Agenda item 140

Financing of the United Nations Preventive Deployment Force

Financing of the United Nations Preventive Deployment Force

Report of the Secretary-General

Summary

By its resolution 52/245 of 26 June 1998, the General Assembly appropriated the amount of \$21,053,745 gross (\$20,580,245 net) for the maintenance of the United Nations Preventive Deployment Force (UNPREDEP) for the 1998/1999 fiscal year, inclusive of the amount of \$1,053,745 for the support account for peacekeeping operations. It provided for a military strength of 750 troops for the period from 1 July to 31 August 1998 in the amount of \$13,399,100 gross (\$13,177,800 net) and the liquidation of UNPREDEP thereafter at \$6,600,900 gross (\$6,348,700 net). This was done in accordance with Security Council resolution 1142 (1997) of 4 December 1997.

In its resolution 1186 (1998) of 21 July 1998, however, the Council extended the mandate of the Force until 28 February 1999 and decided to authorize an increase in its troop strength up to 1,050.

The present report incorporates the additional requirements for the maintenance of UNPREDEP at its increased military strength of 1,050 troops for the period from 1 July 1998 to 30 June 1999, which amount to \$34,438,800 gross (\$33,609,600 net).

The present report should be read in conjunction with the report of the Secretary-General (A/52/805) which contains, *inter alia*, supplementary information on mission-specific costs and ratios, requirements for non-recurrent costs, an organizational chart and a map for UNPREDEP.

The action to be taken by the General Assembly is proposed in paragraph 27 of the report. This is: (a) to appropriate the additional amount of \$34,438,800 gross (\$33,609,600 net) for the 12-month period from 1 July 1998 to 30 June 1999; and (b) to assess that amount at a monthly rate of \$2,869,900 gross (\$2,800,800 net), subject to the extension by the Security Council of the mandate of the Force beyond 28 February 1999.

I. Introduction

1. By its resolution 52/245 of 26 June 1998, the General Assembly appropriated the amount of \$21,053,745 gross (\$20,580,245 net) for the maintenance of the United Nations Preventive Deployment Force (UNPREDEP) for the period from 1 July 1998 to 30 June 1999, including the amount of \$1,053,745 for the support account for peacekeeping operations. Those amounts have been assessed on Member States. The appropriation provided for a military strength of 750 troops for the period from 1 July to 31 August 1998 in the amount of \$13,399,100 gross (\$13,177,800 net) and the liquidation of UNPREDEP thereafter at a cost of \$6,600,900 gross (\$6,348,700 net). This was done in accordance with Security Council resolution 1142 (1997) of 4 December 1997, by which the Council extended the mandate of UNPREDEP for a final period until 31 August 1998, with the withdrawal of the military component immediately thereafter.

2. In accordance with Assembly resolution 52/1 B of 26 June 1998, the prorated share of UNPREDEP of \$168,800 in the financing of the United Nations Logistics Base at Brindisi (UNLB) for the period from 1 July 1998 to 30 June 1999 has been absorbed within the overall appropriation provided under Assembly resolution 52/245.

3. In his report to the Security Council dated 14 July 1998 (S/1998/644), the Secretary-General, in view of the constraints placed upon UNPREDEP in monitoring and reporting developments along the borders with Albania and the Federal Republic of Yugoslavia, including the Kosovo stretch of the border, recommended that the troop level of UNPREDEP be increased by 350 all ranks. The troops would, in accordance with Council resolution 795 (1992) of 11 December 1992, monitor and report developments in the border areas, including developments that would have a bearing on the implementation of the relevant provisions of resolution 1160 (1998) of 31 March 1998, by which the Council decided, *inter alia*, that all States should, for the purposes of fostering peace and stability in Kosovo, prevent the sale or supply to the Federal Republic of Yugoslavia, including Kosovo, by their nationals or from their territories or using their flag vessels and aircraft, of arms and related *matériel* of all types, such as weapons and ammunition, military vehicles and equipment and spare parts for the aforementioned, and should prevent arming and training for terrorist activities there.

4. Subsequently, in its resolution 1186 (1998) of 21 July 1998, the Council extended the mandate of UNPREDEP until 28 February 1999 and decided to authorize an increase in its troop strength up to 1,050, in view of the situation in the region.

5. The present report contains, therefore, the revised budget for the maintenance of UNPREDEP at its increased military strength of 1,050 troops for the 12-month period from 1 July 1998 to 30 June 1999, which amounts to \$55,492,545 gross (\$54,189,845 net), of which \$34,438,800 gross (\$33,609,600 net) represents the additional requirements resulting from the continuation of the mandate of UNPREDEP and the expansion of its military component.

