<sup>1</sup> A/51/179.

51/39.        The role of science and technology in the  
context of international security and  
disarmament

The General Assembly,

Recognizing that scientific and technological developments can have both civilian and military applications and that progress in science and technology for civilian applications needs to be maintained and encouraged,

Concerned that military applications of scientific and technological developments can contribute significantly to the improvement and upgrading of weapons of mass destruction,

Aware of the need to follow closely the scientific and technological developments that may have a negative impact on international security and disarmament, and to channel scientific and technological developments for beneficial purposes,

Cognizant that the international transfers of dual-use as well as high-technology products, services and know-how for peaceful purposes are important for the economic and social development of States,

Expressing concern over the growing proliferation of ad hoc and exclusive export control regimes and arrangements for dual-use goods and technologies,

Recalling that the Final Document of the Eleventh Conference of Heads of State or Government of Non-Aligned Countries, held at Cartagena de Indias,

Colombia, from 18 to 20 October 1995,<sup>1</sup> noted that restrictions being placed on access to technology through the imposition of non-transparent ad hoc export control regimes with exclusive membership tended to impede the economic and social development of developing countries,

Emphasizing that internationally negotiated guidelines for the transfer of high technology with military applications should take into account the legitimate defence requirements of all States and requirements for the maintenance of international peace and security, while ensuring that access to high-technology products and services and know-how for peaceful purposes is not denied,

1. Affirms that scientific and technological progress should be used for the benefit of all mankind to promote the sustainable economic and social development of all States and to safeguard international security, and that international cooperation in the use of science and technology through the transfer and exchange of technological know-how for peaceful purposes should be promoted;

2. Invites Member States to undertake additional efforts to apply science and technology for disarmament-related purposes and to make disarmament-related technologies available to interested States;

3. Urges Member States to undertake multilateral negotiations with the participation of all interested States in order to establish universally acceptable, non-discriminatory guidelines for international transfers of dual-use goods and technologies and high technology with military applications;

4. Recalls the report of the Secretary-General entitled "Scientific and technological developments and their impact on international security",<sup>2</sup> and requests the Secretary-General to update and further develop that report in order to evaluate the impact of recent scientific and technological developments, especially those which have potential military applications, and to submit a report to the General Assembly no later than at its fifty-third session;

5. Encourages United Nations bodies to contribute, within existing mandates, to promoting the application of science and technology for peaceful purposes;

6. Decides to include in the provisional agenda of its fifty-second session the item entitled "The role of science and technology in the context of international security and disarmament".

Indias, Colombia, from 18 to 20 October 1995,<sup>7</sup> and also of the decision adopted by the Tenth Conference of Heads of State or Government of Non-Aligned Countries, held at Jakarta from 1 to 6 September 1992,<sup>8</sup> as well as the relevant recommendations of the Organization of the Islamic Conference reiterated in the Final Communiqué of the Twentieth Islamic Conference of Foreign Ministers, held at Istanbul from 4 to 8 August 1991,<sup>9</sup> calling upon the Conference on Disarmament to reach an urgent agreement on an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Taking note further of the unilateral declarations made by all nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Noting also the greater willingness to overcome the difficulties encountered in previous years,

Taking note of Security Council resolution 984 (1995) of 11 April 1995 and the views expressed on it,

Recalling its relevant resolutions adopted in previous years, in particular resolutions 45/54 of 4 December 1990, 46/32 of 6 December 1991, 47/50 of 9 December 1992, 48/73 of 16 December 1993, 49/73 of 15 December 1994 and 50/68 of 12 December 1995,

1. Reaffirms the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. Notes with satisfaction that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties as regards evolving a common approach acceptable to all have also been pointed out;

3. Appeals to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. Recommends that further intensive efforts should be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, should be further explored in order to overcome the difficulties;

5. Recommends also that the Conference on Disarmament should actively continue intensive negotiations with a view to reaching early agreement and concluding effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

6. Decides to include in the provisional agenda of its fifty-second session the item entitled "Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons".

Agenda item 70

RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the First Committee (A/51/566/Add.10)]

51/44.        Prevention of an arms race in outer space

The General Assembly,

Recognizing the common interest of all mankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes and shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development,

Reaffirming also provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,<sup>1</sup>

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,<sup>2</sup> in which it is stated that in order to prevent an arms race in outer space further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling its previous resolutions on this issue and taking note of the proposals submitted to the General Assembly at its tenth special session and

---

<sup>1</sup> Resolution 2222 (XXI), annex.

<sup>2</sup> Resolution S-10/2.

at its regular sessions, and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing that prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space,<sup>1</sup> and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Regretting the inability of the Conference on Disarmament to re-establish the Ad Hoc Committee in 1996,

Emphasizing the mutually complementary nature of bilateral and multilateral efforts in the field of preventing an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling in this context its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter alia, it reaffirmed the importance of confidence-building measures as means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

Recognizing that the conclusion of an international agreement or agreements to prevent an arms race in outer space remains the fundamental task

of the Ad Hoc Committee and that the concrete proposals on confidence-building measures could form an integral part of such agreements.

1. Reaffirms the importance and urgency of preventing an arms race in outer space, and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;<sup>1</sup>

2. Reaffirms its recognition, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space by itself does not guarantee the prevention of an arms race in outer space, that this legal regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness, and that it is important strictly to comply with existing agreements, both bilateral and multilateral;

3. Emphasizes the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. Calls upon all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. Reiterates that the Conference on Disarmament, as the single multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. Requests the Conference on Disarmament to re-establish the Ad Hoc Committee with a negotiating mandate at the beginning of its 1997 session, taking into account the work undertaken since 1985, with a view to conducting negotiations for the conclusion of an agreement or agreements, as appropriate, to prevent an arms race in outer space in all its aspects;

7. Recognizes, in this respect, the growing convergence of views on the elaboration of measures designed to strengthen transparency, confidence and security in the peaceful uses of outer space;

8. Urges States conducting activities in outer space, as well as States interested in conducting such activities, to keep the Conference on Disarmament informed of the progress of bilateral or multilateral negotiations relating to the prevention of an arms race in outer space, if any, so as to facilitate its work;

9. Decides to include in the provisional agenda of its fifty-second session the item entitled "Prevention of an arms race in outer space".

The nuclear-weapon-free southern hemisphere  
and adjacent areas

The General Assembly,

Determined to continue to contribute to the prevention of the proliferation of nuclear weapons in all its aspects and to the process of general and complete disarmament under strict and effective international control, in particular in the field of nuclear weapons and other weapons of mass destruction, with a view to strengthening international peace and security, in accordance with the purposes and principles of the Charter of the United Nations,

Stressing the importance of the treaties of Tlatelolco,<sup>2</sup> Rarotonga,<sup>3</sup> Bangkok<sup>4</sup> and Pelindaba,<sup>5</sup> establishing nuclear-weapon-free zones, as well as the Antarctic Treaty,<sup>6</sup>

Recalling that, at its first special session devoted to disarmament, the General Assembly declared, inter alia, that the establishment of nuclear-weapon-free zones on the basis of agreements or arrangements freely arrived at among the States of the zone concerned constitutes an important disarmament measure; that the States participating in such zones should undertake to comply fully with all the objectives, purposes and principles of the

agreements or arrangements establishing the zones, thus ensuring that they are genuinely free from nuclear weapons; and that the nuclear-weapon States are called upon to give undertakings, negotiated with the competent authority of each zone, in particular, to respect strictly the status of the nuclear-weapon-free zone and to refrain from the use or threat of use of nuclear weapons against the States of the zone,

Recalling also that the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons<sup>7</sup> reaffirmed the conviction that the establishment of internationally recognized nuclear-weapon-free zones, on the basis of arrangements freely arrived at among the States of the region concerned, enhances global and regional peace and security, and encouraged the development of nuclear-weapon-free zones, especially in regions of tension, such as in the Middle East,

Recalling further the applicable principles and rules of international law relating to rights of passage through maritime space,

