DEPARTMENT OF ECONOMIC AND SOCIAL AFFAIRS

The Department of Economic and Social Affairs of the United Nations Secretariat is a vital interface between global policies in the economic, social and environmental spheres and national action. The Department works in three main interlinked areas: (i) it compiles, generates and analyses a wide range of economic, social and environmental data and information on which States Members of the United Nations draw to review common problems and to take stock of policy options; (ii) it facilitates the negotiations of Member States in many intergovernmental bodies on joint courses of action to address ongoing or emerging global challenges; and (iii) it advises interested Governments on the ways and means of translating policy frameworks developed in United Nations conferences and summits into programmes at the country level and, through technical assistance, helps build national capacities.

NOTE

Symbols of United Nations documents are composed of capital letters combined with figures.

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Where the designation “country or area” appears in this publication, it covers countries, territories, cities or areas. In previous issues of this publication, where the designation “country” appears in the headings of tables, it should be interpreted to cover countries, territories, cities or areas.

In some tables, the designation “developed” economies is intended for statistical convenience and does not necessarily express a judgement about the stage reached by a particular country or area in the development process.

PREFACE

The *2011 International Trade Statistics Yearbook* (2011 ITSY) is the sixtieth edition of this yearbook. Its objective is to inform about the detailed merchandise imports and exports of individual countries (areas) by commodity and partner country (volume I), the world trade in individual commodities (3-digit SITC groups) (volume II) and total world trade - up to the year 2011. The two volumes are prepared at different points in time during 2011: *Volume I - Trade by Country* is made electronically available in June and *Volume II - Trade by Commodity* in December, as the preparation of the tables in Volume II requires additional country data which, normally, become available later in the year.

Beginning with the 2008 edition the yearbook is published in a redesigned format in respect to the presentation of data for individual countries and commodities to provide a more analytical and condensed view of the international merchandise trade data. The detailed information about the trade of particular countries by commodity and partner (values and quantities) contained in the tables and graphs for individual countries in Volume I and commodities in Volume II are taken from the publicly available database UN Comtrade (<http://comtrade.un.org/db/default.aspx>). Users are advised to visit UN Comtrade for any additional and more current information as it is continuously updated.

The International Trade Statistics Yearbook is prepared by the International Merchandise Trade Statistics Section, Trade Statistics Branch of the Statistics Division, Department of Economic and Social Affairs of the United Nations Secretariat. Under the general supervision of the Chief of Branch, Ronald Jansen, the programme manager is Matthias Reister and the chief editor is Marjorie Imperial-Damaso, assisted by Melissa Paca. Bekuretsion Amdemariam has the leading role in the processing of the data for UN Comtrade. However, all staff of the section are involved in the generation of the data and the yearbook. Markie Muryawan, Salomon Cameo and Luis Gonzalez Morales developed the software which is maintained by Salomon Cameo. Nelnan Koumtingue made very substantial contributions to this redesigned yearbook as its first chief editor. Comments on the present yearbook are welcome. They may be sent to comtrade@un.org or to United Nations Statistics Division, International Merchandise Trade Statistics Section, New York, New York 10017, USA.

TABLE OF CONTENTS

	Page
Introduction	xi
The new yearbook	xi
Concepts and definitions of International Merchandise Trade Statistics.....	xi
Sources and Presentation	xiv
Description of world trade tables of part 1 (Tables A to K).....	xx
Description of commodity tables and graphs of part 2.....	xxiii
Abbreviations and Explanation of symbols	xxv
Disclaimer, UN Comtrade Subscription information, Contact.....	xxvi
Part 1 World Trade Tables.....	1
Total imports and exports by regions and countries or areas in U.S. dollars (Table A).....	3
Total imports and exports by countries or areas in national currency (Table B).....	21
External trade conversion factors (Table C).....	30
World exports by provenance and destination in U.S. dollars (Table D).....	38
Growth of world exports by provenance and destination (Table E).....	116
Structure of world exports by provenance and destination (Table F).....	118
Indices of total exports and imports by countries or areas (Table G).....	123
Indices of total exports and imports by regions (Table H).....	133
Indices and values of manufactured goods exports (Table I).....	136
Indices and values of fuel imports - Developed economies (Table J).....	140
Some indicators on fuel imports - Developed economies (Table K).....	144
Part 2 Commodity Trade Profiles.....	149
Food and live animals (SITC Section 0).....	151
Beverages and tobacco (SITC Section 1).....	189
Crude materials, inedible, except fuels (SITC Section 2).....	195
Mineral fuels, lubricants and related materials (SITC Section 3).....	231
Animal and vegetable oils, fats and waxes (SITC Section 4).....	243
Chemicals and related products, n.e.s. (SITC Section 5).....	249
Manufactured goods classified chiefly by material (SITC Section 6).....	283
Machinery and transport equipment (SITC Section 7).....	337
Miscellaneous manufactured articles (SITC Section 8).....	389
Commodities and transactions not classified elsewhere in SITC (SITC Section 9).....	421

TABLE OF CONTENTS (continued)

Part 2 COMMODITY TRADE PROFILES

Full list of included 3-digit SITC groups (SITC, Rev.3)

Food and live animals (SITC Section 0)

001	Live animals other than animals of division 03.....	152
011	Meat of bovine animals, fresh, chilled or frozen.....	153
012	Other meat, meat offal, fresh, chilled, frozen (for human).....	154
016	Meat, edible offal, salted, in brine, dried, etc; flours, meals.....	155
017	Meat and edible meat offal, prepared or preserved, nes.....	156
022	Milk and cream and milk products other than butter or cheese.....	157
023	Butter and other fats and oils derived from milk.....	158
024	Cheese and curd.....	159
025	Eggs, birds', egg yolks, fresh, dried or preserved; egg albumin.....	160
034	Fish, fresh (live or dead), chilled or frozen.....	161
035	Fish, dried, salted or in brine; smoked fish; flours, meals, etc.....	162
036	Crustaceans, molluscs, aquatic invertebrates; flours and pellets.....	163
037	Fish, crustaceans, molluscs, aquatic invertebrates, prepared, nes.....	164
041	Wheat (including spelt) and meslin, unmilled.....	165
042	Rice.....	166
043	Barley, unmilled.....	167
044	Maize (not including sweet corn), unmilled.....	168
045	Cereals, unmilled (other than wheat, rice, barley and maize).....	169
046	Meal and flour of wheat and flour of meslin.....	170
047	Other cereal meals and flours.....	171
048	Cereal, flour or starch preparations of fruits or vegetables.....	172
054	Vegetables, fresh, chilled, frozen, simply preserved; roots.....	173
056	Vegetables, roots and tubers, prepared or preserved, nes.....	174
057	Fruit and nuts (not including oil nuts), fresh or dried.....	175
058	Fruits, preserved, and fruit preparations (excluding fruit juices).....	176
059	Fruit and vegetable juices, unfermented and without added spirit.....	177
061	Sugars, molasses and honey.....	178
062	Sugar confectionery.....	179
071	Coffee and coffee substitutes.....	180
072	Cocoa.....	181
073	Chocolate and other food preparations containing cocoa, nes.....	182
074	Tea and mate.....	183
075	Spices.....	184
081	Feeding stuff for animals (not including unmilled cereals).....	185
091	Margarine and shortening.....	186
098	Edible products and preparations, nes.....	187

Beverages and tobacco (SITC Section 1)

111	Non-alcoholic beverages, nes.....	190
112	Alcoholic beverages.....	191
121	Tobacco, unmanufactured; tobacco refuse.....	192
122	Tobacco, manufactured (whether or not containing tobacco substitutes).....	193

Crude materials, inedible, except fuels (SITC Section 2)

211	Hides and skins (except furskins), raw.....	196
212	Furskins, raw (including heads, tails, paws, etc), other than those of 211.....	197
222	Oil-seeds and oleaginous fruits used for extraction of 'soft' fixed oils.....	198
223	Oil seeds and oleaginous fruits used for the extraction of other fixed oils.....	199
231	Natural rubber, balata, gutta-percha, chicle, etc, in primary forms.....	200

232	Synthetic and reclaimed rubber; waste, scrap of unhardened rubber	201
244	Cork, natural, raw, and waste (including natural cork in blocks or sheets)	202
245	Fuel wood (excluding wood waste) and wood charcoal	203
246	Wood in chips or particles and wood waste	204
247	Wood in the rough or roughly squared	205
248	Wood, simply worked, and railway sleepers of wood	206
251	Pulp and waste paper	207
261	Silk	208
263	Cotton	209
264	Jute, other textile bast fibres, nes, not spun; tow and waste	210
265	Vegetable textile fibres (other than cotton or jute) not spun; waste	211
266	Synthetic fibres suitable for spinning	212
267	Other man-made fibres suitable for spinning; waste of man-made fibres	213
268	Wool and other animal hair (including wool tops)	214
269	Worn clothing and other worn textile articles; rags	215
272	Fertilizers crude, other than those of division 56	216
273	Stone, sand and gravel	217
274	Sulphur and unroasted iron pyrites	218
277	Natural abrasives, nes (including industrial diamonds)	219
278	Other crude minerals	220
281	Iron ore and concentrates	221
282	Ferrous waste and scrap; remelting scrap ingots of iron or steel	222
283	Copper ores and concentrates; copper mattes, cement copper	223
284	Nickel ores and concentrates; nickel mattes, nickel oxide sinters	224
285	Aluminium ores and concentrates (including alumina)	225
287	Ores and concentrates of base metals, nes	226
288	Non-ferrous base metal waste and scrap, nes	227
289	Ores, concentrates precious metals; waste, scrap and sweepings (no gold)	228
291	Crude animal materials, nes	229
292	Crude vegetable materials, nes	230

Mineral fuels, lubricants and related materials (SITC Section 3)

321	Coal, whether or not pulverized, but not agglomerated	232
322	Briquettes, lignite and peat	233
325	Coke, semi-coke of coal, lignite or peat, agglomerated or not; retort carbon	234
333	Petroleum oils and oils obtained from bituminous minerals, crude	235
334	Petroleum oils and oils obtained from bituminous minerals, (not crude)	236
335	Residual petroleum products, nes, and related materials	237
342	Liquefied propane and butane	238
343	Natural gas, whether or not liquefied	239
344	Petroleum gases and other gaseous hydrocarbons, nes	240
351	Electric current	241

Animal and vegetable oils, fats and waxes (SITC Section 4)

411	Animal oils and fats	244
421	Fixed vegetable fats and oils, 'soft', crude, refined or fractionated	245
422	Fixed vegetable fats and oils, crude, refined or fractionated, not 'soft'	246
431	Animal or vegetable fats and oils, processed; waxes of; inedible	247

Chemicals and related products, n.e.s. (SITC Section 5)

511	Hydrocarbons, nes, and their derivatives	250
512	Alcohols, Phenols, phenol-alcohols and their derivatives	251
513	Carboxylic acids, and their derivatives	252
514	Nitrogen-function compounds	253
515	Organo-inorganic and heterocyclic compounds, nucleic acids; salts	254
516	Other organic chemicals	255
522	Inorganic chemical elements, oxides and halogen salts	256

523	Metal salts and peroxysalts, of inorganic acids	257
524	Other inorganic chemicals; organic, inorganic compounds precious metals	258
525	Radioactive and associated materials	259
531	Synthetic organic colouring matter and preparations based thereon	260
532	Dyeing and tanning extracts, and synthetic tanning materials	261
533	Pigments, paints, varnishes and related materials	262
541	Medicinal and pharmaceutical products, other than medicament of 542	263
542	Medicaments (including veterinary medicaments)	264
551	Essential oils, perfume and flavour materials	265
553	Perfumery, cosmetic or toilet preparations (excluding soaps).....	266
554	Soap, cleansing and polishing preparations	267
562	Fertilizers (other than those of group 272).....	268
571	Polymers of ethylene, in primary forms.....	269
572	Polymers of styrene, in primary forms.....	270
573	Polymers of vinyl choride or of other halogenated olefins	271
574	Polyacetals, epoxide resins, etc, and other polyethers in primary forms.....	272
575	Other plastics, in primary forms.....	273
579	Waste, parings and scrap, of plastics.....	274
581	Tubes, pipes and hoses, and fittings therefore of plastics	275
582	Plates, sheets, film, foil and strip, of plastics	276
583	Monofilament of any cross-sectional dimension exceed 1 mm, of plastics.....	277
591	Pesticides, disinfectant, put up in preparation, articles or packings for retail.....	278
592	Starches, insulin and wheat gluten; albuminoidal substances; glues.....	279
593	Explosives and pyrotechnic products.....	280
597	Prepared additives, de-icing and liquid for transmissions; lubricant, etc	281
598	Miscellaneous chemical products, nes	282

Manufactured goods classified chiefly by material (SITC Section 6)

611	Leather	284
612	Manufactures of leather or of composition leather, nes; saddlery, harness	285
613	Furskins, tanned or dressed, other than those of heading 848.31	286
621	Materials of rubber (e.g., pastes, plates, rods, threads, tubes of rubber)	287
625	Rubber tyres, interchangeable tyre treads, tyre flaps and inner tubes	288
629	Articles of rubber, nes.....	289
633	Cork manufacture	290
634	Veneers, plywood, particle board, and other wood, worked, nes	291
635	Wood manufactures, nes.....	292
641	Paper and paperboard.....	293
642	Paper and paperboard, cut to size or shape; articles of paper or paperboard.....	294
651	Textile yarn.....	295
652	Cotton fabrics, woven (not including narrow or special fabrics)	296
653	Fabrics, woven, of man-made textile materials (not narrow or special fabrics).....	297
654	Other textile fabrics, woven	298
655	Knitted or crocheted fabrics, nes.....	299
656	Tulles, lace, embroidery, ribbons, trimmings and other smallwares	300
657	Special yarns, special textile fabrics and related products	301
658	Made-up articles, wholly or chiefly of textile materials, nes	302
659	Floor coverings, etc.....	303
661	Lime, cement, and fabricated construction materials (except glass and clay).....	304
662	Clay construction materials and refractory construction materials	305
663	Mineral manufactures, nes	306
664	Glass	307
665	Glassware.....	308
666	Pottery.....	309
667	Pearls and precious or semiprecious stones, unworked or worked.....	310
671	Pig iron, spiegeleisen, sponge iron, iron or steel granules and powders	311
672	Ingots and other primary forms, of iron or steel; semi-finished products	312
673	Flat-rolled products of iron or non-alloy steel, not clad, plated or coated.....	313
674	Flat-rolled products of iron or non-alloy steel, clad, plated or coated.....	314
675	Flat-rolled products of alloy steel	315
676	Iron and steel bars, rods, angles, shapes and sections	316

677	Rails or railway track construction material, of iron or steel	317
678	Wire of iron or steel.....	318
679	Tubes, pipes and hollow profiles, and tube or pipe fittings of iron or steel.....	319
681	Silver, platinum and other metals of the platinum group	320
682	Copper	321
683	Nickel.....	322
684	Aluminium.....	323
685	Lead.....	324
686	Zinc.....	325
687	Tin.....	326
689	Miscellaneous non-ferrous base metals employed in metallurgy and cermets.....	327
691	Structures and parts of structures, nes, of iron, steel or aluminium.....	328
692	Metal containers for storage or transport	329
693	Wire products (excluding insulated electrical wiring) and fencing grills.....	330
694	Nails, screws, nuts, bolts, and the like of iron, steel, copper, aluminium.....	331
695	Tools for use in the hand or in machines	332
696	Cutlery	333
697	Household equipment of base metal, nes	334
699	Manufactures of base metal, nes.....	335

Machinery and transport equipment (SITC Section 7)

711	Steam boilers, superheated water boiler; auxiliary plants; parts thereof.....	338
712	Steam turbines and other vapour turbines and parts thereof, nes	339
713	Internal combustion piston engines and parts thereof, nes.....	340
714	Engines and motors, non-electric; parts, nes (not those of 712, 713 and 718).....	341
716	Rotating electric plant and parts thereof, nes	342
718	Power generating machinery and parts thereof, nes	343
721	Agricultural machinery (excluding tractors) and parts thereof.....	344
722	Tractors (other than those of headings 744.14 and 744.15)	345
723	Civil engineering and contractors' plant and equipment; parts thereof	346
724	Textile and leather machinery and parts thereof, nes.....	347
725	Paper and paper manufacture machinery, and parts thereof.....	348
726	Printing and bookbinding machinery and parts thereof.....	349
727	Food- processing machines (excluding domestic); parts thereof.....	350
728	Other machinery, equipment, for specialized industries; parts nes	351
731	Machine tools working by removing metal or other material	352
733	Machine tools for working metal, sintered metal carbides or cermets	353
735	Parts, nes, accessories suitable for use with machines falling within 731&733	354
737	Metalworking machinery and parts thereof, nes	355
741	Heating and cooling equipment and parts thereof, nes.....	356
742	Pumps for liquids; liquid elevators; parts for such pumps and liquid elevators	357
743	Pumps (other than liquid), air or other gas compressors and fans, etc; parts.....	358
744	Mechanical handling equipment and parts thereof, nes	359
745	Non-electrical machinery, tools and mechanical apparatus, parts thereof, nes	360
746	Ball or roller bearings	361
747	Taps, cocks, valves, etc; pressure-reducing, thermostatically control valves.....	362
748	Transmission shafts (camshafts, crankshafts) and cranks; parts thereof	363
749	Non-electric parts and accessories of machinery, nes	364
751	Office machines	365
752	Automatic data processing machines and units thereof.....	366
759	Parts and accessories (not covers, carrying cases, etc) for machines of 751-752.....	367
761	Television receivers.....	368
762	Radio-broadcast receivers.....	369
763	Sound recorders or reproducers; television image and sound recorders.....	370
764	Telecommunications equipment, nes, and parts, nes, and accessories of 76.....	371
771	Electric power machinery, and parts thereof.....	372
772	Electrical apparatus for switching, protecting or connecting electrical circuits	373
773	Equipment for distributing electricity, nes.....	374
774	Electro-medical and radiological equipment.....	375
775	Household-type electrical and non-electrical equipment, nes	376

776	Thermionic, microcircuits, transistors, valves, cathodes, diodes, etc	377
778	Electrical machinery and apparatus, nes	378
781	Cars, other motor vehicles principally designed for the transports of persons	379
782	Motor vehicles for the transport of goods; special-purpose motor vehicles	380
783	Road motor vehicles, nes	381
784	Parts and accessories of the motor vehicles of 722, 781, 782 and 783	382
785	Motorcycles and cycles motorized and non-motorized; invalid carriages	383
786	Trailers, semi-trailers; other vehicles, not mechanically propelled	384
791	Railway vehicles (including hovertrains) and associated equipment	385
792	Aircraft and associated equipment; spacecraft and their launch vehicles; parts	386
793	Ships, boats (including hovercraft) and floating structures	387

Miscellaneous manufactured articles (SITC Section 8)

811	Prefabricated buildings	390
812	Sanitary, plumbing and heating fixtures and fittings, nes	391
813	Lighting fixtures and fittings, nes	392
821	Furniture and parts thereof; stuffed furnishings	393
831	Travel goods, handbags, etc, of leather, plastics, textile, others	394
841	Men's or boys' outerwear, of textile fabrics, not knitted or crocheted	395
842	Women's or girls' outerwear, of textile fabrics, not knitted or crocheted	396
843	Men's or boys' outerwear, of textile fabrics, knitted or crocheted	397
844	Women's or girls' outerwear, of textile fabrics, knitted or crocheted	398
845	Articles of apparel, of textile fabrics, whether or not knitted or crocheted, nes	399
846	Clothing accessories, of textile fabrics, whether or not knitted or crocheted	400
848	Articles of apparel, and clothing accessories not textile fabrics; headgear	401
851	Footwear	402
871	Optical instruments and apparatus, nes	403
872	Instruments and appliances, nes, for medical and veterinary sciences	404
873	Meters and counters, nes	405
874	Measuring, checking, analyzing and controlling instruments, apparatus nes	406
881	Photographic apparatus and equipments, nes	407
882	Photographic and cinematographic supplies	408
883	Cinematographic film, exposed and developed	409
884	Optical goods, nes	410
885	Watches and clocks	411
891	Arms and ammunition	412
892	Printed matter	413
893	Articles, nes, of plastics	414
894	Baby carriages, toys, games and sporting goods	415
895	Office and stationery supplies, nes	416
896	Works of art, collectors' pieces and antiques	417
897	Gold, silverware, jewellery and articles of precious materials, nes	418
898	Musical instruments, parts/accessories; records, tapes and similar recordings	419
899	Miscellaneous manufactured articles, nes	420

Commodities and transactions not classified elsewhere in SITC (SITC Section 9)

931	Special transactions and commodities not classified according to kind	422
961	Coin (other than gold coin), not being legal tender	423
971	Gold, non-monetary (excluding gold ores and concentrates)	424

INTRODUCTION

The new yearbook

1. The *2011 International Trade Statistics Yearbook* (2011 ITSY) is being issued in two volumes which were prepared at different points in time during 2012.¹ Volume I has been compiled early in 2012 (in May 2012) to allow for an advanced release of an overview of international merchandise trade in 2011 and for a much earlier publication of the available 2011 country (area) data. Volume II which contains detailed tables showing international trade for individual commodities (3-digit SITC groups) and eleven world trade tables covering trade values and indices has been compiled approximately six months after the submission of Volume I (in November 2012) as the preparation of these tables requires and benefits from the additional country data which, normally, become available later in the year. Volume II contains updated versions of the two world trade tables A and D published in Volume I.

2. Beginning with the 2008 edition, Volume II is published in a redesigned format in respect to the presentation of data for individual commodities (3-digit SITC groups) with the aim to provide a more analytical and condensed view of the exports and imports of a specific commodity (commodity trade profile). Overall, data for a total of 258 commodities are shown in Volume II. The information for 2011 is based on data provided by 137 countries (areas), representing 95.6% of world trade of 2011. All tables of Volume II are made available electronically shortly after the completion of the manuscript.

3. The detailed information about the trade of particular countries by commodity and partner (values and quantities) contained in the tables and graphs for individual countries in Volume I and commodities in Volume II has been taken from the publicly available database UN Comtrade (<http://comtrade.un.org/>). Users are advised to visit UN Comtrade for any additional and more current information as it is continuously updated.

Concepts and definitions of International Merchandise Trade Statistics

4. The statistics in this Yearbook have been compiled by national statistical authorities largely consistent with the United Nations recommended *International Merchandise Trade Statistics, Concepts and Definitions 2010* (IMTS 2010).² The main elements of the concepts and definitions are:

1. **Coverage:** As a general guideline, it is recommended that international merchandise trade statistics record all goods which add to or subtract from the stock of

¹ The 2011 ITSY is the sixtieth edition of this yearbook.

² At its forty-first session, held from 23 to 26 February 2010, the Statistical Commission adopted the revised recommendations “International merchandise trade statistics: concepts and definitions 2010” (IMTS 2010) which provide very important amendments while retaining the existing conceptual framework contained in the previous recommendations. The publication is available under Statistical Papers, Series M No. 52, Rev.3, (United Nations publication, Sales No. E.10.XVII.13) and electronically at: <http://unstats.un.org/unsd/pubs/gesgrid.asp?id=449>.

material resources of a country by entering (imports) or leaving (exports) its economic territory. The general guidelines is subject to the clarifications provided in IMTS 2010, in particular, to the specific guidelines in chapter 1 concerning the inclusion or exclusion of certain categories of goods.

2. Time of recording: As a general guideline, it is recommended that goods be recorded at the time when they enter or leave the economic territory of a country.

3. Statistical territory: The statistical territory of a country is the territory with respect to which trade data are being compiled. The definition of the statistical territory may or may not coincide with the economic territory of a country or its customs territory, depending on the availability of data sources and other considerations. It follows that when the statistical territory of a country and its economic territory differ, international merchandise trade statistics do not provide a complete record of inward and outward flows of goods.

4. Trade systems: Depending on what parts of the economic territory are included in the statistical territory, the trade data-compilation system adopted by a country (its trade system) may be referred to as general or special.

(a) *The general trade system* is in use when the statistical territory coincides with the economic territory. Consequently, it is recommended that the statistical territory of a country applying the general trade system comprises all applicable territorial elements. In this case, imports include goods entering the free circulation area, premises for inward processing, industrial free zones, premises for customs warehousing or commercial free zones and exports include goods leaving those territorial elements;

(b) *The special trade system* is in use when the statistical territory comprises only a particular part of the economic territory, so that certain flows of goods which are in the scope of IMTS 2010 are not included in either import or export statistics of the compiling country. The strict definition of the special trade system is in use when the statistical territory comprises only the free circulation area, that is, the part within which goods “may be disposed of without customs restriction”. Consequently, in such a case, imports include only goods entering the free circulation area of a compiling country and exports include only goods leaving the free circulation area of a compiling country.

(c) *The relaxed definition of the special trade system* is in use when (a) goods that enter a country for, or leave it after, inward processing, as well as (b) goods that enter or leave an industrial free zone, are also recorded and included in international merchandise trade statistics

5. Classification: It is recommended that countries use the *Harmonized Commodity Description and Coding System* (HS) for the collection, compilation and dissemination of international merchandise trade statistics as suggested by the Statistical Commission at its twenty-seventh session (22 February to 3 March 1993).³ The

³ See Official Records of the Economic and Social Council, 1993, Supplement No. 6 (E/1993/26), para. 162 (d).

Harmonized System was adopted by the Customs Co-operation Council in June 1983, and the International Convention on the Harmonized System (HS Convention) entered into force on 1 January 1988 (HS 1988).⁴ In accordance with the preamble to the HS Convention, which recognized the importance of ensuring that the HS be kept up to date in the light of changes in technology or in patterns of international trade, the HS is regularly reviewed and revised. The fourth edition, HS 2007 which is a substantial revision from previous versions came into effect 1 January 2007.⁵ The *Standard International Trade Classification (SITC)*⁶ which was in the past used by countries in data compilation and reporting has been recognized for its continued use in analysis.⁷

6. Valuation: At its fifteenth session, in 1953, the Economic and Social Council, taking the view that trade statistics must reflect economic realities, recommended that the Governments of Member States of the United Nations, wherever possible, use transaction values in the compilation of their national statistics of external trade or, when national practices are based on other values, endeavor to provide supplementary statistical data based on transaction values (Economic and Social Council resolution 469 B (XV)). To promote the comparability of international merchandise trade statistics and taking into account the commercial and data reporting practices of the majority of countries, it is recommended that: (a) The statistical value of imported goods be a CIF-type value; (b) The statistical value of exported goods be an FOB-type value; however, countries are encouraged to compile FOB-type value of imported good as supplementary information. FOB-type values include the transaction value of the goods and the value of services performed to deliver goods to the border of the exporting country. CIF-type values include the transaction value of the goods, the value of services performed to deliver goods to the border of the exporting country and the value of the services performed to deliver the goods from the border of the exporting country to the border of the importing country.

7. Partner country: It is recommended that in the case of imports, the country of origin be recorded; and that in the case of exports, the country of last known destination be recorded. The country of origin of a good (for imports) is determined by rules of origin established by each country. The country of last known destination is the last country - as far as it is known at the time of exportation - to which goods are to be delivered, irrespective of where they have been initially dispatched to and whether or not, on their way to that last country, they are subject to any commercial transactions or other operations which change their legal status. Further, it is recommended that country of consignment be recorded for imports as the second partner country attribution, alongside country of origin; the compilation of export statistics on the country of consignment basis is only encouraged, depending on a country's needs and circumstances.

⁴ See Customs Co-operation Council, The Harmonized Commodity Description and Coding System, Brussels, 1989.

⁵ See World Customs Organization, Harmonized Commodity Description and Coding System, Fourth Edition (2007), Brussels 2005.

⁶ Standard International Trade Classification, Original, Statistical Papers, Series M No.10, Second Edition, 1951 (United Nations publication, Sales No. E.51.XVII.1); subsequent editions are published as United Nations publications under Series M No.34.

⁷ See Official Records of the Economic and Social Council, 1999, Supplement No. 4 (E/1993/24), para. 24 (c).

5. The commodity trade profiles (part 2 of this publication) are based on the detailed trade data as reported by countries (or areas) and published on UN Comtrade without any adjustments for conceptual differences such as differences in the trade system, valuation and partner attribution. The explanatory notes on UN Comtrade inform about the trade system, valuation and partner attribution of individual reporter countries (or areas). For more detailed information on national practices in the compilation and dissemination of international merchandise trade data please go to http://unstats.un.org/unsd/tradereport/introduction_MM.asp.

Sources and Presentation

6. Sources: Figures on the total imports and exports of countries (or areas) presented in world tables A and B are mainly taken from *International Financial Statistics* (IFS) published monthly by the International Monetary Fund (IMF) but also from other sources such as national publications and websites and the *United Nations Monthly Bulletin of Statistics Questionnaire* for the following countries: Andorra, Bermuda, Cayman Islands, Cuba, Gibraltar, Montenegro (beginning 2006), Niue, Occupied Palestinian Territory, Russian Federation (beginning 1994), Serbia and Montenegro (before 2006), Turkmenistan, Turks and Caicos, Tuvalu and Uzbekistan. Table A and B show data as available by end of October 2012.

7. The external trade conversion figures in world table C are derived from *International Financial Statistics* (IFS) published monthly by the International Monetary Fund (IMF). Table C shows data as available by end of October 2012.

8. The data presented in world tables G and H on the volume and unit value indices, and terms of trade for total exports and imports by countries (or areas) and regions are mostly derived from *International Financial Statistics* (IFS) published monthly by the International Monetary Fund (IMF), but also from other sources such as national publications and websites and the *United Nations Monthly Bulletin of Statistics Questionnaire*. Table G and H show data as available by end of October 2012.

9. The data presented in world tables I, J and K on unit value and volume indices and value for manufactured goods exports and fuel imports are obtained from sources such as national publications and websites and the *United Nations Monthly Bulletin of Statistics Questionnaire*. Table I, J and K show data as available by end of October 2012.

10. Figures presented in world tables D, E and F and the commodity tables and graphs in part 2 (commodity trade profiles) are calculated using UN Comtrade data (<http://comtrade.un.org/>). The data published on UN Comtrade are directly submitted by countries to the United Nations Statistics Division (UNSD) or received via international and regional partner organizations such as the Organization for Economic Co-operation and Development (OECD), the Food and Agriculture Organization of the United Nations (FAO), the International Trade Centre (ITC), the Caribbean Community (CARICOM) Secretariat, the Common Market of Eastern and Southern Africa (COMESA), the Economic Community of West African States (ECOWAS) and the UN regional commissions such as the Economic

Commission for Latin America and the Caribbean (ECLAC) and the Economic and Social Commission for Western Asia (ESCWA). Modifications to the received data are only made in the case the provided data is obviously incomplete (in particular in the case of unreported oil exports). Tables D, E and F and the commodity tables and graphs in part 2 use data as available on UN Comtrade by mid of November 2012.

11. The totals of imports and exports presented in table A on the one hand and table D on the other hand are not necessarily identical as IFS and UN Comtrade are based on different data collection systems with different aims, procedures, timetable and sources for update and maintenance. Nevertheless, discrepancies are in general minor and usually do not affect the overall information provided in these tables. A systematic comparison of the figures from both sources (which includes the description of known and relevant conceptual differences) is available at <http://unstats.un.org/unsd/trade/imts/annual%20totals.htm>. Overall, the discrepancy in the world total (world aggregate) of exports in table A and table D is less than 1.0 percent for all years shown, which is minor, given the differences between the two sources.

12. Estimates: For table A estimates for missing data are made in order to arrive to regional totals but are otherwise not shown. The estimation process is automated using quarterly year-on-year growth rates for the extrapolation of missing quarterly data (unless quarterly data can be estimated using available monthly data within the quarter). Regional totals containing estimated data are printed in bold. For world tables D, E and F and the commodity tables and graphs in part 2 (commodity trade profiles) data for missing reporters are estimated either through the extrapolation of the data of the two adjacent years, or, if this is not possible, through the use of the data reported by the trading partners (so called mirror data). Mirror statistics is also used in case the partner distribution or confidential data make it necessary to adjust the reported data. For tables H, I and J the missing data required for the calculation of regional totals are estimated using a variety of methods and additional data sources. All estimates are reviewed and adjusted where necessary.

13. Currency conversion: For data in this publication, conversion of values from national currencies into United States dollars is done by means of currency conversion factors based on official exchange rates. Values in currencies subject to fluctuation are converted into United States dollars using weighted average exchange rates specially calculated for this purpose. The weighted average exchange rate for a given currency for a given year is the component monthly factors, furnished by the International Monetary Fund in its IFS publication, weighted by the value of the relevant trade in each month; a monthly factor is the exchange rate (or the simple average rate) in effect during that month. These factors are applied to total imports and exports and to the trade in individual commodities with individual countries. The conversion factors applied to the data presented in table A are provided in table C. For data published on UN Comtrade the applied conversion factors are available in a country's metadata on UN Comtrade.

14. Classification: Essentially all countries follow the recommendation to report their detailed merchandise trade data according to the Harmonized Commodity Description and Coding System (HS) (see paragraph 4). In order to provide comparable time series data on UN Comtrade for all countries, the data reported in the latest HS classification is converted into earlier versions of the HS and to corresponding or earlier versions of the Standard International

Trade Classification (SITC).⁸ Beginning 2007 many countries (or areas) started to compile their trade data according to the 2007 edition of the HS classification⁹ and following its past practices the United Nations Statistics Division (UNSD) developed and implemented the required conversion tables. - The commodities in this publication are mostly presented according to the three-digit groups of SITC, Rev.3¹⁰ as the SITC groups provide a limited set of economically meaningful commodity categories. In addition, data according to SITC, Rev.3 is available for long time series.

15. Period: Generally, data refer to calendar years; however, for those countries which report according to some other reference year, the data are presented in the year which covers the majority of the reference year used by the country. However, for the latest years (from 2000 onwards) the data for all countries on UN Comtrade is available by calendar year except for Nepal for which the data refers to the fiscal year from mid of July of the previous to mid of July of the current year.

16. Country nomenclature: The naming of countries (or areas) in this publication follows in general the *United Nations Standard Country or Area Codes for Statistical Use*.¹¹ The names and composition of countries as reporter are changing over time. Also, countries rarely follow the identical nomenclature in the recording of partner information. For example where former geographical entities commonly referred to in national statistics have changed, countries may introduce the corresponding changes in their statistics at different times. In this publication wherever possible parts of the world have been designated by the names they currently bear and the trading partner attribution has been standardized. The following information is relevant for the data presented in this publication:

1. In this publication the data published under the heading China exclude those for Taiwan Province. Figures representing the trade with Taiwan Province, which may have been reported by any reporting country or area, are included in the grouping Asia. For statistical purposes, the data for China do not include those for Hong Kong Special Administrative Region and Macao Special Administrative Region.

2. Beginning 1 January 1997, the overseas departments of France were included in the statistical territory of France for the purposes of international trade statistics. Values on this basis have been provided by France for 1996 also, and values are published on that basis in this publication.

⁸ Detailed information on the data conversions used for UN Comtrade is available on the website of the United Nations Statistics Division at:

<http://unstats.un.org/unsd/trade/conversions/HS%20Correlation%20and%20Conversion%20tables.htm>.

⁹ See World Customs Organization, Harmonized Commodity Description and Coding System, Fourth Edition (2007), Brussels 2005.

¹⁰ Standard International Trade Classification, Revision 3, Statistical Papers, Series M No.34/Rev.3, (United Nations publication, Sales No. E.86.XVII.12). SITC, Revision 4 was accepted by the United Nations Statistical Commission at its thirty-seventh session in March 2006 (see Official Records of the Economic and Social Council, 2006, Supplement No. 4, (E/CN.3/2006/32), chapter III, para. 26 (b)). Yet it will require several years until a time series of data according to SITC, Revision 4 will be sufficiently long for publication.

¹¹ Standard Country or Area Codes for Statistical Use, Series M No. 49, Rev.4, (United Nations publication, Sales No. M.98.XVII.9). The latest information is available online at: <http://unstats.un.org/unsd/methods/m49/m49.htm>.

3. Beginning 1 January 1999, Belgium and Luxembourg provide their international trade statistics separately.

4. Beginning 1 January 2000, Botswana, Lesotho, Namibia, South Africa and Swaziland provide their international trade statistics separately. For periods prior to 1 January 2000, unless otherwise indicated, data are shown for the Southern African Customs Union.

5. On 4 February 2003, the official name of the Federal Republic of Yugoslavia has been changed to Serbia and Montenegro. Data provided for Yugoslavia prior to 1 January 1992 refer to the Socialist Federal Republic of Yugoslavia which was composed of six republics. Data referring to the years 1992 and later are attributed to Bosnia and Herzegovina, Croatia, Serbia and Montenegro, Slovenia and the Former Yugoslav Republic of Macedonia.

6. On 3 June 2006, Serbia and Montenegro formally dissolved into two independent countries: Montenegro and Serbia.

7. On 10 October 2010 the federation of the Netherlands Antilles was formally dissolved. The former Dutch Caribbean dependency ceased to exist with a change of the five islands' constitutional status. Under the new political structure, Curaçao and Sint Maarten (Dutch part) have become autonomous countries within the Kingdom of the Netherlands, joining Aruba, which gained the status in 1986. The islands of the remaining territorial grouping, alternately known as Bonaire, Sint Eustatius and Saba or the BES islands, are special municipalities and part of the country of the Netherlands and overseas territories of the European Union. For statistical purposes, the data for the Netherlands do not include the BES islands.

17. Regional groupings: This publication uses the regional groupings of the Millennium Development Goal (MDG) Indicator Database which are shown below (for their composition, see table A and <http://unstats.un.org/unsd/mdg/default.aspx>). The category 'Other' applies only to the presentation of data by trading partner and consists of Antarctica, Bunkers, Free Zones, 'Special Categories' (confidential partner) and Areas nes.:

- World
- Developed Countries
 - Asia-Pacific
 - Europe
 - North America
- South-eastern Europe
- Commonwealth of Independent States (CIS)
 - CIS Europe
 - CIS Asia
- Northern Africa
- Sub-Saharan Africa
- Latin America & the Caribbean
 - Caribbean
 - Latin America

Eastern Asia
Southern Asia
South-eastern Asia
Western Asia
Oceania
Other

18. Regional groupings for World Tables I, J and K: For technical reasons those tables retain the regional breakdown used in the earlier versions of the yearbook, namely:

- 1) Developed economies
 - Africa (South Africa)
 - America (United States and Canada)
 - Asia (Japan and Israel).
 - Europe (Andorra, Austria, Belgium, Denmark, Faeroe Islands, Finland, France, Germany, Gibraltar, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom)
 - Oceania (Australia and New Zealand)
- 2) Developing economies
 - Africa (Algeria, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Congo, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea Bissau, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Morocco, Mozambique, Namibia, Niger, Nigeria, Réunion, Rwanda, Saint Helena, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, Sudan, Swaziland, Togo, Tunisia, Uganda, United Republic of Tanzania, Western Sahara, Zambia, and Zimbabwe)
 - America (Anguilla, Antigua and Barbuda, Argentina, Aruba, Bahamas, Barbados, Belize, Bermuda, Bolivia, Brazil, British Virgin Islands, Cayman Islands, Chile, Colombia, Costa Rica, Cuba, Dominica, Dominican Republic, Ecuador, El Salvador, Falkland Islands, French Guiana, Greenland, Grenada, Guadeloupe, Guatemala, Guyana, Haiti, Honduras, Jamaica, Martinique, Mexico, Montserrat, Netherlands Antilles, Nicaragua, Panama, Paraguay, Peru, Saint Kitts-Nevis, Saint Lucia, Saint Pierre and Miquelon, Saint Vincent and the Grenadines, Suriname, Trinidad and Tobago, Turks and Caicos, Uruguay, and Venezuela)
 - Asia (Afghanistan, Armenia, Azerbaijan, Bahrain, Bangladesh, Bhutan, Brunei Darussalam, Cambodia, China, China Hong Kong SAR, China Macao SAR, Cyprus, Democratic People's Republic of Korea, Georgia, India, Indonesia, Iran, Iraq, Jordan, Kazakhstan, Kuwait, Kyrgyzstan, Lao People's Democratic Republic, Lebanon, Malaysia, Maldives, Mongolia, Myanmar, Nepal, Occupied Palestinian Territory, Oman, Pakistan, Philippines, Qatar, Republic of Korea, Saudi Arabia, Singapore, Sri Lanka, Syrian Arab Republic, Tajikistan, Thailand, Timor-Leste, Turkey, Turkmenistan, United Arab Emirates, Uzbekistan, Viet Nam, and Yemen)

- Europe (Bosnia Herzegovina, Croatia, Slovenia, Serbia and Montenegro, and The former Yugoslav Republic of Macedonia)
 - Oceania (American Samoa, Cook Islands, Fiji, Federated States of Micronesia, French Polynesia, Kiribati, Guam, Nauru, New Caledonia, Niue, Norfolk Island, Northern Mariana Islands, Marshall Islands, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu, and Wallis and Futuna Islands)
- 3) Other
- Eastern Europe (Albania, Bulgaria, Czech Republic, Hungary, Poland, Romania, and Slovakia)
 - European countries of the former USSR (Belarus, Estonia, Latvia, Lithuania, Republic of Moldova, Russian Federation and Ukraine)

19. Aggregations: All regional aggregations are calculated as the sum of their components. This also includes the regional and world totals presented in table A (in bold) which in earlier editions (before the 2008 edition) of this yearbook and in the tables currently published in the *United Nations Monthly Bulletin of Statistics* (MBS) are calculated by subtracting re-exports from the imports and exports.

20. Additional country groupings: The composition of the additional country groupings which are used in world table A is as follows:

ANCOM-Andean Common Market
Bolivia (Plurinational State of), Colombia, Ecuador and Peru

APEC-Asian-Pacific Economic Co-operation
Australia, Brunei Darussalam, Canada, Chile, China, Hong Kong Special Administrative Region of China, Indonesia, Japan, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Republic of Korea, Russian Federation, Singapore, Taiwan Province of China, Thailand, United States of America and Viet Nam

ASEAN-Association of South-East Asian Nations
Brunei Darussalam, Cambodia, Indonesia, Lao People's Democratic Republic, Malaysia, Myanmar, Philippines, Singapore, Thailand and Viet Nam

CACM-Central American Common Market
Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua

CARICOM-Caribbean Community and Common Market
Antigua and Barbuda, Bahamas (member of the Community only), Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Suriname, Trinidad and Tobago

COMESA-Common Market for Eastern and Southern Africa
Burundi, Comoros, Democratic Republic of the Congo, Djibouti, Egypt, Eritrea, Ethiopia, Kenya, Libya, Madagascar, Malawi, Mauritius, Rwanda, Seychelles, Sudan, Swaziland, Uganda, Zambia and Zimbabwe

ECOWAS - Economic Community of West African States
Benin, Burkina Faso, Cape Verde, Cote d'Ivoire, Gambia, Ghana, Guinea, Guinea-Bissau, Liberia, Mali, Niger, Nigeria, Senegal, Sierra Leone and Togo

EFTA - European Free Trade Association
Iceland, Liechtenstein, Norway and Switzerland

EMCCA – Economic and Monetary Community of Central Africa

Cameroon, Central African Republic, Chad, Congo, Equatorial Guinea and Gabon

EU-27 - European Union 27

Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Spain, Slovakia, Slovenia, Sweden and United Kingdom

EU-25 - European Union 25

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden and United Kingdom (EU15) plus Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia, and Cyprus

LAIA - Latin American Integration Association (formerly Latin American Free Trade Association)

Argentina, Bolivia (Plurinational State of), Brazil, Chile, Colombia, Cuba, Ecuador, Mexico, Paraguay, Peru, Uruguay and Venezuela (Bolivarian Republic of)

LDC - Least developed countries

Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of the Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, Sudan, Timor-Leste, Togo, Tuvalu, Uganda, United Republic of Tanzania, Vanuatu, Yemen and Zambia

MERCOSUR-Mercado Comun Sud-Americano

Argentina, Brazil, Paraguay and Uruguay

NAFTA-Northern American Free Trade Area

Canada, Mexico and United States of America

OECD-Organization for Economic Cooperation and Development

Australia, Austria, Belgium, Canada, Chile, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Republic of Korea, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, United Kingdom and United States of America

OPEC-Organization of Petroleum Exporting Countries

Algeria, Angola, Ecuador, Iran (Islamic Republic of), Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, United Arab Emirates and Venezuela (Bolivarian Republic of)

Description of world trade tables of part 1 (Tables A to K)

21. Total imports and exports by regions and countries or areas in U.S. dollars (Table A): The total value of world trade reached U.S. dollars 18.0 trillion in 2011, measured in terms of exports valued FOB at the border of the exporting country. This is an increase of 19.3 percent compared with the previous year. Table A provides a breakdown of this figure by country (or area) and also shows imports and the trade balance. For example, the biggest exporter in 2011 with exports of U.S. dollar 1,899 billion was China, followed by the United States with U.S. dollar 1,480 billion and Germany with U.S. dollar 1,475 billion. The United States was the biggest importer with imports of U.S. dollar 2,266 billion in 2011 which resulted in a trade deficit of U.S. dollar 785 billion, while Germany and China recorded trade surpluses of U.S. dollar 220 billion and 156 billion respectively.

22. Total imports and exports by countries or areas in national currency (Table B): This table contains totals of imports and exports and the trade balance of individual countries (or areas) in national currency.

23. External trade conversion factors (Table C): The conversion factors for imports and exports shown in table C are used to convert trade data expressed in terms of national currency to U.S. dollars (see paragraph 13 for details).

24. World exports by provenance and destination in U.S. dollars (Table D): This table provides a breakdown of the world exports by regions and countries (or areas) according to their provenance (origin) and destination, both for total of trade and detailed by individual SITC sections and aggregations of sections, groups, subgroups and basic headings of SITC (see below in this paragraph for details). For example, the table shows that in 2011 developed economies of Asia-Pacific, Europe and North America were the destination of 54.6 percent of world exports (U.S. dollar 9.7 trillion) and the origin of 51.8 percent of world exports (U.S. dollar 9.2 trillion).¹²

Aggregations of SITC, Rev. 3 codes	Description
0-9.....	Total trade
0 and 1.....	Food, beverages and tobacco
041-045.....	Cereals
2 and 4.....	Crude materials (excluding fuels), oils, fats
22.....	Oil seeds and, oleaginous fruit
26.....	Textile fibres
27.....	Crude fertilizers and minerals
28.....	Metalliferous ores and metal scrap
4.....	Animal and vegetable oils, fats and waxes
3.....	Mineral fuels and related materials
5.....	Chemicals
7.....	Machinery and transport equipment
781.2, 784.1, 785.1, 785.2 and 785.31....	Passenger road vehicles and their parts
6 and 8.....	Other manufactured goods
65.....	Textile yarn and fabrics
67.....	Iron and steel
68.....	Non-ferrous metals
691-695, 699 and 812.....	Other manufactured metal products
84.....	Clothing

25. Growth of world exports by provenance and destination (Table E): This table shows the growth of world exports in recent years up to the year 2011 by provenance (origin) and destination, for total exports and for a limited set of commodity classes. The table shows that the total exports of developed economies increased on average by 7.6 percent since 2000, which is significantly less than the average growth rate for the world (9.9 percent). The annual average rates of change in percentage terms given in this table have been uniformly calculated by the use of the compound interest formula.

¹² These percentages or shares of world trade are measured based on the trade between countries (or areas) which includes the trade of the countries within one region.

26. Structure of world exports by provenance and destination (Table F): This table shows the distribution (in percent) of exports by provenance (origin) and destination for total exports and a limited set of commodity classes as well as the commodity composition (in percent) of total exports by provenance (origin) and destination. For example, table F shows that the share of total exports of developed economies decreased from 65.1 percent in 2000 to 51.8 percent in 2011. While in 2009 the share of exports of Food, beverages and tobacco (SITC Section 0 and 1) and of Chemicals (SITC Section 5) peaked at 7.0 and 11.4 percent, respectively, they decreased in 2011 to 6.5 and 10.9. The share of Mineral fuels, lubricants and related materials (SITC Section 3) dropped from 17.4 percent in 2008 to 16.5 percent in 2011.

27. Indices of total exports and imports by countries or areas: Quantum and unit value indices and terms of trade in U.S. dollars (2000 = 100) (Table G): This table shows the volume and unit value (or price) indices for total exports and imports as well as the terms of trade and purchasing power of exports for individual countries or areas in U.S. dollars and with the year 2000 as base year.

28. Indices of total exports and imports by regions: Quantum and unit value indices and terms of trade in U.S. dollars (2000 = 100) (Table H): This table shows the volume and unit value indices for total exports and imports as well as the terms of trade by regions in U.S. dollars and with the year 2000 as base year. For example, the table shows that developed economies experienced a slight decrease in their terms of trade in 2011 as their import unit value index increased by more (from 144 in 2010 to 162) than their export unit value index (from 147 in 2010 to 163). Globally, export volume continued to increase in 2011, as it did in 2010 after a sharp decrease in 2009.

29. Indices and values of manufactured goods exports: Unit value and volume indices (2000 = 100) and value in thousand million U.S. dollars (Table I): This table presents the unit value and the volume indices and the value of exports of manufactured goods for most developed economies and some developing economies. Manufactured goods are defined here to comprise sections 5 through 8 of the SITC. Unit value indices are presented both in U.S. dollars and in national currency. The table shows that in 2011, the value of manufactured goods exports increased by 940 billion U.S. dollars to 9.2 trillion U.S. dollars (an increase of 11.3 percent). Although the volume index of manufactured goods exports increased in 2011 by only 2.8 percent, it reached a higher level than its previous 2008 peak.

30. Indices and values of fuel imports – Developed economies: Unit value and volume indices (2000 = 100) and value in thousand million U.S. dollars (Table J): This table presents the unit value and the volume indices and the value of fuels imports for most developed economies. Fuel comprises section 3 of the SITC. Unit value indices are presented both in U.S. dollars and in national currency. The table shows that the value of developed economies' fuel imports amounted to 1.7 trillion in 2011, up from 1.3 trillion in 2010. This increase in value of 31.8 percent is reflecting an increase in volume of 2.5 percent and an increase in average price by 28.6 percent, as indicated in the respective volume and unit value indices.

31. Some indicators on fuel imports - Developed economies (Table K): This table shows fuel imports as a percentage of total imports and exports, and the ratio of unit value indices of manufactured goods exports and fuel imports. The table shows that fuel imports as a share of total imports in developed economies continued increasing as in the previous year, reaching 17.9 percent in 2011 after falling to 14.6 percent in 2009. At the same time, the ratio of unit value indices of manufactured goods and fuel imports continued decreasing, indicating that the cost of fuel imports in terms of manufactured goods exports has increased. In 2011, this ratio was 46 after 55 in 2010 and suggests that the fuel purchasing power of manufactured goods exports is significantly below its level of 2000.

32. For the general note and footnotes, see the end of the tables. The most recent data for tables B, C, G, I, J and K are published on a monthly or quarterly basis in the *United Nations Monthly Bulletin of Statistics* (MBS).¹³ Slightly different versions of Table A containing quarterly and monthly data and table H containing quarterly data are published on a monthly or quarterly basis as table 34 and table 38 in the MBS.¹⁴ Updated, although different versions of Table D, are published as table 40, 41 and 42 in the July, September and November editions of the MBS.

Description of commodity tables and graphs of part 2

33. Part 2 contains detailed data (commodity trade profiles) for 3-digits groups of the *Standard International Trade Classification, Revision 3* (SITC).¹⁵ All SITC groups are covered except the following groups as these were poorly reported and contain many estimates which are not sufficiently explainable: SITC group 286, Ores and concentrates of uranium and thorium; SITC group 345, Coal, water or other producer gases; and SITC group 911, Postal packages not classified according to kind.

34. For certain commodities users will find spikes in growth rates and significant asymmetries between the total values of imports and exports. Reasons for these spikes can often be relatively easy identified (as caused i.e. by changes in the prices or classification changes) but the reasons for the asymmetries between the reported imports and exports are often less apparent.¹⁶ However, it was decided to retain the information on these commodities as the results shown are a reflection of the data provided by countries (the influence of any estimates contained in the data is not significant) and to leave it to the users to assess the usefulness of this information for their specific purposes.

¹³ The MBS is available as printed publication and its database can be accessed online at: <http://unstats.un.org/unsd/mbs/app/DataSearchTable.aspx>. In addition the tables are also available online at <http://unstats.un.org/unsd/trade/imts/analyticaltradetables.htm>.

¹⁴ The difference between table A in this publication and table 34 in the MBS relates to the calculation of regional aggregations (see paragraph 19). The volume indices in table H are calculated using the values of table A as input. The volume indices for some regions are therefore slightly different than the ones published in table 39 of the MBS.

¹⁵ Standard International Trade Classification, Revision 3, Statistical Papers, Series M No.34/Rev.3, (United Nations publication, Sales No. E.86.XVII.12).

¹⁶ It should be noted that most countries report their imports valued CIF and their exports valued FOB. Therefore, world trade measured in terms of exports is expected to be lower than world trade measured in terms of imports. This applies to the total of trade as well as all commodities and SITC groups.

35. The following tables and graphs appear for each SITC commodity group:
36. Imports and exports, 1997-2011, in current prices (Table 1): This table shows the values of imports and exports from 1997-2011 for the commodity group and the share of the commodity group on the SITC section to which it belongs and its share on world trade.
37. Top exporting and importing countries or areas in 2011 (Tables 2 and 3): These tables present the top 15 exporting and importing countries or areas in the order of magnitude based on exports or imports values for the year 2011. For each country (or area), the tables show the value of exports or imports in current U.S. dollar, the average growth rate over the period 2007-2011 (calculated using the compound interest formula), the annual growth rate for 2011, the share of world trade in 2011, and the cumulative share of world trade in 2011. In preparing these tables estimates were made for countries whose data were not yet available; the estimated values of exports and imports are shown in italic.
38. Annual growth rates of exports, 1997-2011 (Graph 1): This graph presents the annual growth rate of exports of the commodity group, the annual growth rate of exports of the SITC section to which the commodity group belongs and the annual growth rate of total exports over the last fifteen years. The annual growth rate of total exports comprises all SITC sections.
39. Trade balance by MDG Regions 2011 (Graph 2): This graph presents, for the year 2011, exports, imports and the trade balance by regions according to the regions used in the Millennium Development Goal (MDG) Indicator Database (for further information on country grouping by MDG regions, see paragraph 17).

Abbreviations and Explanation of symbols

Names of some countries (or areas) or groups of countries (or areas) and of some commodities or groups of commodities have been abbreviated. Exact titles of countries or commodities can be found in various editions of the following publications referred to in the introduction (see paragraphs 14 and 16):

- (i) Standard Country or Area Codes for Statistical Use
- (ii) Standard International Trade Classification (SITC)
- (iii) Harmonized Commodity Description and Coding System (HS)

In addition, the following abbreviations and symbols are used in this publication:

Not available.....	(na)

Disclaimer

The tables, graphs and text contained in part 2 of this publication are provided only for illustration and despite all efforts might contain errors. When using this data users are advised to verify the latest information on UN Comtrade which is the source of this data.

UN Comtrade Subscription information

UN Comtrade is (with the exception of tables A, B, C, G, H, I, J and K) the source of the data in this Volume II of the 2011 ITSY. UN Comtrade is available at <http://comtrade.un.org/>. All data can be viewed and up to 50,000 records per query can be downloaded for free. The use of additional features requires a subscription – for rates and subscription go to <https://unp.un.org/comtrade.aspx>.

2011 International Trade Statistics Yearbook

Volume II Trade by Commodity

Part 1 – World Trade Tables

- Total imports and exports by regions and countries or areas in U.S. dollars (Table A)
- Total imports and exports by countries or areas in national currency (Table B)
- External trade conversion factors (Table C)
- World exports by provenance and destination in U.S. dollars (Table D)
- Growth of world exports by provenance and destination (Table E)
- Structure of world exports by provenance and destination (Table F)
- Indices of total exports and imports by countries or areas (Table G)
- Indices of total exports and imports by regions (Table H)
- Indices and values of manufactured goods exports (Table I)
- Indices and values of fuel imports - Developed economies (Table J)
- Some indicators on fuel imports - Developed economies (Table K)

Total imports and exports by regions and countries or areas (Table A)

Imports CIF, exports FOB and balance: million U.S. dollars

Importations et exportations totales par régions et pays ou zones (Tableau A)

Importations CIF, exportations FOB, et balance : en millions de dollars E.-U.

Importations et exportations totales par régions et pays ou zones (Tableau A)

Importations CIF, exportations FOB, et balance: en millions de dollars E.-U. [suite]

General note:

Table A is based on data as available at the end of October 2012. An earlier version of this table has been published in Volume I of the 2011 ITSY which has been produced earlier this year. The totals of imports and exports presented in world trade table A and D are not necessarily identical as table A is mainly based on data of the IMF's International Financial Statistics (IFS) which is a different data collection system with different aims, procedures, timetable and sources for update and maintenance than UN Comtrade on which table D is based (see the introduction for details). Nevertheless, discrepancies between both tables are in general minor and usually do not affect the overall information provided. A systematic comparison of the figures from both sources (which includes the description of known and relevant conceptual differences) is available at <http://unstats.un.org/unsd/trade/imts/annual%20totals.htm>. Overall, the discrepancies in the world total or world aggregate of exports in table A and table D is less than 1.0 percent for all years shown, which is minor, given the differences between the two sources. Column "G/S" indicates the trade system: G = General Trade System; S = Special Trade System. For further information on sources and presentation of table A as well as for a brief table description please see the introduction, paragraphs 6 - 20 and paragraph 21.

