29 December 1998

Original: English

Fifty-third session
Agenda item 142
Financing of the Military Observer Group of the United Nations
Verification Mission in Guatemala

Financing of the Military Observer Group of the United Nations Verification Mission in Guatemala**Report of the Secretary-General***Summary*

The present report contains the performance report for the Military Observer Group of the United Nations Verification Mission in Guatemala (MINUGUA) for the period from 15 February to 31 May 1997.

A total amount of \$4 million gross (\$3,956,300 net) was appropriated by the General Assembly for the maintenance of the Military Observer Group for the period. The related expenditures at the end of the fiscal year amounted to \$3,946,000 gross and net, resulting in an unencumbered balance of \$54,000 gross (\$10,300 net). Obligations amounting to \$130,200 were subsequently liquidated, resulting in an increased unencumbered balance of \$184,200 gross (\$140,500 net).

The report also contains the final disposition of the assets of the Military Observer Group.

The actions to be taken by the General Assembly are set out in paragraph 17 of the present report.

I. Introduction

1. The cost of deploying the Military Observer Group of the United Nations Verification Mission in Guatemala for the period from 15 February to 31 May 1997 was estimated at \$4,570,800 gross (\$4,520,100 net) in the report of the Secretary-General dated 3 March 1997 (A/51/815). The estimate provided for the deployment of 155 military observers and requisite medical personnel authorized by the Security Council in its resolution 1094 (1997) of 20 January 1997.
2. Based on a reduction in the number of team sites from eight to six and in the number of military observers from 155 to 142, the Advisory Committee on Administrative and Budgetary Questions recommended in its report of 11 March 1997 (A/51/826) that the General Assembly appropriate an amount of \$4 million gross (\$3,956,300 net) for the Military Observer Group.
3. The General Assembly, by its resolution 51/228 of 3 April 1997, appropriated a total of \$4 million gross (\$3,956,300 net) for the Military Observer Group for the period from 15 February to 31 May 1997. This amount was assessed on Member States.

II. Financial performance report for the period from 15 February to 31 May 1997

4. Annex I to the present report sets out in column 1 the original cost estimates for the Military Observer Group by budget line item, as contained in annex I to the report of the Secretary-General of 3 March 1997 (A/51/815). The apportionment of the resources provided by the General Assembly in its resolution 51/228 is indicated in column 2. Non-recurrent and recurrent expenditures are shown in columns 3 and 4, respectively, while total expenditures are given in column 5. The unliquidated obligations as at 30 June 1997 are shown in column 6 and variances to the cost estimates are indicated in column 7. Supplementary information in respect of the expenditures is contained in annex II. The authorized staffing, incumbency and vacancy rates are provided in annex III and the planned and actual deployment of military and civilian personnel is contained in annex IV.
5. Expenditures at the end of the reporting period totalled \$3,946,000 gross and net, resulting in an unencumbered balance of \$54,000 gross (\$10,300 net). The unencumbered balance resulted primarily from civilian staff vacancies and lower requirements for utilities, and commercial communications offset by additional requirements for mission subsistence allowance for military observers and miscellaneous supplies and services.

III. Financial administration

A. Resources made available and operating costs for the period from 15 February to 31 May 1997

6. The total resources made available to the Military Observer Group for the period from 15 February to 31 May 1997 amount to \$4 million gross (\$3,956,300 net) and the expenditures for the same period total \$3,946,000 gross and net. Obligations amounting to \$130,200 were subsequently liquidated, thus reducing expenditures to \$3,815,800. Detailed information is presented in annex IX to the present report.

B. Status of assessed contributions

7. As at 30 April 1997 a total of \$3,969,802 had been assessed on Member States in respect of the Military Observer Group for the period from 15 February to 31 May 1997. Contributions received as at 31 October 1998 amounted to \$3,651,046, resulting in a shortfall of \$318,756.

C. Unliquidated obligations

8. As at 16 November 1998, unliquidated obligations amounted to \$12,336 for the travel of military observers.

D. Voluntary and trust fund contributions

9. No voluntary contributions were received and no trust funds were established in connection with the Military Observer Group.