1. Recognizes with satisfaction that the Antarctic Treaty<sup>6</sup> and the treaties of Tlatelolco,<sup>2</sup> Rarotonga,<sup>3</sup> Bangkok<sup>4</sup> and Pelindaba<sup>5</sup> are gradually freeing the entire southern hemisphere and adjacent areas covered by those treaties from nuclear weapons;
2. Calls for the ratification of the treaties of Tlatelolco, Rarotonga, Bangkok and Pelindaba by all regional States, and calls upon all concerned States to continue to work together in order to facilitate adherence to the protocols to nuclear-weapon-free zone treaties by all relevant States that have not yet done so;
3. Calls upon all States to consider proposals to establish further nuclear-weapon-free zones, especially in areas such as the Middle East and South Asia, on the basis of arrangements freely arrived at among the States of the region concerned, to strengthen the nuclear non-proliferation regime and, with particular reference to the responsibilities of the nuclear-weapon States, to advance the process of nuclear disarmament with the ultimate goal of eliminating all nuclear weapons;
4. Calls upon the States parties and signatories to the treaties of Tlatelolco, Rarotonga, Bangkok and Pelindaba, in order to promote the common goals envisaged in those treaties, to explore and implement further ways and means of cooperation, including the consolidation of the status of the nuclear-weapon-free southern hemisphere and adjacent areas;
5. Encourages the competent authorities of nuclear-weapon-free zone treaties to provide assistance to the States parties and signatories to such treaties so as to facilitate the accomplishment of these goals;

Convening of the fourth special session of the General Assembly  
devoted to disarmament

The General Assembly,

Recalling its resolutions 49/75 I of 15 December 1994 and 50/70 F of 12 December 1995,

Recalling also that, there being a consensus to do so in each case, three special sessions of the General Assembly devoted to disarmament were held in 1978, 1982 and 1988, respectively,

Bearing in mind the Final Document of the Tenth Special Session of the General Assembly,<sup>6</sup> the first special session devoted to disarmament, and the objective of general and complete disarmament under effective international control,

Welcoming the recent positive changes in the international landscape, characterized by the end of the cold war, the relaxation of tensions at the global level and the emergence of a new spirit governing relations among nations,

Taking note of paragraph 108 of the Final Document of the Eleventh Conference of Heads of State or Government of the Non-Aligned Countries, held at Cartagena de Indias, Colombia, from 18 to 20 October 1995,<sup>7</sup> which supported the convening of the fourth special session of the General Assembly devoted to disarmament in 1997, which would offer an opportunity to review, from a perspective more in tune with the current international situation, the most critical aspects of the process of disarmament and to mobilize the international community and public opinion in favour of the elimination of nuclear and other weapons of mass destruction and of the control and reduction of conventional weapons,

Taking note also of the interim report of the 1996 substantive session of the Disarmament Commission on the item entitled "Exchange of views on the fourth special session of the General Assembly devoted to disarmament",<sup>10</sup>

Desiring to build upon the constructive exchange of views on the fourth special session of the General Assembly devoted to disarmament during the 1996 substantive session of the Disarmament Commission,

Reiterating its conviction that a special session of the General Assembly devoted to disarmament can set the future course of action in the field of disarmament, arms control and related international security matters,

Emphasizing the importance of multilateralism in the process of disarmament and arms control, peace and security,

Noting that, with the completion of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction<sup>11</sup> and the adoption of the Comprehensive Nuclear-Test-Ban Treaty,<sup>12</sup> as well as of amended Protocol II<sup>13</sup> and new Protocol IV<sup>14</sup> to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,<sup>14</sup> the following years would be opportune for the international community to start the process of reviewing the state of affairs in the entire field of disarmament and arms control in the post-cold-war era,

1. Decides, subject to the emergence of a consensus on its objectives and agenda, to convene its fourth special session devoted to disarmament in 1999;

2. Notes the view of the Secretary-General that preparations for the special session could begin in 1997;

3. Decides, subject to the outcome of deliberations concerning the fourth special session of the General Assembly devoted to disarmament at the 1997 substantive session of the Disarmament Commission, to convene a meeting of the Preparatory Committee for the Fourth Special Session of the General Assembly devoted to Disarmament before the end of the fifty-first session of the Assembly in order to set an exact date and to decide on organizational matters relating to the convening of the special session, and requests the Preparatory Committee to submit its progress report to the Assembly at its fifty-second session;

5. Decides to include in the provisional agenda of its fifty-second session the item entitled "Convening of the fourth special session of the General Assembly devoted to disarmament" and, subject to the outcome of deliberations at the 1997 substantive session of the Disarmament Commission, to take up the report of the Preparatory Committee for the Fourth Special Session of the General Assembly Devoted to Disarmament.

2. Urges the international community to devote part of the resources made available by the implementation of disarmament and arms limitation agreements to economic and social development, with a view to reducing the ever widening gap between developed and developing countries;

Mindful of the detrimental environmental effects of the use of nuclear weapons,

Taking note of the preamble to the Comprehensive Nuclear Test-Ban Treaty,<sup>18</sup> opened for signature on 24 September 1996, concerning the contribution to environmental protection provided by the Treaty,

---

<sup>17</sup> United Nations publication, Sales No. E.87.IX.8, para. 35.

<sup>18</sup> A/50/1027, annex.

Considering its resolution 2602 C (XXIV) of 16 December 1969, in which it requested the Conference of the Committee on Disarmament,<sup>19</sup> inter alia, to consider effective methods to control radiological means of warfare, in the interest of averting the hazards of using radioactive wastes as a means of radiological warfare, and of their impact on international security and environmental preservation,

Recognizing that prevention of the nuclear arms race on the seabed and the ocean floor and in the subsoil thereof contributes to keeping the peace and protecting the environment,

Convinced of the general interest of mankind in the progress of the exploration and use of outer space for peaceful purposes, and the need to preserve the world's environment in this context,

Desirous that, in the interest of mankind, Antarctica should continue to be used for exclusively peaceful purposes and that the balance of that important ecosystem should be preserved,

Taking note of the environment-related provisions laid down in the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction,<sup>21</sup>

Convinced of the importance of strengthening the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction<sup>26</sup> through the adoption of appropriate measures, including possible verification measures, and the drafting of proposals to be included, as appropriate, in a legally binding instrument, on the basis of the findings of the ad hoc working group set up to that effect, and which, inter alia, should take into account the necessity of ensuring the preservation of the environment,

Conscious that the international transfer of relevant technologies, services and know-how for peaceful purposes can contribute positively to abiding by environmental norms in the framework of the disarmament and arms limitation agreements,

1. Invites the Conference on Disarmament to take every necessary measure to include the relevant environmental norms and provisions in negotiating treaties and agreements on disarmament and arms limitation, taking into account the need to preserve the world's environment and to ensure the strict observance of such environmental norms and provisions during the entire process of implementation of the provisions of the aforementioned treaties and agreements, particularly during the process of destruction of the arms covered by them;

3. Expresses grave concern regarding any use of nuclear wastes that would constitute radiological warfare and have grave implications for the national security of all States and for preserving the environment;
4. Urges States parties to comply strictly with the provisions of the Treaty on the Prohibition of the Emplacement of Nuclear Weapons and Other Weapons of Mass Destruction on the Seabed and the Ocean Floor and in the Subsoil Thereof,<sup>21</sup> and calls on States that possess nuclear weapons and other weapons of mass destruction that have not yet done so, to become parties to the Treaty, as a major contribution to international peace and the ecologically rational use of the environment;
5. Calls upon all States, especially those that have major space programmes, to contribute actively to the attainment of the goals of using outer space for peaceful purposes, preserving the world's environment and preventing the arms race in outer space and, for the sake of international peace and security and of promoting international cooperation, to refrain from acting counter to the spirit of that international legal instrument;

Measures to curb the illicit transfer and use of  
conventional arms

The General Assembly,

Recalling its resolution 46/36 H of 6 December 1991 and its decision 47/419 of 9 December 1992 on international arms transfers,

