## NOTE CONCERNANT LES DONNÉES

### I. MANDAT

1. Par sa décision 81/34 du 27 juin 1981, le Conseil d'administration a prié l'Administrateur de continuer à lui communiquer des renseignements sur le volume et la structure des dépenses de coopération technique financées par des organismes des Nations Unies.

### II. PRÉSENTATION DES DONNÉES

2. Les données brutes de 1998 communiquées par les institutions et organismes, dont on a vérifié la cohérence et l'exactitude, ont été traitées et présentées dans les tableaux 1 à 11 qui contiennent à la fois des données récapitulatives et des données détaillées. On trouvera dans les tableaux 1 à 8 des données concernant les dépenses de coopération technique tandis que les tableaux 9, 10 et 11 font apparaître le montant des contributions. Les tableaux 12 à 23 contiennent des données sur les contributions et les dépenses depuis 1980.

3. Plus précisément, le tableau 1 récapitule les dépenses de coopération technique des organismes de l'ensemble du système des Nations Unies tandis que le tableau 2 présente les mêmes données, par secteur. Ces deux tableaux devraient être consultés si l'on s'intéresse uniquement aux grands agrégats. Le tableau 3 regroupe de façon très synthétique les dépenses de coopération technique par organisation, secteur et catégorie de dépenses. Deux caractéristiques de ces tableaux sont à noter. En premier lieu, pour chaque organisation/entité, les dépenses sont réparties par type de dépenses : budget ordinaire (A) ; fonds extrabudgétaires des organismes autres que le PNUD (B1) ; fonds de sources multilatérales extérieures au système des Nations Unies (B2) ; fonds de sources bilatérales acheminés par des organismes des Nations Unies (C1) ; et contributions unilatérales "autofinancées" (C2). En second lieu, les dépenses du PNUD, de l'UNICEF et du PAM, qui entrent dans la catégorie B1, sont réparties par secteur, ce qui signifie en principe que ces entités étaient directement responsables de l'exécution de l'ensemble de leur programme. Il se peut, en fait, que cela ne soit pas le cas, notamment en ce qui concerne le PNUD; toutefois, l'objectif est de faire en sorte que l'on puisse remonter à la source et de réduire autant que possible les doubles comptages. Dans le cas du FNUAP, pour lequel les données requises sont toutes disponibles, seule une portion de ces dépenses entre dans la catégorie B1 - 99,2 millions de dollars sur un total de 216,6 millions de dollars en 1998. Cela veut dire que les dépenses des agents d'exécution figurant dans la catégorie B1 sont augmentées du montant des dépenses du FNUAP pour lesquelles ces organismes sont responsables (117,4 millions de dollars). C'est pourquoi, le tableau 3 donne une image plus détaillée des flux de ressources entre les entités du système des Nations Unies.

4. Les tableaux 4 à 8 donnent des informations plus détaillées sur les sources des catégories des dépenses figurant dans le tableau 3. Plus précisément, le tableau 4 donne la ventilation par pays et par organisation des dépenses imputées au budget ordinaire (A), ce qui permet de constater le montant des dépenses imputées au budget ordinaire engagées par une organisation donnée dans un pays donné. Par souci de cohérence, on notera que, dans ce tableau, le total général est le même que celui qui figure à la colonne "Total" de la ligne A à la

/...

fin du tableau 3. Le tableau 5 indique la répartition par pays et par organisation de toutes les dépenses de sources multilatérales extérieures au système des Nations Unies (B2); le total de ce tableau correspond à celui qui figure à la colonne "Total" de la ligne B2 à la fin du tableau 3. La ventilation détaillée par pays et par organisation des ressources bilatérales acheminées par le système des Nations Unies aux agents d'exécution et aux institutions spécialisées (C1) est présentée au tableau 6; le total de ce tableau correspond à celui qui figure à la colonne "Total" de la ligne C1 à la fin du tableau 3. Le tableau 7 présente des données détaillées concernant les dépenses financées par des sources multilatérales extérieures au système des Nations Unies (B1), classées également par pays et par organisation; le total de ce tableau correspond à celui qui figure à la colonne "Total" de la ligne B1 à la fin du tableau 3. Enfin, la répartition par pays et par organisation des contributions unilatérales (C2) versées aux agents d'exécution et aux institutions spécialisées puis réaffectées aux pays contribuants figurent dans la colonne "Dépenses autofinancées" du tableau 8; le total de cette colonne correspond à celui de la colonne "Total" de la ligne C2 à la fin du tableau 3.

