Fourteenth session
FIFTH COMMITTEE
Agenda item 71

INTERNATIONAL ENCOURAGEMENT OF SCIENTIFIC RESEARCH
INTO THE CONTROL OF CANCEROUS DISEASES

Statement of Financial Implications by the Secretary-General

1. The draft resolution adopted at the 953rd meeting of the Third Committee (A/C.3/L.811) would entail expenditures of \$100,000 each four years. There would be no expenditure in 1960. The Secretary-General would propose to submit suggestions for alternative methods of financing to the General Assembly at its fifteenth regular session.
2. The Advisory Committee on Administrative and Budgetary Questions has reviewed this matter and concurs in the approach outlined above.
