ECONOMIC COMMISSION FOR EUROPE

INLAND TRANSPORT COMMITTEE

Working Party on Inland Water Transport

Forty-third session

Agenda item 10

ASSISTANCE TO COUNTRIES IN TRANSITION

Submitted by the Government of Slovakia

Given the increasing difficulties of navigation on the Danube, chiefly because of the military action on the stretch of the river running through Yugoslavia, Slovakia's proposal to hold a workshop as indicated in document TRANS/SC.3/1998/13 has become less timely and it is likely that a different, more appropriate meeting at a higher level will have to be held shortly as a result of the harmonization between the Danube Commission and other interested international organizations.