5. Le tableau 9 présente les contributions extrabudgétaires versées aux agents d'exécution et aux institutions spécialisées, réparties selon les rubriques suivantes : sources unilatérales et bilatérales (pays ou territoire et ONG) et sources multilatérales (système des Nations Unies et organismes extérieurs au système). Les contributions reçues par les agents d'exécution et les institutions spécialisées pour financer les dépenses de coopération technique "autofinancée" figurent au tableau 10. Le tableau 16 contient des données relatives à l'assistance fournie par la Banque mondiale et l'IDA en 1998.

6. Les autres tableaux contiennent des données sur les dépenses de coopération technique correspondant à des périodes de durée variable se situant entre 1980 et 1998. Les contributions aux dépenses du PNUD, du FNUAP, de l'UNICEF et du PAM entre 1993 et 1998, ventilées selon divers critères, sont présentées dans les tableaux 11 à 15. La valeur nominale et le taux de croissance des dépenses de coopération technique de l'ensemble du système des Nations Unies pour 1980-1998 sont présentés dans les tableaux 17 et 18. Deux nouveaux tableaux ont été ajoutés : les tableaux 19 et 20, qui contiennent des données relatives à l'évolution dans le temps des dépenses imputées aux budgets ordinaires et des dépenses extrabudgétaires, par organisation. Les tableaux 21 et 22 contiennent des données relatives à l'évolution dans le temps des contributions extrabudgétaires aux organisations. Enfin, le tableau 23 donne l'évolution dans le temps des contributions volontaires reçues par le PNUD, le FNUAP, l'UNICEF et le PAM.

### III. OBSERVATIONS

7. Pour exploiter et interpréter les données figurant dans le présent document, il convient de garder à l'esprit les points suivants :

a) Portée de données. Les données relatives aux dépenses et contributions ne concernent que les dépenses et les contributions au titre de la coopération technique. Dans le présent rapport, les activités de coopération technique comprennent les activités du PNUD, des agents d'exécution, de l'AIEA, du FNUAP, de l'UNICEF et du PAM. On trouvera dans le rapport annuel du Secrétaire général

/...

sur la question un compte rendu complet des dépenses engagées (et des contributions versées) au titre des activités de coopération technique du système des Nations Unies;

b) Objets des dépenses. Toutes les données relatives aux dépenses concernent les activités au titre des programmes exécutés sur le terrain par les entités concernées. Toutes les données relatives aux dépenses sont également nettes des dépenses d'administration et d'appui et des dépenses diverses. Les données relatives aux dépenses représentent donc le montant effectif des ressources directement consacrées à des activités de développement, qui sont qualifiées dans le présent document et dans le document DP/1999/35 de dépenses au titre des programmes de terrain. La seule exception est l'OMS, dont les dépenses comprennent ces autres frais;

c) Données provisoires. Le montant total des dépenses de coopération technique engagées par les organisations en 1998 est inférieur à la réalité en raison d'une sous-estimation des dépenses de l'OMS au cours de la première année de son exercice biennal, qui va de 1998 à 1999. La distorsion qui en résulte sera corrigée dans le rapport de l'année prochaine, lorsque l'OMS présentera des données plus précises pour l'ensemble de son exercice biennal. Il faut donc considérer comme provisoires les données relatives aux dépenses totales de coopération technique engagées par les organisations en 1998;

