Fifty-fourth session

First Committee

Agenda item 76

General and complete disarmament

Japan: draft resolution

Nuclear disarmament with a view to the ultimate elimination of nuclear weapons

The General Assembly,

Recalling its resolutions 49/75 H of 15 December 1994, 50/70 C of 12 December 1995, 51/45 G of 10 December 1996, 52/38 K of 9 December 1997 and 53/77 U of 4 December 1998,

Bearing in mind the recent nuclear tests, as well as the regional situations, which pose a challenge to international efforts to strengthen the global regime of non-proliferation of nuclear weapons,

Noting the progress in commencing the discussions on START III between the United States of America and the Russian Federation,

Welcoming the international efforts to promote the entry into force of the Comprehensive Nuclear-Test-Ban Treaty at the conference convened in October 1999 according to article 14 of that Treaty,

Taking note of the report of the Tokyo Forum for Nuclear Non-Proliferation and Disarmament,¹

Recognizing that the enhancement of international peace and security and the promotion of nuclear disarmament mutually complement and strengthen each other,

Reaffirming the crucial importance of the Treaty on the Non-Proliferation of Nuclear Weapons as the cornerstone of the international regime for nuclear non-proliferation and as an essential foundation for the pursuit of nuclear disarmament,

¹ CD/1590.

Reaffirming also the conviction that further advancement in nuclear disarmament will contribute to consolidating the international regime for nuclear non-proliferation, ensuring international peace and security,

1. *Reaffirms* the importance of achieving the universality of the Treaty on the Non-Proliferation of Nuclear Weapons, and calls upon States not parties to the treaty to accede to it without delay and without conditions;

2. *Reaffirms also* the importance for all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to fulfil their obligations under the Treaty;

3. *Calls for* the determined pursuit by the nuclear-weapon States of systematic and progressive efforts to reduce nuclear weapons globally, with the ultimate goal of eliminating those weapons, and by all States of general and complete disarmament under strict and effective international control;

4. *Stresses* that, in order to make advancements towards the ultimate goal of eliminating nuclear weapons, it is important and necessary to pursue such actions as:

(a) The early signature and ratification of the Comprehensive Nuclear-Test-Ban Treaty by all States, especially by those States whose ratification is required for its entry into force, with a view to its early entry into force, as well as cessation of nuclear tests pending its entry into force;

(b) The intensive negotiations in the Conference on Disarmament on and their early conclusion of a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, on the basis of the report of the Special Coordinator in 1995 and the mandate contained therein, and, pending its entry into force, a moratorium of the production of fissile material for nuclear weapons;

(c) Multilateral discussions on possible future steps on nuclear disarmament and nuclear non-proliferation;

(d) The early entry into force of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms (START II)² and the early commencement and conclusion of negotiations for START III by the Russian Federation and the United States of America, and the continuation of the process beyond START III;

(e) Further efforts by the five nuclear-weapon States to reduce their nuclear arsenals unilaterally and through their negotiations;

5. *Invites* the nuclear-weapon States to keep the Members of the United Nations duly informed of the progress or efforts made for nuclear disarmament;

6. *Welcomes* the ongoing efforts in the dismantlement of nuclear weapons, notes the importance of the safe and effective management of the resultant fissile materials, and calls for continued efforts by States that possess fissile material no longer required for defence purposes to make such material available for safeguards by the International Atomic Energy Agency (IAEA) as soon as practicable;

7. *Calls upon* all States to redouble their efforts to prevent proliferation of weapons of mass destruction, *inter alia*, nuclear weapons, confirming, and strengthening if necessary, their policies not to export equipment, materials or technology that could contribute to the proliferation of those weapons;

² *The United Nations Disarmament Yearbook*, vol. 18: 1993 (United Nations publication, Sales No. E.94.IX.1), appendix II.

8. *Stresses* the importance of the IAEA Model Protocol ³ for ensuring nuclear non-proliferation, and encourages all States which have not done so, to conclude an additional protocol with IAEA as soon as possible;

9. *Underlines* the vital importance of the 2000 Review Conference of the Treaty on the Non-Proliferation of Nuclear Weapons for the preservation and strengthening of the regime anchored therein, and calls upon all States parties to that Treaty to intensify their efforts with a view to reaching an agreement on a new set of principles and objectives for nuclear non-proliferation and disarmament at that Conference;

10. *Encourages* the constructive role played by civil society in promoting nuclear non-proliferation and nuclear disarmament.
