¹³ The delegation of Benin subsequently indicated that, had it been present, it would have voted in favour.

“Recalling its resolution 50/70 B of 12 December 1995, 52/38 J of 9 December 1997 and 53/77 E of 4 December 1998,

“Reaffirming the role of the United Nations in the field of disarmament and the commitment of Member States to take concrete steps in order to strengthen that role,

“Recognizing the importance of the role of civil society, including non-governmental organizations, in preventing and reducing the excessive and destabilizing accumulations of small arms and light weapons,

“Convinced of the need for a comprehensive approach to promote, at the global and regional levels, the control and reduction of small arms and light weapons in a balanced and non-discriminatory manner as a contribution to international peace and security,

“Bearing in mind Security Council resolution 1209 (1998) of 19 November 1998 on illicit arms flows to and in Africa and the statement by the President of the Security Council of 24 September 1999 on behalf of the Council in connection with the Council’s consideration of the item entitled ‘Small arms’,

“Taking note of the complementarity of the efforts to prevent and reduce the excessive and destabilizing accumulation and transfer of small arms and light weapons and the work of the Ad Hoc Committee on the Elaboration of a Convention against Transnational Organized Crime, including a protocol to combat illicit manufacturing of and trafficking in firearms, their parts and components and ammunition,

“Reaffirming the inherent right to individual or collective self-defence recognized in Article 51 of the Charter of the United Nations, which implies that States also have the right to acquire arms with which to defend themselves,

“Reaffirming also the right of self-determination of all peoples, in particular peoples under colonial or other forms of alien domination or foreign occupation, and the importance of the effective realization of this right, as enunciated, *inter alia*, in the Vienna Declaration and Programme of Action, adopted by the World Conference on Human Rights on 25 June 1993,

“Concerned about the wide range of humanitarian and socio-economic consequences affecting, in particular, large segments of civilian populations, exacerbated by the illicit trafficking in and the ready availability of small arms and light weapons,

“Also concerned about the close link between the uncontrolled spread of small arms and light weapons on the one hand, and terrorism and organized crime as well as drug trafficking on the other, and stressing the importance of international efforts aimed at combating them,

“Welcoming the adoption by the Disarmament Commission of the guidelines on conventional arms control/limitation and disarmament, with particular emphasis on consolidation of peace in the context of General Assembly resolution 51/45 N,

“Also welcoming the report of the Secretary-General on small arms, prepared with the assistance of the Group of Governmental Experts on Small Arms pursuant to General Assembly resolution 52/38,

“Bearing in mind the report of the Secretary-General on the consultations held with a group of qualified experts to examine the feasibility of carrying out a study

on restricting the manufacture and trade of small arms to manufacturers and dealers authorized by States and also his report on the broad-based consultations held by him pursuant to General Assembly resolution 53/77 T of 4 December 1998,

“Noting the replies received to date to the request by the Secretary-General to Member States for their views on his report on small arms to the General Assembly at its fifty-second session and on the steps that they have taken to implement its recommendations, in particular, on the recommendation concerning the convening of an international conference on the illicit arms trade in all its aspects,

“Taking note of the report of the Group of Experts on the problem of ammunition and explosives,

“Welcoming with appreciation the recommendations of the Secretary-General on the international conference on the illicit trade in small arms and light weapons in all its aspects to be convened no later than 2001 and the relevant recommendations contained in his report on small arms,

“Welcoming also the offer by the Government of Switzerland to host at Geneva, no later than 2001, an international conference on the illicit arms trade in all its aspects,

“1. *Decides* to convene the Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects at Geneva in June/July 2001;

“2. *Also decides* that the scope of the Conference will be the illicit trade in small arms and light weapons in all its aspects;

“3. *Further decides* to establish a preparatory committee, open to participation by all States, with the participation, as observers, of the United Nations specialized agencies, other relevant international organizations and others to be determined by the Preparatory Committee, which will hold no less than three sessions, with its first session to be held in New York, from 28 February to 3 March 2000, at which the dates and venue of its subsequent sessions will be decided;

“4. *Requests* the Preparatory Committee to make recommendations to the conference on all relevant matters, including a draft agenda, draft rules of procedure and draft final documents, which will include a programme of action, and to decide on background documents to be made available in advance;

“5. *Invites* all Member States, in particular those that have not yet done so, in response to the note verbale of the Secretary-General dated 20 January 1999, to communicate to the Secretary-General their views on the agenda and other relevant questions relating to the conference;

“6. *Requests* the Secretary-General to transmit the replies of Member States relevant to paragraph 5 above to the Preparatory Committee and to render to the Preparatory Committee and the Conference all necessary assistance, including the provision of essential background information, relevant documents and summary records;

where necessary in cooperation with appropriate international and regional organizations and/or through international and regional cooperation;

“9. *Requests* the Secretary-General to implement the relevant recommendations contained in section IV of the report within available financial resources and with any other assistance provided by the States in a position to do so and in cooperation with appropriate international and regional organizations where necessary;

“10. *Also requests* the Secretary-General, in order to assist in preventing the illicit trafficking in and illicit circulation of small arms and light weapons:

“(a) To carry out, within available financial resources and with any other assistance provided by Member States in a position to do so, and with the assistance of qualified experts appointed by him in consultation with Member States, a study on the feasibility of restricting the manufacture and trade of such weapons to the manufacturers and dealers authorized by States;

“(b) To extend the scope of the study to cover brokering activities, in particular illicit activities, relating to small arms and light weapons, including transportation agents and financial transactions;

Preservation of and compliance with the Treaty on the Limitation of Anti-Ballistic Missile Systems

The General Assembly,

Recalling its resolutions 50/60 of 12 December 1995 and 52/30 of 9 December 1997 on compliance with arms limitation and disarmament and non-proliferation agreements,