d) Banque mondiale/IDA. Ayant changé l'orientation de leur action et le champ de leurs activités, la Banque mondiale et l'IDA ne cherchent plus à comptabiliser séparément les éléments assistance technique de leurs projets et ne sont donc pas en mesure de donner ce type de données. C'est pourquoi un nouvel instrument de prêt, les prêts au développement des connaissances et à l'innovation (PDCI), est maintenant de plus en plus utilisé en lieu et place des prêts d'assistance technique. Les PDCI servent à fournir un appui structuré à de petits projets qu'il importe de réaliser au plus vite pour éprouver la validité de nouvelles approches prometteuses en matière de développement sur la base d'une hypothèse solide en matière de développement ou à tester et à perfectionner des modèles d'origine locale avant de les appliquer à plus grande échelle. Les PDCI servent donc à financer de nouvelles expériences, des activités d'apprentissage et des projets pilotes dans le cadre de la recherche de solutions éventuelles à des problèmes de développement avant de procéder sur une plus grande échelle. Les PDCI mettent à profit des possibilités de procéder à un suivi et à une évaluation intenses et prévoient également l'évaluation de la capacité de l'emprunteur et la réaction des intéressés en tant que partie intégrante du processus d'apprentissage, lorsque ces deux facteurs sont inconnus. Des prêts d'une valeur maximum de 5 millions de dollars sont utilisés pour des services de consultants, des travaux de petite envergure et l'achat de biens et de matériel pour des périodes allant de deux à quatre ans. Les PDCI, selon le cas d'espèce, ne sont pas expressément axés sur le renforcement des capacités et ne peuvent pas être considérés comme une assistance technique.

Outre des données sur les PDCI, la Banque mondiale et l'IDA ont également communiqué des données relatives aux prêts d'assistance technique et aux dons du Mécanisme d'octroi de dons pour le développement (MDD) et du Fonds de développement institutionnel (FDI), qui sont toutes présentées dans le présent rapport. Les prêts d'assistance technique servent à réaliser un ou plusieurs

/...

objectifs, notamment l'élaboration des projets, le renforcement des capacités, la réforme de la fonction publique et le développement sectoriel. Ils complètent souvent des prêts à l'ajustement structurel (PAS) pour aider à résoudre des problèmes concernant le renforcement à long terme des capacités qui sont liés de très près à la réforme de la politique économique. Toutes les données communiquées par la Banque mondiale et l'IDA pour 1998 sont présentées dans un tableau distinct (tableau 16) qui figure pour la première fois dans le présent rapport;

e) Contributions - Organisations. Les données relatives aux contributions aux organisations ne concernent que les seules contributions extrabudgétaires; les contributions au titre du budget ordinaire ne figurent pas dans le présent rapport. En conséquence, les données relatives aux contributions aux organisations présentées dans le présent rapport ne doivent pas être confondues avec des recettes;

f) Contributions - PNUD et FNUAP. Les données relatives aux contributions au PNUD et au FNUAP s'entendent des seules contributions volontaires. Dans le cas du PNUD, la participation aux coûts, les contributions aux dépenses de fonctionnement des bureaux locaux, les contributions de contrepartie en espèces des gouvernements, les fonds et les fonds d'affectation spéciale et les contrats de services de gestion et autres contributions ont été exclus du montant total des contributions (voir document DP/1999/15/Add.2 pour plus de détails). Pour les deux entités, les contributions volontaires ne correspondent pas au total des contributions ni au total des recettes;

g) Contributions - UNICEF. Les données relatives aux contributions s'entendent des contributions volontaires reçues de gouvernements, du secteur privé et de sources interorganisationnelles. Toutefois, le montant des contributions ne correspond pas au montant total des recettes;

h) Absence de données. En raison de difficultés imprévues, l'OMM, l'UNITAR, la CNUED, l'UNOPS et le PNUE n'ont pas été en mesure de communiquer des données aux fins du présent rapport.

#### IV. TERMINOLOGIE

8. L'exploitation des données contenues dans le présent additif se trouvera grandement facilitée par la compréhension de la terminologie utilisée, certains termes n'étant pas nécessairement familiers. Les définitions et concepts les plus importants sont présentés ci-après.

9. Assistance au titre de la coopération technique. Cette assistance comprend les activités qui visent à promouvoir l'autonomie des pays en développement et qui renforcent donc les conditions indispensables au développement humain durable. Ces activités comprennent la mise en valeur des ressources humaines (éducation, santé et développement social) ainsi que les capacités en matière de gestion, de technique, d'administration et de recherche requises pour l'élaboration et la mise en œuvre de plans et de politiques de développement, notamment la gestion et le renforcement des institutions et des entreprises concernées, et la fourniture de services consultatifs. Toutes les entités

/...

reprises dans le présent rapport, exception faite de la Banque mondiale et de l'IDA, sont considérées comme menant des activités de coopération technique.

