TRADE AND DEVELOPMENT BOARD  
Sixteenth Executive Session  
Geneva, 16 February 1998  
Item 6 of the provisional agenda

**UNCTAD'S TECHNICAL COOPERATION PLAN FOR 1998-2000**

Note by the UNCTAD secretariat

1. UNCTAD IX, in paragraph 96 of "A Partnership for Growth and Development" (TD/378), invited the Board to consider annually "an indicative rolling three-year plan for technical cooperation".
2. The Trade and Development Board, at its forty-fourth session, in October 1997, requested the secretariat "to prepare the rolling-three year technical cooperation plan for 1998-2000 for consideration by the Working Party at the second part of its thirtieth session in December 1997 and thereafter by the Trade and Development Board at its first executive session in 1998, with a view to rationalizing the technical cooperation plan" (decision 444(XLIV)).
3. The Working Party, at its session in December 1997, considered the Technical Cooperation Plan for 1998-2000 and requested the secretariat when transmitting it to the Board to incorporate comments and suggestions made by members of the Working Party. The Plan as submitted herewith is therefore an updated version of that presented to the Working Party.
4. UNCTAD's Technical Cooperation Plan for 1998-2000 has two parts: part I contains the summary tables, while part II contains the working sheets on which those tables are based.

5. The Plan is intended to implement the Technical Cooperation Strategy of UNCTAD adopted by the Board at its fifteenth executive session in June 1997.<sup>1</sup> It is intended to:

- (a) Inform delegations, cooperating organizations and other interested parties of the operational activities UNCTAD has undertaken in 1997 and those which have been approved for 1998 and subsequent years as well as those which the secretariat is proposing for the period 1998-2000;
- (b) Facilitate discussions with potential donors on the mobilization of the necessary extrabudgetary resources to implement the plan; and
- (c) Serve as the secretariat's monitoring tool.

6. The information contained herein is divided into:

- (a) Actual expenditures incurred in 1997, as of 31 October 1997;
- (b) Approved/ongoing activities for which projects are being implemented in accordance with project documents agreed with donor(s); and
- (c) New or proposed activities. Inclusion of such proposals in the Plan is based on one or more of the following considerations:
  - (i) An explicit request from a developing country or country in transition, accepted by the secretariat subject to the mobilization of the necessary funds; or
  - (ii) Implementation of action requested by UNCTAD IX, the Board or a Commission; or
  - (iii) Implementation of the work programme set out in the programme narrative for the UNCTAD programme budget for 1998-1999.

7. Since part of the Plan is contingent on the mobilization of additional resources, it follows that by no means all of the new proposals will in fact be carried out. In addition, new requests will be received and existing proposals may be modified, thereby necessitating constant modifications to the Plan.

#### **I. Main features of the Plan**

8. The subject matter of the projects is in line with the contents of "A Partnership for Growth and Development" and in particular with the areas of focus mentioned in paragraph 97 thereof. These areas of

---

<sup>1</sup> In March 1997, at its fourteenth executive session, the board took note of the Technical Cooperation Plan for the period 1997-1999.

focus, which correspond to the four work programme areas of the secretariat, are recalled in the respective working sheets of the Division concerned.

9. The Plan forecasts an expansion of UNCTAD's technical cooperation activities, on the basis of projects approved and about to be approved. Delivery in 1997 is estimated at about \$24 million. This should increase by about 10 per cent in 1998. Expansion is taking place in each of the four main areas of UNCTAD's work (summary table 1), i.e. there is no significant shift in activities among programmes. The operationally oriented activities of the Division for Services Infrastructure for Development and Trade Efficiency remain by far the single largest programme.

10. There has been a distinct shift in activities favouring least developed countries (summary table 3), in accordance with the Technical Cooperation Strategy of UNCTAD adopted by the Trade and Development Board in June 1997. It is estimated that 39 per cent of approved and 72 per cent of pipeline activities will take place in those countries.