- 1 This classification is intended for statistical convenience and does not, necessarily, express a judgement about the stage reached by a particular country in the development process.
- 2 Developed Economies of America, Europe, and the Asia-Pacific region.
- 3 Imports FOB.
- 4 Including the trade of the U.S. Virgin Islands and Puerto Rico but excluding shipments of merchandise between the United States and its other possessions (Guam and American Samoa). Data include imports and exports of non-monetary gold.
- 5 Beginning 2006, data for Serbia and Montenegro is reported separately.
- 6 Prior to 2008, special trade.
- 7 Imports exclude petroleum imported without stated value. Exports cover domestic exports.
- 8 Exports include gold.
- 9 Trade statistics exclude certain oil and chemical products.
- 10 Export and import values exclude trade in the processing zone.
- 11 Trade data include maquiladoras and exclude goods from customs-bonded warehouses. Total exports include revaluation and exports of silver.
- 12 Exports include petroleum products.
- 13 Excluding military goods, fissionable materials, bunkers, ships, and aircraft.

Remarque générale:

Tableau A est basé sur les données telles que disponible fin octobre 2012. Une version antérieure de ce tableau est publiée dans le volume I de l'annuaire 2011 ITSY qui a été produit plus tôt cette année. Les importations et exportations totales présentées dans les tableaux A et D ne sont pas nécessairement identiques du fait que le tableau A est basé principalement sur les données des Statistiques Financières Internationales (IFS) du FMI qui est un différent système de collecte des données avec des objectifs, des procédures, un calendrier et des sources de mise à jour et de maintenance différents de ceux de UN Comtrade sur lequel le tableau D est basé (voir l'introduction pour les détails). Toutefois, les écarts entre les deux tableaux sont en général mineurs et n'affectent pas substantiellement l'information fournie. Une comparaison systématique des données de ces deux sources (incluant une description des différences conceptuelles pertinentes connues) est disponible à <http://unstats.un.org/unsd/trade/imts/annual%20totals.htm>. En général, la différence entre les totaux des exportations mondiales présentés dans les tableaux A et D est inférieure à 1.0 pour cent pour chacune des années publiées, ce qui est mineur étant donné les différences entre les deux sources. La colonne "G/S" indique le système commercial : G= Système du Commerce Général ; S= Système du Commerce Spécial. Pour plus d'information sur les sources et la présentation du tableau A ainsi qu'une brève description, veuillez vous référer aux paragraphes 6-20 et 21 de l'introduction.

- 1 Cette classification est utilisée pour plus de commodité dans la présentation des statistiques et n'implique pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays donné.
- 2 Économies développées de l'Amérique, de l'Europe, et de la région Asie-Pacifique.
- 3 Importations FOB.
- 4 Y compris le commerce des Iles Vierges américaines et de Porto Rico mais non compris les échanges de marchandise, entre les Etats-Unis et leurs autres possessions (Guam et Samoa américaines). Les données comprennent les importations et exportations d'or non-monnaire.
- 5 Depuis début 2006, les données relatives à la Serbie et au Monténégro sont déclarées séparément.
- 6 Avant 2008, commerce special.
- 7 Non compris le pétrole brute dont la valeur des importations ne sont pas stipulée. Les exportations sont les exportations d'intérieur.
- 8 Les exportations comprennent l'or.
- 9 Les statistiques commerciales font exclusion de certains produits pétroliers et chimiques.
- 10 Les valeurs à l'exportation et à l'importation excluent le commerce de la zone de transformation.
- 11 Les statistiques du commerce extérieur comprennent maquiladoras et ne comprennent pas les marchandises provenant des entrepôts en douane. Les exportations comprennent la réévaluation et les données sur les exportations d'argent.
- 12 Exportations comprennent produits pétroliers.
- 13 À l'exclusion des marchandises militaires, des matières fissibles, des soutes, des bateaux, et de l'avion.

Total imports and exports by regions and countries or areas (Table A)

Imports CIF, exports FOB and balance: million U.S. dollars *[cont.]*

Importations et exportations totales par régions et pays ou zones (Tableau A)

Importations CIF, exportations FOB, et balance: en millions de dollars E.-U. *[suite]*

- | | | | |
|----|---|----|--|
| 14 | Year ending 20 March of the year stated. | 14 | Année finissant le 20 mars de l'année indiquée. |
| 15 | Data include oil and gas. The value of oil exports and total exports are rough estimates based on information published in various petroleum industry journals. | 15 | Les données comprennent le pétrole et le gaz. La valeur des exportations de pétrole et des exportations totales sont des évaluations grossières basées sur l'information publiée à divers journaux d'industrie de pétrole. |
| 16 | Imports and exports net of returned goods. The figures also exclude Judea and Samaria and the Gaza area. | 16 | Importations et exportations nets, ne comprenant pas les marchandises retournées. Sont également exclues les données de la Judée et de Samaria et ainsi que la zone de Gaza. |
| 17 | Year ending 30 September of the years stated. | 17 | Année finissant le 30 septembre de l'année indiquée. |
| 18 | Data refer to total exports less petroleum exports of Asia Middle East countries where petroleum, in this case, is the sum of SITC groups 333, 334 and 335. | 18 | Les données se rapportent aux exportations totales moins les exportations pétrolières de Moyen-Orient d'Asie. Dans ce cas, le pétrole est la somme des groupes CTCI 333, 334 et 335. |
| 19 | The figures for the country groupings aim to always reflect the membership of the grouping of the latest year published. | 19 | Les données pour les regroupements de pays visent à toujours refléter la composition des regroupements de la dernière année publiée. |
| 20 | Excluding intra-EU trade. | 20 | Non compris le commerce d'intra-UE. |

Total imports and exports by countries or areas (Table B)

Imports CIF, exports FOB and balance: millions of national currency [cont.]

Importations et exportations totales par pays ou zone (Tableau B)

Importations CIF, exportations FOB, et balance : en millions de monnaie nationale [suite]

General note:

This table contains totals of imports and exports of countries or areas which report data in national currency. Countries that are not included in this table may report their trade in US dollars and are shown in Table A. Export and import values are as compiled by the International Monetary Fund (IMF) except for Andorra, Bermuda, Cayman Is., Cuba, Gibraltar, Montenegro, Niue, Occupied Palestinian Territory, Russian Federation (beginning 1994), Serbia and Montenegro, Turkmenistan, Turks and Caicos, Tuvalu and Uzbekistan.

Column "G/S" indicates the trade system: G = General Trade System; S = Special Trade System. For further information on sources and presentation as well as for a brief table description please see the introduction, paragraphs 6-20 and 22.

- 1 East Caribbean dollar.
- 2 Trade statistics exclude certain oil and chemical products.
- 3 Comptoirs Francais du Afrique franc pegged to the euro at CFAF 655.957 per euro.
- 4 Imports FOB.
- 5 Prior to January 2008, data for Cyprus are in pounds.
- 6 Prior to January 2011, data for Estonia are in krooni.
- 7 Excluding intra-EU trade.
- 8 In July 2007 the Ghanaian cedi (GHC) was redenominated and our time series were adjusted accordingly. The new Ghana cedi (GHS) is equal to 10,000 old Ghanaian cedis (1 GHS = 10,000 GHC).
- 9 Excluding military goods, fissionable materials, bunkers, ships, and aircraft.
- 10 Prior to January 2008, data for Malta are in liri.
- 11 Beginning 2006, data for Serbia and Montenegro is reported separately.
- 12 Exports include petroleum products.
- 13 Prior to January 2009, data for Slovakia are in koruny.
- 14 Foreign trade data refer to South Africa only, excluding intra-trade of the Southern African Common Customs Area.
- 15 Exports include gold.
- 16 Including the trade of the U.S. Virgin Islands and Puerto Rico but excluding shipments of merchandise between the United States and its other possessions (Guam and American Samoa). Data include imports and exports of non-monetary gold.

Remarque générale:

Cette table contient des totaux d'importations et d'exportations les pays ou les secteurs qui rapportent des données dans la monnaie nationale. Les pays qui ne sont pas inclus dans cette table peuvent rapporter leurs échanges des dollars d'USA et sont montrés dans le Tableau A. Export et les valeurs d'importation sont comme compilé par le Fonds monétaire international (FMI) excepté Andorre, les Bermudes, Iles Caïmanes, le Cuba, la Fédération Russe (commençant 1994), Gibraltar, Montenegro, Nioué, Serbie et Monténégro, Territoire Palestinien Occupé, Turkmenistan, Iles Turque Caicos, Tuvalu et Ouzbékistan.

La colonne "G/S" indique le système commercial : G= Système du Commerce Général ; S= Système du Commerce Spécial. Pour plus d'information sur les sources et la présentation ainsi qu'une brève description du tableau, veuillez vous référer aux paragraphes 6-20 et 22 de l'introduction.

- 1 Dollar des caraïbes orientales.
- 2 Les statistiques commerciales font exclusion de certains produits pétroliers et chimiques.
- 3 Comptoirs Français du Afrique franc est chevillé à l'euro à CFAF 655,957 par euro.
- 4 Importations FOB.
- 5 Avant janvier 2008, les données de Chypre étaient en livres.
- 6 Avant janvier 2011, les données de l'Estonie étaient en krooni.
- 7 Non compris le commerce d'intra-UE.
- 8 Le 1er juillet 2007 le cedi ghanéen (GHC) a été redenominé et nos séries temporelles ont été réajustées afin d'en tenir compte. Le nouveau cedi ghanéen (GHS) vaut 10.000 ancien cedis (1 GHS=10.000 GHC).
- 9 À l'exclusion des marchandises militaires, des matières fissibles, des soutes, des bateaux, et de l'avion.
- 10 Avant janvier 2008, les données de Malte étaient en lire.
- 11 Depuis début 2006, les données relatives à la Serbie et au Monténégro sont déclarées séparément.
- 12 Exportations comprennent produits pétroliers.
- 13 Avant janvier 2009, les données de Slovaquie étaient en couronnes.
- 14 Les données de commerce extérieur se rapportent à l'Afrique du Sud seulement, à l'exclusion de intra-commerçant de la région commune africaine méridionale de douane.
- 15 Les exportations comprennent l'or.
- 16 Y compris le commerce des Iles Vierges américaines et de Porto Rico mais non compris les échanges de merchandise, entre les Etats-Unis et leurs autres possessions (Guam et Samoa américaines). Les données comprennent les importations et exportations d'or non-monétaire.

External trade conversion factors (Table C)

Imports, exports: US dollars per national currency [cont.]

Facteurs de conversion pour le commerce extérieur (Tableau C)

Importations, exportations : monnaie nationale en dollars É.-U. [suite]

General note:

Trade conversion factors are weighted averages of monthly or quarterly exchange rates, the weights being the corresponding monthly or quarterly values of imports and exports. The exchange rates are as compiled by the IMF or provided by the country concerned. The conversion factors shown in this table are used to obtain trade data in terms of US dollars.

For further information on sources and presentation, as well as for a brief table description, please see the introduction, paragraphs 6-20 and 23.

- 1 The conversion factors are calculated for each country of euro zone separately and may vary due to differences in relative weights of monthly or quarterly values of imports and exports.
- 2 The conversion factors are not trade weighted.
- 3 Comptoirs Français du Afrique franc pegged to the euro at CFAF 655.957 per euro.
- 4 Prior to January 2008, data for Cyprus are in pounds.
- 5 East Caribbean dollar.
- 6 Prior to January 2011, data for Estonia are in krooni.
- 7 In July 2007 the Ghanaian cedi (GHC) was redenominated and our time series were adjusted accordingly. The new Ghana cedi (GHS) is equal to 10,000 old Ghanaian cedis (1 GHS = 10,000 GHC).
- 8 Prior to January 2008, data for Malta are in liri.
- 9 Prior to January 2009, data for Slovakia are in koruny.

Remarque générale :

Les facteurs de conversion pour le commerce extérieur sont les moyennes pondérées des taux de change mensuelles ou trimestrielles. Les coefficients de pondération sont les valeurs mensuelles ou trimestrielles correspondantes des importations ou des exportations. Les taux de change sont les taux calculés par le secrétariat du FMI ou fournis par le pays. Les facteurs de conversion montrés dans cette table sont employés pour obtenir les données commerciales en termes de dollars de E.U..

Pour plus d'information sur les sources et la présentation ainsi qu'une brève description du tableau, veuillez vous référer aux paragraphes 6-20 et 23 de l'introduction.

- 1 Les facteurs de conversion sont calculés pour chaque pays d'euro zone séparément et peuvent varier en raison des différences dans les pondération relatifs de valeurs mensuelles ou trimestrielles des importations et des exportations.
- 2 Les facteurs de conversion ne sont pas pondérés.
- 3 Comptoirs Français du Afrique franc est chevillé à l'euro à CFAF 655,957 par euro.
- 4 Avant janvier 2008, les données de Chypre étaient en livres.
- 5 Dollar des caraïbes orientales.
- 6 Avant janvier 2011, les données de l'Estonie étaient en krooni.
- 7 Le 1er juillet 2007 le cedi ghanéen (GHC) a été redénominé et nos séries temporelles ont été réajustées afin d'en tenir compte. Le nouveau cedi ghanéen (GHS) vaut 10.000 ancien cedis (1 GHS=10.000 GHC).
- 8 Avant janvier 2008, les données de Malte étaient en lire.
- 9 Avant janvier 2009, les données de Slovaquie étaient en couronnes.

World exports by provenance and destination (Table D)

General Note:

Table D is based on data of UN Comtrade as of mid November 2012. An earlier version of this table has been published in Volume I of the 2012 ITSY which has been produced earlier this year. The totals of imports and exports presented in table A and D are not necessarily identical as table A is mainly based on the data of the IMF's International Financial Statistics (IFS) which is a different data collection system with different aims, procedures, timetable and sources for update and maintenance than UN Comtrade (see the introduction for details). Nevertheless, discrepancies between both tables are in general minor and usually do not affect the overall information provided. A systematic comparison of the figures from both sources (which includes the description of known and relevant conceptual differences) is available at <http://unstats.un.org/unsd/trade/imts/annual%20totals.htm>.

Overall, the discrepancies in the world total or world aggregate of exports in table A and table D is less than 1.0 percent for all years shown, which is minor, given the differences between the two sources. For further information on sources and presentation of table D as well as for a brief table description please see the introduction, paragraphs 6 - 20 and paragraph 24.

- 1/ Exports for which country of destination is not available are included in the totals for the 'World' and in region "Others" (see footnote number 4 for further explanation).
- 2/ This classification is intended for statistical convenience and does not, necessarily, express a judgment about the stage reached by a particular country in the development process.
- 3/ Section 9 of the SITC, which comprises commodities and transactions not classified elsewhere, is included in the total trade but is not shown.
- 4/ The region "Others" as destination for exports contains the following trading partners: Antarctica, bunkers, free zones, confidential and not elsewhere specified countries
- 5/ The value for 2011 is significantly underestimated, as incomplete data pertaining to SITC Section 3 (Mineral fuels, lubricants and related materials) for one country was used in its calculation.

Exportations mondiales par provenance et destination (Tableau D)

Remarque générale :

Tableau D est basée sur les données de UN Comtrade telles que disponible mi-novembre 2012. Une version antérieure de cette table est publiée dans le volume I de l'annuaire 2011 ITSY qui a été produit plus tôt cette année. Les importations et exportations totales présentées dans les tableaux A et D ne sont pas nécessairement identiques du fait que le tableau A est basé principalement sur les données des Statistiques Financières Internationales (IFS) du FMI qui est un différent système de collecte des données avec des objectifs, des procédures, un calendrier et des sources de mise à jour et de maintenance différents de ceux de UN Comtrade sur lequel le tableau D est basé (voir l'introduction pour les détails). Toutefois, les écarts entre les deux tableaux sont en général mineurs et n'affectent pas substantiellement l'information fournie. Une comparaison systématique des données de ces deux sources (incluant une description des différences conceptuelles pertinentes connues) est disponible à <http://unstats.un.org/unsd/trade/imts/annual%20totals.htm>.

En général, la différence entre les totaux des exportations mondiales présentés dans les tableaux A et D est inférieure à 1.0 pour cent par chacune des années publiées, ce qui est mineur étant donné les différences entre les deux sources. Pour plus d'information sur les sources et la présentation du tableau D ainsi qu'une brève description, veuillez vous référer aux paragraphes 6-20 et 24 de l'introduction.

- 1/ Pour la composition des régions géographiques, se référer à <http://unstats.un.org/unsd/mdg/default.aspx>
- 2/ Cette classification est utilisée pour plus de commodité dans la présentation des statistiques et n'implique pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays donné.
- 3/ Section 9 de la CTCI, qui représente les articles et transactions non classés ailleurs est comprise dans le commerce total mais n'est pas présentée séparément dans ce tableau.
- 4/ La région "Autres" comme destination des exportations comprend les partenaires commerciaux suivants: Antarctique, combustibles de soute, zones franches, partenaires confidentiels ou non spécifiés ailleurs
- 5/ La valeur pour 2011 est considérablement sous-estimée suite à l'inclusion de données incomplètes d'un pays correspondant à la catégorie 3 de la CTCI ("Combustibles minéraux, lubrifiants et produits annexes").

Growth and structure of world exports by provenance and destination (Tables E and F)

Croissance et structure des exportations mondiales par provenance et destination (Tableaux E et F)

General note

The figures in tables E and F are derived from the data in Special Table D.

The commodity classification is in accordance with the United Nations' Standard International Trade Classification (SITC), Revision 3, except for countries which report trade data only in terms of the SITC, Revision 2, or the SITC, Revised.

The data approximate total exports of all countries and areas of the world. They are based on official export figures converted, where necessary, to U.S. dollars according to conversion factors published in Table C for each country in this volume. Where official figures are not available, estimates based on the imports reported by partner countries and on other subsidiary data are used. Some official national data have been adjusted (a) to approximate the commodity groupings of the SITC and (b) to approximate calendar years.

The data include special category (confidential) exports, ships' stores and bunkers and exports of minor importance, the destination of which cannot be determined. These data are included in the world totals for each commodity group and in total exports, and are available separately in region "Others"

- 1/ For the country composition of geographical regions, please refer to <http://mdgs.un.org/unsd/mdg/Host.aspx?Content=Data/RegionalGroupings.htm>
- 2/ This classification is intended for statistical convenience and does not, necessarily, express a judgment about the stage reached by a particular country in the development process.
- 3/ Section 9 of the SITC, which comprises commodities and transactions not classified elsewhere, is included in the total trade but is not shown separately in this table.
- 4/ The region "Others" as destination for exports contains the following trading partners: Antarctica, bunkers, free zones, confidential and not elsewhere specified countries

Remarque générale

Les données des tables E et F sont dérivées de celles publiées dans le Tableau Spécial D.

La classification par marchandise utilisée est la Classification Type pour le Commerce International (CTCI), Révision 3, en dehors des pays qui rapportent exclusivement les données du commerce en accord avec la CTCI, Révision 2, ou la CTCI, Révisée.

Les données sont une estimation des exportations totales de tous les pays et régions du monde. Elles sont basées sur les chiffres des exportations officielles nationales convertis en dollars E.-U. selon les facteurs de conversion pour chaque pays publiés dans le Tableau C de ce volume. Quand les chiffres officiels ne sont pas disponibles, des estimations basées sur les importations rapportées par les pays partenaires ou sur d'autres données subsidiaires sont utilisées. Quelques données officielles nationales ont été ajustées afin

(a) qu'elles correspondent aux groupes des marchandises de la CTCI et

(b) qu'elles correspondent aux années civiles.

Les données comprennent les exportations de 'special category' (confidentielles), les approvisionnements des navires et combustible de soute et autres exportations de moindre importance dont la destination n'a pu être déterminée. Ces données sont comprises dans le total pour chaque groupe de marchandise et dans les exportations totales, et sont disponibles séparément dans la région "Autres".

- 1/ Pour la composition des régions géographiques, se référer à <http://mdgs.un.org/unsd/mdg/Host.aspx?Content=Data/RegionalGroupings.htm>
- 2/ Cette classification est utilisée pour plus de commodité dans la présentation des statistiques et n'implique pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays donné.
- 3/ Section 9 de la CTCI, qui représente les articles et transactions non ailleurs est comprise dans le commerce total mais n'est pas présentée séparément dans ce tableau.
- 4/ La région "Autres" comme destination des exportations comprend les partenaires commerciaux suivants: Antarctique, combustibles de soute, zones franches, partenaires confidentiels ou non spécifiés ailleurs.

Purchasing Power of Exports	Pouvoir d'achat des export.

General Note:

The volume and unit value/price indices are as compiled by countries. They show the changes in the volume (volume index) and the average price (unit value/price index) of total imports and exports. Using these indices UNSD calculates the terms of trade indices (export unit value/price indices divided by the corresponding import unit value/price indices), and the index of the purchasing power of exports (the terms of trade multiplied by the volume index of exports). Country footnotes which appear in Special Table B of this volume also apply to the country indices published in this table. For further information on sources and presentation as well as for a brief table description please see the introduction, paragraphs 6-20 and 27.

- 1 Price indices.
- 2 See explanatory notes pertaining to China, Hong Kong SAR and China, Macao SAR on page viii.
- 3 Index numbers exclude ships.
- 4 Excluding military goods.

Remarque générale :

Les indices du volume et les indices de la valeur unitaire/prix sont comme compilées par les pays. Ils indiquent les variations des quantités (indice du volume) et des prix moyens (indice de la valeur unitaire/prix) des importations ou exportations totales. Utilisant ces indices la Division de Statistique des Nations Unies calcule les indices des termes de l'échange (sont obtenus en divisant les indices de la valeur unitaire à l'exportation par ceux à l'importation), et l'indice du pouvoir d'achat des exportations (sont obtenu en multipliant l'indice des termes de l'échange du volume des exportations). Les notes se rapportant aux pays qui apparaissent dans le Tableau Spécial B de ce tome s'appliquent aussi aux indices de ce tableau. Pour plus d'information sur les sources et la présentation ainsi qu'une brève description du tableau, veuillez vous référer aux paragraphes 6-20 et 27 de l'introduction.

- 1 Les indices des prix.
- 2 Voir les notes explicatives concernant Chine, Hong Kong RAS et Chine, Macao RAS à la page viii.
- 3 Les indices ne comprennent pas de navires.
- 4 Non compris les importations des économats militaires.

Source: Compilé par la Division de statistique des Nations Unies à partir de publications internationales et nationales. Pour la composition des régions, voir tableau special A du présent numéro. Pour plus d'information sur les sources et présentation ainsi qu'une brève description de la table, veuillez voir référer aux paragraphes 6-20 et 28 de l'introduction.

- 1 Regional aggregates are current period weighted.
- 2 This classification is intended for statistical convenience and does not, necessarily, express a judgement about the stage reached by a particular country in the development process.
- 3 Index does not include data of the major oil producing countries.
- 4 Unit value index of exports divided by unit value index of imports.
- 5 Volume indices are derived from value data and unit value indices. They are base period weighted.

- 1 Les totaux généraux ont été pondérés selon la période en cours.
- 2 Cette classification est utilisée pour plus de commodité dans la présentation des statistiques et n'implique pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays donné.
- 3 L'indice ne comprend pas les données des principaux pays producteurs de pétrole.
- 4 Indice de la valeur unitaire des exportations divisé par l'indice de la valeur unitaire des importations.
- 5 Les indices de volume proviennent des données sur la valeur et des indices de la valeur unitaire. Ils sont pondérés selon la période de base.

Tables I, J and K

General note:

Manufactured goods are here defined to comprise sections 5 through 8 of the Standard International Trade Classification (SITC). These sections are: chemicals and related products, manufactured goods classified chiefly by material, machinery and transport equipment and miscellaneous manufactured articles. Fuels are here defined to comprise all the products in section 3 of the SITC. These products are: coal, coke and briquettes, petroleum, petroleum products and related materials gas and electric current. In 1990 the exports of manufactured goods by all Developed' and Developing' economies accounted for approximately 96 per cent of world exports of manufactured goods. The unit value indices are obtained from national sources, except those of a few countries which the United Nations Statistics Division compiles using their quantity and value figures. For countries that do not compile indices for manufactured goods exports and fuel imports conforming to the above definition, sub-indices are aggregated to approximate an index of SITC sections 5-8 and SITC section 3 respectively. Unit value indices obtained from national indices are rebased, where necessary, so that 2000=100. Indices in national currency are converted into U.S. dollars using conversion factors obtained by dividing the weighted average exchange rate of a given currency in the current period by the weighted average exchange rate in the base period. All aggregate unit value indices are current period weighted. The indices in SDRs are calculated by multiplying the equivalent aggregate indices in U.S. dollars by conversion factors obtained by dividing the SDR/\$US exchange rate in the current period by the rate in the base period. The quantum indices are derived from the value data and the unit value indices. All aggregate quantum indices are base period weighted. The figures in Table K are calculated from those prepared for Tables I and J. Total imports and exports used in the calculations are, in general, those published in Table A.

- 1/ Excludes trade of the countries of Eastern Europe and the former USSR.
- 2/ Beginning 1989, derived from price indices; national unit value index is discontinued.
- 3/ Series linked at 1988 and 1995 by factors calculated by the United Nations Statistics Division.
- 4/ Data prior to January 1991, pertain to the territorial boundaries of the Federal Republic of Germany and the former German Democratic Republic prior to 3 October, 1990 (see explanatory notes on data pertaining to Germany in the introduction).
- 5/ For the years beginning 1981, indices are calculated by the United Nations Statistics Division; for Netherlands beginning 1988, for Belgium 1988-1992, and for Switzerland 1988 to 1995.
- 6/ Derived from sub-indices using current weights; for Netherlands from 1989 to 1996.
- 7/ Industrial product.

Remarque générale:

Les produits manufacturés comprennent les sections 5 à 8 de la Classification type pour le commerce international (CTCI). Ces sections sont produits chimiques et produits connexes, articles manufacturés classés principalement d'après la matière première, machines et matériel de transport et articles manufacturés divers. Les produits énergétiques comprennent tous les produits appartenant à la section 3 de la CTCI. Ces produits sont huiles, cokes et briquettes, pétrole, produits dérivés du pétrole et produits connexes, gaz et énergie électrique. En 1990, les exportations des produits manufacturés par tous les 'Economies développées' et les 'Economies en voie de développement' représentaient approximativement 96 pourcent de l'ensemble des exportations mondiales des produits manufacturés. Les indices de la valeur unitaire sont obtenus de sources nationales, à l'exception de quelque pays pour lesquels la Division de Statistique des Nations Unies calcule ces indices en utilisant les chiffres de la valeur et du volume fournis par ces pays. Pour les pays ne calculant pas leurs indices des exportations des produits manufacturés et importations des produits énergétiques selon la définition décrite ci-dessus les sous-indices sont agrégés en un indice qui se rapproche les sections 5 à 8 de la CTCI et la section 3 de la CTCI respectivement. Les indices en monnaie nationale sont convertis en dollars des E.-U. en les multipliant par un facteur de conversion obtenu en divisant le taux de change courant, moyenne pondérés, d'une monnaie donnée par celui de la période de base. Tous les agrégés des indices de la valeur unitaire, sont à coefficients de pondération correspondant à la période indiquée. Les indices en DTS sont calculés en multipliant les indices totaux équivalents en dollars E.-U. par un facteur de conversion obtenu en divisant le taux de change courant du DTS/\$E-U d'une monnaie donnée par celui de la période de base. Les indices du quantum sont calculés à partir de chiffres de la valeur et les indices de la valeur unitaire. Tous les agrégés des indices du quantum sont à coefficients de pondération correspondant à la période en base. Les chiffres dans le tableau K sont calculés selon des données préparées pour les tableaux I et J. Les totaux des importations et exportations utilisées dans les calculs sont, en général, celles publiées dans le Tableau A.

- 1/ Non compris le commerce des pays de l'Europe de l'Est et l'ancienne URSS.
- 2/ A partir de 1989, calculés à partir des indices des prix; l'indice de valeur unitaire national est discontinué.
- 3/ Les séries sont enchaînées à 1988 et à 1995 par facteurs calculés par la Division de Statistique des Nations Unies.
- 4/ Les données relatives à la période précédant janvier 1991 correspondent aux limites territoriales de la République Fédérale d'Allemagne antérieure au 3 octobre 1990 (Aussi voir les notes explicatives sur les données concernant l'Allemagne dans l'introduction).
- 5/ Pour les années à partir de 1981, les indices sont calculés par la Division de Statistique des Nations Unies; pour les Pays-Bas à partir de 1988, pour la Belgique 1988-1992, et pour la Suisse 1988-1995.
- 6/ Calculés à partir de sous-indices à coefficients de pondération correspondant à la période en cours; pour les Pays-Bas de 1989 à 1996.
- 7/ Produit industriel.

2011 International Trade Statistics Yearbook

Volume II Trade by Commodity

Part 2 – Commodity Trade Profiles

- Food and live animals (SITC Section 0)
- Beverages and tobacco (SITC Section 1)
- Crude materials, inedible, except fuels (SITC Section 2)
- Mineral fuels, lubricants and related materials (SITC Section 3)
- Animal and vegetable oils, fats and waxes (SITC Section 4)
- Chemicals and related products, n.e.s. (SITC Section 5)
- Manufactured goods classified chiefly by material (SITC Section 6)
- Machinery and transport equipment (SITC Section 7)
- Miscellaneous manufactured articles (SITC Section 8)
- Commodities and transactions not classified elsewhere in SITC (SITC Section 9)

**Food and live animals
(SITC Section 0)**

001 Live animals other than animals of division 03

From 2007 to 2011, the value (in current prices) of exports of live animals (SITC group 001) increased on average by 7.8 percent and amounted to 21.3 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 7.2 percent to 20.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of live animals (SITC group 001) accounted for 1.8 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

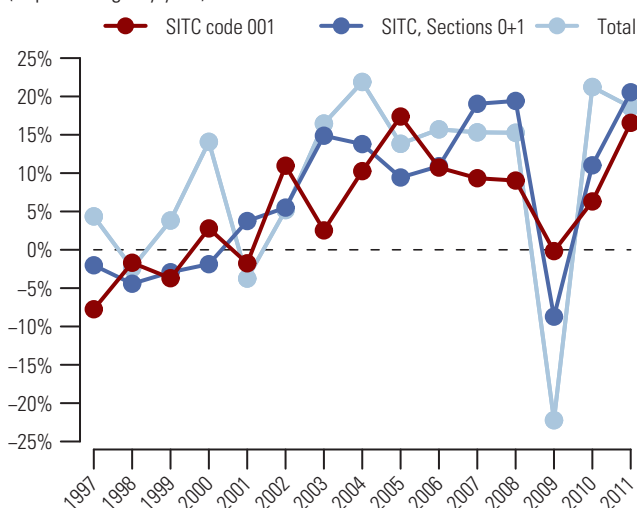

France, Netherlands and Germany were the top exporting countries in 2011 (see table 2). They accounted respectively for 12.4, 12.3 and 7.7 percent of world exports. USA accounted for 11.4 percent of world imports and was the top importing country. Other major importing countries were Italy and Germany (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of the trade in live animals (SITC 001). In 2011, its exports and imports amounted respectively to 12.1 bln US\$ and 9.7 bln US\$, resulting in a trade surplus of 2.4 bln US\$. Sub-Saharan Africa and Developed Asia-Pacific recorded surpluses amounting to 1.3 bln US\$ and 0.8 bln US\$, respectively. A deficit of 2.5 bln US\$ was recorded by Western Asia.

Meat of bovine animals, fresh, chilled or frozen 011

After a decline of 11.2 percent in 2009, the value (in current prices) of exports of meat of bovine animals, fresh, chilled or frozen (SITC group 011) recovered in 2010 and increased even further in 2011 by 18.9 percent to reach its peak of 38.7 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 17.0 percent to amount to 35.4 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was below the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent but slightly above the increase in total world exports of 18.6 percent (see graph 1). Exports of meat of bovine animals, fresh, chilled or frozen (SITC group 011) accounted for 3.3 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

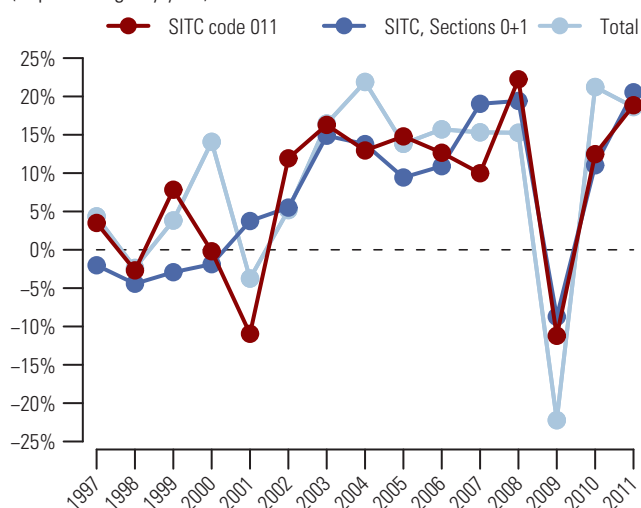

USA, Australia and Brazil were the top exporting countries in 2011 (see table 2). They accounted respectively for 11.8, 11.3 and 10.8 percent of world exports. Italy, USA and Japan were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in fresh, chilled or frozen bovine meat (SITC group 011). In 2011, its exports and imports were valued respectively at 14.4 bln US\$ and 15.1 bln US\$, resulting in a trade deficit of 0.7 bln US\$. Top trade deficits were also recorded by Eastern Asia (-2.6 bln US\$), Western Asia (-2.3 bln US\$) and Commonwealth of Independent States (-2.0 bln US\$). Latin America and the Caribbean and Developed Asia-Pacific recorded trade surpluses amounting respectively to 6.1 bln US\$ and 3.3 bln US\$.

012 Other meat, meat offal, fresh, chilled, frozen (for human)

In 2011, the value (in current prices) of exports of other meat, meat offal, fresh, chilled or frozen (SITC group 012) increased by 20.7 percent and reached its peak of 70.9 bln US\$ (see tables 1 and 2). Similar to exports, imports also reached a new peak of 68.3 bln US\$ in 2011 following an increase of 20.0 percent (see tables 1 and 3). In 2011, the increase in exports in this product group was higher than both increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent (see graph 1). Exports of other meat, meat offal, fresh, chilled or frozen (SITC group 012) accounted for 6.1 percent of world exports of SITC sections 0+1 and 0.4 percent of total world exports in 2011 (see table 1).

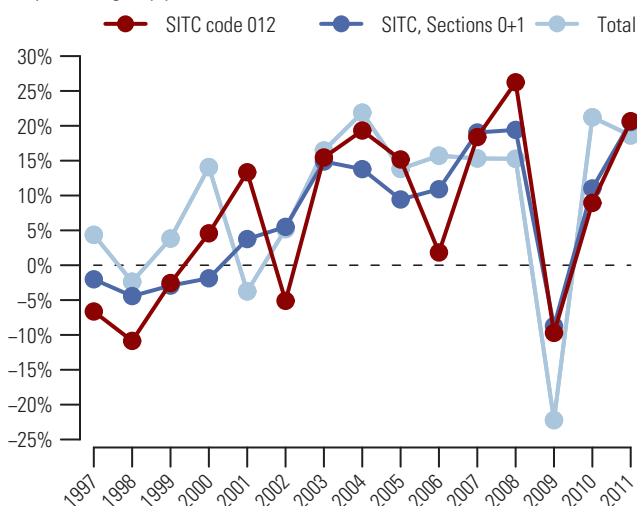

In 2011, USA was the top exporting country with 14.7 percent of world exports (see table 2). Other major exporting countries were Brazil and Germany, respectively with 12.5 and 9.8 percent of world exports. Japan, Germany and China, Hong Kong SAR were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a significant share of trade in other meat, meat offal, fresh, chilled or frozen (SITC group 012). In 2011, its exports and imports amounted respectively to 35.8 bln US\$ and 28.2 bln US\$ resulting in a trade surplus of 7.6 bln US\$. Top trade surpluses were also recorded by Developed North America (+10.6 bln US\$) and Latin America and the Caribbean (+7.1 bln US\$). A deficit of 7.4 bln US\$ was recorded by Eastern Asia.

Meat, edible offal, salted, in brine, dried, etc; flours, meals 016

From 2007 to 2011, despite a decline of 12.3 percent in 2009, the value (in current prices) of exports of meat, edible offal, salted, in brine, dried, etc; flours, meals (SITC group 016) increased on average by 6.2 percent each year and amounted to 5.0 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 4.2 percent each year and amounted to 4.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by increases of 20.5 percent in world exports of food, beverages and tobacco (SITC sections 0+1) and of 18.6 percent in total world exports. Exports of meat, edible offal, salted, in brine, dried, etc; flours, meals (SITC group 016) accounted for 0.4 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

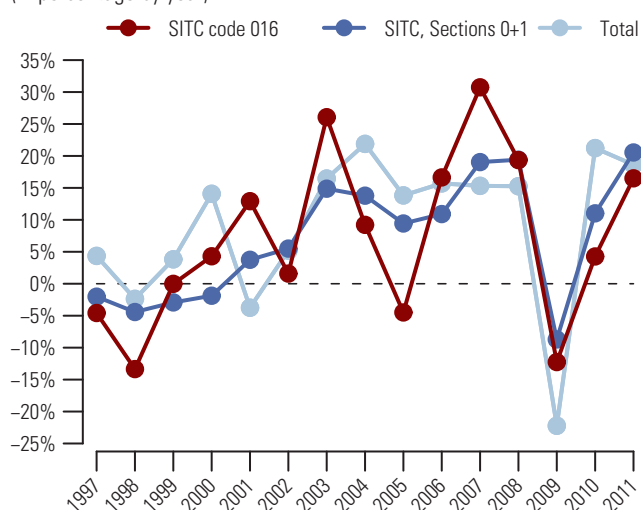

In 2011, Italy, Netherlands and Brazil were the top exporting countries (see table 2). They accounted respectively for 17.8, 15.2 and 13.3 percent of world exports. Top importing country was the United Kingdom accounting for 28.9 percent of world imports (see table 3). Other major importing countries were Netherlands and France. By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in meat, edible offal, salted, in brine, dried, etc; flours, meals (SITC group 016). In 2011, its exports and imports were almost on par at 3.6 bln US\$ and 3.7 bln US\$ respectively. Latin America and the Caribbean recorded a surplus amounting to 0.6 bln US\$.

017 Meat and edible meat offal, prepared or preserved, nes

After a decline of 7.3 percent in 2009, the value (in current prices) of exports of prepared or preserved meat and edible meat offal, nes (SITC group 017) recovered in 2010 and increased even further in 2011 by 17.9 percent to reach its peak of 19.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 22.0 percent to amount to 18.9 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was below both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of prepared or preserved meat and edible meat offal, nes (SITC group 017) accounted for 1.6 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

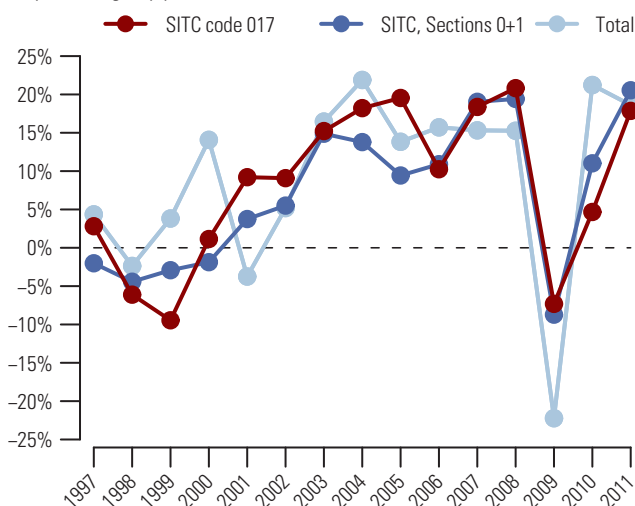

Exports of Germany, the top exporting country, increased by 15.9 percent and represented 12.6 percent of world exports in 2011 (see table 2). Other major exporting countries were Thailand and China, respectively with 11.4 and 9.8 percent of world exports. Japan, United Kingdom and Germany were the top importing countries (see table 3). By MDG regions (see graph 2), top surpluses were recorded in South-eastern Asia (+2.1 bln US\$), Latin America and the Caribbean (+1.4 bln US\$) and Eastern Asia (+1.0 bln US\$). A deficit of 3.0 bln US\$ was recorded by Developed Asia-Pacific.

Milk and cream and milk products other than butter or cheese 022

After a decline of 23.5 percent in 2009, the value (in current prices) of exports of milk and cream and milk products other than butter or cheese (SITC group 022) recovered in 2010 and increased further in 2011 by 23.3 percent to reach its peak of 41.9 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 26.6 percent to amount to 42.4 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group exceeded both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of milk and cream and milk products other than butter or cheese (SITC group 022) accounted for 3.6 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

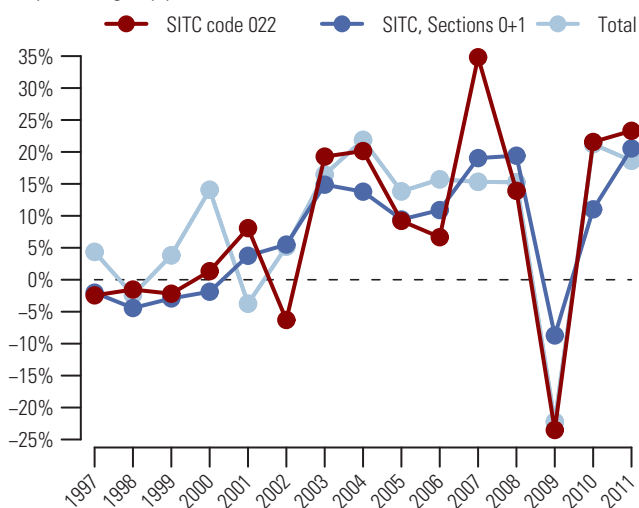

In 2011, New Zealand, Germany and France were the top exporting countries (see table 2). They accounted respectively for 15.3, 13.0 and 9.5 percent of world exports. Italy, Netherlands and Germany were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the majority of trade in milk and cream and milk products other than butter or cheese (SITC group 022). In 2011, its exports and imports amounted respectively to 24.6 bln US\$ and 18.5 bln US\$, resulting in a trade surplus of 6.1 bln US\$. Another major surplus was recorded by Developed Asia-Pacific (+7.0 bln US\$). Large deficits were by recorded by Eastern Asia (-3.7 bln US\$) and South-eastern Asia (-3.5 bln US\$).

023 Butter and other fats and oils derived from milk

In 2011, the value (in current prices) of exports of butter and other fats and oils derived from milk (SITC group 023) increased by 20.3 percent and reached its peak of 8.1 bln US\$ (see tables 1 and 2). Similar to exports, imports also reached a new peak of 7.9 bln US\$ in 2011 following an increase of 23.7 percent (see tables 1 and 3). In 2011, the increase in exports in this product group was slightly below the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent but greater than the increase in total world exports of 18.6 percent (see graph 1). Exports of butter and other fats and oils derived from milk (SITC group 023) accounted for 0.7 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

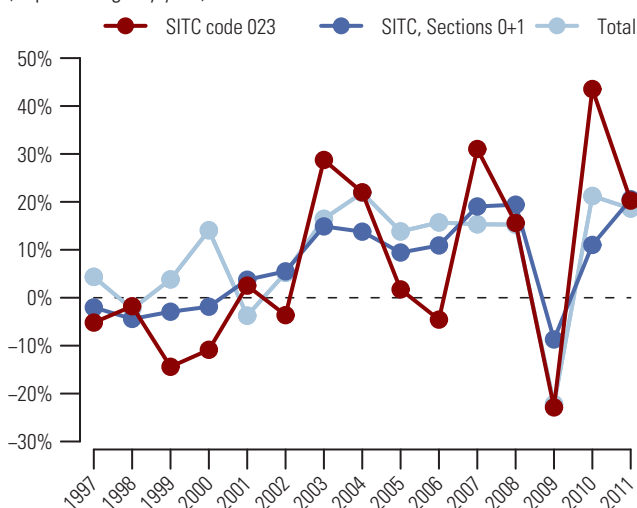

In 2011, New Zealand, Netherlands and Ireland were the top exporting countries (see table 2). They accounted respectively for 24.2, 13.6 and 9.9 percent of world exports. France, Germany and Belgium were the top destinations (see graph 2), Developed Europe accounted for the majority of trade in butter and other fats and oils derived from milk (SITC group 023). In 2011, its exports and imports amounted respectively to 5.0 bln US\$ and 4.4 bln US\$, resulting in a trade surplus of 0.6 bln US\$. A trade surplus was also recorded by Developed Asia-Pacific (+2.0 bln US\$). Top trade deficits were recorded by South-eastern Asia (-554.0 mln US\$), Western Asia (-512.6 mln US\$) and Northern Africa (-407.8 mln US\$).

From 2007 to 2011, the value (in current prices) of exports of cheese and curd (SITC group 024) increased on average by 7.6 percent and amounted to 29.7 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 7.3 percent to 28.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of cheese and curd (SITC group 024) accounted for 2.5 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

In 2011, Germany was the top exporting country with 15.9 percent of world exports (see table 2). Other major exporting countries were Netherlands and France, respectively with 13.4 and 13.2 percent of world exports. Germany, Italy and United Kingdom were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in cheese and curd (SITC group 024). In 2011, its exports and imports amounted respectively to 23.3 bln US\$ and 18.7 bln US\$, resulting in a trade surplus of 4.5 bln US\$. Top trade deficits were recorded by Eastern Asia (-691.7 mln US\$), Western Asia (-662.7 mln US\$) and Commonwealth of Independent States (-623.4 mln US\$).

025 Eggs, birds', egg yolks, fresh, dried or preserved; egg albumin

In 2011, the value (in current prices) of exports of eggs, birds', egg yolks, fresh, dried or preserved; egg albumin (SITC group 025) increased by 8.7 percent and reached 4.9 bln US\$ (see tables 1 and 2). Similar to exports, imports also went up by 7.0 percent to reach 4.4 bln US\$ (see tables 1 and 3). In 2011, the increase in exports of 8.7 percent in this product group was exceeded by the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of eggs, birds', egg yolks, fresh, dried or preserved; egg albumin (SITC group 025) accounted for 0.4 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

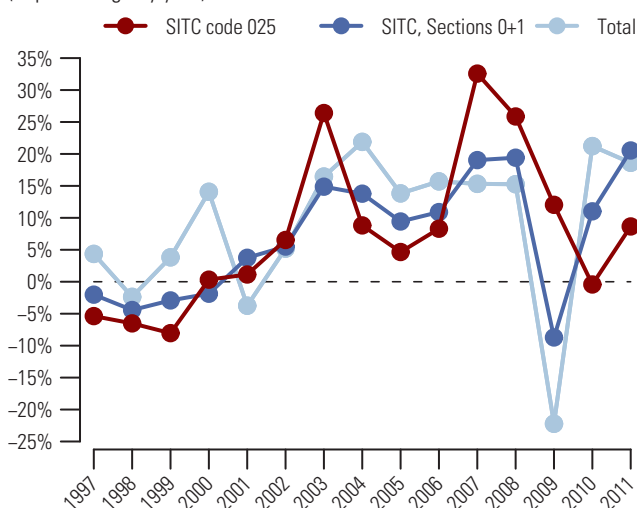

Netherlands, USA and Germany were the top exporting countries in 2011: they accounted respectively for 24.7, 8.5 and 6.8 percent of world exports (see table 2). Germany is the top importing country accounting for 20.1 percent of world imports. Other major importing countries were Netherlands and United Kingdom (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in eggs, birds', egg yolks, fresh, dried or preserved; egg albumin (SITC group 025). In 2011, its exports and imports amounted respectively to 3.0 bln US\$ and 2.6 bln US\$, resulting in a trade surplus of 0.4 bln US\$. Developed North America recorded a surplus of 0.4 bln US\$ while Developed Asia-Pacific, a deficit of 0.2 bln US\$.

Fish, fresh (live or dead), chilled or frozen 034

Since 2007, the value (in current prices) of exports of fresh, chilled or frozen fish (SITC group 034) increased on average by 10.0 percent each year and reached 58.8 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports increased on average by 7.3 percent to 62.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent. Exports of fresh, chilled or frozen fish (SITC group 034) accounted for 5.0 percent of world exports of SITC sections 0+1 and 0.3 percent of total world exports in 2011 (see table 1).

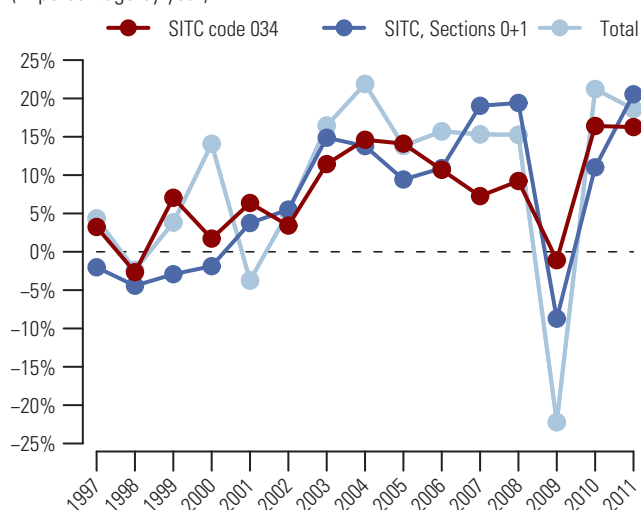

Norway, China and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 13.6, 12.2 and 6.1 percent of world exports. Japan, USA and China were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a significant share of trade in fresh, chilled or frozen fish (SITC group 034). In 2011, its exports and imports amounted respectively to 24.4 bln US\$ and 24.1 bln US\$ resulting in a trade surplus of 0.3 bln US\$. Top trade surpluses were recorded by Latin America and the Caribbean (+3.4 bln US\$), Eastern Asia (+2.9 bln US\$) and Southern Asia (+1.4 bln US\$). Developed Asia-Pacific and Developed North America recorded trade deficits amounting respectively to 7.3 bln US\$ and 2.2 bln US\$.

035 Fish, dried, salted or in brine; smoked fish; flours, meals, etc

From 2007 to 2011, despite a decline of 10.7 percent in 2009, the value (in current prices) of exports of fish, dried, salted or in brine; smoked fish; flour, meals, etc (SITC group 035) increased on average by 5.6 percent each year and amounted to 5.6 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 6.0 percent each year and amounted to 5.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by increases of 20.5 percent in world exports of food, beverages and tobacco (SITC sections 0+1) and of 18.6 percent in total world exports. Exports of fish, dried, salted or in brine; smoked fish; flour, meals, etc (SITC group 035) accounted for 0.5 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

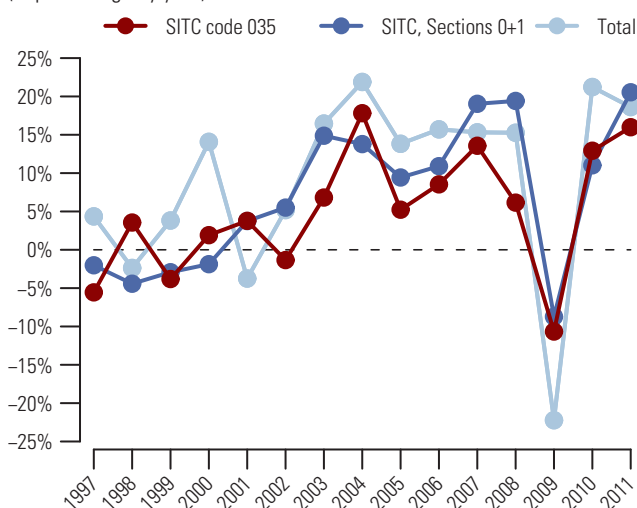

In 2011, Norway was the top exporting country with 18.8 percent of world exports (see table 2). Other major exporting countries were Poland, China and Sweden, respectively with 10.6, 7.0 and 7.0 percent of world exports. Top destinations were Germany, China, Hong Kong SAR and Italy (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in fish, dried, salted or in brine; smoked fish; flour, meals, etc (SITC group 035). In 2011, its exports and imports amounted respectively to 3.9 bln US\$ and 3.3 bln US\$ resulting in a trade surplus of 0.6 bln US\$. South-eastern Asia recorded a surplus of 0.2 bln US\$ while Developed Asia-Pacific recorded a deficit of 0.3 bln US\$.

Crustaceans, molluscs, aquatic invertebrates; flours and pellets 036

After a decline of 2.6 percent in 2009, the value (in current prices) of exports of crustaceans, molluscs, aquatic invertebrates; flours and pellets (SITC group 036) recovered in 2010 and increased even further in 2011 by 22.4 percent to reach its peak of 31.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 20.2 percent to amount to 31.3 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group exceeded both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of crustaceans, molluscs, aquatic invertebrates; flours and pellets (SITC group 036) accounted for 2.7 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

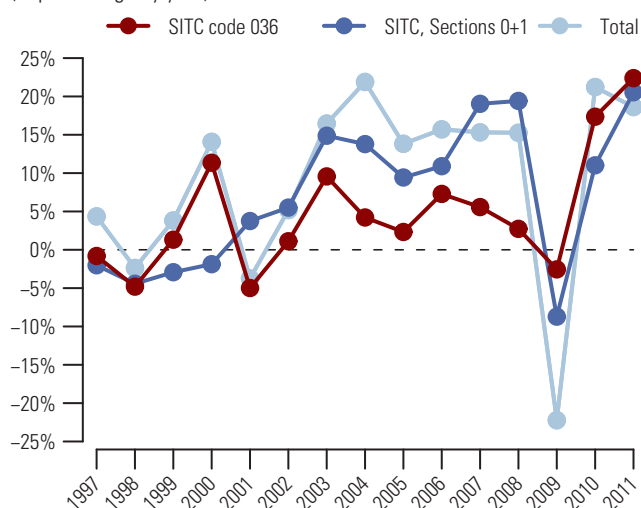

In 2011, China was the top exporting country: it accounted for 10.8 percent of world exports (see table 2). Another major exporting country was Viet Nam at 7.3 percent. USA, Japan and Spain were the top destinations (see table 3). By MDG regions (see graph 2), major deficits were recorded with Developed Europe (-6.2 bln US\$), Developed Asia-Pacific (-3.6 bln US\$) and Developed North America (-3.5 bln US\$). Trade surpluses were recorded with South-eastern Asia (+5.7 bln US\$), Latin America and the Caribbean (+4.2 bln US\$) and Southern Asia (+2.8 bln US\$).

037 Fish, crustaceans, molluscs, aquatic invertebrates, prepared, nes

Despite a sharp decline in 2009, the value (in current prices) of exports of prepared or preserved fish, crustaceans, molluscs, aquatic invertebrates, nes (SITC group 037) increased on average by 7.6 percent from 2007 to 2011 (see table 2). Exports increased in 2011 by 23.1 percent to reach its peak of 25.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 19.6 percent to amount to 22.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of prepared or preserved fish, crustaceans, molluscs, aquatic invertebrates, nes (SITC group 037) accounted for 2.2 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

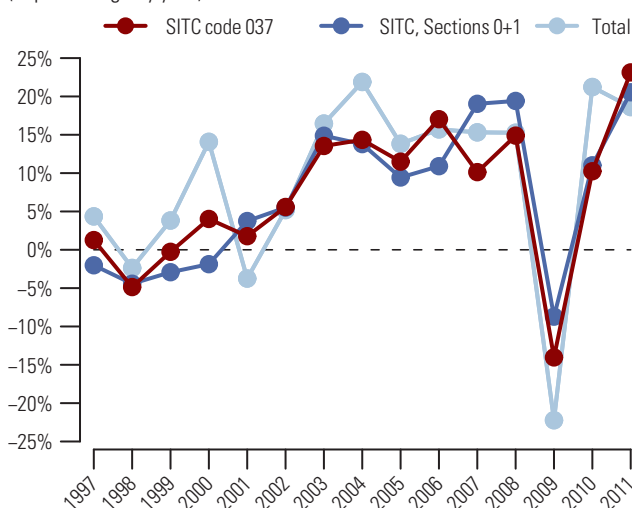

China, Thailand and Viet Nam were the top exporting countries in 2011 (see table 2). They accounted respectively for 23.7, 20.0 and 4.1 percent of world exports. Top destinations were USA, Japan and United Kingdom (see table 3). By MDG regions (see graph 2), top surpluses were recorded by South-eastern Asia (+6.7 bln US\$) and Eastern Asia (+5.2 bln US\$). With imports amounting to 9.7 bln US\$, Developed Europe was the major destination of trade in prepared or preserved fish, crustaceans, molluscs, aquatic invertebrates, nes (SITC group 037) and recorded the top deficit of 4.1 bln US\$. Developed North America and Developed Asia-Pacific also recorded deficits amounting respectively to 3.4 bln US\$ and 3.3 bln US\$.

Wheat (including spelt) and meslin, unmilled 041

Following a sharp decline in 2009, the value (in current prices) of exports of unmilled wheat, meslin (SITC group 041) bounced back in 2010 and continued to increase by 44.4 percent to reach its peak of 47.0 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with an increase of 48.0 percent to 51.3 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group far exceeded the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent. Exports of unmilled wheat, meslin (SITC group 041) accounted for 4.0 percent of world exports of SITC sections 0+1 and 0.3 percent of total world exports in 2011 (see table 1).

