Financing of the United Nations Observer Mission in Sierra Leone

## Financing of the United Nations Observer Mission in Sierra Leone

### Report of the Secretary-General

#### *Summary*

The present report contains the revised budget for the 12-month period from 1 July 1999 to 30 June 2000 for the operation of the United Nations Observer Mission in Sierra Leone (UNOMSIL), which amounts to \$34,382,400 gross (\$32,870,100 net). It incorporates additional requirements for the provisional expansion of the Observer Mission, which was authorized by the Security Council in resolution 1260 (1999) of 20 August 1999.

Of the total revised budget, some 36 per cent of resources relate to civilian personnel costs. Operational costs account for 31 per cent of the budget, military personnel costs reflect 29 per cent, while staff assessment comprises 4 per cent of the total. Less than 1 per cent of the total resources are related to other programmes.

The action to be taken by the General Assembly is set out in paragraph 22 of the present report.

## I. Overview

1. The present report contains the revised budget for the 12-month period from 1 July 1999 to 30 June 2000 for the operation of the United Nations Observer Mission in Sierra Leone (UNOMSIL), which amounts to \$34,382,400 gross (\$32,870,100 net). The revised budget incorporates additional requirements for the provisional expansion of the Observer Mission, which was authorized by the Security Council in resolution 1260 (1999) of 20 August 1999, and should be read in conjunction with the previous report of the Secretary-General on the financing of UNOMSIL (A/53/454/Add.1). The revised budget does not cover the estimated costs associated with the deployment to Sierra Leone of a United Nations peacekeeping force, proposed in the eighth report of the Secretary-General to the Security Council on UNOMSIL (S/1999/1003). Should the Council authorize the deployment of a force, related additional resource requirements will be submitted to the General Assembly in an addendum to the present report.
2. The original budget of UNOMSIL, as contained in document A/53/454/Add.1, amounted to \$16,412,400 gross (\$15,560,400 net) and was based on the strength authorized by the Security Council in resolution 1181 (1998) of 13 July 1998, that is, 70 military observers, together with a 15-person medical unit and 5 civilian police advisers supported by 50 international and 48 local staff.
3. Having reviewed the proposed budget on 22 February 1999, the Advisory Committee on Administrative and Budgetary Questions, owing to the prevailing security situation and uncertainty as to the future deployment of UNOMSIL at that time, refrained from making recommendations to the General Assembly on the budget. As a result, the Fifth Committee of the General Assembly took no action during its resumed fifty-third session on the financing of UNOMSIL for the period from 1 July 1999 to 30 June 2000.
4. Subsequently, in a letter dated 13 June 1999 addressed to the Secretary-General by the Chairman of the Advisory Committee on Administrative and Budgetary Questions, the Advisory Committee concurred with entering into commitments for the maintenance of UNOMSIL for the four-month period from 1 July to 31 October 1999, in the amount of \$5,470,800 gross (\$5,186,800 net), as had been requested by the Controller in a letter dated 11 June 1999.
5. Following the signing on 7 July 1999 of the Lomé Peace Agreement between the Government of Sierra Leone and the Revolutionary United Front of Sierra Leone (RUF/SL), the Secretary-General, in his seventh report to the Security Council on UNOMSIL (S/1999/836 and Add.1), set out his recommendations on the immediate measures that should be taken to strengthen the Mission, including the deployment to Sierra Leone of an additional 140 military observers, the introduction of a second-line medical capability of 35 personnel and the strengthening of the Mission with additional civilian staff.
6. The Security Council, by resolution 1260 (1999), *inter alia*, authorized the provisional expansion of UNOMSIL to up to 210 military observers along with the necessary equipment and administrative and medical support, as well as the strengthening of the political, civil affairs, information, human rights and child protection elements of UNOMSIL, as set out in the report of the Secretary-General to the Security Council (S/1999/836, paras. 40 to 51), including the appointment of a deputy Special Representative of the Secretary-General and the expansion of the Office of the Special Representative of the Secretary-General.
7. Pending the completion of the present report and in order to provide for the immediate operational requirements of UNOMSIL with regard to the deployment of additional military observers and a medical unit, as well as the acquisition of vehicles, communications and

other equipment, the Advisory Committee, in a letter dated 20 September 1999, concurred with the request of the Controller, contained in his letter dated 14 September 1999, to enter into additional commitments for UNOMSIL in an amount not exceeding \$6,437,300. Thus, the total commitment authority provided by the Advisory Committee for the maintenance of UNOMSIL and for its provisional expansion amounts to \$11,908,100 gross (\$11,624,100 net).

