In conveying to you the details of these Turkish violations, the Government of Iraq expresses its condemnation of such acts of military aggression. It does so because the practices of the Turkish forces, as represented by their repeated

shelling of towns and villages in Iraq and their unlawful incursions into Iraqi territory, are in flagrant violation of Iraq's sovereignty and the inviolability of its territory and airspace, just as they are incompatible with relations of good-neighbourliness, the Charter of the United Nations, the norms of international law and the 1926 Iraq-Turkey boundary agreement. These practices may also undermine stability in the region as a whole, which is suffering primarily from the anomalous situation created by the United States of America and its allies in northern Iraq.

As stated in my previous letter, the Turkish Government bears full international responsibility for the acts of aggression it commits inside Iraqi territory and for all their consequences, regardless of the alleged reasons it gives.

The Government of Iraq reserves its legitimate right under international law to seek compensation for the damage caused by these Turkish violations of its territory and its airspace and for the human suffering inflicted on Iraqi citizens by these actions. Through you, it renews its call to the Government of Turkey to reconsider its policy with respect to the situation in northern Iraq, to promote the collaboration of the two countries on the basis of considerations of good-neighbourliness and mutual respect for sovereignty and to eliminate the reasons for the persistence of a situation that jeopardizes the interests of both countries.

As, through you, I reiterate my country's call to its Turkish neighbour to respect Iraq's sovereignty and territorial integrity, I express the hope that the United Nations will meet its responsibilities as laid down in the Charter and that it will halt the intimidation and aggression to which my country is constantly being subjected.

I should be grateful if you would have this letter circulated as a document of the Security Council.