Recalling also its resolutions 48/75 F and H of 16 December 1993, 49/75 M of 15 December 1994 and 50/70 J of 12 December 1995 on measures to curb the illicit transfer and use of conventional arms,

Recognizing that the availability of massive quantities of conventional weapons and especially their illicit transfer, often associated with destabilizing activities, are most disturbing and dangerous phenomena, in particular for the internal situation of affected States and the violation of human rights,

Bearing in mind that in certain situations mercenaries, terrorists and child soldiers are supplied with weapons acquired from illicit transfers of conventional arms,

Convinced that peace and security are inextricably interlinked with and in some cases imperative for economic development and reconstruction, including in war-stricken countries,

Realizing the urgent need to resolve conflicts and to diminish tension, and to accelerate efforts towards general and complete disarmament with a view to maintaining regional and international peace and security,

Recognizing the curbing of the illicit transfer of arms as an important contribution to the relaxation of tension and peaceful reconciliation processes,

Stressing the need for effective national control measures on the transfer of conventional weapons,

Convinced that effective measures to curb the illicit transfer and use of conventional arms will help enhance regional and international peace, security and economic development,

1. Welcomes the adoption by the Disarmament Commission of the report on international arms transfers, with particular reference to General Assembly resolution 46/36 H, as well as a text entitled "Guidelines for international arms transfers in the context of General Assembly resolution 46/36 H of 6 December 1991";<sup>42</sup>

---

<sup>42</sup> Official Records of the General Assembly, Fifty-first Session, Supplement No. 42 (A/51/42), para. 29 and annex I.

(a) Effective ways and means of collecting weapons transferred illicitly, in particular in the light of experience gained by the United Nations;

(b) Concrete proposals concerning measures at national, regional and international levels to curb the illicit transfer and use of conventional arms;

4. Requests the Secretary-General:

(a) To submit to the General Assembly at its fifty-second session a report containing the views expressed by Member States;

Bilateral nuclear arms negotiations and nuclear disarmament

The General Assembly,

Recalling its previous relevant resolutions,

Recognizing the fundamental changes that have taken place with respect to international security, which have permitted agreements on deep reductions in the nuclear armaments of the States possessing the largest inventories of such weapons,

Stressing that it is the responsibility and the obligation of all States to contribute to the process of the relaxation of international tension and to the strengthening of international peace and security through disarmament, in particular, nuclear disarmament, which remains the highest priority of our times,

Stressing also that, as stipulated in many agreements and recently reiterated by the unanimous decision by the International Court of Justice,<sup>32</sup> there exists the obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Welcoming the number of positive developments that have created opportunities for nuclear disarmament, in particular, the completion of the implementation of the 1987 Treaty between the United States of America and the Union of Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter-Range Missiles,<sup>33</sup> removing such weapons from deployed status, the conclusion of bilateral agreements on de-targeting strategic missiles, the cooperative efforts to ensure the safety, security and environmentally sound destruction of nuclear weapons as well as the efforts to

deactivate all nuclear delivery systems or other steps to remove them from alert status,

Noting that there are still significant nuclear arsenals and that the primary responsibility for nuclear disarmament, with the objective of the elimination of nuclear weapons, rests with all nuclear-weapon States, in particular, those possessing the largest stockpiles,

Recalling the expressed commitment by the nuclear-weapon States to pursue systematic and progressive efforts to reduce nuclear weapons globally, with the ultimate goal of the elimination of those weapons, which should be carried out within a time-bound framework,

Recalling also the agreement between the Russian Federation and the United States of America to intensify their dialogue to compare conceptual approaches and to develop concrete steps to adapt the nuclear forces and practices on both sides to the changed international security situation, including the possibility, after ratification of the Treaty on the Further Reduction and Limitation of Strategic Offensive Arms,<sup>24</sup> of further reductions of and limitations on remaining nuclear forces,

Taking note of the joint statement of 10 May 1995 by the Russian Federation and the United States of America on the Treaty on the Limitation of Anti-Ballistic Missile Systems,

Welcoming the reductions made by other nuclear-weapon States in some of their nuclear-weapons programmes, and encouraging all nuclear-weapon States to consider appropriate measures relating to nuclear disarmament,

Affirming that bilateral and multilateral negotiations on nuclear disarmament should facilitate and complement each other,

1. Welcomes the entry into force and implementation of the Treaty on the Reduction and Limitation of Strategic Offensive Arms,<sup>23</sup> signed in Moscow on 31 July 1991 by the former Union of Soviet Socialist Republics and the United States of America, including the Protocol to that Treaty, signed at Lisbon on 23 May 1992 by the parties thereto, and the exchange of documents of ratification between the United States of America, Belarus, Kazakhstan, the Russian Federation and Ukraine on 5 December 1994 at Budapest, as well as the ratification by the United States of America of the 1993 Treaty on Further Reduction and Limitation of Strategic Offensive Arms,<sup>24</sup> and urges the parties concerned to make further efforts to bring that Treaty into force at the earliest possible date;

to this work, in order to contribute to the elimination of nuclear weapons within a time-bound framework;

5. Invites the Russian Federation and the United States of America to keep the States Members of the United Nations and the Conference on Disarmament duly informed of progress in their discussions and in the implementation of their strategic offensive arms agreements and unilateral decisions;

6. Calls upon the Conference on Disarmament to take such information into account in the negotiations to be held on nuclear disarmament leading to the elimination of nuclear weapons within a time-bound framework.

#### Regional disarmament

##### The General Assembly,

Recalling its resolutions 45/58 P of 4 December 1990, 46/36 I of 6 December 1991, 47/52 J of 9 December 1992, 48/75 I of 16 December 1993, 49/75 N of 15 December 1994 and 50/70 K of 12 December 1995 on regional disarmament,

Believing that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

Affirming the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

Noting that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly,<sup>41</sup>

Taking note of the guidelines and recommendations for regional approaches to disarmament within the context of global security adopted by the Disarmament Commission at its 1993 substantive session,<sup>42</sup>

---

<sup>41</sup> Ibid., Forty-eighth Session, Supplement No. 42 (A/48/42), annex II.

Welcoming the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

Taking note of the recent proposals for disarmament and nuclear non-proliferation at the regional and subregional levels,

Recognizing the importance of confidence-building measures for regional and international peace and security,

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of smaller States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. Stresses that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. Affirms that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

3. Calls upon States to conclude agreements, wherever possible, for nuclear non-proliferation, disarmament and confidence-building measures at the regional and subregional levels;

4. Welcomes the initiatives towards disarmament, nuclear non-proliferation and security undertaken by some countries at the regional and subregional levels;

5. Supports and encourages efforts aimed at promoting confidence-building measures at the regional and subregional levels in order to ease regional tensions and to further disarmament and nuclear non-proliferation measures at the regional and subregional levels;

Assistance to States for curbing the illicit  
traffic in small arms and collecting them

The General Assembly,

Recalling its resolutions 46/36 H of 6 December 1991, 47/52 G and J of 9 December 1992, 48/75 H and J of 16 December 1993, 49/75 G of 15 December 1994 and 50/70 H of 12 December 1995,

/...