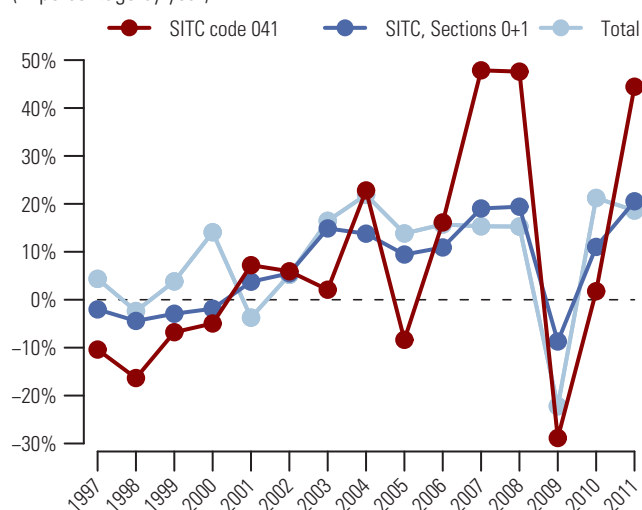

USA, the top exporting country, accounted for 23.7 percent of world exports in 2011 (see table 2). Other major exporting countries include France, Canada and Australia, respectively with 14.4, 12.2 and 12.2 percent. Top importing countries were Nigeria, Algeria and Egypt (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in unmilled wheat, meslin (SITC group 041). In 2011, its exports and imports were valued respectively at 12.8 bln US\$ and 10.2 bln US\$, resulting in a trade surplus of 2.6 bln US\$. Larger trade surpluses were recorded by Developed North America (+16.2 bln US\$) and Commonwealth of Independent States (+4.6 bln US\$). Top trade deficits were recorded by Northern Africa (-7.7 bln US\$) and Sub-Saharan Africa (-7.5 bln US\$).

042 Rice

From 2007 to 2011, despite a decline of 10.2 percent in 2009, the value (in current prices) of exports of rice (SITC group 042) increased on average by 16.4 percent each year and amounted to 24.3 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 14.6 percent each year and amounted to 23.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by an increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent but equaled the increase in total world exports. Exports of rice (SITC group 042) accounted for 2.1 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

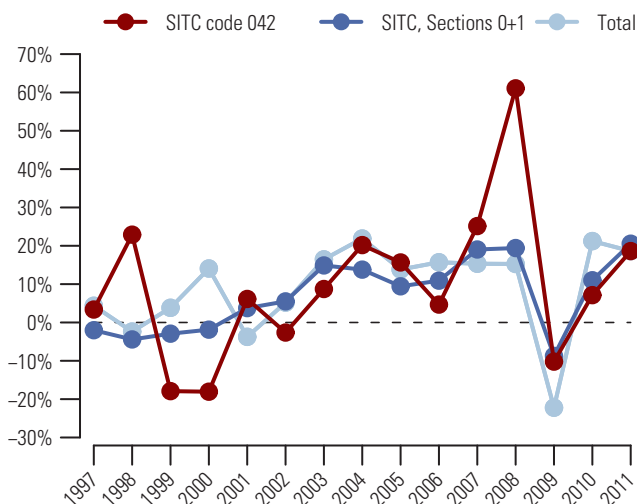

In 2011, Thailand, India and Viet Nam were the top exporting countries (see table 2). They accounted respectively for 26.8, 16.8 and 15.4 percent of world exports in 2011 (see table 2). Top importing countries were Nigeria, Saudi Arabia and Indonesia (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by South-eastern Asia (+7.7 bln US\$), Southern Asia (+4.3 bln US\$) and Developed North America (+1.1 bln US\$). Top trade deficits were recorded by Sub-Saharan Africa (-5.2 bln US\$), Western Asia (-4.4 bln US\$) and Developed Europe (-1.1 bln US\$).

After a sharp decline of 41.0 percent in 2009, the value (in current prices) of exports of unmilled barley (SITC group 043) recovered in 2010 and increased even further in 2011 by 46.0 percent to reach 7.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 39.5 percent to amount to 7.8 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group far exceeded the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent (see graph 1). Exports of unmilled barley (SITC group 043) accounted for 0.6 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

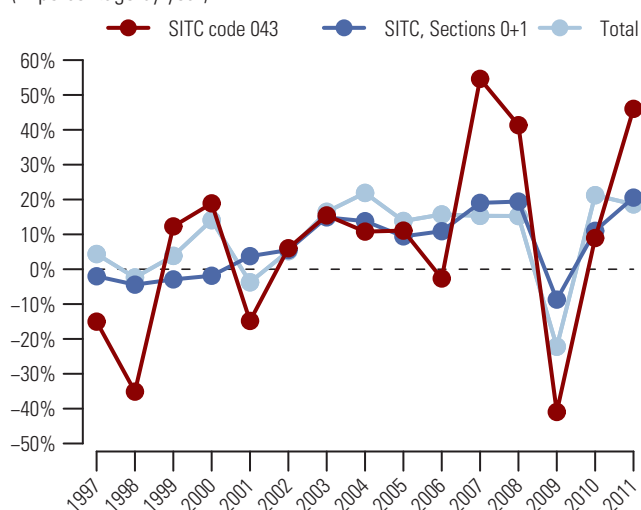

France, Australia and Germany were the top exporting countries in 2011 (see table 2). They accounted respectively for 19.1, 17.6 and 8.9 percent of world exports. Top destination was Saudi Arabia with 30.4 percent of world imports (see table 3). Other major destinations were China and Netherlands. By MDG regions (see graph 2), Developed Europe, Commonwealth of Independent States and Developed Asia-Pacific recorded trade surpluses amounting respectively to 1.0 bln US\$, 0.9 bln US\$ and 0.8 bln US\$. Western Asia recorded a deficit of 2.8 bln US\$ in 2011.

044 Maize (not including sweet corn), unmilled

From 2007 to 2011, the value (in current prices) of exports of unmilled maize (SITC group 044) increased on average by 13.2 percent and amounted to 33.8 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 11.0 percent to 37.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was above the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of unmilled maize (SITC group 044) accounted for 2.9 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

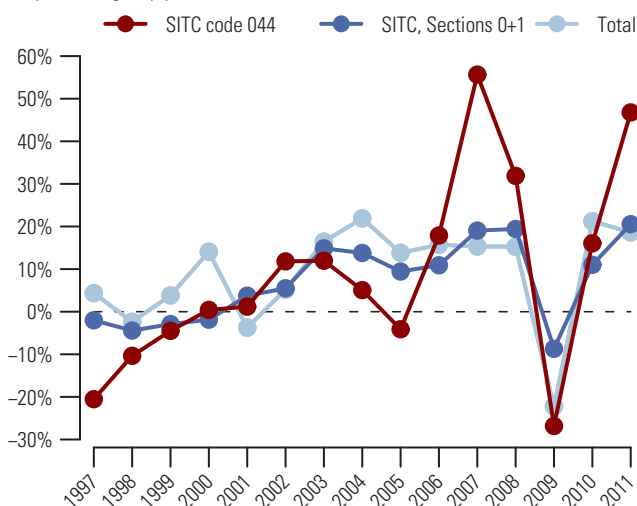

In 2011, USA was the top exporting country: it accounted for 41.4 percent of exports (see table 2). Other major exporting countries were Argentina and Brazil, respectively at 13.4 and 8.0 percent of world exports. Top destinations were Japan, Mexico and Republic of Korea (see table 3). By MDG regions (see graph 2), Developed North America recorded a trade surplus amounting to 13.6 bln US\$ in 2011. Other major surpluses were recorded by Commonwealth of Independent States (+1.8 bln US\$) and South-eastern Europe (+1.2 bln US\$). Top trade deficits were recorded by Developed Asia-Pacific (-5.3 bln US\$), Eastern Asia (-4.4 bln US\$) and Northern Africa (-4.0 bln US\$).

Cereals, unmilled (other than wheat, rice, barley and maize) 045

In 2011, the value (in current prices) of exports of unmilled cereals, other than wheat, rice, barley and maize (SITC group 045) increased by 32.1 percent and reached 3.4 bln US\$ (see tables 1 and 2). Similar to exports, imports also increased by 35.1 percent to reach 3.8 bln US\$ in 2011 (see tables 1 and 3). In 2011, the increase in exports in this product group was above both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of unmilled cereals, other than wheat, rice, barley and maize (SITC group 045) accounted for 0.3 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

USA was the top exporting country in 2011 (see table 2). It accounted for 31.3 percent of world exports. Other major exporting countries include Canada and Argentina, respectively with 18.5 and 12.8 percent of exports. Major destinations were Mexico, Japan and USA: they accounted for 20.3, 14.7 and 12.8 percent of world imports (see table 3). By MDG regions (see graph 2), Developed North America recorded a surplus amounting to 1.2 bln US\$. Top deficits were recorded by Latin America and the Caribbean (-0.6 bln US\$), Developed Asia-Pacific (-0.5 bln US\$) and Developed Europe (-0.3 bln US\$).

046 Meal and flour of wheat and flour of meslin

From 2007 to 2011, the value (in current prices) of exports of meal, flour of wheat and flour of meslin (SITC group 046) increased on average by 11.8 percent and amounted to 5.9 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 10.9 percent to 5.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 far exceeded the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent. Exports of meal, flour of wheat and flour of meslin (SITC group 046) accounted for 0.5 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

In 2011, Turkey, Kazakhstan and Argentina were the top exporting countries (see table 2). They accounted respectively for 15.7, 9.3 and 6.7 percent of world exports. Uzbekistan, Brazil and Indonesia were the top destinations (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Western Asia (+748.3 mln US\$), Developed Europe (+590.3 mln US\$) and Southern Asia (+356.9 mln US\$). Top deficits were recorded by Sub-Saharan Africa (-726.1 mln US\$) and South-eastern Asia (-532.1 mln US\$).

In 2011, the value (in current prices) of exports of other cereal meals and flours (SITC group 047) increased by 27.9 percent and reached 1.3 bln US\$ (see tables 1 and 2). Similar to exports, imports also increased by 30.5 percent to 1.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was above the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of other cereal meals and flours (SITC group 047) accounted for 0.1 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

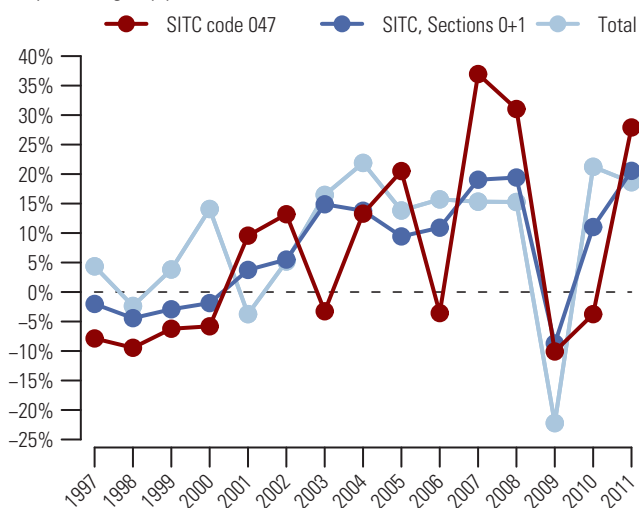

The top exporting countries in 2011 were USA, Thailand and Italy: they accounted for 13.0, 10.2 and 8.4 percent of world exports (see table 2). Top destinations were USA, Malaysia and Angola (see table 3). By MDG regions (see graph 2), Developed North America, South-eastern Asia and Southern Asia recorded trade surpluses amounting respectively to 81.0 mln US\$, 27.4 mln US\$ and 24.4 mln US\$. Sub-Saharan Africa, Developed Europe and Western Asia recorded trade deficits amounting respectively to 217.3 mln US\$, 55.6 mln US\$ and 53.5 mln US\$.

048 Cereal, flour or starch preparations of fruits or vegetables

From 2007 to 2011, the value (in current prices) of exports of cereal, flour or starch preparations of fruit or vegetables (SITC group 048) increased on average by 8.3 percent and amounted to 44.7 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 8.0 percent to 45.0 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of cereal, flour or starch preparations of fruit or vegetables (SITC group 048) accounted for 3.8 percent of world exports of SITC sections 0+1 and 0.3 percent of total world exports in 2011 (see table 1).

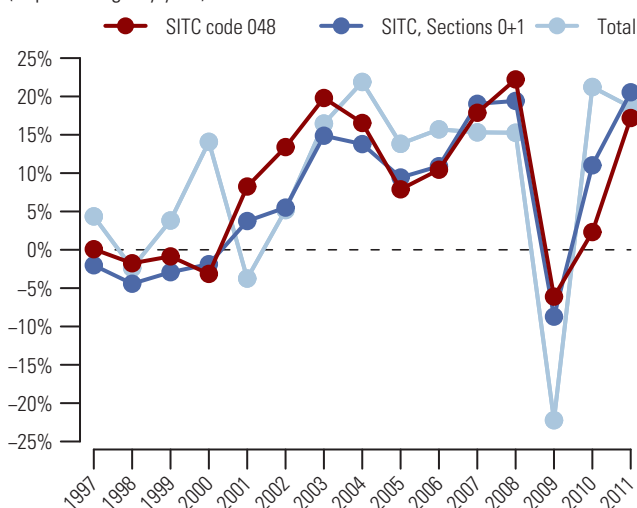

Germany, Italy and France were the top exporting countries in 2011 (see table 2). They accounted respectively for 11.8, 9.3 and 7.9 percent of world exports. Top importing countries were USA, Germany and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the majority of trade in cereal, flour or starch preparations of fruit or vegetables (SITC group 048). In 2011, its exports and imports amounted respectively to 27.0 bln US\$ and 22.4 bln US\$, resulting in a trade surplus of 4.7 bln US\$. Major deficits were recorded with Sub-Saharan Africa (-1.5 bln US\$), Developed North America (-1.2 bln US\$) and Developed Asia-Pacific (-1.1 bln US\$).

Vegetables, fresh, chilled, frozen, simply preserved; roots 054

In 2011, the value (in current prices) of exports of vegetables, fresh, chilled, frozen, simply preserved; roots (SITC group 054) increased by 10.0 percent and reached 59.7 bln US\$ (see tables 1 and 2). Similar to exports, imports increased by 9.7 percent to reach 59.9 bln US\$ in 2011 (see tables 1 and 3). In 2011, the increase in exports in this product group was below both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of vegetables, fresh, chilled, frozen, simply preserved; roots (SITC group 054) accounted for 5.1 percent of world exports of SITC sections 0+1 and 0.3 percent of total world exports in 2011 (see table 1).

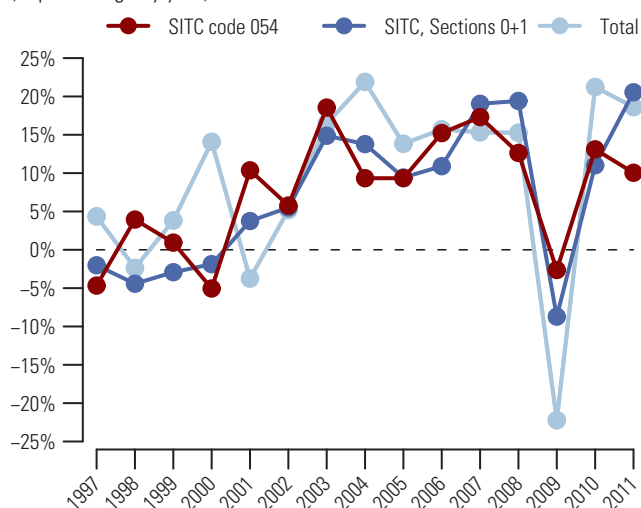

Netherlands, China and Spain were the top exporting countries in 2011 (see table 2). They accounted respectively for 12.4, 10.9 and 9.1 percent of world exports. USA, Germany and United Kingdom were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and destination of a majority of trade in vegetables, fresh, chilled, frozen, simply preserved; roots (SITC group 054). In 2011, its exports and imports amounted respectively to 24.0 bln US\$ and 27.0 bln US\$, resulting in a trade deficit of 3.1 bln US\$. Other deficits were recorded by Developed North America (-2.7 bln US\$) and Commonwealth of Independent States (-2.5 bln US\$). Latin America and the Caribbean and Eastern Asia recorded trade surpluses amounting respectively to 4.9 bln US\$ and 3.8 bln US\$.

056 Vegetables, roots and tubers, prepared or preserved, nes

After a decline of 3.9 percent in 2009, the value (in current prices) of exports of prepared or preserved vegetables, roots and tubers, nes (SITC group 056) recovered in 2010 and increased even further in 2011 by 16.0 percent to reach 28.7 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 14.4 percent to amount to 26.3 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was below both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of prepared or preserved vegetables, roots and tubers, nes (SITC group 056) accounted for 2.5 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

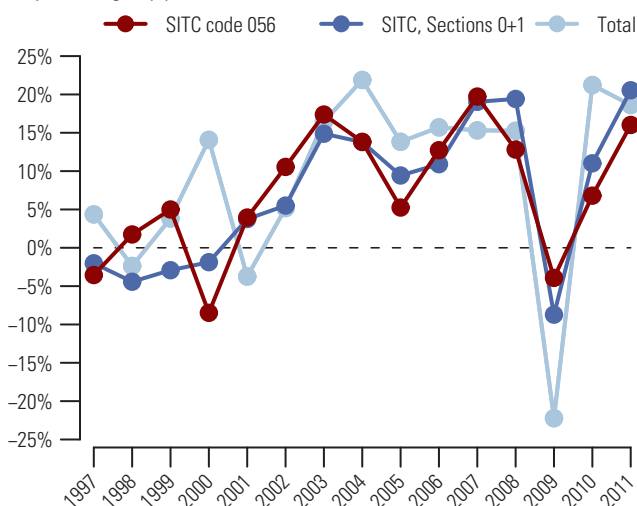

China was the top exporting country in 2011 with 19.9 percent of world exports (see table 2). Other major exporting countries were Netherlands and Italy, respectively with 9.8 and 8.5 percent of world exports. Top destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in prepared or preserved vegetables, roots and tubers, nes (SITC group 056). In 2011, its exports and imports amounted respectively to 14.5 bln US\$ and 12.6 bln US\$, resulting in a trade surplus of 2.0 bln US\$. Trade balance showed a surplus amounting to 5.0 bln US\$ for Eastern Asia and a deficit of 2.6 bln US\$ for Developed Asia-Pacific.

Fruit and nuts (not including oil nuts), fresh or dried 057

In 2011, the value (in current prices) of exports of fresh or dried fruit and nuts, excluding oil nuts (SITC group 057) increased by 15.1 percent and reached its peak of 83.6 bln US\$ (see tables 1 and 2). Similar to exports, imports also reached a new peak of 89.8 bln US\$ in 2011 following an increase of 13.9 percent (see tables 1 and 3). In 2011, the increase in exports in this product group was slightly below both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of fresh or dried fruit and nuts, excluding oil nuts (SITC group 057) accounted for 7.2 percent of world exports of SITC sections 0+1 and 0.5 percent of total world exports in 2011 (see table 1).

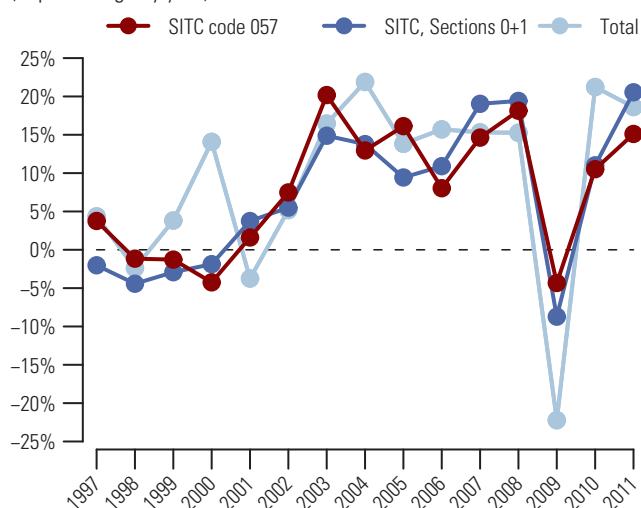

USA, Spain and Chile were the top exporting countries in 2011 (see table 2). They accounted respectively for 13.8, 9.0 and 5.5 percent of world exports. USA was also the top destination, together with Germany and Russian Federation (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in fresh or dried fruit and nuts, excluding oil nuts (SITC group 057). In 2011, its exports and imports amounted respectively to 26.0 bln US\$ and 41.0 bln US\$, resulting in a trade deficit of 15.0 bln US\$. Latin America and the Caribbean recorded a surplus amounting to 13.9 bln US\$ while Commonwealth of Independent States recorded a deficit of 6.0 bln US\$.

058 Fruits, preserved, and fruit preparations (excluding fruit juices)

After a sharp decline of 14.5 percent in 2009, the value (in current prices) of exports of preserved fruits and fruit preparations, excluding fruit juices (SITC group 058) recovered in 2010 and increased even further in 2011 by 23.3 percent to reach 18.7 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 22.7 percent to amount to 18.3 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was higher than both increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent (see graph 1). Exports of preserved fruits and fruit preparations, excluding fruit juices (SITC group 058) accounted for 1.6 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

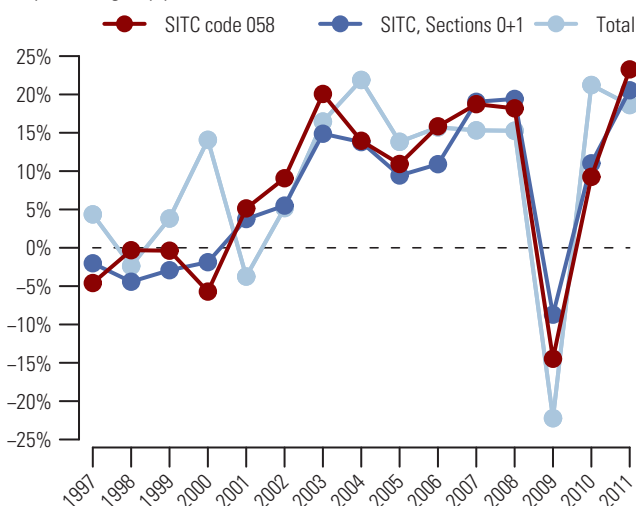

In 2011, China was the top exporting country with 15.1 percent of world exports (see table 2). Other major exporting countries were USA and Thailand, respectively with 7.4 and 6.2 percent of world exports. USA was the top importing country, together with Germany and France (see table 3). By MDG regions (see graph 2), top deficits were recorded by Developed Europe (-2.5 bln US\$), Developed North America (-1.8 bln US\$) and Developed Asia-Pacific (-1.5 bln US\$). Significant surpluses were recorded by Eastern Asia (+2.1 bln US\$), South-eastern Asia (+1.5 bln US\$) and Latin America and the Caribbean (+1.5 bln US\$).

Fruit and vegetable juices, unfermented and without added spirit 059

From 2007 to 2011, despite a decline of 16.8 percent in 2009, the value (in current prices) of exports of fruit and vegetable juices, unfermented and without added spirit (SITC group 059) increased on average by 5.0 percent each year and amounted to 17.4 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 4.3 percent each year and amounted to 17.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was more than the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent. Exports of fruit and vegetable juices, unfermented and without added spirit (SITC group 059) accounted for 1.5 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

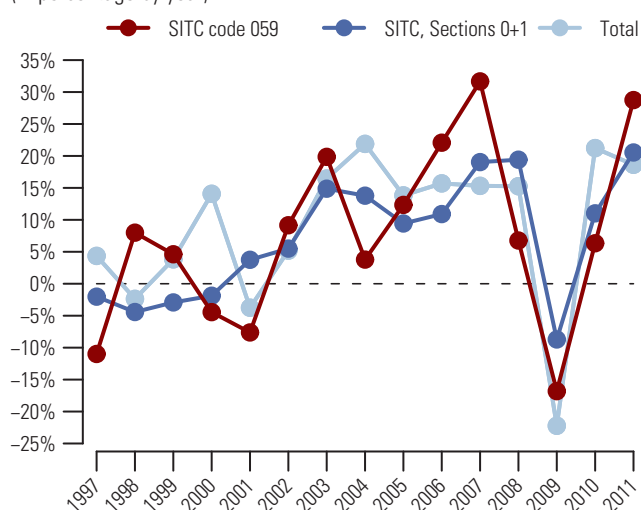

In 2011, Brazil was the top exporting country: it accounted for 14.7 percent of world exports (see table 2). Other major exporting countries were Netherlands and Belgium, respectively at 9.1 and 7.6 percent of world exports. Major destinations were USA, Germany and Netherlands (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade. In 2011, its exports and imports amounted respectively to 7.3 bln US\$ and 9.5 bln US\$, resulting in a trade deficit of 2.2 bln US\$. Major deficits were also recorded by Developed North America (-1.4 bln US\$) and Developed Asia-Pacific (-1.0 bln US\$). Latin America and the Caribbean recorded a surplus of 4.0 bln US\$.

061 Sugars, molasses and honey

From 2007 to 2011, the value (in current prices) of exports of sugars, molasses and honey (SITC group 061) increased on average by 20.6 percent and amounted to 47.2 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 17.7 percent to 48.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of sugars, molasses and honey (SITC group 061) accounted for 4.0 percent of world exports of SITC sections 0+1 and 0.3 percent of total world exports in 2011 (see table 1).

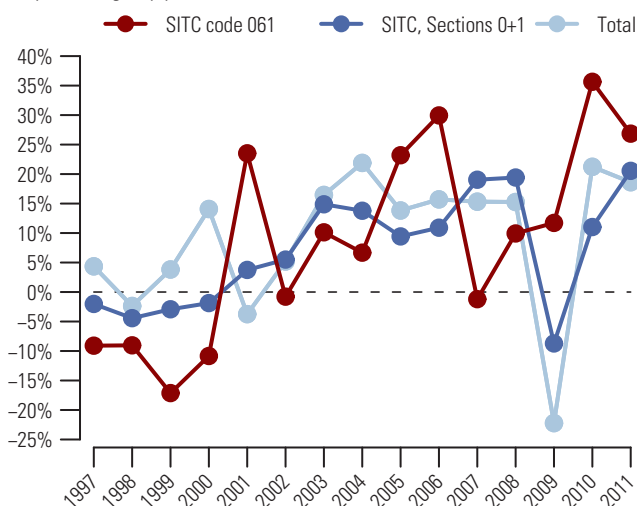

Brazil, the top exporting country in 2011, accounted for 31.9 percent of world exports (see table 2). Other major exporting countries were Thailand and Cuba, respectively with 7.9 and 7.7 percent of world exports. USA, China and Indonesia were the top importing countries (see table 3). By MDG regions (see graph 2), Latin America and the Caribbean recorded a surplus of 20.1 bln US\$. Top deficits were recorded by Developed Europe (-3.8 bln US\$), Eastern Asia (-2.9 bln US\$) and Western Asia (-2.8 bln US\$).

After a decline of 5.9 percent in 2009, the value (in current prices) of exports of sugar confectionery (SITC group 062) recovered in 2010 and increased even further in 2011 by 14.3 percent to reach 10.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 13.6 percent to amount to 9.6 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was below both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of sugar confectionery (SITC group 062) accounted for 0.9 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

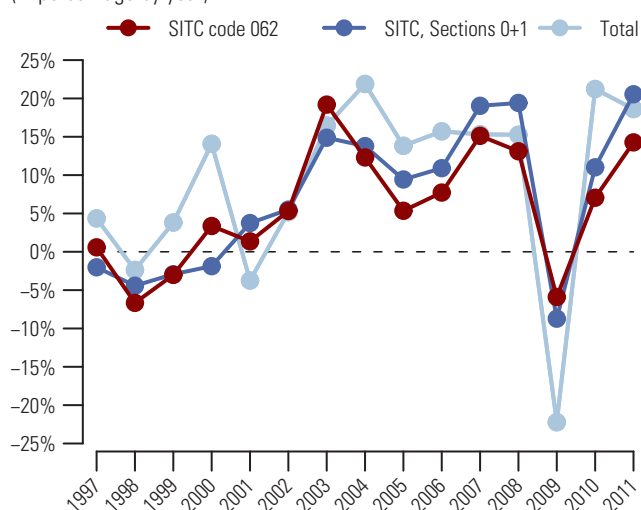

The top exporting countries in 2011 were Germany, China and Belgium (see table 2). They accounted respectively for 9.0, 7.8 and 5.9 percent of world exports. Major destinations were USA, Germany and United Kingdom (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Eastern Asia (+644.1 mln US\$), Developed Europe (+618.7 mln US\$) and Latin America and the Caribbean (+529.6 mln US\$). Large deficits were recorded by Developed North America (-954.7 mln US\$), Developed Asia-Pacific (-217.1 mln US\$) and Sub-Saharan Africa (-190.9 mln US\$).

071 Coffee and coffee substitutes

After reaching a peak of 29.2 bln US\$ in 2010, the value (in current prices) of exports of coffee and coffee substitutes (SITC group 071) continued to grow in 2011 by 42.3 percent to reach 41.5 bln US\$ (see tables 1 and 2). Imports also increased in 2011 by 46.0 percent and amounted to 42.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group far exceeded the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 and the increase in total world exports of 18.6 percent. Exports of coffee and coffee substitutes (SITC group 071) accounted for 3.6 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

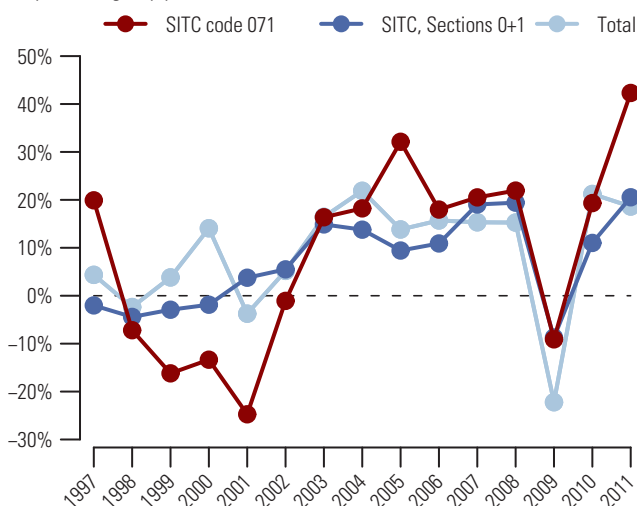

Brazil was the top exporting country in 2011: it accounted for 21.0 percent of world exports (see table 2). Other major exporting countries were Germany and Colombia, respectively with 9.5 and 7.1 percent of world exports. Top destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), Latin America and the Caribbean, South-eastern Asia and Sub-Saharan Africa recorded trade surpluses amounting respectively to 16.7 bln US\$, 3.3 bln US\$ and 2.0 bln US\$. Developed Europe, Developed North America and Developed Asia-Pacific recorded trade deficits amounting to 9.1 bln US\$, 8.2 bln US\$ and 2.8 bln US\$ in 2011, respectively.

In 2011, the value (in current prices) of exports of cocoa (SITC group 072) increased by 9.8 percent and reached its peak of 19.7 bln US\$ (see tables 1 and 2). Similar to exports, imports also reached a new peak of 23.3 bln US\$ in 2011 following an increase of 21.9 percent (see tables 1 and 3). In 2011, the increase in exports in this product group was below both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of cocoa (SITC group 072) accounted for 1.7 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

Côte d'Ivoire, Netherlands and Ghana were the top exporting countries in 2011, respectively with 20.6, 17.1 and 11.0 percent of world exports (see table 2). Top destinations were Netherlands, USA and Germany (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of imports of cocoa (SITC group 072). In 2011, its imports amounted to 12.1 bln US\$ while exports were 6.5 bln US\$, resulting in a trade deficit of 5.6 bln US\$. Major deficits were also recorded by Developed North America (-3.0 bln US\$) and Commonwealth of Independent States (-1.1 bln US\$). Sub-Saharan Africa, South-eastern Asia and Latin America and the Caribbean recorded surpluses amounting to 6.3 bln US\$, 1.1 bln US\$ and 0.6 bln US\$, respectively.

073 Chocolate and other food preparations containing cocoa, nes

After a decline of 5.9 percent in 2009, the exports value (in current prices) of chocolate and other food preparations containing cocoa, nes (SITC group 073) recovered in 2010 and increased even further in 2011 by 17.5 percent to reach its peak of 23.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 18.9 percent to amount to 22.8 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was below both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of chocolate and other food preparations containing cocoa, nes (SITC group 073) accounted for 2.0 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

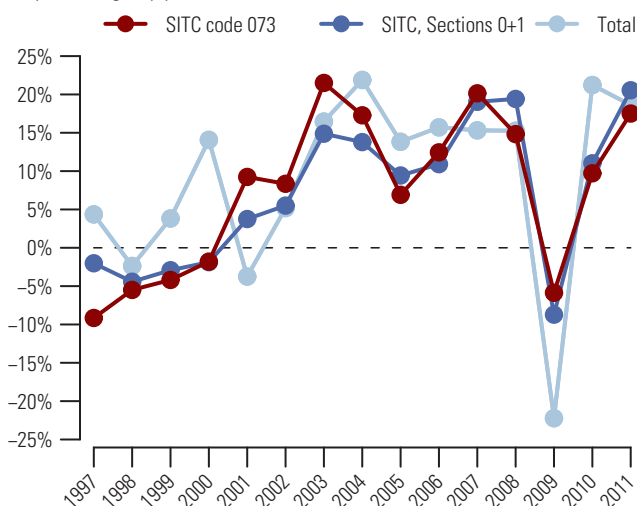

Germany was the top exporting country in 2011: it accounted for 17.0 percent of world exports (see table 2). Other major exporting countries were Belgium and Netherlands, respectively with 11.0 and 7.0 percent of world exports. Top destinations were Germany, USA and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in chocolate and other food preparations containing cocoa, nes (SITC group 073). In 2011, its exports and imports amounted respectively to 16.4 bln US\$ and 12.4 bln US\$, resulting in a trade surplus of 4.0 bln US\$. Top deficits were recorded by Developed Asia-Pacific (-815.9 mln US\$), Developed North America (-635.0 mln US\$) and Eastern Asia (-578.3 mln US\$).

In 2011, the value (in current prices) of exports of tea and mate (SITC group 074) increased by 13.1 percent and reached 8.2 bln US\$ (see tables 1 and 2). Similar to exports, imports also increased by 11.5 percent to reach 7.5 bln US\$ in 2011 (see tables 1 and 3). In 2011, the increase in exports in this product group fell below the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of tea and mate (SITC group 074) accounted for 0.7 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

Sri Lanka, Kenya and China were the top exporting countries in 2011 (see table 2). They accounted respectively for 18.2, 16.8 and 12.4 percent of world exports. Top destinations were Russian Federation, USA and United Arab Emirates (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Southern Asia (+1.8 bln US\$), Sub-Saharan Africa (+1.4 bln US\$) and Eastern Asia (+0.8 bln US\$). Top trade deficits were recorded by Western Asia (-1.0 bln US\$), Commonwealth of Independent States (-1.0 bln US\$) and Northern Africa (-0.5 bln US\$).

075 Spices

From 2007 to 2011, the value (in current prices) of exports of spices (SITC group 075) increased on average by 15.9 percent and amounted to 7.9 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 16.9 percent to 7.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of spices (SITC group 075) accounted for 0.7 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

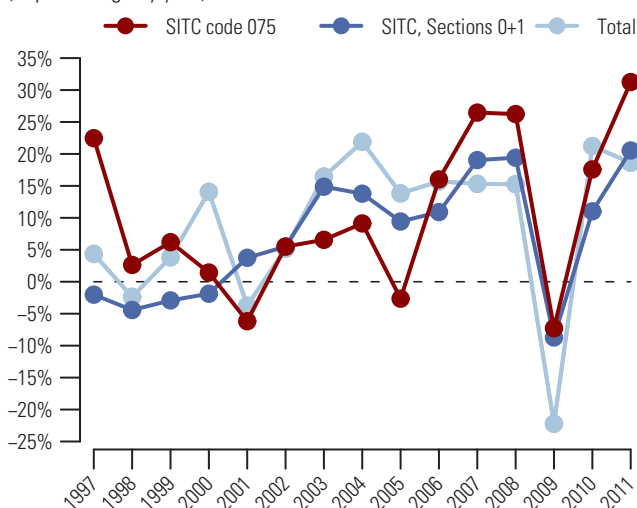

In 2011, India, China and Viet Nam were the top exporting countries (see table 2). They accounted respectively for 18.1, 11.1 and 7.1 percent of world exports. USA accounted for 14.1 percent of world imports and was the top importing country (see table 3). Other major destinations were Germany and Indonesia. By MDG regions (see graph 2), top surpluses were recorded by Southern Asia (+1.4 bln US\$), Eastern Asia (+0.7 bln US\$) and South-eastern Asia (+0.5 bln US\$). Significant deficits were recorded by Developed North America (-1.1 bln US\$), Developed Europe (-1.0 bln US\$) and Western Asia (-0.5 bln US\$) among others.

Feeding stuff for animals (not including unmilled cereals) 081

After a decline of 3.4 percent in 2009, the value (in current prices) of exports of feeding stuff for animals, not including unmilled cereals (SITC group 081) recovered in 2010 and increased further in 2011 by 16.8 percent to reach its peak of 67.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 17.3 percent to amount to 72.7 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was below both the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent (see graph 1). Exports of feeding stuff for animals, not including unmilled cereals (SITC group 081) accounted for 5.8 percent of world exports of SITC sections 0+1 and 0.4 percent of total world exports in 2011 (see table 1).

In 2011, Argentina, USA and Netherlands were the top exporting countries (see table 2). They accounted respectively for 16.1, 14.4 and 9.0 percent of world exports. Netherlands, Japan and Germany were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in feeding stuff for animals (SITC group 081). In 2011, its exports and imports amounted respectively to 23.5 bln US\$ and 30.7 bln US\$, resulting in a trade deficit of 7.2 bln US\$. Major deficits were also recorded by South-eastern Asia (-7.2 bln US\$) and Developed Asia-Pacific (-3.9 bln US\$). Latin America and the Caribbean and Developed North America recorded trade surpluses amounting respectively to 14.3 bln US\$ and 7.5 bln US\$.

091 Margarine and shortening

Following a sharp decline in 2009, the value (in current prices) of exports of margarine and shortening (SITC group 091) bounced back in 2010 and continued to increase by 37.2 percent to reach 6.7 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with an increase of 30.8 percent to 5.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group far exceeded the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent. Exports of margarine and shortening (SITC group 091) accounted for 0.6 percent of world exports of SITC sections 0+1 and less than 0.1 percent of total world exports in 2011 (see table 1).

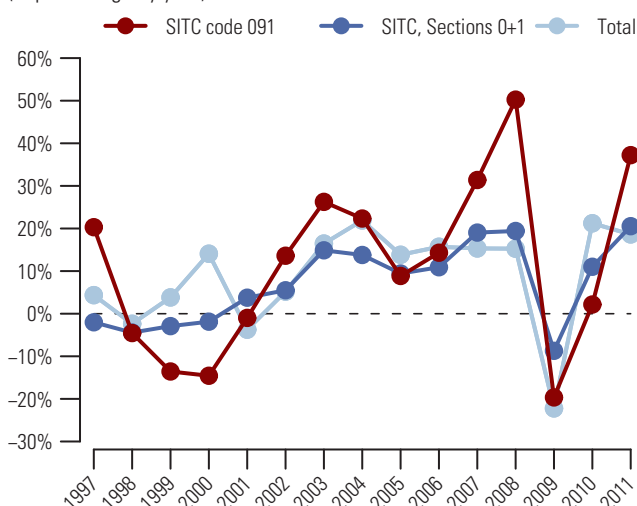

In 2011, the top exporting countries were Indonesia, Belgium and Netherlands (see table 2). They accounted respectively for 13.8, 12.1 and 11.2 percent of world exports. Top destinations were France, Chile and Germany (see table 3). By MDG regions (see graph 2), Developed Europe's exports amounted to 3.3 bln US\$ while imports reached 2.5 bln US\$, resulting in a trade surplus of 0.9 bln US\$. South-eastern Asia and Developed North America also recorded surpluses of 1.2 bln US\$ and 0.2 bln US\$ respectively. Significant deficits were recorded by Eastern Asia (-0.4 bln US\$), Commonwealth of Independent States (-0.3 bln US\$) and Sub-Saharan Africa (-0.2 bln US\$) among others.

After reaching a peak of 52.2 bln US\$ in 2010, the value (in current prices) of exports of edible products and preparations, nes (SITC group 098) continued to grow in 2011 by 16.8 percent and reached 60.9 bln US\$ (see tables 1 and 2). Imports also increased in 2011 by 24.2 percent and amounted to 67.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 and the increase in total world exports of 18.6 percent. Exports of edible products and preparations, nes (SITC group 098) accounted for 5.2 percent of world exports of SITC sections 0+1 and 0.3 percent of total world exports in 2011 (see table 1).

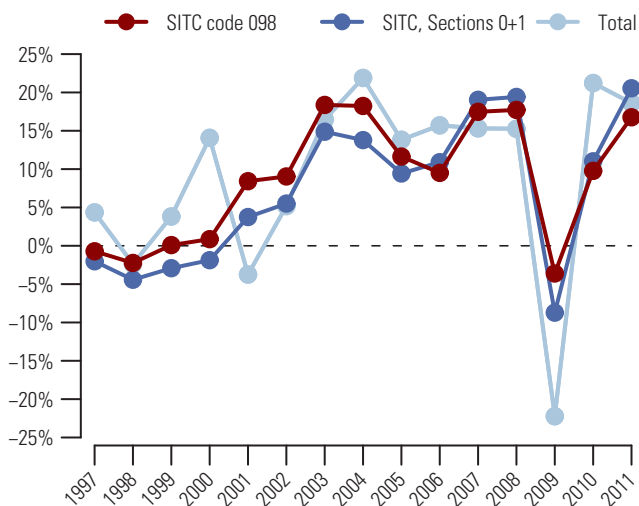

In 2011, USA, Netherlands and Germany were the top exporting countries (see table 2). They accounted respectively for 10.8, 9.4 and 8.4 percent of world exports. Top destinations were Nigeria, USA and United Kingdom (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in edible products and preparations, nes (SITC group 098). In 2011, its exports and imports amounted respectively to 32.6 bln US\$ and 24.5 bln US\$, resulting in a trade surplus of 8.1 bln US\$. A major trade surplus was also recorded by Developed North America (+1.9 bln US\$). Top trade deficits were recorded by Sub-Saharan Africa (-6.5 bln US\$) and Western Asia (-2.4 bln US\$).

Beverages and tobacco
(SITC Section 1)

111 Non-alcoholic beverages, nes

Despite a decline of 12.4 percent in 2009, the value (in current prices) of exports of non-alcoholic beverages, nes (SITC group 111) increased on average by 5.9 percent each year in the recent five years, and amounted to 18.7 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports increased on average by 4.3 percent each year and amounted to 17.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by increases of 20.5 percent in world exports of food, beverages and tobacco (SITC sections 0+1) and of 18.6 percent in total world exports. Exports of non-alcoholic beverages, nes (SITC group 111) accounted for 1.6 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

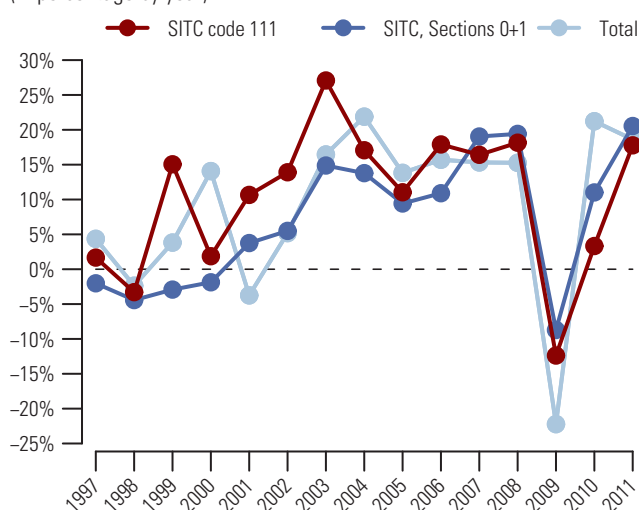

In 2011, the top exporting countries were Austria, Germany and France (see table 2). They accounted respectively for 10.9, 9.1 and 9.1 percent of world exports. Top destinations were USA, Germany and United Kingdom (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in non-alcoholic beverages, nes (SITC group 111). In 2011, its exports and imports amounted respectively to 12.6 bln US\$ and 8.4 bln US\$, resulting in a trade surplus of 4.2 bln US\$. Other surpluses were recorded by South-eastern Asia (+0.6 bln US\$) and Eastern Asia (+0.1 bln US\$). Developed North America, Developed Asia-Pacific and Sub-Saharan Africa recorded trade deficits amounting respectively to 1.8 bln US\$, 0.7 bln US\$ and 0.3 bln US\$.

After a decline of 11.9 percent in 2009, the value (in current prices) of exports of alcoholic beverages (SITC group 112) recovered in 2010 and increased further in 2011 by 17.3 percent to reach its peak of 75.4 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 16.3 percent to amount to 74.0 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was exceeded by both the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of alcoholic beverages (SITC group 112) accounted for 6.5 percent of world exports of SITC sections 0+1 and 0.4 percent of total world exports in 2011 (see table 1).

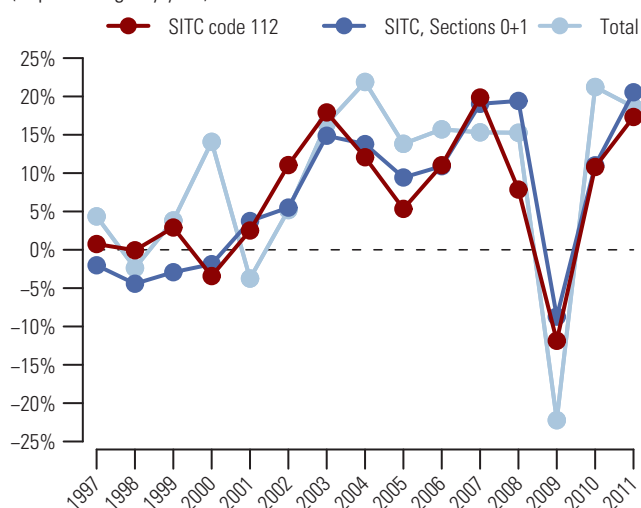

In 2011, the top exporting countries were France, United Kingdom and Italy (see table 2). The accounted for 19.8, 13.6 and 9.8 percent of world exports (see table 2). USA, United Kingdom and Germany were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of exports and imports of alcoholic beverages, nes (SITC group 112). In 2011, its exports and imports amounted respectively to 52.3 bln US\$ and 32.3 bln US\$, resulting in a trade surplus of 20.0 bln US\$. Developed North America recorded a deficit of 14.6 bln US\$ and Latin America and the Caribbean recorded a surplus amounting to 4.8 bln US\$.

121 Tobacco, unmanufactured; tobacco refuse

After a 3.9 percent drop in 2010, the value (in current prices) of exports of unmanufactured tobacco; tobacco refuse (SITC group 121) bounced back by 5.5 percent to reach 11.4 bln US\$ in 2011 (see tables 1 and 2). Imports also increased by 8.1 percent to reach 13.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows the increase in exports for 2011 in this product group was far exceeded by the increases in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and in total world exports of 18.6 percent. Exports of unmanufactured tobacco; tobacco refuse (SITC group 121) accounted for 1.0 percent of world exports of SITC sections 0+1 and 0.1 percent of total world exports in 2011 (see table 1).

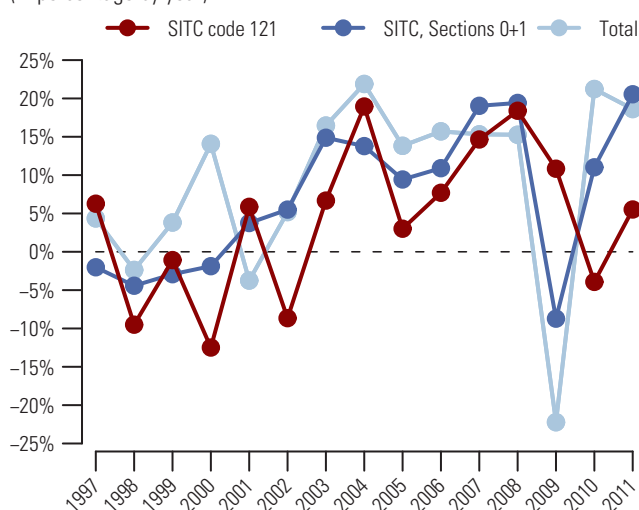

In 2011, Brazil, the top exporting country accounted for 25.2 percent of world exports (see table 2). Other major exporting countries were USA and Zimbabwe, respectively with 10.1 and 5.8 percent of world exports. Russian Federation, Germany and China were the top destinations (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Latin America and the Caribbean (+2.9 bln US\$), Sub-Saharan Africa (+1.0 bln US\$) and Southern Asia (+0.5 bln US\$). Significant deficits were recorded by Developed Europe (-2.6 bln US\$), Commonwealth of Independent States (-1.6 bln US\$) and South-eastern Asia (-0.9 bln US\$).

Tobacco, manufactured (whether or not containing tobacco substitutes) 122

From 2007 to 2011, the value (in current prices) of exports of manufactured tobacco, whether or not containing tobacco substitutes (SITC group 122) increased on average by 9.4 percent each year and amounted to 30.5 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports increased on average by 8.2 percent each year and amounted to 31.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of food, beverages and tobacco (SITC sections 0+1) of 20.5 percent and the increase in total world exports of 18.6 percent. Exports of manufactured tobacco, whether or not containing tobacco substitutes (SITC group 122) accounted for 2.6 percent of world exports of SITC sections 0+1 and 0.2 percent of total world exports in 2011 (see table 1).

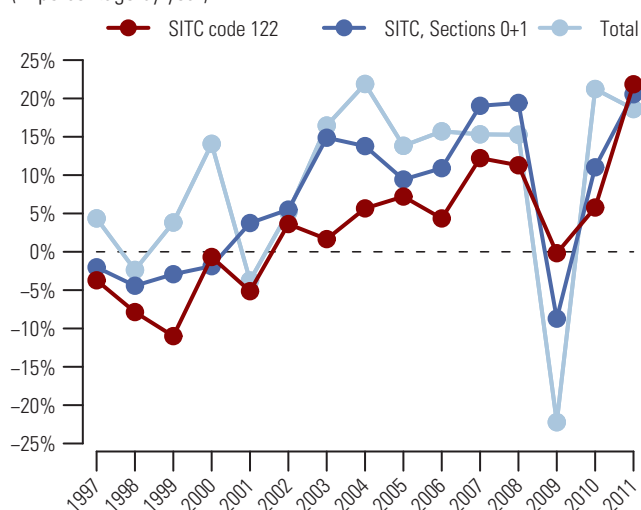

In 2011, Germany, Netherlands and Cuba were the top major exporting countries (see table 2). They accounted respectively for 18.4, 16.9 and 6.7 percent of world exports. Japan, Italy and France were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in manufactured tobacco (SITC group 122). In 2011, its exports and imports amounted respectively to 18.1 bln US\$ and 15.1 bln US\$, resulting in a trade surplus of 3.0 bln US\$. Latin America and the Caribbean recorded a surplus of 2.7 bln US\$. Top deficits were recorded by Developed Asia-Pacific (-5.6 bln US\$) and Western Asia (-1.8 bln US\$).

**Crude materials, inedible, except fuels
(SITC Section 2)**

211 Hides and skins (except furskins), raw

In 2011, the value (in current prices) of exports of raw hides and skins, except furskins (SITC group 211) increased by 24.8 percent and reached 8.0 bln US\$ (see tables 1 and 2). Similar to exports, imports also went up by 28.4 percent to reach 8.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but was higher than the increase in total world exports of 18.6 percent. Exports of raw hides and skins, except furskins (SITC group 211) accounted for 0.9 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

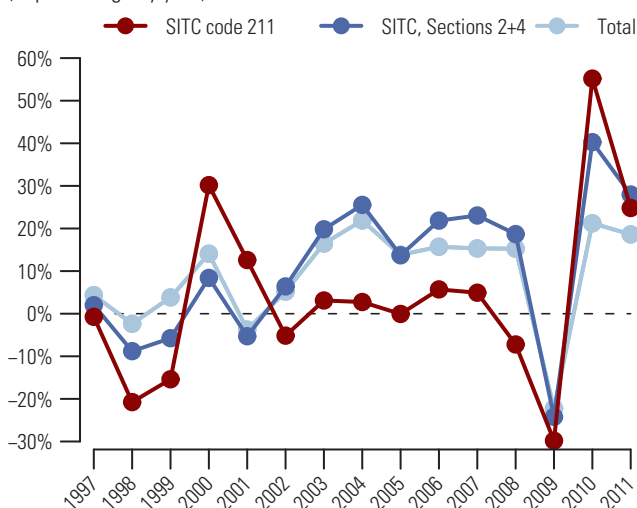

Exports of USA, the top exporting country in 2011, rose by 12.8 percent and accounted for 28.7 percent of world exports. China was the top destination with a 34.5 percent share of world imports. Other major destinations were Italy and Rep. of Korea (see table 3). By MDG regions (see graph 2), Developed North America recorded a trade surplus of 2.6 bln US\$. Major trade surpluses were also recorded by Developed Asia-Pacific (+1.0 bln US\$) and Developed Europe (+0.6 bln US\$). Eastern Asia recorded a trade deficit amounting to 3.7 bln US\$.

Furskins, raw (including heads, tails, paws, etc), other than those of 211 212

After a decline of 20.7 percent in 2009, the value (in current prices) of exports of raw furskins, including heads, tails, paws, etc (SITC group 212) recovered in 2010 and increased even further in 2011 by 22.9 percent to reach 4.7 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 27.4 percent to amount to 3.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but higher than the increase in total world exports of 18.6 percent. Exports of raw furskins, including heads, tails, paws, etc (SITC group 212) accounted for 0.5 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

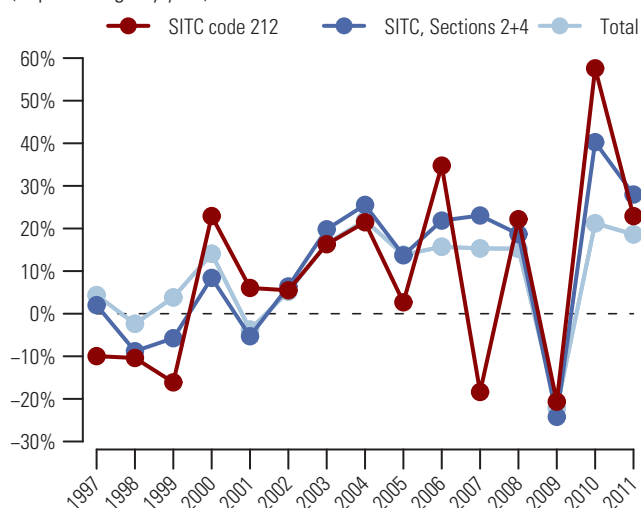

Denmark, the top exporting country in 2011, increased by 22.9 percent and accounted for 34.2 percent of world exports (see table 2). Other major exporting countries or areas were Finland and China, Hong Kong SAR, respectively with 16.4 and 15.6 percent of world exports. China, Hong Kong SAR was the top destination with 35.2 percent of world imports (see table 3). By MDG regions (see graph 2), Developed Europe was the origin of a majority of exports of raw furskins (SITC group 212). It recorded exports of 3.0 bln US\$ and imports of 1.1 bln US\$ resulting in a trade surplus of 1.9 bln US\$. Eastern Asia recorded a trade deficit of 1.0 bln US\$.

222 Oil-seeds and oleaginous fruits used for extraction of 'soft' fixed oils

After a 9.0 percent drop in 2009, the value (in current prices) of exports of oil-seeds and oleaginous fruits used for extraction of soft fixed oils (SITC group 222) bounced back in 2010 and increased even further in 2011 by 21.0 percent to reach 65.4 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 24.8 percent to amount to 73.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but slightly higher than the increase in total world exports of 18.6 percent. Exports of oil-seeds and oleaginous fruits used for extraction of soft fixed oils (SITC group 222) accounted for 7.4 percent of world exports of SITC sections 2+4 and 0.4 percent of total world exports in 2011 (see table 1).

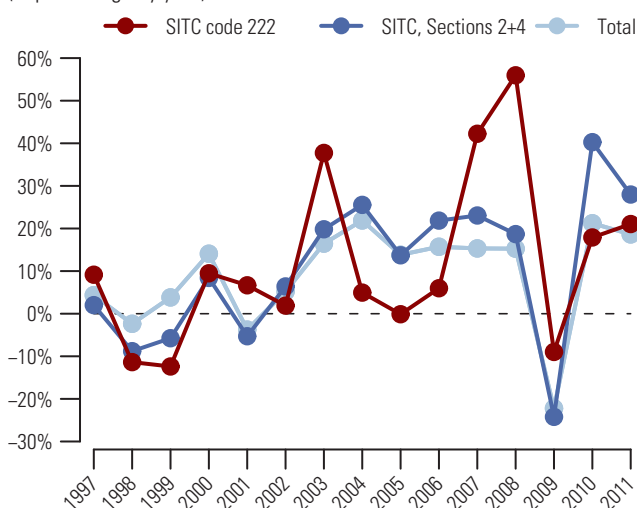

In 2011, USA, Brazil and Canada were the three major exporting countries (see table 2). They accounted respectively for 27.9, 25.1 and 9.5 percent of world exports. China was the top destination with 42.7 percent of world imports (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Developed North America (+23.2 bln US\$) and Latin America and the Caribbean (+21.8 bln US\$). Major deficits were recorded by Eastern Asia (-32.8 bln US\$) and Developed Europe (-12.1 bln US\$) among others.

