LETTER DATED 16 SEPTEMBER 1998 FROM THE REPRESENTATIVE OF THE ISLAMIC
REPUBLIC OF IRAN TO THE UNITED NATIONS ADDRESSED TO THE PRESIDENT OF
THE SECURITY COUNCIL

Upon instructions from my Government, I have the honour to report that the Taliban offensive forces have attacked, occupied and looted the Consulate-General and the Cultural House of the Islamic Republic of Iran in the city of Bamyan. A local staff member working at the Cultural House was set afire and killed by the Taliban and there is no word on the whereabouts of the rest of the local staff. The Taliban's gross violations of the recognized principles of international law, for a second time, against the diplomatic premises of the Islamic Republic of Iran in Afghanistan, despite the condemnation of their first criminal act in Mazar-e-Sharif by the Security Council, is a clear act of provocation by the Taliban, as well as a display of their contempt for the international community.

The Government of the Islamic Republic of Iran is seriously concerned about the general situation in Afghanistan and, in particular, about the Iranian nationals held in captivity by the Taliban. The reported mass killing of civilians by the Taliban on ethnic and religious grounds has continued since 8 August 1998 and has now found a serious and tragic dimension in Bamyan, a city largely populated by Shiite Muslims.

In this situation, which has raised international outrage over the Taliban's blatant violation of the very basic rules and principles of international humanitarian law, the leaders of the Taliban have stubbornly displayed no regard whatsoever for the demand by the international community, in particular by the Security Council and the Secretary-General, to stop this carnage. Procrastination and foot-dragging by the Taliban and their foreign supporters, coupled with emphasis on the technicalities of dispatching a fact-finding mission to determine the fate of the Iranian diplomats, which the United Nations felt necessary in context of Afghanistan, led to the situation at hand where all save the Taliban had to condemn and express outrage over the murder. On the other hand, as in the case of the inhuman murder of the Iranian diplomats in Mazar-e-Sharif, Taliban leaders can conveniently claim, with a sense of impunity, to have had no knowledge or control over their members when they commit a war crime that becomes public and thus undeniable.

In light of the foregoing, the Government of the Islamic Republic of Iran fears that, in a not too distant future, the international community will be faced with yet other situations that will give cause for the expression of indignation over other Taliban crimes, which, unlike crimes committed against civilians in northern Afghanistan, cannot be hidden from international attention. In this context and on the basis of the statement on Afghanistan by the President of the Security Council on 15 September 1998 (S/PRST/1998/27), I request that the Security Council urgently adopt effective measures, under Chapter VII of the Charter of the United Nations, to take all necessary measures, including the dispatch of a mission, to stop mass killing of civilians in northern Afghanistan, secure the release of Iranian nationals held captive in Afghanistan, demand that the murderers of the Iranian diplomats in Mazar-e-Sharif are brought to justice, condemn the attack, occupation and looting of the Consulate-General and Cultural House of the Islamic Republic of Iran in Bamyan and prosecute the perpetrators.

The Islamic Republic of Iran is making every effort to resolve these problems through diplomatic channels and hopes that, by the adoption of resolute and effective measures on the part of the Security Council, peace and security may be restored in the region without the need for further action.

I shall be grateful if you could have the present letter circulated as a document of the Security Council.