11. The data for least developed countries do not include the full range of activities to be carried out by UNCTAD as follow-up to the Integrated Framework launched at the recent High-Level Meeting on Integrated Initiatives for Least Developed Countries Trade Development. Costed activities which have been the subject of discussions between UNCTAD and individual Least Developed Countries are included, but this is only a part of the anticipated follow-up.

12. Summary table 2 shows the distribution of expenditures by region, a subject of concern to delegations. Roughly 37 per cent of approved and pipeline activities will take place in Africa and a further 19 per cent in Asia and the Pacific. About 5 per cent will take place in Latin America and the Caribbean and 13 per cent in the transition economies of Central and Eastern Europe. Discussions are under way with Latin American and Caribbean countries to seek additional sources of support for UNCTAD's technical cooperation activities of interest to the region, consistent with an anticipated increase in activities in the region.

13. Activities included in the column "1998-2000 proposed" reflect the considerations set out in paragraph 5 above. The estimated amount of such proposals totals about \$114 million. Not all such proposals will come to fruition, since many of the projects have to be designed and agreed between the beneficiary, the donor and the UNCTAD secretariat. Of those that do materialize, not all of the proposed budget will be spent in the period 1998-2000, since actual delivery will depend on the starting date of each project.

14. The recently approved joint UNDP/UNCTAD programme on "Globalization, Liberalization and Sustainable Human Development" is not included in the working sheets. This programme is designed to enhance the ability of low-income countries to accede to the benefits of globalization for the pursuit of sustainable human development. UNDP resources will amount to about \$2.5 million over the three-year period 1998-2000. The programme will be attached to the Office of the Deputy Secretary-General of UNCTAD and will involve close cooperation with all parts of the secretariat.

## II. Explanation of the tables and working sheets

15. The figures in the column "1997 expenditures" reflect expenditures as of 31 October 1997. The second column, "1998-2000", is divided into "approved", "pipeline" and "proposed". Funds in the "approved" column reflect approved projects whose funds are to be disbursed within the period 1998-2000. Funds in the "pipeline" column show budgets for projects that are being considered by donors and are close to approval. Funds in the "proposed" column reflect estimates of expenditures which could be implemented should funding become available. All figures are exclusive of support costs.

16. Since part of the Plan is contingent on the mobilization of additional resources, it follows that by no means all of the new proposals will in fact be carried out.

17. There are three summary tables:

Table 1 presents the data by Divisions;

Table 2 presents the same data by region;

Table 3 shows the activities directed to the least developed countries.

18. The main part of the document contains the working sheets which present projects or project groups (e.g. ASYCUDA) by Division and by Branch/Section within each Division.

19. The project numbers, and information on donors appearing in the working sheets, refer to approved projects only. Whenever the same activities are proposed for continuation, project numbers may differ.

20. Projects whose titles appear in bold and in italics were listed in the previous Plan. Projects whose titles appear in bold and in small capital letters are included in the Plan for the first time. Such projects, when not yet approved, are identified as "proposed".

21. Beneficiary countries identified by name have made explicit requests to the secretariat for the technical cooperation activities set out in the Plan.

22. At its thirtieth session in December 1997, members of the Working Party on the Programme Budget and Medium-term Plan made suggestions to improve the presentation of information in the Plan. Most have been included in the updated Plan now submitted to the Board. Others will be acted upon for the next three-year plan, 1999-2001, to be prepared by the secretariat at the end of 1998.

**UNCTAD's technical cooperation  
Least developed countries**

(thousands of US dollars)

		<b>1997 Expenditures</b> (as at 31.10.97)	<b>Approved <u>a/</u></b>	<b>1998-2000 Pipeline <u>a/</u></b>	<b>Proposed <u>a/</u></b>
[1]	Country projects in LDCs	3 953	6 487	1 322	19 561
[2]	Estimate of inter-country project expenditures directed towards LDCs <u>b/</u>	4 436	7 295	4 109	23 835
[3]	Total expenditures related to LDCs	8 389	13 782	5 341	43 396
[4]	Total UNCTAD technical cooperation expenditures	19 218	35 169	7 563	114 270
[5]	Share of LDCs in UNCTAD's technical cooperation, i.e. [3]/[4]	44%	39%	72%	38%

a/ See paragraph 12 of the covering note.

b/ Secretariat estimate. This calculation was made on the following basis: actual expenditures on inter-country projects exclusively concerning LDCs; plus for all other inter-country projects, 30% of interregional project expenditures; 60% of project expenditures in Africa; 20% of project expenditures in Asia and the Pacific; 0% of project expenditures in Latin America and the Caribbean; and 0% of project expenditures in Europe.

