

General Assembly

Fifty-first session

Distr.: General

21 February 1997

Original: English

Agenda item 153

Financing of the United Nations Mission in Bosnia and Herzegovina

Report of the Secretary-General

Addendum

Summary

The present report contains the financial performance report of the United Nations Mission in Bosnia and Herzegovina (UNMIBH), including the United Nations Mission of Observers in Prevlaka (UNMOP) and the Office of the Special Coordinator for Sarajevo, for the period from 1 January to 30 June 1996. An amount of \$43,849,300 gross (\$42,662,500 net) was appropriated by the General Assembly in its resolution 50/241 of 7 June 1996 for the maintenance of the Mission. The related expenditures amount to \$37,332,500 gross (\$36,161,700 net), resulting in an unencumbered balance of \$6,516,800 gross (\$6,500,800 net).

The unencumbered balance resulted primarily from delays in the deployment of civilian personnel, reduced rental requirements related to the deployment of the International Police Task Force (IPTF), the use of Government-provided helicopters on a when-actually-used basis rather than commercially provided helicopters and the availability of some equipment and supplies from surplus stock.

The action to be taken by the General Assembly, as set out in paragraph 8 of the present report, is a decision on the treatment of the unencumbered balance of \$6,516,800 gross (\$6,500,800 net), for the period from 1 January to 30 June 1996.

V. Planned and actual hours flown by helicopters for the period from 1 January to 30 June 1996		27

I. Introduction

1. By its resolution 1035 (1995) of 21 December 1995, the Security Council established, for a period of one year, a United Nations civilian police force to be known as the International Police Task Force (IPTF), to be entrusted with the responsibilities set out in annex 11 of the General Framework Agreement for Peace in Bosnia and Herzegovina and the annexes thereto (collectively the "Peace Agreement") (A/50/790-S/1995/999), and a United Nations civilian office with the responsibilities set out in the report of the Secretary-General of 13 December 1995 (S/1995/1031). This operation is referred to as the United Nations Mission in Bosnia and Herzegovina (UNMIBH).
2. The deployment of United Nations military observers in the Prevlaka peninsula was originally authorized by the Security Council in its resolution 779 (1992) of 6 October 1992. Although an independent mission, for administrative and budgetary purposes, the United Nations Mission of Observers in Prevlaka (UNMOP) is treated as part of UNMIBH.
3. The Office of the Special Coordinator for Sarajevo was established pursuant to paragraph 3 of Security Council resolution 900 (1994) of 4 March 1994. In his report of 13 December 1995 (S/1995/1031), the Secretary-General informed the Council that the functions of the Special Coordinator would cease with effect from 30 April 1996 and be subsumed in the arrangements to be established by the World Bank, the European Commission and others for rehabilitation and reconstruction of Bosnia and Herzegovina. The eight posts in the Special Coordinator's office were funded from the United Nations Peace Forces (UNPF) budget up to 31 December 1995, and were subsequently included in the UNMIBH budget for the period from 1 January to 30 April 1996.
4. The original cost estimates for the start-up and maintenance requirements of UNMIBH, as well as requirements for UNMOP and the Office of the Special Coordinator for Sarajevo for the period from 1 January to 30 June 1996, were set out in section IX.B of the report of the Secretary-General of 13 March 1996 (A/50/696/Add.4) and amounted to \$52,739,000 gross (\$50,794,600 net). The cost estimates provided for the deployment of up to 28 military observers, 1,721 civilian police, 252 international staff and 905 local staff. Subsequently, as a result of the expectation of deploying to 53 locations instead of the 109 municipalities initially envisaged, as indicated in paragraph 7 of the report of the Secretary-General to the Security Council of 29 March 1996 (S/1996/210 and Corr.1), and owing to delays in the deployment of civilian personnel, the Advisory Committee on Administrative and Budgetary Questions, in its report of 6 May 1996 (A/50/903/Add.1), recommended that the cost estimates be reduced by a total of \$8,889,700 gross (\$8,132,100 net), as follows: (a) military observers — \$88,800; (b) death and disability compensation — \$24,500; (c) civilian police — \$1,146,700; (d) international and local staff — \$5,054,200; (e) premises — \$495,800; (f) infrastructure repairs — \$120,000; (g) communications equipment — \$586,500; (h) contractual services — \$137,200; (i) miscellaneous supplies — \$48,800; (j) support account for peacekeeping operations — \$429,600; and (k) staff assessment — \$757,600.
5. By its resolution 50/241 of 7 June 1996, the General Assembly appropriated the amount of \$43,849,300 gross (\$42,662,500 net) for the start-up and maintenance costs of UNMIBH for the period from 1 January to 30 June 1996. That amount has been assessed on Member States.

