

Security Council

Distr.: General
29 December 2017

Original: English

Security Council Committee established pursuant to resolution 1591 (2005) concerning the Sudan

Note verbale dated 29 December 2017 from the Permanent Mission of the Netherlands to the United Nations addressed to the Chair of the Committee

The Permanent Mission of the Kingdom of the Netherlands to the United Nations presents its compliments to the Chair of the Security Council Committee established pursuant to resolution 1591 (2005) concerning the Sudan and has the honour to refer to the letter dated 16 October 2017.

Upon the instruction of the Dutch Government, the Permanent Mission has the honour to submit to the Security Council Committee the requested report of the Government of the Kingdom of the Netherlands on the implementation of Security Council resolutions 1556 (2004) and 1591 (2005) (see annex).

Annex to the note verbale dated 29 December 2017 from the Permanent Mission of the Netherlands to the United Nations addressed to the Chair of the Committee

Report of the Netherlands on the implementation of Security Council resolutions [1556 \(2004\)](#) and [1591 \(2005\)](#)

In accordance with Security Council resolution [1891 \(2009\)](#), paragraph 5, the Kingdom of the Netherlands wishes to transmit to the Committee the following information concerning the implementation of the restrictive measures set forth in paragraphs 7 and 8 of resolution [1556 \(2004\)](#) and paragraphs 3 and 7 of resolution [1591 \(2005\)](#).

The implementation of United Nations sanctions is an autonomous competence of Aruba, Curaçao, Sint Maarten and the Netherlands, although the Kingdom of the Netherlands remains accountable under international law. Only the Netherlands is a member of the European Union.

Member states of the European Union implement the provisions of the Security Council resolutions that fall within the scope of the European Union's competence through the relevant European regulatory acts, comprising regulations, decisions and common positions of the Council of the European Union. The Netherlands and the other member states of the European Union have jointly implemented the following restrictive measures against the Sudan imposed by the Security Council in its resolutions [1556 \(2004\)](#) and [1591 \(2005\)](#):

- Council Decision 2014/450/CFSP of 10 July 2014 concerning restrictive measures in view of the situation in the Sudan and repealing Council Decision 2011/423/CFSP, last amended by Council Implementing Decision (CFSP) 2017/413
- Council Regulation (EU) 747/2014 of 10 July 2014 concerning restrictive measures in view of the situation in the Sudan and repealing Regulations (EC) 131/2004 and (EC) 1184/2005, last amended by Council Implementing Regulation (EU) 2017/401

The Council Decision sets out the European Union's commitment to implementing all the measures contained in Security Council resolutions [1556 \(2004\)](#) and [1591 \(2005\)](#), and provides the basis for European Union-specific accompanying measures within the scope of the resolutions, notably:

- Prohibition of the sale, supply, transfer or export of arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for the aforementioned to the Sudan by nationals of member states or from the territories of member states, or using their flag vessels or aircraft, whether originating or not in their territories (arms embargo).
- Prohibition on providing technical or financial assistance or brokering services related to military activities and to the provision, manufacture, maintenance and use of arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for the aforementioned, directly or indirectly, to any natural or legal person, entity or body in, or for use in the Sudan (prohibition on providing technical or financial assistance in relation to military activities).
- Prohibition on making available, directly or indirectly, funds or economic resources to or for the benefit of the natural or legal persons, entities or bodies

listed in annex I to Council Regulation 747/2014, last amended by Council Implementing Regulation 2017/1942 (prohibition on providing financial assistance to listed persons).

- Obligation of member States to freeze all funds and economic resources belonging to, owned or controlled, directly or indirectly, by the natural or legal persons, entities or bodies listed in annex I to Council Regulation 747/2014, last amended by Council Implementing Regulation 2017/401 (asset freeze).
- Obligation of member States of the European Union to prevent the entry into, or transit through, the territory of the persons listed in the annex to Council Decision 2014/450/CFSP, last amended by Council Implementing Decision 2017/1948 (entry ban).
- Obligation of member States of the European Union to supply immediately any such information that would facilitate compliance with Council Regulation 747/2014.

The above-mentioned regulations of the Council of the European Union are binding in their entirety and directly applicable in all member states of the European Union. As soon as the European Union regulations were adopted, the Minister for Foreign Affairs of the Netherlands, in cooperation with the other ministers concerned, laid down the necessary national provisions in secondary legislation, within the framework of the Sanctions Act 1977. In that act, it is stated that the Minister of Finance may designate one or more legal entities to monitor compliance with sanctions legislation (the Sanctions Act 1977 and secondary legislation) in relation to financial transactions. Through the Legal Entities Designation Order pursuant to the Sanctions Act 1977, the Minister of Finance designated the Dutch central bank and the Dutch Authority for the Financial Markets as supervisors of compliance with sanctions legislation according to specific categories of financial institutions. The Dutch central bank is responsible in this context for the supervision of credit institutions, trust offices, payment institutions, pension funds and insurers. The Dutch Authority for the Financial Markets supervises the following financial institutions: managers of undertakings for collective investment in transferable securities, managers of alternative investment funds as referred to in sections 2:65 and 2:66 (a) of the Financial Supervision Act and investment firms.

The Supervision Order pursuant to the Sanctions Act 1977, prepared jointly by the Dutch Authority for the Financial Markets and the Dutch central bank, provides financial institutions with a framework for taking measures. There are two types of financial sanctions: an order to freeze assets and a ban or restrictions on providing financial services. These sanctions are intended to prevent undesirable transactions (embargoes) and to combat terrorism. Institutions take measures to ensure that they can identify clients and associates that are legal or natural persons or entities referred to in sanctions legislation. Institutions subsequently ensure that they do not provide financial resources or services to these clients and associates, and that they are able to freeze their financial assets. The Dutch Authority for the Financial Markets and the Dutch central bank operate with a sanctions alert system that publicizes new sanctions measures of relevance to financial businesses. The Dutch Authority for the Financial Markets and the Dutch central bank found no obstacles to implementing the Sudan sanctions regime and determined that, within the institutions under their oversight, there are currently no asset freezes in force with respect to the Sudan sanctions regime.

Financial institutions are required to have proper internal controls so that they can meet their obligations under sanctions legislation. They also have an obligation to notify supervisory bodies of any frozen funds or frozen financial assistance. Failure to meet those obligations can result in a penalty under national administrative law.

Council regulation (EU) 747/2014 requires member states to determine the penalties applicable to any infringements of their provisions. The penalties determined by the Netherlands are set out in the Economic Offences Act.

Pending the adoption of the European Union regulations and, subsequently, national secondary legislation, the Netherlands implemented its obligations under the Security Council resolutions through its existing national legislation and instruments, such as the Tax and Customs Administration, the Dutch central bank, the Dutch Authority for the Financial Markets, the Consular Affairs and Visa Policy Department of the Ministry of Foreign Affairs, the Public Prosecution Service and the Fiscal Information and Investigation Service.

The Netherlands has the following national legislation implementing the restrictive measures in view of the situation in the Sudan: the Sudan Sanctions Order 2014, specifically articles 1 and 3.

The Netherlands has the following national legislation in force requiring an export authorization for the sale, supply, transfer or export of arms and related materiel to third countries and an authorization for the provision of brokering services and other services related to military activities: the General Customs Act, the Strategic Goods Decree and the Strategic Services Act.

The individuals listed in Council Decision 2014/450/CFSP have been registered in the Schengen Information System, which ensures that any Schengen visa application will be denied.