10. Dépenses imputées aux budgets ordinaires. Il s'agit des dépenses de coopération technique que les agents d'exécution et des institutions spécialisées financent par prélèvement sur leur budget ordinaire (contributions). Il existe donc un lien entre ces dépenses et le nombre de voix dont les États membres disposent dans les diverses organisations. Le tableau 4 de l'annexe statistique contient des données relatives aux dépenses que les organisations imputent à leur budget ordinaire. Le PNUD, l'UNICEF, le FNUAP et le PAM n'ont pas de dépenses de ce type dans la mesure où les contributions à ces organismes sont purement volontaires.

11. Dépenses extrabudgétaires. Contrairement aux dépenses imputées aux budgets ordinaires, les dépenses extrabudgétaires s'entendent des dépenses des organisations financées à l'aide de contributions volontaires qui proviennent de deux sources : multilatérales et bilatérales.

12. Dépenses extrabudgétaires – de sources multilatérales. Les sources multilatérales relèvent de deux catégories : a) le système des Nations Unies (B1); et b) les sources multilatérales extérieures au système des Nations Unies (B2). Le total des dépenses B1 (voir tableau 3) comprend les dépenses B1 des organisations et les dépenses B1 du reste du système, à l'exclusion de la Banque mondiale et de l'IDA. Les dépenses B1 des organisations servent à financer des activités de coopération technique grâce aux ressources disponibles au sein du système des Nations Unies : il s'agit donc, essentiellement, des sommes remboursées à des organisations par d'autres entités du système des Nations Unies au titre de services fournis. Aucun effort n'a été épargné pour éviter le problème du double comptage, c'est-à-dire compter deux fois une somme versée et une somme reçue. Les autres dépenses B1 comprennent les dépenses du PNUD, de l'UNICEF, du FNUAP et du PAM. La ligne B1 à la fin du tableau 3 récapitule le total des dépenses B1, une ventilation détaillée de ces dépenses figurant dans le tableau 7. Les dépenses extrabudgétaires de sources multilatérales extérieures au système des Nations Unies sont qualifiées dans le présent document de dépenses B2; il s'agit des dépenses d'entités extérieures telles que les banques régionales de développement, la Commission des communautés européennes et divers fonds de développement arabes. Un aspect crucial des dépenses B2 est qu'elles sont financées à l'aide de contributions versées par des entités multilatérales extérieures à des organismes des Nations Unies pour financer des activités de coopération technique dans les pays en développement. La ligne B2 à la fin du tableau 3 récapitule cette catégorie de dépenses extrabudgétaires, des données plus détaillées figurant dans le tableau 5.

13. Dépenses extrabudgétaires bilatérales. Les dépenses extrabudgétaires bilatérales se répartissent également en deux catégories : a) celles financées par des sources extérieures au système des Nations Unies (C1); et b) les dépenses unilatérales autofinancées. Les premières comprennent les dépenses engagées par prélèvement sur les ressources fournies directement à l'Organisation par un État Membre ou une ONG pour financer des activités de coopération technique dans un pays en développement; il s'agit de dépenses financées à l'aide de ressources mises à la disposition du système des

/...

Nations Unies par des donateurs bilatéraux. Elles comprennent également les dépenses financées à l'aide de contributions multibilatérales (c'est-à-dire les contributions versées par un pays pour financer un ou plusieurs projets précis dans un autre pays) ainsi que les dépenses engagées par une organisation par prélèvement sur des fonds constitués à des fins spéciales gérés par l'organisation elle-même. Le terme "unilatéral" prête à confusion, mais il est utilisé pour souligner le fait que ces dépenses servent à financer des activités de coopération technique dans le pays qui a versé la "contribution" au système des Nations Unies. Les dépenses unilatérales sont donc financées à l'aide d'une contribution versée par un pays donné au système des Nations Unies qui s'en sert pour financer des activités dans ce même pays; la seule différence est qu'elles revêtent un double caractère : elles sont unilatérales parce qu'elles servent à financer des activités dans le pays contribuant; elles sont bilatérales parce que les dépenses sont financées à l'aide d'une contribution versée par un pays au système des Nations Unies.