8. The revised budget of UNOMSIL for the period from 1 July 1999 to 30 June 2000 is \$17,970,000 higher in gross terms than the initial proposed budget of \$16,412,400 for the same period (see A/53/454/Add.1). Table 1 below provides comparisons, by category of expenditure, among actual 1998-1999 expenditures, the initial proposed budget for the period 1999-2000 and the proposed revised budget.

9. The action to be taken by the General Assembly is:

(a) To appropriate the amount of \$34,382,400 gross (\$32,870,100 net) for the operation of UNOMSIL for the 12-month period from 1 July 1999 to 30 June 2000, inclusive of the amount of \$11,908,100 gross (\$11,624,100 net) already authorized by the Advisory Committee on Administrative and Budgetary Questions;

(b) To assess the amount of \$15,472,080 gross (\$14,791,545 net) for the period from 1 July to 13 December 1999;

(c) To assess the amount of \$18,910,320 gross (\$18,078,555 net) for the maintenance of UNOMSIL for the period from 14 December 1999 to 30 June 2000, at a monthly rate of \$2,865,200 gross (\$2,739,175 net), subject to the extension(s) of the mandate of UNOMSIL by the Security Council beyond 13 December 1999.

## II. Political mandate of the United Nations Observer Mission in Sierra Leone

10. Information on the political mandate of UNOMSIL, as set out in Security Council resolution 1181 (1998), is provided in the previous report of the Secretary-General on the financing of UNOMSIL (A/53/454/Add.1, para. 4).

11. By resolution 1260 (1999), the Security Council authorized, *inter alia*, the provisional expansion of UNOMSIL to perform the tasks set out in the seventh report of the Secretary-General to the Security Council (S/1999/836, para. 38). These tasks are: (a) to strengthen and expand the contacts already established by UNOMSIL with RUF/SL troops in the countryside since the ceasefire agreement came into effect; (b) to extend the ceasefire monitoring activities of UNOMSIL to a wider geographical area, security conditions permitting; (c) to strengthen and assist the ceasefire monitoring committees and the central Joint Monitoring Committee established pursuant to the peace agreement to help maintain the ceasefire; (d) to monitor the military and security situation in the country and report thereon to the Special Representative of the Secretary-General; (e) to assist and monitor the disarmament and demobilization of combatants in areas where adequate security is provided; (f) to work closely with humanitarian organizations to exchange information on security conditions with a view to ensuring the widest possible access for humanitarian assistance to population in need; (g) to work closely with human rights officers, as required, in their visits throughout the country; (h) to maintain liaison and coordinate closely with ECOMOG (the Monitoring Group of the Economic Community of West African States); and (i) to assist in the preparation of plans for the deployment of neutral peacekeeping troops, as envisaged in the agreement.

12. In accordance with Security Council resolution 1245 (1999) of 11 June 1999, the current mandate of UNOMSIL expires on 13 December 1999.

## III. Operational plan and requirements

13. The operational plan and requirements of UNOMSIL are described in the seventh report of the Secretary-General to the Security Council (S/1999/836, paras. 39-51). In order to achieve the objective set out therein, the operational plan for UNOMSIL calls for the increased military component of 210 military observers; an expanded civilian staffing establishment comprising 5 civilian police advisers, 110 international and 69 local staff;

deployment of a second-line medical facility of 35 medical personnel; provision for the establishment of 12 team sites, including one mobile site; initial stages of construction of a Mission headquarters compound; enhanced air operations support; and acquisition of additional transportation, communications, and electronic data-processing and other necessary equipment.

#### IV. Contribution made under the status-of-mission agreement

14. The following contribution has been made under the status-of-mission agreement:

<i>Government</i>	<i>Contribution</i>	<i>Value</i>	
		<i>1 July 1998 to 30 June 2000</i>	<i>1 July 1999 to 30 June 2000</i>

17. In order to support the provisional expansion of UNOMSIL and the strengthening of its political, civil affairs, information, human rights and child protection elements, as set out in the seventh report of the Secretary-General to the Security Council (S/1999/836, paras. 40-51), it is proposed that the civilian staffing establishment of UNOMSIL be augmented by an additional 60 international staff (31 Professional and 29 Field Service) and 21 local staff, for a revised total of 110 international staff (54 Professional, 47 Field Service and 9 General Service) and 69 local staff. The organizational structure of UNOMSIL is presented in annex III to the present report; the proposed distribution of civilian staff by category and office is shown in section B below, with the deployment schedule of civilian personnel provided in section C.