Recognizing the historical role of the Treaty between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems of 26 May 1972¹⁶ as a cornerstone for maintaining global peace and security and strategic stability, and reaffirming its continued validity and relevance, especially in the current international situation,

Stressing the paramount importance of full and strict compliance with the Treaty on the Limitation of Anti-Ballistic Missile Systems by the parties,

Recalling that the provisions of the Treaty on the Limitation of Anti-Ballistic Missile Systems are intended as a contribution to the creation of more favourable conditions for further negotiations on limiting strategic arms,

Mindful of the obligations of the parties to the Treaty on the Limitation of Anti-Ballistic Missile Systems under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,¹⁷

Concerned that the implementation of any measures undermining the purposes and provisions of the Treaty on the Limitation of Anti-Ballistic Missile Systems affects not only the security interests of the parties, but also those of the whole international community,

Recalling the widespread concern about the proliferation of weapons of mass destruction and their means of delivery,

1. *Calls* for continued efforts to strengthen the Treaty on the Limitation of Anti-Ballistic Missile Systems and to preserve its integrity and validity so that it remains a cornerstone in maintaining global strategic stability and world peace and in promoting further strategic nuclear arms reductions;

2. *Calls also* for renewed efforts by each of the States parties to preserve and strengthen the Treaty on the Limitation of Anti-Ballistic Missile Systems through full and strict compliance;

¹⁶ United Nations, *Treaty Series*, vol. 944, No. 13446.

¹⁷ *Ibid.*, vol. 729, No. 10485.

3. *Calls upon* the parties to the Treaty on the Limitation of Anti-Ballistic Missile Systems, in accordance with their obligations under the Treaty, to limit the deployment of anti-ballistic missile systems and refrain from the deployment of anti-ballistic missile systems for the defence of the territory of their country and not to provide a base for such a defence, and not to transfer to other States or deploy outside their national territory anti-ballistic missile systems or their components limited by the Treaty;

4. *Considers* that the implementation of any measure undermining the purposes and the provisions of the Treaty also undermines global strategic stability and world peace and the promotion of further strategic nuclear arms reductions;

5. *Urges* all Member States to support efforts aimed at stemming the proliferation of weapons of mass destruction and their means of delivery;

6. *Supports* further efforts by the international community, in the light of emerging developments, towards safeguarding the inviolability and integrity of the Treaty on the Limitation of Anti-Ballistic Missile Systems, which is in the strongest interest of the international community;

Reaffirming its determination to put an end to the suffering and casualties caused by anti-personnel mines, which kill or maim hundreds of people every week, mostly innocent and defenceless civilians and especially children, obstruct economic development and reconstruction, inhibit the repatriation of refugees and internally displaced persons, and have other severe consequences for years after emplacement,

Believing it necessary to do the utmost to contribute in an efficient and coordinated manner to facing the challenge of removing anti-personnel mines placed throughout the world, and to assure their destruction,

Wishing to do the utmost in ensuring assistance for the care and rehabilitation, including the social and economic reintegration, of mine victims,

Welcoming the entry into force on 1 March 1999 of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and on Their Destruction,¹⁸

Recalling the First Meeting of the States Parties to the Convention, held at Maputo from 3 to 7 May 1999, and the reaffirmation made in the Maputo Declaration to a commitment to the total eradication of anti-personnel mines,

three, and that eighty-nine States have ratified or acceded to the Convention in the two years since the Convention was opened for signature,

Emphasizing the desirability of attracting the adherence of all States to the Convention, and determined to work strenuously towards the promotion of its universalization,

Noting with regret that anti-personnel mines continue to be used in conflicts around the world, causing human suffering and impeding post-conflict development,

1. *Invites* all States that have not signed the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and on Their Destruction¹⁸ to accede to the Convention without delay;

2. *Urges* all States that have signed but not ratified the Convention to ratify it without delay;

Bearing in mind the recent nuclear tests, as well as the regional situations, which pose a challenge to international efforts to strengthen the global regime of non-proliferation of nuclear weapons,

Noting the progress made in commencing the discussions between the United States of America and the Russian Federation on START III,

²⁷ *Official Records of the General Assembly, Fifty-fourth Session, Supplement No. 27 (A/54/27)*, chap. III, sect. E.

Welcoming the efforts to increase transparency on nuclear disarmament activities as a contribution towards building international confidence and security,

Recognizing that the enhancement of international peace and security and the promotion of nuclear disarmament mutually complement and strengthen each other,

Reaffirming the crucial importance of the Treaty on the Non-Proliferation of Nuclear Weapons³¹ as the cornerstone of the international regime for nuclear non-proliferation and as an essential foundation for the pursuit of nuclear disarmament,

Also reaffirming the conviction that further advancement in nuclear disarmament will contribute to consolidating the international regime for nuclear non-proliferation, ensuring international peace and security,

1. *Reaffirms* the importance of achieving the universality of the Treaty on the Non-Proliferation of Nuclear Weapons,³¹ and calls upon States not parties to the Treaty to accede to it without delay and without conditions;

3. *Calls* for the determined pursuit by the nuclear-weapon States of systematic and progressive efforts to reduce nuclear weapons globally, with the ultimate goal of eliminating those weapons, and by all States of general and complete disarmament under strict and effective international control;

4. *Stresses* that, in order to make advancements towards the ultimate goal of eliminating nuclear weapons, it is important and necessary to pursue such actions as:

(a) The early signature and ratification of the Comprehensive Nuclear-Test-Ban Treaty²⁸ by all States, especially by those States whose ratification is required for its entry into force, with a view to its early entry into force, as well as the cessation of nuclear tests pending its entry into force;

(b) Intensive negotiations in the Conference on Disarmament on the early conclusion of a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, on the basis of the report of the Special Coordinator in 1995³² and the mandate contained therein, and, pending its entry into force, a moratorium on the production of fissile material for nuclear weapons;