### **Division on Globalization and Development Strategies**

1. Extract from paragraph 97 of “A Partnership for Growth and Development”:  
“UNCTAD's technical cooperation should be determined by its work programme  
priorities  
... and should focus on the following areas:
  - (I) Globalization and development:
    - Assistance in examining specific development challenges regarding effective participation in international trade and investment;
    - Providing continued support for debt management.”

		<b>1997</b> <b><u>Expenditures</u></b> (as at 31.10.97)	<b><u>Approved</u></b>	<b>1998-2000</b> <b><u>Pipeline</u></b>	<b><u>Proposed</u></b>
<b>I</b>	<b>Division on Globalization and Development Strategies</b>				
<b>A</b>	<b><u>Activities related to Macro-economic and Development Policies:</u></b>				
1	<i>Technical support to the Inter-government Group of Twenty-four on International Monetary Affairs.</i> The projects aim at strengthening the G-24 in its efforts to build the necessary capacity of developing countries for making meaningful contributions to the design of the international monetary and financial system and strengthening their ability to cope with the consequences of interdependence. (INT/89/A15, G-24 countries); (INT/91/A21, Netherlands); (INT/96/A61, Canada/IDRC); (INT/93/A30, Denmark).	155	300		600
2	<b>INTERNATIONAL CONFERENCE ON ECONOMIC DEVELOPMENT AND REGIONAL DYNAMICS IN AFRICA: LESSONS FROM THE EAST ASIA DEVELOPMENT EXPERIENCE</b> (RAF/97/A28, Japan). The Conference is to provide senior officials from Governments and relevant international organizations with an opportunity to reflect on the relevance of the East Asian development experience and to identify action-oriented development strategies for Africa, promote investment and exports, and stimulate regional dynamics, particularly in Southern Africa. The project involves pre-conference preparation and post-conference follow-up.		235		
3	<u>Proposed project:</u> <i>Macro-economic policies, income distribution and poverty</i>				280
<b>B</b>	<b><u>Globalization, Development and Debt Management</u></b>				
(i)	<u>Globalization, Finance and Sustainable Development</u>				
1	<i>Mauritius - Support to Capacity Building for Economic and Social Development</i> (MAR/93/005, UNDP). This project encompasses advice on Competition Law and Policy (DITC) and on Financial Strategies (GDS). The latter will include training on financial risk management (MAR/97/001, UNDP) as follow-up to a report prepared for the Ministry of Finance on debt and financial strategies.	89	31	15	150

