Thirty-sixth session FIRST COMMITTEE Agenda item 43

CESSATION OF ALL TEST EXPLOSIONS OF NUCLEAR WEAPONS

Ecuador, Ireland, Kenya, Mexico, Pakistan, Sri Lanka, Sweden and Yugoslavia: draft resolution

The General Assembly,

<u>Bearing in mind</u> that the complete cessation of nuclear-weapon tests, which has been examined for more than 25 years and on which the General Assembly has adopted more than 40 resolutions, is a basic objective of the United Nations in the sphere of disarmament, to whose attainment it has repeatedly assigned the highest priority,

<u>Stressing</u> that on seven different occasions it has condemned such tests in the strongest terms and that, since 1974, it has stated its conviction that the continuance of nuclear-weapon testing will intensify the arms race, thus increasing the danger of nuclear war,

<u>Reiterating</u> the assertion made in several previous resolutions that whatever may be the differences on the question of verification, there is no valid reason for delaying the conclusion of an agreement on a comprehensive test ban,

<u>Recalling</u> that since 1972 the Secretary-General has declared that all the technical and scientific aspects of the problem have been so fully explored that only a political decision is now necessary in order to achieve final agreement, that when the existing means of verification are taken into account, it is difficult to understand further delay in achieving agreement on an underground test ban, and that the potential risks of continuing underground nuclear-weapon tests would far outweigh any possible risks from ending such tests,

<u>Recalling also</u> that the Secretary-General, in his foreword to the report entitled "Comprehensive nuclear test ban", has reiterated with special emphasis the opinion he expressed nine years ago and, after specifically referring to it, has added: "I still hold that belief. The problem can and should be solved now",

Noting that in the same report, which was prepared in compliance with its decision 34/422 of 11 December 1979, the experts have emphasized that non-nuclear-weapon States in general have come to regard the achievement of a comprehensive test ban as a litmus test of the determination of the nuclear-weapon States to halt the arms race, adding that verification of compliance no longer seems to be an obstacle to reaching agreement,

Taking into account that the three nuclear-weapon States which act as depositaries of the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water, undertook in that Treaty, almost 20 years ago, to seek the achievement of the discontinuance of all test explosions of nuclear weapons for all time and that such an undertaking was explicitly reiterated in 1968 in the Treaty on the Non-Proliferation of Nuclear Weapons,

Recalling that in its resolution 35/145 A of 12 December 1980 it urged all States members of the Committee on Disarmament to support the creation, upon initiation of its 1981 session, of an <u>ad hoc</u> working group which should begin the multilateral negotiations of the treaty for the prohibition of all nuclear-weapon tests,

Deploring that the Committee, as stated in paragraph 44 of its report to the Assembly, was prevented from carrying out that exhortation due to the negative attitude of two nuclear-weapon States,

1. <u>Reiterates once again its grave concern</u> that nuclear-weapon testing continues unabated against the wishes of the overwhelming majority of Member States;

2. <u>Reaffirms its conviction</u> that a treaty to achieve the prohibition of all nuclear-test explosions by all States for all time is a matter of the highest priority and constitutes a vital element for the success of efforts to prevent both vertical and horizontal proliferation of nuclear weapons and a contribution to nuclear disarmament;

3. <u>Urges</u> all States that have not yet done so to adhere without further delay to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water and, meanwhile, to refrain from testing in the environments covered by that Treaty;

4. Urges likewise all States members of the Committee on Disarmament:

(a) To bear in mind that the consensus rule should not be used in such a manner as to prevent the establishment of subsidiary bodies for the effective discharge of the functions of the Committee;

(b) To support the creation by the Committee, upon initiation of its 1982 session, of an <u>ad hoc</u> working group which should begin the multilateral negotiation of a treaty for the prohibition of all nuclear-weapon tests;

(c) To use their best endeavours in order that the Committee may transmit to the General Assembly at its second special session devoted to disarmament the multilaterally negotiated text of such a treaty;

5. <u>Calls upon</u> the States depositaries of the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water and the Treaty on the Non-Proliferation of Nuclear Weapons, by virtue of their special responsibilities under those two treaties and as a provisional measure, to bring to a halt without delay all nuclear-test explosions, either through a trilaterally agreed moratorium or through three unilateral moratoria;

6. <u>Decides</u> to include in the provisional agenda of its thirty-seventh session an item entitled "Cessation of all test explosions of nuclear weapons".