Implementation of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction

The General Assembly,

on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction,³⁶

Determined to achieve the effective prohibition of the development, production, acquisition, transfer, stockpiling and use of chemical weapons and their destruction,

Noting with satisfaction that, since the adoption of resolution 53/77 R, six additional States have ratified the Convention, bringing the total number of States parties to the Convention to one hundred and twenty-six,

1. *Notes with appreciation* the ongoing work of the Organization for the Prohibition of Chemical Weapons to achieve the objective and purpose of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, to ensure the full implementation of its provisions, including those for international verification of compliance with it, and to provide a forum for consultation and cooperation among States parties;

2. *Stresses* the importance of the Organization for the Prohibition of Chemical Weapons in verifying compliance with the provisions of the Convention as well as in promoting the timely and efficient accomplishment of all its objectives;

3. *Also stresses* the vital importance of full and effective implementation of and compliance with all provisions of the Convention;

4. *Urges* all States parties to the Convention to meet in full and on time their obligations under the Convention and to support the Organization for the Prohibition of Chemical Weapons in its implementation activities;

5. *Emphasizes* the necessity of universal adherence to the Convention, and calls upon all States that have not yet done so to become States parties to the Convention without delay;

6. *Stresses* the importance to the Convention that all possessors of chemical weapons, chemical weapons production facilities and chemical weapons development facilities, including previously declared possessor States, should be among the States parties to the Convention, and welcomes progress to that end;

7. *Welcomes* the cooperation between the United Nations and the Organization for the Prohibition of Chemical Weapons and efforts towards the prompt conclusion of a relationship agreement between the United Nations and the Organization, in accordance with the provisions of the Convention;

8. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Implementation of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction".

F **Missiles**

The General Assembly,

Reaffirming the role of the United Nations in the field of arms regulation and disarmament and the commitment of Member States to take concrete steps to strengthen that role,

³⁶ *Official Records of the General Assembly, Forty-seventh Session, Supplement No. 27 (A/47/27), appendix I.*

Realizing the need to promote regional and international peace and security in a world free from the scourge of war and the burden of armaments,

Convinced of the need for a comprehensive approach towards missiles, in a balanced and non-discriminatory manner, as a contribution to international peace and security,

Bearing in mind that the security concerns of the Member States at the international and regional levels should be taken into consideration in addressing the issue of missiles,

Underlining the complexities involved in considering the issue of missiles in the conventional context,

Expressing its support for the international efforts against the development and proliferation of all weapons of mass destruction,

1. *Requests* the Secretary-General to seek the views of all Member States on the issue of missiles in all its aspects, and to submit a report to the General Assembly at its fifty-fifth session;

2. *Decides* to include in the provisional agenda of its fifty-fifth session an item entitled "Missiles".

G

Towards a nuclear-weapon-free world: the need for a new agenda

The General Assembly,

Convinced that the existence of nuclear weapons is a threat to the survival of humanity,

Concerned at the prospect of the indefinite possession of nuclear weapons, believing that the contention that nuclear weapons can be retained in perpetuity and never used is not supported by the history of human experience, and convinced that the only complete defence is the elimination of nuclear weapons and the assurance that they will never be produced again,

Concerned also at the continued retention of the nuclear-weapons option by those three States that are nuclear-weapons-capable and that have not acceded to the Treaty on the Non-Proliferation of Nuclear Weapons,³⁷ and concerned at their failure to renounce that option,

Concerned further that negotiations on nuclear arms reductions are currently stalled,

Bearing in mind that the overwhelming majority of States have entered into legally binding commitments not to receive, manufacture or otherwise acquire nuclear weapons or other nuclear explosive devices, and recalling that these undertakings were made in the context of the corresponding legally binding commitments by the nuclear-weapon States to the pursuit of nuclear disarmament,

Recalling the unanimous conclusion of the International Court of Justice in its 1996 advisory opinion³⁸ that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

³⁷ United Nations, *Treaty Series*, vol. 729, No. 10485.

³⁸ *Legality of the Threat or Use of Nuclear Weapons, Advisory Opinion, 8 July 1996 (A/51/218, annex)*.

Stressing that the international community must not enter the new millennium with the prospect that the possession of nuclear weapons will be considered legitimate for the indefinite future, and convinced of the imperative to proceed with determination to prohibit and eradicate them for all time,

Recognizing that the total elimination of nuclear weapons will require measures to be taken firstly by those nuclear-weapon States that have the largest arsenals, and stressing that these States must be joined in a seamless process by those nuclear-weapon States with lesser arsenals in the near future,

Welcoming the achievements to date and the future promise of the Strategic Arms Reduction Talks process and the possibility it offers for development as a plurilateral mechanism including all the nuclear-weapon States, for the practical dismantling and destruction of nuclear armaments undertaken in pursuit of the elimination of nuclear weapons,

Welcoming also the Trilateral Initiative between the United States of America, the Russian Federation and the International Atomic Energy Agency to ensure the irreversible removal of fissile materials from weapons programmes,

Believing that there are a number of practical steps that the nuclear-weapon States can and should take immediately before the actual elimination of nuclear arsenals and the development of requisite verification regimes take place, and in this connection noting certain recent unilateral and other steps,

Underlining that the Treaty on the Limitation of Anti-Ballistic Missile Systems³⁹ remains a cornerstone of strategic stability,

Stressing that each article of the Treaty on the Non-Proliferation of Nuclear Weapons is binding on the respective States parties at all times and in all circumstances,

Stressing the importance of pursuing negotiations in the Conference on Disarmament in the Ad Hoc Committee established under item 1 of its agenda entitled "Cessation of the nuclear arms race and nuclear disarmament", on the basis of the report of the Special Coordinator⁴⁰ and the mandate contained therein, on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, and considering that such a treaty must further underpin the process towards the total elimination of nuclear weapons,

Emphasizing that, for the total elimination of nuclear weapons to be achieved, effective international cooperation to prevent the proliferation of nuclear weapons is vital and must be enhanced through, *inter alia*, the extension of international controls over all fissile material for nuclear weapons or other nuclear explosive devices,

Emphasizing the importance of existing nuclear-weapon-free-zone treaties and of the early signature and ratification of the relevant protocols to these treaties,

Noting the Joint Ministerial Declaration of 9 June 1998⁴¹ and its call for a new international agenda to achieve a nuclear-weapon-free world, through the pursuit, in parallel, of a series of mutually reinforcing measures at the bilateral, plurilateral and multilateral levels,

³⁹ United Nations, *Treaty Series*, vol. 944, No. 13446.

