Provisional agenda and annotations

Item 3 - Examine and review existing agreements on investment and their development dimensions in pursuance of the mandate of paragraph 89 (b) of "A Partnership for Growth and Development"

3. The Commission on Investment, Technology and Related Financial Issues, at its first session (November 1996/January 1997), decided to convene a meeting to examine and review existing agreements on investment, taking into account the interests of developing countries, and bearing in mind the work undertaken by other organizations, in pursuance of the mandate of paragraph 89 (b) of 'A Partnership for Growth and Development' to identify and analyze the implications for development of issues relevant to a possible multilateral framework on investment".

4. Agreements on investment exist at the bilateral, regional and multilateral levels. The number of such agreements has increased steadily over the past half-century. Taken together, they cover a wide range of issues and reflect the changing perceptions and trends in this area. Moreover, a number of initiatives taken recently have placed issues relating to foreign direct investment high on the international economic policy agenda, raising the possibility of increased international cooperation in this area.

5. As a step towards a broader discussion of issues relevant to a possible multilateral framework on investment (MFI), the present Meeting of Experts is invited to focus on bilateral investment treaties (BITs), since the issues covered in BITs, the ways in which these issues are dealt with, and the impact

of BITS, are directly pertinent to discussions on a possible MFI. Moreover specifically, experts may wish to explore (a) the nature and implications of BITS; (b) the range of issues that is addressed by these treaties; (c) the extent to which the development dimension is taken into account; and, above all, (d) the extent to which issues arising in the context of BITS are relevant to a possible MFI.

6. To assist the experts, the secretariat has prepared an issues paper which draws on a larger study entitled Bilateral Investment Treaties in the 1990s. In addition, countries have also been invited to prepare country papers on the above-mentioned issues and questions. The broader context in which these discussions take place is laid out in the World Investment Report, 1996 : Investment, Trade and International Policy Instruments, Part Three; and relevant international investment instruments are contained in International Investment Instruments: A Compendium.