E. Application of article IV of the Financial Regulations of the United Nations

10. In a report to the General Assembly at its thirty-third session on the United Nations Emergency Force/United Nations Disengagement Force (UNEF/UNDOF) (A/C.5/33/45), the Secretary-General indicated, *inter alia*, that the amounts owed to troop-contributing Governments could not be paid in the time-frame envisaged under financial regulation 4.3. That situation continues to be experienced in peacekeeping operations. Consequently, over the years the Assembly has adopted special arrangements whereby appropriations required in respect of obligations owed to Governments providing contingents and/or logistic support to the mission have been retained beyond the period stipulated under financial regulations 4.3 and 4.4.

11. In the case of the Military Observer Group and in the cases of UNEF/UNDOF, the United Nations Interim Force in Lebanon (UNIFIL), the United Nations Iran-Iraq Military Observer Group (UNIIMOG), the United Nations Transition Assistance Group (UNTAG), the United Nations Iraq-Kuwait Observation Mission (UNIKOM), the United Nations Protection Force (UNPROFOR), the United Nations Observer Mission in El Salvador (ONUSAL), the United Nations Angola Verification Mission (UNAVEM), the United Nations Mission for the Referendum in Western Sahara (MINURSO), the United Nations Observer Mission in Georgia (UNOMIG), the United Nations Observer Mission in Liberia (UNOMIL), the United Nations Mission in Haiti (UNMIH), the United Nations Assistance Mission for Rwanda (UNAMIR), the United Nations Peacekeeping Force in Cyprus (UNFICYP), the United Nations Support Mission in Haiti (UNSMIH), the United Nations Mission in Bosnia and Herzegovina (UNMIBH), the United Nations Transitional Administration for Eastern Slavonia, Baranja and Western Sirmium (UNTAES), the United Nations Preventive Deployment Force (UNPREDEP), the United Nations Transitional Authority in Cambodia (UNTAC) and the United Nations Operation in Mozambique (ONUMOZ), there are currently certain amounts obligated for reimbursement to Governments that will be required for the settlement of claims not yet received.

12. Accordingly, it is proposed that special arrangements with regard to the application of article IV of the Financial Regulations similar to those contained in the annex to General Assembly resolution 52/240 of 26 June 1998 be applied to the Military Observer Group, as follows:

(a) At the end of the 12-month period provided for in regulation 4.3, any unliquidated obligations of the financial period in question relating to goods supplied and services rendered by Governments for which claims have been received or which are covered by established reimbursement rates shall be transferred to accounts payable; such accounts payable shall remain recorded in the Special Account until payment is effected;

(b) (i) Any other unliquidated obligations of the financial period in question owed to Governments for goods supplied and services rendered, as well as other obligations owed to Governments, for which required claims have not yet been received shall remain valid for an additional period of four years following the end of the 12-month period provided for in regulation 4.3;

(ii) Claims received during this four-year period shall be treated as provided under paragraph (a) above, if appropriate;

(iii) At the end of the additional four-year period, any unliquidated obligations shall be cancelled and the then remaining balance of any appropriations retained therefor shall be surrendered.

IV. Classification and disposition of the assets of the Military Observer Group

13. The present report on the final disposition of the assets of the Military Observer Group is submitted pursuant to section VII of General Assembly resolution 49/233 A of 23 December 1994, in which the Assembly endorsed the proposals of the Secretary-General on the disposition of the assets of peacekeeping operations contained in his report of 25 May 1994 (A/48/945 and Corr.1, para. 110) and the recommendations of the Advisory Committee on Administrative and Budgetary Questions contained in its report of 18 November 1994 (A/49/664, para. 116).