⁴⁰ CD/1299.

⁴¹ A/53/138, annex.

Acknowledging the report of the Secretary-General⁴² on the implementation of General Assembly resolution 53/77 Y of 4 December 1998,

Taking note of the observations of the Director-General of the International Atomic Energy Agency contained in the report of the Secretary-General,⁴³

1. *Calls upon* the nuclear-weapon States to make an unequivocal undertaking to accomplish the speedy and total elimination of their nuclear arsenals and to engage without delay in an accelerated process of negotiations, thus achieving nuclear disarmament, to which they are committed under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons;³⁷

2. *Calls upon* the United States of America and the Russian Federation to bring the Treaty on Further Reduction and Limitation of Strategic Offensive Arms (START II)⁴⁴ into force without further delay and to commence negotiations on START III with a view to its early conclusion;

3. *Calls upon* the nuclear-weapon States to undertake the necessary steps towards the seamless integration of all five nuclear-weapon States into the process leading to the total elimination of nuclear weapons;

4. *Calls for* the examination of ways and means to diminish the role of nuclear weapons in security policies so as to enhance strategic stability, facilitate the process of the elimination of these weapons and contribute to international confidence and security;

5. *Calls upon* the nuclear-weapon States, in this context, to take early steps:

(a) To reduce tactical nuclear weapons with a view to their elimination as an integral part of nuclear arms reductions;

(b) To examine the possibilities for and to proceed to the de-alerting and removal of nuclear warheads from delivery vehicles;

(c) To further examine nuclear weapons policies and postures;

(d) To demonstrate transparency with regard to their nuclear arsenals and fissile material inventories;

(e) To place all fissile material for nuclear weapons declared to be in excess of military requirements under International Atomic Energy Agency safeguards in the framework of the voluntary safeguards agreements in place;

6. *Calls upon* those three States that are nuclear weapons capable and that have not yet acceded to the Treaty on the Non-Proliferation of Nuclear Weapons to reverse clearly and urgently the pursuit of all nuclear weapons development or deployment and to refrain from any action that could undermine regional and international peace and security and the efforts of the international community towards nuclear disarmament and the prevention of the proliferation of nuclear weapons;

7. *Calls upon* those States that have not yet done so to adhere unconditionally and without delay to the Treaty on the Non-Proliferation of Nuclear Weapons and to take all the necessary measures which flow from adherence to that instrument as non-nuclear-weapon States;

⁴² A/54/372.

⁴³ Ibid., sect. III.A.

⁴⁴ *The United Nations Disarmament Yearbook*, vol. 18: 1993 (United Nations publication, Sales No. E.94.IX.1), appendix II.

8. *Calls upon* those States that have not yet done so to conclude full-scope safeguards agreements with the International Atomic Energy Agency and to conclude additional protocols to their safeguards agreements on the basis of the Model Protocol approved by the Board of Governors of the Agency on 15 May 1997;⁴⁵

9. *Calls upon* those States that have not yet done so to sign and ratify, unconditionally and without delay, the Comprehensive Nuclear-Test-Ban Treaty⁴⁶ and, pending the entry into force of the Treaty, to observe a moratorium on nuclear tests;

10. *Calls upon* those States that have not yet done so to adhere to the Convention on the Physical Protection of Nuclear Material⁴⁷ and to work towards its further strengthening;

11. *Urges* the development of the Trilateral Initiative between the United States of America, the Russian Federation and the International Atomic Energy Agency, and urges that similar arrangements be developed by the other nuclear-weapon States;

12. *Calls upon* the Conference on Disarmament to re-establish the Ad Hoc Committee under item 1 of its agenda entitled “Cessation of the nuclear arms race and nuclear disarmament”, on the basis of the report of the Special Coordinator⁴⁰ and the mandate contained therein, of a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, taking into consideration both nuclear non-proliferation and nuclear disarmament objectives, and to pursue and conclude these negotiations without delay, and, pending the entry into force of the treaty, urges all States to observe a moratorium on the production of fissile materials for nuclear weapons or other nuclear explosive devices;

13. *Also calls upon* the Conference on Disarmament to establish an appropriate subsidiary body to deal with nuclear disarmament and, to that end, to pursue as a matter of priority its intensive consultations on appropriate methods and approaches with a view to reaching such a decision without delay;

14. *Considers* that an international conference on nuclear disarmament and nuclear non-proliferation, which would effectively complement efforts being undertaken in other settings, could facilitate the consolidation of a new agenda for a nuclear-weapon-free world;

15. *Notes*, in this context, that the Millennium Summit of the United Nations in 2000 will consider peace, security and disarmament;

16. *Stresses* the importance of the full implementation of the decisions and the resolution adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁴⁸ and, in this connection, underlines the significance of the forthcoming Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to be held in April/May 2000;

17. *Affirms* that the development of verification arrangements will be necessary for the maintenance of a world free from nuclear weapons, and requests the International Atomic Energy Agency, together with any other relevant international organizations and bodies, to continue to explore the elements of such a system;

⁴⁸ *1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, Part I* (NPT/CONF.1995/32 (Part I)), annex.