Oil seeds and oleaginous fruits used for the extraction of other fixed oils 223

After a decline of 22.2 percent in 2009, the value (in current prices) of exports of oil seeds and oleaginous fruits used for the extraction of other fixed oils (SITC group 223) recovered in 2010 and increased even further in 2011 by 15.6 percent to reach 2.6 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 4.5 percent to amount to 2.4 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group was below both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of oil seeds and oleaginous fruits used for the extraction of other fixed oils (SITC group 223) accounted for 0.3 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

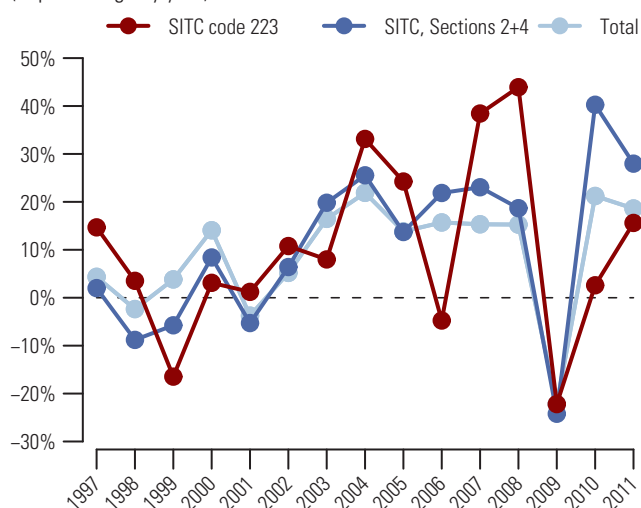

USA, the top exporting country in 2011, increased by 15.9 percent and accounted for 21.3 percent of world exports (see table 2). Other major exporting countries were Netherlands and Canada, respectively with 12.7 and 10.8 percent of world exports. Belgium, USA and Germany were the major destinations (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Developed North America (+565.1 mln US\$) and Commonwealth of Independent States (+155.0 mln US\$). Developed Europe and Latin America and the Caribbean recorded deficits of 295.1 mln US\$ and 290.3 mln US\$, respectively.

231 Natural rubber, balata, gutta-percha, chicle, etc, in primary forms

After a huge recovery in 2010 by 106.4 percent, the value (in current prices) of exports of natural rubber, balata, gutta-percha, chicle, etc, in primary forms (SITC group 231) increased even further in 2011 by 83.6 percent to reach 45.0 bln US\$ (see tables 1 and 2). Similarly, imports went up by 65.7 percent in 2011 to reach 39.5 bln US\$ (see tables 1 and 3). Graph 1 shows the increase in exports for 2011 in this product group was well above the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of natural rubber, balata, gutta-percha, chicle, etc, in primary forms (SITC group 231) accounted for 5.1 percent of world exports of SITC sections 2+4 and 0.3 percent of total world exports in 2011 (see table 1).

In 2011, Thailand and Indonesia were the two major exporting countries (see table 2). They accounted respectively for 29.3 and 26.2 percent of world exports (see table 2). China, USA and Japan were the top destinations (see table 3). By MDG regions (see graph 2), top surpluses were recorded by South-eastern Asia (+29.4 bln US\$) and Sub-Saharan Africa (+7.5 bln US\$). Major deficits were recorded by Eastern Asia (-11.8 bln US\$), Developed Europe (-6.3 bln US\$) and Developed North America (-5.5 bln US\$).

Synthetic and reclaimed rubber; waste, scrap of unhardened rubber 232

After a decline of 26.5 percent in 2009, the value (in current prices) of exports of synthetic and reclaimed rubber; waste, scrap of unhardened rubber (SITC group 232) recovered in 2010 and increased even further in 2011 by 39.4 percent to reach 28.4 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 41.1 percent to amount to 31.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of synthetic and reclaimed rubber; waste, scrap of unhardened rubber (SITC group 232) accounted for 3.2 percent of world exports of SITC sections 2+4 and 0.2 percent of total world exports in 2011 (see table 1).

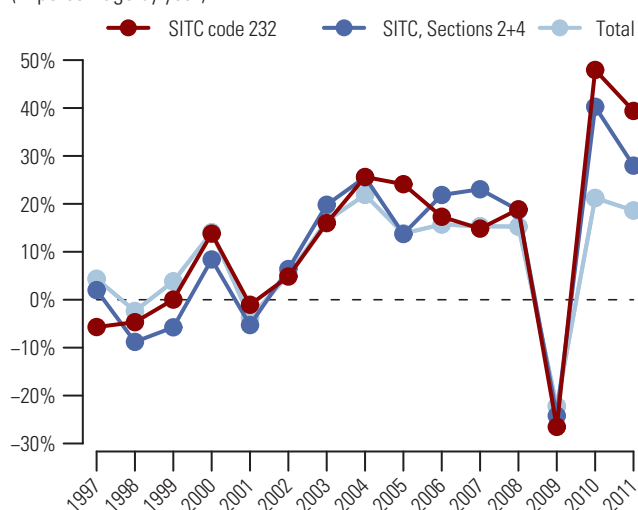

In 2011, USA, Rep. of Korea and Russian Federation were the top exporting countries (see table 2). They accounted respectively for 15.0, 14.3 and 10.2 percent of world exports. China, USA and Germany were the three main destinations (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Commonwealth of Independent States (+2.3 bln US\$), Developed North America (+1.9 bln US\$) and Developed Asia-Pacific (+1.9 bln US\$). Top trade deficits were recorded by South-eastern Asia (-2.9 bln US\$), Developed Europe (-2.2 bln US\$) and Southern Asia (-1.8 bln US\$).

244 Cork, natural, raw, and waste (including natural cork in blocks or sheets)

After a 41.4 percent drop in 2009, the value (in current prices) of exports of natural, raw and waste cork, including natural cork in blocks or sheets (SITC group 244) bounced back in 2010 and increased even further in 2011 by 27.6 percent to reach 186.4 mln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 44.1 percent to amount to 285.1 mln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but higher than the increase in total world exports of 18.6 percent. Exports of natural, raw and waste cork, including natural cork in blocks or sheets (SITC group 244) accounted for less than 0.1 percent of both world exports of SITC sections 2+4 and total world exports in 2011 (see table 1).

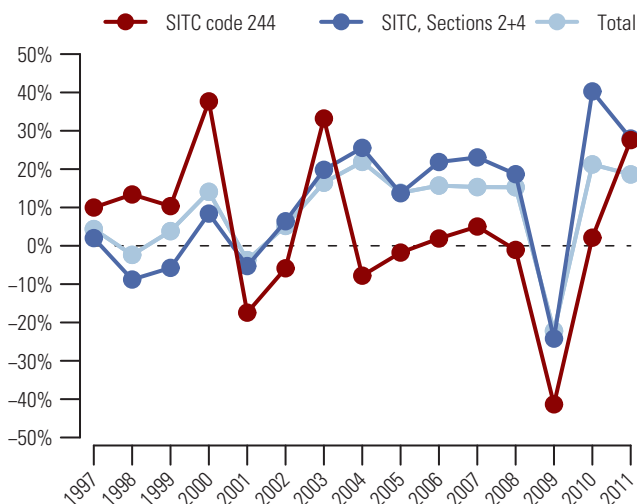

In 2011, Spain and Portugal were the origin of a majority of exports (see table 2): they accounted respectively for 50.4 and 33.6 percent of world exports. They were also the major destinations with 9.6 and 53.0 percent of world imports, respectively (see table 3). As a consequence, Developed Europe was the origin and the destination of a majority of trade in natural, raw and waste cork (SITC group 244) (see graph 2). In 2011, its exports amounted to 170.0 mln US\$ and imports to 222.3 mln US\$, resulting in a trade deficit of 52.3 mln US\$. Northern Africa recorded a surplus of 8.4 mln US\$.

Fuel wood (excluding wood waste) and wood charcoal 245

From 2007 to 2011, the value (in current prices) of exports of fuel wood (excluding wood waste) and wood charcoal (SITC group 245) increased on average by 14.2 percent each year to reach 1.3 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with an average increase of 13.5 percent each year to amount to 1.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was lower than the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but higher than the increase in total world exports of 18.6 percent. Exports of fuel wood (excluding wood waste) and wood charcoal (SITC group 245) accounted for 0.2 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

In 2011, Cuba, Indonesia and Ukraine were the top exporting countries (see table 2). They accounted respectively for 9.3, 6.4 and 6.4 percent of world exports. Top destinations were Germany, Japan and Italy (see table 3). By MDG regions (see graph 2), Developed Europe's exports amounted to 507.1 mln US\$ while imports to 886.5 mln US\$, resulting in a trade deficit of 379.4 mln US\$. Developed Asia-Pacific also recorded a deficit of 124.5 mln US\$. Top trade surpluses were recorded by Latin America and the Caribbean (+205.9 mln US\$), South-eastern Asia (+119.3 mln US\$) and Commonwealth of Independent States (+101.6 mln US\$).

246 Wood in chips or particles and wood waste

After a 13.6 percent decline in 2009, the value (in current prices) of exports of wood in chips or particles and wood waste (SITC group 246) bounced back in 2010 and increased even further in 2011 by 13.7 percent to reach 6.0 bln US\$ (see tables 1 and 2). Similarly, imports increased by 20.5 percent to 7.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of wood in chips or particles and wood waste (SITC group 246) accounted for 0.7 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

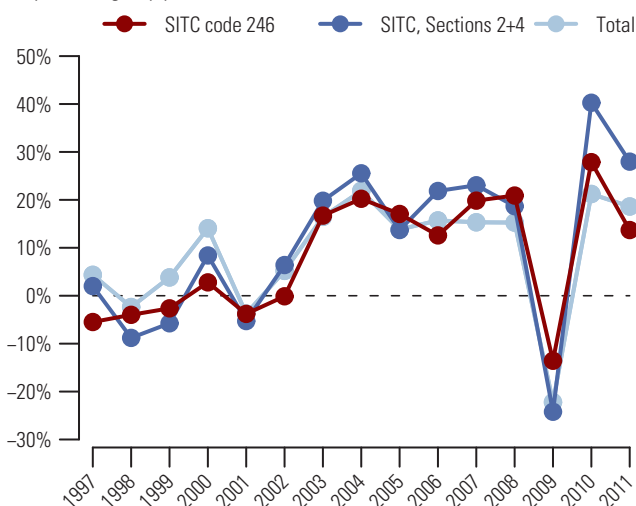

In 2011, Australia, Viet Nam and Chile were the top exporting countries (see table 2). They accounted for 12.3, 9.0 and 6.8 percent of world exports. Japan, China and Denmark were the top destinations (see table 3). By MDG regions (see graph 2), top surpluses were recorded by South-eastern Asia (+1.0 bln US\$), Latin America and the Caribbean (+0.6 bln US\$) and Developed North America (+0.5 bln US\$). Major deficits were recorded by Developed Asia-Pacific (-1.9 bln US\$), Eastern Asia (-1.4 bln US\$) and Developed Europe (-1.2 bln US\$).

During the recent five years, the value (in current prices) of exports of wood in the rough or roughly squared (SITC group 247) increased on average by 1.3 percent each year despite a decline of 28.4 percent in 2009 and amounted to 15.3 bln US\$ in 2011 (see tables 1 and 2). Imports also increased on average by 1.8 percent each year to reach 18.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but was greater than the increase in total world exports of 18.6 percent. Exports of wood in the rough or roughly squared (SITC group 247) accounted for 1.7 percent of world exports of SITC sections 2+4 and 0.1 percent of total world exports in 2011 (see table 1).

In 2011, USA, Russian Federation and New Zealand were the top exporting countries (see table 2). They accounted respectively for 14.7, 12.9 and 8.5 percent of world exports. Top destinations were China, India and Japan (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Developed North America (+2.5 bln US\$), Commonwealth of Independent States (+1.7 bln US\$) and Sub-Saharan Africa (+1.7 bln US\$). Top trade deficits were recorded by Eastern Asia (-9.2 bln US\$), Southern Asia (-1.9 bln US\$) and Developed Europe (-1.0 bln US\$).

248 Wood, simply worked, and railway sleepers of wood

In 2011, the value (in current prices) of exports of wood, simply worked, and railway sleepers of wood (SITC group 248) increased by 9.8 percent and reached 37.0 bln US\$ (see tables 1 and 2). Similar to exports, imports also went up by 13.5 percent to reach 39.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of wood, simply worked, and railway sleepers of wood (SITC group 248) accounted for 4.2 percent of world exports of SITC sections 2+4 and 0.2 percent of total world exports in 2011 (see table 1).

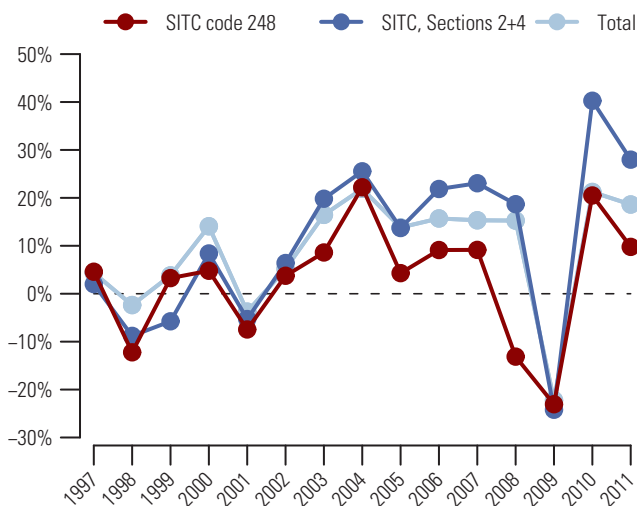

The top exporting countries in 2011 were Canada, Sweden and Russian Federation (see table 2). They accounted respectively for 15.0, 9.4 and 9.3 percent of world exports. China, USA and Japan were the top destinations (see table 3). A large share of trade in wood, simply worked, and railway sleepers of wood (SITC group 248) took place in Developed Europe (see graph 2). In 2011, its exports amounted to 14.9 bln US\$ compared to 14.7 bln US\$ for imports resulting in a trade surplus of 0.2 bln US\$. Top trade deficits were recorded by Eastern Asia (-5.8 bln \$) and Developed Asia-Pacific (-3.0 bln US\$). Developed North America and Commonwealth of Independent States recorded surpluses amounting to 3.1 and 3.0 bln US\$ respectively.

After a 24.3 percent decline in 2009, the value (in current prices) of exports of pulp and waste paper (SITC group 251) bounced back in 2010 and increased even further in 2011 by 13.9 percent to reach 49.8 bln US\$ (see tables 1 and 2). Similarly, imports increased by 16.5 percent to 57.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of pulp and waste paper (SITC group 251) accounted for 5.6 percent of world exports of SITC sections 2+4 and 0.3 percent of total world exports in 2011 (see table 1).

USA, Canada and Brazil were the top exporting countries in 2011 (see table 2). They accounted respectively for 20.3, 15.3 and 10.0 percent of world exports. China was the top destination with 33.1 percent of world imports (see table 3). Other major destinations were Germany and USA. By MDG regions (see graph 2), top trade surpluses were recorded by Developed North America (+13.2 bln US\$), Latin America and the Caribbean (+5.8 bln US\$) and Commonwealth of Independent States (+1.1 bln US\$). Top deficits were recorded by Eastern Asia (-21.5 bln US\$), Developed Europe (-3.0 bln US\$) and Southern Asia (-1.7 bln US\$).

From 2007 to 2011, the value (in current prices) of exports of silk (SITC group 261) increased on average by 2.5 percent and amounted to 500.6 mln US\$ in 2011 (see tables 1 and 2). During the same period, imports showed an average 5.7 percent increase and totaled 577.1 mln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of silk (SITC group 261) accounted for 0.1 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

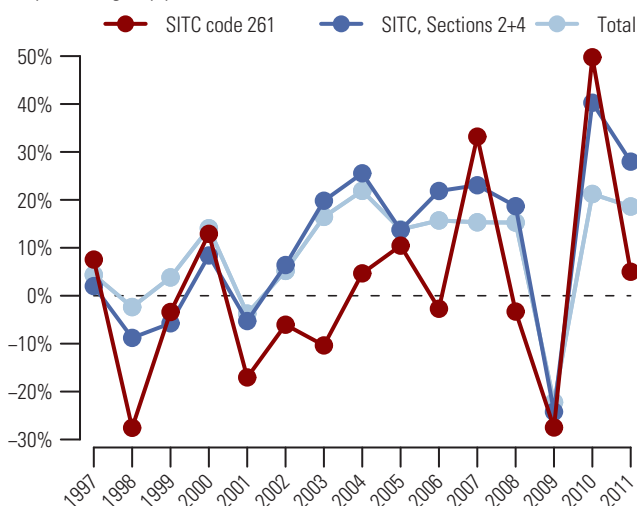

In 2011, China was the origin of a majority of exports of silk (SITC group 261): it accounted for 79.6 percent of world exports (see table 2). Other major exporting countries were Uzbekistan and Italy, respectively with 5.6 and 4.8 percent of world exports. India was the top destination with 39.6 percent of world imports (see table 3). Other major importing countries were Viet Nam and Italy. By MDG regions (see graph 2), Eastern Asia and Southern Asia accounted for a large share of the trade in silk (SITC group 261). Eastern Asia's exports amounted to 399.6 mln US\$ with a trade surplus of 361.8 mln US\$ while Southern Asia's imports amounted to 239.3 mln US\$ with a trade deficit of 228.5 mln US\$.

After a 16.4 percent drop in 2009, the value (in current prices) of exports of cotton (SITC group 263) bounced back in 2010 and increased even further in 2011 by 36.9 percent to reach 23.3 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 52.0 percent to amount to 24.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of cotton (SITC group 263) accounted for 2.6 percent of world exports of SITC sections 2+4 and 0.1 percent total world exports in 2011 (see table 1).

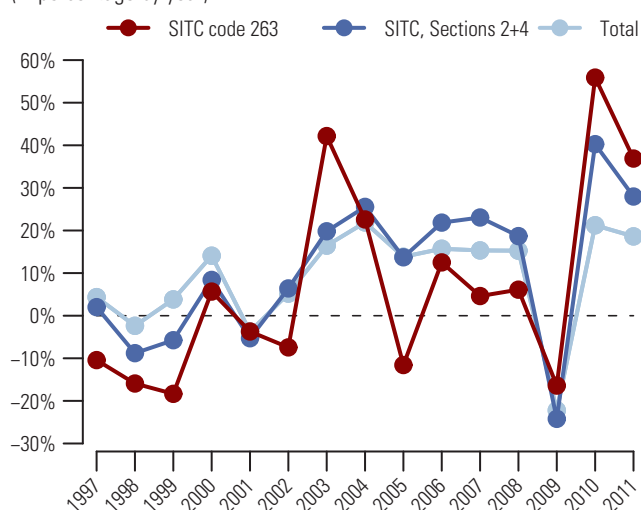

USA, India and Australia were the top exporting countries in 2011 (see table 3). They accounted for 36.8, 15.0 and 10.6 percent of world exports. China was the top destination with 39.4 percent of world imports (see table 3). Other major importing countries were Turkey and Indonesia. By MDG regions (see graph 2), top surpluses were recorded by Developed North America (+8.5 bln US\$), Developed Asia-Pacific (+2.1 bln US\$) and Sub-Saharan Africa (+1.8 bln US\$). Eastern Asia and South-eastern Asia recorded trade deficits amounting respectively to 11.1 bln US\$ and 4.2 bln US\$.

264 Jute, other textile bast fibres, nes, not spun; tow and waste

In 2011, the value (in current prices) of exports of jute, other textile bast fibres, nes, not spun; tow and waste (SITC group 264) increased by 25.0 percent to reach 285.2 mln US\$ (see tables 1 and 2). During the same period, imports also increased by 18.9 percent to reach 348.3 mln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was lower than the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but higher than the increase in total world exports of 18.6 percent. Exports of jute, other textile bast fibres, nes, not spun; tow and waste (SITC group 264) accounted for less than 0.1 percent of both world exports of SITC sections 2+4 and total world exports in 2011 (see table 1).

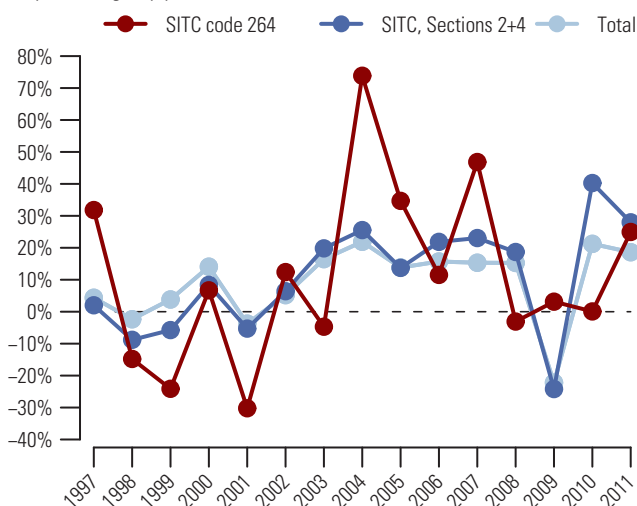

Bangladesh, the top exporting country, accounted for 76.7 percent of world exports in 2011 (see table 2). Other major exporting countries were Kenya and India, respectively with 8.3 and 6.2 percent of world exports. By MDG regions (see graph 2), Southern Asia accounted for a large share of trade in jute, other textile bast fibres, nes, not spun; tow and waste (SITC group 264). In 2011, its exports amounted to 236.9 mln US\$ and imports to 192.4 mln US\$, resulting in a trade surplus of 44.6 mln US\$. Sub-Saharan Africa recorded a trade surplus of 25.1 mln US\$ while Eastern Asia recorded a deficit of 79.9 mln US\$.

Vegetable textile fibres (other than cotton or jute) not spun; waste 265

From 2007 to 2011, the value (in current prices) of exports of vegetable textile fibres (other than cotton or jute) not spun; waste (SITC group 265) increased on average by 6.5 percent and reached 0.9 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports increased on average by 7.3 percent and amounted to 1.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but slightly higher than the increase in total world exports of 18.6 percent. Exports of vegetable textile fibres (other than cotton or jute) not spun; waste (SITC group 265) accounted for 0.1 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

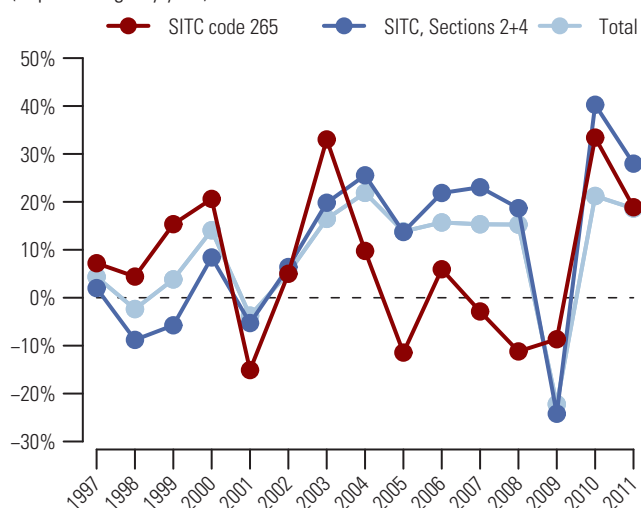

In 2011, France, Belgium and Sri Lanka were the top exporting countries (see table 3). They accounted respectively for 28.0, 19.0 and 12.5 percent of world exports. China, the top destination, accounted for 54.2 percent of world imports (see table 3). Other destinations were Belgium and USA. By MDG regions (see graph 2), Developed Europe's exports amounted to 482.3 mln US\$ compared to 289.2 mln US\$ for imports, resulting in a trade surplus of 193.1 mln US\$. Southern Asia recorded a trade surplus of 200.7 mln US\$ while Eastern Asia recorded a trade deficit of 551.6 mln US\$.

266 Synthetic fibres suitable for spinning

After a 22.9 percent drop in 2009, the value (in current prices) of exports of synthetic fibres suitable for spinning (SITC group 266) bounced back in 2010 and increased even further in 2011 by 26.6 percent to reach 9.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 27.8 percent to amount to 11.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was less than the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but higher than the increase in total world exports of 18.6 percent. Exports of synthetic fibres suitable for spinning (SITC group 266) accounted for 1.0 percent of world exports of SITC sections 2+4 and 0.1 percent of total world exports in 2011 (see table 1).

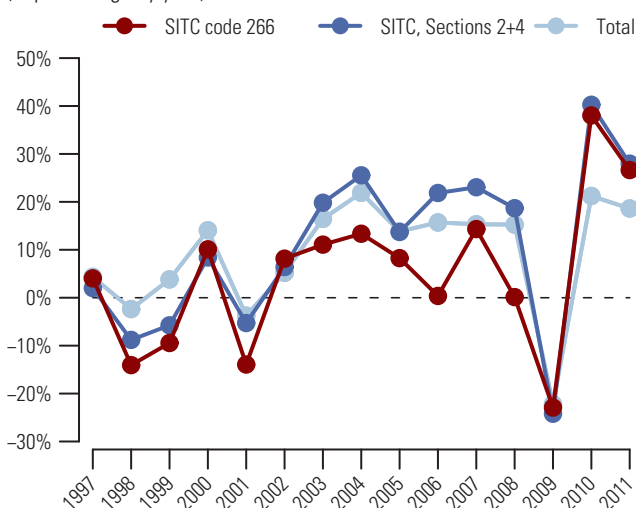

China and Rep. of Korea were the top exporting countries in 2011 (see table 2). They accounted respectively for 17.3 and 14.6 percent of world exports. China, USA and Germany were the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia's exports amounted to 4.0 bln US\$ as compared to 1.3 bln US\$ for imports, resulting in a trade surplus of 2.7 bln US\$. A large trade surplus was also recorded by Developed Asia-Pacific (+0.7 bln US\$). Top trade deficits were recorded by Developed Europe (-1.8 bln US\$), Southern Asia (-0.8 bln US\$) and Western Asia (-0.8 bln US\$).

Other man-made fibres suitable for spinning; waste of man-made fibres 267

After a decline of 18.2 percent in 2009, the value (in current prices) of exports of other man-made fiber suitable for spinning; waste of man-made fibres (SITC group 267) recovered in 2010 and increased even further in 2011 by 16.9 percent to reach 5.0 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 20.7 percent to amount to 6.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of other man-made fiber suitable for spinning; waste of man-made fibres (SITC group 267) accounted for 0.6 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

In 2011, the top exporting countries were USA, Germany and Indonesia (see table 2). They accounted respectively for 21.4, 12.9 and 10.7 percent of world exports. China, Turkey and Germany were the three major destinations (see table 3). By MDG regions (see graph 2), Developed North America, Developed Asia-Pacific and South-eastern Asia recorded trade surpluses amounting respectively to 762.2 mln US\$, 435.7 mln US\$ and 272.7 mln US\$. Significant deficits were recorded by Western Asia (-877.2 mln US\$) and Eastern Asia (-771.9 mln US\$) among others.

268 Wool and other animal hair (including wool tops)

After a 25.2 percent drop in 2009, the value (in current prices) of exports of wool and other animal hair, including wool tops (SITC group 268) bounced back in 2010 and increased even further in 2011 by 36.2 percent to amount to 7.4 bln US\$ (see tables 1 and 2). Similarly, imports increased by 40.2 percent to 7.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of wool and other animal hair, including wool tops (SITC group 268) accounted for 0.8 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

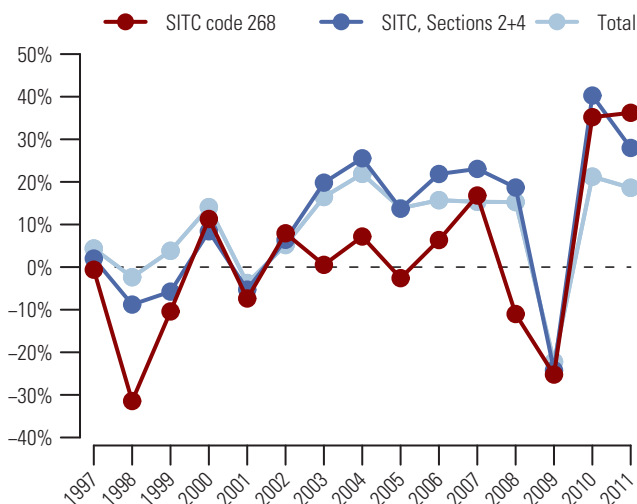

Australia was the top exporting country in 2011: it accounted for 35.9 percent of world exports (see table 2). Other major exporting countries were China and New Zealand, respectively with 15.9 and 8.5 percent of world exports. China, the top destination in 2011, accounted for 38.9 percent of world imports (see table 3). Other major destinations were Italy and Germany. By MDG regions (see graph 2), top surplus was recorded by Developed Asia-Pacific (+3.1 bln US\$). Other surpluses were also recorded by Latin America and the Caribbean (+0.5 bln US\$) and Sub-Saharan Africa (+0.4 bln US\$). Top trade deficits were recorded by Eastern Asia (-2.1 bln US\$) and Developed Europe (-1.4 bln US\$) among others.

From 2007 to 2011, the value (in current prices) of exports of worn clothing and other worn textile articles; rags (SITC group 269) increased on average by 11.6 percent to reach 4.4 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports increased on average by 12.5 percent to 3.6 bln US\$ (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was higher than the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of worn clothing and other worn textile articles; rags (SITC group 269) accounted for 0.5 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

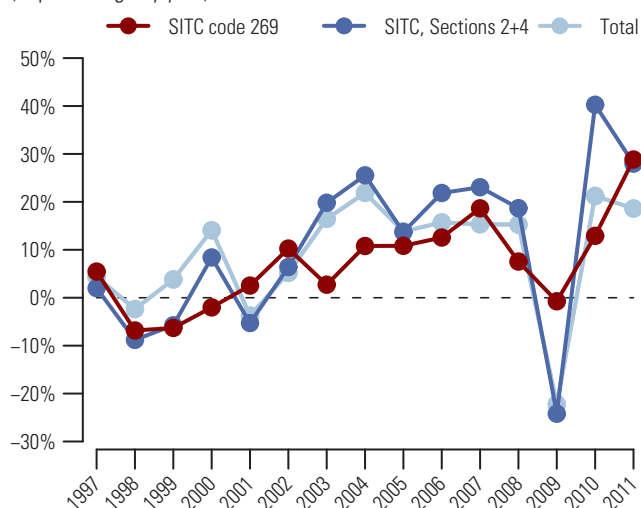

In 2011, USA, United Kingdom and Germany were the top exporting countries (see table 2). They accounted respectively for 15.9, 11.4 and 9.9 percent of world exports. Major destinations were Russian Federation, Pakistan and China (see table 3). By MDG regions (see graph 2), Developed Europe was the origin of a majority of exports of worn clothing and other worn textile articles; rags (SITC group 269). In 2011, its exports were valued at 2.1 bln US\$ compared to 0.8 bln US\$ for imports, resulting in a trade surplus of 1.3 bln US\$. The top trade deficits were recorded by Sub-Saharan Africa (-0.8 bln US\$), Commonwealth of Independent States (-0.3 bln US\$) and Latin America and the Caribbean (-0.2 bln US\$).

272 Fertilizers crude, other than those of division 56

In 2011, the value (in current prices) of exports of crude fertilizer, other than those of division 56 (SITC group 272) increased by 29.0 percent to amount to 4.4 bln US\$ (see tables 1 and 2). This increase follows significant movements in the past five years, with exports significantly increasing in 2008 by 199.0 percent and contracting sharply in 2009 by 50.6 percent (see graph 1). Imports had a similar development and increased by 45.5 percent in 2011 totaling 5.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of crude fertilizer, other than those of division 56 (SITC group 272) accounted for 0.5 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

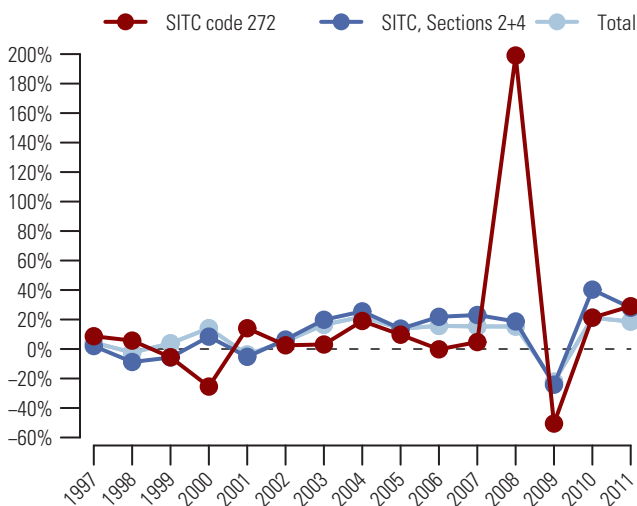

Top exporting countries in 2011 were Morocco, Jordan and Russian Federation (see table 2). They accounted respectively for 29.4, 14.3 and 6.5 percent of world exports. Major destinations were India, USA and Belgium (see table 3). By MDG regions (see graph 2), Southern Asia and Developed Europe accounted for a large share of imports. They recorded trade deficits amounting to 1.4 bln US\$ and 0.9 bln US\$, respectively. Trade surpluses were recorded by Northern Africa (+1.7 bln US\$) and Western Asia (+0.8 bln US\$) among others.

After a 16.8 percent drop in 2009, the value (in current prices) of exports of stone, sand and gravel (SITC group 273) bounced back in 2010 and increased even further in 2011 by 15.5 percent to reach 9.7 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 13.6 percent to amount to 12.3 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group fell below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of stone, sand and gravel (SITC group 273) accounted for 1.1 percent of world exports of SITC sections 2+4 and 0.1 percent total world exports in 2011 (see table 1).

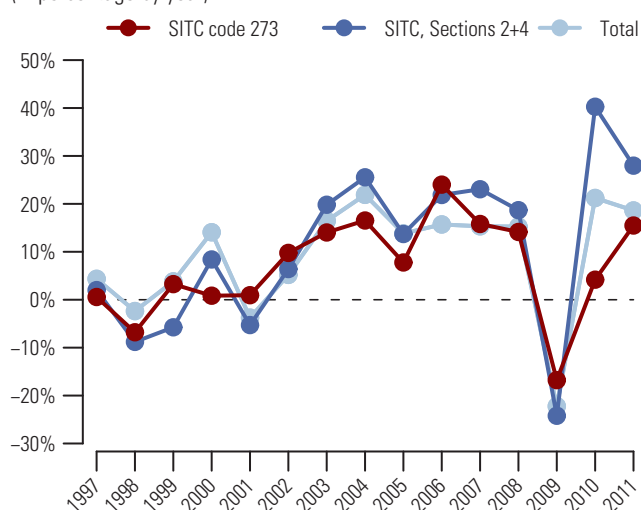

In 2011, Turkey, India and Germany were the top exporting countries (see table 2). They accounted respectively for 9.4, 8.3 and 7.8 percent of world exports. China, Netherlands and Germany were the three major destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in stone, sand and gravel (SITC group 273). In 2011, its exports amounted to 4.3 bln US\$ compared to 4.5 bln US\$ for imports, resulting in a trade deficit of 0.2 bln US\$. Eastern Asia recorded a much larger deficit of 3.1 bln US\$. Western Asia and Southern Asia recorded a surplus amounting to 0.5 and 0.6 bln US\$ respectively.

274 Sulphur and unroasted iron pyrites

In 2011, the value (in current prices) of exports of sulphur and unroasted iron pyrites (SITC group 274) increased by 99.8 percent to amount to 3.6 bln US\$ (see tables 1 and 2). This increase follows significant movements in the past five years, with exports significantly increasing in 2008 by 316.8 percent and contracting sharply in 2009 by 85.2 percent (see graph 1). Imports had a similar development and increased by 59.8 percent in 2011 totaling 5.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group far exceeded the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of sulphur and unroasted iron pyrites (SITC group 274) accounted for 0.4 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

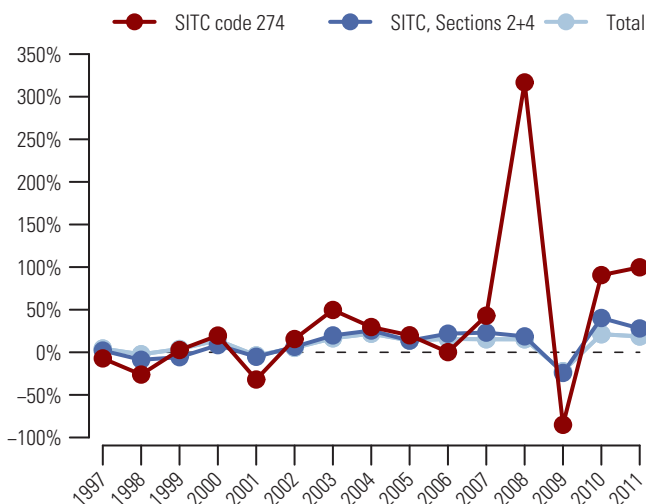

Canada, Russian Federation and Kazakhstan were the top exporting countries in 2011: they accounted respectively for 19.3, 16.4 and 13.9 percent of world exports (see table 2). China, the top destination, accounted for 37.0 percent of world imports (see table 3). Other major destinations were Morocco and India. By MDG regions (see graph 2), top surpluses were recorded by Commonwealth of Independent States (+1.0 bln US\$) and Developed North America (+0.6 bln US\$). Top trade deficits were recorded by Eastern Asia (-1.9 bln US\$), Northern Africa (-0.6 bln US\$), Northern Africa (-0.6 bln US\$) and Latin America and the Caribbean (-0.6 bln US\$).

Natural abrasives, nes (including industrial diamonds) 277

During the recent five years, the value (in current prices) of exports of natural abrasives, nes (SITC group 277) increased on average by 9.4 percent and amounted to 1.7 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports increased on average by 2.0 percent to reach 1.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in the increase in total world exports of 18.6 percent. Exports of natural abrasives, nes (SITC group 277) accounted for 0.2 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

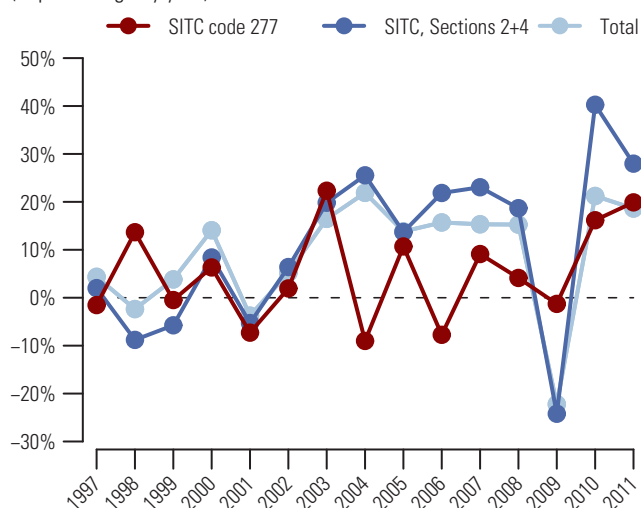

In 2011, the top exporting countries were Zimbabwe, Singapore and China (see table 2). They accounted respectively for 13.2, 12.8 and 10.1 percent of world exports. Singapore, USA and Belgium were the top destinations (see table 3). By MDG regions (see graph 2), Sub-Saharan Africa, Southern Asia and Eastern Asia recorded trade surpluses amounting respectively to 324.2 mln US\$, 146.1 mln US\$ and 111.6 mln US\$. Developed Europe recorded a deficit of 115.1 mln US\$.

278 Other crude minerals

After a 22.0 percent decline in 2009, the value (in current prices) of exports of other crude minerals (SITC group 278) bounced back in 2010 and increased even further in 2011 by 12.6 percent to reach 16.7 bln US\$ (see tables 1 and 2). Similarly, imports increased by 20.0 percent to 23.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of other crude minerals (SITC group 278) accounted for 1.9 percent of world exports of SITC sections 2+4 and 0.1 percent of total world exports in 2011 (see table 1).

In 2011, China, USA and Germany were the top exporting countries (see table 2). They accounted respectively for 15.2, 10.4 and 6.8 percent of world exports. USA, Japan and China were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in other crude minerals (SITC group 278). In 2011, its exports and imports were valued respectively at 5.9 bln US\$ and 8.8 bln US\$. This resulted in a trade deficit of 2.9 bln US\$. Major trade deficits were also recorded by Developed Asia-Pacific (-1.5 bln US\$) and South-eastern Asia (-1.3 bln US\$).

During the recent five years, despite a decline of 15.9 percent in 2009, the value (in current prices) of exports of iron ore and concentrates (SITC group 281) increased on average by 37.2 percent each year and amounted to 144.7 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 29.5 percent each year and amounted to 185.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of iron ore and concentrates (SITC group 281) accounted for 16.3 percent of world exports of SITC sections 2+4 and 0.8 percent of total world exports in 2011 (see table 1).

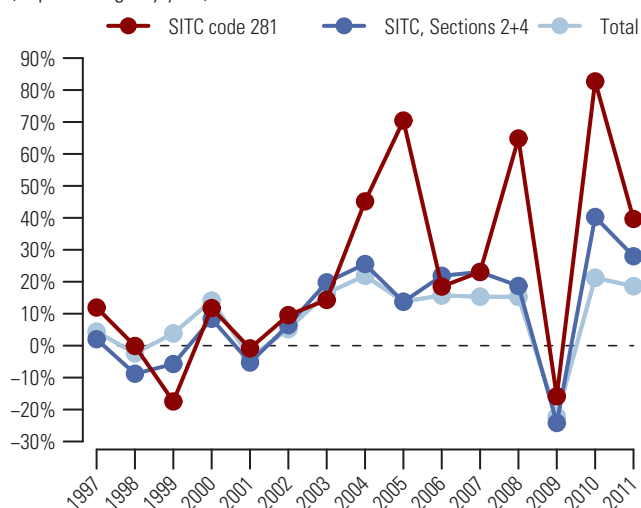

Australia and Brazil were the top exporting countries in 2011 (see table 2). They accounted respectively for 42.3 and 28.9 percent of world exports. China was the destination of a majority of exports (60.7 percent). Other major destinations were Japan and Rep. of Korea (see table 3). By MDG regions (see graph 2), Latin America and the Caribbean and Developed Asia-Pacific recorded trade surpluses amounting respectively to 44.1 bln US\$ and 39.4 bln US\$ while Eastern Asia recorded a deficit of 126.8 bln US\$.

282 Ferrous waste and scrap; remelting scrap ingots of iron or steel

After a sharp decline of 41.2 percent in 2009, the value (in current prices) of exports of ferrous waste and scrap; remelting scrap ingots of iron or steel (SITC group 282) recovered in 2010 and increased even further in 2011 by 25.3 percent to reach 55.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 29.8 percent to amount to 58.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but exceeded the increase in total world exports of 18.6 percent. Exports of ferrous waste and scrap; remelting scrap ingots of iron or steel (SITC group 282) accounted for 6.2 percent of world exports of SITC sections 2+4 and 0.3 percent of total world exports in 2011 (see table 1).

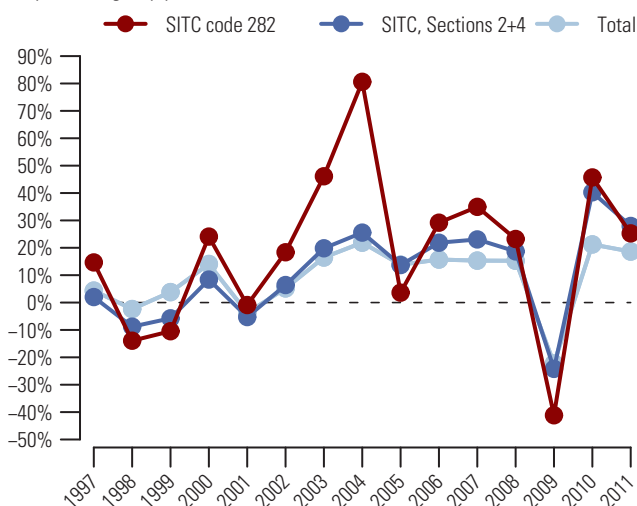

In 2011, USA, Germany and Netherlands were the top exporting countries (see table 2). They accounted respectively for 20.7, 11.0 and 8.2 percent of world exports. Top destinations were Turkey, Rep. of Korea and China (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and the destination of a large share of trade in ferrous waste and scrap; remelting scrap ingots of iron or steel (SITC group 282). Its exports amounted to 27.2 bln US\$ while imports were valued at 22.0 bln US\$ resulting in a trade surplus of 5.2 bln US\$. Developed North America also recorded a surplus of 11.4 bln US\$. Large deficits were recorded by Eastern Asia (-11.0 bln US\$) and Western Asia (-8.6 bln US\$).

Copper ores and concentrates; copper mattes, cement copper 283

After a drop of 7.2 percent in 2009, the value (in current prices) of exports of copper ores and concentrates; copper mattes and cement copper (SITC group 283) bounced back in 2010 and increased even further by 14.7 percent in 2011 to amount to 51.8 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 15.6 percent to 53.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of copper ores and concentrates; copper mattes and cement copper (SITC group 283) accounted for 5.8 percent of world exports of SITC sections 2+4 and 0.3 percent of total world exports in 2011 (see table 1).

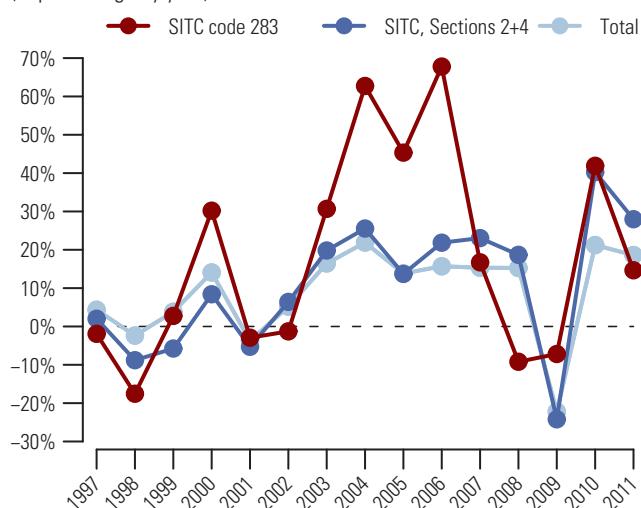

Chile was the top exporting country in 2011: it accounted for 27.7 percent of world exports (see table 2). Other major exporting countries were Peru and Australia. Top destinations were China, Japan and Rep. of Korea (see table 3). By MDG regions (see graph 2), Latin America and the Caribbean was the origin of a majority of exports of copper ores and concentrates; copper mattes and cement copper (SITC group 283). In 2011, its exports amounted to 26.4 bln US\$ and it recorded a trade surplus of 24.4 bln US\$. Large deficits were recorded by Eastern Asia (-20.2 bln US\$), Developed Europe (-6.8 bln US\$) and Developed Asia-Pacific (-6.5 bln US\$).

284 Nickel ores and concentrates; nickel mattes, nickel oxide sinters

After a sharp decline of 43.7 percent in 2009, the value (in current prices) of exports of nickel ores and concentrates; nickel mattes, nickel oxide sinters (SITC group 284) rose significantly in 2010 and further increased in 2011 by 37.9 percent to reach 14.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 37.1 percent to 16.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group far exceeded the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of nickel ores and concentrates; nickel mattes, nickel oxide sinters (SITC group 284) accounted for 1.6 percent of world exports of SITC sections 2+4 and 0.1 percent of total world exports in 2011 (see table 1).

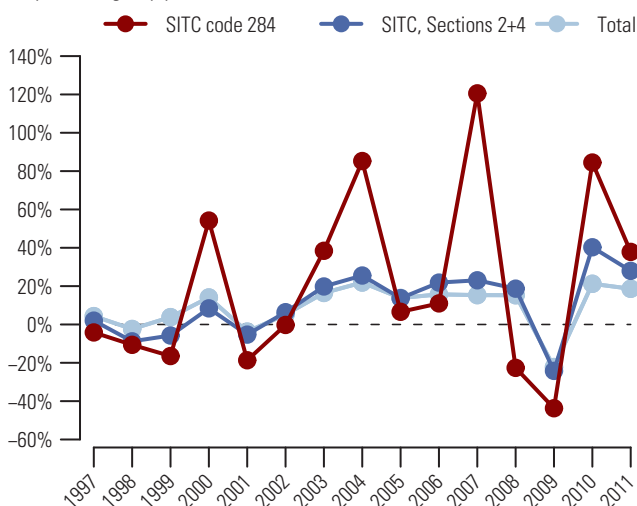

In 2011, Cuba, Canada and Indonesia were the top exporting countries (see table 2). They accounted respectively for 29.4, 23.6 and 18.2 percent of world exports. Top destinations were China, Norway and Japan (see table 3). By MDG regions (see graph 2), Eastern Asia, Developed Europe and Developed Asia-Pacific were the destination of a majority of trade in nickel ores and concentrates; nickel mattes, nickel oxide sinters (SITC group 284): their imports were valued respectively at 7.4 bln US\$, 5.8 bln US\$ and 2.4 bln US\$ with trade deficits of 7.4 bln US\$, 5.5 bln US\$ and 1.3 bln US\$. Major exporting regions were Latin America and the Caribbean (+4.6 bln US\$), South-eastern Asia (+3.0 bln US\$) and Developed North America (+3.0 bln US\$).

After a 36.1 percent drop in 2009, the value (in current prices) of exports of aluminium ores and concentrates (SITC group 285) bounced back in 2010 and increased even further in 2011 by 5.3 percent to reach 14.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 12.0 percent to amount to 16.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group fell below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of aluminium ores and concentrates (SITC group 285) accounted for 1.6 percent of world exports of SITC sections 2+4 and 0.1 percent total world exports in 2011 (see table 1).

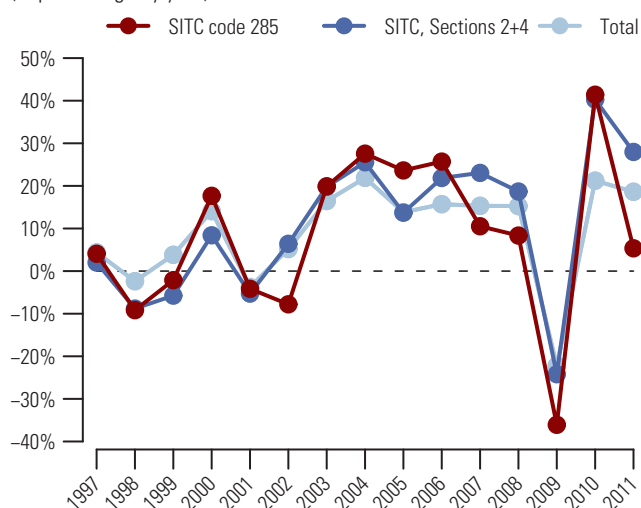

Australia was the top exporting country in 2011: it accounted for more than a third (36.2 percent) of exports (see table 2). Other major exporting countries were Brazil and USA. Top destinations were China, Canada and Russian Federation (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Developed Asia-Pacific (+4.9 bln US\$) and Latin America and the Caribbean (+2.9 bln US\$) while top deficits were recorded by Eastern Asia (-3.0 bln US\$), Developed Europe (-2.4 bln US\$) and Developed North America (-2.2 bln US\$).

287 Ores and concentrates of base metals, nes

After a drop of 38.9 percent in 2009, the value (in current prices) of exports of ores and concentrates of base metals, nes (SITC group 287) bounced back in 2010 and further increased in 2011 by 20.9 percent to amount to 33.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 21.5 percent to 38.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group fell below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but slightly exceeded the increase in total world exports of 18.6 percent. Exports of ores and concentrates of base metals, nes (SITC group 287) accounted for 3.8 percent of world exports of SITC sections 2+4 and 0.2 percent of total world exports in 2011 (see table 1).

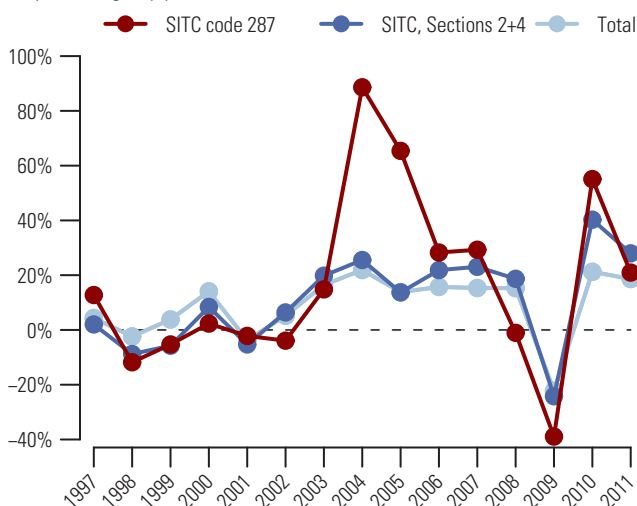

In 2011, Australia, South Africa and Peru were the top exporting countries (see table 2). They accounted respectively for 13.1, 12.9 and 10.8 percent of world exports. China was the top destination with 36.1 percent of world imports (see table 3). Other top destinations were Rep. of Korea and Japan. By MDG regions (see graph 2), top surpluses were recorded by Latin America and the Caribbean (+7.5 bln US\$) and Sub-Saharan Africa (+7.0 bln US\$) while top deficits were recorded by Eastern Asia (-17.1 bln US\$) and Developed Europe (-5.4 bln US\$).

Non-ferrous base metal waste and scrap, nes 288

After a decline of 31.4 percent in 2009, the value (in current prices) of exports of non-ferrous base metal waste and scrap, nes (SITC group 288) recovered in 2010 and increased even further in 2011 by 23.3 percent to reach 46.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 28.7 percent to amount to 59.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but higher than the increase in total world exports of 18.6 percent. Exports of non-ferrous base metal waste and scrap, nes (SITC group 288) accounted for 5.2 percent of world exports of SITC sections 2+4 and 0.3 percent of total world exports in 2011 (see table 1).

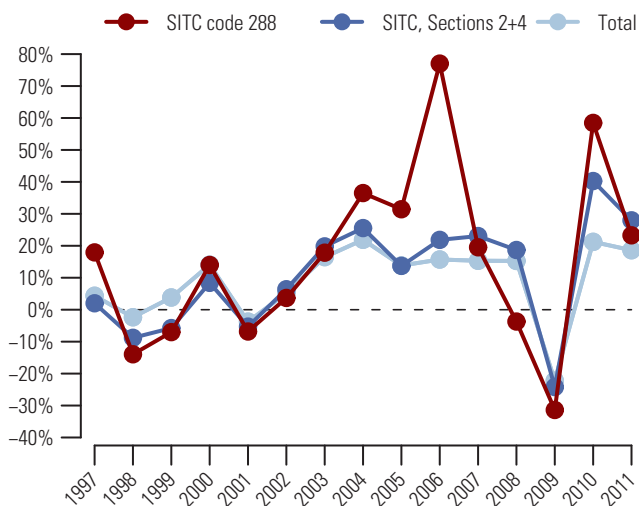

In 2011, USA, Germany and United Kingdom were the top exporting countries (see table 2). They accounted respectively for 20.2, 11.1 and 7.6 percent of world exports. China was the top destination with 35.3 percent of world imports (see table 3). Other major destinations were Germany and Japan. By MDG regions (see graph 2), Developed Europe was the origin and the destination of a large share of trade in non-ferrous base metal waste and scrap, nes (SITC group 288). In 2011, its exports and imports amounted respectively to 22.7 bln US\$ and 22.0 bln US\$ resulting in a trade surplus of 0.7 bln US\$. Eastern Asia was another major destination: its imports were valued at 25.8 bln US\$ and it recorded a trade deficit of 24.6 bln US\$. Trade surpluses were recorded by Developed North America (+8.5 bln US\$) and Latin America and the Caribbean (+2.5 bln US\$).

289 Ores, concentrates of precious metals; waste, scrap and sweepings (no gold)

After a drop of 20.7 percent in 2009, the value (in current prices) of exports of ores, concentrates of precious metals; waste, scrap and sweepings (SITC group 289) bounced back in 2010 and increased even further in 2011 by 15.8 percent to amount to 19.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 41.1 percent to 15.5 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group fell below the increases in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and in total world exports of 18.6 percent. Exports of ores, concentrates of precious metals; waste, scrap and sweepings (SITC group 289) accounted for 2.2 percent of world exports of SITC sections 2+4 and 0.1 percent of total world exports in 2011 (see table 1).

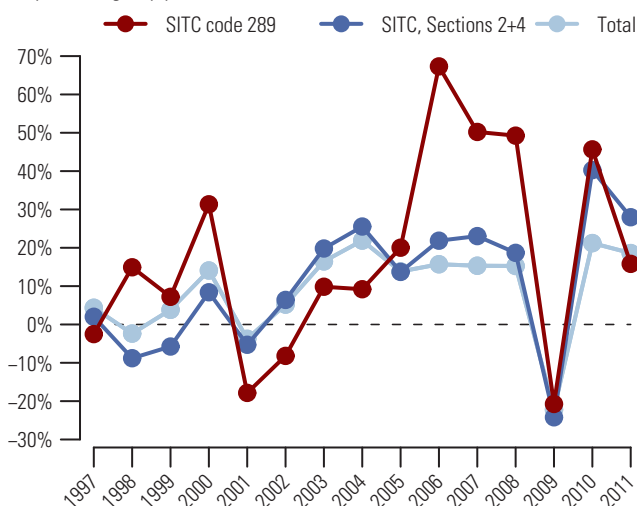

USA was the top exporting country in 2011: it accounted for 27.9 percent of world exports (see table 2). Other major exporting countries were Germany and Bolivia, respectively with 9.5 and 5.7 percent of world exports. Top destinations were Germany, United Kingdom and USA (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Latin America and the Caribbean (+3.6 bln US\$) and Developed North America (+3.3 bln US\$). Top trade deficits were recorded by Developed Europe (-4.1 bln US\$) and Eastern Asia (-1.7 bln US\$).