II. Political mandate

6. In its resolution 1186 (1998), the Security Council decided that UNPREDEP would continue by its presence to deter threats and prevent clashes, monitor the border areas, and report to the Secretary-General any developments which could pose a threat to the former Yugoslav Republic of Macedonia, including the tasks of monitoring and reporting on illicit arms flows and other activities that are prohibited under resolution 1160 (1998).

III. Operational plan and requirements

7. During the budget period 1 July 1998–30 June 1999, the UNPREDEP military component of 750 troops and 35 military observers will be strengthened by 300 troops. It is estimated that the phasing-in of these troops will be completed by the end of October 1998. Details of the deployment schedule of military and civilian personnel are contained in annex IV to the present report.

8. The UNPREDEP civilian component has an authorized strength of 189 personnel (72 international and 117 local) and 26 civilian police. During the budget period, it is proposed that the number of civilian posts be increased. Details are provided in paragraphs 14 to 26 below.

IV. Revised cost estimates for the period from 1 July 1998 to 30 June 1999

Table 1
Additional requirements

	<i>Appropriation (General Assembly resolution 52/245)</i>	<i>Revised cost estimates</i>	<i>Additional requirements</i>
Gross	\$21 053 745	\$55 492 545	\$34 438 800
Net	\$20 580 245	\$54 189 845	\$33 609 600

9. The revised budget for the maintenance of UNPREDEP for the 1998/1999 fiscal year amounts to \$55,492,545 gross (\$54,189,845 net). Some 70 per cent of this amount is based on standard ratios and costs contained in the standard ratio/cost manual, while the remaining 30 per cent covers mission-specific requirements and other items that may vary from the standard. The mission-specific requirements and variations cover 64 items, of which no standard cost/ratio exists for 56. Mission-specific requirements and variations are described in the table in section A of annex II to the present report.

10. The cost breakdown contained in column 1 of annex I to the present report shows the apportionment of the appropriation provided under General Assembly resolutions 52/245 and 52/1 B. The revised requirements for the period from 1 July 1998 to 30 June 1999 are shown in column 2 of annex I. The non-recurrent and recurrent cost estimates are indicated in columns 3 and 4 and additional requirements for the budget period are contained in column 5. Supplementary information in respect of the additional requirements for the period from 1 July 1998 to 30 June 1999 is included in annex II, sections A, B and C. Section A provides mission-specific costs and parameters. Descriptions of non-recurrent costs are contained in section B and a supplementary explanation of the additional requirements for the period from 1 July 1998 to 30 June 1999 is provided in section C. The current and proposed staffing table is shown in annex III and the deployment of military and civilian personnel is provided in annex IV.

11. Additional requirements for the maintenance of UNPREDEP for the period from 1 July 1998 to 30 June 1999 in the amount of \$34,438,800 result primarily from the extension of the mandate of the Force beyond 31 August 1998, the increase in its troop strength up to 1,050, in accordance with Security Council resolution 1186 (1998), and

additional non-recurrent items in the amount of \$1,751,000 which had not been previously included since the Force was expected to be terminated.

12. The present budget provides for the deployment of up to 1,050 troops, 35 military observers and 26 civilian police. It also provides for 68 international staff and 135 locally recruited staff, the operation of up to 3 helicopters and 234 United Nations-owned and 364 contingent-owned vehicles, including trailers.

13. It is anticipated that the UNPREDEP military component will be fully deployed by November 1998 and that the UNPREDEP civilian component will be fully deployed by January 1999.

V. Staffing requirements

14. The current staffing table approved for the period ending 30 June 1999 (see A/52/805) provides for a total of 189 posts (72 international and 117 local level). The staffing requirements had been reduced from 203 to 189 posts in the original budget for the 1998/1999 fiscal year as a result of the reduction of the military component of UNPREDEP from 1,050 to 750 troops. Since UNPREDEP is again authorized to operate at a strength of 1,050 troops, as stipulated in Security Council resolution 1186 (1998), it is proposed that its civilian component be increased to the previous level of 203 posts.