18. *Calls* for the conclusion of an internationally legally binding instrument to effectively assure non-nuclear-weapon States parties to the Treaty on the Non-Proliferation of Nuclear Weapons against the use or threat of use of nuclear weapons;

19. *Stresses* that the pursuit, extension and establishment of nuclear-weapon-free zones, on the basis of arrangements freely arrived at, especially in regions of tension, such as the Middle East and South Asia, represent a significant contribution to the goal of a nuclear-weapon-free world;

20. *Affirms* that a nuclear-weapon-free world will ultimately require the underpinnings of a universal and multilaterally negotiated legally binding instrument or a framework encompassing a mutually reinforcing set of instruments;

21. *Requests* the Secretary-General, within existing resources, to compile a report on the implementation of the present resolution;

22. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Towards a nuclear-weapon-free world: the need for a new agenda", and to review the implementation of the present resolution.

Consolidation of peace through practical disarmament measures

The General Assembly,

Recalling its resolutions 51/45 N of 10 December 1996, 52/38 G of 9 December 1997 and 53/77 M of 4 December 1998,

Convinced that a comprehensive and integrated approach towards certain practical disarmament measures, such as, *inter alia*, arms control, particularly with regard to small arms and light weapons, confidence-building measures, demobilization and reintegration of former combatants, demining and conversion, often is a prerequisite to maintaining and consolidating peace and security and thus provides a basis for effective rehabilitation and social and economic development in areas that have suffered from conflict,

Noting with satisfaction that the international community is more than ever aware of the importance of such practical disarmament measures, especially with regard to the growing problems arising from the excessive and destabilizing accumulation and proliferation of small arms and light weapons, which pose a threat to peace and security and reduce the prospects for economic development in many regions, particularly in post-conflict situations,

Stressing that further efforts are needed in order to develop and effectively implement programmes of practical disarmament in affected areas,

Taking note of the report of the Secretary-General prepared with the assistance of the Group of Governmental Experts on Small Arms,⁴⁹ and in particular the recommendations contained therein, as an important contribution to the consolidation of the peace process through practical disarmament measures,

1. *Welcomes* the adoption by consensus of the "Guidelines on conventional arms control/limitation and disarmament, with particular emphasis on consolidation of peace in the context of General Assembly resolution 51/45 N"⁵⁰ at the 1999 substantive session of the Disarmament Commission;

⁴⁹ A/54/258.

⁵⁰ *Official Records of the General Assembly, Fifty-fourth Session, Supplement No. 42 (A/54/42)*, annex III.

2. *Stresses* the particular relevance of the guidelines in the context of the present resolution;

3. *Takes note* of the report of the Secretary-General on the consolidation of peace through practical disarmament measures,⁵¹ submitted pursuant to resolution 51/45 N, and once again encourages Member States, as well as regional arrangements and agencies, to lend their support to the implementation of recommendations contained therein;

4. *Welcomes* the activities undertaken by the group of interested States that was formed in New York in March 1998, and invites the group to continue to analyse lessons learned from previous disarmament and peace-building projects, as well as to promote new practical disarmament measures to consolidate peace, especially as undertaken or designed by affected States themselves;

5. *Encourages* Member States, including the group of interested States, to lend their support to the Secretary-General in responding to requests by Member States to collect and destroy small arms and light weapons in post-conflict situations;

6. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Consolidation of peace through practical disarmament measures".

I Transparency in armaments

The General Assembly,

Bearing in mind that, in accordance with the Charter of the United Nations, Member States have undertaken to promote the establishment and maintenance of international peace and security with the least diversion for armaments of the world's human and economic resources,

Considering the urgent need to accelerate efforts towards general and complete disarmament with a view to maintaining regional and international peace and security in a world free from the scourge of war and the burden of all types of armaments,

Considering also that openness and transparency relating to all types of armaments would contribute greatly to confidence-building and security among States,

Recognizing that an enhanced level of transparency relating to both conventional weapons and weapons of mass destruction and transfers of equipment and technologies directly related to the development and manufacture of such weapons, as well as to high technology with military applications, would promote stability, strengthen regional and international peace and security, and accelerate efforts towards general and complete disarmament,

Convinced that the principle of transparency should also apply to all weapons of mass destruction, in particular nuclear weapons, and to transfers of equipment and technology directly related to the development and manufacture of such weapons, as well as to high technology with military applications,

Recognizing that the United Nations Register of Conventional Arms,⁵² in its current form, constitutes an important first step towards the promotion of transparency in military matters on a comprehensive, universal and non-discriminatory basis,

⁵¹ A/52/289.

⁵² See resolution 46/36 L.

Aware of the need to foster international efforts in this direction through, *inter alia*, the constant review of the operation of the Register with a view to its development,

Stressing the need to achieve universality of the Treaty on the Non-Proliferation of Nuclear Weapons,⁵³ and of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction⁵⁴ and the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction,⁵⁵ with a view to realizing the goal of the total elimination of all weapons of mass destruction,

Recalling its earlier resolutions on transparency in armaments,

1. *Takes note* of the report of the Secretary-General on transparency in armaments;⁵⁶

2. *Recalls* the reports of the Group of Governmental Experts on the United Nations Register of Conventional Arms, which convened in 1994 and 1997 to consider the continuing operation of the Register⁵² and its development, and the views expressed and proposals presented therein;

3. *Recognizes* the importance of achieving greater progress in the development of the Register in order that it may truly enhance confidence-building and security among States and accelerate efforts towards attainment of general and complete disarmament;

4. *Requests* the Secretary-General, with the assistance of the Group of Governmental Experts to be convened in the year 2000 and taking into account the views submitted by Member States, to report to the General Assembly at its fifty-fifth session on:

(a) The early expansion of the scope of the Register;

(b) The elaboration of practical means for the development of the Register in order to increase transparency related to weapons of mass destruction, in particular nuclear weapons, and to transfers of equipment and technology directly related to the development and manufacture of such weapons;

5. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Transparency in armaments".

