With reference to the previous concluding observations (para. 13), please report on the measures taken to achieve the equitable representation of women in public and political life, especially in decision-making positions. Please describe steps taken to introduce statutory quotas for women in national and local legislative assemblies and to review the current quota system for electoral lists, which does not ensure, in practice, equal representation of men and women.

10. Bearing in mind the previous concluding observations (para. 14) and the recommendations made by the Committee on the Elimination of Discrimination against Women (CEDAW/C/GUY/CO/9, para. 25), please provide further information on measures adopted to prevent and combat violence against women, including domestic and sexual violence, and on the impact of those measures. In particular, please indicate steps taken: (a) to encourage reporting by victims of violence against women, including by combating social stigmatization and increasing victims' access to justice, particularly in the rural and hinterland areas; (b) to address the backlog and low prosecution rates of cases of violence against women; and (c) to ensure the availability of shelters throughout the State party, especially for victims of domestic violence and their children, as well as adequate funding for all victim support services. 13. In light of the previous concluding observations (para. 10), please provide information on specific measures taken by the State party to prevent and combat extrajudicial killings, especially by the Guyana Police Force. Please comment on reports that: (a) the authorities failed to investigate past incidents of extrajudicial killings, including during the period between 2002 and 2006, and to bring perpetrators to justice, thereby creating a climate of impunity; and (b) a presidential commission of inquiry to investigate allegations of extrajudicial killings has not been established, despite the Government's announcement of such a plan in 2018.

14. Please provide information on the steps taken to prevent and mitigate the negative effects of climate change and environmental degradation, particularly as a consequence of gold mining and offshore oil production. Please respond to concerns that large-scale oil extraction significantly increases greenhouse gas emissions, causes ocean acidification and sea level rise, and adversely affects the most vulnerable groups in the State party, including the Amerindian and fishery-dependent communities and individuals living in poverty. Please report on the steps taken: (a) to develop mechanisms and systems to ensure the sustainable use of natural resources, including oil and gas; (b) to develop and fully implement environmental standards, including the Environmental Protection Act; (c) to conduct environmental impact assessments; and (d) to provide appropriate access to information on environmental hazards.

Please clarify whether remand detainees are kept strictly separate from convicted persons.

19. Bearing in mind the previous concluding observations (para. 16), please indicate the progress made in ensuring that: (a) children in conflict with the law are treated in a way that promotes their integration into society, providing information about the types and lengths of sentences applied to minors in conflict with the law during the period under review; (b) detention of children is used only as a measure of last resort and for the shortest possible time; (c) children are kept separate from adults in detention; and (d) the Juvenile Justice Act of 2018 is fully implemented.

20. Please provide information on the measures taken to combat trafficking in persons and child labour, particularly in rural and hinterland areas, including the investigation, prosecution and conviction of perpetrators and provision of remedy to victims. Please comment on reports of hazardous child labour, especially in mining, logging, farming, fishing and manufacturing industries, and among the Amerindian communities, and of the increasing number of children in street situations. Please also indicate the steps taken by the State party to ensure the birth registration of children and access to identity documents.

Access to justice, independence of the judiciary, and fair trial (arts. 2 and 14)

22. Please provide information on the legal and regulatory frameworks governing the right of freedom of expression in the State party, and the measures taken to ensure the protection of human rights defenders, journalists and media workers against harassment, threats and verbal and physical attacks, and to provide effective remedies to victims. Please respond to reports of: (a) harassment, intimidation, threats and attacks against journalists, media workers and others who are critical of the Government; (b) the insufficiency of efforts made to investigate such acts and bring perpetrators to justice; (c) libel lawsuits brought by public officials against journalists who are critical of the Government; and (d) chilling effects on the freedom of expression attributable to the Cybercrime Act of 2018 and the 2017 amendments to the Broadcasting Act. Please indicate whether the State party is considering decriminalizing defamation and ensuring that imprisonment is not a penalty for defamation, in line with the Committee's general comment No. 34 (2011) on freedoms of opinion and expression (para. 47).

Participation in public affairs (arts. 25 and 26)

23. Please respond to reports that: (a) the current electoral system exacerbates the existing ethnopolitical polarization and, therefore, does not promote social cohesion and diversity; (b) the domination of politics by the two largest parties contributes to the political marginalization of ethnic minorities; (c) the elections in March 2020 were characterized by such polarization, evidenced by, among other things, widespread hate speech and misinformation; and (d) insufficient measures were in place to ensure a peaceful and inclusive electoral process. Please discuss the independence, impartiality and efficacy of the Guyana Elections Commission in supervising the electoral process and ensuring that elections are conducted fairly and impartially, including detailed information on the selection of its Chair. Please provide information on the legal framework concerning campaign financing, including information on disclosure of contributions and expenditures and any existing oversight mechanisms in this respect. Please describe the efforts made to ensure the right to vote for all, and respond to allegations that no arrangements were made to allow persons with disabilities and pretrial detainees to participate in the elections in March 2020, thereby effectively depriving them of their right to vote.

Rights of indigenous peoples (art. 27)

25. With reference to the previous concluding observations (para. 21), please indicate the measures adopted to ensure the promotion and protection of the rights of indigenous peoples and the participation of the Amerindian communities in decisions that affect them, particularly in relation to land and natural resources. Please update the Committee on efforts to amend the Amerindian Act of 2006 and to ensure adequate consultations with members of the Amerindian communities in this respect. Please respond to concerns that: (a) the land titling process for Amerindians has been made more complicated, yielding little progress during the period under review; and (b) inadequately regulated mining activities in the areas that Amerindians inhabit have adversely affected the demarcation of their traditional lands and caused environmental degradation and serious threats to their health.