15. Changes to the staffing table approved for the period ending 30 June 1999 include: (a) redeployment of posts among offices to reflect current operational requirements; (b) upgrading of the post of the Chief, Civilian Engineering Section, to the P-3 level; (c) establishment of the post of Chief, Joint Logistics Section, at the P-3 level; (d) establishment of one Field Service post to manage air operations in the Movement Control/Air Operations Unit; (e) establishment of one Field Service post to manage the fire and safety programme in the General Services Unit; (f) replacement of one General Service post by a Security Service post in the Security Unit; (g) replacement of 7 General Service posts by local-level posts; (h) establishment of 7 local-level posts in support of the Office of the Force Commander; (i) establishment of one local-level post in the Office of the Chief Administrative Officer; (j) establishment of one local-level post for the Transport Unit; and (k) establishment of 2 local-level posts for the Engineering Unit. That is, a decrease of 4 international posts and an increase of 18 local posts, for a net increase of 14 posts. Details are shown in table 2 below.

16. Owing to the increase in the number of troops, the magnitude of the engineering work, including road repair and maintenance of facilities throughout the mission area, will be greater. As a result, additional responsibilities will be assigned to the Civilian Engineering Section and 2 additional locally recruited staff are required.

17. In view of the adoption of the new arrangements for reimbursement of contingent-owned equipment, which require monthly verification by the mission of the condition of the major equipment, its availability and the satisfactory provision of self-sustainment, there is a need for 1 P-3, 1 P-2, 4 Field Service and 7 local-level posts in order to establish a Joint Logistics Unit under the Integrated Support Services Section. All but one P-3 post will be made available through redeployment. The P-2 post will be redeployed from the Procurement Unit and the 4 Field Service posts from the Communications Unit. The 7 locally recruited posts will be redeployed from the General Services Unit (5), Procurement (1) and Administrative Services (1).

18. In order to implement the recommendation from the Office of Internal Oversight Services that measures be taken to strengthen the capability of the Organization to assess the viability and suitability of a vendor, including safety records and compliance with international safety regulations, one Air Operations Manager is required in the Movement Control/Air Operations Unit at the Field Service level. The incumbent will supervise flight followers, will be responsible for the general safety of flight operations, will manage the number of hours flown by contractors and will report on performance operations.
19. In order to improve safety in the mission area, a fire and safety specialist is required within the General Services Unit at the Field Service level. The incumbent will perform fire and safety inspections and will manage the fire and safety programme for all facilities provided by UNPREDEP to its troops.
20. With a view to providing additional security capacity for investigations, security planning and protection, and other related duties, a Security Specialist will replace a General Service post in the Security Section.
21. In paragraph 8 of its resolution 52/245, the General Assembly requested the Secretary-General, in order to reduce the cost of employing General Service staff, to continue efforts to employ locally recruited staff for the Force against General Service posts, commensurate with the requirements of the Force. The Force undertook a review and identified 7 General Service posts for replacement by local posts. They are located in the Political and Humanitarian Affairs Unit and the Press and Information Unit in the Office of the Special Representative of the Secretary-General to the former Yugoslav Republic of Macedonia (2); the Office of the Civilian Police Commissioner (1) and the Office of Administrative Services (4).
22. Owing to the increase in the number of troops and broader area of operation, 6 additional language assistants for the Military Support Unit and one additional language assistant for the Military Observers Support Unit are required in the Office of the Force Commander.
23. One P-3 post and one local-level post are required in the Office of the Chief Administrative Officer to perform budget functions and the review and monitoring of administrative sections that currently occupy a considerable amount of the Chief Administrative Officer's time, allowing more time for substantive work. The P-3 post will be made available through redeployment from the Finance Unit in the Office of Administrative Services.
24. In addition, one locally recruited staff is required to perform administrative tasks in the Transport Section.
25. The restructuring of staffing requirements for UNPREDEP also includes the upgrading of the post of Chief Finance Officer to the P-4 level. This requirement will be met through redeployment of a post obtained from the termination of the office of the Chief of Administrative Services. In addition, a General Service (Principal level) and a General Service (Other level) post will be exchanged between the Finance and the Personnel units within the Office of Administrative Services. Further, a local post will be redeployed from the Finance Unit in the Office of Administrative Services to the Security Unit in the Office of the Chief Administrative Officer.
26. Lastly, the Civil Affairs Unit, the Military/Police Staff Officers Unit and the Technical Services Section are now known as the Political and Humanitarian Affairs Unit, the Military Support Unit and the Integrated Support Services Section, respectively.