Considering that the illicit circulation of massive quantities of small arms throughout the world impedes development and is a source of increased insecurity,

Considering also that the illicit international transfer of small arms and their accumulation in many countries constitute a threat to the populations and to national and regional security and are a factor contributing to the destabilization of States,

Basing itself on the statement of the Secretary-General relating to the request of Mali concerning United Nations assistance for the collection of small arms,

Gravely concerned at the extent of the insecurity and banditry linked to the illicit circulation of small arms in Mali and the other affected States of the Saharo-Sahelian subregion,

Taking note of the first conclusions of the United Nations advisory missions sent to the affected countries of the subregion by the Secretary-General to study the best way of curbing the illicit circulation of small arms and ensuring their collection,

Taking note also of the interest shown by other States of the subregion in receiving a United Nations advisory mission,

Noting the actions taken and those recommended at the meetings of the States of the subregion held at Banjul, Algiers and Bamako to establish close regional cooperation with a view to strengthening security,

1. Welcomes the initiative taken by Mali concerning the question of the illicit circulation of small arms and their collection in the affected States of the Saharo-Sahelian subregion;
2. Also welcomes the action taken by the Secretary-General in implementation of this initiative in the context of General Assembly resolution 40/151 H of 16 December 1985;
3. Thanks the Governments concerned in the subregion for the substantial support that they have given to the United Nations advisory missions, and welcomes the declared readiness of other States to receive the United Nations Advisory Mission;
4. Encourages the Secretary-General to continue his efforts, in the context of the implementation of resolution 49/75 G and of the recommendations of the United Nations advisory missions, to curb the illicit circulation of small arms and to collect such arms in the affected States that so request, with the support of the United Nations Regional Centre for Peace and Disarmament in Africa and in close cooperation with the Organization of African Unity;
5. Notes that, as part of its efforts to halt the flow of small arms into Mali and the Saharo-Sahelian subregion, the Malian Government oversaw the destruction, at the "Flame of Peace" ceremony held at Timbuktu on 27 March 1996, of thousands of small arms handed over by ex-combatants of the armed movements of northern Mali;

/...

6. Encourages the setting up in the countries of the Saharo-Sahelian subregion of national commissions against the proliferation of small arms;

7. Requests the Secretary-General to continue to examine the issue and to report to the General Assembly at its fifty-second session.

Advisory opinion of the International Court of  
Justice on the legality of the threat or use  
of nuclear weapons

The General Assembly,

Recalling its resolution 49/75 K of 15 December 1994, in which it requested the International Court of Justice to render an advisory opinion on whether the threat or use of nuclear weapons is permitted in any circumstance under international law,

Mindful of the solemn obligations of States parties, undertaken in article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>27</sup> particularly to pursue negotiations in good faith on effective measures relating to cessation of the nuclear arms race at an early date and to nuclear disarmament,

Recalling its resolution 50/70 P of 12 December 1995, in which it called upon the Conference on Disarmament to establish an ad hoc committee on nuclear disarmament to commence negotiations on a phased programme of nuclear disarmament and for the eventual elimination of nuclear weapons within a time-bound framework,

Recalling also the principles and objectives for nuclear non-proliferation and disarmament adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>26</sup> and in particular the objective of determined pursuit by the nuclear-weapon States of systematic and progressive efforts to reduce nuclear weapons globally, with the ultimate goal of eliminating those weapons,

Recognizing that the only defence against a nuclear catastrophe is the total elimination of nuclear weapons and the certainty that they will never be produced again,

Desiring to achieve the objective of a legally binding prohibition of the development, production, testing, deployment, stockpiling, threat or use of nuclear weapons and their destruction under effective international control,

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons, and welcoming every effort towards this end,

/...

Reaffirming also the central role of the Conference on Disarmament as the single multilateral disarmament negotiating forum,

Noting the adoption of the Comprehensive Nuclear-Test-Ban Treaty by the General Assembly in its resolution 50/245 of 10 September 1996,

Regretting the absence of multilaterally negotiated and legally binding security assurances against the threat or use of nuclear weapons against non-nuclear-weapon States,

Convinced that the continuing existence of nuclear weapons poses a threat to all humanity and that their use would have catastrophic consequences for all life on Earth,

1. Expresses its appreciation to the International Court of Justice for responding to the request made by the General Assembly at its forty-ninth session;
2. Takes note of the advisory opinion of the International Court of Justice on the Legality of the Threat or Use of Nuclear Weapons, issued on 8 July 1996;<sup>42</sup>
3. Underlines the unanimous conclusion of the Court that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control;
4. Calls upon all States to fulfil that obligation immediately by commencing multilateral negotiations in 1997 leading to an early conclusion of a nuclear-weapons convention prohibiting the development, production, testing, deployment, stockpiling, transfer, threat or use of nuclear weapons and providing for their elimination;
5. Requests the Secretary-General to provide the necessary assistance to support the implementation of the present resolution;
6. Decides to include in the provisional agenda of its fifty-second session an item entitled "Follow-up to the Advisory Opinion of the International Court of Justice on the Legality of the Threat or Use of Nuclear Weapons".

Consolidation of peace through practical disarmament measures

The General Assembly,

Reaffirming the purpose of the United Nations to maintain peace and security and, in this context, reaffirming in particular the role of the

United Nations in the field of disarmament, as well as the commitment of Member States to take concrete steps in order to strengthen that role,

Convinced that a comprehensive and integrated approach towards certain practical disarmament measures, such as, inter alia, arms control, particularly with regard to small arms and light weapons, confidence-building measures, demobilization and reintegration of former combatants, demining and conversion, often is a prerequisite to maintaining and consolidating peace and security and thus provides a basis for effective rehabilitation and social and economic development,

Noting in this context the reports of the Secretary-General entitled "An Agenda for Peace"<sup>43</sup> and "Supplement to an Agenda for Peace" in which the Secretary-General, inter alia, stressed the urgent need for "practical disarmament in the context of the conflicts the United Nations is actually dealing with and of the weapons, most of them light weapons, that are actually killing people in the hundreds of thousands",<sup>44</sup> and in which, with regard to practical disarmament measures, the Secretary-General stated that "the assembly, control and disposal of weapons has been a central feature of most of the comprehensive peace settlements in which the United Nations has played a peacekeeping role",<sup>45</sup>

Recalling its resolutions 49/75 M of 15 December 1994 and 50/70 B and 50/70 J of 12 December 1995 concerning small arms and light weapons, as well as the control and the illicit transfer of such weapons, and, in this context, encouraging the work of the United Nations expert panel on small arms,

Welcoming the adoption by the Disarmament Commission of the "Guidelines for international arms transfers in the context of General Assembly resolution 46/36 H of 6 December 1991",<sup>32</sup>

Recalling its resolutions 49/75 G of 15 December 1994 and 50/70 H of 12 December 1995, in which it welcomed the initiative taken by Mali concerning the question of illicit circulation of small arms and their collection in the affected States of the Saharo-Saharan subregion, as well as the action taken by the Secretary-General in the implementation of that initiative,

Welcoming, in this context, the measures taken and other ongoing efforts by the Central African States to promote, within the framework of the United Nations Standing Advisory Committee on Security Questions in Central Africa, confidence-building and conflict prevention in their subregion,

Recalling its resolution 50/70 D of 12 December 1995 on transparency in armaments, and continuing to take the view that an enhanced level of

transparency could contribute to confidence-building and security among States,

Recalling also its resolutions 50/70 O and 50/74 of 12 December 1995 and 50/82 of 14 December 1995 addressing the global landmine problem,

Welcoming the adoption on 3 May 1996 of an amended Protocol II by the Review Conference of the States Parties to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects<sup>22</sup> as a further step, and also welcoming respective national measures adopted by a growing number of States,

1. Stresses the particular importance of certain practical disarmament measures, such as the collection, control and disposal of arms, especially small arms and light weapons, coupled with restraint over the production and procurement as well as transfers of such arms, the demobilization and reintegration of former combatants, demining and conversion, for the maintenance and consolidation of peace and security in areas that have suffered from conflict;

2. Underlines the important role of the United Nations in providing a political framework for such practical disarmament measures in those areas and in facilitating their implementation;

3. Requests the Secretary-General, in the light of experience gained from conflict resolution, to make recommendations and suggestions for an integrated approach to such practical disarmament measures, taking also into account the work of the United Nations expert panel on small arms, and to report thereon to the General Assembly at its fifty-second session;

4. Also requests the Secretary-General, in this connection, to seek the views of Member States on this subject and to include them in his report;

5. Calls upon Member States, as well as regional arrangements or agencies, to assist the Secretary-General in his endeavours in this regard and to contribute actively to the implementation of such practical disarmament measures;

6. Encourages United Nations organs and agencies to join in this task within the framework of their responsibilities, in particular the United Nations Institute for Disarmament Research on the basis of its Disarmament and Conflict Resolution Project;

7. Decides to include in the provisional agenda of its fifty-second session an item entitled "Consolidation of peace through practical disarmament measures".