18. The proposed changes to the organizational structure of UNOMSIL reflect the expansion of the Office of the Special Representative of the Secretary-General, the establishment of a Civil Affairs Office and the reorganization of the former

Communications/Electronic Data-processing Section into the Communications Section and Electronic Data-processing Section. With regard to the revised staffing requirements, these include the establishment of 31 additional posts at the Professional level, 29 posts at the Field Service level and 21 local staff positions; these figures include the upgrading of the posts of Special Representative of the Secretary-General, Chief Administrative Officer and Chief Finance Officer, for a net increase of 81 posts, as summarized below:

(a) **Office of the Special Representative of the Secretary-General.** One post at the Assistant Secretary-General level. The post at the D-2 level would be maintained to accommodate a new position of deputy Special Representative of the Secretary-General; one P-5 post (Child Protection Adviser); and one Field Service post;

(b) **Human Rights Office.** One P-5 post (Senior Human Rights Officer); three P-4, two P-3 and four P-2 posts (Human Rights Officers); one Field Service post;

(c) **Political Affairs Office.** One P-5 post (Senior Political Affairs Officer); two P-3 and two P-2 posts (Political Affairs Officers); three Field Service and two Local Level posts;

(d) **Civil Affairs Office.** One P-5 post (Senior Civil Affairs Officer); three P-4, three P-3 and three P-2 posts (Civil Affairs Officers); three Field Service and three Local Level posts;

(e) **Public Information Office.** Two P-3 posts (Public Information Officers); one Field Service and one Local Level posts;

(f) **Administration.** One D-1 (Chief Administrative Officer). One P-5 post previously encumbered by the Chief Administrative Officer to be abolished. One P-4 post (Chief, Finance Section) and one P-2 post (Chief, Electronic Data-processing Section); 20 Field Service and 15 Local Level posts.

19. In paragraph 5 of its resolution 53/29 of 20 November 1998, the General Assembly requested the Secretary-General, in order to reduce the cost of employing General Service staff, to continue efforts to employ locally recruited staff for the Observer Mission against General Service posts, commensurate with the requirements of the Mission. While for operational reasons no conversions of staff to local posts from the approved General Service staffing establishment are possible at the present stage, no new General Service posts have been requested in the present revised budget since related functions are fully covered by the proposed increase in the number of local staff positions.

## VII. Action to be taken by the General Assembly at its fifty-fourth session

22. The action to be taken by the General Assembly at its fifty-fourth session in connection with the financing of UNOMSIL is as follows:

(a) To appropriate the amount of \$34,382,400 gross (\$32,870,100 net) for the operation of UNOMSIL for the 12-month period from 1 July 1999 to 30 June 2000, inclusive of the amount of \$11,908,100 gross (\$11,624,100 net) already authorized by the Advisory Committee on Administrative and Budgetary Questions;

(b) To assess the amount of \$15,472,080 gross (\$14,791,545 net) for the period from 1 July to 13 December 1999;

---

(c) To assess the amount of \$18,910,320 gross (\$18,078,555 net) for the maintenance of UNOMSIL for the period from 14 December 1999 to 30 June 2000, at a monthly rate of \$2,865,200 gross (\$2,739,175 net), subject to the extension(s) of the mandate of UNOMSIL by the Security Council beyond 13 December 1999.

## C. Supplementary information

1. The revised budget of UNOMSIL for the financial period 1999/2000 provides for the phased deployment of the additional 140 military observers up to an authorized total of 210 personnel, a second-line medical capability of 35 personnel and 5 civilian police advisers, supported by an increased staffing establishment of 110 international staff (54 Professional, 47 Field Service and 9 General Service posts) and 69 local staff. The proposed budget also reflects additional requirements for enhanced air operations support, acquisition of prefabricated office containers, transportation, communications, and electronic data-processing and other equipment, as well as for the reimbursement to the contributing Government for the second-line medical facility and medical services provided to UNOMSIL.