II. Financial performance report for the period from 1 January to 30 June 1996

6. Annex I to the present report sets out, by budget line item, the original cost estimates of the Secretary-General for UNMIBH (column 1) as contained in annex II of document A/50/696/Add.4, the revised apportionment in accordance with the appropriation provided by the General Assembly in its resolution 50/241 (column 2), non-recurrent expenditures (column 3), recurrent expenditures (column 4) and unliquidated obligations (column 6). Supplementary information in respect of the expenditures is contained in annex II. The revised and actual deployment of civilian and military personnel is shown in annex III,

while the revised and actual deployment of civilian staff is presented in annex IV. The planned and actual hours flown by helicopters is shown in annex V.

7. Expenditures total \$37,332,500 gross (\$36,161,700 net), resulting in an unencumbered balance of \$6,516,800 gross (\$6,500,800 net). The unencumbered balance resulted from savings primarily attributable to: (a) delays in the deployment of civilian personnel; (b) reduced rental requirements related to the deployment of IPTF; (c) the use of two Government-provided helicopters on a when-actually-used basis rather than commercially rented helicopters; and (d) the provision of some equipment and supplies from surplus stock from other United Nations peacekeeping operations.

III. Action to be taken by the General Assembly at its fifty-first session

8. The action to be taken by the General Assembly at its fifty-first session in connection with the financing of UNMIBH, including UNMOP, is a decision on the treatment of the unencumbered balance of \$6,516,800 gross (\$6,500,800 net) for the period from 1 January to 30 June 1996.

22. Voluntary contributions in kind (non-budgeted)						72
Total resources		42 662 500	36 161 700			

B. Supplementary explanation

Savings/(overruns)
(United States dollars)

1. Military personnel costs

(a) Military observers 21 100

1. In a letter dated 7 March 1996 (S/1996/174), the President of the Security Council informed the Secretary-General that the Council had agreed to his proposal to deploy five military liaison officers to the United Nations Mission in Bosnia and Herzegovina (UNMIBH) in order to strengthen the liaison arrangements between the Mission and the Implementation Force (IFOR). Three of these officers were first deployed in the Mission in June 1996. No provision was made for these officers in the cost estimates that were finalized before the proposal was made to the Security Council.

2. *Mission subsistence allowance.* Savings of \$10,800 occurred under this heading.

3. *Travel costs.* Based on the revised deployment schedule, requirements for travel were estimated at \$42,000 for 28 deployment trips at \$1,500 per trip. Savings of \$10,000 resulted from the transfer of military observers already in the mission area.

4. *Clothing and equipment allowance.* The revised cost estimate provided for the pro-rata payment of clothing and equipment allowance of \$200 per annum to an average strength of 19 military observers during this six-month period. This allowance is payable in two instalments, \$100 upon arrival in the mission area and \$100 after six months of service. The expenditure of \$1,600 represents the payment of claims for only 16 of the 31 observers deployed during this period.

(b) Military contingents —

5. No provision was made under this heading.

(c) Other costs pertaining to military personnel —

6. No change.

2. Civilian personnel costs

(a) Civilian police 1 827 400

7. There were 280 civilian police in the mission area on 31 December 1995. This number was less than the strength of 2,347 police that had been authorized by the Security Council for the three operations, as follows: 1,721 for UNMIBH, 600 for the United Nations Transitional Administration for Eastern Slavonia, Baranja and Western Sirmium (UNTAES) and 26 for the United Nations Preventive Deployment Force (UNPREDEP). The cost estimates were based on the transfer of all 280 police to the new missions and the rotation of half of them during this six-month period. Out of the total of 280 police in the former Yugoslavia on 31 December 1995, 86 were with the United Nations Protection Force (UNPROFOR). It was assumed that they would remain in Bosnia and Herzegovina.

8. *Mission subsistence allowance.* Savings of \$2,558,400 occurred under this heading.