VI. Action to be taken by the General Assembly at its fifty-third session

27. The action to be taken by the General Assembly at its fifty-third session in connection with the financing of UNPREDEP is as follows:

(a) To appropriate the amount of \$34,438,800 gross (\$33,609,600 net) for the 12-month period from 1 July 1998 to 30 June 1999, in addition to the amount of \$21,053,745 gross (\$20,580,245 net) already appropriated under General Assembly resolution 52/245 of 26 June 1998;

(b) To assess the amount of \$34,438,800 gross (\$33,609,600 net) at a monthly rate of \$2,869,900 gross (\$2,800,800 net), should the Security Council decide to continue the mandate of the Force beyond 28 February 1999.

^a Additional information is provided in section C of the present annex.

^b Information not available.

^c Since requirements for communications workshop and test equipment amounting to \$7,800 have been provided under the current apportionment, they have not been included in the present annex which lists additional requirements for non-recurrent costs only.

^d Does not include freight costs in respect of software.

^e To be provided through surplus stock.

^f Related freight costs are included under budget line 16 (Air and surface freight) since these items were transferred from Brindisi together with other items of equipment in one single shipment.

C. Supplementary explanation of the revised cost estimates for the period from 1 July 1998 to 30 June 1999

1. The additional requirements for the maintenance of the United Nations Preventive Deployment Force (UNPREDEP) for the period from 1 July 1998 to 30 June 1999, reflected in column 5 of annex I to the present report, result primarily from the extension of the Force's mandate beyond 31 August 1998 and the increase in its strength up to 1,050 troops, in accordance with Security Council resolution 1186 (1998) of 21 July 1998.
2. *Military observers.* Provision is made for payment of mission subsistence allowance, travel and clothing and equipment allowance at the rates detailed in section A of annex II to document A/52/805. While the apportionment was based on a total of 105 person-months, the revised cost is based on the deployment of 419 person-months. In addition, where travel costs were based on 35 repatriations, the revised cost is based on 35 rotations of personnel. Hence, additional requirements amount to \$957,200.
3. *Military contingents.* Provisions under standard troop reimbursement, welfare, rations, daily allowance and clothing and equipment allowance are based on standard rates for peacekeeping operations. Additional requirements for standard troop cost reimbursement, welfare, daily allowance, mission subsistence allowance and clothing and equipment allowance arise from the deployment of 9,480 person-months above the 2,220 person-months originally planned. Additional requirements under rations take into account the fact that the ceiling man-day rate has decreased from \$8.00 to \$5.79 as a result of a change of contractor, as well as provision for 24 days composite rations at the daily rate of \$9.74 per person.
4. *Contingent-owned equipment.* Additional requirements in the amount of \$6,145,100 provide for the reimbursement of contingent-owned equipment for the 10-month period from 1 September 1998 to 30 June 1999. This is based on signed memoranda of understanding for two troop-contributing countries and on a draft agreement for a third troop-contributing nation which is yet to be signed.
5. Provision for contingent-owned equipment includes major equipment under the wet-lease arrangements. It takes into account the application of an environmental condition factor of 1 per cent.
6. *Death and disability.* While the apportionment was based on an average of 188 troops, the revised cost is based on an average of 975 troops, 35 military observers and 26 civilian police. Additional requirements, therefore, amount to \$516,500.
7. *Civilian police.* Provision is made for payment of mission subsistence allowance, travel and clothing and equipment allowance at the rates detailed in section A of annex II to document A/52/805. While the apportionment was based on a total of 78 person-months, the revised cost is based on the deployment of 312 person-months. In addition, where travel costs were based on 26 repatriations, the revised cost is based on 26 rotations of personnel. As a result, additional requirements amount to \$712,200.
8. *International and local staff.* Salaries of internationally recruited staff are estimated on the basis of the 1998 standard cost rates for New York, and local salaries reflect the scale currently applicable in the mission area. In addition, Professional staff salaries have been adjusted to take into account non-entitlement to post adjustment for 65 per cent of the staff in the Professional category classified as mission appointees. For the period from 1 July 1998 to 30 June 1999, UNPREDEP will require the support of 2,261 person-months, which is 1,683 person-months above the 578 previously budgeted for. All civilian staff costs were

prepared in accordance with the deployment schedule contained in annex IV to the present report.

