The Lebanese Government strongly condemns the continued Israeli occupation and the fresh attacks and arbitrary practices against the Lebanese civilian population that have left a number of wounded and caused further serious damage to property.

Like previous attacks, this new series is in flagrant violation of the sovereignty and independence of Lebanon and constitutes a breach of the purposes and principles of the Charter of the United Nations, of international law and of basic human rights.

I should be grateful if you would have this letter circulated as a document of the General Assembly, under agenda item 40, and of the Security Council.