Nuclear disarmament

The General Assembly,

Recalling its resolution 49/75 E of 15 December 1994 on a step-by-step reduction of the nuclear threat, and its resolution 50/70 P of 12 December 1995 on nuclear disarmament,

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the creation of a nuclear-weapon-free world,

Determined to achieve the objective of prohibiting the development, production, stockpiling and use of nuclear weapons and their destruction, and to conclude such an international convention or conventions at an early date,

Bearing in mind paragraph 50 of the Final Document of the Tenth Special Session of the General Assembly,<sup>8</sup> the first special session devoted to disarmament, calling for the urgent negotiation of agreements for the cessation of the qualitative improvement and development of nuclear-weapon systems, and for a comprehensive and phased programme with agreed time-frames, wherever feasible, for progressive and balanced reduction of nuclear weapons and their means of delivery, leading to their ultimate and complete elimination at the earliest possible time,

Taking note of the adoption of the Comprehensive Nuclear-Test-Ban Treaty by the General Assembly in its resolution 50/245 on 10 September 1996,

Recognizing that the Comprehensive Nuclear-Test-Ban Treaty and any proposed treaty on fissile material for nuclear weapons or other nuclear explosive devices must constitute disarmament measures, and not only non-proliferation measures, and that these measures, together with an international legal instrument on adequate security assurances for non-nuclear-weapon States and an international convention prohibiting the use of nuclear weapons, must be integral steps leading to the total elimination of nuclear weapons within a time-bound framework,

Recognizing also that the end of the cold war has brought about favourable conditions for creating a world free of nuclear weapons,

Welcoming the entry into force of the Treaty on the Reduction and Limitation of Strategic Offensive Arms,<sup>23</sup> to which Belarus, Kazakstan, the Russian Federation, Ukraine and the United States of America are States parties,

Welcoming also the conclusion of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms<sup>24</sup> by the Russian Federation and the United States of America and the ratification of that Treaty by the United States of America, and looking forward to the full implementation of the START I<sup>23</sup> and START II<sup>24</sup> Treaties by the States parties, and to further concrete steps for nuclear disarmament by all nuclear-weapon States,

/...

Noting with appreciation the unilateral measures by the nuclear-weapon States for nuclear arms limitation, and encouraging them to undertake further such measures,

Recognizing the complementarity of bilateral and multilateral negotiations on nuclear disarmament, and that bilateral negotiations can never replace multilateral negotiations in this respect,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and the multilateral efforts in the Conference on Disarmament to reach agreement on such an international convention at an early date,

Taking note of the advisory opinion of the International Court of Justice dated 8 July 1996 on the Legality of the Threat or Use of Nuclear Weapons,<sup>42</sup> and welcoming the unanimous reaffirmation by all Judges of the Court that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Taking note also of paragraph 84 and other relevant recommendations in the Final Document of the Eleventh Conference of Heads of State or Government of the Non-Aligned Countries, held at Cartagena de Indias, Colombia, from 18 to 20 October 1995,<sup>9</sup> calling upon the Conference on Disarmament to establish, on a priority basis, an ad hoc committee to commence negotiations early in 1996 on a phased programme of nuclear disarmament and for the eventual elimination of nuclear weapons within a time-bound framework, and paragraph 26 of the Communiqué of the Meeting of Ministers for Foreign Affairs and Heads of Delegations of the Non-Aligned Countries, held in New York on 25 September 1996,<sup>46</sup>

Expressing its regret that the Conference on Disarmament has not been able as yet to establish an ad hoc committee on nuclear disarmament, as called for in Assembly resolution 50/70 P,

Taking note of the proposal of twenty-eight delegations to the Conference on Disarmament that are members of the Group of 21 for a programme of action for the elimination of nuclear weapons,<sup>47</sup> and expressing its conviction that this proposal will be an important input and will contribute to negotiations on this question in the Conference,

1. Recognizes that, in view of the end of the cold war and recent political developments, the time is now opportune for all nuclear-weapon States to undertake effective disarmament measures with a view to the total elimination of these weapons within a time-bound framework;

2. Recognizes also that there is a genuine need to de-emphasize the role of nuclear weapons, and to review and revise nuclear doctrines accordingly;

<sup>47</sup> A/C.1/51/12, annex.

3. Urges the nuclear-weapon States to stop immediately the qualitative improvement, development, production and stockpiling of nuclear warheads and their delivery systems;

4. Calls upon the nuclear-weapon States to undertake the step-by-step reduction of the nuclear threat and a phased programme of progressive and balanced deep reductions of nuclear weapons, and to carry out effective nuclear disarmament measures with a view to the total elimination of these weapons within a time-bound framework;

5. Calls upon the Conference on Disarmament to establish, on a priority basis, an ad hoc committee on nuclear disarmament to commence negotiations early in 1997 on a phased programme of nuclear disarmament and for the eventual elimination of nuclear weapons within a time-bound framework through a nuclear weapons convention;

6. Urges the Conference on Disarmament to take into account in this regard the proposal of the twenty-eight delegations for a programme of action for the elimination of nuclear weapons;

7. Requests the Secretary-General to submit to the General Assembly at its fifty-second session a report on the implementation of the present resolution;

8. Decides to include in the provisional agenda of its fifty-second session the item entitled "Nuclear disarmament".

Measures to uphold the authority of the 1925 Geneva Protocol

The General Assembly,

Recalling its previous resolutions on the subject, in particular resolution 43/74 of 7 December 1988,

Determined to act with a view to achieving effective progress towards general and complete disarmament under strict and effective international control,

Recalling the long-standing determination of the international community to achieve the effective prohibition of the development, production, stockpiling and use of chemical and biological weapons as well as the continuing support for measures to uphold the authority of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925,<sup>48</sup> as expressed by consensus in many previous resolutions,

Welcoming the end of the cold war, the ensuing easing of international tension and the strengthening of trust between States,

Welcoming also the recent initiatives by some States parties to withdraw their reservations to the 1925 Geneva Protocol,

1. Renews its previous call to all States to observe strictly the principles and objectives of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925,<sup>48</sup> and reaffirms the vital necessity of upholding its provisions;

2. Calls upon those States that continue to maintain reservations to the 1925 Geneva Protocol to withdraw those reservations;

3. Requests the Secretary-General to submit to the General Assembly at its fifty-third session a report on the implementation of the present resolution.

Conventional arms control at the regional  
and subregional levels

The General Assembly,

Recalling its resolutions 48/75 J of 16 December 1993, 49/75 O of 15 December 1994 and 50/70 L of 12 December 1995,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on

/...

Conventional Armed Forces in Europe,<sup>49</sup> which is a cornerstone of European security,

Believing that militarily significant States, and States with larger military capabilities, have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. Decides to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;
2. Requests the Conference on Disarmament, as a first step, to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;
3. Decides to include in the provisional agenda of its fifty-second session the item entitled "Conventional arms control at the regional and subregional levels".

Bilateral nuclear arms negotiations and nuclear disarmament

The General Assembly,

Recalling its previous relevant resolutions,

Recognizing the fundamental changes that have taken place with respect to international security, which have permitted agreements on deep reductions in the nuclear armaments of the States possessing the largest inventories of such weapons,

Mindful that it is the responsibility and obligation of all States to contribute to the process of the relaxation of international tension and to the strengthening of international peace and security and, in this connection, to adopt and implement measures towards the attainment of general and complete disarmament under strict and effective international control,

Appreciating a number of positive developments in the field of nuclear disarmament, in particular the Treaty between the Union of Soviet Socialist Republics and the United States of America on the Elimination of Their Intermediate-Range and Shorter-Range Missiles,<sup>33</sup> and the treaties on the reduction and limitation of strategic offensive arms,

---

<sup>49</sup> CD/1064.

