure includes bank and related charges (\$10,900) and other miscellaneous services (\$11,800).
- (b) *Miscellaneous supplies* . . . . . 290 300
- 63. *Stationery and office supplies.* Savings of \$108,500 were attributable to the non-expansion and subsequent suspension of the activities of the Identification Commission.
- 64. *Medical supplies.* Savings of \$115,000 reflect lower actual requirements resulting from the non-expansion of the activities of the Identification Commission and the lower average number of personnel deployed during the period.
- 65. *Sanitation and cleaning materials.* Savings of \$5,100 resulted from actual requirements being slightly lower than previously estimated.
- 66. *Subscriptions.* Additional requirements of \$3,900 resulted from a higher requirement for subscriptions by the Identification Commission for the period from July to November 1995.
- 67. *Uniform items, flags and decals.* Savings of \$24,400 were realized from the lower actual average number of civilian police observers deployed during the period.
- 68. *Quartermaster and general stores.* Savings of \$41,200 were realized from actual requirements being lower than originally estimated, resulting from the non-expansion of the activities of the Identification Commission.
- 11. Election-related supplies and services** . . . . . —
- 69. No provision was made under this heading.
- 12. Public information programmes** . . . . . —
- 70. No provision was made under this heading.
- 13. Training programmes** . . . . . —
- 71. No provision was made under this heading.
- 14. Mine-clearing programmes** . . . . . —
- 72. No provision was made under this heading.
- 15. Assistance to disarmament and demobilization** . . . . . —
- 73. No provision was made under this heading.

16. **Air and surface freight** . . . . . —
74. *Commercial freight and cartage.* The apportionment was fully utilized to cover the costs of commercial freight and cartage.
17. **Integrated Management Information System** . . . . . 45 000
75. Savings of \$45,000 resulted from the actual proportional share of MINURSO in the financing of the Integrated Management and Information System for the biennium 1994-1995 being lower than previously estimated.
18. **Support account for peace-keeping operations** . . . . . —
76. The full amount allocated was transferred to the support account for peace-keeping operations.
19. **Staff assessment** . . . . . 2 705 800
77. Savings were attributable to the lower actual average number of international (207) and local (84) staff deployed during the period.
20. **Income from staff assessment** . . . . . (2 705 800)
78. This amount is derived from item 19 above.

### Annex III

## Authorized staffing, incumbency and vacancy rate for the period from 1 July 1995 to 30 June 1996
