Dear Sirs,

I like to submit this petition for this prevailing matter.

My name is Yassin Sugulle, being one of the students back from abroad after
being granted a scholarship from the United States Government under the grant of
Education Exchange Programme through the Trusteeship Territories.

I have had a period of approximately one year and ten months for a study in
the States.

Since I was back to Somaliland a year and six months ago, I have not any job
whatsoever it may be except a few months in a temporary job.

I have tried all my best to get a job from the Somali Govt. here in
Somaliland, but failed. The reason is very doubtful. Once I consider it that
since most of the jobs is done in Italian language it may be possible that there
may be no need for using English language in place of the Italian language.
Other reason that I have failed to get a job while being a Somali in Somaliland
under the Somali Govt is not very obvious however it may be although there might
be some existing reasons.

Being the first Somali Engineer in a United Nations Trusteeship territory, I have had all kinds of horrors and approached to death many times in the past.

Having no job I have been starved to death right now and many times in the past.

I therefore request that through the mediation of the United Nations Advisory Council that my case be examined for having no job for since that long time after my return from studies abroad.

I hope that through the help of yours, of the United Nations that my case be considered mercifully for I am absolutely ruined and starved and I am in a state of horroble and miserable life.

I give all my hopes to you and to the United Nation for a kind consideration of this prevailling and utterly ruined life of mine.

Thank you and hope you for a good regard,

Your sincerely,

(Signed) Yassin Sugulle Nur