14. The process of liquidating the assets of the Military Observer Group was guided by the following principles and policies as approved by the General Assembly in section VII of its resolution 49/233 A:

(a) Equipment in good condition that conforms to established standardization or is considered compatible with existing equipment will be redeployed to other United Nations operations elsewhere in the world or will be placed in reserve to form the start-up kits for use by future missions;

(b) Equipment not required by other peacekeeping missions but which may be useful for operations of other United Nations agencies, international organizations or non-governmental organizations and which it is not feasible to keep in reserve will be sold to a relevant agency or organization;

(c) Any equipment or property not required or which it is not feasible to dispose of in the above manner or which is in poor condition will be subject to commercial disposal in the area of operations, following standard United Nations regulations and procedures;

(d) Any surplus mission assets remaining after disposition under the terms referred to under paragraphs (a) to (c) above, and/or any assets which have already been installed

in the country and which, if dismantled, would in fact set back the rehabilitation process of the country, will be contributed to the duly recognized Government of the country involved. This refers in particular to airfield installations and equipment, bridges and mine-clearing equipment. All efforts should be made to obtain from the Government its agreement to compensate the United Nations in a mutually acceptable form (contributions, services, tax exemption, etc.) for the residual value of any surplus mission assets installed in the country that could not be otherwise disposed of. The General Assembly should, as a matter of principle, be requested to approve any such disposition of mission assets which would provide for free-of-charge contribution to the Government.

15. Based on the inventory records of 31 May 1997, the assets of the Military Observer Group were estimated at approximately \$1.2 million, based on their inventory value. For ease of classification, these assets have been grouped into 12 categories of equipment presented in standard peacekeeping operation budgets: prefabricated buildings, communications equipment, office equipment, electronic data-processing equipment, generators, petrol tank plus metering equipment, water and septic tanks, accommodation equipment, refrigeration equipment, miscellaneous equipment, field defence equipment and water purification equipment.

16. In accordance with the principles and policies recalled in paragraph 14 above, the assets of the Military Observer Group have been placed into the following three groups and four subgroups as presented in summarized form in annex V and detailed in annexes VI to VIII:

(a) Group I includes assets identified as meeting the requirements of other United Nations missions. The items in the group, with an inventory value of \$965,300 (80 per cent of total asset value) have been transferred to the United Nations Mission MINUGUA or to the United Nations Logistics Base at Brindisi. Details are shown in annex VI;

(b) Group II consists of assets with an inventory value of \$158,600 (13 per cent of total asset value) and includes two subgroups, (a) and (b), as follows:

(i) Subgroup II (a), with an inventory value of \$158,600, consists of assets sold within the mission area;

(ii) No assets are reported under subgroup II (b), since there were no assets installed in the mission area that were donated to the host Government;

(c) Group III includes subgroup III (a), assets written off, with a total inventory value of \$73,000 (6 per cent), and subgroup III (b), assets lost during the course of the Mission (\$700, or less than 1 per cent).

V. Actions to be taken by the General Assembly

17. The actions to be taken by the General Assembly in connection with the financing of the Military Observer Group and the disposition of assets are as follows:

(a) A decision on the treatment of the unencumbered balance of \$184,200 gross (\$140,500 net) for the period from 15 February to 31 May 1997;

(b) A decision on the treatment of the interest (\$38,653) and miscellaneous income (\$68,983) totalling \$107,636;

(c) A decision that the special arrangements as regards article IV of the Financial Regulations of the United Nations, as detailed in paragraph 12 above, should be applied to the Military Observer Group;

(d) A decision on the treatment of any surplus arising from the eventual liquidation of the remaining obligations in the Special Account of the Military Observer Group;

(e) A decision to take note of the report on the disposition of assets.

Annex I

Financial performance report for the period from 15 February to 31 May 1997

B. Supplementary explanation

Variances
(United States dollars)

1. Military personnel costs

(a) *Military observers* (157 900)