### Military personnel

*Original estimates: \$4,419,600; revised estimates: \$10,005,900; variance: \$5,586,300*

#### Military observers

*Original estimates: \$4,386,800; revised estimates: \$9,915,300; variance: \$5,528,500*

2. The increase of \$5,528,500 under the heading of military observers provides for the phased deployment of the additional 140 military observers and 20 medical personnel for the authorized strength of 210 military observers and 35 medical personnel. Revised estimates cover mission subsistence allowance (\$8,914,000), emplacement and rotation travel (\$960,400) and clothing and equipment allowance (\$40,900). The estimate for mission subsistence allowance is based on the assumption that 10 per cent of military observers would be accommodated at the Cape Sierra Hotel and takes into account the application of a delayed deployment factor of 10 per cent. The deployment schedule of military observers is as follows:

1999										26 Oct. 1999 to 30 June 2000
1 July	1 Aug.	3 Sep.	13 Sep.	20 Sep.	27 Sep.	4 Oct.	11 Oct.	18 Oct.	25 Oct.	
53	64	85	100	107	158	170	195	220	245	245

#### Other requirements pertaining to military personnel

*Original estimates: \$32,800; revised estimates: \$90,600; variance: \$57,800*

3. Provision of \$90,600 is made for the reimbursement to Governments of payments made by them to their military personnel for death, disability, injury or illness resulting from service with UNOMSIL, based on an average payment of \$40,000 calculated at 1 per cent of the average monthly strength of military personnel and civilian police advisers.

## **Civilian personnel**

*Original estimates: \$7,566,900; revised estimates: \$12,238,100; variance: \$4,671,200*

### **Civilian police**

4. The provision of \$186,900 made for 5 civilian police advisers assumes their deployment in November 1999 and covers mission subsistence allowance for 1,210 person days (\$172,100), emplacement travel (\$14,100) and clothing and equipment allowance (\$700).

### **International and local staff**

5. The estimates for international and local staff provide for the phased deployment of additional staff for the proposed increased staffing establishment of 110 international (54 Professional, 47 Field Service and 9 General Service posts) and 69 local staff. It is based on the 1999 standard salary costs for New York and local salary scale applicable to the Mission area and reflects the application of a projected vacancy rate of 10 per cent for international and local staff, as well as salary and common staff costs adjustments for 70 per cent of international staff classified as mission appointees. The cost estimate also provides for the hazardous duty station allowance.

6. The provision for other official travel contained in the previous report of the Secretary-General (A/53/454/Add.1, annex I, sect. C, para. 6) has been revised to include additional requirements for the travel of 5 Headquarters political and military staff members to the Mission area for meetings and consultations (\$28,000). Under the Government-provided personnel heading, provision of \$6,400 is made to cover travel of a senior military officer of ECOMOG (the Monitoring Group of the Economic Community of West African States (ECOWAS) to New York for official meetings and consultations.

## **Operational requirements**

*Original estimates: \$3,554,500; revised estimates: \$10,537,100; variance: \$6,982,600*

7. The increased provision of \$6,982,600 under the heading of operational requirements is attributable to the expansion of UNOMSIL and includes an amount of \$4,171,100 in non-recurrent requirements for the acquisition of vehicles, communications, and electronic data-processing and other equipment, for which minimal provision had been made in the original cost estimates for the financial period 1999/2000.

### **Premises/accommodation**

8. In view of the unavailability of suitable office accommodation, provision is made for the establishment of a new Mission headquarters compound, utilizing prefabricated containers to house the substantive, administrative and military offices of UNOMSIL.

9. The provision of \$769,400 includes: cost of rental of office space prior to the establishment of the new Mission headquarters and for premises at 11 team sites, excluding the mobile site (\$247,400); repairs, renovations, upgrading and alterations of rented premises (\$20,000); maintenance supplies (\$14,300) and services (\$9,800); electricity and water utilities (\$36,200) and generator fuel (\$92,200); and for the acquisition of 42 office containers and 3 ablution units required for the initial stages of the establishment of the Mission headquarters compound (\$348,500).

### **Transport operations**

10. The revised budget provides for the acquisition of 75 vehicles, consisting of 74 4x4 vehicles and one heavy sedan for a vehicle fleet establishment of 148 United Nations-owned vehicles (\$1,176,400). Taking into account the 61 4x4 vehicles currently available at UNOMSIL and based on the standard ratio of 2.5 military observers per vehicle, 56 of the proposed new vehicles would be utilized by the additional military observers, with the remaining 18 intended to accommodate personnel of the medical unit and the additional civilian staff.

11. Provision has also been made for the rental of heavy vehicles (\$27,200); acquisition of workshop equipment (\$19,900); spare parts, repairs and maintenance (\$218,700); petrol, oil and lubricants (\$221,800); and third-party liability insurance (\$57,200).