During the recent five years, despite a decline of 10.2 percent in 2009, the value (in current prices) of exports of crude animal materials, nes (SITC group 291) increased on average by 10.8 percent each year and amounted to 8.9 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 9.9 percent each year and amounted to 8.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but was higher than the increase in total world exports of 18.6 percent. Exports of crude animal materials, nes (SITC group 291) accounted for 1.0 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

In 2011, China, Germany and USA were the top exporting countries (see table 2). They accounted respectively for 20.6, 10.4 and 9.4 percent of world exports. Germany, USA and Japan were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and the destination of a large share of trade in crude animal materials, nes (SITC group 291). In 2011, its exports were valued at 3.5 bln US\$ and imports at 4.2 bln US\$, resulting in a trade deficit of 0.7 bln US\$. Significant trade surpluses were recorded by Eastern Asia (+1.2 bln US\$), Latin America and the Caribbean (+0.3 bln US\$) and Southern Asia (+0.2 bln US\$).

292 Crude vegetable materials, nes

In 2011, the value (in current prices) of exports of crude vegetable materials, nes (SITC group 292) increased by 24.5 percent to reach 39.2 bln US\$ (see tables 1 and 2). During the same period, imports also increased by 20.2 percent to reach 37.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was lower than the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent but higher than the increase in total world exports of 18.6 percent. Exports of crude vegetable materials, nes (SITC group 292) accounted for 4.4 percent of world exports of SITC sections 2+4 and 0.2 percent of total world exports in 2011 (see table 1).

Netherlands was the top exporting country in 2011: it accounted for 32.6 percent of world exports (see table 2). Other major exporting countries were India and China, respectively with 6.6 and 6.0 percent of world exports. USA, Germany and Netherlands were the top destinations (see table 3). By MDG regions (see graph 2), a majority of trade in crude vegetable materials, nes (SITC group 292) occurred in Developed Europe. In 2011, its exports amounted to 22.2 bln US\$ and imports were valued at 19.6 bln US\$, resulting in a trade surplus of 2.6 bln US\$. A large trade surplus was also recorded by Southern Asia (+2.3 bln US\$). Top trade deficits were recorded by Developed North America (-2.5 bln US\$), Commonwealth of Independent States (-1.7 bln US\$) and Developed Asia-Pacific (-1.5 bln US\$).

**Mineral fuels, lubricants and related materials
(SITC Section 3)**

321 Coal, whether or not pulverized, but not agglomerated

After a decline of 14.4 percent in 2009, the value (in current prices) of exports of coal, whether or not pulverized, but not agglomerated (SITC group 321) recovered in 2010 and increased even further in 2011 by 30.6 percent to reach its peak of 134.8 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 31.2 percent to amount to 151.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent but was higher than the increase in total world exports of 18.6 percent (see graph 1). Exports of coal, whether or not pulverized, but not agglomerated (SITC group 321) accounted for 4.6 percent of world exports of SITC section 3 and 0.8 percent of total world exports in 2011 (see table 1).

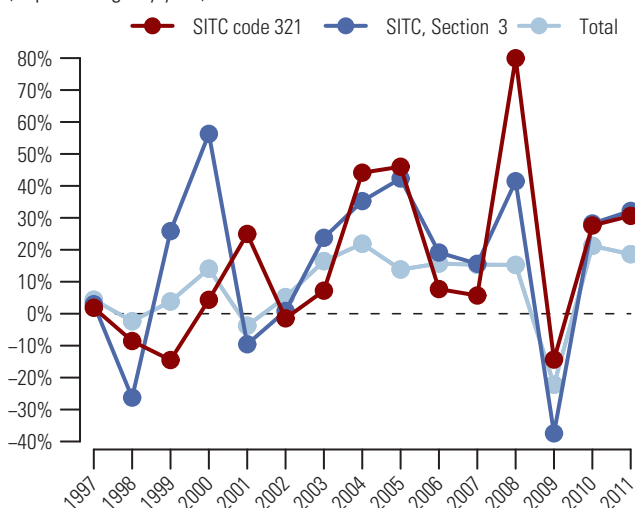

In 2011, Australia was the top exporting country (see table 2). Its exports increased by 13.2 percent and represented 32.4 percent of world exports. Other major exporting countries were Indonesia and USA, respectively with 18.9 and 11.8 percent of world exports. Top destinations were Japan, China and Rep. of Korea (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by South-eastern Asia (+22.9 bln US\$), Developed North America (+21.6 bln US\$) and Developed Asia-Pacific (+12.7 bln US\$). Top trade deficits were recorded by Eastern Asia (-44.4 bln US\$), Developed Europe (-27.8 bln US\$) and Southern Asia (-15.1 bln US\$).

From 2007 to 2011, the value (in current prices) of exports of briquettes, lignite and peat (SITC group 322) increased on average by 39.5 percent each year to reach 4.7 bln US\$ in 2011 (see table 2). During the same period, imports increased on average by 40.7 percent to 5.6 bln US\$ (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was above the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent and the increase in total world exports of 18.6 percent. Exports of briquettes, lignite and peat (SITC group 322) accounted for 0.2 percent of world exports of mineral fuels, lubricants and related materials (SITC section 3) and less than 0.1 percent of total world exports in 2011 (see table 1).

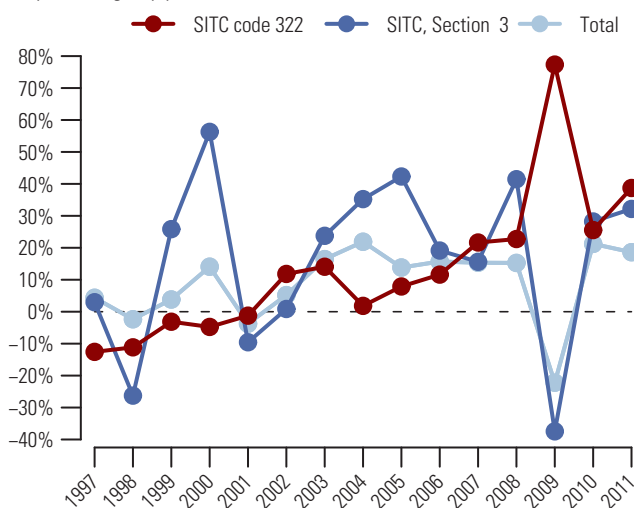

Indonesia, Uzbekistan and Germany were the top exporting countries in 2011 (see table 2). They accounted respectively for 36.5, 19.9 and 8.4 percent of world exports. China, Afghanistan and USA were the top destinations (see table 3). By MDG regions (see graph 2), large surpluses were recorded by South-eastern Asia (+1.7 bln US\$) and Commonwealth of Independent States (+1.1 bln US\$). Significant deficits were recorded by Eastern Asia (-3.1 bln US\$) and Southern Asia (-0.6 bln US\$).

325 Coke, semi-coke of coal, lignite or peat, agglomerated or not; retort carbon

After a huge drop of 71.5 percent in 2009, the value (in current prices) of exports of coke, semi-coke of coal, lignite or peat, agglomerated or not; retort carbon (SITC group 325) bounced back in 2010 and increased even further in 2011 by 14.2 percent to amount to 9.3 bln US\$ (see tables 1 and 2). Imports had an increase of 20.5 percent to 11.0 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent and the increase in total world exports of 18.6 percent. Exports of coke, semi-coke of coal, lignite or peat, agglomerated or not; retort carbon (SITC group 325) accounted for 0.3 percent of world exports of SITC section 3 and 0.1 percent of total world exports in 2011 (see table 1).

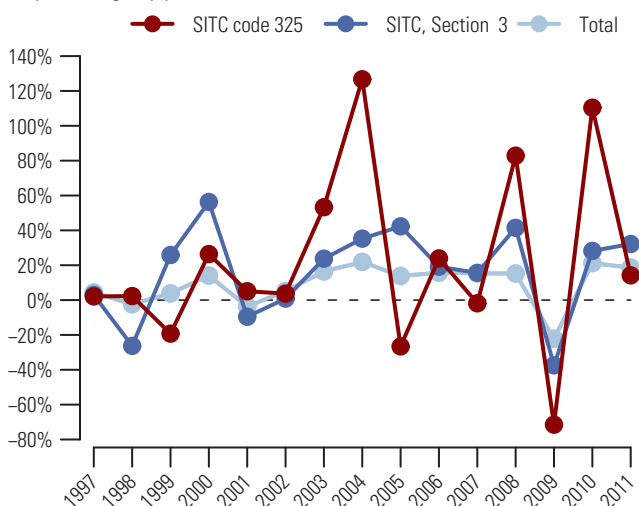

In 2011, top exporting countries were Poland, China and Ukraine (see table 2). They accounted respectively for 30.1, 16.1 and 8.1 percent of world exports. Germany, India and Brazil were the top destinations (see table 3). By MDG regions (see graph 2), a majority of trade in coke, semi-coke of coal, lignite or peat, agglomerated or not; retort carbon (SITC group 325) occurred in Developed Europe. In 2011, its exports and imports were on par at 4.3 bln US\$. Eastern Asia recorded a surplus of 1.1 bln US\$ while Southern Asia recorded a deficit of 1.5 bln US\$.

Petroleum oils and oils obtained from bituminous minerals, crude 333

After a decline of 41.5 percent in 2009, the value (in current prices) of exports of crude petroleum oils and oils obtained from bituminous minerals (SITC group 333) bounced back in 2010 and increased even further in 2011 by 30.9 percent to amount to 1,437.3 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 33.0 percent to 1,627.6 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was slightly below the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent but was much higher than the increase in total world exports of 18.6 percent. Exports of crude petroleum oils and oils obtained from bituminous minerals (SITC group 333) accounted for 48.9 percent of world exports of SITC section 3 and 8.1 percent of total world exports in 2011 (see table 1).

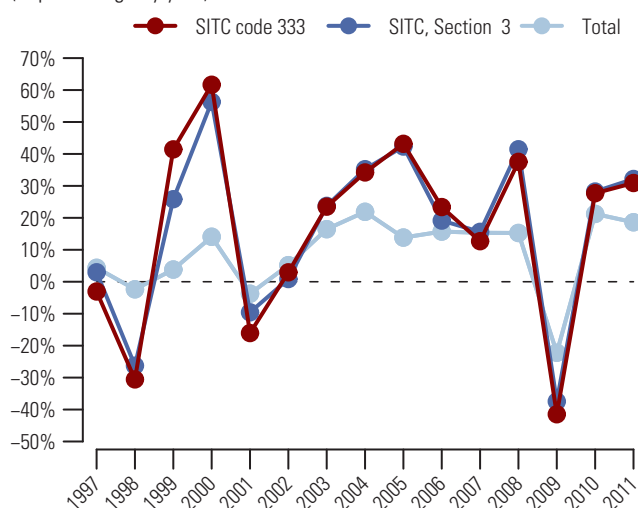

In 2011, the top exporting countries were Saudi Arabia, Russian Federation and United Arab Emirates (see table 2). They accounted respectively for 19.1, 11.9 and 6.4 percent of world exports. USA, the top importing country, accounted for 21.1 percent of world imports (see table 3). Other major importing countries were China and Japan. By MDG regions (see graph 2), top trade surpluses were recorded by Western Asia (+493.9 bln US\$), Commonwealth of Independent States (+234.6 bln US\$) and Sub-Saharan Africa (+181.9 bln US\$). Top trade deficits were recorded by Developed Europe (-344.5 bln US\$), Eastern Asia (-326.2 bln US\$) and Developed North America (-300.6 bln US\$).

334 Petroleum oils and oils obtained from bituminous minerals, (not crude)

From 2007 to 2011, despite a decline of 35.4 percent in 2009, the value (in current prices) of exports of non-crude petroleum oils and oils obtained from bituminous minerals (SITC group 334) increased on average by 15.0 percent each year and amounted to 958.0 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 14.9 percent each year and amounted to 870.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase of 41.5 percent in exports for 2011 in this product group exceeded both the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent and the increase in total world exports of 18.6 percent. Exports of non-crude petroleum oils and oils obtained from bituminous minerals (SITC group 334) accounted for 32.6 percent of world exports of SITC section 3 and 5.4 percent of total world exports in 2011 (see table 1).

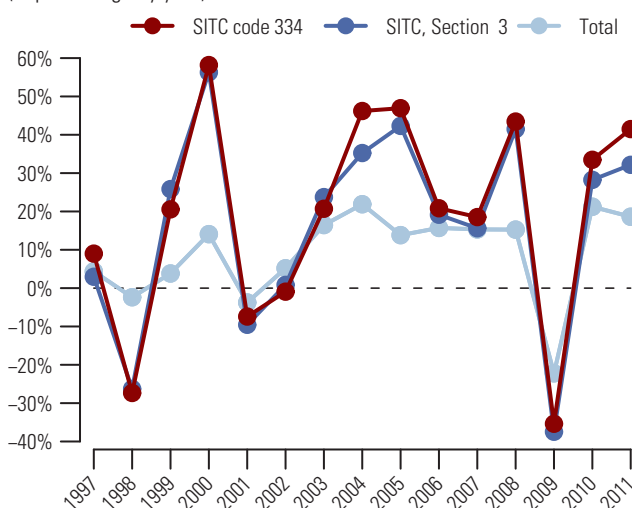

In 2011, Russian Federation, USA and Singapore were the top exporting countries: they accounted respectively for 9.5, 9.5 and 8.3 percent of world exports (see table 2). USA, Singapore and Netherlands were among the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the majority of trade in non-crude petroleum oils and oils obtained from bituminous minerals (SITC group 334). In 2011, its exports and imports were valued at 274.6 bln US\$ and bln 270.2 US\$ respectively, resulting in a trade surplus of 4.4 bln US\$. Commonwealth of Independent States recorded a large surplus of 93.6 bln US\$ while South-eastern Asia recorded a deficit of 34.9 bln US\$.

Residual petroleum products, nes, and related materials 335

After a decline of 31.5 percent in 2009, the value (in current prices) of exports of residual petroleum products, nes, and related materials (SITC group 335) bounced back in 2010 and increased even further by 39.3 percent to amount to 51.0 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 32.8 percent to 50.9 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was above the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent and much higher than the increase in total world exports of 18.6 percent. Exports of residual petroleum products, nes, and related materials (SITC group 335) accounted for 1.7 percent of world exports of SITC section 3 and 0.3 percent of total world exports in 2011 (see table 1).

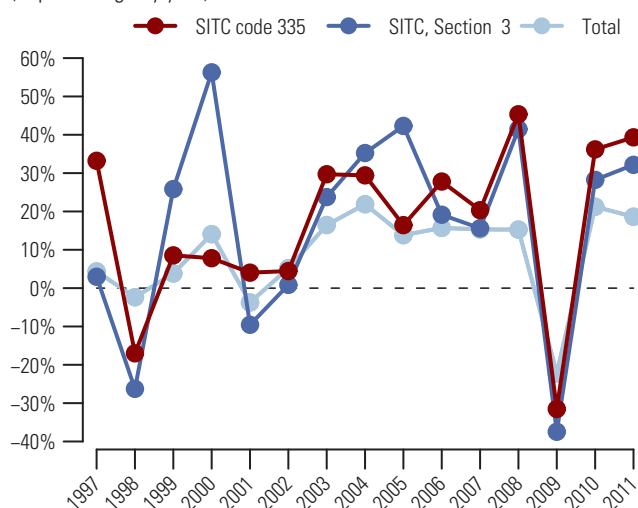

Exports of USA, the top exporting country in 2011, increased by 38.6 percent and represented 19.3 percent of world exports (see table 2). Other major exporting countries were Spain and Netherlands, with respectively 9.7 and 6.4 percent of world exports. China, Netherlands and USA were the top destinations (see table 3). By MDG regions (see graph 2), Developed North America and South-eastern Asia recorded trade surpluses amounting respectively of 7.2 bln US\$ and 2.6 bln US\$. Top trade deficits were recorded by Eastern Asia (-6.7 bln US\$), Latin America and the Caribbean (-3.9 bln US\$) and Developed Asia-Pacific (-1.5 bln US\$).

342 Liquefied propane and butane

In 2011, the value (in current prices) of exports of liquefied propane and butane (SITC group 342) increased by 41.5 percent to reach 56.7 bln US\$ (see tables 1 and 2). During the same period, imports also increased by 34.6 percent to reach 58.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was higher than the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent and the increase in total world exports of 18.6 percent. Exports of liquefied propane and butane (SITC group 342) accounted for 1.9 percent of world exports of SITC section 3 and 0.3 percent of total world exports in 2011 (see table 1).

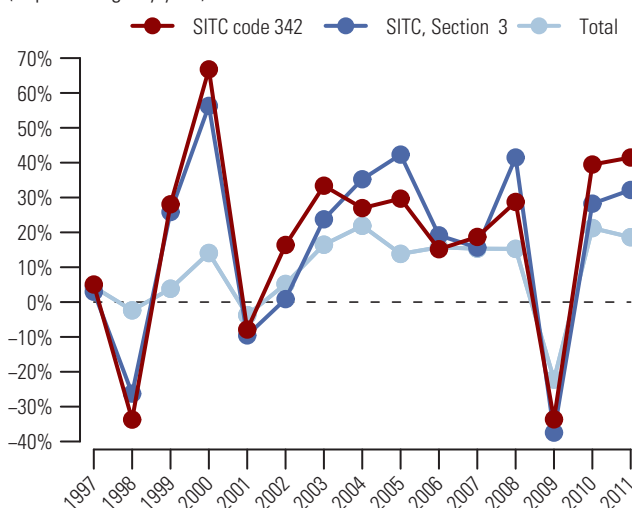

The top exporting countries in 2011 were Saudi Arabia, Qatar and Algeria (see table 2). They accounted respectively for 14.3, 13.6 and 9.7 percent of world exports. Top destinations were Japan, Rep. of Korea and India (see table 3). By MDG regions (see graph 2), large surpluses were recorded by Western Asia (+17.7 bln US\$), Sub-Saharan Africa (+5.4 bln US\$) and Developed North America (+2.4 bln US\$). Top trade deficits were recorded by Developed Asia-Pacific (-10.6 bln US\$), Eastern Asia (-8.8 bln US\$) and Developed Europe (-4.3 bln US\$).

After a drop of 29.7 percent in 2009, the value (in current prices) of exports of natural gas, whether or not liquefied (SITC group 343) recovered in 2010 and increased even further in 2011 by 9.4 percent to amount to 240.1 bln US\$ (see table 2). Reported imports increased by 37.2 percent to reach 341.6 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was less than the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent and lower than the increase in total world exports of 18.6 percent. Exports of natural gas, whether or not liquefied (SITC group 343) accounted for 8.2 percent of world exports of SITC section 3 and 1.3 percent of total world exports in 2011 (see table 1).

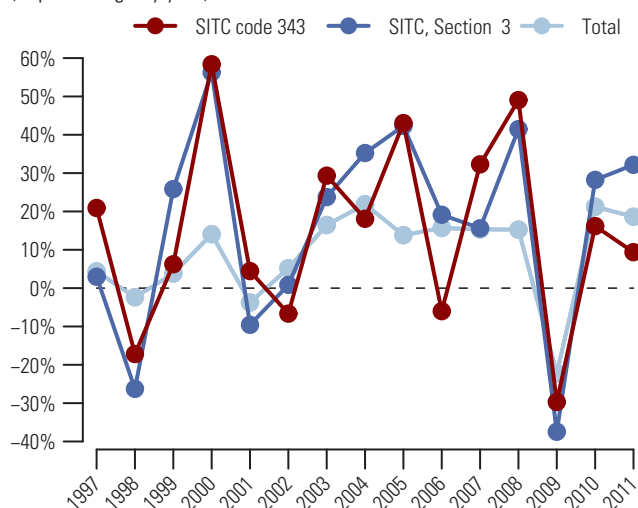

In 2011, Qatar, Norway and Indonesia were the top exporting countries (see table 2). They accounted respectively for 15.4, 14.6 and 9.4 percent of world exports (see table 2). Japan, Germany and Italy were the major destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of imports of natural gas, whether or not liquefied (SITC group 343): its imports amounted to 166.2 bln US\$ compared to 64.1 bln US\$ for exports, resulting in a trade deficit of 102.1 bln US\$. Major deficits were also recorded by Developed Asia-Pacific (-51.9 bln US\$) and Eastern Asia (-42.6 bln US\$). Top surpluses were recorded by Western Asia (+44.4 bln US\$), South-eastern Asia (+39.4 bln US\$) and Northern Africa (+24.4 bln US\$).

344 Petroleum gases and other gaseous hydrocarbons, nes

After a sharp decline of 73.1 percent in 2009, the value (in current prices) of exports of petroleum gases and other gaseous hydrocarbons, nes (SITC group 344) bounced back in 2010 and increased even further in 2011 by 37.7 percent to amount to 11.6 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 28.4 percent to 14.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent and was also higher than the increase in total world exports of 18.6 percent. Exports of petroleum gases and other gaseous hydrocarbons, nes (SITC group 344) accounted for 0.4 percent of world exports of SITC section 3 and 0.1 percent of total world exports in 2011 (see table 1).

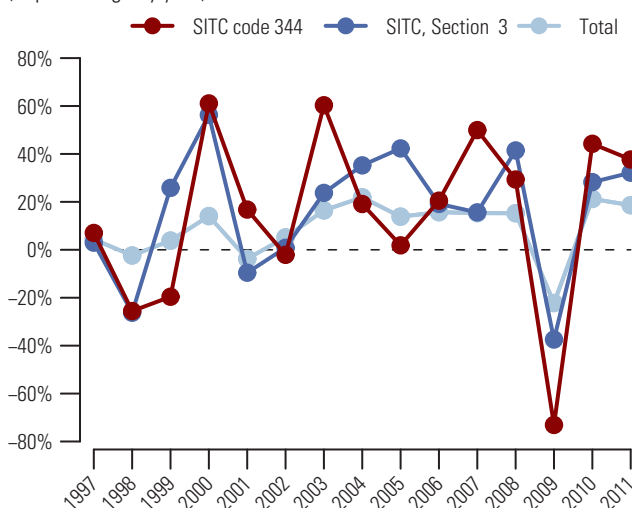

In 2011, top exporting countries were Iran, Malaysia and Canada (see table 2). They accounted for 20.8, 9.9 and 8.4 percent of world exports. Turkey, USA and Belgium were the major destinations (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Southern Asia (+1.1 bln US\$), Commonwealth of Independent States (+0.5 bln US\$) and South-eastern Asia (+0.5 bln US\$). Top trade deficits were recorded by Western Asia (-2.6 bln US\$) and Latin America and the Caribbean (-0.8 bln US\$).

During the recent five years, despite a decline of 20.7 percent in 2009, the value (in current prices) of exports of electric current (SITC group 351) increased on average by 8.5 percent each year and amounted to 38.0 bln US\$ (see tables 1 and 2). During the same period, imports increased on average by 10.5 percent each year and amounted to 37.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase of 21.9 percent in exports for 2011 in this product group was exceeded by the increase in world exports of mineral fuels, lubricants and related materials (SITC section 3) of 32.2 percent but was higher than the increase in total world exports of 18.6 percent. Exports of electric current (SITC group 351) accounted for 1.3 percent of world exports of SITC section 3 and 0.2 percent of total world exports in 2011 (see table 1).

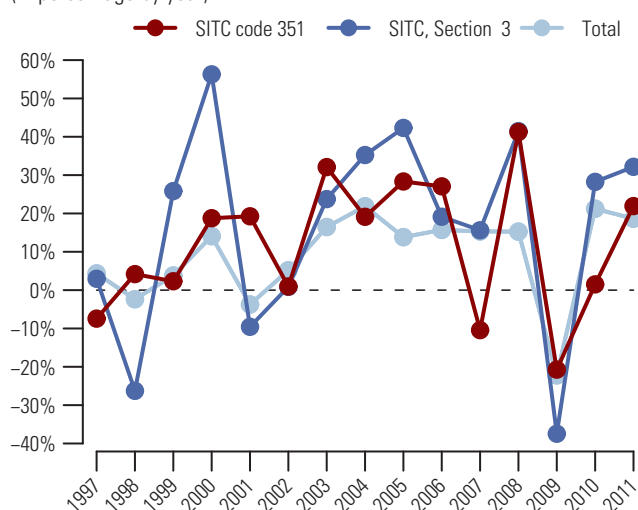

In 2011, Switzerland, France and Germany were the major exporting countries (see table 2). They accounted respectively for 16.9, 11.4 and 10.7 percent of world exports. Top destinations were Switzerland, Italy and Germany (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in electric current (SITC group 351). In 2011, its exports and imports were on par at 28.2 bln US\$. A surplus of 1.2 bln US\$ was recorded by Commonwealth of Independent States. Significant deficits were recorded by South-eastern Asia (-0.6 bln US\$) and Sub-Saharan Africa (-0.5 bln US\$).

**Animal and vegetable oils, fats and waxes
(SITC Section 4)**

411 Animal oils and fats

After a decline of 28.8 percent in 2009, the value (in current prices) of exports of animal oils and fats (SITC group 411) bounced back in 2010 and increased even further in 2011 by 35.2 percent to reach 6.3 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 37.5 percent to 6.2 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of animal oils and fats (SITC group 411) accounted for 0.7 percent of world exports of SITC sections 2+4 and less than 0.1 percent of total world exports in 2011 (see table 1).

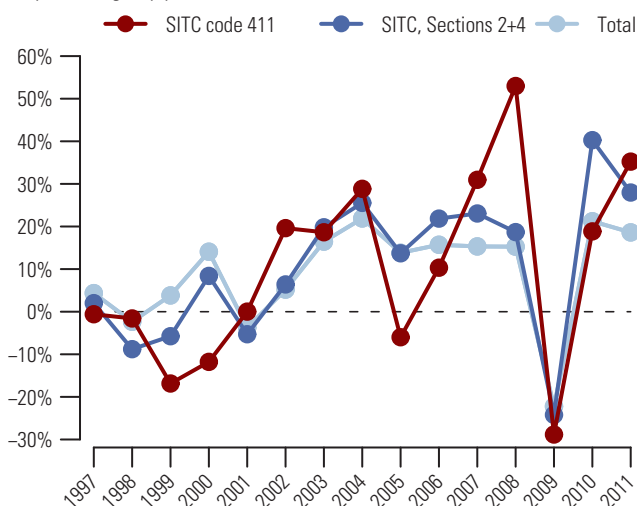

USA was the top exporting country in 2011: it accounted for 20.7 percent of world exports (see table 2). Other major exporting countries were Germany and France. They accounted respectively for 8.5 and 7.3 percent of world exports. Major destinations were Mexico, Russian Federation and China (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and the destination of a large share of trade in animal oils and fats (SITC group 411). In 2011, its exports amounted to 3.1 bln US\$ compared to 2.5 bln US\$ for imports, resulting in a trade surplus of 0.6 bln US\$. Developed North America also recorded a surplus amounting to 1.2 bln US\$. Significant deficits were recorded by Commonwealth of Independent States and Eastern Asia amounting both to 0.5 bln US\$.

Fixed vegetable fats and oils, 'soft', crude, refined or fractionated 421

Following a sharp decline of 28.3 percent in 2009, the exports value (in current prices) of fixed vegetable fats and oils, 'soft', crude, refined or fractionated (SITC group 421) recovered in 2010 and increased further in 2011 by 34.2 percent to reach its peak of 38.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 36.4 percent to amount to 37.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent. Exports of fixed vegetable fats and oils, 'soft', crude, refined or fractionated (SITC group 421) accounted for 4.3 percent of world exports of SITC sections 2+4 and 0.2 percent of total world exports in 2011 (see table 1).

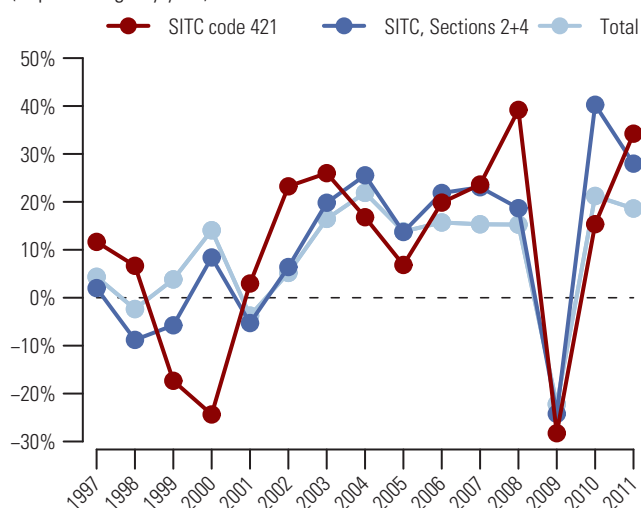

Argentina, Spain and Canada were the top exporting countries, respectively with 17.3, 8.9 and 8.7 percent of world exports in 2011 (see table 2). Major destinations were USA, Italy and China (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and the destination of a large share of trade in fixed vegetable fats and oils, 'soft', crude, refined or fractionated (SITC group 421). In 2011, its exports and imports were valued at respectively 14.2 bln US\$ and 14.3 bln US\$, resulting in a trade deficit of 0.1 bln US\$. Top trade surplus was recorded by Latin America and the Caribbean (+6.6 bln US\$), while major deficits were recorded by Southern Asia (-3.9 bln US\$) and Eastern Asia (-2.9 bln US\$).

422 Fixed vegetable fats and oils, crude, refined or fractionated, not 'soft'

Following a sharp decline of 25.0 percent in 2009, the value (in current prices) of exports of fixed vegetable fats and oils, crude, refined or fractionated, not 'soft' (SITC group 422) recovered in 2010 and increased further in 2011 by 36.2 percent to reach its peak of 50.0 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 42.2 percent to amount to 52.0 bln US\$ (see tables 1 and 3). In 2011, the increase in exports for this product group exceeded both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of fixed vegetable fats and oils, crude, refined or fractionated, not 'soft' (SITC group 422) accounted for 5.6 percent of world exports of SITC sections 2+4 and 0.3 percent of total world exports in 2011 (see table 1).

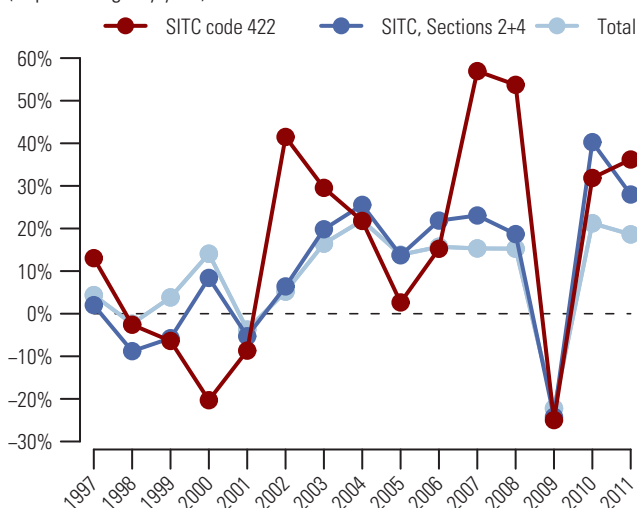

Indonesia and Malaysia were the top two exporting countries in 2011 (see table 2). They accounted respectively for 40.6 and 38.0 percent of world exports. China, India and Malaysia were the top destinations (see table 3). By MDG regions (see graph 2), South-eastern Asia accounted for a majority of exports of fixed vegetable fats and oils, crude, refined or fractionated, not 'soft' (SITC group 422). In 2011, its exports amounted to 41.6 bln US\$ while imports were valued at 5.5 bln US\$ resulting in a trade surplus of 36.1 bln US\$. Top trade deficits were recorded by Southern Asia (-10.6 bln US\$), Eastern Asia (-8.7 bln US\$) and Developed Europe (-7.9 bln US\$).

Animal or vegetable fats and oils, processed; waxes of; inedible 431

Following a sharp decline of 30.9 percent in 2009, the value (in current prices) of exports of animal or vegetable fats and oils, processed; waxes of; inedible (SITC group 431) recovered in 2010 and increased further in 2011 by 45.2 percent to reach its peak of 14.3 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 46.8 percent to amount to 13.0 bln US\$ (see tables 1 and 3). In 2011, the increase in exports for this product group exceeded both the increase in world exports of crude materials (excluding fuels), oils, fats (SITC sections 2+4) of 28.0 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of animal or vegetable fats and oils, processed; waxes of; inedible (SITC group 431) accounted for 1.6 percent of world exports of SITC sections 2+4 and 0.1 percent of total world exports in 2011 (see table 1).

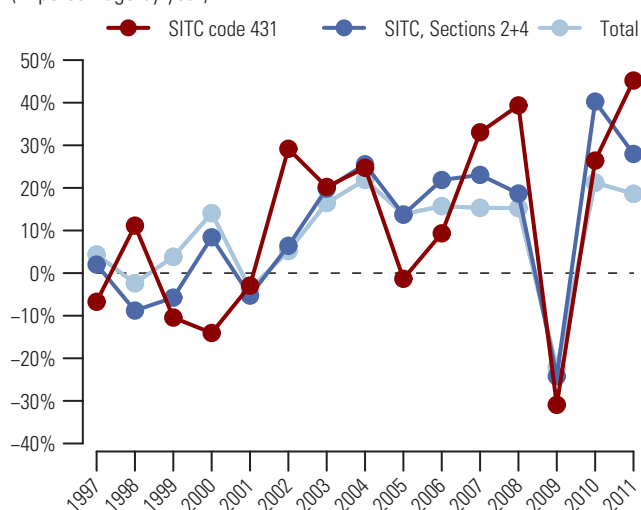

Malaysia, Netherlands and Indonesia were the top exporting countries in 2011 (see table 2). They accounted respectively for 32.1, 11.6, and 10.9 percent of world exports. Top destinations were Germany, Netherlands and China (see table 3). By MDG regions (see graph 2), a significant surplus was recorded by South-eastern Asia at 5.1 bln US\$. Top trade deficits were recorded by Developed Europe (-1.4 bln US\$), Eastern Asia (-1.2 bln US\$) and Sub-Saharan Africa (-0.3 bln US\$).

**Chemicals and related products, n.e.s.
(SITC Section 5)**

511 Hydrocarbons, nes, and their derivatives

In 2011, the value (in current prices) of exports of hydrocarbons, nes, and their derivatives (SITC group 511) increased by 30.9 percent and reached its peak of 93.9 bln US\$ (see tables 1 and 2). Similar to exports, imports also reached its peak of 97.7 bln US\$ following an increase of 29.4 percent in 2011 (see tables 1 and 3). In 2011, the increase in exports in this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of hydrocarbons, nes, and their derivatives (SITC group 511) accounted for 4.8 percent of world exports of SITC section 5 and 0.5 percent of total world exports in 2011 (see table 1).

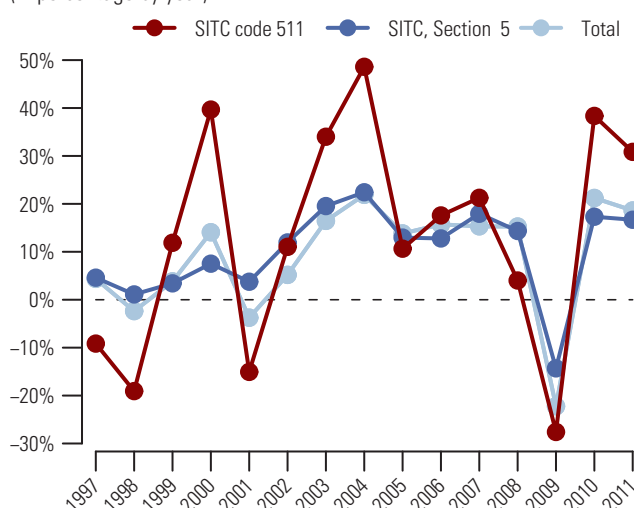

Republic of Korea, Netherlands and Japan were the top exporting countries in 2011 (see table 2). They accounted respectively for 12.0, 11.1 and 11.1 percent of world exports. Major destinations were China, Belgium and USA (see table 3). Developed Europe accounted for a large share of trade in hydrocarbons, nes and their derivatives (SITC group 511). In 2011, its exports amounted to 28.6 bln US\$, and its imports reached 31.8 bln US\$, resulting in a trade deficit of 3.2 bln US\$. Top trade deficits were also recorded by Eastern Asia (-15.4 bln US\$) and Latin America and the Caribbean (-4.7 bln US\$). Developed Asia-Pacific and Developed North America recorded trade surpluses amounting respectively to 8.8 bln US\$ and 4.0 bln US\$.

In 2011, the value (in current prices) of exports of alcohols, phenols, phenol-alcohols and their derivatives (SITC group 512) increased by 31.9 percent and reached its peak of 56.6 bln US\$ (see tables 1 and 2). Imports showed a similar development and increased by 33.3 percent to amount to 68.3 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of alcohols, phenols, phenol-alcohols and their derivatives (SITC group 512) accounted for 2.9 percent of world exports of SITC section 5 and 0.3 percent of total world exports in 2011 (see table 1).

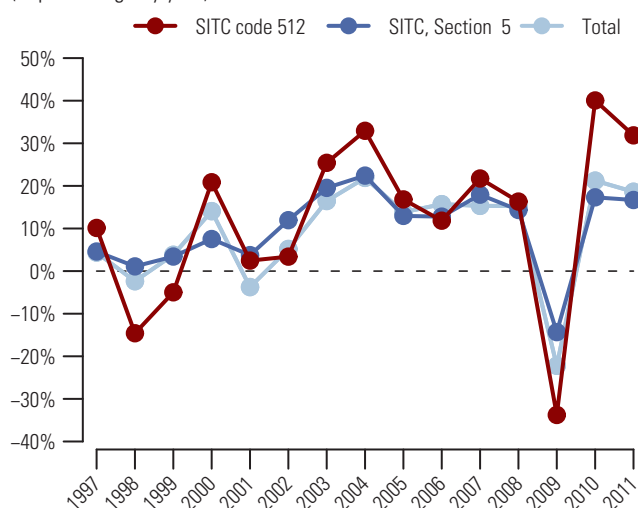

USA, Saudi Arabia and Netherlands were the top exporting countries in 2011 (see table 2). They accounted respectively for 13.7, 9.2 and 6.7 percent of world exports. Top destinations were China, USA and Germany (see table 3). By MDG regions (see graph 2), Western Asia and Developed North America recorded trade surpluses amounting respectively to 4.5 bln US\$ and 2.4 bln US\$. Top trade deficits were recorded by Eastern Asia (-15.7 bln US\$) and Developed Europe (-4.7 bln US\$).

513 Carboxylic acids, and their derivatives

In 2011, the value (in current prices) of exports of carboxylic acids and their derivatives (SITC group 513) increased by 24.0 percent to amount to 52.4 bln US\$ (see tables 1 and 2). Imports showed a similar development and increased by 21.0 percent to amount to 57.1 bln US\$ in 2011 (see tables 1 and 3). The increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of carboxylic acids and their derivatives (SITC group 513) accounted for 2.7 percent of world exports of SITC section 5 and 0.3 percent of total world exports in 2011 (see table 1).

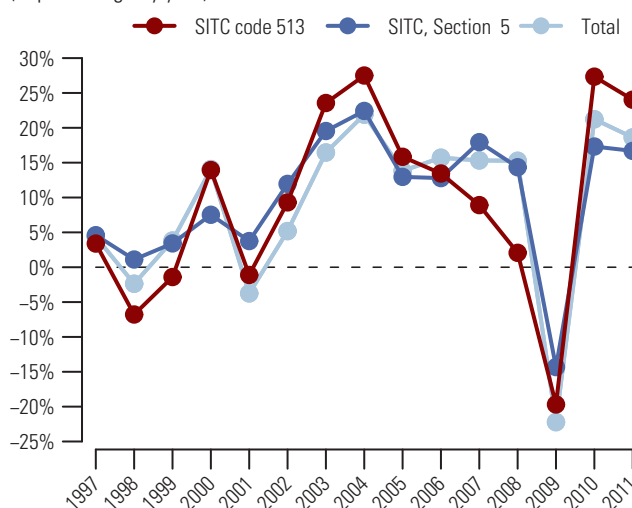

Rep. of Korea and China were the top exporting countries in 2011 (see table 2). They accounted respectively for 12.4 and 11.5 percent of world exports. China accounted for 19.0 percent of world imports and was the top destination (see table 3). Other major destinations were Germany and USA, respectively with 6.5 and 6.3 percent of world imports. By MDG regions (see graph 2), top deficits were recorded by Developed Europe (-3.6 bln US\$), Latin America and the Caribbean (-2.6 bln US\$) and Southern Asia (-2.2 bln US\$). Top trade surpluses were recorded by Eastern Asia (+4.2 bln US\$) and South-eastern Asia (+2.1 bln US\$)

After a sharp decline of 14.6 percent in 2009, the value (in current prices) of exports of nitrogen-function compounds (SITC group 514) bounced back in 2010 and continued to increase in 2011 by 15.3 percent to amount to 52.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 16.1 percent to amount to 56.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of nitrogen-function compounds (SITC group 514) accounted for 2.7 percent of world exports of SITC section 5 and 0.3 percent of total world exports in 2011 (see table 1).

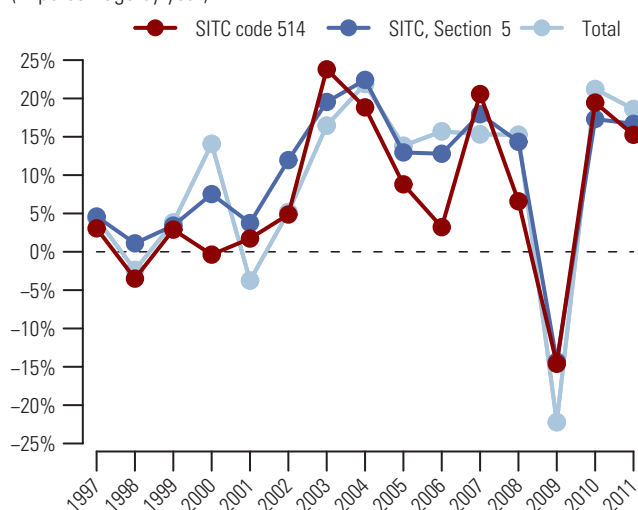

USA, China and Belgium were the top exporting countries in 2011 (see table 2). They accounted respectively for 12.3, 12.1 and 9.8 percent of world exports. Germany, USA and China were the major destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in nitrogen-function compounds (SITC group 514). In 2011, its exports were valued at 25.3 bln US\$ and its imports were valued at 26.3 bln US\$, resulting a trade deficit of 1.0 bln US\$. Top trade surpluses were recorded by South-eastern Asia (+2.6 bln US\$) and Eastern Asia (+1.9 bln US\$). Trade deficits were recorded by Latin America and the Caribbean (-2.3 bln US\$) and Southern Asia (-1.4 bln US\$) among others.

515 Organo-inorganic and heterocyclic compounds, nucleic acids; salts

In 2011, the value (in current prices) of exports of organo-inorganic and heterocyclic compounds, nucleic acids; salts (SITC group 515) increased in 2011 by 11.7 percent to reach its peak of 110.9 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 14.7 percent to 129.3 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of organo-inorganic and heterocyclic compounds, nucleic acids; salts (SITC group 515) accounted for 5.7 percent of world exports of SITC section 5 and 0.6 percent of total world exports in 2011 (see table 1).

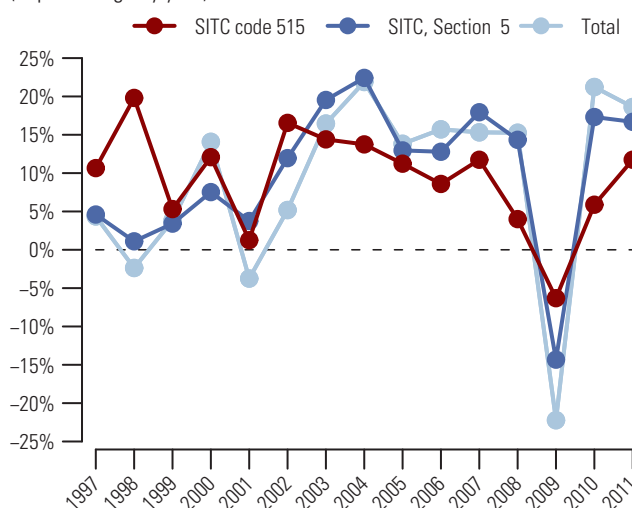

Ireland, Belgium and China were the top exporting countries in 2011 (see table 2). They accounted respectively for 22.3, 10.8 and 10.5 percent of world exports. USA was the top destination and accounted for 23.1 percent of world imports (see table 3). Other major destinations included Belgium and Germany. By MDG regions (see graph 2), Developed Europe was the origin and the destination of a majority of trade in organo-inorganic and heterocyclic compounds, nucleic acids; salts (SITC group 515). In 2011, exports to this region were valued at 70.0 bln US\$, while imports were valued at 60.6 bln US\$ resulting in a trade surplus of 9.3 bln US\$. Top trade deficits were recorded by Developed North America (-21.1 bln US\$), Latin America and the Caribbean (-6.8 bln US\$) and Developed Asia-Pacific (-4.5 bln US\$).

Despite a sharp decline of 16.2 percent in 2009, the value (in current prices) of exports of other organic chemicals (SITC group 516) increased on average by 7.1 percent from 2007 to 2011. In 2011, exports increased by 15.7 percent to reach its peak of 38.3 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 19.7 percent to 39.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent, and below the increase in total world exports of 18.6 percent. Exports of other organic chemicals (SITC group 516) accounted for 2.0 percent of world exports of SITC section 5 and 0.2 percent of total world exports in 2011 (see table 1).

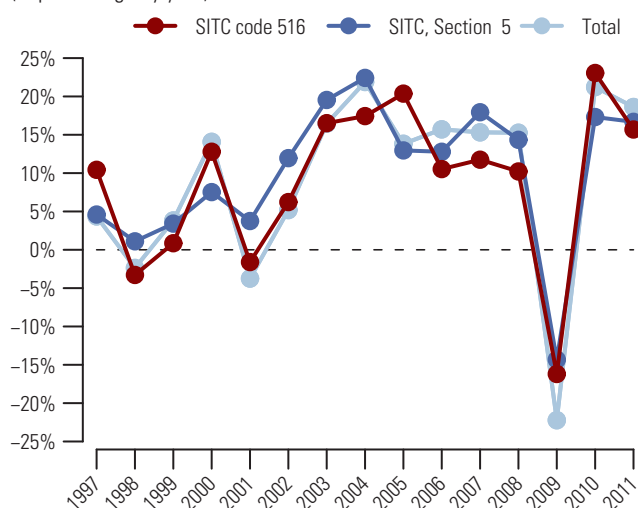

USA, Germany and Netherlands were the top exporting countries in 2011 (see table 2). They accounted respectively for 15.9, 12.2 and 10.1 percent of world exports. China, USA and Germany were top destinations (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and the destination of a large share of trade in other organic chemicals (SITC group 516). In 2011, its exports amounted to 17.1 bln US\$, while imports were valued at 16.8 bln US\$, resulting in a trade surplus of 0.2 bln US\$. Trade surpluses were also recorded by Developed North America (+2.9 bln US\$) and Southern Asia (+1.1 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-2.1 bln US\$) and Eastern Asia (-1.6 bln US\$).

522 Inorganic chemical elements, oxides and halogen salts

Despite a sharp decline of 40.1 percent in 2009, the value (in current prices) of exports of inorganic chemical elements, oxides and halogen salts (SITC group 522) bounced back in 2010 and continued to increase in 2011 by 28.7 percent to reach its peak of 61.0 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 30.3 percent to amount to 69.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of inorganic chemical elements, oxides and halogen salts (SITC group 522) accounted for 3.1 percent of world exports of SITC section 5 and 0.3 percent of total world exports in 2011 (see table 1).

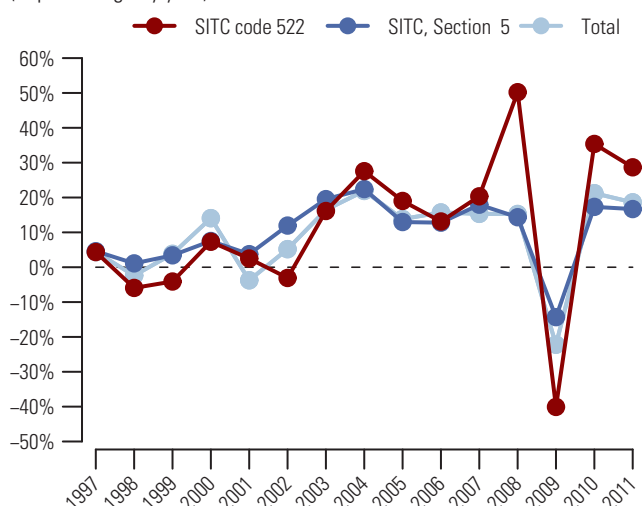

China, USA and Germany were the top exporting countries in 2011 (see table 2). They accounted respectively for 13.9, 11.9 and 8.5 percent of world exports. USA, China and Japan were among the top destinations, (see table 3). By MDG regions (see graph 2), large trade surpluses were recorded by Commonwealth of Independent States (+2.9 bln US\$) and Northern Africa (+2.6 bln US\$) (see graph 2). Top trade deficits were recorded by Developed Europe (-5.7 bln US\$), Developed Asia-Pacific (-3.4 bln US\$) and Southern Asia (-3.4 bln US\$).

Following a sharp decline of 27.2 percent in 2009, the value (in current prices) of exports of metal salts and peroxysalts, of inorganic acids (SITC group 523) bounced back in 2010 and continued to increase by 17.6 percent to reach its peak of 21.3 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with an increase of 18.6 percent to 25.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was greater than the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent but less than the increase in total world exports of 18.6 percent. Exports of metal salts and peroxysalts, of inorganic acids (SITC group 523) accounted for 1.1 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

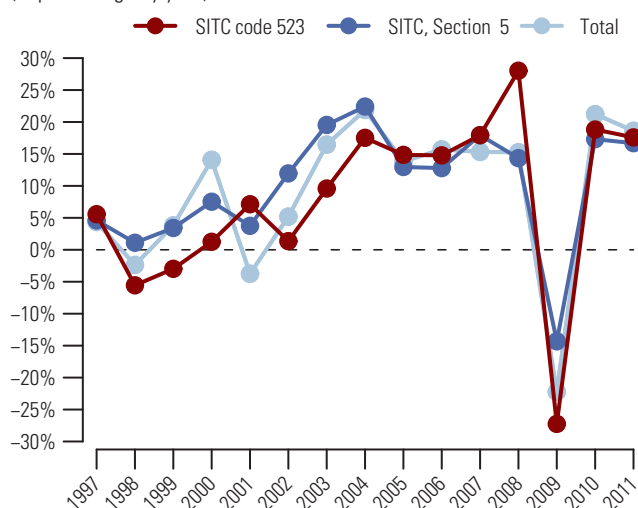

China, USA and Germany were the top exporting countries in 2011 (see table 2). They accounted respectively for 21.4, 13.8 and 8.4 percent of world exports. USA, Germany and Japan were among the major destinations (see table 3). By MDG regions (see graph 2), Eastern Asia, Developed North America and South-eastern Europe recorded trade surpluses amounting respectively to 2.9 bln US\$, 0.9 bln US\$ and 0.2 bln US\$. Top trade deficits were recorded by South-eastern Asia (-1.8 bln US\$), Developed Europe (-1.6 bln US\$) and Latin America and the Caribbean (-1.6 bln US\$).

524 Other inorganic chemicals; organic, inorganic compounds precious metals

Following a sharp decline of 38.7 percent in 2009, the value (in current prices) of exports of other inorganic chemicals; organic, inorganic compounds of precious metals (SITC group 524) rose significantly in 2010 and continued to rise by 19.9 percent to reach its peak of 14.2 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with an increase of 21.4 percent to 13.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of other inorganic chemicals; organic, inorganic compounds of precious metals (SITC group 524) accounted for 0.7 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

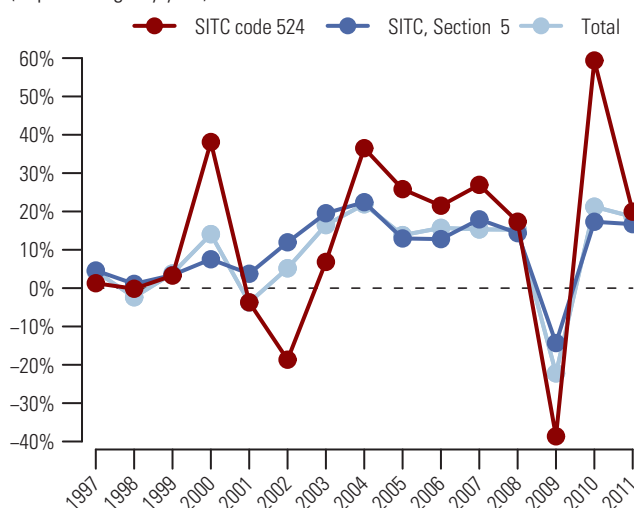

The top exporting countries in 2011 were Germany, China and USA (see table 2). They accounted respectively for 14.1, 12.8 and 9.4 percent of world exports. Germany, Japan and USA were among the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in other inorganic chemicals; organic, inorganic compounds of precious metals (SITC group 524). In 2011, its exports and imports amounted to 6.3 and 6.4 bln US\$, respectively. Top trade surpluses were recorded by Commonwealth of Independent States (+1.1 bln US\$) and Developed North America (+0.4 bln US\$). Top trade deficit was recorded by South-eastern Asia (-0.7 bln US\$).

In 2011, the value (in current prices) of exports of radioactive and associated materials (SITC group 525) increased by 29.4 percent to amount to 19.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 18.6 percent to 25.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of radioactive and associated materials (SITC group 525) accounted for 1.0 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

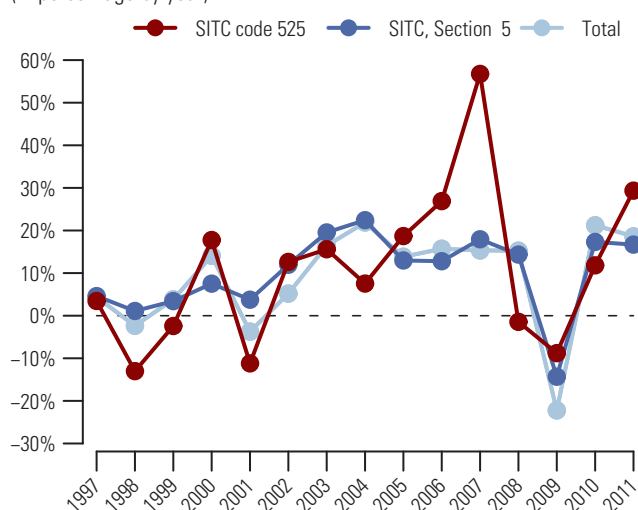

Exports from USA, the top exporting country in 2011, increased by 49.6 percent and accounted for 15.1 percent of world exports (see table 2). Other major exporting countries were Canada and France, respectively with 14.9 and 14.8 percent of world exports. USA, Japan and France were among the major destinations (see table 3). By MDG regions (see graph 2), Commonwealth of Independent States recorded the largest trade surplus amounting to 2.9 bln US\$. Top deficits were recorded by Developed Asia-Pacific (-3.2 bln US\$), Developed Europe (-2.8 bln US\$), and Eastern Asia (-1.1 bln US\$).

531 Synthetic organic colouring matter and preparations based thereon

Following a drop of 20.8 percent in 2009, the value (in current prices) of exports of synthetic organic colouring matter and preparations based thereon (SITC group 531) recovered in 2010 and increased further by 2.8 percent to amount to 12.5 bln US\$ in 2011 (see tables 1 and 2). Reported imports showed an increase of 6.6 percent to amount to 13.3 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was well below the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of synthetic organic colouring matter and preparations based thereon (SITC group 531) accounted for 0.6 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

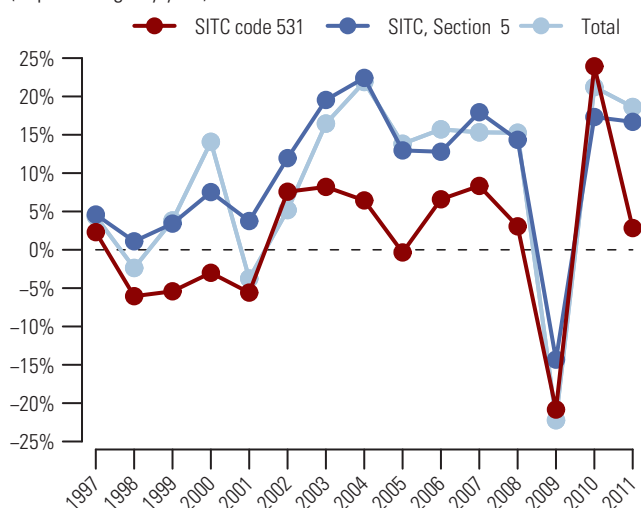

The top exporting countries in 2011 were China, Germany and India (see table 2). They accounted respectively for 20.2, 14.8 and 11.1 percent of world exports. Germany, USA and Republic of Korea were among the top destinations (see table 3). By MDG regions (see graph 2), significant surpluses were recorded by Eastern Asia (+1.4 bln US\$), Southern Asia (+0.7 bln US\$) and Developed Europe (+0.3 bln US\$). Top trade deficits were recorded by South-eastern Asia (-0.8 bln US\$), Latin America and the Caribbean (-0.8 bln US\$), and Western Asia (-0.6 bln US\$).