		<b><u>Expenditures</u></b>	<b><u>Approved</u></b>	<b><u>Pipeline</u></b>	<b><u>Proposed</u></b>
		(as at 31.10.97)			
<u>Division on Globalization and Development Strategies (cont'd)</u>					
2	<i>Development of a pilot scheme for trading GHG emissions</i> (INT/91/A29, Norway, USA). The project seeks to encourage a better understanding of the role and benefits of market-based instruments in achieving cost-effective greenhouse gas emissions abatement.	131	114		
3	<u>Proposed project</u> : <b>LAUNCHING A PLURILATERAL GREENHOUSE GAS EMISSION TRADING SYSTEM</b>				2 500
4	<u>Proposed project</u> : <b>COOPERATIVE IMPLEMENTATION OF COMMITMENTS UNDER THE UN FRAMEWORK CONVENTION ON CLIMATE CHANGE</b> , risks and opportunities for developing countries (joint implementation and emissions trading)				900
5	<u>Proposed project</u> : <b>ENHANCING THE CAPACITY OF LDCs TO ATTRACT FOREIGN INVESTMENT THROUGH VENTURE CAPITAL FUNDS</b> (follow-up to pilot seminar, held in 1997). The purpose is to build the capacity of LDCs to attract risk capital through venture capital funds and to organize regional seminars to enable foreign investors to become acquainted with investment opportunities in LDCs.				330
6	<u>Proposed project</u> : <i>Building and strengthening trade financing facilities in developing countries for effective participation in global trade</i>				150
7	<b>FEASIBILITY OF CREATING PRIVATE RISK CAPITAL FUNDS IN TOURISM/AGRO-INDUSTRIES AND INFRASTRUCTURE IN LDCs (INT/97/A12, NORWAY)</b> . The purpose is to explore investment opportunities in the sectors of tourism, agro-industries and infrastructure in LDCs and the feasibility of attracting funds for investment in these sectors; the preliminary results were presented at the Pilot Seminar on Foreign Investment in LDCs in June 1997. A publication on these investment opportunities will be shortly sent to potential investors.	75	60

**Division on International Trade in Goods and Services, and Commodities**

1. Extract from paragraph 97 of “A Partnership for Growth and Development”:

“UNCTAD's technical cooperation should be determined by its work programme priorities ... and should focus on the following areas:

- (ii) International trade in goods and services, and commodity issues:
  - Enhancing institutional and human capacities in order for developing countries to analyse new and emerging issues and to benefit from the opportunities arising from participation in the multilateral trading system and to comply with the obligations in this respect;
  - Assisting developing countries in the area of trade and environment, including through the use of country case studies;
  - Supporting strategies in promoting national competition and consumer protection law and policy formulation;
  - Contributing to vertical and horizontal diversification in commodity-dependent countries and promoting the use of risk-management instruments in favour of producers and exporters;
  - Contributing to a better utilization of preferences through improved familiarization with GSP and other preferential trading arrangements;
  - Assisting developing countries, in coordination with WTO, in accessing data on trade in services.”

	<b>1997</b> <b><u>Expenditures</u></b> (as at 31.10.97)	<b>1998-2000</b> <b><u>Approved</u></b>	<b><u>Pipeline</u></b>	<b><u>Proposed</u></b>
<b>II</b>	<b><u>Division on International Trade in Goods and Services, and Commodities</u></b>			
<b>A</b>	<b><u>Trade Analysis and Systemic Issues</u></b>			
1	<b>Pipeline project: TRI-PARTITE PROJECT: THE UNCTAD COMPONENT OF THE ITC/UNCTAD/WTO INTEGRATED PROGRAMME OF TECHNICAL ASSISTANCE FOR AFRICA (Benin , Burkina Faso, Côte d'Ivoire, Ghana, Kenya, Tunisia, Uganda United Republic of Tanzania). (Approved: BEN/98/004, SWEDEN)</b>	175	2 375	
	The programme's overall objective is to enhance the development prospects and competitiveness of African countries through increased participation in international trade. It emphasizes human resource development and institutional capacity-building as well as the strengthening of export supply capabilities. It is designed to maximize cooperation among the three co-sponsoring organizations and to improve the utilization and effectiveness of available resources.			
2	<b>EGYPT: EFFECTIVE RATES OF PROTECTION AND ITS INTERACTION ON SELECTED ASPECTS OF ORIGIN (RAB/96/001, UNDP)</b>	37

(ii)	<b><u>Technical assistance on issues relating to the multilateral trading system</u></b>			
	The major focus of UNCTAD's technical assistance in this area is (a) capacity-building in trade policy formulation and implementation; (b) identification and treatment of current and pending international and trade issues; and (c) assistance to countries acceding to WTO.