14. Les contributions extrabudgétaires des organisations. Elles servent à financer des dépenses extrabudgétaires : elles comportent un aspect recettes et un aspect dépenses. Les contributions extrabudgétaires sont des contributions volontaires qui peuvent être soit versées à des fins déterminées soit être liées aux financements d'activités dans un lieu géographique donné; elles se divisent en deux catégories : les contributions multilatérales et les contributions bilatérales. Les contributions multibilatérales se répartissent en :

a) contributions du système des Nations Unies – ces contributions représentent essentiellement un transfert interne (c'est-à-dire un paiement) de ressources au sein du système des Nations Unies provenant (essentiellement) de fonds versés à des agents d'exécution pour services rendus; et b) contributions provenant de l'extérieur du système des Nations Unies – des contributions versées par des organisations multilatérales qui ne font pas partie du système des Nations Unies, par exemple la Banque africaine de développement et le Fonds arabe du Golfe pour les organismes de développement des Nations Unies. Les contributions bilatérales se répartissent en : a) contributions provenant de pays ou de territoires – représentant des fonds versés au système des Nations Unies pour financer des activités dans les pays en développement; b) des contributions unilatérales autofinancées; c) des contributions versées par un pays pour financer des activités de coopération technique dans ce même pays; et d) des contributions d'organisations non gouvernementales – des contributions versées par ces organisations au système des Nations Unies.

(Footnotes on the following page)

**Table 1 (continued)**

- a/ The sum total of this column is equal to B1 minus [(UNFPA+UNICEF+WFP+UNDP (central resources and administered funds))]-B2+C1+C2 in table 3 or, alternatively, the sums of table 5 through table 7 minus [(UNFPA+UNICEF+WFP+UNDP (central resources and administered funds)) + "Self-supporting expenditures" of table 8. In different ways, table 3 through 8 amplify the summary data contained in table 1.
- b/ This column represents UNICEF and WFP expenditures for which the agency breakdown was not available.
- c/ Based on expenditures from regular resources, cost-sharing, SPR, SMFLDC and SIS.
- d/ Includes DDSMS and DESIPA.
- e/ Includes DDSMS only.
- f/ UNFPA-funded expenditure of \$281,400 to UNDP-administered fund of UNIFEM.
- g/ UNFPA comprises expenditures of \$6.571 million (UNCDE), \$11.898 million (UNIFEM), \$0.318 million (UNRFNRE), \$1,455 million (UNSO) and \$31.275 (Others).
- h/ Provisional. See "Note on the data" at the beginning of the report for an explanation of WHO expenditure as regards their two-year biennium period.
- i/ UNDP reported these expenditures with no further breakdown.

**Note:**

The World Bank/IDA no longer specifically allocates expenditures to technical cooperation activities. See "Note on data" for a clarification of this issue. See also table 16 for a complete breakdown of data submitted by World Bank/IDA.

UNITAR and WMO reported no UNDP-financed technical cooperation expenditures during 1997 and 1998.

/ ...

Table 2. United Nations system: summary of technical cooperation expenditure by sector, 1997-1998  
(In thousands of United States dollars)

ACC Programme Classification Categories	Total agency technical cooperation expenditures		Funded by regular budgets		Funded by extrabudgetary sources other than UNDP, UNDP-administered funds, UNFPA, UNICEF, WFP, UNFPA-UNICEF+WFP+UNDP[central resources and administered funds]) + B2+C1+C2 in table 3 or, alternatively, the sums of table 7 minus [UNFPA-UNICEF+WFP+UNDP[central resources and administered funds]) + table 5 + table 6 + "Self-supporting expenditures" of table 8. a/ The sum total of this column is equal to B1 minus [UNFPA+UNICEF+WFP+UNDP] (central resources and administered funds)] + B2+C1+C2 in table 3 or, alternatively, the sums of table 7 minus [UNFPA-UNICEF+WFP-UNDP] (central resources and administered funds)] + table 5 + table 6 + "Self-supporting expenditures" of table 8.

b/ Based on expenditure from regular resources, cost-sharing, SPR, SMF/LDC and SIS. As of 1997, UNV expenditure is being reported separately.