Appreciating also the indefinite extension of the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>27</sup> and acknowledging the importance of the determined pursuit by the nuclear-weapon States of systematic and progressive efforts to reduce nuclear weapons globally, with the ultimate goal of eliminating those weapons, and by all States of general and complete disarmament under strict and effective international control,

Welcoming the steps that have already been taken by the Russian Federation and the United States of America to begin the process of reducing the number of nuclear weapons and removing such weapons from a deployed status, and bilateral agreements on the issue of de-targeting strategic nuclear missiles,

Noting the new climate of relations between the States of the former Soviet Union and the United States of America, which permits them to intensify their cooperative efforts to ensure the safety, security and environmentally sound destruction of nuclear weapons,

Noting also that the Russian Federation and the United States of America concurred that, once the Treaty between them on Further Reduction and Limitation of Strategic Offensive Arms<sup>24</sup> was ratified, they would proceed to deactivate all nuclear delivery systems to be reduced under the Treaty by removing their nuclear warheads or taking other steps to remove them from alert status,

Noting further the commitment between the Russian Federation and the United States of America to intensify their dialogue to compare conceptual approaches and to develop concrete steps to adapt the nuclear forces and practices on both sides to the changed international security situation, including the possibility, after ratification of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms, of further reductions of and limitations on remaining nuclear forces,

Taking note of the joint statement of 10 May 1995 by the Russian Federation and the United States of America on the Treaty on the Limitation of Anti-Ballistic Missile Systems,

Recalling the Moscow Summit Declaration on Nuclear Safety and Security of April 1996,<sup>28</sup>

Urging early action to complete the ratification of the Treaty on the Further Reduction and Limitation of Strategic Offensive Arms and further intensification of efforts to accelerate the implementation of agreements and unilateral decisions relating to nuclear arms reduction,

Welcoming the significant reductions made by other nuclear-weapon States, and encouraging all nuclear-weapon States to consider appropriate measures relating to nuclear disarmament,

1. Welcomes the entry into force of the Treaty on the Reduction and Limitation of Strategic Offensive Arms,<sup>23</sup> signed in Moscow on 31 July 1991 by the former Union of Soviet Socialist Republics and the United States of America, including the Protocol to that Treaty, signed at Lisbon on 23 May

1992 by the parties thereto, and the exchange of documents of ratification between the United States of America, Belarus, Kazakstan, the Russian Federation and Ukraine on 5 December 1994 at Budapest;

2. Also welcomes the signing of the Treaty between the Russian Federation and the United States of America on Further Reduction and Limitation of Strategic Offensive Arms<sup>24</sup> in Moscow on 3 January 1993, and urges the parties to take the steps necessary to bring that Treaty into force at the earliest possible date;

3. Expresses its satisfaction at the entry into force and ongoing implementation of the 1991 Treaty as well as the ratification by the United States of America of the 1993 Treaty, and expresses the hope that it will soon be possible for the Russian Federation to ratify that Treaty also;

4. Expresses further satisfaction at the continuing implementation of the Treaty between the United States of America and the Union of Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter-Range Missiles,<sup>33</sup> in particular at the completion by the parties of the destruction of all their declared missiles subject to elimination under the Treaty;

5. Welcomes the removal of all nuclear weapons from the territory of Kazakstan as of 1 June 1995, and from the territory of Ukraine as of 1 June 1996;

6. Encourages the Russian Federation, the United States of America, Belarus, Kazakstan and Ukraine to continue their cooperative efforts aimed at eliminating nuclear weapons and strategic offensive arms on the basis of existing agreements, and welcomes the contributions that other States are making to such cooperation as well;

7. Welcomes the accession to the Treaty on the Non-Proliferation of Nuclear Weapons<sup>34</sup>, of Belarus, Kazakstan and Ukraine as non-nuclear-weapon States, which thereby provided notable enhancement to the non-proliferation regime;

8. Encourages and supports the Russian Federation and the United States of America in their efforts to reduce their nuclear weapons and to continue to give those efforts the highest priority in order to contribute to the ultimate goal of eliminating those weapons;

9. Invites the Russian Federation and the United States of America to keep other States Members of the United Nations duly informed of progress in their discussions and in the implementation of their strategic offensive arms agreements and unilateral decisions.

An international agreement to ban anti-personnel landmines

The General Assembly,

Recalling with satisfaction its resolutions 48/75 K of 16 December 1993, 49/75 D of 15 December 1994 and 50/70 O of 12 December 1995, in which it, inter alia, urged States to implement moratoriums on the export of anti-personnel landmines,

Also recalling with satisfaction its resolutions 49/75 D and 50/70 O, in which it, inter alia, established as a goal of the international community the eventual elimination of anti-personnel landmines,

Noting that, according to the 1995 report of the Secretary-General entitled "Assistance in mine clearance",<sup>51</sup> it is estimated that there are one hundred and ten million landmines in the ground in more than sixty countries throughout the world,

Noting also that, according to the same report, the global landmine crisis continues to worsen as an estimated two million new landmines are laid each year, while only an estimated one hundred and fifty thousand were cleared in 1995,

Expressing deep concern that anti-personnel landmines kill or maim hundreds of people every week, mostly innocent and defenceless civilians and especially children, obstruct economic development and reconstruction, inhibit the repatriation of refugees and the return of internally displaced persons, and have other severe consequences for years after emplacement,

Gravely concerned about the suffering and casualties caused to non-combatants as a result of the proliferation, as well as the indiscriminate and irresponsible use, of anti-personnel landmines,

Recalling with satisfaction its resolutions 48/7 of 19 October 1993, 49/215 A of 23 December 1994 and 50/82 of 14 December 1995 calling for assistance in mine clearance,

Welcoming the recent decisions taken at the Review Conference of the States Parties to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects, particularly with respect to the amended Protocol II<sup>13</sup> to the Convention, and believing that the amended Protocol is an essential part of the global effort to address problems caused by the proliferation, as well as the indiscriminate and irresponsible use, of anti-personnel landmines,

Welcoming also the adoption of the declaration entitled "Towards a Global Ban on Anti-Personnel Mines" by participants at the Ottawa International Strategy Conference on 5 October 1996,<sup>52</sup> including its call

---

<sup>51</sup> A/50/408.

<sup>52</sup> A/C.1/51/10, annex.

for the earliest possible conclusion of a legally binding international agreement to ban anti-personnel landmines, and further welcoming the follow-on conference at Brussels in June 1997,

Welcoming further the recent decisions taken by States to adopt various bans, moratoriums or other restrictions on the use, stockpiling, production and transfer of anti-personnel landmines, and other measures taken unilaterally as well as multilaterally,

Recognizing the need to conclude an international agreement to ban all anti-personnel landmines as soon as possible,

1. Urges States to pursue vigorously an effective, legally binding international agreement to ban the use, stockpiling, production and transfer of anti-personnel landmines with a view to completing the negotiation as soon as possible;

2. Urges States that have not yet done so to accede to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects<sup>14</sup> and Protocol II as amended on 3 May 1996,<sup>13</sup> and urges all States immediately to comply to the fullest extent possible with the applicable rules of Protocol II as amended;

3. Welcomes the various bans, moratoriums or other restrictions already declared by States on anti-personnel landmines;

4. Calls upon States that have not yet done so to declare and implement such bans, moratoriums or other restrictions - particularly on operational use and transfer - at the earliest possible date;

5. Requests the Secretary-General to prepare a report on steps taken to complete an international agreement banning the use, stockpiling, production and transfer of anti-personnel landmines, and on other steps taken by Member States to implement such bans, moratoriums or other restrictions and to submit it to the General Assembly at its fifty-second session under the item entitled "General and complete disarmament";

6. Requests Member States to provide the requested information for the report of the Secretary-General on steps taken to complete an international agreement banning the use, stockpiling, production and transfer of anti-personnel landmines, and on other steps taken to implement bans, moratoriums or other restrictions on anti-personnel landmines and to submit such information to the Secretary-General by 15 April 1997.