9. *Travel costs.* An overrun of \$684,000 occurred under this heading.

10. *Clothing and equipment allowance.* Provision was made for the pro-rata payment of clothing allowance at the rate of \$200 per annum per person for an average of 1,025 civilian police (\$102,500). However, civilian police were paid clothing allowance in two lump sums, \$100 at the time of their emplacement and \$100 after six months of service. The expenditure of \$149,500 represents the payment of claims to 1,495 of the 1,615 civilian police deployed during this period.

(b) *International and local staff* (630 300)

11. *International staff salaries.* The proposed staffing table for this period consisted of 1,295 posts, including 120 Professional and above, 144 Field Service, 121 General Service, 3 Security Service and 907 local level posts. It was anticipated that only 64 per cent of the posts would be filled by 30 June 1996. The reduced apportionment provided for the deployment of a total of 591 person-months, while actual requirements amounted to 575. However, since more Professional posts were filled than General Service posts (328 person-months compared to 295 planned person-months) a modest overrun of \$16,000 occurred. The details are shown in table 1 below.

Table 1 **Planned and actual number of person-months for international staff**

<i>Grade level</i>	<i>Planned</i>	<i>Actual</i>	<i>Difference</i>
Professional category and above			
USG	0	0	0
ASG	7	7	0
D-2	7	6	-1
D-1	15	17	2
P-5	39	40	1
P-4	107	119	12
P-3	105	129	24
P-2	15	10	-5
Subtotal	295	328	33
General Service and related categories			
Field Service	94	96	2
General Service (Principal level)	12	10	-2
General Service (Other levels)	177	131	-46
Security Service	13	10	-3
Subtotal	296	247	-49
Total	591	575	-16

12. *Local staff salaries.* The overrun of \$701,400 was due mainly to the obligation of funds to provide for the 70 per cent increase in local salary scales approved on 15 July 1996, effective 1 February 1996.
13. *Overtime.* Savings of \$21,600 under this heading resulted from the observance of strict control over expenditures.
14. *Common staff costs.* An overrun amounting to \$283,400 resulted from the inclusion of local staff in the United Nations Joint Staff Pension Fund, for which no provision had been made in the cost estimates.
15. *Mission subsistence allowance.* The reduced apportionment provided for an average of 99 international staff deployed at the beginning of each month. Savings of \$317,400 were due to a lower average strength of 96 staff, as well as deployment of staff towards the end of the month.
16. *Other travel costs.* Provision in the amount of \$78,000 was provided for the cost of trips between the mission area and New York, as well as to the United Nations Peace Forces (UNPF) headquarters in Zagreb, in connection with support to be provided in the start-up phase of the Mission. Actual requirements were \$46,500, resulting in savings of \$31,500.

- (c) *International contractual personnel* (630 300)
17. No provision had been made in respect of international contractual personnel. However, owing to the scarcity of qualified staff to perform technical functions required in connection with the start-up phase of the Mission, international contractual personnel whose contracts with UNPF terminated in April or May 1996 were transferred to UNMIBH to carry out these functions, resulting in unforeseen requirements of \$443,700.
- (d) *United Nations Volunteers* —
18. No provision was made under this heading.
- (e) *Government-provided personnel* —
19. No provision was made under this heading.
- (f) *Civilian electoral observers* —
20. No provision was made under this heading.
- 3. Premises/accommodation 1 185 800**
21. *Rental of premises.* The cost estimates for rental of premises amounted to \$931,300, consisting of \$912,000 for UNMIBH (the Sarajevo headquarters and 3 regional headquarters, as well as 55 land leases and 54 commercial leases for police stations) and \$19,300 for the United Nations Mission of Observers in Prevlaka (UNMOP) (land leases for the headquarters and observation posts). While the cost estimates provided for 55 land leases for UNMIBH, actual requirements were for only one lease, resulting in savings of \$56,700 under this heading.
22. *Alteration and renovation of premises.* It was initially planned to renovate the Mission headquarters in Sarajevo, 3 regional headquarters and 109 police stations. However, changes in the number of police stations (from 109 to 53), as well as lack of qualified personnel to perform the appropriate renovations, resulted in savings of \$516,300.
23. *Maintenance supplies.* The original estimate was based on historical data relating to the UNPROFOR presence in the area and was prepared at a time when prices were at a premium. Savings amounted to \$231,800.
24. *Maintenance services.* Savings amounted to \$142,800 for the reasons stated in paragraph 23 above.
25. *Utilities.* The cost estimate was prepared when the gas, water and electrical power infrastructure in Bosnia and Herzegovina was heavily damaged and services were at a premium. Savings amounted to \$145,300.
26. *Construction/prefabricated buildings.* It was initially envisaged that 55 containerized facilities would be utilized, for which refurbishment of 100 accommodation containers, 50 ablution units and 6 tent halls (\$81,000), as well as site preparation costs (\$11,900), would be required. However, civilian police deployed mainly to rented premises, with the result that only one containerized facility was required out of the 55 envisaged. As a result, no expenditures were incurred under this heading.
- 4. Infrastructure repairs 280 000**
27. *Upgrading of roads.* While provision under this heading provided for minor road and parking repairs in connection with 55 land leases, which were to accommodate containerized police stations, actual requirements were only for one land lease. No expenditures were incurred under this heading.
- 5. Transport operations 395 800**
28. Requirements for operating costs under this heading were based on the transfer of 1,030 vehicles from UNPF to UNMIBH in accordance with the preliminary disposition of UNPF assets shown in annex XVI of document A/50/696/Add.4.