### **Air operations**

12. The original budget of UNOMSIL provided for one medium utility MI-8 helicopter and one light passenger Beechcraft B-200 fixed-wing aircraft. Owing to the poor road infrastructure and prevailing security situation and in view of the provisional expansion of UNOMSIL, a second medium utility helicopter is required for the transport of military and civilian personnel, logistical support and supply/resupply tasking, as well as casualty and medical evacuation, if necessary. The light passenger fixed-wing aircraft is required in view of the limited availability of commercial air transportation means in the Mission area and the need for extensive travel by the Special Representative of the Secretary-General and UNOMSIL senior staff in connection with political consultations with ECOWAS member States. The B-200 aircraft would also be utilized for casualty and medical evacuation, if necessary.

13. Based on current contractual agreements, the provision of \$3,348,800 made under this heading covers helicopter operations (\$2,454,800), fixed-wing aircraft (\$815,700), air crew subsistence allowance (\$21,600) and other air operation costs (\$56,700).

### **Communications**

14. The revised provision of \$2,368,600 under the heading of communications includes non-recurrent costs of \$1,546,800 (as detailed in sect. C of annex II to the present report) for the acquisition of additional VHF/UHF, HF, satellite, telephone and other communications equipment as well as workshop and test equipment required to establish an expanded secure communications network in support of the deployment of additional military and civilian personnel to Freetown and 11 team sites in the field. Requirements for commercial communications cover the cost of transponder lease charges, INMARSAT, telex, telephone and pouch charges (\$616,900). The resources provided under this heading also cover the requirements for communications spare parts and supplies (\$204,900).

### **Other equipment**

15. The revised provision of \$1,218,600 under the heading of other equipment includes non-recurrent costs of \$759,000 (as detailed in sect. C of annex II to the present report) for the acquisition of the office furniture (\$87,500) and equipment (\$65,600), the electronic data-processing equipment (\$512,900), the accommodation equipment (\$1,000) and the miscellaneous equipment (\$92,000) required for a strengthened Mission headquarters and 12 team sites (including one mobile site) to accommodate the deployment of additional military and civilian personnel. Pending conclusion of a contribution agreement with a

Member State for the establishment of a second-line medical facility, provision for usage charges for medical equipment has been made at an estimated monthly rate of \$50,000, based on a projected value of equipment of \$1.5 million (\$400,000).

#### **Supplies and services**

16. An increased provision of \$597,700 has been made to cover miscellaneous supplies (\$103,300) and services (\$494,400). It includes the cost of reimbursement to the contributing Government for medical treatment and services provided to international personnel, based on the standard monthly self-sustainment rate of \$78.75 per person (\$226,800).

#### **Air and surface freight**

17. Provision of \$492,800 under the heading of air and surface freight covers the charter of two IL-76 flights estimated at a total of 60 flight hours at a cost of \$6,700 per hour (\$402,000) and airport handling charges (\$38,000) in connection with the deployment of equipment for the establishment of the second-line medical facility; the cost of freight relating to the transfer from the United Nations Logistics Base at Brindisi of five 15KVA and fifteen 5KVA generators (\$12,000) and of four soft-wall warehouse units (\$16,800); as well as shipping, handling and forwarding charges to and from the Mission area that have not been covered elsewhere (\$24,000).

#### **Other programmes**

*Original estimates: \$19,400; revised estimates: \$89,000; variance: \$69,600*

##### **Public information programmes**

18. Activities to be undertaken by the expanded public information office of UNOMSIL are outlined in the seventh report of the Secretary-General to the Security Council (S/1999/836, para. 45). Accordingly, provision of \$76,800 is made for the cost of materials and supplies such as audio and video tapes, alkaline batteries and photographic supplies (\$15,500) and for contractual services such as the production of radio programmes in indigenous languages and the design, printing, translation into local languages and distribution of newsletters (\$61,300).

##### **Training programmes**

19. The training programme of UNOMSIL, as outlined in the previous report of the Secretary-General (A/53/454/Add.1, annex I, sect. C, para. 18), remains unchanged.

#### **Staff assessment**

*Original estimates: \$852,000; revised estimates: \$1,512,300; variance: \$660,300*

20. The amount budgeted under the heading of staff assessment represents the difference between gross and net emoluments, that is, the amount of staff assessment to which United Nations staff members are subject in accordance with the Staff Regulations of the United Nations. Staff assessment costs are based on the phased deployment of a total of 110 international and 69 local staff, as indicated in section VI.C of the present report.

**Income from staff assessment**

*Original estimates: (\$852,000); revised estimates: (\$1,512,300); variance: (\$660,300)*

21. The staff assessment requirements provided for in paragraph 20 above have been credited as income from staff assessment and will be credited to the Tax Equalization Fund established by the General Assembly in resolution 973 A (X) of 15 December 1955. Member States are given credit in the Fund in proportion to their rates of contribution to the UNOMSIL budget.