Note:

The World Bank/IDA no longer specifically allocates expenditures to technical cooperation activities. See "Note on data" for a clarification of this issue. Table 16, (a) through (e), in this report gives a complete breakdown of data submitted by the World Bank/IDA for 1998.

The sectoral data submitted by ESCWA for 1997 employed two classification schemes: the ACC Programme Classification codes and the "Allotment Account Classification effected due to the restructuring of the Secretariat of ESCWA" (covering letter of 16 March 1997 from ESCWA). For the purposes of comparability, the data for ESCWA were reclassified on the basis of the ACC sectoral codes.

a/ For the sector represented by these numbers, see the left-hand column of table 2.

b/ A - Regular budget

c/ B1 - Funded by United Nations system multilateral sources plus UNFPA, UNICEF, WFP and UNDP (central resources and administered funds).

d/ C1 - Bilateral resources channelled through the United Nations system.

e/ C2 - Unilaterally financed "self-supporting" expenditures.

f/ Sectoral breakdowns were not available for amounts under "Others".

g/ Includes DDSMS and DESIPA.

h/ UNFPA-funded expenditures of \$281,400 in the Population sector (11) to UNDP-administered fund for UNFEM.

i/ The data provided by UNESCO under "Regular budget (category 'A')" represent expenditures incurred under that organization's participation programme.

j/ Including support costs.

Note:

This table is an overall summary of technical cooperation expenditures of the United Nations system. The first two columns on the left show the executing agency and the category of expenditures; the other columns show the sectorial distribution of expenditures. The purpose of the table is to identify the executing agency and the amount, by sector, of technical cooperation expenditure for which each agency was directly responsible/implemented. Thus, UNFPA

directly implemented \$39.2 million of its \$216.6 million technical cooperation expenditure in 1998.

Source of funds category "A" corresponds to the "Funded by regular budgets" column of tables 1 and 2, while B1+B2+C1+C2 correspond to the "Funded by extrabudgetary sources other than UNDP and UNDP-administered funds, UNFPA, UNICEF and WFP" column of tables 1 and 2 plus the columns of UNFPA, UNICEF and WFP and UNDP (central resources and administered funds). For a more detailed breakdown of each budget source, see tables 4 through 7, and the "Self-supporting expenditures" column of table 8. See notes at the end of these tables for further explanation.

Since total B1 of this table comprises agency expenditures funded from other multilateral sources plus those of UNFPA, UNICEF, WFP and UNDP (central resources and administered funds), then agency B1 expenditure is equal to total B1 - [UNFPA+UNICEF+WFP+UNDP] (central resources and administered funds)]. Total agency multilateral expenditure is then equal to total B1 - [UNFPA+UNICEF+WFP+UNDP] (central resources and administered funds)] + B2.

To assist in the interpretation of table 3, it will be helpful to work with a picture of the flow of resources through the United Nations system; that is, how resources are channelled from one entity to the other: Executing and specialized agencies use their own resources (from RBE and EBE) to fund activities which they execute themselves. Since these agencies also execute programmes/projects funded by other entities within the system, such as UNDP and UNFPA, they receive payment for such services. These transactions thus have two sides: expenditure for entities making the payment, and income for entities receiving the payment. Some funding agencies also execute a share of their programme. For example, the value of activities funded and executed by UNDP was \$17.2 million; for UNFPA, it was \$39.2 million in 1998. Other entities, such as UNICEF and WFP, did not channel any of their expenditure to the rest of the United Nations system in 1998. There are also activities jointly funded and executed by more than one entity. Clearly, the resource linkages among the entities of the United Nations system is a complex one, which also raises the issue of double counting, but considerable efforts have been taken to minimize this source of error.

.. .

a/ This table gives a detailed breakdown of total B2 (expenditures from non-United Nations system multilateral sources) in table 3 of this annex. All B2 expenditures are incurred by the executing and specialized agencies. That is, agency B1 = total B1 of table 3 - [UNFPA+WFP+UNICEF+UNDP].

b/ UNV reported under Congo \$6,000 representing the breakdown of People's Republic of Congo (\$3,103) and Zaire (\$2,836).

c/ UNV reported under "others" an amount of \$3,175 for Palestine.  
 WIPO reported under "others" an amount of \$511,200 with no further breakdown.