- 29. *Rental of vehicles.* Provision was made for the rental of specialized equipment for short periods of time for engineering works to assist in setting up the regional police stations in the mission area. Since no road repairs were carried out during the budget period, there was no need to rent specialized vehicles.
- 30. *Workshop equipment.* There was an unforeseen requirement of \$400 under this heading.
- 31. *Spare parts, repairs and maintenance.* The cost estimates provided for 4,687 civilian pattern vehicle-months and 8 rented vehicle-months at \$100 per vehicle per month, as well as for 198 trailer-months at \$80 per vehicle per month, reduced by a 25 per cent factor to account for vehicles that would be out of service for repairs and for the delayed deployment of civilian personnel. Modest savings of \$5,600 under this heading resulted from the slower transfer of vehicles to UNMIBH than envisaged, partially offset by high maintenance costs because of the condition of the vehicles.
- 32. *Petrol, oil and lubricants.* The cost estimates were based on requirements of \$221 per vehicle per month as well as for a 10 per cent estimate of fuel consumption for lubricants. Additionally, a 25 per cent reduction factor accounted for delayed deployment of civilian personnel. Savings amounting to \$341,000 were the result of delays in the transfer of vehicles from UNPF.
- 33. *Vehicle insurance.* No change.

6. Air operations

- (a) *Helicopter operations* 629 700
- 34. *Hire/charter costs.* Savings under this heading resulted from the use of two MI-8T government-provided helicopters under letter-of-assist arrangements instead of two commercially rented Bell 212 helicopters. These helicopters were based at UNTAES and were used by UNMIBH whenever required.
- 35. *Aviation fuel and lubricants.* Since the two MI-8R helicopters were based at UNTAES, expenditures under this heading were charged to the UNTAES budget.
- 36. *Liability and war risk insurance.* No change.
 - (b) *Fixed-wing aircraft* —
- 37. No provision was made under this heading.
 - (c) *Aircrew subsistence allowance* 8 400
- 38. No compensation for overnights out of the mission area was required. Savings, therefore, amounted to \$8,400.
 - (d) *Other air operation costs* 23 300
- 39. *Air traffic control services and equipment.* Modest savings of \$500 occurred under this heading.
- 40. *Landing fees and ground handling.* Provision was made for costs associated with landing fees and ground handling at Sarajevo airport. However, no expenditures were incurred since the airport remained under the control of the Implementation Force. Thus, savings amounted to \$22,800.

7. Naval operations —

- 41. No provision was made under this heading.

8. Communications

- (a) *Complementary communications* 681 300
- 42. *Communications equipment.* Savings of \$276,000 occurred under this heading because equipment from closing peacekeeping missions was redirected to meet some of the requirements.

