and 69

Letter dated 18 September 1981 from the Permanent Representative of
Romania to the United Nations addressed to the Secretary-General

Corrigendum

Annex II, page 1

The first paragraph should read

Meeting in Bucharest on 4 and 5 September 1981 for the Symposium "Scientists and Peace" in order to discuss, in a wide-ranging and fruitful dialogue, the fundamental issue of the present day - peace, to which all mankind nobly aspires - we, the scientists from many countries of the world and from all continents, aware of the serious hazards which arms represent for mankind, aware of the contribution which science and its servants may make to the halting of the arms race, to continuing progress and to the future of the whole world, urgently appeal to scientists, researchers and intellectuals everywhere, and to all peoples, to join forces and co-operate ever more closely in defence of peace, the supreme good of mankind.