Table 6. Expenditure and utilization of concessional expenditure financed from bilateral sources but channeled through the United Nations system by country or area, 1998 (in thousands of United States dollars)

a/ This table gives a detailed breakdown of total C1 expenditures as given in table 3 of this annex. C1 expenditures, based on contributions from bilateral sources, are specific to the executing and specialized agencies; no other entity in the United Nations system has C1 expenditures.

b/ Amount reported under UNRWA represents expenditure for "Headquarters"; amount reported under WHO represents expenditure for Newly independent States; and amount reported under WFO represents expenditure with no further breakdown.

c/ UNESCO reported expenditure of \$8,000 under Unsspecified with no further breakdown.

This table gives a detailed breakdown of total B1 expenditures as given in table 3 of this annex.

b) Expenditures do not include overhead paid to executing Agencies.

c) Expenditures do not warrant a separate column. Please refer to individual entities for detailed breakdowns.

d) This column comprises data for which a Central America allocation.

e) UNICEF reported additional expenditures for Panama which they combined with the former Yugoslavia (Serbia and Montenegro).

f) UNICEF reported this expenditure comprising \$1,131,000 for the former Yugoslav Republic of Macedonia, \$224,000 for the amount of \$0.669 million under "others" with no further breakdown. The amount of \$0.669 million under "others" represents the expenditure from UNDP-administered funds to the Nordic Bank/IDA Group.

g) WFP reported \$583,500 for unspecified C1S.

h) UNICEF reported the following breakdown under "other" (row): Palestinian children and women in Jordan (\$134,000), Lebanon (\$505,000), Syrian Arab Republic (\$151,000), West Bank and Gaza (\$2,320,000), Operation Lifeline Sudan (\$21,916,000) and Gulf area office activities (\$61,000). The amount of \$531,000 under "others" represents the expenditure from UNDP-administered funds to the World Bank/IDA Group.

a/ Comprising data contained in table 4.

b/ Comprising the sum of the total amounts contained in tables 5-7 less the amounts reported by UNFPA, UNICEF, WFP. Note that the total amount in this column is not the same as the total amount in the column entitled "Funded by extrabudgetary sources other than UNDP, UNDP-administered funds, UNFPA, UNICEF, WFP" of tables 1 and 2 since it excludes self-supporting expenditures.

c/ Includes expenditures against WFP general resources and special trust funds in support of programmes and projects of developing countries. Excludes administrative and other support costs.

d/ Including expenditures against IPF, SPR, SMFLDC, SIS, cost-sharing and trust funds established by the Administrator, where applicable.

e/ The table showing breakdown by agency may be obtained on request from UNDP.

f/ For agency breakdown of this amount, refer to table 4.

g/ For agency breakdown of this amount, refer to tables 5, 6 and 7.

h/ For agency breakdown of this amount, refer to table 7.

i/ UNDP reported combined expenditure of \$62,970 million for entire regional component with no further breakdown.

j/

<sup>a/</sup> This column is required to show contributions to agencies not shown in the header of this table. Detailed contributions are enumerated in individual entities footnoted below.

<sup>b/</sup> ECA reported for Canada an amount of \$174,000 for CIDA.

<sup>c/</sup> Amount reflects contributions of \$61,000 for IDRC and \$105,000 for USAID. ECLAC reported combined contribution for Colombia, Cuba, Costa Rica, Honduras, Mexico, Panama and Venezuela. FAO reported this contribution with no further explanation. WHO reported contribution under trust funds with no further breakdown.

<sup>d/</sup> WHO reported contribution under trust funds with no further breakdown.

<sup>e/</sup> The various agencies reported this contribution under "others" with no further breakdown.

<sup>f/</sup> Contributions received by the International Trade Centre from various Governments and allocated to UNCTAD for the Joint Integrated Technical Cooperation Programme (JITAP) ITC/UNCTAD/WTO. Further to footnote <sup>a/</sup> above, the following contributions by UNCDF to the following agencies have been recorded under the "Other" column: \$71,600 (UNICEF); \$9,639,000 (UNOPS); \$22,808,000 (Resident Representatives); and \$5,742,000 (INCAF).