43. *Spare parts and supplies.* Savings of \$117,200 were realized under this heading because spare parts were provided from UNPF stock.
44. *Workshop and test equipment.* No expenditure occurred under this heading because all requirements were met through UNPF stock.
45. *Commercial communications.* Savings of \$600 occurred under this heading.
(b) *Main trunking contract* —
46. No provision was made under this heading.
- 9. Other equipment** **737 900**
47. *Data-processing equipment.* The estimate provided for the installation of local area networks at mission headquarters and regional and district headquarters. However, no networks were installed at the district headquarters, resulting, in savings of \$199,500.
48. *Medical and dental equipment.* The cost estimates provided for the acquisition of basic medical equipment, the purchase of which was postponed to the 1997/98 budget period.
49. *Field defence equipment.* The unforeseen requirement amounting to \$14,600 related to the purchase of an alarm system to increase security at the vaults as well as in the cashier's office.
50. *Spare parts, repairs and maintenance.* Most requirements for spare parts were met from UNPF stock, resulting in savings in the amount of \$438,000.
- 10. Supplies and services**
- (a) *Miscellaneous services* **597 000**
51. *Contractual services.* The estimate under this heading was based on historical data relating to the presence of UNPROFOR in the mission area. Reduced requirements of \$128,000 resulted in savings in the amount of \$155,200, as shown in table 2 below:

Table 2

Contractual services

	<i>Estimated</i>	<i>Actual</i>	<i>Difference</i>
Cleaning of septic/fuel tanks	50 000	3 720	46 280
Cleaning of premises/garbage removal	221 200	105 380	115 820
Technical repair	10 100	17 530	(7 430)
Funeral services	1 900	1 370	530
Total	283 200	128 000	155 200

52. *Security services.* Except for the Energoinvest building at Ilidza, where commercially provided surveillance was required, police stations were able to guarantee their own security. Thus, savings of \$226,300 were realized under this heading.
53. *Medical treatment and services.* No commercially provided medical services were necessary during the budget period.
54. *Claims and adjustments.* Savings of \$188,500 resulted because fewer claims were submitted and processed than estimated for the budget period.
55. *Official hospitality.* Savings amounting to \$6,800 resulted from reduced requirements.

56. *Miscellaneous other services*. Savings of \$8,200 were realized under this heading.
- (b) *Miscellaneous supplies* 463 100
57. Savings amounting to \$499,100 occurred under most areas of miscellaneous supplies because stocks that had built up in UNPF were distributed to the Mission. These savings were partially offset by additional requirements for subscriptions (\$400) and miscellaneous supplies (\$200).
11. **Election-related supplies and services** —
58. No provision was made under this heading.
12. **Public information programmes** 93 100
59. *Materials and supplies*. No expenditure occurred under this heading because requirements were met through UNPF surplus stock.
60. *Contractual services*. Some of the estimated services required were provided in-house. Thus, savings of \$16,900 occurred under this heading.
61. *Department of Public Information production costs*. No expenditure occurred under this heading.
13. **Training programmes** 99 600
62. *Consultants*. Delays in the recruitment of personnel resulted in delays or cancellation of training programmes. Savings, therefore, amounted to \$99,600.
14. **Mine-clearing programmes** 221 700
63. No expenditure occurred under this heading because the mine-clearing programme was taken over by the Implementation Force.
15. **Assistance for disarmament and demobilization** —
64. No provision was made under this heading.
16. **Air and surface freight** 309 600
65. *Commercial freight and cartage*. Since most of the equipment and supplies required were provided from UNPF surplus stock, savings of \$309,600 were realized under this heading.
17. **Integrated Management Information System** —
66. No provision was made under this heading.
18. **Support account for peacekeeping operations** —
67. The full amount allocated was transferred to the support account for peacekeeping operations.
19. **Staff assessment** 16 000
68. *International staff*. Requirements for a different mix of post levels (more Professional and fewer General Service posts) resulted in an overrun of \$11,700.

69. *Local staff.* While the reduced apportionment provided for staff assessment for an average of 301 local staff, requirements were only for an average of 261. Savings, therefore amounted to \$27,700.
20. **Income from staff assessment** (16 000)
70. This amount is derived from item 19 above.
21. **Voluntary contributions in-kind (budgeted)** —
71. No provision was made under this heading.
22. **Voluntary contributions in kind (non-budgeted)** —
72. No provision was made under this heading.

Annex III

A. Planned and actual deployment of civilian and military personnel for the period from 1 January to 30 June 1996