9. *General temporary assistance.* Provision had been made for the hiring of personnel for the dismantling of observation posts and base camps at a monthly cost of \$20,000 for the months of July, August and September 1998 (\$60,000) and for the engagement of 117, 95 and 74 personnel through special service agreement arrangements for the months of September, October and November 1998, respectively, at the average cost of \$1,050 per person per month (\$300,300). These personnel were to assist in the dismantling of the UNPREDEP structure and prepare items to be shipped to the United Nations Logistics Base at Brindisi or other missions. Since the mandate of the Force was extended beyond 31 August 1998 and 6 additional observation posts will be established in connection with the deployment of additional troops, there is a requirement for 33 construction workers for 60 days at \$20 per day (\$39,600). Provision under this heading has, therefore, been reduced by \$319,700.

10. *Other travel costs.* The apportionment of \$38,200 is provided for: travel and subsistence expenses for two trips between the mission area and New York (\$6,400); one Headquarters aviation specialist to assess the air operations and safety programme of the Force (\$3,200); travel and subsistence expenses for two internal auditors for 14 days (\$9,000); and travel and subsistence expenses for six trips between the mission area and New York in connection with the liquidation of the Force (\$19,600). The revised cost in the amount of \$125,290 provides for 12 trips between New York and the mission area (\$33,000) and daily subsistence allowance for 84 days at \$275 per day (\$23,100) for the Special Representative of the Secretary-General for the former Yugoslav Republic of Macedonia, the Force Commander and the Chief Administrative Officer. It also includes provision for 12 round-trips per annum between Skopje and Sarajevo at \$800 per trip for the Regional Air Safety Officer (\$9,600), 12 round-trips per annum between Skopje and Belgrade at \$350 per trip for the Force Commander (\$4,200), 6 round-trips to Brindisi at \$1,165 per trip (\$6,990), payment of accommodation allowance up to \$60 per person per day and food allowance up to \$20 per person per day for 140 days in respect of locally recruited engineering personnel deployed to outlying areas (\$11,200), travel and accommodation expenses for one Air Safety Officer and one Air Operations Officer (\$3,200) to assess the air operations and safety programme of the Force, travel and accommodation expenses related to the implementation of the Field Assets Control System (FACS) in the field (\$25,000) and travel and subsistence expenses for two internal auditors for 14 days (\$9,000).

11. *Premises/accommodation.* Additional requirements for rental of premises, maintenance supplies and services and utilities arise from the continuation of the mandate of UNPREDEP beyond 31 August 1998, an increase in the number of troops being provided with accommodation and the fact that the provision is based on summer and winter rates, while in the previous submission only summer rates applied and there were therefore no requirements for heating gas, firewood and coal.

12. While provision had been made for the renovation of offices and base camps prior to their handover to the host Government (\$164,000), only minor alterations and renovations to premises will be carried out during the budget period, in the amount of \$29,500.

13. *Transport operations.* While the apportioned amount of \$764,600 was based on the termination of UNPREDEP and the phasing-out of its vehicle establishment, revised requirements provide for the maintenance of the UNPREDEP-owned fleet at an average of 194 vehicles and 10 trailers (excluding motorcycles and snow-scooters) and an average contingent-owned equipment fleet of 306 vehicles and 25 trailers (excluding motorcycles

and snow-scooters). Provision is also made for the purchase of 48 vehicles (47 replacement and 1 additional) which had not been previously included in the UNPREDEP budget since the Force was expected to be terminated. Reduced requirements for vehicle spare parts, repairs and maintenance result from the maintenance of contingent-owned vehicles being provided under the wet-lease arrangements for reimbursement of contingent-owned equipment. In the light of the above, additional requirements under this heading amount to \$1,491,100.

14. Provision for petrol, oil and lubricants and vehicle insurance are based on UNPREDEP-owned vehicle fleet and deployment of contingent-owned vehicles in UNPREDEP, as indicated in tables 1 and 2 below. A reduction factor of 20 per cent has been applied to petrol, oil and lubricants in order to compensate for vehicles that are out of service for repair. Provision for spare parts, repairs and maintenance is provided for United Nations-owned vehicles only.

15. Provision under rental of vehicles had previously been made for the hiring of three forklifts in support of the liquidation of the Force. In view of the extension of the mandate of UNPREDEP, there is no requirement under this heading.

Table 1
Changes in UNPREDEP-owned vehicle establishment

Dumper (miscellaneous vehicles)	1	1	—
Trailer, fuel	1	1	—
Trailer, lowbed	2	2	—
Trailer, container	7	7	—
Total	233	234	1

^a Includes vehicles in the mission area plus vehicles ordered but not yet delivered. Differs from the establishment shown in annex VI to document A/52/805 in that the latter did not include 10 trailers, 18 snow-scooters and 12 motorcycles and excluded 6 light jeeps and 1 cargo truck which had been loaned to other peacekeeping operations in the former Yugoslavia.