1. *Mission subsistence allowance.* The cost estimates provided for the payment of mission subsistence allowance to 142 military observers and 13 medical personnel. It was originally envisaged that only the 35 military observers deployed at group headquarters would be paid at the rates of \$107 per day for the first 30 days and at \$82 per day thereafter. Some observers deployed at group headquarters were provided with accommodation and were paid mission subsistence allowance at the reduced rate of \$40 per day for the first 30 days and \$36 per day thereafter. The estimates for the remaining personnel were calculated at \$107 per day for the first 10 days while in Guatemala City for briefing, at \$82 per day for 10 days outside the team sites and at \$36 per day at team sites where accommodation was to be provided. However, the other observers spent more days outside the camps for patrols and administrative tasks in Guatemala City, thus receiving \$82 per day instead of the accommodation-provided rate of \$36 per day, resulting in additional requirements of \$170,100 under this heading. Owing to restrictions on travel after 6 p.m. outside of Guatemala City, observers could not always return to the camps. The administrative tasks included attendance at meetings, briefings and debriefings, as well as training on camera equipment used for special identification cards for the demobilization personnel.

2. *Travel costs.* Provision was made under this heading in the amount of \$465,000 for the emplacement and repatriation travel of 155 personnel at an average cost of \$1,500 per trip. Expenditures at 30 June 1997 amounted to \$453,000 for the travel of 145 military observers, including unliquidated obligations totalling \$360,100. An amount of \$11,400 was subsequently liquidated.

3. *Clothing and equipment allowance.* There was an unutilized balance of \$200 under this heading.

(b) *Military contingents* —

(c) *Other costs pertaining to military personnel* 4 500

4. *Contingent-owned equipment.* It was estimated that medical equipment brought into the mission area by the Governments that contributed medical personnel would be reimbursed at the rate of \$575 per month for each of four units (\$6,900). Actual requirements amounted to \$2,400, resulting in an unutilized balance of \$4,500 under this heading.

5. *Death and disability.* An amount of \$15,500 had been obligated to cover potential claims. The obligation was later liquidated in its entirety since there was no case of death or injury during the period in which the demobilization took place.

2. Civilian personnel costs

(a) *Civilian police* —

(b) *International and local staff* 62 000

6. *International staff salaries.* The cost estimates were based on the deployment of 10 international staff (1 D-1, 3 Field Service and 6 General Service), namely the Chief Military

Observer, three communications technicians and six administrative assistants. A total of three staff were deployed (the Chief Military Observer, 1 Field Service Officer and 1 General Service staff). The non-deployment of the full complement of international staff during the demobilization process was linked to difficulties in identifying candidates with the required language and experience and within the specific time-frame. In view of these circumstances, the mission had to organize the support to the demobilization process through temporary redeployment from those areas which were less critical to the demobilization process. Administrative backstopping was provided by the existing MINUGUA administrative staff. In the absence of the three communications technicians, the mission had to mobilize the existing international and local radio technicians, who carried out those additional duties by working weekends and longer hours. Owing to the short duration of the mission, no salary charges for those three staff had been recorded in the accounts before the closing on 30 June 1997. An obligation in the amount of \$126,300 was issued to cover the costs, of which \$79,600 was later liquidated.

7. *Local staff salaries.* Additional requirements of \$18,000 under this heading were due to the hiring of additional staff in April and May 1997 and the retention of two local staff during the first week of June and three local staff through 15 June 1997 to carry out the dismantling of the team sites.

8. *Common staff costs.* The unutilized balance of \$42,700 under this heading resulted from the deployment of fewer staff. The end of mandate obligation of \$24,200 was subsequently reduced by \$10,700.

9. *Mission subsistence allowance.* The unutilized balance of \$43,100 was attributable to the deployment of 3 instead of 10 international staff.

10. *Other travel costs.* Expenditures of \$11,600 were incurred for travel within the mission area (\$8,900) during the setting-up and the dismantling of the team sites, as well as for the travel of two officials from the Military Adviser's Office (\$2,700) to oversee preparation for the demobilization and to provide guidance, advice and mission familiarization during the early phase of the operation. The fact that only 3 of the 10 planned international staff were deployed necessitated daily travel and overnight stays of both international and local MINUGUA staff to install, maintain and dismantle camp sites as well as to repair and replace equipment.