Dyeing and tanning extracts, and synthetic tanning materials 532

In 2011, the value (in current prices) of exports of dyeing and tanning extracts, and synthetic tanning materials (SITC group 532) increased by 11.6 percent to amount to 2.2 bln US\$ (see tables 1 and 2). Reported imports increased 23.3 percent to 2.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of dyeing and tanning extracts, and synthetic tanning materials (SITC group 532) accounted for 0.1 percent of world exports of SITC section 5 and less than 0.1 percent of total world exports in 2011 (see table 1).

The top exporting countries in 2011 were Italy, Germany and Spain (see table 2). They accounted respectively for 11.3, 10.5 and 7.5 percent of world exports. Top destinations were China, Mexico and Japan (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in dyeing and tanning extracts, and synthetic tanning materials (SITC group 532). Its exports amounted to 1.2 bln US\$ while imports were valued at 1.0 bln US\$ resulting in a trade surplus of 0.2 bln US\$. Significant deficits were recorded by Eastern Asia (-297.0 mln US\$) and Developed Asia-Pacific (-163.9 mln US\$).

533 Pigments, paints, varnishes and related materials

After a drop of 16.5 percent in 2009, the value (in current prices) of exports of pigments, paints, varnishes and related materials (SITC group 533) increased in 2010 and grew further in 2011 by 21.6 percent to reach its peak of 64.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 19.0 percent to 60.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was greater than both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of pigments, paints, varnishes and related materials (SITC group 533) accounted for 3.3 percent of world exports of SITC section 5 and 0.4 percent of total world exports in 2011 (see table 1).

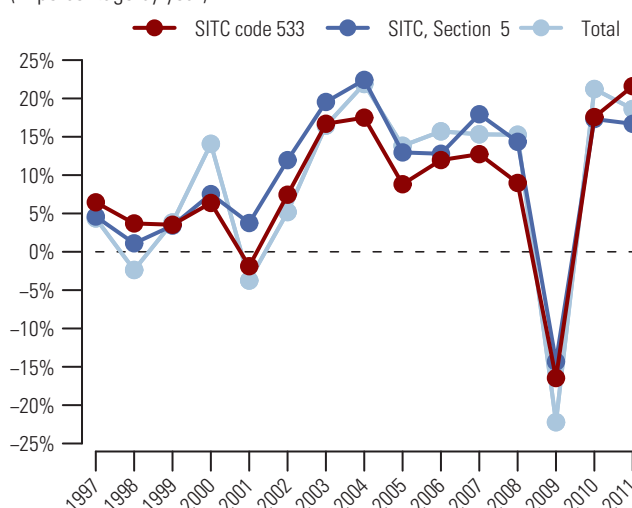

Germany, USA and Japan were the three major exporting countries in 2011 (see table 2). They accounted respectively for 15.8, 12.3 and 7.1 percent of world exports. Top destinations were Germany, China and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in pigments, paints, varnishes and related materials (SITC group 533). Its exports were valued at 34.5 bln US\$ while imports amounted to 25.3 bln US\$ resulting in a trade surplus of 9.2 bln US\$. Top trade surpluses were also recorded by Developed North America (+4.4 bln US\$) and Developed Asia-Pacific (+3.5 bln US\$). Significant deficits were recorded by Latin America and the Caribbean (-3.3 bln US\$), South-eastern Asia (-2.5 bln US\$) and Western Asia (-1.8 bln US\$).

Medicinal and pharmaceutical products, other than medicament of 542 541

Since 2007, the value (in current prices) of exports of medicinal and pharmaceutical products, other than medicaments of group 542 (SITC group 541) increased on average by 13.1 percent each year and amounted to 154.0 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with an average increase of 13.5 percent to 159.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase of 13.2 percent in exports in 2011 for this product group was exceeded by both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of medicinal and pharmaceutical products, other than medicaments of group 542 (SITC group 541) accounted for 7.9 percent of world exports of SITC section 5 and 0.9 percent of total world exports in 2011 (see table 1).

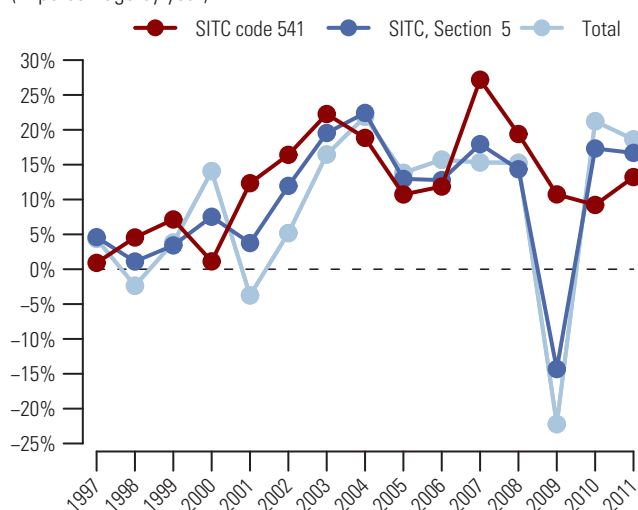

Switzerland, Germany and USA were the top three exporting countries in 2011 (see table 2). They represented 17.5, 15.2 and 11.3 percent of world exports, respectively. Germany, USA and Belgium were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in medicinal and pharmaceutical products (SITC group 541). Its exports were valued at 110.5 bln US\$ while imports amounted to 90.1 bln US\$, resulting in a trade surplus of 20.4 bln US\$. Eastern Asia also recorded a trade surplus of 4.9 bln US\$. Top trade deficits were recorded by Developed Asia-Pacific and Latin America and the Caribbean, both at 7.4 bln US\$.

542 Medicaments (including veterinary medicaments)

From 2007 to 2011, the value (in current prices) of exports of medicaments, including veterinary medicaments (SITC group 542) increased on average by 5.5 percent each year and amounted to 339.6 bln US\$ in 2011 (see tables 1 and 2). Imports for the same period experienced an average increase of 5.9 percent and totaled 358.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows the increase of 5.8 percent in exports in 2011 for this product group was far below both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of medicaments, including veterinary medicaments (SITC group 542) accounted for 17.5 percent of world exports of SITC section 5 and 1.9 percent of total world exports in 2011 (see table 1).

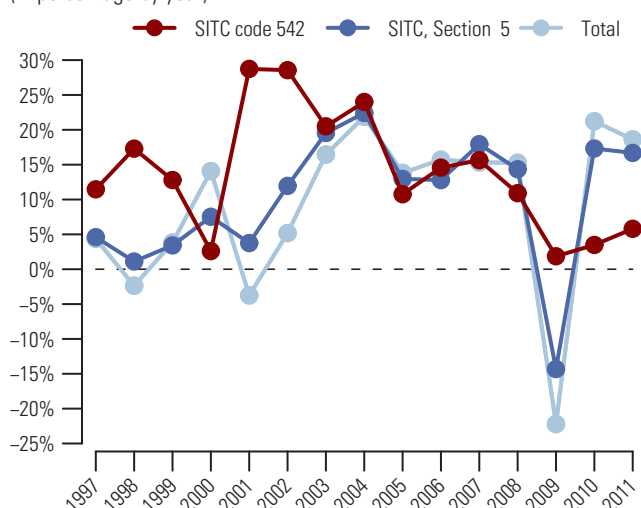

In 2011, top exporting countries were Germany, Belgium and Switzerland (see table 2). They accounted respectively for 13.6, 10.6 and 9.4 percent of world exports. Major destinations were USA, Germany and Belgium (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in medicaments, including veterinary medicaments (SITC group 542). Its exports were valued at 265.4 bln US\$, while imports amounted to 186.9 bln US\$, resulting in a trade surplus of 78.4 bln US\$. A significant surplus was also recorded by Southern Asia (+5.0 bln US\$). Top trade deficits were recorded by Developed North America (-30.9 bln US\$), Developed Asia-Pacific (-17.6 bln US\$) and Commonwealth of Independent States (-15.2 bln US\$).

After a drop of 7.8 percent in 2009, the value (in current prices) of exports of essential oils, perfume and flavour materials (SITC group 551) increased in 2010 and grew further in 2011 by 15.0 percent to amount to 24.4 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 11.5 percent to 22.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was exceeded by both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of essential oils, perfume and flavour materials (SITC group 551) accounted for 1.3 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

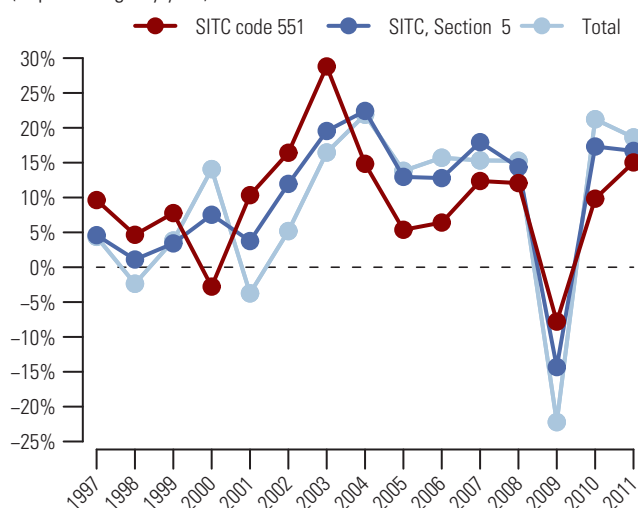

Ireland, the top exporting country in 2011, accounted for almost a third (28.5 percent) of world exports (see table 2). Other major exporting countries were France and USA, respectively with 9.4 and 8.4 percent of world exports. Top destinations were France, USA and United Kingdom (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and the destination of a majority of trade in essential oils, perfume and flavour materials (SITC group 551). Its exports were valued at 16.7 bln US\$, while imports amounted to 9.9 bln US\$, resulting in a trade surplus of 6.8 bln US\$. Significant deficits were recorded by Latin America and the Caribbean (-1.1 bln US\$), Developed North America (-1.1 bln US\$) and Western Asia (-1.0 bln US\$).

553 Perfumery, cosmetic or toilet preparations (excluding soaps)

After a drop of 9.1 percent in 2009, the value (in current prices) of exports of perfumery, cosmetic or toilet preparations, excluding soaps (SITC group 553) increased in 2010 and grew further in 2011 by 15.2 percent to amount to 77.4 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 14.1 percent to 74.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was exceeded by both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of perfumery, cosmetic or toilet preparations, excluding soaps (SITC group 553) accounted for 4.0 percent of world exports of SITC section 5 and 0.4 percent of total world exports in 2011 (see table 1).

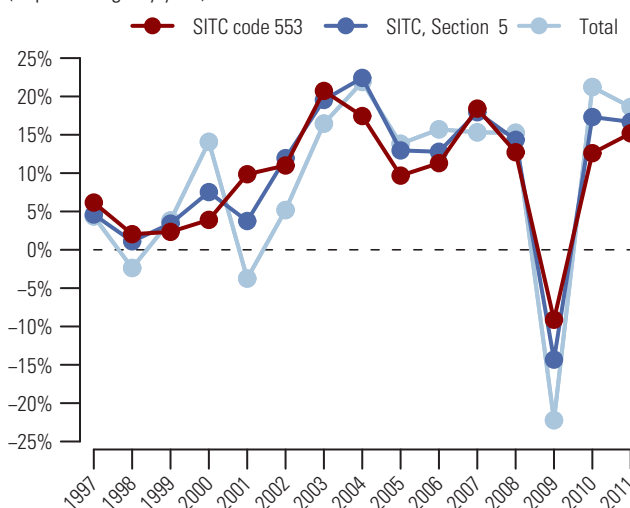

The top exporting countries in 2011 were France, Germany and USA (see table 2). They accounted respectively for 18.2, 11.1 and 9.7 percent of world exports. Top destinations were USA, Germany and United Kingdom (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the majority of both exports and imports of perfumery, cosmetic or toilet preparations, excluding soaps (SITC group 553). In 2011, its exports were valued at 46.7 bln US\$ and imports at 31.0 bln US\$, resulting in a trade surplus of 15.7 bln US\$. Top trade deficits were recorded by Commonwealth of Independent States (-3.8 bln US\$), Western Asia (-3.1 bln US\$) and Developed Asia-Pacific (-1.9 bln US\$).

After a drop of 8.7 percent in 2009, the value (in current prices) of exports of soap, cleansing and polishing preparations (SITC group 554) bounced back in 2010 and increased further in 2011 by 16.8 percent to reach its peak of 40.0 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 15.5 percent to 39.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group slightly exceeded the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent but was below the increase in total world exports of 18.6 percent. Exports of soap, cleansing and polishing preparations (SITC group 554) accounted for 2.1 percent of world exports of SITC section 5 and 0.2 percent of total world exports in 2011 (see table 1).

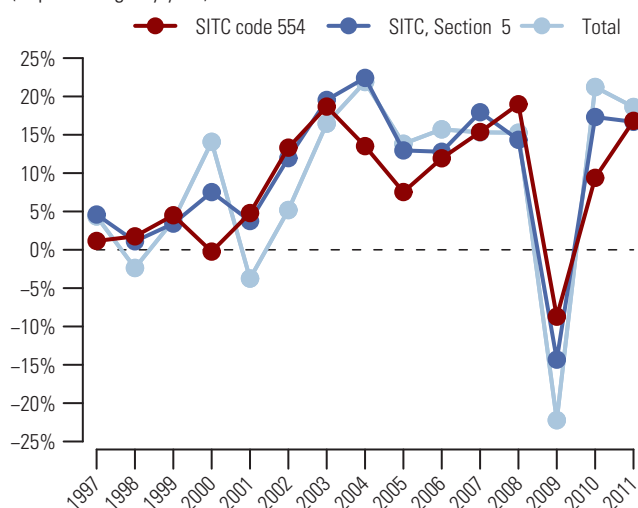

The top exporting countries in 2011 were Germany, USA and France (see table 2), accounting respectively for 12.8, 11.0 and 6.1 percent of world exports. Germany was also the top destination, together with France and United Kingdom (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in soap, cleansing and polishing preparations (SITC group 554). Its exports were valued at 21.4 bln US\$ and imports at 17.8 bln US\$ resulting in a trade surplus of 3.6 bln US\$. Top trade surpluses were also recorded by Developed North America (+1.4 bln US\$) and South-eastern Asia (+0.8 bln US\$). Top trade deficits were recorded by Commonwealth of Independent States (-1.5 bln US\$), Latin America and the Caribbean (-1.1 bln US\$) and Sub-Saharan Africa (-0.9 bln US\$).

562 Fertilizers (other than those of group 272)

Following a sharp decline of 44.8 percent in 2009, the value (in current prices) of exports of fertilizers, other than those of group 272 (SITC group 562) bounced back in 2010 and increased further in 2011 by 36.8 percent to reach its peak of 73.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with a significant increase of 45.4 percent to 83.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of fertilizers, other than those of group 272 (SITC group 562) accounted for 3.8 percent of world exports of SITC section 5 and 0.4 percent of total world exports in 2011 (see table 1).

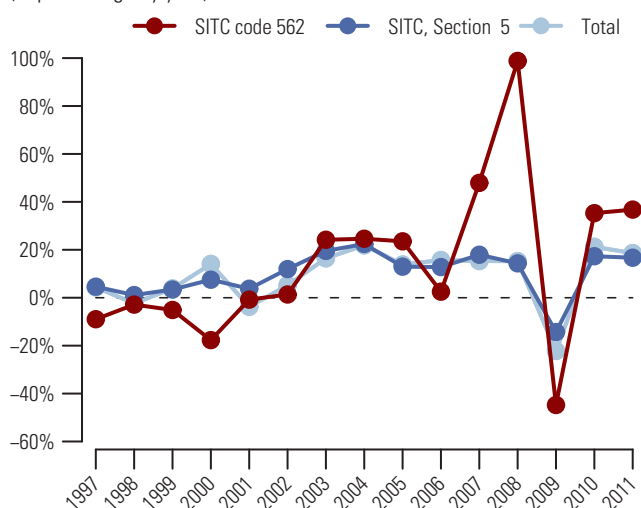

Exports from the Russian Federation, the top exporting country in 2011, increased by 36.4 percent and accounted for 13.8 percent of world exports (see table 2). Other top exporting countries were Canada and China, respectively with 11.0 and 10.7 percent of world exports. Top destinations were USA, Brazil and India (see table 3). By MDG regions (see graph 2), Commonwealth of Independent States recorded the top trade surplus of 15.0 bln US\$. Trade surpluses were also recorded by Western Asia (+6.8 bln US\$) and Eastern Asia (+4.1 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-14.9 bln US\$), Southern Asia (-10.7 bln US\$) and South-eastern Asia (-8.3 bln US\$).

After a drop of 21.4 percent in 2009, the value (in current prices) of exports of polymers of ethylene, in primary forms (SITC group 571) increased in 2010 and grew further in 2011 by 22.3 percent to amount to 76.7 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 21.2 percent to 75.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of polymers of ethylene, in primary forms (SITC group 571) accounted for 4.0 percent of world exports of SITC section 5 and 0.4 percent of total world exports in 2011 (see table 1).

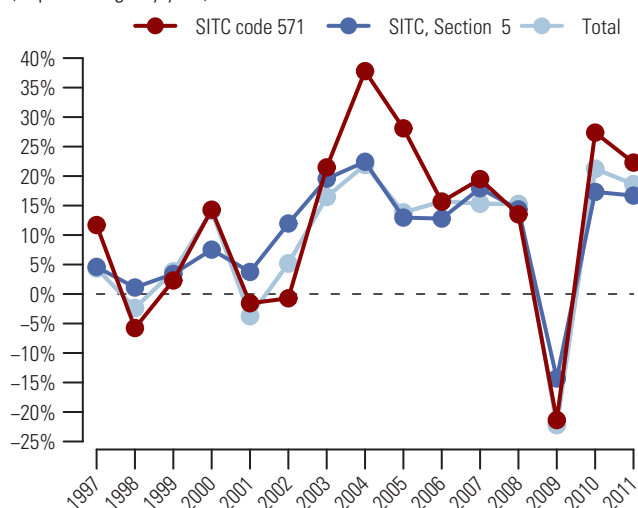

Saudi Arabia, USA and Belgium were the top exporting countries in 2011 (see table 2). They accounted respectively for 11.8, 10.0 and 9.0 percent of world exports. Top destinations were China, Germany and USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in polymers of ethylene, in primary forms (SITC group 571). Its exports and imports were valued respectively at 25.4 bln US\$ and 26.3 bln US\$ resulting in a trade deficit of 0.9 bln US\$. Top trade surpluses were recorded by Western Asia (+11.7 bln US\$) and Developed North America (+6.3 bln US\$). Significant deficits were recorded by Eastern Asia (-7.8 bln US\$), Latin America and the Caribbean (-4.5 bln US\$) and Sub-Saharan Africa (-1.6 bln US\$).

572 Polymers of styrene, in primary forms

After a sharp decline of 27.4 percent in 2009, the value (in current prices) of exports of polymers of styrene, in primary forms (SITC group 572) rose significantly in 2010 and increased further in 2011 by 10.1 percent to amount to 25.9 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 12.0 percent to 27.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of polymers of styrene, in primary forms (SITC group 572) accounted for 1.3 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

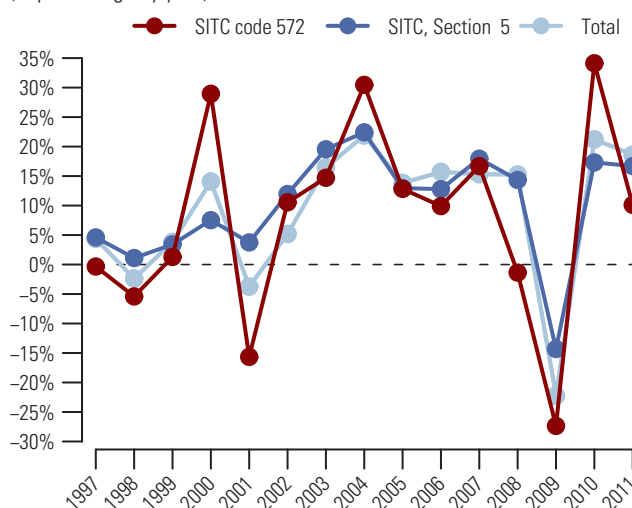

Rep. of Korea was the top exporting country and accounted for 16.4 percent of world exports. China, the top destination, accounted for 24.9 percent of world imports (see table 3). By MDG regions (see graph 2), Eastern Asia accounted for a large share of trade in polymers of styrene, in primary forms (SITC group 572). Its exports amounted to 11.9 bln US\$ and its imports to 9.5 bln US\$, resulting in a trade surplus of 2.4 bln US\$. Trade surpluses were also recorded by Developed Asia-Pacific (+0.5 bln US\$) and Developed North America (+0.1 bln US\$). Trade deficits were recorded by Western Asia (-1.0 bln US\$), Latin America and the Caribbean (-0.8 bln US\$) and Commonwealth of Independent States (-0.6 bln US\$).

After a sharp decline of 24.6 percent in 2009, the value (in current prices) of exports of polymers of vinyl chloride or of other halogenated olefins (SITC group 573) rose significantly in 2010 and increased further in 2011 by 18.0 percent to amount to 20.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 19.6 percent to 20.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was greater than the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent, but was below the increase in total world exports of 18.6 percent. Exports of polymers of vinyl chloride or of other halogenated olefins (SITC group 573) accounted for 1.0 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

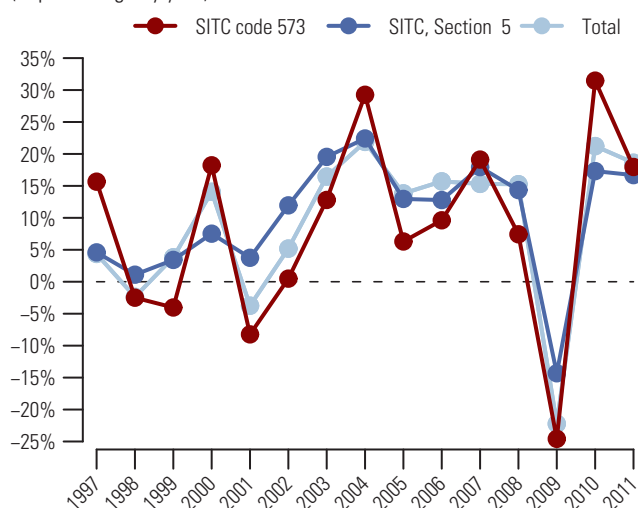

USA, Germany and Japan were the top exporting countries in 2011 (see table 2). They accounted respectively for 21.1, 11.4 and 6.2 percent of world exports. Top destinations were China, Germany and Italy (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in polymers of vinyl chloride or of other halogenated olefins (SITC group 573). Its exports amounted to 8.3 bln US\$ and its imports to 6.8 bln US\$ resulting in a trade surplus of 1.5 bln US\$. Top trade surpluses were also recorded by Developed North America (+2.8 bln US\$) and Developed Asia-Pacific (+0.8 bln US\$). Significant deficits were recorded by Southern Asia (-1.3 bln US\$), Latin America and the Caribbean (-1.3 bln US\$) and Western Asia (-1.2 bln US\$).

574 Polyacetals, epoxide resins, etc. and other polyethers in primary forms

After a drop of 20.6 percent in 2009, the value (in current prices) of exports of polyacetals, epoxide resins, etc. and other polyethers in primary forms (SITC group 574) bounced back in 2010 and increased further in 2011 by 17.1 percent to amount to 56.2 bln US\$ (see tables 1 and 2). Imports showed a similar increase of 17.8 percent to 58.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was slightly larger than the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent but was less than the increase in total world exports of 18.6 percent. Exports of polyacetals, epoxide resins, etc. and other polyethers in primary forms (SITC group 574) accounted for 2.9 percent of world exports of SITC section 5 and 0.3 percent of total world exports in 2011 (see table 1).

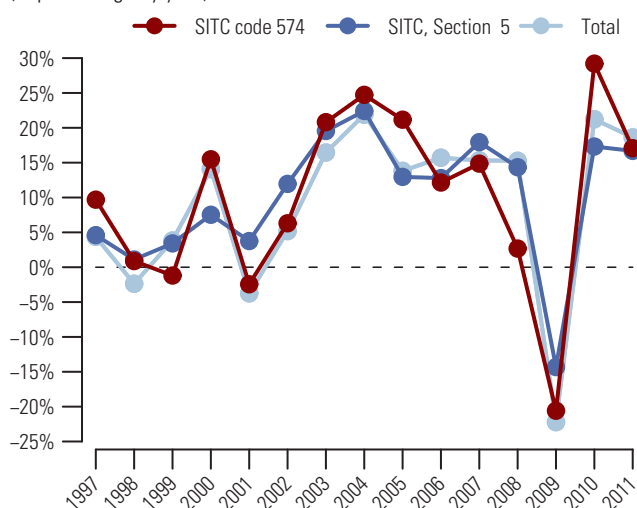

The top exporting countries in 2011 were USA, Rep. of Korea and Netherlands (see table 2). They accounted respectively for 10.0, 9.0 and 8.7 percent of world exports. Top destinations were China, Germany and USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in polyacetals, epoxide resins, etc. and other polyethers in primary forms (SITC group 574). In 2011, its exports amounted to 21.8 bln US\$ while imports were valued at 20.4 bln US\$ resulting in a trade surplus of 1.4 bln US\$. A large surplus was also recorded by Developed North America (+2.7 bln US\$). The largest trade deficit was recorded by Latin America and the Caribbean (-3.1 bln US\$).

After a drop of 23.6 percent in 2009, the value (in current prices) of exports of other plastics, in primary forms (SITC group 575) increased in 2010 and grew further by 18.4 percent to amount to 112.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 19.0 percent to 117.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and was on par with the increase in total world exports of 18.6 percent. Exports of other plastics, in primary forms (SITC group 575) accounted for 5.8 percent of world exports of SITC section 5 and 0.6 percent of total world exports in 2011 (see table 1).

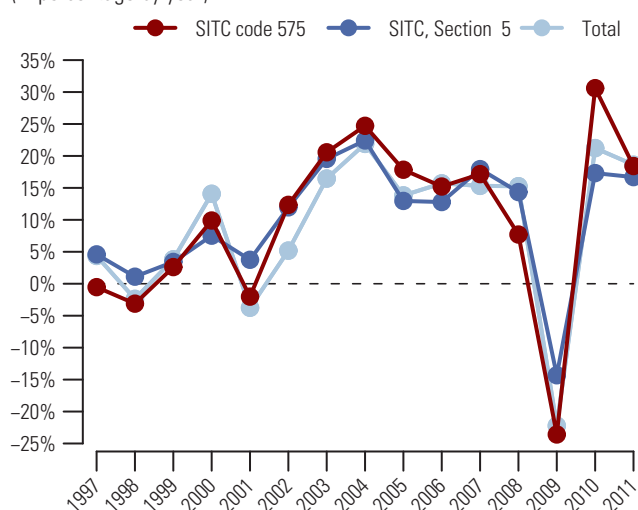

USA, Germany and Belgium were the top exporting countries in 2011 (see table 2). They accounted respectively for 13.6, 10.6 and 9.9 percent of world exports. Top destinations were China, Germany and Italy (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports and a large share of imports of other plastics, in primary forms (SITC group 575). In 2011, its exports were valued at 51.3 bln US\$, and imports at 47.0 bln US\$, resulting in a trade surplus of 4.3 bln US\$. Top trade surpluses were also recorded by Developed North America (+8.9 bln US\$) and Developed Asia-Pacific (+3.5 bln US\$). Eastern Asia and Latin America and the Caribbean recorded trade deficits amounting respectively to 6.3 bln US\$ and 6.0 bln US\$.

579 Waste, parings and scrap, of plastics

After a drop of 9.2 percent in 2009, the value (in current prices) of exports of waste, parings and scrap of plastics (SITC group 579) increased in 2010 and grew further in 2011 by 15.1 percent to amount to 7.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 18.6 percent to 10.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was less than both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of waste, parings and scrap of plastics (SITC group 579) accounted for 0.4 percent of world exports of SITC section 5 and less than 0.1 percent of total world exports in 2011 (see table 1).

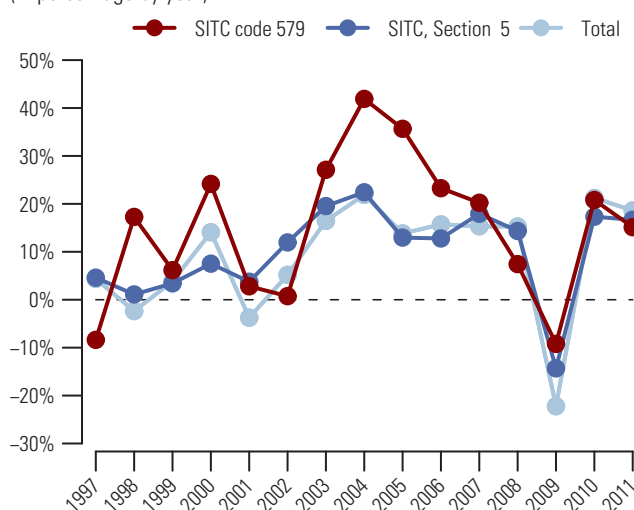

The top exporting countries or areas in 2011 were China, Hong Kong SAR, USA and Japan (see table 2). They accounted respectively for 15.4, 14.7 and 13.2 percent of world exports. China was the destination of a majority of exports of waste, parings and scrap of plastics (SITC group 579). It accounted for 61.0 percent of world imports in 2011. Other major destinations were China, Hong Kong SAR and USA (see table 3). By MDG regions (see graph 2), Eastern Asia's exports were valued at 1.3 bln US\$ while imports amounted to 7.9 bln US\$ resulting in a trade deficit of 6.6 bln US\$. Trade surpluses were recorded by Developed Europe (+1.1 bln US\$), Developed Asia-Pacific (+1.0 bln US\$) and Developed North America (+0.9 bln US\$).

Tubes, pipes and hoses, and fittings thereof of plastics 581

After a drop of 17.4 percent in 2009, the value (in current prices) of exports of tubes, pipes and hoses, and fittings thereof of plastics (SITC group 581) increased in 2010 and grew further in 2011 by 19.9 percent to amount to 21.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 18.6 percent to 20.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of tubes, pipes and hoses, and fittings thereof of plastics (SITC group 581) accounted for 1.1 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

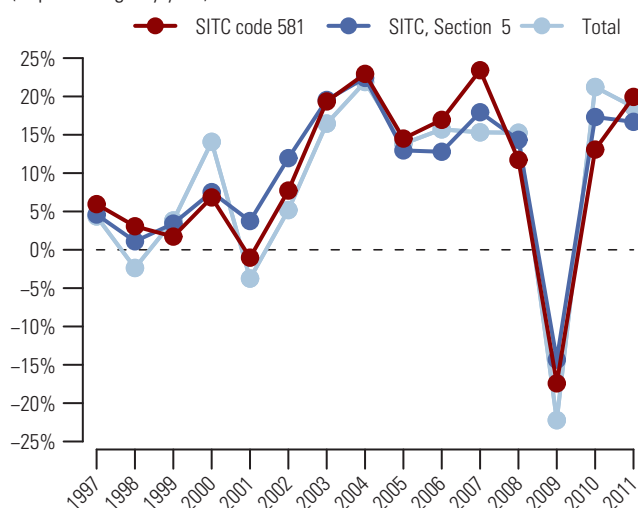

The top exporting countries in 2011 were Germany, USA and China (see table 2). They accounted respectively for 19.4, 10.7 and 7.0 percent of world exports. Top destinations were Germany, USA and Mexico (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in tubes, pipes and hoses, and fittings thereof of plastics (SITC group 581). In 2011, its exports amounted to 12.4 bln US\$ while imports were valued at 9.4 bln US\$, resulting in a trade surplus of 3.0 bln US\$. Top trade deficits were recorded by Latin America and the Caribbean (-1.3 bln US\$) and Commonwealth of Independent States (-1.1 bln US\$).

582 Plates, sheets, film, foil and strip, of plastics

After a drop of 16.6 percent in 2009, the value (in current prices) of exports of plastic plates, sheets, film, foil and strip (SITC group 582) increased in 2010 and grew further in 2011 by 15.3 percent to amount to 98.8 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 15.6 percent to 99.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was less than both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of plastic plates, sheets, film, foil and strip (SITC group 582) accounted for 5.1 percent of world exports of SITC section 5 and 0.6 percent of total world exports in 2011 (see table 1).

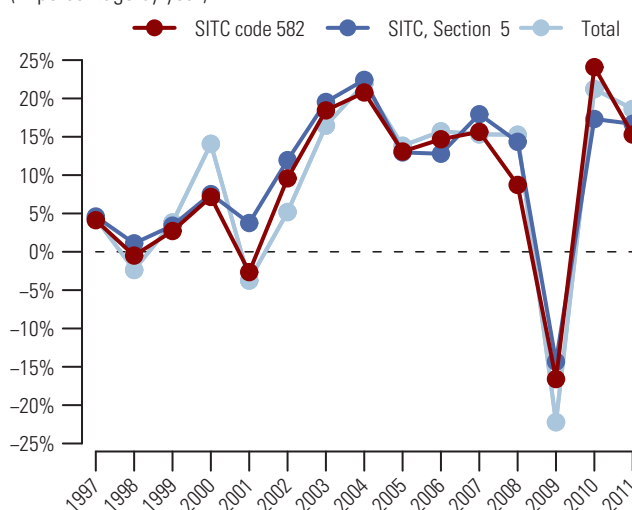

Germany, Japan and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 13.0, 12.9 and 9.4 percent of world exports. Top destinations were China, Germany and USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in plastic plates, sheets, film, foil and strip (SITC group 582). In 2011, its exports amounted to 43.9 bln US\$ while imports amounted to 38.7 bln US\$, resulting in a trade surplus of 5.2 bln US\$. Major surpluses were also recorded by Developed Asia-Pacific (+9.1 bln US\$) and Developed North America (+2.3 bln US\$). Top trade deficits were recorded by Eastern Asia (-5.0 bln US\$), Latin America and the Caribbean (-4.8 bln US\$) and Commonwealth of Independent States (-2.8 bln US\$).

Monofilament of any cross-sectional dimension exceed 1 mm, of plastics 583

After a drop of 17.8 percent in 2009, the value (in current prices) of exports of plastic monofilament of any cross-sectional dimension exceed 1 mm (SITC group 583) increased in 2010 and grew further in 2011 by 17.3 percent to amount to 5.6 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 14.2 percent to 4.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent but was less than the increase in total world exports of 18.6 percent. Exports of plastic monofilament of any cross-sectional dimension exceed 1 mm (SITC group 583) accounted for 0.3 percent of world exports of SITC section 5 and less than 0.1 percent of total world exports in 2011 (see table 1).

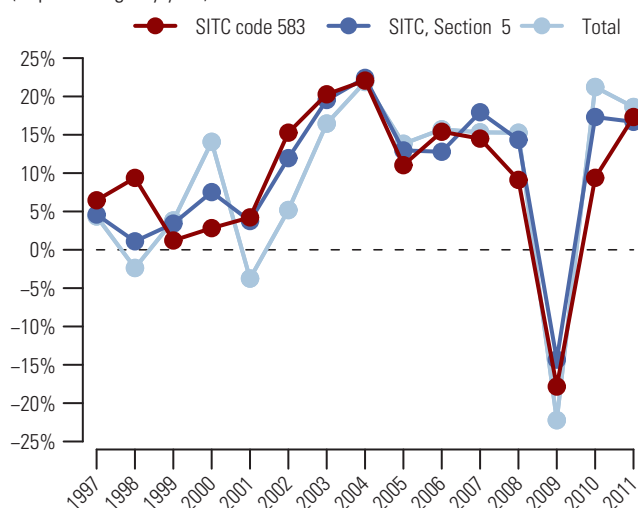

Germany, the top exporting country in 2011, accounted for more than a third (36.9 percent) of world exports (see table 2). Other major exporting countries were Belgium and Turkey, respectively with 6.6 and 5.3 percent of world exports. Top destinations were Germany, France and USA (see table 3). By MDG regions (see graph 2), a majority of trade in plastic monofilament (SITC group 583) took place in Developed Europe. In 2011, its exports were valued at 3.9 bln US\$ while imports reached 2.8 bln US\$ resulting in a trade surplus of 1.1 bln US\$. Significant deficits were recorded by Commonwealth of Independent States (-438.6 mln US\$) and South-eastern Europe (-209.7 mln US\$).

591 Pesticides, disinfectant, put up in preparation, articles or packings for retail

In 2011, the value (in current prices) of exports of insecticides (SITC group 591) increased by 19.9 percent to reach its peak of 27.6 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 21.9 percent to amount to 30.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was greater than both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of insecticides (SITC group 591) accounted for 1.4 percent of world exports of SITC section 5 and 0.2 percent of total world exports in 2011 (see table 1).

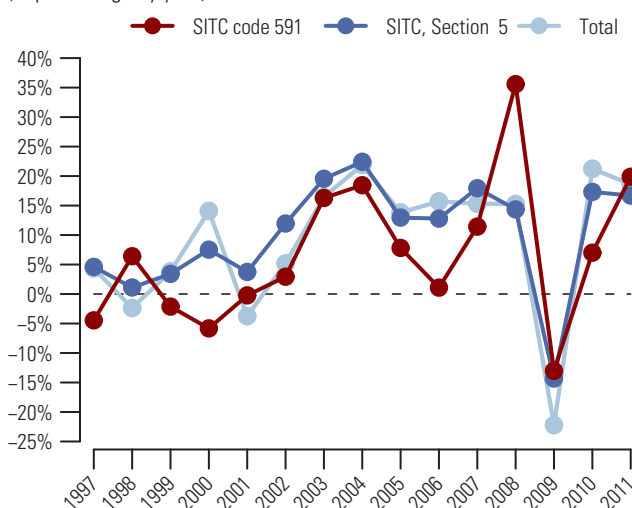

Exports of Germany, the top exporting country in 2011, increased by 26.1 percent and represented 13.6 percent of world exports (see table 2). Other major exporting countries were France and USA, respectively with 12.6 and 10.3 percent of world exports. Top destinations were France, Brazil and Germany (see table 3). By MDG regions (see graph 2), Developed Europe and Eastern Asia recorded surpluses amounting respectively to 3.9 bln US\$ and 1.9 bln US\$. Top trade deficits were recorded by Latin America and the Caribbean (-3.8 bln US\$), South-eastern Asia (-1.6 bln US\$) and Sub-Saharan Africa (-1.4 bln US\$).

Starches, insulin and wheat gluten; albuminoidal substances; glues 592

After a drop of 11.7 percent in 2009, the value (in current prices) of exports of starches, insulin and wheat gluten, albuminoidal substances, glues (SITC group 592) increased in 2010 and grew further in 2011 by 19.1 percent to amount to 24.7 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 21.0 percent to 27.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was above both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of starches, insulin and wheat gluten, albuminoidal substances, glues (SITC group 592) accounted for 1.3 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

The top exporting countries in 2011 were Germany, USA and China (see table 2). They accounted respectively for 14.7, 10.8 and 8.2 percent of world exports. China, Germany and USA were the top three destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in starches, insulin and wheat gluten, albuminoidal substances, glues (SITC group 592). In 2011, its exports were valued at 11.7 bln US\$ while imports reached 10.4 bln US\$ resulting in a trade surplus of 1.3 bln US\$. Significant deficits were recorded by Eastern Asia (-1.3 bln US\$), Latin America and the Caribbean (-0.9 bln US\$) and Western Asia (-0.7 bln US\$).

593 Explosives and pyrotechnic products

After a drop of 4.0 percent in 2009, the value (in current prices) of exports of explosives and pyrotechnic products (SITC group 593) increased in 2010 and grew further in 2011 by 12.2 percent to amount to 3.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 13.5 percent to 3.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was less than both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of explosives and pyrotechnic products (SITC group 593) accounted for 0.2 percent of world exports of SITC section 5 and less than 0.1 percent of total world exports in 2011 (see table 1).

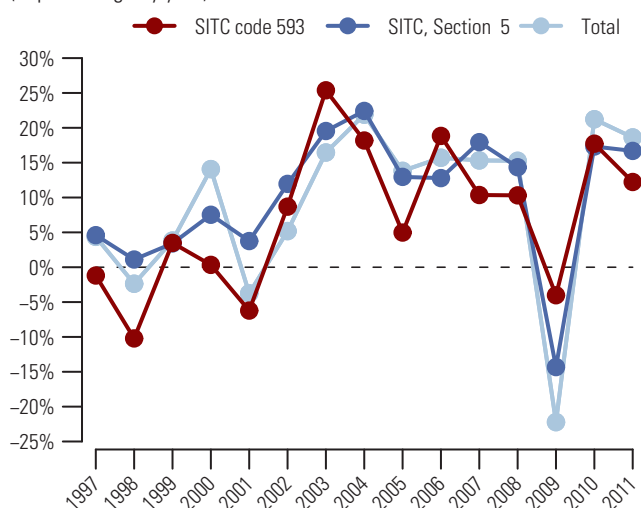

USA, China and France were the top three exporting countries in 2011 (see table 2). They accounted respectively for 22.0, 21.4 and 7.5 percent of world exports. USA was also the top destination, together with Mexico and Germany (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus of 600.9 mln US\$. Significant deficits were recorded by Latin America and the Caribbean (-323.7 mln US\$), South-eastern Asia (-191.3 mln US\$) and Developed Asia-Pacific (-183.0 mln US\$).

Prepared additives, de-icing and liquid for transmissions; lubricant, etc 597

From 2007 to 2011, the value (in current prices) of exports of prepared additives, de-icing and liquid for transmissions, lubricant (SITC group 597) increased on average by 10.8 percent and amounted to 23.0 bln US\$ in 2011 (see tables 1 and 2). Imports for the same period showed an average increase of 9.8 percent and amounted to 23.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 in this product group exceeded both the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and the increase in total world exports of 18.6 percent. Exports of prepared additives, de-icing and liquid for transmissions, lubricant (SITC group 597) accounted for 1.2 percent of world exports of SITC section 5 and 0.1 percent of total world exports in 2011 (see table 1).

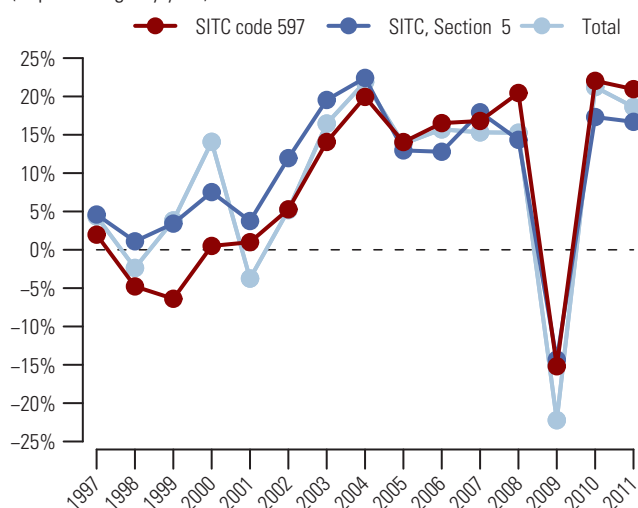

The top exporting countries in 2011 were USA, France and Germany (see table 2). They accounted respectively for 21.6, 13.9 and 13.2 percent of world exports. Top destinations were China, Germany and Belgium (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports and a large share of imports. In 2011, its exports were valued at 12.7 bln US\$ while imports amounted to 8.5 bln US\$ resulting in a trade surplus of 4.2 bln US\$. A large surplus was also recorded by Developed North America (+3.7 bln US\$) while Eastern Asia and Latin America and the Caribbean recorded trade deficits amounting respectively to 3.1 bln US\$ and 1.5 bln US\$.

598 Miscellaneous chemical products, nes

Following a decline of 18.7 percent in 2009, the value (in current prices) of exports of miscellaneous chemical products, nes (SITC group 598) bounced back in 2010 and grew further in 2011 by 18.7 percent to amount to 128.4 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 21.6 percent to 136.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was greater than the increase in world exports of chemicals and related products, nes (SITC section 5) of 16.7 percent and on par with the increase in total world exports of 18.6 percent. Exports of miscellaneous chemical products, nes (SITC group 598) accounted for 6.6 percent of world exports of SITC section 5 and 0.7 percent of total world exports in 2011 (see table 1).

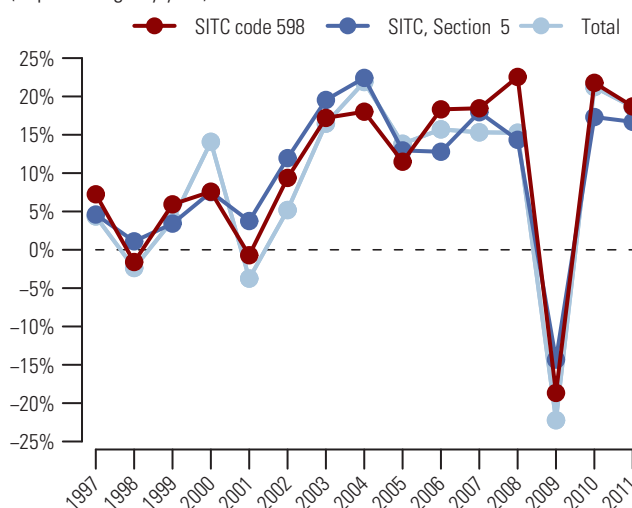

The top exporting countries in 2011 were Germany, USA and Japan (see table 2). They represented 14.7, 13.2 and 9.7 percent of world exports, respectively. Top destinations were Germany, China and USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in miscellaneous chemical products, nes (SITC group 598). In 2011, its exports were valued at 61.3 bln US\$ while imports amounted to 55.1 bln US\$ resulting in a trade surplus of 6.2 bln US\$. Major surpluses were also recorded by Developed North America (+6.7 bln US\$) and Developed Asia-Pacific (+5.7 bln US\$). Eastern Asia and Latin America and the Caribbean recorded trade deficits amounting respectively to 11.8 bln US\$ and 4.3 bln US\$.

**Manufactured goods classified chiefly by
material
(SITC Section 6)**

After a sharp decline of 28.3 percent in 2009, the value (in current prices) of exports of leather (SITC group 611) rose significantly in 2010 and increased slightly in 2011 by 3.4 percent to amount to 24.2 bln US\$ (see tables 1 and 2). Reported imports showed larger growth with an increase of 20.9 percent to amount to 23.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of leather (SITC group 611) accounted for 1.0 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

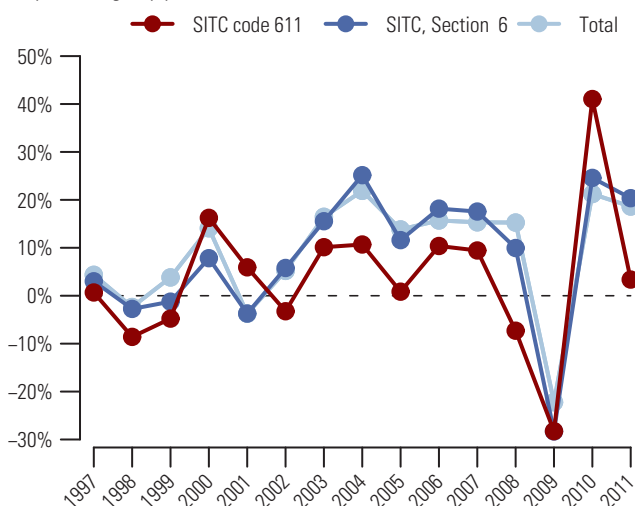

The top exporting countries or areas in 2011 were Italy, China, Hong Kong SAR and Brazil (see table 2). Their exports represented 20.9, 9.6 and 8.5 percent of world exports, respectively. Major destinations were China, China, Hong Kong SAR and Italy (see table 3). By MDG regions Latin America and the Caribbean, Southern Asia and Developed Europe recorded trade surpluses amounting respectively to 3.0 bln US\$, 1.3 bln US\$ and 0.8 bln US\$. Top trade deficits were recorded by Eastern Asia (-3.5 bln US\$), South-eastern Asia (-1.6 bln US\$) and South-eastern Europe (-1.1 bln US\$).

Manufactures of leather or of composition leather, nes; saddlery, harness 612

After a drop of 20.8 percent in 2009, the value (in current prices) of exports of manufactures of leather or of composition leather, nes (SITC group 612) increased in 2010 and grew further in 2011 by 14.0 percent to amount to 3.6 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 20.0 percent to 3.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 in this product group was below both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of manufactures of leather or of composition leather, nes (SITC group 612) accounted for 0.2 percent of world exports of SITC section 6 and less than 0.1 percent of total world exports in 2011 (see table 1).

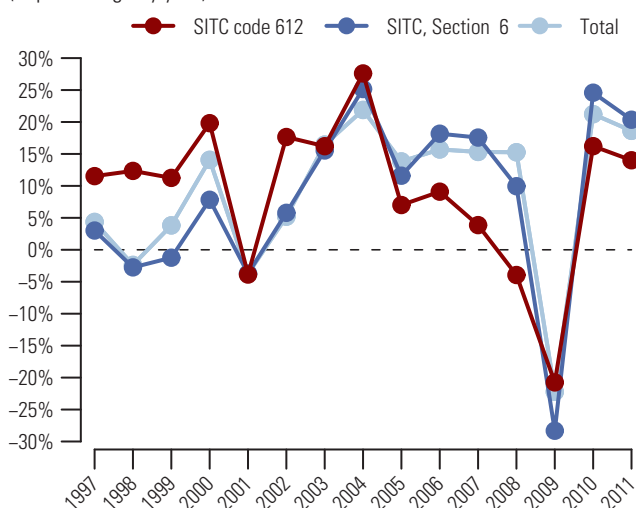

Exports of China, the top exporting country, increased by 15.0 percent in 2011 and represented 19.8 percent of world exports (see table 2). Other major exporting countries were France and Germany, respectively with 9.8 and 5.7 percent of world exports. Top destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in manufactures of leather or of composition leather, nes (SITC group 612). In 2011, its exports were valued at 1.7 bln US\$ while imports amounted to 1.4 bln US\$ resulting in a trade surplus of 258.4 mln US\$. Surpluses were also recorded by Eastern Asia (+690.0 mln US\$) and Southern Asia (+169.7 mln US\$). Significant deficits were recorded by Developed North America (-529.3 mln US\$) and Developed Asia-Pacific (-159.6 mln US\$).

613 Furskins, tanned or dressed, other than those of heading 848.31

After a sharp decline of 25.2 percent in 2009, the value (in current prices) of exports of tanned or dressed furskins (SITC group 613) bounced back in 2010 and grew further in 2011 by 26.4 percent to amount to 2.0 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 20.5 percent to 2.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was above both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of tanned or dressed furskins (SITC group 613) accounted for 0.1 percent of world exports of SITC section 6 and less than 0.1 percent of total world exports in 2011 (see table 1).

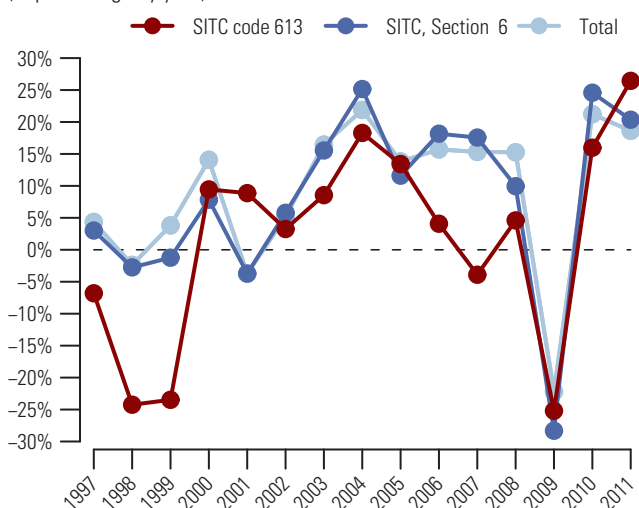

China, the top exporting country or area in 2011, accounted for 22.0 percent of world exports (see table 2). Other major exporting countries or areas were China, Hong Kong SAR and Italy. They accounted respectively for 21.1 and 7.8 percent of world exports. China, Hong Kong SAR was the top destination and accounted for 43.5 percent of world imports. Other major destinations were China and Italy (see table 3). By MDG regions (see graph 2), Eastern Asia accounted for a large share of trade in tanned or dressed furskins (SITC group 613). In 2011, its exports amounted to 860.0 mln US\$ while imports were valued at 1.5 bln US\$ resulting in a trade deficit of 613.0 mln US\$. Top trade surpluses were recorded by Developed Europe (+163.2 mln US\$) and Latin America and the Caribbean (+80.0 mln US\$).

Materials of rubber (e.g., pastes, plates, rods, threads, tubes of rubber) 621

After a drop of 21.4 percent in 2009, the value (in current prices) of exports of materials of rubber (SITC group 621) increased in 2010 and grew further in 2011 by 26.8 percent to amount to 25.8 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 26.5 percent to 26.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of materials of rubber (SITC group 621) accounted for 1.1 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

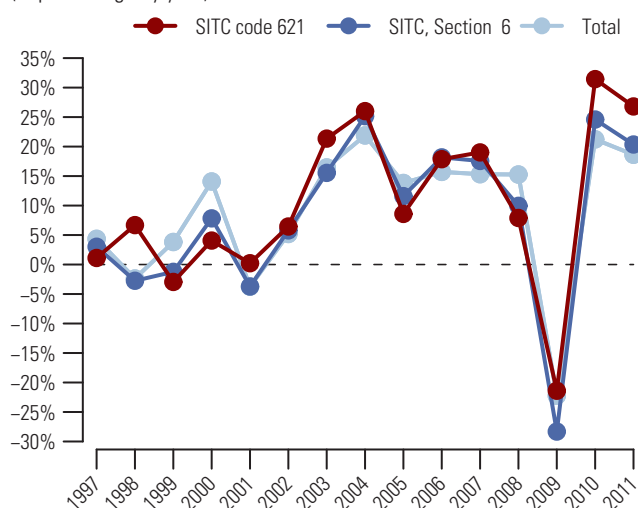

The top exporting countries in 2011 were Germany, Thailand and USA (see table 2). They accounted respectively for 15.1, 9.7 and 7.5 percent of world exports. Top destinations were China, Germany and USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in materials of rubber (SITC group 621). In 2011, its exports and imports were valued respectively at 13.0 bln US\$ and 10.8 bln US\$, resulting in a trade surplus of 2.2 bln US\$. A significant trade surplus was also recorded by South-eastern Asia (+3.9 bln US\$) while a significant trade deficit was recorded by Eastern Asia (-4.0 bln US\$).

625 Rubber tyres, interchangeable tyre treads, tyre flaps and inner tubes

After a drop of 14.3 percent in 2009, the value (in current prices) of exports of rubber tyres and tubes (SITC group 625) increased in 2010 and grew further in 2011 by 31.0 percent to amount to 92.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 30.0 percent to 89.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was greater than both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of rubber tyres and tubes (SITC group 625) accounted for 4.0 percent of world exports of SITC section 6 and 0.5 percent of total world exports in 2011 (see table 1).

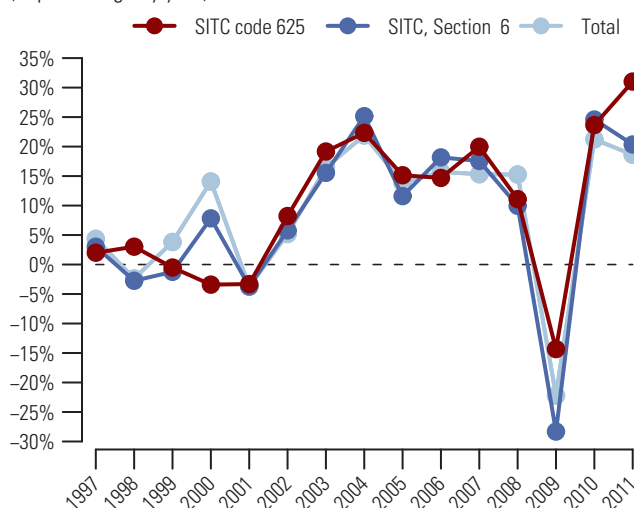

China, Japan and Germany were the top exporting countries in 2011 (see table 2). They accounted respectively for 16.8, 9.1 and 7.8 percent of world exports. Top destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in rubber tyres and tubes (SITC group 625). In 2011, its exports and imports were valued respectively at 35.3 bln and 38.6 bln US\$ resulting in a trade deficit of 3.2 bln US\$. Top trade deficits were also recorded by Developed North America (-9.8 bln US\$) and Latin America and the Caribbean (-5.8 bln US\$). Top trade surpluses were recorded by Eastern Asia (+19.1 bln US\$), South-eastern Asia (+4.3 bln US\$) and Developed Asia-Pacific (+4.2 bln US\$).