Assistance to States for curbing the illicit traffic in small arms and collecting them

The General Assembly,

Recalling its resolution 53/77 B of 4 December 1998,

Considering that the illicit proliferation and circulation of and traffic in small arms constitute an impediment to development, a threat to populations and to national and regional security and are a factor contributing to the destabilization of States,

Gravely concerned at the extent of the illicit proliferation and circulation of and traffic in small arms in the States of the Saharo-Sahelian subregion,

⁵³ United Nations, *Treaty Series*, vol. 729, No. 10485.

Welcoming also the initiative taken by the Economic Community of West African States concerning the declaration of a moratorium on the importation, exportation and manufacture of small arms and light weapons in West Africa,

Recalling the Algiers Declaration⁵⁹ adopted by the Assembly of Heads of State and Government of the Organization of African Unity at its thirty-fifth ordinary session, held at Algiers from 12 to 14 July 1999, and bearing in mind the report of the Secretary-General of the Organization of African Unity on the illicit proliferation and circulation of and traffic in small arms,

Bearing in mind the reports of the Panel of Governmental Experts on Small Arms,

Emphasizing the need to advance efforts towards wider cooperation and better coordination in the struggle against the accumulation, proliferation and widespread use of small arms through the common understanding reached at the meeting on small arms held at Oslo on 13 and 14 July 1998⁶⁰ and the Brussels Call for Action adopted by the International Conference on Sustainable Disarmament for Sustainable Development, held at Brussels on 12 and 13 October 1998,⁶¹

1. *Encourages* the Secretary-General to continue his efforts, in the context of the implementation of resolution 49/75 G of 15 December 1994 and of the recommendations of the United Nations advisory missions, to curb the illicit circulation of small arms and to collect such arms in the affected States that so request, with the support of the United Nations Regional Centre for Peace and Disarmament in Africa and in close cooperation with the Organization of African Unity;

2. *Also encourages* the setting up in the countries of the Saharo-Saharan subregion of national commissions against the proliferation of small arms, and invites the international community to support as far as possible the smooth functioning of the national commissions where they have been set up;

4. *Takes note* of the conclusions of the meeting of Ministers for Foreign Affairs of the Economic Community of West African States, held at Bamako on 24 and 25 March 1999, on the modalities for the implementation of the Programme for Coordination and Assistance for Security and Development, and welcomes the adoption by the meeting of a plan of action;

5. *Expresses its full support* for the appeal launched by the Assembly of Heads of State and Government of the Organization of African Unity at its thirty-fifth ordinary session for a coordinated African approach, under the auspices of the Organization of African Unity, to the problems posed by the illicit proliferation and circulation of and traffic in small arms, bearing in mind the experiences and activities of the various regions in this regard;⁶³

6. *Also expresses its full support* for the convening of an international conference on the illicit arms trade in all its aspects no later than 2001, in accordance with General Assembly resolution 53/77 E of 4 December 1998;

8. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Assistance to States for curbing the illicit traffic in small arms and collecting them".

K

Reducing nuclear danger

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to mankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

⁶² A/53/763-S/1998/1194, annex; see *Official Records of the Security Council, Fifty-third Year, Supplement for October, November and December 1998*, document S/1998/1194.

⁶³ A/54/424, annex II, decision AHG/Dec.137 (XXXV), para. 10.

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all mankind,

Emphasizing the imperative need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomaly or other technical malfunctions before the next millennium,

Conscious that limited steps relating to detargeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that reduction of tensions brought about by a change in nuclear doctrines would positively impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly⁶⁴ and by the international community,

Recalling that the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*⁶⁵ states that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

1. *Calls* for a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons;
2. *Requests* the five nuclear-weapon States to undertake measures towards the implementation of paragraph 1 of the present resolution;
3. *Calls upon* Member States to take the necessary measures to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the ultimate objective of eliminating nuclear weapons;
4. *Requests* the Secretary-General, within existing resources, to seek inputs from the Advisory Board on Disarmament Matters on information with regard to specific measures that would significantly reduce the risk of nuclear war and to report thereon to the General Assembly at its fifty-fifth session;
5. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Reducing nuclear danger".

L Nuclear-weapon-free southern hemisphere and adjacent areas

The General Assembly,

Recalling its resolutions 51/45 B of 10 December 1996, 52/38 N of 9 December 1997 and 53/77 Q of 4 December 1998,

Welcoming the adoption by the Disarmament Commission at its 1999 substantive session of a text entitled “Establishment of nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the region concerned”,⁶⁶

Determined to continue to contribute to the prevention of the proliferation of nuclear weapons in all its aspects and to the process of general and complete disarmament under strict and effective international control, in particular in the field of nuclear weapons and other weapons of mass destruction, with a view to strengthening international peace and security, in accordance with the purposes and principles of the Charter of the United Nations,

Recalling the provisions on nuclear-weapon-free zones of the Final Document of the Tenth Special Session of the General Assembly,⁶⁷ the first special session devoted to disarmament, as well as of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁶⁸

Stressing the importance of the treaties of Tlatelolco,⁶⁹ Rarotonga,⁷⁰ Bangkok⁷¹ and Pelindaba,⁷² establishing nuclear-weapon-free zones, as well as the Antarctic Treaty,⁷³ to, *inter alia*, the ultimate objective of achieving a world entirely free of nuclear weapons, and underlining also the value of enhancing cooperation among the nuclear-weapon-free zone treaty members by means of mechanisms such as joint meetings of States parties, signatories and observers to those treaties,

Recalling the applicable principles and rules of international law relating to the freedom of the high seas and the rights of passage through maritime space, including those of the United Nations Convention on the Law of the Sea,⁷⁴