^b Changes to the current inventory reflect the reclassification of vehicles within the existing fleet.

Table 2

Deployment of contingent-owned vehicles in UNPREDEP for the period from 1 July 1998 to 30 June 1999

	<i>July^a</i>	<i>August</i>	<i>September</i>	<i>October</i>	<i>November 1998 to June 1999</i>
Vehicles	205	205	250	295	339
Trailers	25	25	25	25	25

^a Differs from the establishment shown in annex VI to document A/52/805 in that the latter included snow-scooters which are not taken into account for budgeting purposes, and in that some vehicles and trailers have been repatriated.

16. *Air operations.* Additional requirements under air operations result from the continuation of the mandate of UNPREDEP and the deployment of one additional MI-8 helicopter in the mission area. In view of the situation in the region and the expansion of the mandated task of UNPREDEP to monitor illicit arm flows and other activities that are prohibited under Security Council resolution 1160 (1998), there is a requirement for greater air patrolling. It is anticipated that the additional MI-8 helicopter will be deployed in UNPREDEP by November 1998. Provision under air crew subsistence allowance had been made for meals and overnight accommodation away from the air base in UNPREDEP for a helicopter crew of five at a monthly cost of \$6,400 in respect of the MI-8T and for a crew of three, at a monthly cost of \$3,500, in respect of the Astar helicopter (\$19,800). Owing, however, to a change of aviation contractor, provision is required for meals and overnight accommodation away from the base in UNPREDEP in respect of the Astar helicopter, at a monthly cost of \$7,625.

17. *Communications.* Provision has been made for the reimbursement of equipment provided by the UNPREDEP military contingents on a self-sustainment basis (\$844,152). Provision has also been made for the replacement of items of equipment that have reached the end of their economical life and that have not been previously included in the UNPREDEP budget since the Force was expected to be terminated. Reduced requirements under communications spare parts and supplies are a result of contingents providing for maintenance of communications equipment under the wet-lease arrangements for reimbursement of contingent-owned equipment.

18. *Other equipment.* Additional requirements for office furniture, data-processing equipment, accommodation equipment and miscellaneous equipment arise from the replacement of items of equipment that have reached the end of their economical life and that have not been previously included in the UNPREDEP budget since the Force was expected to be terminated. Additional requirements under office equipment and observation equipment are based on the current arrangements for reimbursement of office and observation self-sustainment rates for 470 and 923 troops, respectively.

19. *Audit.* Provision is made for the cost of external audit services.

20. *Uniform flags and decals.* Additional requirements amounting to \$76,000 provide for accoutrements for 975 troops, 35 military observers and 26 civilian police at the standard cost of \$35 per person for 6 months in respect of troops and \$35 per person for 12 months in respect of military observers and civilian police (\$70,400). In addition, provision is made for protective clothing for civilian personnel as follows: (a) two pairs of footwear for 25 personnel at \$52 per pair per person (\$2,600); and (b) two winter coveralls for 50 personnel at \$30 per person (\$3,000).

21. *Air and surface freight.* Provision had been made for the repatriation of contingent-owned equipment in the amount of \$700,000 and for commercial freight and cartage in the amount of \$500,000. In the light, however, of the extension of the mandate of UNPREDEP and the increase in its troop strength, this provision has been reduced to \$560,000. It provides for freight costs related to the deployment of additional contingent-owned vehicles in the amount of \$250,000 and other items of equipment made available from the United Nations Logistics Base at Brindisi (\$310,000).

22. *Support account for peacekeeping operations.* An amount of \$1,053,700 for the support account for peacekeeping operations has been provided for by the General Assembly in resolution 52/245 of 26 June 1998.

23. *Staff assessment.* Staff costs have been shown on a net basis under line item 2 (b) of annex I to the present report. The estimate under this heading represents the difference between gross and net emoluments, that is, the amount of staff assessment to which the United Nations staff members are subject, in accordance with the Staff Regulations of the United Nations. Additional requirements under this heading are a result of the reasoning referred to in paragraph 8 above.

24. *Income from staff assessment.* The staff assessment requirements provided for under expenditure budget line item 19 (see annex I to the present report) have been credited to this item as income from staff assessment and will be credited to the Tax Equalization Fund established by the General Assembly in its resolution 973 A (X) of 15 December 1955. Member States are given credit in the Fund in proportion to their rates of contribution to the UNPREDEP budget.