After a drop of 20.5 percent in 2009, the value (in current prices) of exports of rubber, nes (SITC group 629) increased in 2010 and grew further in 2011 by 17.9 percent to amount to 30.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 15.2 percent to amount to 33.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was below both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of rubber, nes (SITC group 629) accounted for 1.3 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

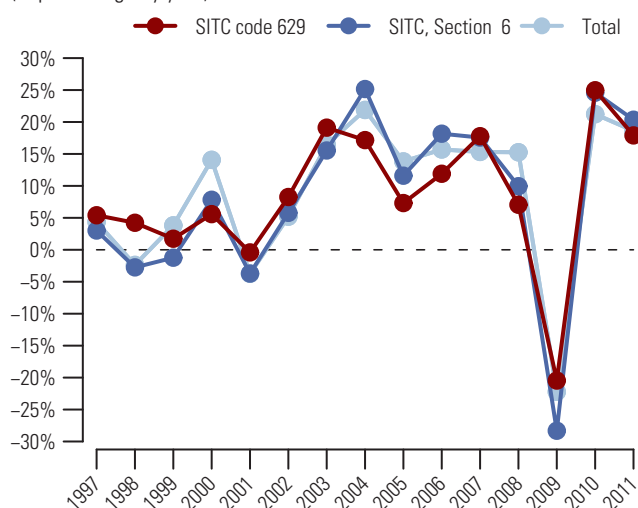

The top exporting countries in 2011 were Germany, China and USA (see table 2). They accounted respectively for 14.6, 8.7 and 8.6 percent of world exports. Top destinations were USA, Germany and China (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in articles of rubber, nes (SITC group 629). In 2011, its exports and imports were valued respectively at 15.4 bln US\$, resulting in a trade surplus of 2.4 bln US\$. Top trade deficits were recorded by Latin America and the Caribbean (-2.4 bln US\$) and Developed North America (-1.7 bln US\$).

633 Cork manufacture

After a drop of 18.0 percent in 2009, the value (in current prices) of exports of cork manufacture (SITC group 633) increased in 2010 and grew further in 2011 by 8.5 percent to amount to 1.6 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 7.1 percent to 1.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was well below both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of cork manufacture (SITC group 633) accounted for 0.1 percent of world exports of SITC section 6 and less than 0.1 percent of total world exports in 2011 (see table 1).

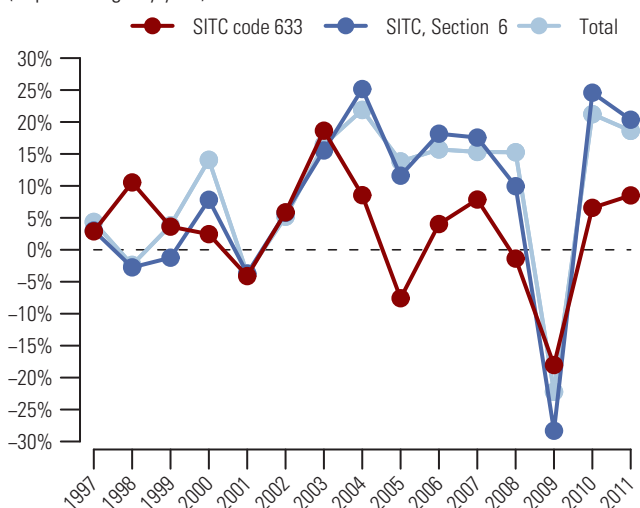

Portugal, the top exporting country in 2011, accounted for nearly two-thirds (64.3 percent) of world exports (see table 2). Other major exporting countries were Spain and France, respectively with 12.5 percent and 4.5 percent of world exports. Major destinations were France, USA and Italy (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports and a large share of imports. In 2011, its exports and imports were valued respectively at 1.4 bln US\$ and 0.9 bln US\$ resulting in a trade surplus of 0.5 bln US\$. Top trade deficits were recorded by Developed North America (-227.3 mln US\$) and Latin America and the Caribbean (-112.1 mln US\$).

Veneers, plywood, particle board, and other wood, worked, nes 634

The value (in current prices) of exports of veneers, plywood, particle board, and other wood, worked, nes (SITC group 634) increased by 13.2 percent and amounted to 34.3 bln US\$ in 2011 (see tables 1 and 2). Imports also increased by 15.4 percent to 33.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 in this product group was exceeded by the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of veneers, plywood, particle board, and other wood, worked, nes (SITC group 634) accounted for 1.5 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

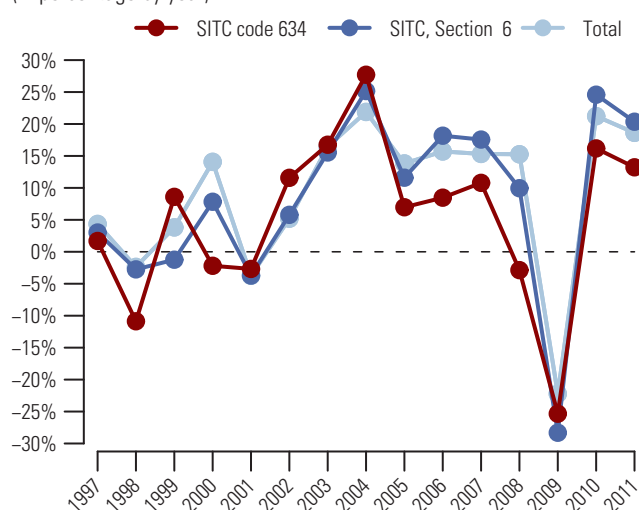

The top exporting countries in 2011 were China, Germany and Malaysia (see table 2). They accounted respectively for 17.8, 10.1 and 6.6 percent of world exports. Top destinations were USA, Japan and Germany (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in veneers, plywood, particle board, and other wood, worked, nes (SITC group 634). In 2011, its exports amounted to 14.4 bln US\$ while imports were valued at 13.6 bln US\$ resulting in a trade surplus of 0.8 bln US\$. Top surpluses were recorded by Eastern Asia (+4.3 bln US\$) and South-eastern Asia (+3.7 bln US\$). Top deficits were recorded by Developed Asia-Pacific (-2.9 bln US\$) and Western Asia (-2.0 bln US\$) among others.

635 Wood manufactures, nes

In 2011, the value (in current prices) of exports of wood manufactures, nes (SITC group 635) rose by 16.1 percent to 26.0 bln US\$ (see tables 1 and 2). Similarly, imports showed an 11.2 percent increase and amounted to 25.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 for this product group was less than both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of wood manufactures, nes (SITC group 635) accounted for 1.1 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

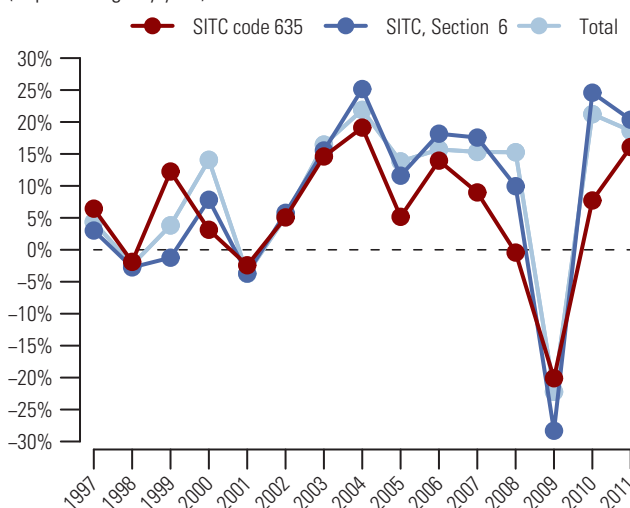

China, Germany and Poland were the top exporting countries in 2011 (see table 2). They accounted respectively for 16.2, 8.6 and 7.0 percent of world exports. Top destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in wood manufactures, nes (SITC group 635). In 2011, its exports and imports were valued respectively at 13.5 bln US\$ and 14.1 bln US\$ resulting in a trade deficit of 0.6 bln US\$. Developed Asia-Pacific and Developed North America recorded trade deficits amounting to 2.8 bln US\$ and 2.3 bln US\$, respectively, while top trade surpluses were recorded by Eastern Asia (+3.9 bln US\$) and South-eastern Asia (+2.8 bln US\$).

After a huge drop in 2009, the value (in current prices) of exports of paper and paperboard (SITC group 641) rose significantly in 2010 and continued to increase in 2011 by 11.6 percent to amount to 123.3 bln US\$ (see tables 1 and 2). Imports for the same year also increased by 11.6 percent to 125.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 in this product group was well below the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of paper and paperboard (SITC group 641) accounted for 5.3 percent of world exports of SITC section 6 and 0.7 percent of total world exports in 2011 (see table 1).

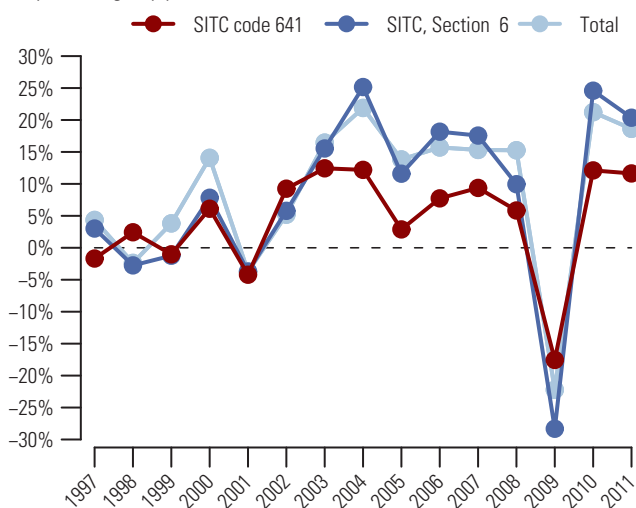

In 2011, Germany, USA and Sweden were the top exporting countries (see table 2). They accounted for 13.7, 9.4 and 8.7 percent of world exports. Germany, USA and United Kingdom were the top destinations. By MDG regions, Developed Europe accounted for almost half of the trade in paper and paperboard (SITC group 641). In 2011, its exports amounted to 74.8 bln US\$ and its imports to 58.6 bln US\$ resulting in a trade surplus of 16.2 bln US\$. A significant surplus was also recorded by Developed North America (+5.5 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-6.4 bln US\$), Western Asia (-5.7 bln US\$) and Southern Asia (-3.9 bln US\$).

642 Paper and paperboard, cut to size or shape; articles of paper or paperboard

During the recent five years, the value (in current prices) of exports of paper and paperboard, cut to size or shape and articles of paper or paperboard (SITC group 642) increased on average by 5.8 percent each year and amounted to 59.2 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports for the 5-year period grew by 5.2 percent each year and in 2011 reached 59.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 for this product group of 14.1 percent was far exceeded by the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and by the increase in total world exports of 18.6 percent. Exports of paper and paperboard, cut to size or shape and articles of paper or paperboard (SITC group 642) accounted for 2.5 percent of world exports of SITC section 6 and 0.3 percent of total world exports in 2011 (see table 1).

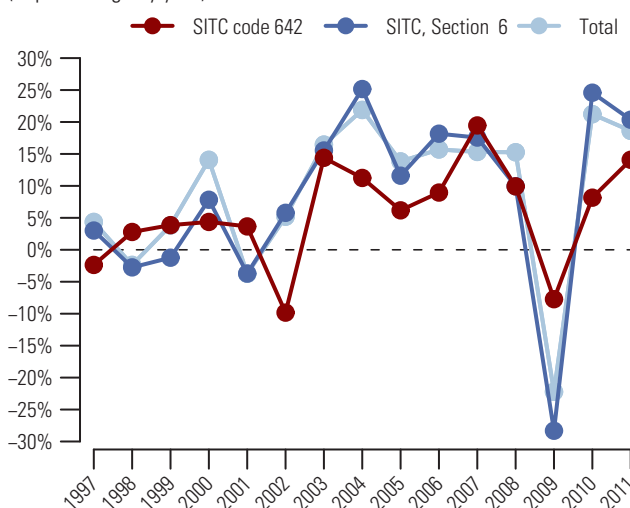

Germany, China and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 13.9, 12.2 and 8.1 percent of world exports. Top destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), a majority of trade in paper and paperboard, cut to size or shape and articles of paper or paperboard (SITC group 642) took place in Developed Europe. In 2011, its exports and imports were valued respectively at 31.3 bln US\$ and 28.7 bln US\$ resulting in a trade surplus of 2.6 bln US\$. Eastern Asia recorded the highest trade surplus amounting to 6.5 bln US\$. The top trade deficit was recorded by Commonwealth of Independent States (-2.3 bln US\$).

In 2011, the value (in current prices) of exports of textile yarn (SITC group 651) increased by 15.6 percent to reach its peak of 57.9 bln US\$ (see tables 1 and 2). Similarly, imports grew by 16.4 percent and totaled 55.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 for this product group was less than the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of textile yarn (SITC group 651) accounted for 2.5 percent of world exports of SITC section 6 and 0.3 percent of total world exports in 2011 (see table 1).

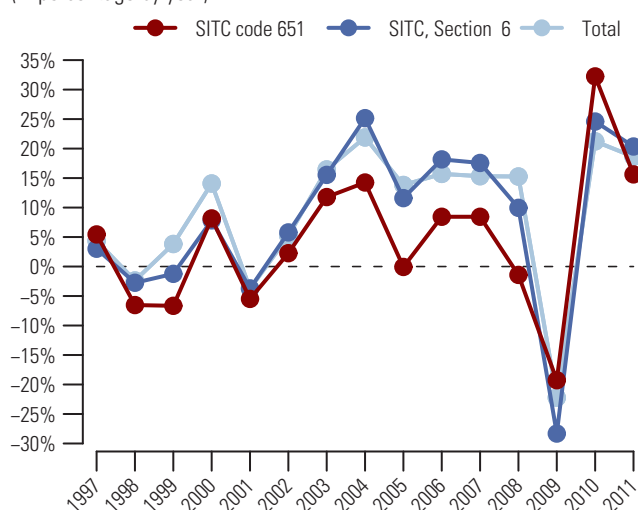

In 2011, China, India and USA were the top exporting countries (see table 2). They accounted respectively for 20.5, 8.8 and 6.7 percent of world exports. China, Italy, and China, Hong Kong SAR were the top destinations (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Eastern Asia (+6.5 bln US\$), Southern Asia (+3.4 bln US\$) and South-eastern Asia (+2.7 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-3.9 bln US\$) and Developed Europe (-3.5 bln US\$) among others.

652 Cotton fabrics, woven (not including narrow or special fabrics)

The value (in current prices) of exports of woven cotton fabrics (SITC group 652) increased by 17.6 percent and amounted to 33.4 bln US\$ in 2011 (see tables 1 and 2). In the same period, imports increased by 20.6 percent and amounted to 28.3 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 for this product group was exceeded by both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of woven cotton fabrics (SITC group 652) accounted for 1.4 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

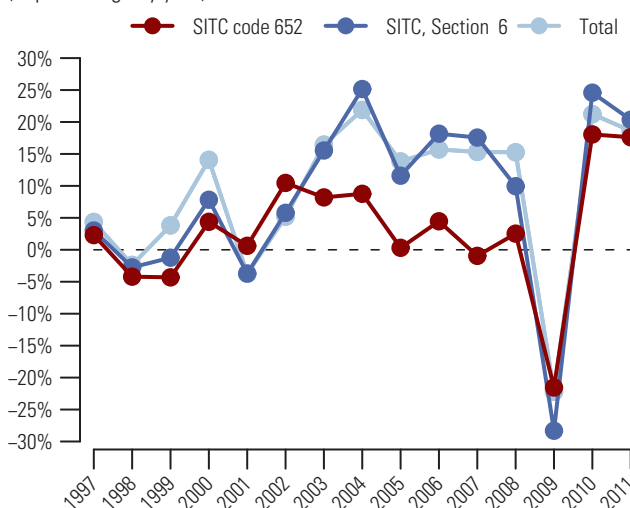

China, the top exporting country in 2011, accounted for 41.6 percent of world exports (see table 2). Other major exporting countries or areas were Pakistan and China, Hong Kong SAR, with 7.9 and 6.1 percent respectively (see table 3). Bangladesh, Viet Nam and China, Hong Kong SAR were among the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded the top trade surplus amounting to 12.5 bln US\$. Trade surpluses were also recorded by Developed Europe (+1.0 bln US\$) and Southern Asia (+0.7 bln US\$). Top trade deficits were recorded by South-eastern Asia (-3.2 bln US\$), Latin America and the Caribbean (-1.8 bln US\$) and Northern Africa (-1.7 bln US\$).

Fabrics, woven, of man-made textile materials (not narrow or special fabrics) 653

Following a 16.1 percent decrease in 2009, the value (in current prices) of exports of woven fabrics of man-made textile materials (SITC group 653) increased in 2010 and grew further in 2011 by 21.6 percent to reach its peak of 44.0 bln US\$ (see table 1 and 2). Imports for the same year also grew by 22.4 percent to 35.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 for this product group exceeded both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of woven fabrics of man-made textile materials (SITC group 653) accounted for 1.9 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

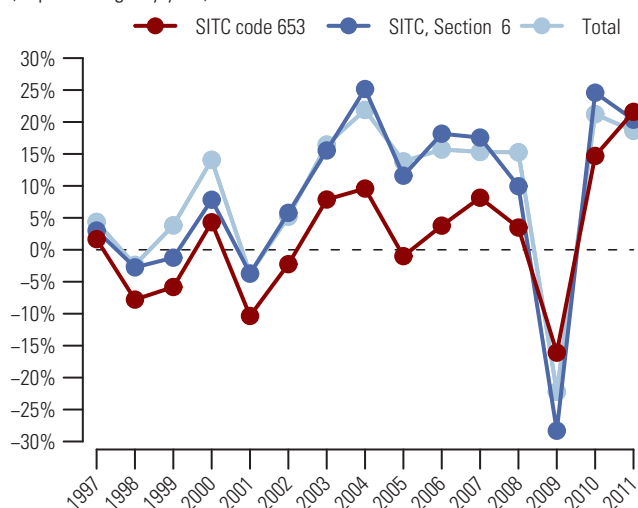

China, the top exporting country in 2011, accounted for 38.1 percent of world exports (see table 2). Viet Nam was the top destination, together with China and USA (see table 3). By MDG regions (see graph 2), Eastern Asia recorded the highest trade surplus of 17.9 bln US\$. Trade surpluses were also recorded by Southern Asia (+1.2 bln US\$) and Developed Asia-Pacific (+1.2 bln US\$). Top trade deficits were recorded by South-eastern Asia (-3.5 bln US\$), Latin America and the Caribbean (-3.1 bln US\$) and Northern Africa (-1.4 bln US\$).

654 Other textile fabrics, woven

The value (in current prices) of exports of other textile fabrics, woven (SITC group 654) rose by 13.5 percent and amounted to 11.2 bln US\$ in 2011 (see tables 1 and 2). Imports, displaying a similar development, also increased by 17.4 percent and amounted to 10.3 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was exceeded by increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of other textile fabrics, woven (SITC group 654) accounted for 0.5 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

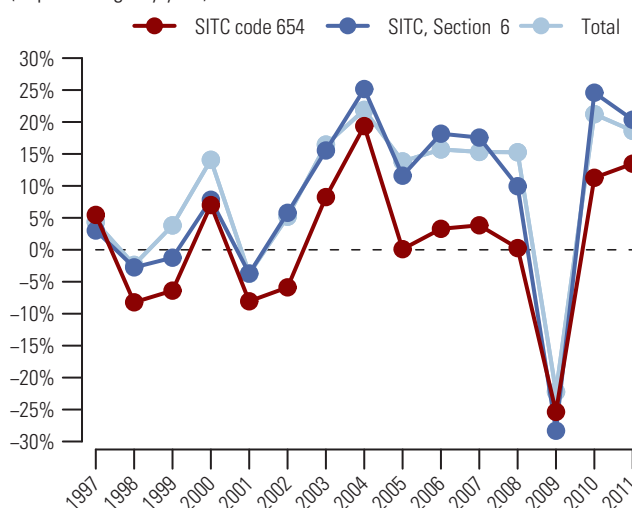

China and Italy, the top exporting countries for 2011, accounted respectively for 25.9 and 20.6 percent of world exports (see table 2). Germany, another top exporting country, accounted for 6.0 percent. Top destinations were China, Germany and Italy (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports and a large share of imports. In 2011, its exports were valued at 5.3 bln US\$ while imports reached 3.6 bln US\$, resulting in a trade surplus of 1.7 bln US\$. Trade surpluses were also recorded by Eastern Asia (+1.9 bln US\$) and Southern Asia (+122.7 mln US\$). Top trade deficits were recorded by South-eastern Asia (-498.2 mln US\$), Developed North America (-452.5 mln US\$) and South-eastern Europe (-431.6 mln US\$).

In 2011, the value (in current prices) of exports of knitted or crocheted fabrics, nes, (SITC group 655) increased by 16.6 percent and amounted to 30.6 bln US\$ (see tables 1 and 2). Similarly, imports also increased by 17.6 percent to 23.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 for this product group was less than the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of knitted or crocheted fabrics, nes, (SITC group 655) accounted for 1.3 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

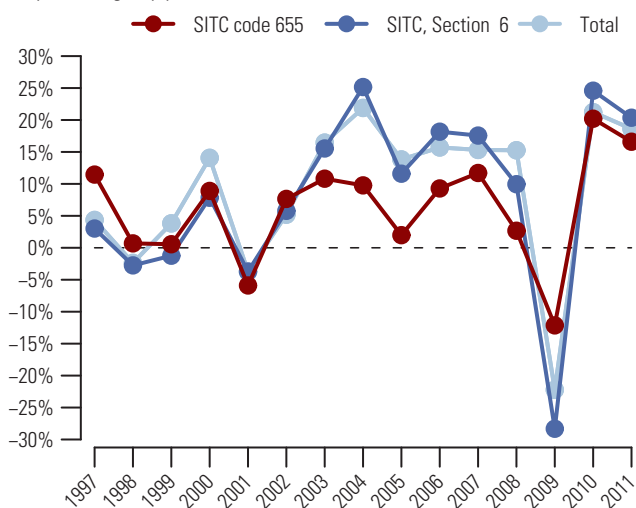

The top exporting country for 2011 was China, accounting for 34.9 percent of world exports (see table 2). Rep. of Korea and China, Hong Kong SAR, the two other major exporting countries or areas, accounted respectively for 13.8 and 8.5 percent of world exports. Viet Nam, China and China, Hong Kong SAR were among the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia and Developed Europe recorded trade surpluses amounting respectively to 15.2 bln US\$ and 1.4 bln US\$ in 2011. Top trade deficits were recorded by South-eastern Asia (-5.1 bln US\$) and Latin America and the Caribbean (-2.1 bln US\$).

656 Tulles, lace, embroidery, ribbons, trimmings and other smallwares

Following a huge drop in 2009, the value (in current prices) of exports of tulles, lace, embroidery, ribbons, trimmings and other small wares (SITC group 656) rose in 2010 and grew further in 2011 by 10.8 percent to 9.6 bln US\$ (see tables 1 and 2). Imports for the same year also increased by 16.3 percent and totaled 8.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was exceeded by the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of tulles, lace, embroidery, ribbons, trimmings and other small wares (SITC group 656) accounted for 0.4 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

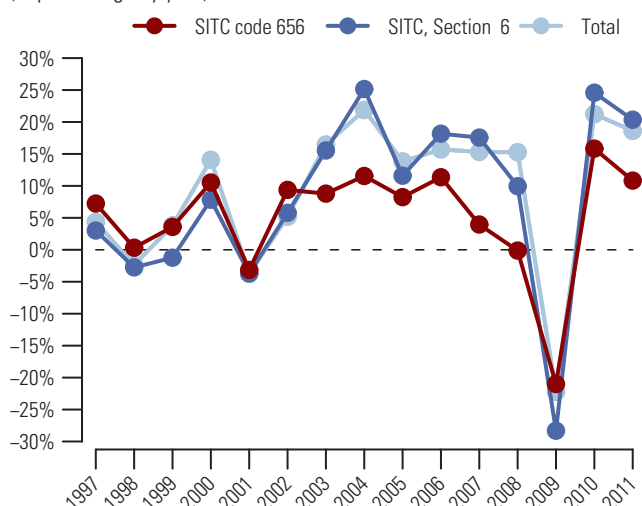

China was the top exporting country in 2011 and accounted for 30.7 percent of world exports (see table 2). Viet Nam, China and USA were among the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded the highest trade surplus amounting to 3.6 bln US\$ in 2011. Developed Europe also recorded a trade surplus of 0.5 bln US\$ while South-eastern Asia and Latin America and the Caribbean recorded trade deficits amounting respectively to 1.2 bln US\$ and 0.5 bln US\$.

Special yarns, special textile fabrics and related products 657

After a 14.0 percent drop in 2009, the exports of special yarns, special textile fabrics and related products (SITC group 657) bounced back in 2010 and grew further in 2011 by 16.1 percent and amounted to 48.0 bln US\$ (see tables 1 and 2). Similarly, imports also increased by 14.9 percent to 42.0 bln US\$ (see table 3). Graph 1 shows that the rise in exports in 2011 for this product group was exceeded by increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of special yarns, special textile fabrics and related products (SITC group 657) accounted for 2.1 percent of world exports of SITC section 6 and 0.3 percent of total world exports (see table 1).

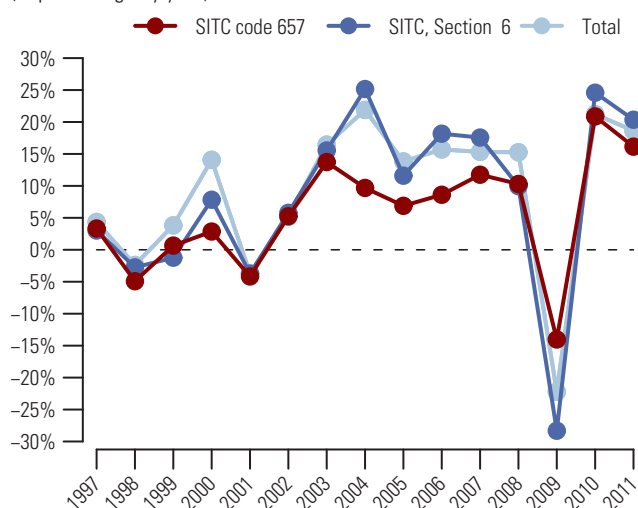

China, Germany and USA were the top exporting countries in 2011 and accounted for 22.0, 11.3 and 8.6 percent of world exports respectively (see table 2). USA, China and Germany were also the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia and Developed Europe recorded trade surpluses amounting respectively to 10.1 bln US\$ and 4.6 bln US\$ in 2011. Top trade deficits were recorded by Latin America and the Caribbean (-2.5 bln US\$) and South-eastern Asia (-2.1 bln US\$).

658 Made-up articles, wholly or chiefly of textile materials, nes

In 2011, the value (in current prices) of exports of made-up articles, wholly or chiefly of textiles materials, nes (SITC group 658) grew by 14.8 percent and amounted to 50.9 bln US\$ (see tables 1 and 2). Imports also rose by 14.5 percent to 46.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 in this product group was exceeded by increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of made-up articles, wholly or chiefly of textiles materials, nes (SITC group 658) accounted for 2.2 percent of world exports of SITC section 6 and 0.3 percent of total world exports (see table 1).

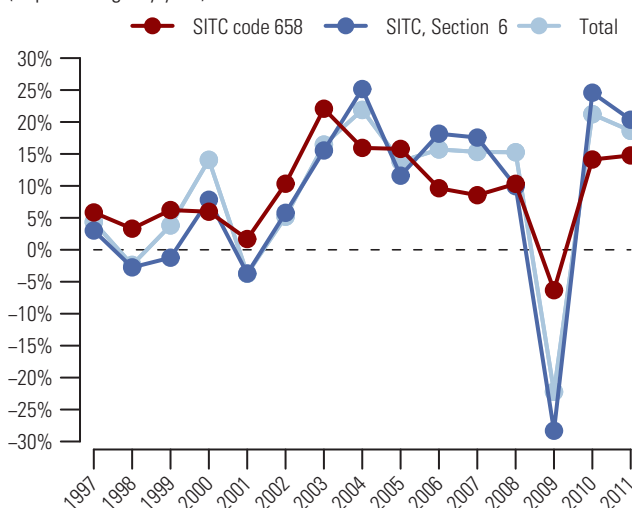

Exports of China, the top exporting country, accounted for 44.1 percent of world exports in 2011 (see table 2). Other major exporting countries were India and Pakistan, respectively with 7.4 and 7.0 percent of world exports. USA was the top destination and accounted for 26.3 percent of imports. Other major destinations were Germany and Japan (see table 3). By MDG regions (see graph 2), Eastern Asia and Southern Asia recorded trade surpluses amounting respectively to 21.9 bln US\$ and 7.9 bln US\$ in 2011. Developed North America, Developed Europe and Developed Asia-Pacific recorded trade deficits of respectively 12.1 bln US\$, 9.0 bln US\$ and 4.8 bln US\$.

In 2011, the value (in current prices) of exports of floor coverings, etc (SITC group 659) increased by 11.7 percent and amounted to 15.8 bln US\$ (see tables 1 and 2). Imports in the same year also grew by 10.2 percent and amounted to 13.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was exceeded by both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of floor coverings, etc (SITC group 659) accounted for 0.7 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

The top exporting countries in 2011 were China, Belgium and Turkey (see table 2). They accounted respectively for 14.9, 13.3 and 10.1 percent of world exports. Top destinations were USA, Germany and United Kingdom (see table 3). By MDG regions (see graph 2), trade surpluses were recorded by Southern Asia (+2.3 bln US\$) and Eastern Asia (+2.1 bln US\$). Top deficits were recorded by Developed North America (-1.7 bln US\$) and Developed Asia-Pacific (-1.0 bln US\$).

661 Lime, cement, and fabricated construction materials (except glass and clay)

The value (in current prices) of exports of lime, cement, and fabricated construction materials, except glass and clay (SITC group 661) rose by 9.8 percent to 28.2 bln US\$ in 2011 (see tables 1 and 2). Imports also increased by 7.1 percent and amounted to 28.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 for this product group was significantly exceeded by increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of lime, cement, and fabricated construction materials, except glass and clay (SITC group 661) accounted for 1.2 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

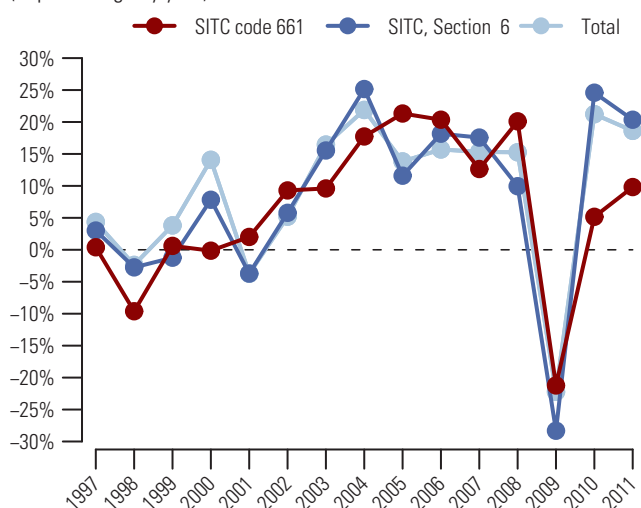

China, Italy and Turkey were the top exporting countries in 2011 (see table 2). They accounted respectively for 20.6, 8.2 and 6.5 percent of world exports. USA, France and Germany were the three major destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded the highest trade surplus in 2011 of 4.9 bln US\$. Other major surpluses were recorded by Developed Europe (+1.4 bln US\$) and Southern Asia (+1.1 bln US\$). Developed North America and Sub-Saharan Africa recorded deficits amounting both to 2.6 bln US\$

Clay construction materials and refractory construction materials 662

Following a sharp decline of 19.3 percent in 2009, the value (in current prices) of exports of clay construction materials and refractory construction materials (SITC group 662) bounced back in 2010 and grew further in 2011 by 15.1 percent to amount to 25.4 bln US\$ (see tables 1 and 2). Imports exhibited a similar development and increased by 11.2 percent to 23.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was exceeded by both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of clay construction materials and refractory construction materials (SITC group 662) accounted for 1.1 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

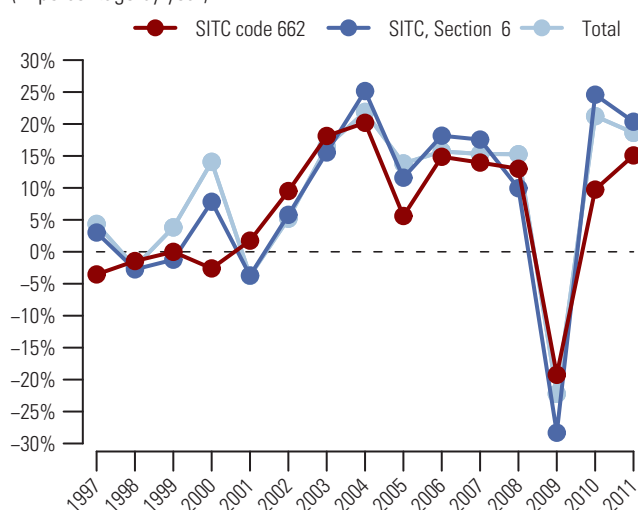

The top exporting countries in 2011 were China, Italy and Spain (see table 2). They accounted respectively for 26.0, 18.0 and 11.4 percent of world exports. Top destinations were USA, France and Germany (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the majority of exports and imports. In 2011, its exports and imports were valued respectively at 13.2 bln and 8.0 bln US\$ and resulted in a trade surplus of 5.3 bln US\$. Eastern Asia also recorded a trade surplus of 5.4 bln US\$. Top trade deficits were recorded by Commonwealth of Independent States (-1.5 bln US\$), Developed North America (-1.4 bln US\$) and Sub-Saharan Africa (-1.3 bln US\$).

663 Mineral manufactures, nes

Following a significant decline of 23.7 percent in 2009, the value (in current prices) of exports of mineral manufactures, nes (SITC group 663) bounced back in 2010 and increased in 2011 by 20.2 percent to 35.3 bln US\$ (see tables 1 and 2). Imports also increased by 20.7 percent and totaled 34.7 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 in this product group was below the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent but was higher than the increase in total world exports of 18.6 percent. Exports of mineral manufactures, nes (SITC group 663) accounted for 1.5 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

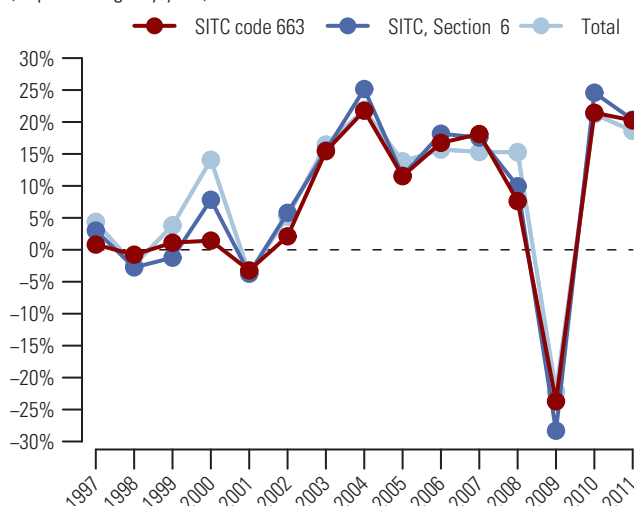

Germany, China and Japan were the top exporting countries in 2011 (see table 2). They accounted respectively for 16.1, 11.2 and 10.7 percent of world exports. Top destinations were USA, Germany and China (see table 3). By MDG regions (see graph 2), Developed Europe and Developed Asia-Pacific recorded trade surpluses amounting respectively to 3.2 bln US\$ and 2.2 bln US\$ in 2011. Top trade deficits were recorded by Developed North America (-1.2 bln US\$), Latin America and the Caribbean (-1.1 bln US\$) and Commonwealth of Independent States (-1.0 bln US\$).

Despite a significant decline of 19.1 percent in 2009, the value (in current prices) of exports of glass (SITC group 664) increased on average by 5.1 percent from 2007 to 2011 and amounted to 39.4 bln US\$ in 2011 (see tables 1 and 2). In the same period, imports had a similar development with an average increase of 5.4 percent and amounted to 41.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 for this product group was surpassed by both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of glass (SITC group 664) accounted for 1.7 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

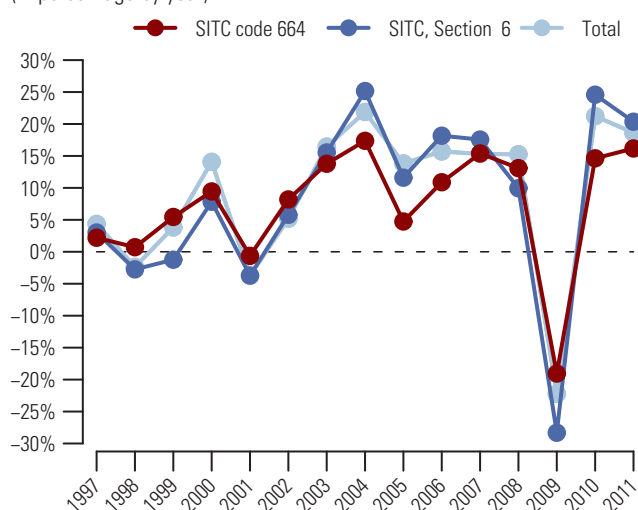

The top exporting countries in 2011 were China, Japan and Germany (see table 2). They accounted respectively for 14.4, 12.9 and 9.7 percent of world exports. China, Germany and Rep. of Korea were the three major destinations (see table 3). By MDG regions (see graph 2), a large part of trade in glass (SITC group 664) took place in Developed Europe. In 2011, its exports and imports were valued at 16.1 bln US\$ and 15.9 bln US\$ respectively, resulting in a trade surplus of 0.2 bln US\$. Developed Asia-Pacific recorded the highest trade surplus of 2.9 bln US\$. Significant trade deficits were recorded by Latin America and the Caribbean (-1.1 bln US\$), Eastern Asia (-1.0 bln US\$) and Commonwealth of Independent States (-0.9 bln US\$).

Following a 13.4 percent drop in 2009, the value (in current prices) of exports of glassware (SITC group 665) bounced back in 2010 and grew further in 2011 by 11.8 percent to reach its peak of 25.8 bln US\$ (see tables 1 and 2). Imports for the same year also increased by 12.8 percent to amount to 25.0 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 in this product group was exceeded by both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of glassware (SITC group 665) accounted for 1.1 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

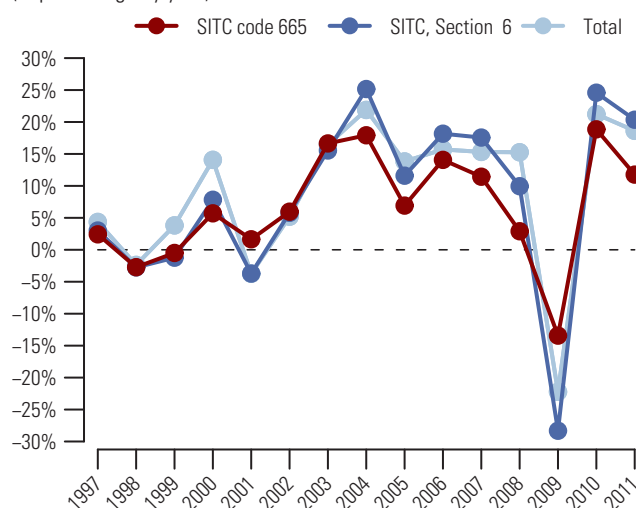

Exports of China, the top exporting country, grew by 22.1 percent and accounted for 22.8 percent of world exports in 2011 (see table 2). Other major exporting countries were Germany and France, respectively with 9.6 and 7.2 percent of world exports. Top destinations were USA, China and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of exports and imports of glassware (SITC group 665). In 2011, its exports and imports were valued respectively at 11.4 bln US\$ and 9.7 bln US\$, resulting in a trade surplus of 1.7 bln US\$. Eastern Asia recorded a trade surplus of 3.1 bln US\$ while Developed North America recorded a deficit of 2.2 bln US\$.

The value (in current prices) of exports of pottery (SITC group 666) increased by 19.2 percent to amount to 9.1 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports increased by 6.0 percent and totaled 8.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 in this product group was less than the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent but was slightly higher than the increase in total world exports of 18.6 percent. Exports of pottery (SITC group 666) accounted for 0.4 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

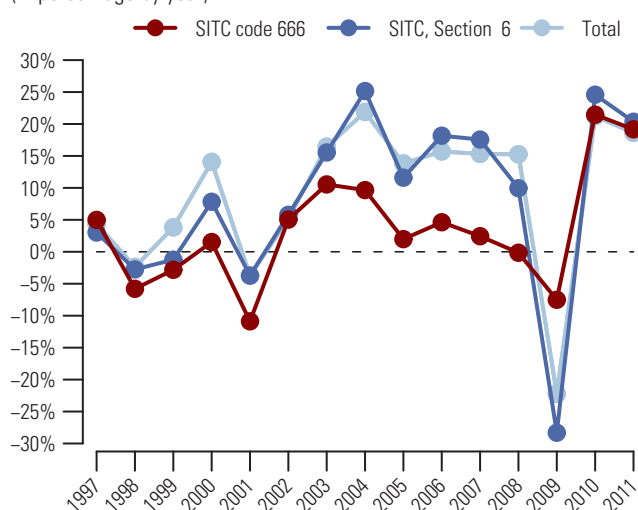

China, the top exporting country in 2011, accounted for more than half (55.7 percent) of world exports (see table 2). Other major exporting countries were Germany and United Kingdom, respectively with 6.8 and 2.9 percent of world exports. Top destinations were USA, Germany and United Kingdom (see table 3). By MDG regions (see graph 2), Eastern Asia recorded the highest trade surplus of 4.8 bln US\$ in 2011 while Developed North America and Developed Europe recorded significant trade deficits amounting respectively to 1.7 bln US\$ and 1.0 bln US\$.

667 Pearls and precious or semiprecious stones, unworked or worked

From 2007 to 2011, the value (in current prices) of exports of pearls and precious or semiprecious stones (SITC group 667) increased on average by 12.3 percent and reached its peak of 166.1 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports showed an average increase of 13.6 percent and amounted to 158.9 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of pearls and precious or semiprecious stones (SITC group 667) accounted for 7.1 percent of world exports of SITC section 6 and 0.9 percent of total world exports in 2011 (see table 1).

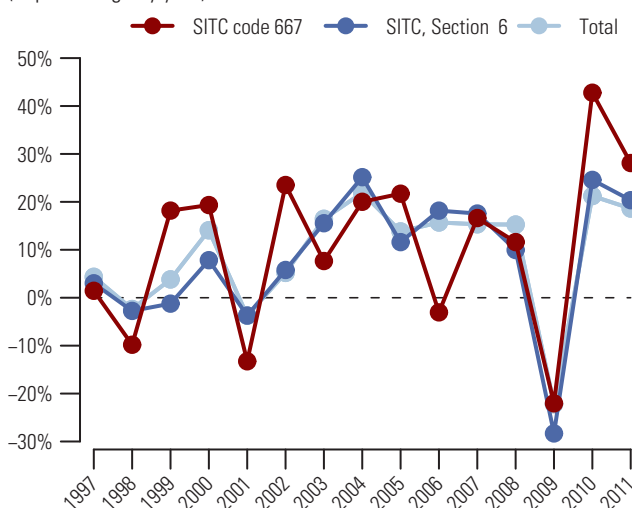

In 2011, India, Israel and Belgium were the top exporting countries (see table 2). They accounted respectively for 19.6, 12.5 and 12.2 percent of world exports. Top destinations were India, USA and Belgium (see table 3). By MDG regions (see graph 2), Western Asia, Sub-Saharan Africa and Commonwealth of Independent States recorded trade surpluses respectively of 10.7 bln US\$, 7.7 bln US\$ and 3.6 bln US\$ in 2011. Top trade deficits were recorded by Eastern Asia (-8.6 bln US\$), Developed Europe (-4.0 bln US\$) and Developed North America (-2.1 bln US\$).

Pig iron, spiegeleisen, sponge iron, iron or steel granules and powders 671

In 2011, the value (in current prices) of exports of pig iron, spiegeleisen, sponge iron, iron or steel granules and powders (SITC group 671) rose by 22.5 percent and amounted to 43.4 bln US\$ (see tables 1 and 2). In the same period, imports showed a 17.5 percent growth and amounted to 47.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 for this product group exceeded both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of pig iron, spiegeleisen, sponge iron, iron or steel granules and powders (SITC group 671) accounted for 1.9 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

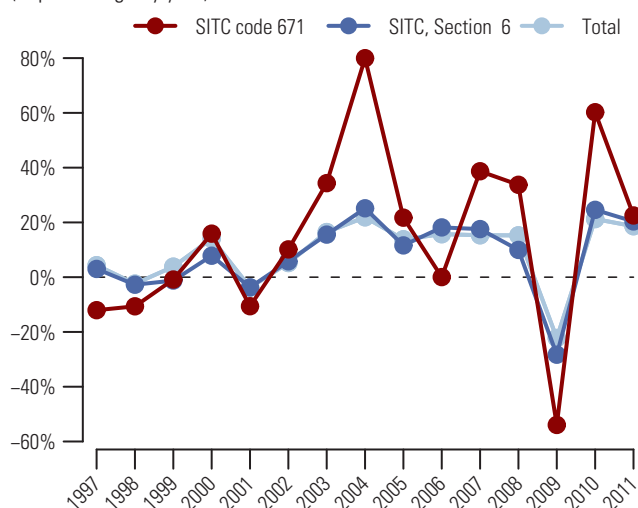

South Africa, Russian Federation and China were the three major exporting countries in 2011 (see table 2). They accounted respectively for 11.5, 10.5 and 9.7 percent of world exports. Top destinations were USA, China and Germany (see table 3). By MDG regions (see graph 2), trade surpluses were recorded by Commonwealth of Independent States (+8.8 bln US\$), Latin America and the Caribbean (+5.5 bln US\$) and Sub-Saharan Africa (+4.9 bln US\$). Developed Europe, Developed North America and Eastern Asia recorded trade deficits amounting respectively to 9.4 bln US\$, 5.9 bln US\$ and 4.9 bln US\$.

672 Ingots and other primary forms, of iron or steel; semi-finished products

From 2007 to 2011, the value (in current prices) of exports of ingots and other primary forms, of iron or steel; semi-finished products (SITC group 672) increased on average by 2.8 percent and amounted to 43.6 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports increased on average by 2.4 percent and amounted to 46.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group exceeded the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of ingots and other primary forms, of iron or steel; semi-finished products (SITC group 672) accounted for 1.9 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

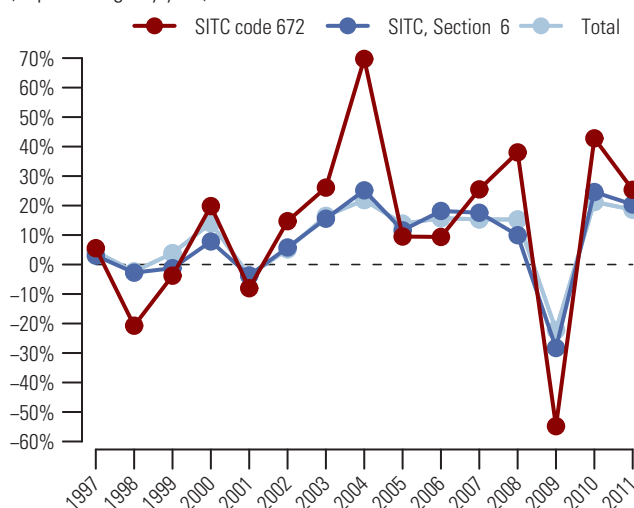

The top exporting countries in 2011 were Russian Federation, Ukraine and Brazil (see table 2). Their exports increased respectively by 11.8, 21.4 and 78.9 percent to represent 18.4, 15.1 and 10.6 percent of world exports. USA, Rep. of Korea and Iran were the three major destinations (see table 3). By MDG regions (see graph 2), Commonwealth of Independent States recorded a trade surplus of 15.0 bln US\$. Major surpluses were also recorded by Latin America and the Caribbean (+5.2 bln US\$) and Developed Asia-Pacific (+2.3 bln US\$). Top trade deficits were recorded by South-eastern Asia (-5.2 bln US\$), Eastern Asia (-5.1 bln US\$) and Southern Asia (-3.8 bln US\$).

Flat-rolled products of iron or non-alloy steel, not clad, plated or coated 673

After a significant drop of 47.0 percent in 2009, the value (in current prices) of exports of flat-rolled iron, etc (SITC group 673) bounced back in 2010 and grew further in 2011 by 15.4 percent to amount to 92.2 bln US\$ (see tables 1 and 2). Imports experienced a similar development and increased by 22.0 percent to amount to 101.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports in 2011 for this product group was less than both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of flat-rolled iron, etc (SITC group 673) accounted for 4.0 percent of world exports of SITC section 6 and 0.5 percent of total world exports in 2011 (see table 1).

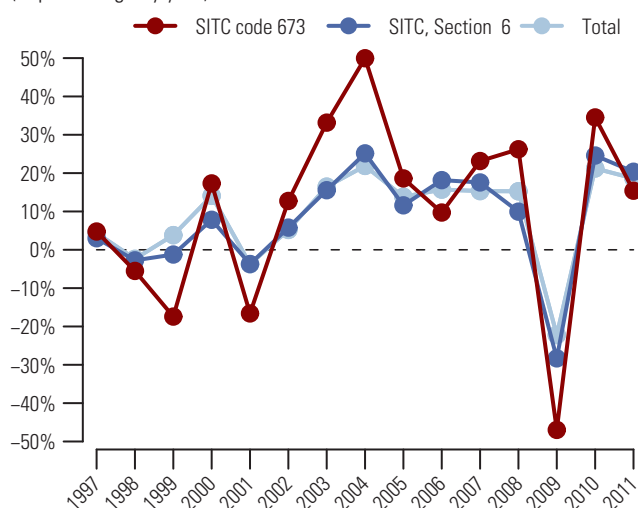

Japan, Rep. of Korea and Belgium were the top exporting countries in 2011 (see table 2). They accounted respectively for 14.6, 12.1 and 6.3 percent of world exports. Top destinations were Rep. of Korea, Germany and China (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in flat-rolled iron, etc (SITC group 673). In 2011, its exports and imports were valued respectively at 31.7 bln US\$ and 35.3 bln US\$, resulting in a trade deficit of 3.6 bln US\$. Major deficits were also recorded by South-eastern Asia (-12.4 bln US\$), Western Asia (-5.5 bln US\$) and Southern Asia (-5.0 bln US\$) among others. Developed Asia-Pacific and Commonwealth of Independent States recorded trade surpluses amounting respectively to 11.3 bln US\$ and 8.4 bln US\$.

674 Flat-rolled products of iron or non-alloy steel, clad, plated or coated

After a 35.8 percent drop in 2009, the value (in current prices) of exports of flat-rolled products of iron or non-alloy steel, clad, plated or coated (SITC group 674) bounced back in 2010 and grew further by 19.0 percent amounting to 58.7 bln US\$ in 2011 (see tables 1 and 2). Imports in the same year also grew by 16.4 percent to 59.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 for this product group was below the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent but slightly higher than the increase in total world exports of 18.6 percent. Exports of flat-rolled products of iron or non-alloy steel, clad, plated or coated (SITC group 674) accounted for 2.5 percent of world exports of SITC section 6 and 0.3 percent of total world exports in 2011 (see table 1).

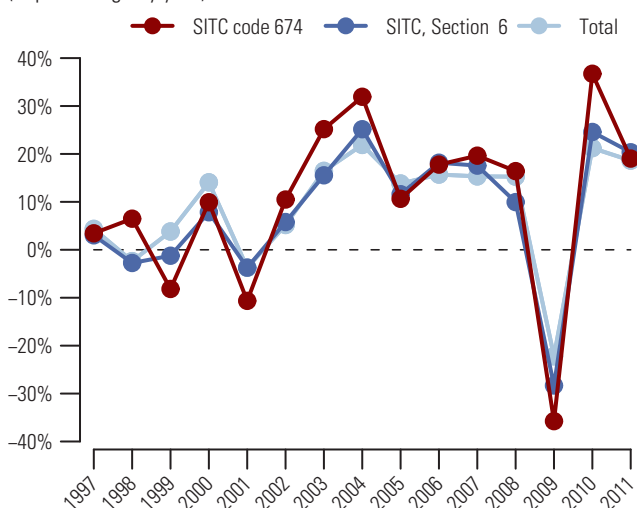

China's exports increased by 60.7 percent representing 18.4 percent of world exports in 2011 (see table 2). Other major exporting countries were Rep. of Korea and Belgium, respectively with 9.9 and 9.2 percent of world exports. Germany, China and France were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in flat-rolled products of iron or non-alloy steel, clad, plated or coated (SITC group 674) in 2011, with exports and imports valued respectively at 24.3 bln US\$ and 26.2 bln US\$ resulting in a trade deficit of 1.9 bln US\$. Major deficits were also recorded by South-eastern Asia (-4.8 bln US\$) and Latin America and the Caribbean (-3.3 bln US\$). Top trade surpluses were recorded by Eastern Asia (+12.7 bln US\$) and Developed Asia-Pacific (+4.1 bln US\$).

The value (in current prices) of exports of flat-rolled products of alloy steel (SITC group 675) increased by 26.2 percent and amounted to 75.0 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports showed a 22.8 percent growth and totaled 68.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports in 2011 in this product group exceeded both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of flat-rolled products of alloy steel (SITC group 675) accounted for 3.2 percent of world exports of SITC section 6 and 0.4 percent of total world exports in 2011 (see table 1).

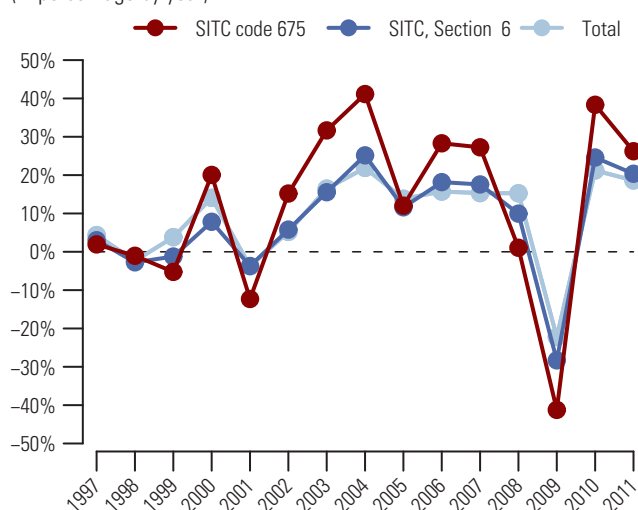

In 2011, China's exports increased by 144.0 percent and accounted for 14.6 percent of world exports (see table 2). Other top exporting countries were Japan and Germany, respectively with 13.1 and 9.1 percent of world exports. China, Germany and Italy were the three main destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in flat-rolled products of alloy steel (SITC group 675). In 2011, its exports and imports were valued respectively at 37.2 bln US\$ and 29.6 bln US\$, resulting in a trade surplus of 7.5 bln US\$. Developed Asia-Pacific recorded a trade surplus of 8.6 bln US\$. Top trade deficits were recorded by South-eastern Asia (-5.2 bln US\$), Latin America and the Caribbean (-3.4 bln US\$) and Southern Asia (-2.6 bln US\$).

676 Iron and steel bars, rods, angles, shapes and sections

After a sharp decline in 2009 of 54.7 percent, the value (in current prices) of exports of iron and steel bars, rods, angles, shapes and sections (SITC group 676) increased by 34.9 percent in 2010 and grew further by 32.7 percent to amount to 91.1 bln US\$ in 2011 (see tables 1 and 3). Imports increased by 32.6 percent and amounted to 90.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of iron and steel bars, rods, angles, shapes and sections (SITC group 676) accounted for 3.9 percent of world exports of SITC section 6 and 0.5 percent of total world exports in 2011 (see table 1).

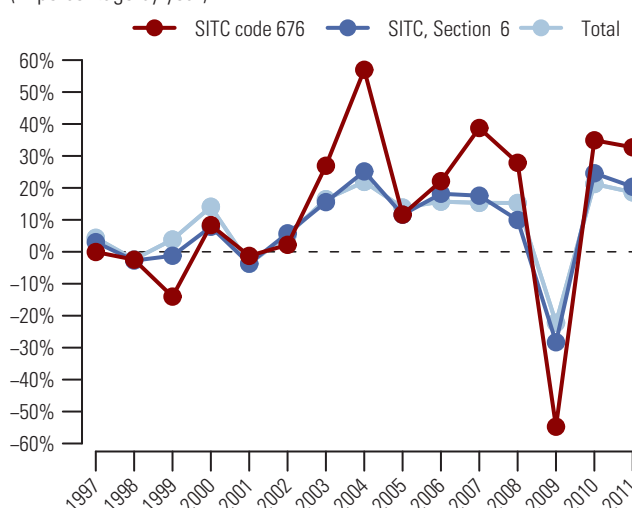

The top exporting countries in 2011 were Germany, China and Turkey (see table 2). They accounted respectively for 9.0, 8.9 and 7.8 percent of world exports. Germany, USA and Rep. of Korea were the three main destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in iron and steel bars, rods, angles, shapes and sections (SITC group 676). In 2011, its exports and imports were valued respectively at 43.3 bln US\$ and 35.2 bln US\$, resulting in a trade surplus of 8.1 bln US\$. Large surpluses were also recorded by Eastern Asia (+4.4 bln US\$) and Developed Asia-Pacific (+3.7 bln US\$). Top trade deficits were recorded by South-eastern Asia (-6.0 bln US\$), Northern Africa (-3.0 bln US\$) and Latin America and the Caribbean (-2.8 bln US\$).