Status of the Convention on the Prohibition of the Development,  
Production, Stockpiling and Use of Chemical Weapons and on  
Their Destruction

The General Assembly,

Recalling its previous resolutions on the subject of chemical and bacteriological (biological) weapons, in particular resolution 47/39 of 30 November 1992, adopted without a vote, in which it commended the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction,"

Noting with satisfaction that, since the Convention was opened for signature at a signing ceremony held in Paris from 13 to 15 January 1993, one hundred and sixty States have signed the Convention,

Determined to achieve the effective prohibition of the development, production, acquisition, transfer, stockpiling and use of chemical weapons and their destruction,

Convinced of the urgent necessity of universal adherence to the Convention so as to abolish an entire category of weapons of mass destruction, and thus eliminate the risk to mankind of renewed use of these inhumane weapons,

Noting the ongoing work of the Preparatory Commission for the Organization on the Prohibition of Chemical Weapons,

1. Welcomes the fact that the required sixty-five instruments of ratification have now been deposited and that the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction<sup>11</sup> will therefore enter into force on 29 April 1997;
2. Stresses the importance to the Convention that all possessors of chemical weapons, chemical weapons production facilities or chemical weapons development facilities should be among the original parties to the Convention and, in this context, the importance of the United States of America and the Russian Federation, having declared possession of chemical weapons, being among the original States parties to the Convention;
3. Also stresses that this would promote the full realization and effective implementation of the Convention;
4. Calls upon all States that have not yet done so to sign and/or ratify the Convention without delay;
5. Notes that the Preparatory Commission for the Organization on the Prohibition of Chemical Weapons, at its fourteenth session from 22 to 26 July 1996, entrusted the Chairman of the Commission, in close consultation with its member States, with the task of convening, as necessitated by circumstances in connection with the occurrence of the trigger point, a meeting of the Commission to provide appropriate guidance;

/...

6. Urges the Preparatory Commission for the Organization on the Prohibition of Chemical Weapons to intensify efforts to complete its remaining work;

7. Decides to include in the provisional agenda of its fifty-second session an item entitled "Implementation of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction".

Commending the useful activities carried out by the Regional Centre in encouraging regional and subregional dialogue for the enhancement of openness, transparency and confidence-building, as well as the promotion of disarmament and security through the organization of regional meetings, which has come to be widely known within the Asia-Pacific region as the "Kathmandu process",

Noting that trends in the post-cold-war era have emphasized the function of the Regional Centre in assisting Member States as they deal with new security concerns and disarmament issues emerging in the region,

Recognizing the need for the Regional Centre to pursue effectively its expanded function,

Expressing its appreciation to the Regional Centre for its organization of substantive regional meetings at Kathmandu and at Hiroshima, Japan, in 1996,

Appreciating highly the important role Nepal has played as the host nation of the headquarters of the Regional Centre,

Convention on the Prohibition of the Use of Nuclear Weapons

The General Assembly,

Convinced that the use of nuclear weapons poses the most serious threat to the survival of mankind,

Bearing in mind the advisory opinion of the International Court of Justice of 8 July 1996 on the Legality of the Threat or Use of Nuclear Weapons,

Convinced that a multilateral, universal and binding agreement prohibiting the use or threat of use of nuclear weapons would contribute to the elimination of the nuclear threat and to the climate for negotiations leading to the ultimate elimination of nuclear weapons, thereby strengthening international peace and security,

Conscious that some steps taken by the Russian Federation and the United States of America towards a reduction of their nuclear weapons and the improvement in the international climate can contribute towards the goal of the complete elimination of nuclear weapons,

Recalling that, in paragraph 58 of the Final Document of the Tenth Special Session of the General Assembly,<sup>7</sup> it is stated that all States should actively participate in efforts to bring about conditions in international relations among States in which a code of peaceful conduct of nations in international affairs could be agreed upon and that would preclude the use or threat of use of nuclear weapons,

Reaffirming that any use of nuclear weapons would be a violation of the Charter of the United Nations and a crime against humanity, as declared in its resolutions 1653 (XVI) of 24 November 1961, 33/71 B of 14 December 1978, 34/83 G of 11 December 1979, 35/152 D of 12 December 1980 and 36/92 I of 9 December 1981,

---

<sup>7</sup> A/51/218, annex.

<sup>8</sup> Resolution S-10/2.

Determined to achieve an international convention prohibiting the development, production, stockpiling and use of nuclear weapons, leading to their ultimate destruction,

Stressing that an international convention on the prohibition of the use of nuclear weapons would be an important step in a phased programme towards the complete elimination of nuclear weapons within a time-bound framework,

Noting with regret that the Conference on Disarmament, during its 1996 session, was unable to undertake negotiations on this subject as called for in General Assembly resolution 50/71 E of 12 December 1995,

1. Reiterates its request to the Conference on Disarmament to commence negotiations, in order to reach agreement on an international convention prohibiting the use or threat of use of nuclear weapons under any circumstances, taking as a possible basis the draft Convention on the Prohibition of the Use of Nuclear Weapons annexed to the present resolution;

2. Requests the Conference on Disarmament to report to the General Assembly on the results of those negotiations.

#### ANNEX

##### Draft Convention on the Prohibition of the Use of Nuclear Weapons

Desiring to achieve a multilateral, universal and binding agreement prohibiting the use or threat of use of nuclear weapons,

Bearing in mind the advisory opinion of the International Court of Justice that there exists an obligation of all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Determined, therefore, to achieve an international convention prohibiting the development, production, stockpiling and use of nuclear weapons, leading to their ultimate destruction,

Convinced that the present Convention would be an important step in a phased programme towards the complete elimination of nuclear weapons within a time-bound framework,

Determined to continue negotiations for the achievement of this goal,

4. For States whose instruments of ratification or accession are deposited after the entry into force of the Convention, it shall enter into force on the date of the deposit of their instruments of ratification or accession.

5. The depositary shall promptly inform all signatory and acceding States of the date of each signature, the date of deposit of each instrument of ratification or accession and the date of entry into force of this Convention, as well as of the receipt of other notices.

Mindful of the provisions of Article 11, paragraph 1, of the Charter of the United Nations stipulating that a function of the General Assembly is to consider the general principles of cooperation in the maintenance of international peace and security, including the principles governing disarmament and arms limitation,

Taking into account the guidelines for international arms transfers adopted by the Disarmament Commission at its 1996 substantive session,<sup>9</sup>

Welcoming the activities carried out by the United Nations Regional Centre for Peace and Disarmament in Africa, which have contributed substantially to understanding and cooperation among the African States and have thereby strengthened its role in the areas of peace, disarmament, security and development,

Bearing in mind the financial situation of the Regional Centre as described by the Secretary-General in his report on the activities of the Regional Centre,<sup>10</sup>

<sup>10</sup> See A/51/403.

3. Reaffirms its support for the further operation and strengthening of the Regional Centre, and encourages it to continue to intensify its efforts in promoting cooperation with subregional and regional organizations, as well as among the African States, in order to facilitate the development of effective measures of confidence-building, arms limitation and disarmament, with a view to promoting peace and security;

4. Appeals once again to Member States, mainly to African countries, as well as to international governmental and non-governmental organizations and foundations, to make regular and appropriate voluntary contributions in order to revitalize the Regional Centre, strengthen its programmes of activities and facilitate the effective implementation of such programmes;

5. Requests the Secretary-General, in the light of the current financial situation of the Regional Centre, to intensify his efforts in exploring new ways and means of funding, and to continue to provide all necessary support to the Regional Centre for better achievements and results;

6. Also requests the Secretary-General to ensure that the Director of the Regional Centre is, as far as possible and within existing resources, locally based in order to revitalize the activities of the Regional Centre;

7. Further requests the Secretary-General to report to the General Assembly at its fifty-third session, under the item entitled "Review and implementation of the Concluding Document of the Twelfth Special Session of the General Assembly", on the activities of the United Nations Regional Centre for Peace and Disarmament in Africa, and on the implementation of the present resolution.