(c) <i>International contractual personnel</i>	—
(d) <i>United Nations Volunteers</i>	—
(e) <i>Government-provided personnel</i>	—
(f) <i>Civilian electoral observers</i>	—

3. Premises/accommodation 50 400

11. *Rental of premises.* The cost estimates of \$28,600 included \$12,775 for rental of the group headquarters in Guatemala City, \$1,750 for the sector headquarters in Quiche and \$14,000 for six team sites. The actual rental costs amounted to \$10,471 for the group headquarters, \$1,210 for the sector headquarters and \$28,596 for the team sites, resulting in additional requirements of \$11,700 under this heading.

12. *Maintenance supplies.* Requirements for maintenance supplies were lower than estimated, resulting in an unutilized balance of \$4,500 under this heading.

13. *Maintenance services.* The cost of maintenance services were estimated at \$1,500 per month for cleaning and \$2,000 per month for repair of offices. Actual requirements averaged \$900 per month, resulting in an unutilized balance of \$8,000 under this heading.

14. *Utilities.* Provision was made under this heading in the amount of \$89,100 for electricity and water (\$3,500) and diesel fuel and oil (\$85,600) to be used for generators and water pumps. Requirements for generator fuel were lower (\$10,600 per month) resulting in an unutilized balance of \$49,800.

15. *Construction/prefabricated buildings.* Additional requirements under this heading amounted to \$200.

- 4. **Infrastructure repairs** —
- 5. **Transport operations** (5 700)

16. *Rental of vehicles.* Additional requirements of \$11,700 were due to the rental of 12 buses to transport the military observers from Guatemala City to the demobilization sites and back (\$7,600) and the additional rental cost for cranes and six trucks (\$4,100) to transport containers used to deposit arms, grenades and ammunition from the demobilization sites to the Government arms depot in Guatemala City.

17. *Petrol, oil and lubricants.* Lower consumption of petrol resulted in an unutilized balance of \$6,000.

6. Air operations

- (a) *Helicopter operations* 2 900

18. *Hire/charter costs.* Additional requirements of \$246,100 were due to changes in contractual arrangements. The cost estimates provided for the hire of three helicopters. The initial contract had to be cancelled because the company could not provide the services stipulated in the contract. In order to carry out the demobilization tasks in February and March 1997, the MINUGUA helicopters were utilized and the additional hours charged to the Military Observer Group. The MINUGUA air contract was amended to provide for an additional helicopter effective 1 April 1997. Expenditures amounted to \$531,000 for a total of 326.76 flying hours at \$1,625 per hour.

19. *Positioning/depositioning costs.* The unutilized balance of \$249,000 under this heading resulted from the deployment of one helicopter instead of the three originally planned.

- (b) *Fixed-wing aircraft* —
- (c) *Air crew subsistence allowance* —
- (d) *Other air operations costs* —

7. Naval operations —

8. Communications

- (a) *Complementary communications* 109 800

20. *Communications equipment.* The cost estimates provided \$49,400 for the purchase of equipment as well as \$21,100 for the shipment of equipment from other missions. The unutilized balance of \$6,100 resulted from the purchase of 10 cellular phones instead of 13 and the fact that no telephone sets were purchased.

21. *Spare parts and supplies.* Actual requirements were higher by \$11,300.

22. *Commercial communications.* Requirements under this heading were estimated at \$2,500 per month for telephone costs and at \$10,000 per month for each of five INMARSAT terminals. The unutilized balance of \$115,000 resulted from the use of only four INMARSAT terminals and lower monthly costs.

(b) *Main trunking contract* —

9. **Other equipment** 1 200

23. *Office furniture.* There was an unutilized balance of \$10,500 under this heading. Owing to the deployment of fewer personnel there were fewer requirements for office furniture.

24. *Office equipment.* There was an unutilized balance of \$200 in respect of the purchase of 15 small safes.

25. *Data-processing equipment.* The cost estimates provided for the purchase of 15 desktop computers (\$24,000) and freight charges for the shipment of laptop computers and printers from other missions (\$19,000). Actual requirements for the purchase of 15 desktop computers and transport of 21 laptop computers and 28 printers were lower by \$900.

