Draft resolution A/C.3/51/L.42 on the report of the United Nations High Commissioner for Human Rights

1. Mr. VALENCIA RODRIGUEZ (Ecuador) expressed satisfaction that the report of the United Nations High Commissioner for Human Rights (A/51/36) reaffirmed the need to promote respect for human rights, strengthen peace and security and promote development. The promotion and protection of human rights must be an integral part of the work of the United Nations, particularly in view of the continuing violations of human rights and fundamental freedoms taking place throughout the world. It was essential to secure the cooperation of Governments in order to ensure respect for human rights. The work done by the High Commissioner to that end by visiting various capitals or meeting with government representatives was a basic part of his mandate and should continue in the future. All Governments were urged to cooperate with the High Commissioner and to maintain a positive dialogue with him. Cooperation between the Office of the High Commissioner/Centre for Human Rights and the competent United Nations specialized agencies and other bodies and programmes should also be encouraged, since the promotion and protection of human rights must be a joint effort.

2. He noted with satisfaction that the Office and the Centre were providing financial assistance to the African Commission on Human and Peoples' Rights. Such assistance should be extended to other regional bodies which required it. It was also gratifying to note the expansion of the Centre's technical cooperation programmes in various fields. In view of the increasing number of requests for assistance from Governments, it was essential to increase the resources of the Voluntary Fund for Technical Cooperation and, in particular, to ensure greater participation by the international financial institutions. He noted with satisfaction that the Office and the Centre had also taken timely action to promote preventive measures, which were important for alerting Governments and international agencies to the danger of potential human rights violations.