<sup>g/</sup> Further to footnote <sup>a/</sup> above, the following contributions by UNFPA to the following agencies have been recorded under the "Other" column: \$281,400 (UNDP); \$99,210,800 (UNFPAY); \$300 (UNICEF); \$44,500 (UNRWA); \$150,200 (UNOPS); \$115,500 (ESCWYA); \$35,005,400 (NGO); and \$62,515,200 (NEX).

<sup>h/</sup> FAO reported contributions under "others" for miscellaneous donors (\$3,557,000) and multidonors (\$2,219,000).

UNDP: Geographical distribution of programme expenditure, 1997

UNDP: Geographical distribution of programme expenditure, 1998

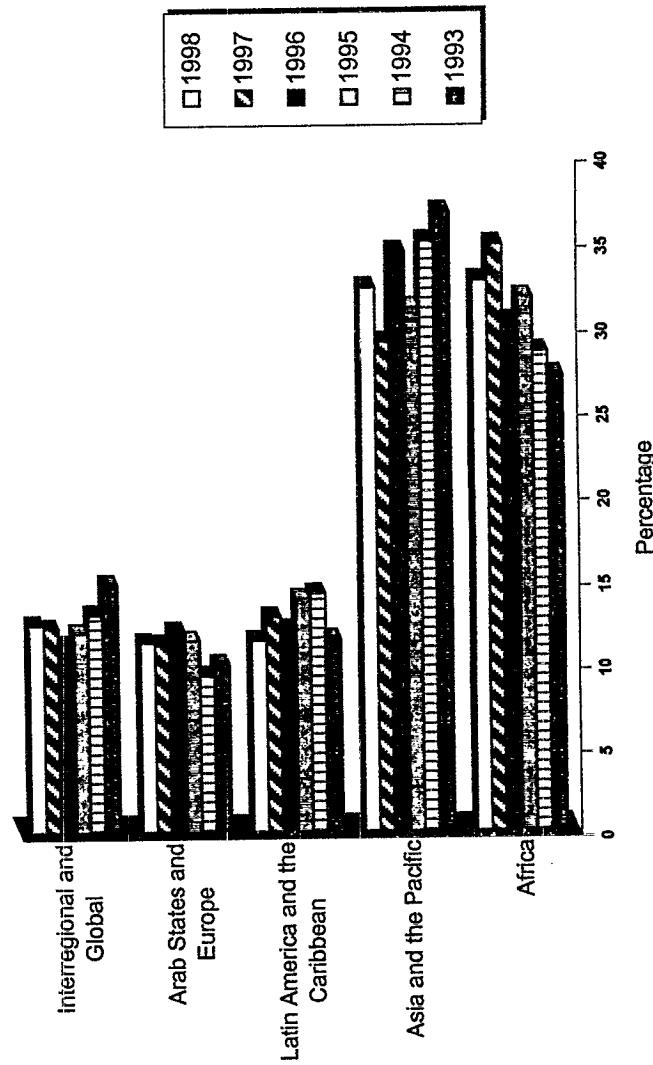

Note:  
 - "Amount" equals regular resources + cost sharing, usually referred to as central resources. The data thus exclude funds and trust funds.  
 - Percentage columns refer to percentage of total. Thus, in 1998 Africa accounted for 2.5 per cent of total cost-sharing.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.

b/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.

Note: Beginning this reporting year, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.

<sup>a/</sup> Data for 1991 and 1992 include \$612,000 and \$898,000, respectively, for TCMD/DES.

<sup>b/</sup> Prior to 1997, expenditures reported by UNV were combined with those of UNDP.

Note:

Extrabudgetary contributions do not represent total contributions to agencies since contributions to regular budgets, based on assessments, have been excluded.

The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.

Note: The data in this table refer to contributions actually received, not pledged. In the case of UNDP, UNFPA and WFP, the data refer to voluntary contributions only. For UNDP, total contributions include these additional elements: cost-sharing, funds and trust funds, government cash counterpart contributions, contributions to local office costs, extrabudgetary activities and management services agreements. See the statistical annex to the annual report of the Administrator (DP/1999/15/Add.2) for data on total contributions to UNDP. Data on contributions for UNICEF refer to total contributions, which include, besides voluntary contributions, contributions from various private sources, interorganizational arrangements and miscellaneous.