26. *Petrol tank plus metering equipment.* Provision was made in the amount of \$7,000 for the purchase of 21 diesel storage tanks. Actual requirements totalled \$6,700, resulting in an unutilized balance of \$300.

27. *Water and septic tanks.* The cost estimates provided \$5,400 for the purchase of 18 water tanks. A total of 18 water tanks, 4 septic tanks and accessories were purchased at a total cost of \$1,600, resulting in an unutilized balance of \$3,800.

28. *Accommodation equipment.* Requirements under this heading were estimated at \$54,300 for various items of accommodation equipment, including air-conditioners, refrigerators, freezers, stoves, washing machines and dryers. Additional requirements amounting to \$18,600 related primarily to the purchase of 155 lockers (\$10,500), 155 pillows (\$2,200), 155 bed spreads (\$3,100) and kitchen utensils (\$1,900).

29. *Miscellaneous equipment.* Provision was made in the amount of \$27,500 for the purchase of 6 cameras (\$21,000) and 10 sea containers (\$6,500). Actual expenditures amounted to \$34,500 for six cameras (\$15,300), film and other accessories needed for the processing of photo identification of military observers (\$12,200), the purchase of five sea containers and the shipment of six sea containers from the United Nations Mission in Haiti (\$2,500).

30. *Spare parts, repairs and maintenance.* There was an unutilized balance of \$11,900 under this heading. Actual expenditures of \$3,600 were limited to the cost of spare parts and ink cartridges for photocopiers.

31. *Water purification equipment.* Provision was made in the amount of \$7,200 for the purchase of six water treatment systems. Actual requirements were higher by \$800.

10. Supplies and services

(a) *Miscellaneous services* (39 900)

32. *Security services.* Requirements were estimated at \$2,000 per month for security services at headquarters and the six team sites. Actual requirements amounted to \$42,700 for the hiring of 21 watchmen (3 per team site and 3 for the sector headquarters) at \$6,100 per site and \$2,300 for two security guards for the demobilization headquarters in Guatemala City.

33. *Medical treatment and services.* There was an unutilized balance of \$8,200 under this heading owing to lower requirements by military observers for minor medical treatment.
34. *Miscellaneous other services.* Requirements were estimated at \$15,800 for rental of photocopiers and for bank charges. There were additional requirements of \$9,100 for the installation of various items of accommodation equipment and cleaning services for headquarters and team sites.
- (b) *Miscellaneous supplies* (17 200)
35. *Stationery and office supplies.* Additional requirements of \$1,900 related to the need to acquire certificates of demobilization for the ex-combatants.
36. *Medical supplies.* Requirements for medical supplies were lower than estimated, resulting in an unutilized balance of \$2,000.
37. *Sanitation and cleaning materials.* There were additional requirements of \$5,500 under this heading owing to the higher than anticipated cost of supplies.
38. *Electrical supplies.* Additional requirements of \$14,800 were due to the higher than anticipated cost of wiring, cables, lighting and related materials for the team sites.
39. *Uniform items, flags and decals.* Expenditures of \$500, related solely to the purchase of medals for the military observers, resulted in an unutilized balance of \$4,500.
40. *Quartermaster and general stores.* Additional requirements of \$1,500 under this heading related to the purchase of keys and maps for the military observers.
11. **Election-related supplies and services** —
12. **Public information programmes** —
13. **Training programmes** —
14. **Mine-clearing programmes** —
15. **Assistance for disarmament and demobilization** —
16. **Air and surface freight** 200
41. *Commercial freight and cartage.* There was an unutilized balance of \$200 under this heading.
17. **United Nations Logistics Base, Brindisi** —
18. **Support account for peacekeeping operations** —
19. **Staff assessment** 43 700
42. There were no expenditures recorded under this heading. As indicated in paragraph 7 above, an amount of \$126,300 was obligated under international salaries to cover all costs associated with the three staff deployed.
20. **Income from staff assessment** (43 700)
43. This item is derived from item 19 above.
21. **Voluntary contributions in kind (budgeted)** —
22. **Voluntary contributions in kind (non-budgeted)** —