1. *Welcomes* the continued contribution that the Antarctic Treaty⁷³ and the treaties of Tlatelolco,⁶⁹ Rarotonga,⁷⁰ Bangkok⁷¹ and Pelindaba⁷² are making towards freeing the southern hemisphere and adjacent areas covered by those treaties from nuclear weapons;

2. *Calls* for the ratification of the treaties of Tlatelolco, Rarotonga, Bangkok and Pelindaba by all States of the region, and calls upon all concerned States to continue to

3. *Welcomes* the steps taken to conclude further nuclear-weapon-free zone treaties on the basis of arrangements freely arrived at among the States of the region concerned, and calls upon all States to consider all relevant proposals, including those reflected in General Assembly resolutions on the establishment of nuclear-weapon-free zones in the Middle East and South Asia;

4. *Reiterates* the important role of nuclear-weapon-free zones in strengthening the nuclear non-proliferation regime and in extending the areas of the world that are nuclear-weapon-free, and, with particular reference to the responsibilities of the nuclear-weapon States, calls upon all States to support the process of nuclear disarmament, with the ultimate goal of eliminating all nuclear weapons;

Conventional arms control at the regional and subregional levels

The General Assembly,

Recalling its resolutions 48/75 J of 16 December 1993, 49/75 O of 15 December 1994, 50/70 L of 12 December 1995, 51/45 Q of 10 December 1996, 52/38 Q of 9 December 1997 and 53/77 P of 4 December 1998,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value

of the Treaty on Conventional Armed Forces in Europe,⁷⁵ which is a cornerstone of European security,

Believing that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament, as a first step, to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

3. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Conventional arms control at the regional and subregional levels".

N

Regional disarmament

The General Assembly,

Recalling its resolutions 45/58 P of 4 December 1990, 46/36 I of 6 December 1991, 47/52 J of 9 December 1992, 48/75 I of 16 December 1993, 49/75 N of 15 December 1994, 50/70 K of 12 December 1995, 51/45 K of 10 December 1996, 52/38 P of 9 December 1997 and 53/77 O of 4 December 1998, on regional disarmament,

Believing that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

Affirming the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

Noting that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly,⁷⁶

Taking note of the guidelines and recommendations for regional approaches to disarmament within the context of global security adopted by the Disarmament Commission at its 1993 substantive session,⁷⁷

Welcoming the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

Taking note of the recent proposals for disarmament at the regional and subregional levels,

Recognizing the importance of confidence-building measures for regional and international peace and security,

⁷⁵ CD/1064.

⁷⁶ Resolution S-10/2.

⁷⁷ *Official Records of the General Assembly, Forty-eighth Session, Supplement No. 42 (A/48/42), annex II.*

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of all States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. *Stresses* that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. *Affirms* that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

3. *Calls upon* States to conclude agreements, wherever possible, for nuclear non-proliferation, disarmament and confidence-building measures at the regional and subregional levels;

4. *Welcomes* the initiatives towards disarmament, nuclear non-proliferation and security undertaken by some countries at the regional and subregional levels;

5. *Supports and encourages* efforts aimed at promoting confidence-building measures at the regional and subregional levels in order to ease regional tensions and to further disarmament and nuclear non-proliferation measures at the regional and subregional levels;

6. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Regional disarmament".

O

Recalling its resolutions 46/36 L of 9 December 1991, 47/52 L of 15 December 1992, 48/75 E of 16 December 1993, 49/75 C of 15 December 1994, 50/70 D of 12 December 1995, 51/45 H of 10 December 1996, 52/38 R of 8 December 1997 and 53/77 V of 4 December 1998, entitled "Transparency in armaments",

Continuing to take the view that an enhanced level of transparency in armaments contributes greatly to confidence-building and security among States and that the establishment of the United Nations Register of Conventional Arms⁷⁸ constitutes an important step forward in the promotion of transparency in military matters,

Welcoming the consolidated report of the Secretary-General on the Register,⁷⁹ which contains the returns of Member States for 1998,

Welcoming also the response of Member States to the request contained in paragraphs 9 and 10 of resolution 46/36 L to provide data on their imports and exports of arms, as well as available background information regarding their military holdings, procurement through national production and relevant policies,

Stressing that the continuing operation of the Register and its further development should be reviewed in order to secure a Register that is capable of attracting the widest possible participation,

⁷⁸ See resolution 46/36 L.

⁷⁹ A/54/226 and Add.1.

1. *Reaffirms* its determination to ensure the effective operation of the United Nations Register of Conventional Arms,⁷⁸ as provided for in paragraphs 7 to 10 of resolution 46/36 L;

2. *Calls upon* Member States, with a view to achieving universal participation, to provide the Secretary-General by 31 May annually the requested data and information for the Register, including nil reports if appropriate, on the basis of resolutions 46/36 L and 47/52 L and the recommendations contained in paragraph 64 of the 1997 report of the Secretary-General on the continuing operation of the Register and its further development;⁸⁰

3. *Invites* Member States in a position to do so, pending further development of the Register, to provide additional information on procurement from national production and military holdings and to make use of the "Remarks" column in the standardized reporting form to provide additional information such as types and models;

4. *Reaffirms* its decision, with a view to further development of the Register, to keep the scope of and participation in the Register under review and, to that end, recalls:

(a) Its request to Member States to provide the Secretary-General with their views on the continuing operation of the Register and its further development and on transparency measures related to weapons of mass destruction;

(b) Its request to the Secretary-General, with the assistance of a group of governmental experts to be convened in 2000, on the basis of equitable geographical representation, to prepare a report on the continuing operation of the Register and its further development, taking into account the work of the Conference on Disarmament, the views expressed by Member States and his reports on the continuing operation of the Register and its further development,⁸¹ with a view to a decision at its fifty-fifth session;

5. *Requests* the Secretary-General to ensure that sufficient resources are made available for the Secretariat to operate and maintain the Register;

6. *Invites* the Conference on Disarmament to consider continuing its work undertaken in the field of transparency in armaments;

7. *Reiterates its call upon* all Member States to cooperate at the regional and subregional levels, taking fully into account the specific conditions prevailing in the region or subregion, with a view to enhancing and coordinating international efforts aimed at increased openness and transparency in armaments;

8. *Requests* the Secretary-General to report to the General Assembly at its fifty-fifth session on progress made in implementing the present resolution;

9. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Transparency in armaments".