(ii)	<u>Preferences and Services</u>				
1	<b>TECHNICAL COOPERATION ON MARKET ACCESS TRADE LAWS AND PREFERENCES (INT/97/A06, CHINA, ITALY).</b> The overall aim of the project is to enable developing countries to take advantage of the newly created market access possibilities through the optimum utilization of multilateral and bilateral trade preferences and agreements, and a better understanding of and familiarization with the trade laws and regulations governing market access conditions.	14	246		650
2	<b>TECHNICAL COOPERATION ON MARKET ACCESS TRADE LAWS AND PREFERENCES (RAS/97/A18, JAPAN).</b> To provide assistance in tariff negotiations and GSP utilization to developing countries in the Asian region.	38	251		
3	<b>CAPAS - <i>Coordinated African Programme on Services</i></b> (RAF/90/A01, France; RAF/95/A38, CANADA/IDRC)	56			280
	<b>CAPAS</b> , or the Coordinated African Programme of Assistance in Services, is a capacity-building programme of technical assistance. It currently involves 14 African countries (Benin, Burkina Faso, Burundi, Ghana, Guinea, Kenya, Madagascar, Namibia, Nigeria, Senegal, Uganda, United Republic of Tanzania, Zambia and Zimbabwe). Its main goal is endogenous policy-making capacity at the country level in areas of domestic service sector policy, regional integration services and multilateral negotiations on trade in services, the ultimate objective being to enable African Governments to respond to the new environment for the services sector created as a result of the Uruguay Round Agreements, and more particularly the General Agreement on Trade in Services (GATS).

4	<b>IMPLEMENTING THE GENERAL AGREEMENT ON TRADE IN SERVICES (GATS) IN AFRICA</b> (RAF/97/A16, Canada/IDRC). The overall objective of the research project is to provide African Governments with tools for assessing and reforming national policy on services in conjunction with country commitments to the General Agreement on Trade in Services.	13	266		
(iii)	<u>Trade Analysis and Information</u>				
	TRAINS: <i>Collection/dissemination of computerized trade information</i> (INT/90/A07, multi-donors)	47	120		
	TRAINS is an information system, the global aim of which is to increase transparency in international trading conditions. It is intended more specifically for use by policy makers and economic operators engaged in exporting, providing them with a comprehensive information system. It is also a powerful tool both for trade negotiations (e.g. for monitoring an integration process) and for general research on international trade. A component of the system relates to the generalized system of preferences (GSP) to the extent that it includes information on available tariffs, preferential margins, rules of origin and other regulations affecting the export interests of developing countries vis-à-vis preference-giving countries.				
	<u>Proposed projects:</u> <i>TRAINS for Africa</i> - LDCs and Eastern European countries			850	
<b>B</b>	<b><u>Commodities</u></b>

### **Division for Services Infrastructure for Development and Trade Efficiency**

1. Extract from paragraph 97 of “A Partnership for Growth and Development”:

“UNCTAD's technical cooperation should be determined by its work programme priorities ... and should focus on the following areas:

- (iv) Services infrastructure for development and trade efficiency:
  - Supporting formulation of national policies promoting services infrastructure for development and trade efficiency;
  - Improving trade-supporting services facilitating trade and exports;
  - Human resource development;
  - Follow-up on the results of UNISTE and providing technical assistance such as establishing trade points, particularly in LDCs.”

<b>B</b>	<b><u>Trade Facilitation ASYCUDA projects:</u></b>				
	The ASYCUDA programme is aimed at reforming the customs clearance process. It aims to speed customs clearance through the introduction of computerization and simplification of procedures, and thus minimize administrative costs to the business community and the economies of countries. It aims at increasing customs revenue, which is the major contributor to national budgets in most countries, by ensuring that all goods are declared, that duty/tax calculations are correct and that development exemptions are properly

<u>Division for Services Infrastructure for Development and Trade Efficiency (cont'd)</u>				
<p>managed. It aims to produce reliable and timely trade and fiscal statistics to assist in the economic planning process as a by-product of the customs system. An important objective of ASYCUDA projects is to implement the systems as efficiently as possible with a full transfer of know-how to national customs administrations at the lowest possible cost for countries and donors. Projects also introduce international standards, including UN/EDIFACT, and active cooperation among a steadily growing number of ASYCUDA user countries further increases mutual benefits.</p>
