

UNITED NATIONS
CONFERENCE
ON NEW SOURCES
OF ENERGY

Distr.
LIMITED

E/CONF.35/G/2
E/CONF.35/G/2 Summary } Corr.1
2 June 1961

ENGLISH ONLY

SOLAR ENERGY, WIND POWER AND GEOTHERMAL ENERGY

Agenda item/Point de l'ordre du jour:

II.A.1.(c) -

Prospection of geothermal fields and investigations necessary
to evaluate their capacity -

Prospection des champs géothermiques et recherches nécessaires
pour évaluer la puissance utilisable -
Recherches en vue de l'évaluation

PRELIMINARY EVALUATION OF GEOTHERMAL AREAS
BY GEOCHEMISTRY, GEOLOGY AND SHALLOW DRILLING

By Donald E. WHITE

U. S. Geological Survey, Menlo Park, California, U. S. A.

C O R R I G E N D U M

Page i, paragraph 2, line 2 should read: ". . . dry steam or
hot water and wet steam."

Same paragraph, line 3 should read: ". . . dry steam occurs
because relatively little meteoric water penetrates . . ."