P **Nuclear disarmament**

The General Assembly,

Recalling its resolution 49/75 E of 15 December 1994 on a step-by-step reduction of the nuclear threat, and its resolutions 50/70 P of 12 December 1995, 51/45 O of 10

December 1996, 52/38 L of 9 December 1997 and 53/77 X of 4 December 1998 on nuclear disarmament,

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the establishment of a nuclear-weapon-free world,

Bearing in mind that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction of 1972⁸² and the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction of 1993⁸³ have already established legal regimes on the complete prohibition of biological and chemical weapons, respectively, and determined to achieve a nuclear weapons convention on the prohibition of the development, testing, production, stockpiling, loan, transfer, use and threat of use of nuclear weapons and on their destruction, and to conclude such an international convention at an early date,

Recognizing that there now exist conditions for the establishment of a world free of nuclear weapons,

Bearing in mind paragraph 50 of the Final Document of the Tenth Special Session of the General Assembly,⁸⁴ the first special session devoted to disarmament, calling for the urgent negotiations of agreements for the cessation of the qualitative improvement and development of nuclear-weapon systems, and for a comprehensive and phased programme with agreed time-frames, wherever feasible, for the progressive and balanced reduction of nuclear weapons and their means of delivery, leading to their ultimate and complete elimination at the earliest possible time,

Noting the reiteration by the State parties to the Treaty on the Non-Proliferation of Nuclear Weapons⁸⁵ of their conviction that the Treaty is a cornerstone of nuclear non-proliferation and nuclear disarmament and the reaffirmation by the State parties of the importance of the decision on strengthening the review process for the Treaty, the decision on principles and objectives for nuclear non-proliferation and disarmament, the decision on the extension of the Treaty on the Non-Proliferation of Nuclear Weapons⁸⁶ and the resolution on the Middle East,⁸⁷ adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly and by the international community,

Recognizing that the Comprehensive Nuclear-Test-Ban Treaty⁸⁸ and any proposed treaty on fissile material for nuclear weapons or other nuclear explosive devices must constitute disarmament measures, and not only non-proliferation measures, and that these measures, together with an international legal instrument on the joint undertaking of no first use of nuclear weapons by the nuclear-weapon States and on adequate security assurances of non-use and non-threat of use of such weapons for non-nuclear-weapon

Welcoming further the joint declaration of the Russian Federation and the United States of America to commence START III negotiations, regardless of the status of completion of the START II process,

Noting with appreciation the unilateral measures by the nuclear-weapon States for nuclear arms limitation, and encouraging them to undertake further such measures,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on nuclear disarmament, and that bilateral negotiations can never replace multilateral negotiation in this respect,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and the multilateral efforts in the Conference on Disarmament to reach agreement on such an international convention at an early date,

Recalling the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*, issued on 8 July 1996,⁹¹ and welcoming the unanimous reaffirmation by all Judges of the Court that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

V Convening of the fourth special session of the General Assembly devoted to disarmament

The General Assembly,

Recalling its resolutions 49/75 I of 15 December 1994, 50/70 F of 12 December 1995, 51/45 C of 10 December 1996, 52/38 F of 9 December 1997 and 53/77 AA of 4 December 1998,

Recalling also that, there being a consensus to do so in each case, three special sessions of the General Assembly devoted to disarmament were held in 1978, 1982 and 1988, respectively,

Bearing in mind the Final Document of the Tenth Special Session of the General Assembly,¹³³ adopted by consensus at the first special session devoted to disarmament, which included the Declaration, Programme of Action and Machinery for disarmament,

Bearing in mind also the objective of general and complete disarmament under effective international control,

Taking note of paragraph 145 of the Final Document of the Twelfth Conference of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,¹³⁴ which supported the convening of the fourth special session of the General Assembly devoted to disarmament, which would offer an opportunity to review, from a perspective more in tune with the current international situation, the most critical aspects of the process of disarmament and to mobilize the international community and public opinion in favour of the elimination of nuclear and other weapons of mass destruction and of the control and reduction of conventional weapons,

Taking note also of the report of the 1999 substantive session of the Disarmament Commission and of the fact that no consensus was reached on the item entitled "Fourth special session of the General Assembly devoted to disarmament",¹³⁵

Desiring to build upon the substantive exchange of views on the fourth special session of the General Assembly devoted to disarmament during the 1999 substantive session of the Disarmament Commission,

Reiterating its conviction that a special session of the General Assembly devoted to disarmament can set the future course of action in the field of disarmament, arms control and related international security matters,

Emphasizing the importance of multilateralism in the process of disarmament, arms control and related international security matters,

Noting that, with the recent accomplishments made by the international community in the field of weapons of mass destruction as well as conventional arms, the following years would be opportune for the international community to start the process of reviewing the state of affairs in the entire field of disarmament and arms control in the post-cold-war era,

¹³⁵ See *Official Records of the General Assembly, Fifty-fourth Session, Supplement No. 42 (A/54/42)*.

1. *Decides*, subject to the emergence of a consensus on its objectives and agenda, to convene the fourth special session of the General Assembly devoted to disarmament;
2. *Requests* the Secretary-General to seek the views of Member States of the United Nations on the objectives, agenda and timing of the special session and to report to the General Assembly at its fifty-fifth session;
3. *Decides* to include in the provisional agenda of its fifty-fifth session the item entitled "Convening of the fourth special session of the General Assembly devoted to disarmament".