Recalling all the annual resolutions on the matter since the thirty-seventh session of the General Assembly, in 1982, including resolution 50/71 A of 12 December 1995,

Noting with satisfaction that the programme, as designed, continues to enable an increased number of public officials, in particular from the developing countries, to acquire more expertise in the sphere of disarmament,

Believing that the forms of assistance available to Member States, in particular to developing countries, under the programme will enhance the capabilities of their officials to follow ongoing deliberations and negotiations on disarmament, both bilateral and multilateral,

1. Reaffirms its decisions contained in annex IV to the Concluding Document of the Twelfth Special Session of the General Assembly<sup>12</sup> and the report of the Secretary-General<sup>12</sup> approved by the Assembly in its resolution 33/71 E of 14 December 1978;

- 51/47.        Review of the implementation of the  
recommendations and decisions adopted by  
the General Assembly at its tenth special  
session

Expansion of the membership of the Conference on Disarmament

The General Assembly,

Having considered the report of the Conference on Disarmament<sup>1</sup> and in particular the section concerning the expansion of the membership of the Conference,

Stressing the role of the Conference on Disarmament as the sole multilateral global negotiating body on disarmament,

Convinced that a more representative membership of the Conference on Disarmament from among the United Nations would contribute to the more effective pursuit of disarmament goals affecting the entire international community,

Recalling that, since 1978, when agreement was reached at the first special session of the General Assembly devoted to disarmament that the membership of the then Committee on Disarmament would be reviewed at regular intervals, there have been thirty-seven applications for membership in the Conference,

---

<sup>1</sup> Official Records of the General Assembly, Fifty-first Session, Supplement No. 27 (A/51/27).

Recalling also that, in 1993, the Special Coordinator for Membership of the Conference on Disarmament proposed that twenty-three applicants for membership should be admitted to the Conference and proposed further that a dynamic solution to the question of membership should be pursued,

Recalling further decision CD/1406 of the Conference on Disarmament, adopted at its 739th plenary meeting on 17 June 1996, admitting twenty-three countries as members of the Conference,<sup>2</sup>

Recalling its resolution 50/72 C of 12 December 1995, adopted without a vote, in which it urged that, following the presentation of progress reports by the President of the Conference, the other applicants to date be further considered by the Conference at its 1996 session,

Noting the request of the Conference on Disarmament that its President continue consultations on a further expansion of its membership and report to it at the beginning of its 1997 session,

1. Recognizes the legitimate aspirations of all countries that have applied for membership to participate fully in the work of the Conference on Disarmament;

2. Calls upon the Conference on Disarmament to consider all remaining applications for membership with a view to reaching a decision on its further enlargement before the end of its 1997 session.

6. Also reaffirms the role of the Disarmament Commission as the specialized, deliberative body within the United Nations multilateral disarmament machinery that allows for in-depth deliberations on specific disarmament issues, leading to the submission of concrete recommendations on those issues;

7. Encourages the Disarmament Commission to continue to make every effort to enhance its working methods so as to enable it to give focused consideration to a limited number of priority issues in the field of disarmament, bearing in mind the decision it has taken to move its agenda towards a three-item phased approach;

8. Requests the Disarmament Commission to continue its work in accordance with its mandate, as set forth in paragraph 118 of the Final Document of the Tenth Special Session of the General Assembly,<sup>5</sup> and with paragraph 3 of Assembly resolution 37/78 H of 9 December 1982, and to that end to make every effort to achieve specific recommendations on the items of its agenda, taking into account the adopted "Ways and means to enhance the functioning of the Disarmament Commission";<sup>6</sup>

Report of the Conference on Disarmament

The General Assembly,

Having considered the report of the Conference on Disarmament,<sup>1</sup>

Convinced that the Conference on Disarmament, as the single multilateral disarmament negotiating forum of the international community, has the primary role in substantive negotiations on priority questions of disarmament,

Considering, in this respect, that the present international climate should give additional impetus to multilateral negotiations with the aim of reaching concrete agreements,

1. Reaffirms the role of the Conference on Disarmament as the single multilateral disarmament negotiating forum of the international community;

2. Welcomes the determination of the Conference on Disarmament to fulfil that role in the light of the evolving international situation, with a view to making early substantive progress on priority items of its agenda;

RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the First Committee (A/51/566/Add.14)]

51/48.        The risk of nuclear proliferation in the  
Middle East

The General Assembly,

Bearing in mind the relevant United Nations resolutions,

Taking note of the relevant resolutions adopted by the General Conference of the International Atomic Energy Agency, the latest of which is resolution GC(40)RES/22 adopted on 20 September 1996, and noting the danger of nuclear proliferation, especially in areas of tension,

Cognizant that the proliferation of nuclear weapons in the region of the Middle East would pose a serious threat to international peace and security,

Mindful of the importance of placing all nuclear facilities in the region of the Middle East under full-scope safeguards of the International Atomic Energy Agency,

Recalling the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on 11 May 1995,<sup>1</sup> in which the Conference noted with concern the continued existence in the Middle East of unsafeguarded nuclear facilities, reaffirmed the importance of the early realization of universal

Recalling also the decision on principles and objectives for nuclear non-proliferation and disarmament adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on 11 May 1995,<sup>1</sup> in which the Conference urged universal adherence to the Treaty as an urgent priority and called upon all States not yet party to the Treaty to accede to it at the earliest date, particularly those States that operate unsafeguarded nuclear facilities,

Noting that, since the adoption of the aforementioned resolution and decision on 11 May 1995, Djibouti and the United Arab Emirates have become parties to the Treaty, and that Oman will become a party to the Treaty at the earliest date, and noting also that Israel shall be the only State in the Middle East that has not yet become a party to the Treaty and has not declared its intention to do so,

Concerned about threats posed to security and stability by the proliferation of nuclear weapons and other weapons of mass destruction in the region,

Stressing the importance of undertaking confidence-building measures, in particular the establishment of a nuclear-weapon-free zone in the Middle East, in order to consolidate the non-proliferation regime and enhance peace and security in the region,

Noting the adoption of the Comprehensive Nuclear-Test-Ban Treaty by the General Assembly<sup>3</sup> and its signature by one hundred and thirty-two States, including a number of States in the region,

1. Welcomes the accession of Djibouti to the Treaty on the Non-Proliferation of Nuclear Weapons<sup>2</sup> on 22 August 1996, as well as the decision of Oman, expressed by its Minister of State for Foreign Affairs before the General Assembly on 1 October 1996,<sup>4</sup> to accede to the Treaty;

2. Calls upon the only State in the region that is not yet party to the Treaty and has not declared its intention to do so, to accede to the Treaty without further delay, and not to develop, produce, test or otherwise acquire nuclear weapons and to renounce possession of nuclear weapons, and to place all unsafeguarded nuclear facilities under full-scope International Atomic Energy Agency safeguards as an important confidence-building measure among all States of the region and as a step towards enhancing peace and security;

Also recalling with satisfaction the adoption, on 13 October 1995, of the Protocol on Blinding Laser Weapons (Protocol IV),<sup>2</sup>

Welcoming the fact that the Review Conference of the States Parties to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects met at resumed sessions at Geneva from 15 to 19 January 1996 and from 22 April to 3 May 1996 and concluded its work,

Particularly welcoming the adoption on 3 May 1996 of the amended Protocol on Prohibitions or Restrictions on the Use of Mines, Booby Traps and Other Devices (Protocol II),<sup>3</sup>

Also recalling the role played by the International Committee of the Red Cross in the elaboration of the Convention and the Protocols annexed thereto,

Welcoming the national measures adopted by an increasing number of Member States relating to bans, moratoriums or restrictions on the transfer, use or production of anti-personnel landmines or to the reduction of existing stockpiles of such mines,

Desirous of reinforcing international cooperation in the area of prohibitions or restrictions on the use of certain conventional weapons, in particular for the removal of minefields, mines and booby traps,

Recalling, in this respect, its resolution 50/82 of 14 December 1995 and previous resolutions on assistance in mine clearance,

Noting with appreciation contributions pledged to the Voluntary Trust Fund for Assistance in Mine Clearance,

1. Registers its satisfaction with the report of the Secretary-General;<sup>4</sup>

2. Welcomes the fact that additional States have ratified or accepted the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects, which was opened for signature in New York on 10 April 1981, or have acceded to the Convention;