Rails or railway track construction material, of iron or steel 677

In 2011, the value (in current prices) of exports of rails or railway track construction material, of iron or steel (SITC group 677) rose by 14.7 percent to amount to 4.4 bln US\$ (see tables 1 and 2). Imports increased by 8.5 percent to amount to 4.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was less than both increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of rails or railway track construction material, of iron or steel (SITC group 677) accounted for 0.2 percent of world exports of SITC section 6 and less than 0.1 percent of total world exports in 2011 (see table 1).

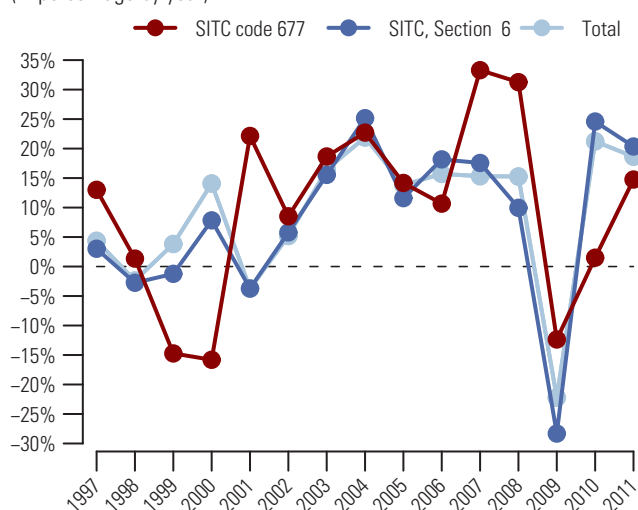

Japan, Austria and China were the top exporting countries in 2011 (see table 2). They accounted respectively for 15.1, 13.3 and 11.4 percent of world exports. Top destinations were USA, Germany and Canada (see table 3). By MDG regions (see graph 2), Developed Europe and Developed Asia-Pacific recorded trade surpluses amounting respectively to 963.6 mln US\$ and 562.6 mln US\$. Major deficits were recorded by Latin America and the Caribbean (-399.2 mln US\$) and Developed North America (-362.0 mln US\$).

678 Wire of iron or steel

Despite a decline of 38.2 percent in 2009, the value (in current prices) of exports of wire of iron or steel (SITC group 678) increased in 2010 and continued to rise in 2011 by 23.2 percent to amount to 13.3 bln US\$ (see tables 1 and 2). Similarly, imports for 2011 increased by 24.8 percent and amounted to 13.3 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports for 2011 in this product group exceeded both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of wire of iron or steel (SITC group 678) accounted for 0.6 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

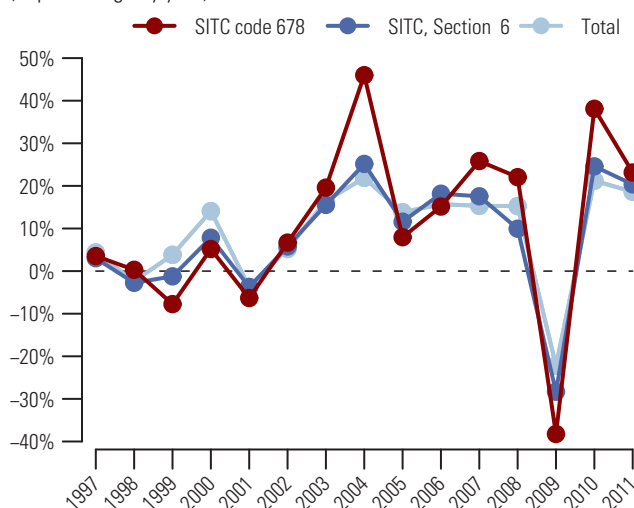

Exports of China, the top exporting country, increased by 32.3 percent and accounted for 16.2 percent of world exports in 2011 (see table 2). Other major exporting countries were Rep. of Korea and Germany respectively with 8.4 and 8.1 percent of world exports. Germany, USA and China were the three major destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in wire of iron or steel (SITC group 678). In 2011, its exports and imports were valued at 5.5 bln US\$ and 5.6 bln US\$ respectively, resulting in a trade deficit of 59.3 mln US\$. Trade deficits were also recorded by South-eastern Asia (-626.5 mln US\$) and Developed North America (-595.5 mln US\$). A major trade surplus was recorded by Eastern Asia (+2.3 bln US\$)

Tubes, pipes and hollow profiles, and tube or pipe fittings of iron or steel 679

In 2011, the value (in current prices) of exports of tubes, pipes and hollow profiles, and tube or pipe fittings of iron or steel (SITC group 679) increased by 27.4 percent and amounted to 95.9 bln US\$ (see tables 1 and 2). Imports in the same year increased by 24.8 percent and amounted to 94.9 bln US\$ (see tables 1 and 3). Graph 1 shows the increase in exports for 2011 in this product group was greater than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of tubes, pipes and hollow profiles, and tube or pipe fittings of iron or steel (SITC group 679) accounted for 4.1 percent of world exports of SITC section 6 and 0.5 percent of total world exports in 2011 (see table 1).

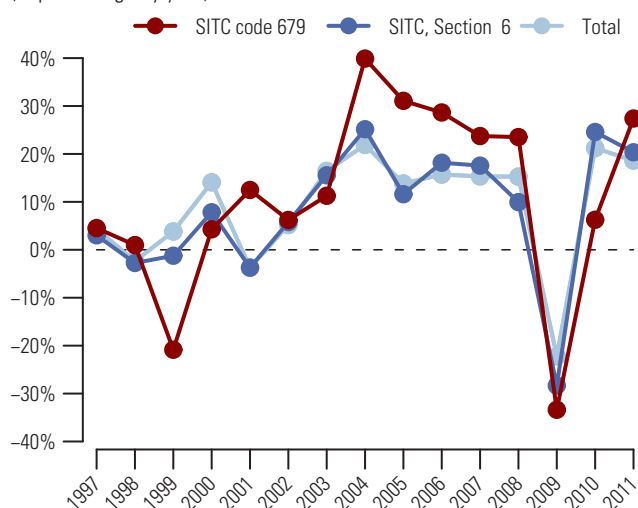

China's exports increased by 45.3 percent and represented 15.6 percent of world exports in 2011 (see table 2). Other major exporting countries were Germany and Italy, respectively with 10.2 and 8.9 percent of world exports (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in tubes, pipes and hollow profiles, and tube or pipe fittings of iron or steel (SITC group 679) in 2011, with exports and imports valued at respectively 39.7 bln US\$ and 28.7 bln US\$, resulting in a trade surplus of 11.1 bln US\$. The top trade surplus was recorded by Eastern Asia (+15.1 bln US\$). Developed North America and Western Asia recorded trade deficits amounting respectively to 8.9 bln US\$ and 6.8 bln US\$.

681 Silver, platinum and other metals of the platinum group

In 2011, the value (in current prices) of exports of silver, platinum and other metals of the platinum group (SITC group 681) increased by 50.8 percent and amounted to 72.1 bln US\$ (see tables 1 and 2). In the same year, imports rose by 46.9 percent to 74.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group far surpassed the growth in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of silver, platinum and other metals of the platinum group (SITC group 681) accounted for 3.1 percent of world exports of SITC section 6 and 0.4 percent of total world exports in 2011 (see table 1).

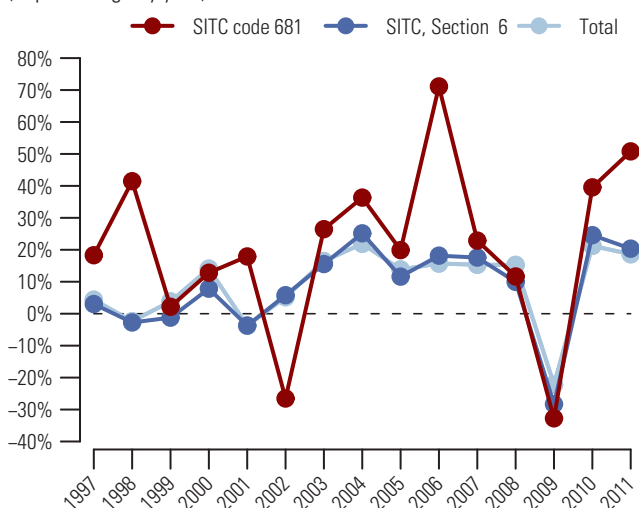

South Africa, United Kingdom and Germany were the three major exporting countries in 2011 (see table 2). They accounted respectively for 15.3, 11.1 and 8.9 percent of world exports. Top destinations were USA, Japan and United Kingdom (see table 3). By MDG regions (see graph 2), top surpluses were recorded by Sub-Saharan Africa (+11.1 bln US\$) and Latin America and the Caribbean (+5.4 bln US\$). Top trade deficits were recorded by Developed North America (-7.6 bln US\$), Developed Asia-Pacific (-6.3 bln US\$) and Southern Asia (-5.6 bln US\$).

Following a huge drop in 2009, the value (in current prices) of exports of copper (SITC group 682) increased in 2010 and grew further in 2011 by 15.5 percent to reach its peak of 149.2 bln US\$ (see tables 1 and 2). Similarly, imports showed a 19.2 percent rise and amounted to 147.0 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was less than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of copper (SITC group 682) accounted for 6.4 percent of world exports of SITC section 6 and 0.8 percent of total world exports in 2011 (see table 1).

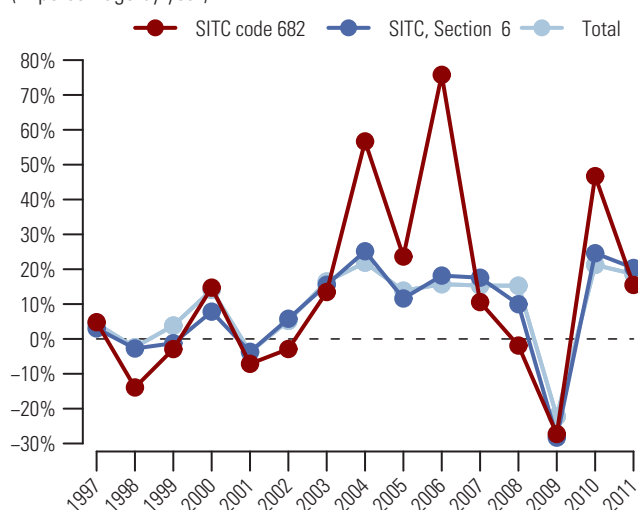

Chile, the top exporting country in 2011, accounted for 20.0 percent of world exports (see table 2). Other major exporting countries were Germany and Japan, respectively with 8.3 and 5.4 percent of world exports. Major destinations were China, Germany and USA (see table 3). By MDG regions Latin America and the Caribbean recorded the largest trade surplus of 29.5 bln US\$. A significant surplus was also recorded by Sub-Saharan Africa (+8.8 bln US\$). Top trade deficits were recorded by Eastern Asia (-34.0 bln US\$), Western Asia (-8.4 bln US\$) and Developed North America (-5.3 bln US\$).

In 2011, the value (in current prices) of exports of nickel (SITC group 683) increased by 26.0 percent and reached 24.2 bln US\$ (see tables 1 and 2). Imports increased by 26.7 percent and reached 25.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the growth in exports in 2011 for this product group was greater than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of nickel (SITC group 683) accounted for 1.0 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

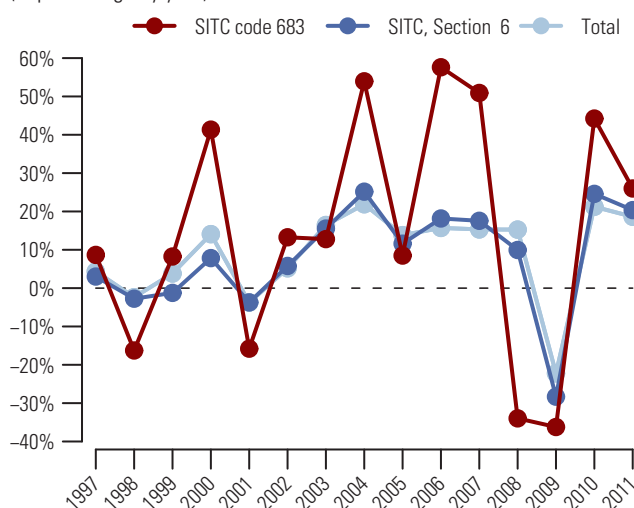

In 2011, Russian Federation accounted for the largest share of world exports at 19.2 percent, despite a decline in its exports of 13.8 percent (see table 2). Other major exporting countries were Canada and Norway, accounting respectively for 13.9 and 9.0 percent of world exports. China, USA and Germany were the main destinations (see table 3). By MDG regions (see graph 2), a major surplus was recorded by Commonwealth of Independent States (+4.3 bln US\$). Top trade deficits were recorded by Eastern Asia (-6.0 bln US\$) and Developed Europe (-1.2 bln US\$).

In 2011, the value (in current prices) of exports of aluminium (SITC group 684) increased by 17.5 percent and reached its peak of 117.7 bln US\$ (see tables 1 and 2). Similarly, imports showed a 22.2 percent increase and amounted to 122.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was less than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of aluminium (SITC group 684) accounted for 5.0 percent of world exports of SITC section 6 and 0.7 percent of total world exports in 2011 (see table 1).

In 2011, China, Germany and Canada were the top exporting countries (see table 2). They accounted respectively for 10.3, 9.8 and 7.1 percent of world exports. Top destinations were Germany, USA and Japan (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in aluminium (SITC group 684). In 2011, its exports amounted to 49.7 bln US\$ while imports were valued at 56.1 bln US\$, resulting in a trade deficit of 6.3 bln US\$. Top trade surpluses were recorded by Commonwealth of Independent States (+7.8 bln US\$) and Eastern Asia (+4.0 bln US\$). In addition to Developed Europe, top deficits were also recorded by South-eastern Asia (-6.1 bln US\$) and Latin America and the Caribbean (-4.0 bln US\$).

In 2011, the value (in current prices) of exports of lead (SITC group 685) grew by 22.4 percent and amounted to 6.8 bln US\$ (see tables 1 and 2). In the same year, imports increased by 22.0 percent to 7.0 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was greater than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of lead (SITC group 685) accounted for 0.3 percent of world exports of SITC section 6 and less than 0.1 percent of total world exports in 2011 (see table 1).

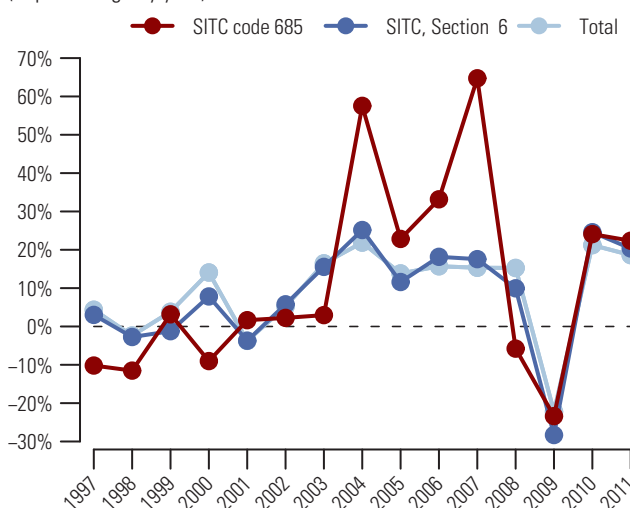

Australia, Canada and Germany were the three major exporting countries in 2011 (see table 2). They accounted respectively for 13.4, 10.2 and 9.2 percent of world exports. Top importing countries were USA, United Kingdom and India (see table 3). By MDG regions (see graph 2), Developed Asia-Pacific recorded a trade surplus of 954.7 mln US\$. Trade surpluses were also recorded by Commonwealth of Independent States (+501.0 mln US\$) and South-eastern Europe (+157.3 mln US\$) among others. Major deficits were recorded by South-eastern Asia (-1.0 bln US\$), Western Asia (-308.6 mln US\$) and Developed Europe (-294.5 mln US\$).

In 2011, the value (in current prices) of exports of zinc (SITC group 686) increased by 14.2 percent and amounted to 13.4 bln US\$ (see tables 1 and 2). Imports also rose by 12.8 percent and amounted to 13.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was less than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of zinc (SITC group 686) accounted for 0.6 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

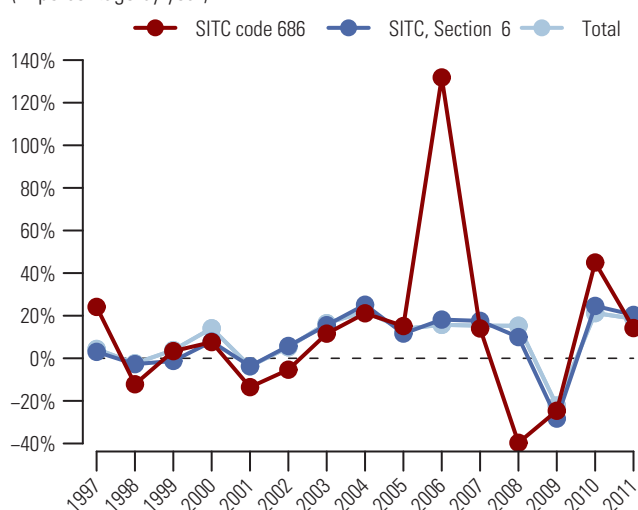

The top exporting countries in 2011 were Belgium, Canada and Rep. of Korea (see table 2). They accounted respectively for 9.5, 9.3 and 8.1 percent of world exports. Top destinations were USA, Germany and China (see table 3). By MDG regions (see graph 2), South-eastern Asia recorded the largest trade deficit in 2011 amounting to 898.9 mln US\$. Major deficits were also recorded by Western Asia (-814.3 mln US\$) and Eastern Asia (-771.6 mln US\$). Commonwealth of Independent States and Developed Asia-Pacific recorded trade surpluses amounting respectively to 1.0 bln US\$ and 935.9 mln US\$.

From 2007-2011, the value (in current prices) of exports of tin (SITC group 687) increased on average by 13.7 percent and reached 7.9 bln US\$ in 2011 (see tables 1 and 2). Imports for the same period experienced an average increase of 15.5 percent and amounted to 9.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the growth in exports of 41.6 percent for 2011 in this product group was significantly higher than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of tin (SITC group 687) accounted for 0.3 percent of world exports of SITC section 6 and less than 0.1 percent of total world exports in 2011 (see table 1).

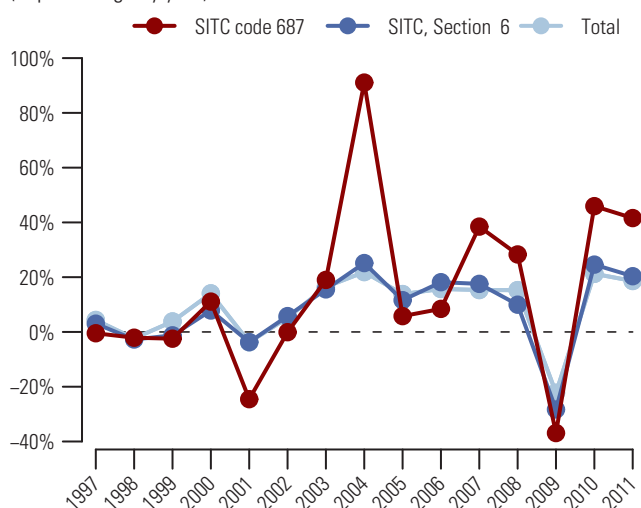

Exports of Indonesia, the top exporting country, rose by 40.5 percent and accounted for 30.7 percent of world exports (see table 2). Other major exporting countries were Singapore and Malaysia, respectively with 14.9 and 14.6 percent of world exports. Singapore, USA and China were the top destinations (see table 3). By MDG regions (see graph 2), South-eastern Asia accounted for the majority of trade. In 2011, its exports were valued at 5.4 bln US\$ and imports at 2.6 bln US\$, resulting in a trade surplus of 2.7 bln US\$. Latin America and the Caribbean also recorded a surplus of 0.4 bln US\$. Major deficits were recorded by Developed Europe and Eastern Asia, respectively at 1.2 bln US\$ and 1.1 bln US\$.

Miscellaneous non-ferrous base metals employed in metallurgy and cermets 689

After a sharp decline in 2009, the value (in current prices) of exports of miscellaneous non-ferrous base metals employed in metallurgy and cermets (SITC group 689) bounced back in 2010 and grew further in 2011 by 19.6 percent and amounted to 10.2 bln US\$ (see tables 1 and 2). Similarly, imports showed a 27.8 percent increase and reached 12.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was slightly less than the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent but slightly greater than total world exports of 18.6 percent. Exports of miscellaneous non-ferrous base metals employed in metallurgy and cermets (SITC group 689) accounted for 0.4 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

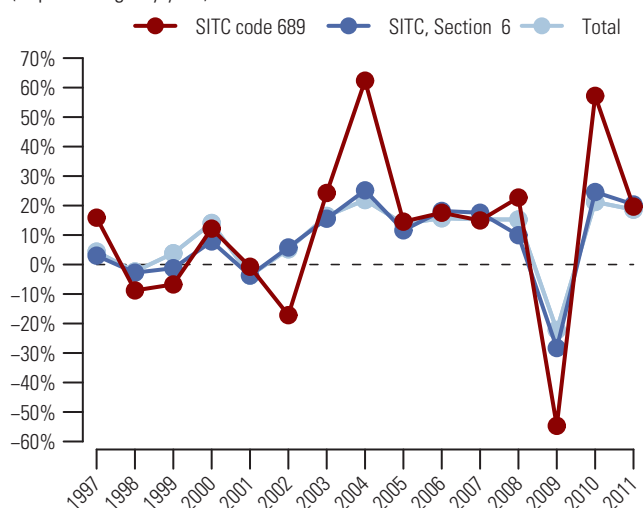

China, the top exporting country in 2011, accounted for 23.9 percent of world exports (see table 2). Other major exporting countries were Germany, USA and Japan respectively with 7.6, 7.4 and 6.0 percent of world exports. Top destinations were USA, Japan and Germany (see table 3). By MDG regions (see graph 2), Eastern Asia recorded the largest trade surplus of 950.2 mln US\$. Other trade surpluses were also recorded by Sub-Saharan Africa and the Commonwealth of Independent States, 652.2 mln US\$ and 545.1 mln US\$ respectively. Major deficits were recorded by Developed Europe (-1.8 bln US\$), Developed North America (-1.2 bln US\$) and Developed Asia-Pacific (-0.9 bln US\$).

691 Structures and parts of structures, nes, of iron, steel or aluminium

In 2011, the value (in current prices) of exports of structures and parts of structures, nes, of iron, steel or aluminium (SITC group 691) increased by 20.6 percent and amounted to 53.4 bln US\$ (see tables 1 and 2). In the same year, imports increased by 14.4 percent to 47.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was greater than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of structures and parts of structures, nes, of iron, steel or aluminium (SITC group 691) accounted for 2.3 percent of world exports of SITC section 6 and 0.3 percent of total world exports in 2011 (see table 1).

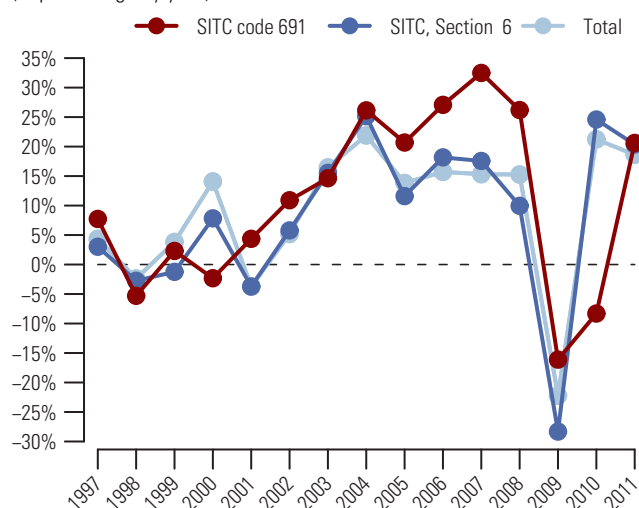

The top exporting countries were China, Germany and Rep. of Korea. Respectively, they accounted for 20.9, 12.5 and 5.2 percent of world exports. Top destinations were Germany, USA and Japan (see tables 1 and 3). By MDG regions (see graph 2), Developed Europe accounted for the majority of exports and imports. In 2011, its exports amounted to 27.6 bln US\$ while imports were valued at 19.7 bln US\$, resulting in a trade surplus of 7.8 bln US\$. Eastern Asia recorded a surplus of 10.9 bln US\$. Top trade deficits were recorded by Developed Asia-Pacific (-3.5 bln US\$), Sub-Saharan Africa (-1.9 bln US\$), and the Commonwealth of Independent States (-1.6 bln US\$).

Metal containers for storage or transport 692

The value (in current prices) of exports of metal containers for storage or transport (SITC group 692) increased by 15.7 percent and amounted to 19.9 bln US\$ in 2011 (see tables 1 and 2). Imports increased by 16.9 percent and reached 18.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of metal containers for storage or transport (SITC group 692) accounted for 0.9 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

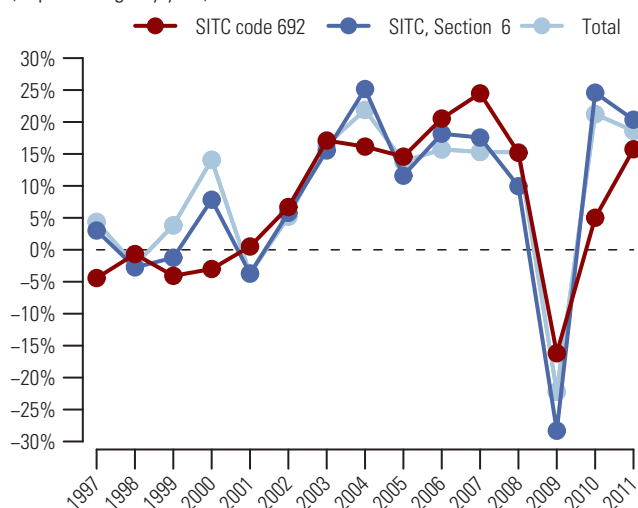

Germany, China and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 11.1, 8.4 and 8.3 percent of world exports. USA, Germany and France were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of both imports and exports of metal containers (SITC group 692). In 2011, its exports were valued at 10.5 bln US\$ while imports amounted to 7.8 bln US\$, resulting in a trade surplus of 2.6 bln US\$. A major trade surplus was also recorded by Eastern Asia (+2.1 bln US\$). Top trade deficits were recorded by Northern Africa (-620.4 mln US\$), Latin America and the Caribbean (-598.6 mln US\$) and Sub-Saharan Africa (-552.6 mln US\$).

693 Wire products (excluding insulated electrical wiring) and fencing grills

The value (in current prices) of exports of wire products and fencing grills (SITC group 693) showed an average annual increase of 4.5 percent over the last five years, and amounted to 15.5 bln US\$ in 2011 (see tables 1 and 2). Imports for the same period also showed an average annual increase of 4.7 percent and amounted to 15.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was greater than both the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and the increase in total world exports of 18.6 percent. Exports of wire products and fencing grills in 2011 (SITC group 693) accounted for 0.7 percent of world exports of SITC section 6 and 0.1 percent of total world exports (see table 1).

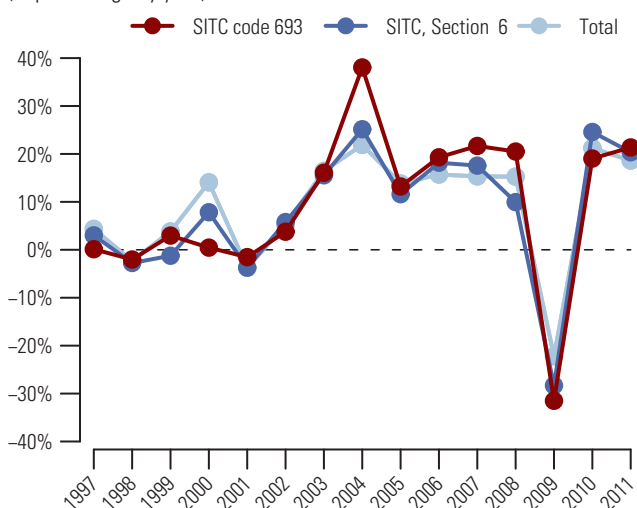

Exports of China, the top exporting country, increased by 30.8 percent and represented 17.7 percent of world exports in 2011 (see table 2). Other major exporting countries were Germany and USA accounting respectively for 11.0 and 6.0 percent of world exports. USA, Germany and France were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in wire products and fencing grills (SITC group 693). In 2011, its exports and imports were valued at 6.7 bln US\$ and 6.6 bln US\$ respectively, resulting in a trade surplus of 0.1 bln US\$. Eastern Asia also recorded a trade surplus amounting to 2.6 bln US\$. Major deficits were recorded by Developed North America (-924.9 mln US\$) and Latin America and the Caribbean (-804.0 mln US\$).

Nails, screws, nuts, bolts, and the like of iron, steel, copper, aluminium 694

After a sharp decline of 29.8 percent in 2009, the value (in current prices) of exports of nails, screws, nuts, bolts, and the like of iron, steel, copper, aluminium (SITC group 694) increased in 2010 and grew further in 2011 by 22.6 percent and reached its peak of 37.7 bln US\$ (see tables 1 and 2). In the same year, imports also increased by 20.7 percent and amounted to 42.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was higher than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of nails, screws, nuts, bolts, and the like of iron, steel, copper, aluminium (SITC group 694) accounted for 1.6 percent of world exports of SITC section 6 and 0.2 percent of total world exports in 2011 (see table 1).

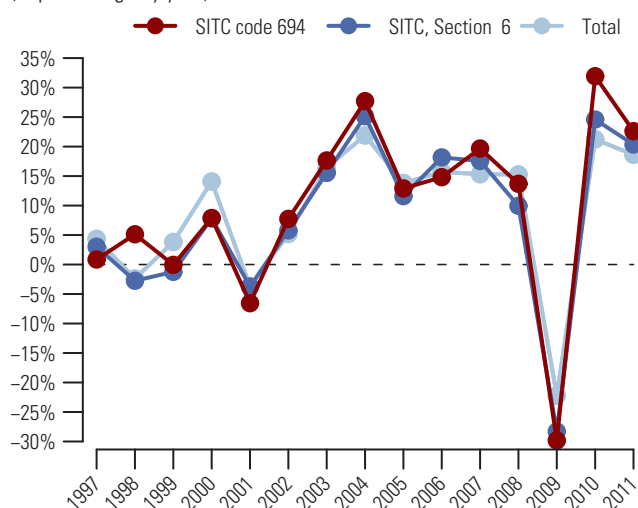

In 2011, the top exporting countries were Germany and China (see table 2). Each country accounted for 15.9 percent of world exports. Top destinations were USA, Germany and China (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in nails screws, nuts, etc. (SITC group 694). In 2011, its exports were valued at 16.2 bln US\$ and imports at 16.9 bln US\$, resulting in a trade deficit of 0.7 bln US\$. Larger trade deficits were recorded by Latin America and the Caribbean (-3.7 bln US\$) and Developed North America (-3.1 bln US\$). Eastern Asia recorded a trade surplus amounting to 6.7 bln US\$.

695 Tools for use in the hand or in machines

In 2011, the value (in current prices) of exports of tools for use in the hand or in machines (SITC group 695) increased by 21.4 percent and reached its peak of 49.5 bln US\$ (see tables 1 and 2). Imports showed an increase of 18.9 percent and amounted to 48.3 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was greater than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of tools for use in the hand or in machines (SITC group 695) accounted for 2.1 percent of world exports of SITC section 6 and 0.3 percent of total world exports in 2011 (see table 1).

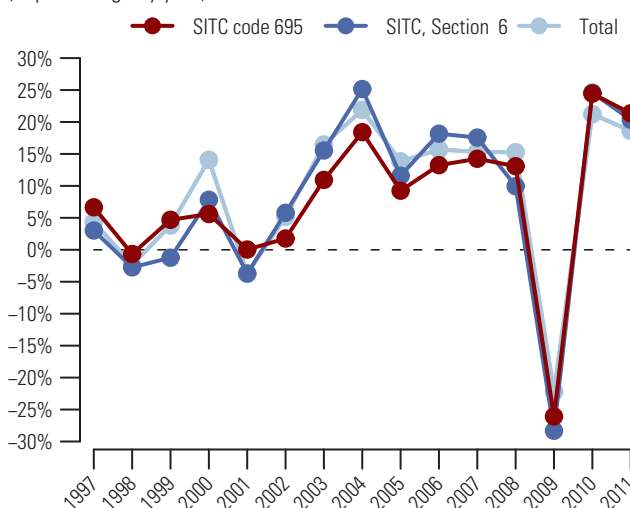

Germany, China and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 15.3, 14.6 and 9.7 percent of world exports. USA, Germany and China were also the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for nearly half the trade in tools for use in the hand or in machines (SITC group 695). In 2011, its exports and imports were valued respectively at 22.2 and 19.6 bln US\$, resulting in a trade surplus of 2.6 bln US\$. Eastern Asia and Developed Asia-Pacific recorded trade surpluses amounting respectively to 6.8 bln US\$ and 2.1 bln US\$. Top trade deficits of 2.6 bln US\$ and 2.3 bln US\$ were recorded by Latin America and the Caribbean and Developed North America, respectively.

The value (in current prices) of exports of cutlery (SITC group 696) rose by 18.5 percent and amounted to 11.4 bln US\$ in 2011 (see tables 1 and 2). In the same year, imports increased by 14.2 percent and amounted to 11.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was less than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of cutlery (SITC group 696) accounted for 0.5 percent of world exports of SITC section 6 and 0.1 percent of total world exports in 2011 (see table 1).

China was the top exporting country in 2011 and accounted for 33.5 percent of world exports (see table 2). Other major exporting countries were Germany and Poland, accounting respectively for 9.5 and 9.0 percent of world exports. USA, Germany and United Kingdom were the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus of 3.7 bln US\$ in 2011. Top trade deficits were recorded by Developed North America (-1.7 bln US\$), Western Asia (-462.3 mln US\$) and Commonwealth of Independent States (-440.6 mln US\$).

697 Household equipment of base metal, nes

After a decline of 14.1 percent in 2009, the value (in current prices) of exports of household equipment of base metal, nes (SITC group 697) recovered in 2010 and further increased by 15.4 percent and reached 29.1 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with an increase of 10.3 percent and amounted to 28.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was lower than both the increases in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent and in total world exports of 18.6 percent. Exports of household equipment of base metal, nes (SITC group 697) accounted for 1.2 percent of world exports of SITC section 6 and 0.2 percent of total world exports (see table 1).

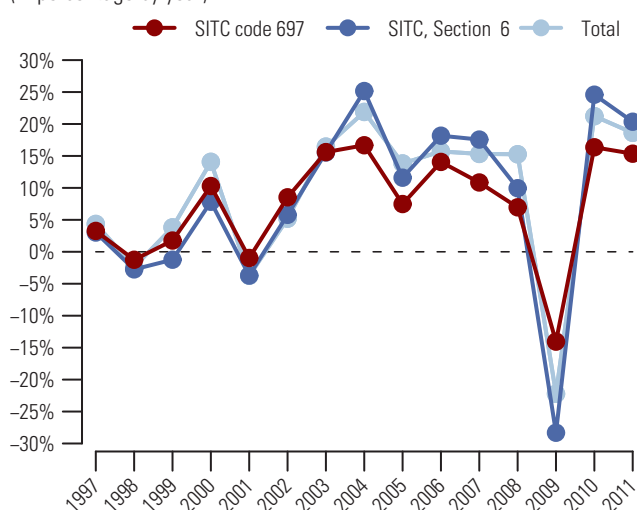

China was the top exporting country in 2011, accounting for more than one third (40.5 percent) of world exports (see table 2). Other major exporting countries were Italy and Germany, respectively accounting for 8.1 and 5.9 percent of world exports. USA, Germany and France were the top three destinations (see table 3). By MDG regions, Developed Europe accounted for a large share of trade in household equipment of base metal, nes (SITC group 697) (see graph 2). In 2011, its exports and imports were valued respectively at 9.6 and 11.3 bln US\$, resulting in a trade deficit of 1.6 bln US\$. A larger trade deficit was recorded by Developed North America (-6.2 bln US\$), whereas Eastern Asia recorded a trade surplus amounting to 12.1 bln US\$.

Following a sharp decline of 26.5 percent in 2009, the value (in current prices) of exports of manufactures of base metal, nes (SITC group 699) bounced back in 2010 and continued to grow by 19.2 percent in 2011 to reach its peak of 144.1 bln US\$ (see tables 1 and 2). Similarly, imports increased by 16.4 percent in 2011 to 143.6 bln US\$ (see tables 1 and 3). The increase in exports for 2011 in this product group fell below the increase in world exports of manufactured goods classified chiefly by material (SITC section 6) of 20.4 percent but was higher than the increase in total world exports of 18.6 percent (see graph 1). Exports of manufactures of base metal, nes (SITC group 699) accounted for 6.2 percent of world exports of SITC section 6 and 0.8 percent of total world exports (see table 1).

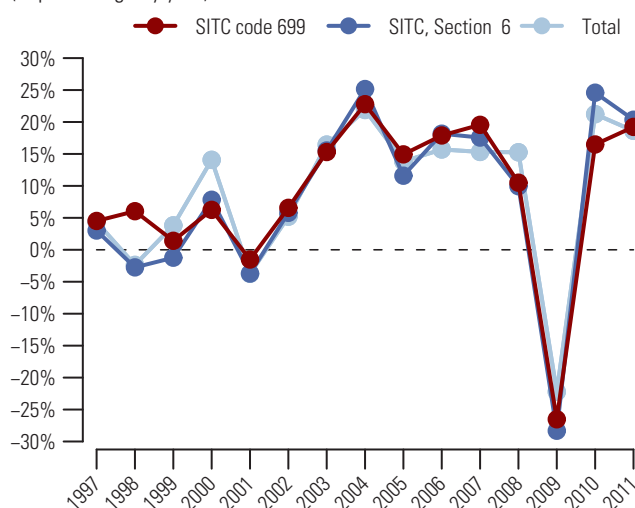

China, Germany and USA were the top exporting countries in 2011, accounting respectively for 15.1, 13.5 and 8.5 percent of world exports (see table 2). Top destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports and imports of manufactures of base metal, nes (SITC group 699). In 2011, its exports amounted to 71.3 bln US\$ while imports were valued at 61.0 bln US\$, resulting in a trade surplus of 10.3 bln US\$. A larger trade surplus was recorded by Eastern Asia (+18.7 bln US\$). Trade deficits were recorded by Developed North America (-6.4 bln US\$), Latin America and the Caribbean (-5.2 bln US\$) and South-eastern Asia (-4.6 bln US\$) among others.

**Machinery and transport equipment
(SITC Section 7)**

711 Steam boilers, superheated water boiler; auxiliary plants; parts thereof

Since 2007, the value (in current prices) of exports of steam boilers, superheated water boiler; auxiliary plants; parts thereof (SITC group 711) increased on average by 14.4 percent each year and reached 9.8 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports increased on average by 8.2 percent each year and amounted to 7.4 bln US\$ in 2011 (see tables 1 and 3). The increase of 20.4 percent in exports for 2011 in this product group was higher than both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent (see graph 1). Exports of steam boilers, superheated water boiler; auxiliary plants; parts thereof (SITC group 711) accounted for 0.2 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

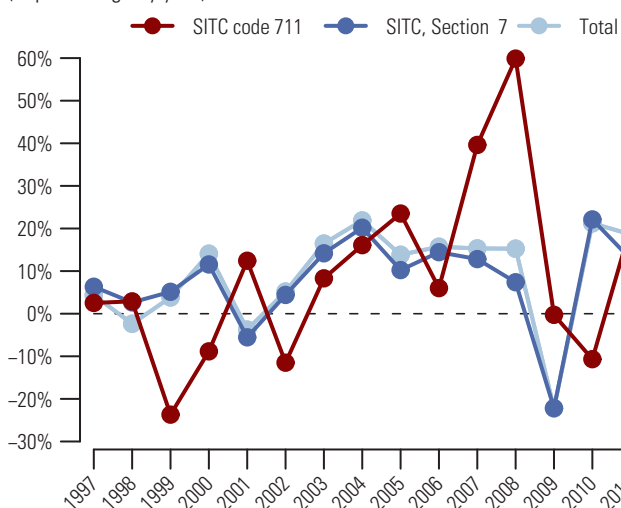

Exports of China, the top exporting country, went up by 39.4 percent in 2011 and represented more than one third (37.6 percent) of world exports (see table 2). Other major exporting countries were Rep. of Korea and Italy, respectively with 11.5 and 7.1 percent of world exports. Top destinations were Saudi Arabia, Indonesia and India (see table 3). By MDG regions (see graph 2), Eastern Asia and Developed Europe recorded trade surpluses amounting respectively to 4.3 bln US\$ and 1.3 bln US\$ in 2011. Significant trade deficits were recorded by Western Asia (-1.0 bln US\$), Latin America and the Caribbean (-774.8 mln US\$) and South-eastern Asia (-696.7 mln US\$).

Steam turbines and other vapour turbines and parts thereof, nes 712

During the last five years, the value (in current prices) of exports of steam turbines and other vapour turbines and parts thereof, nes (SITC group 712) increased on average by 14.6 percent each year and amounted to 8.7 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports recorded a similar development with also an average increase of 14.6 percent and reached 8.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase of 7.3 percent in exports for 2011 in this product group was below both the increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of steam turbines and other vapour turbines and parts thereof, nes (SITC group 712) accounted for 0.2 percent of world exports of SITC section 7 and less than 0.1 percent of total world exports (see table 1).

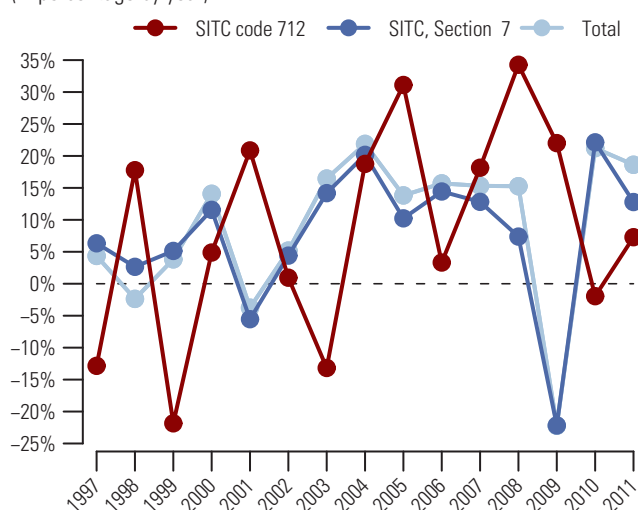

Japan, China and Germany were the top exporting countries in 2011 (see table 2), accounting respectively for 21.2, 18.6 and 14.1 percent of world exports. Top destinations were South Africa, India and China (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in steam turbines and other vapour turbines and parts thereof, nes (SITC group 712). In 2011, its exports amounted to 3.4 bln US\$ and imports amounted to 1.6 bln US\$, resulting in a trade surplus of 1.8 bln US\$. A large surplus was also recorded by trade with Developed Asia-Pacific (+1.6 bln US\$). Major deficits were recorded by Sub-Saharan Africa (-1.1 bln US\$) and Southern Asia (-978.8 mln US\$),

713 Internal combustion piston engines and parts thereof, nes

In 2011, the value (in current prices) of exports of internal combustion piston engines and parts thereof, nes (SITC group 713) increased by 21.6 percent and reached its peak of 166.6 bln US\$ (see tables 1 and 2). Similarly, imports showed a 21.3 percent growth and amounted to 167.7 bln US\$ in 2011 (see tables 1 and 3). The increase in exports for 2011 in this product group was above both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of internal combustion piston engines and parts thereof, nes (SITC group 713) accounted for 2.9 percent of world exports of SITC section 7 and 0.9 percent of total world exports (see table 1).

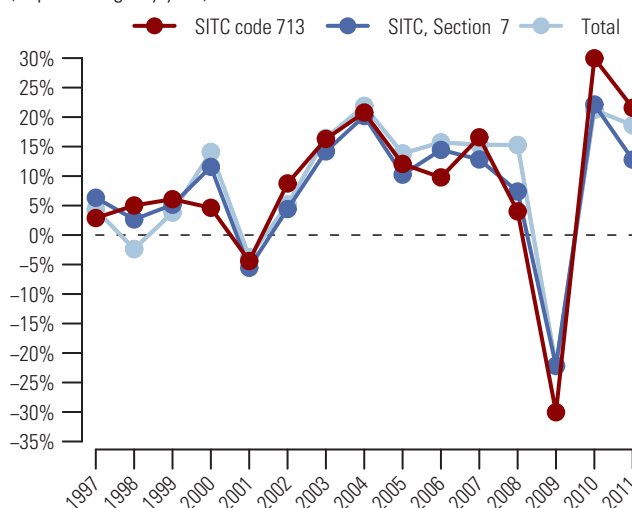

Germany, Japan and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 16.3, 12.5 and 10.3 percent of world exports. The top destinations were USA, Germany and China (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports and imports of internal combustion piston engines and parts thereof, nes (SITC group 713). In 2011, its exports were valued at 86.9 bln US\$ while imports amounted to 68.6 bln US\$, resulting in a trade surplus of 18.3 bln US\$. Developed Asia-Pacific also recorded a large trade surplus (+16.6 bln US\$). Top trade deficits were recorded by Developed North America (-10.3 bln US\$), Eastern Asia (-4.7 bln US\$) and Commonwealth of Independent States (-4.1 bln US\$).

Engines and motors, non-electric; parts, nes (not those of 712, 713 and 718) 714

After a significant drop of 22.0 percent in 2009, the value (in current prices) of exports of engines and motors, non-electric; parts, nes (SITC group 714) slightly recovered in 2010 and further grew by 12.5 percent in 2011 and amounted to 85.7 bln US\$ (see tables 1 and 2). Imports showed a similar development and increased by 12.3 percent and reached its peak of 100.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was less than both the increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of engines and motors, non-electric; parts, nes (SITC group 714) accounted for 1.5 percent of world exports of SITC section 7 and 0.5 percent of total world exports (see table 1).

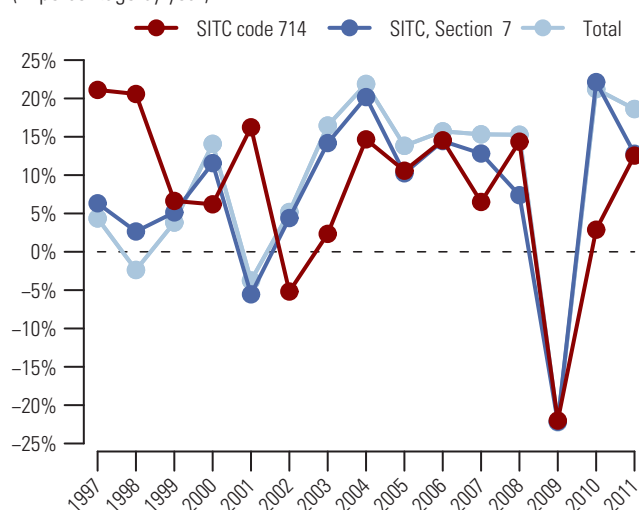

In 2011, United Kingdom was the top exporting country and accounted for 22.1 percent of world exports (see table 2). Other major exporting countries were France and USA, respectively with 12.0 and 11.7 percent of world exports. The top destinations were USA, United Kingdom and Germany (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in engines and motors, non-electric; parts, nes (SITC group 714). In 2011, its exports and imports were valued respectively at 52.9 bln US\$ and 40.1 bln US\$, resulting in a trade surplus of 12.8 bln US\$. Major deficits were recorded by Developed North America (-6.4 bln US\$), South-eastern Asia (-5.1 bln US\$) and Western Asia (-4.0 bln US\$).

716 Rotating electric plant and parts thereof, nes

Despite a sharp decline of 17.5 percent in 2009, the value (in current prices) of exports of rotating electric plant and parts thereof, nes (SITC group 716) recovered in 2010 and further grew to its peak at 93.6 bln US\$ in 2011, a 15.8 percent increase from 2010 (see tables 1 and 2). Similarly, imports increased by 16.8 percent and reached its peak of 96.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 demonstrates that the growth in exports for 2011 in this product group was higher than the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but below the increase in total world exports of 18.6 percent. In 2011, exports of rotating electric plant and parts thereof, nes (SITC group 716) accounted for 1.6 percent of world exports of SITC section 7 and 0.5 percent of total world exports (see table 1).

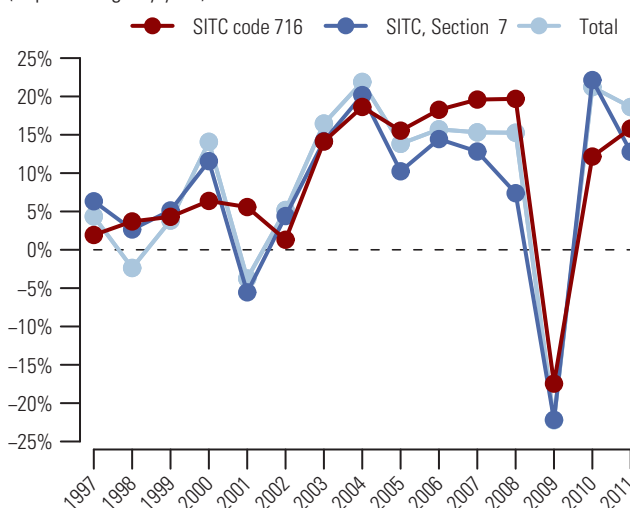

China, Germany and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 17.0, 14.2 and 8.8 percent of world exports. USA, Germany and China were also the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in rotating electric plant and parts thereof, nes (SITC group 716). In 2011, its exports were valued at 44.7 bln US\$ while imports amounted to 30.7 bln US\$, resulting in a trade surplus of 14.0 bln US\$. Trade surpluses were also recorded by Eastern Asia (+8.5 bln US\$) and Developed Asia-Pacific (+1.4 bln US\$). Top trade deficits were recorded by Developed North America (-5.0 bln US\$), Latin America and the Caribbean (-4.6 bln US\$) and Commonwealth of Independent States (-4.4 bln US\$).

Power generating machinery and parts thereof, nes 718

From 2007 to 2011, the value (in current prices) of exports of power generating machinery and parts thereof, nes (SITC group 718) increased on average by 10.7 percent each year and amounted to 24.3 bln US\$ (see tables 1 and 2). During the same period, imports grew by 11.3 percent on average and reached 26.1 bln US\$ (see tables 1 and 3). The rise of 18.1 percent in exports for 2011 in this product group exceeded the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent, but was slightly below the increase in total world exports of 18.6 percent (see graph 1). Exports of power generating machinery and parts thereof, nes (SITC group 718) accounted for 0.4 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

In 2011, the top exporting countries were Germany, USA and Japan (see table 2). They accounted respectively for 16.1, 11.0 and 9.1 percent of world exports. USA, Germany and China were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports and imports. In 2011, its exports and imports were valued respectively at 13.3 bln US\$ and 10.8 bln US\$, resulting in a trade surplus of 2.6 bln US\$. Another major trade surplus was recorded by trade with Developed Asia-Pacific (+1.4 bln US\$). Top trade deficits were recorded by Eastern Asia (-1.9 bln US\$) and Developed North America (-1.1 bln US\$).

721 Agricultural machinery (excluding tractors) and parts thereof

Following a 26.3 percent decline in 2009, the export value (in current prices) of agricultural machinery (excluding tractors) and parts thereof (SITC group 721) recovered in 2010 and continued to grow in 2011 by 28.7 percent reaching 37.1 bln US\$ (see tables 1 and 2). Similarly, imports grew by 32.0 percent and totaled 37.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was higher than both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of agricultural machinery (excluding tractors) and parts thereof (SITC group 721) accounted for 0.6 percent of world exports of SITC section 7 and 0.2 percent of total world exports (see table 1).

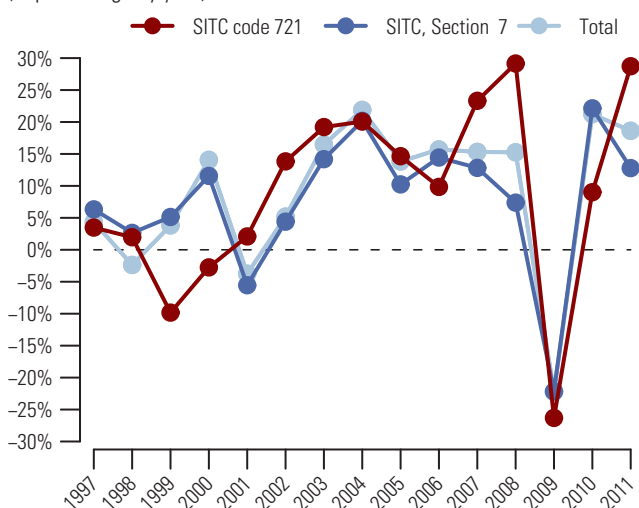

With a 42.7 percent growth, Germany was the top exporting country in 2011, accounting for 18.8 percent of world exports (see table 2). Other major exporting countries were USA and Italy, representing 15.6 and 8.0 percent of world exports. The top destinations were USA, France and Germany (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Developed Europe (+6.5 bln US\$), Developed North America (+1.7 bln US\$) and Eastern Asia (+1.5 bln US\$). Top trade deficits were recorded by Commonwealth of Independent States (-3.1 bln US\$) and Latin America and the Caribbean (-2.4 bln US\$).

Tractors (other than those of headings 744.14 and 744.15) 722

After a major decline of 32.5 percent in 2009, the value (in current prices) of exports of tractors (SITC group 722) bounced back in 2010 and further grew by 32.7 percent in 2011 to 22.7 bln US\$ (see tables 1 and 2). Similarly, imports increased by 26.7 percent and reached 21.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was substantially higher than both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and that in total world exports of 18.6 percent. Exports of tractors (SITC group 722) accounted for 0.4 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

In 2011, Germany, USA and Italy were the top exporting countries (see table 2). They accounted respectively for 18.0, 16.8 and 9.5 percent of world exports. Top destinations were USA, France and Canada (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in tractors (SITC group 722), with its exports and imports amounted to 12.1 bln US\$ and 10.1 bln US\$ respectively, resulting in a trade surplus of 2.0 bln US\$. Developed Asia-Pacific also recorded a trade surplus amounting to 1.1 bln US\$. Top trade deficits were recorded by Sub-Saharan Africa (-802.8 mln US\$), South-eastern Asia (-374.6 mln US\$) and South-eastern Europe (-368.0 mln US\$).

723 Civil engineering and contractors' plant and equipment; parts thereof

Despite a significant drop of 38.4 percent in 2009, the value (in current prices) of exports of civil engineering and contractors' plant and equipment; parts thereof (SITC group 723) recovered in 2010 and continued to grow in 2011 by 29.5 percent, reaching 123.9 bln US\$, still slightly below its peak level in 2008 (see tables 1 and 2). Imports showed a similar development with an increase of 33.1 percent and reached 118.8 bln US\$ in 2011 (see tables 1 and 3). The increase in exports for 2011 in this product group was significantly higher than both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent (see graph 1). Exports of civil engineering and contractors' plant and equipment; parts thereof (SITC group 723) accounted for 2.1 percent of world exports of SITC section 7 and 0.7 percent of total world exports (see table 1).

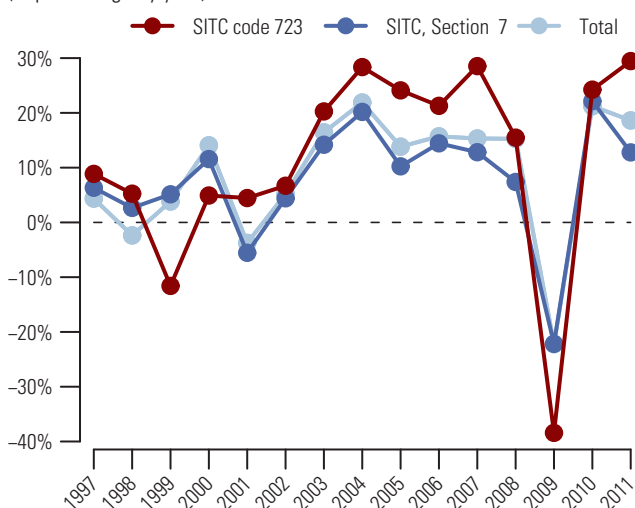

In 2011, the top exporting countries were USA, Japan and China (see table 2), accounting respectively for 17.8, 12.4 and 9.3 percent of world exports. USA, China and Canada were the top importing countries (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Developed Europe (+16.5 bln US\$), Developed Asia-Pacific (+10.1 bln US\$) and Eastern Asia (+9.7 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-7.5 bln US\$), South-eastern Asia (-7.1 bln US\$) and Commonwealth of Independent States (-6.6 bln US\$).

Textile and leather machinery and parts thereof, nes 724

In 2011, the value (in current prices) of exports of textile and leather machinery, and parts thereof, nes (SITC group 724) rose by 18.4 percent and reached its peak at 31.9 bln US\$ (see tables 1 and 2). Similarly, imports for the same year grew by 20.7 percent and totaled 33.7 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but was below the increase in total world exports of 18.6 percent. Exports of textile and leather machinery, and parts thereof, nes (SITC group 724) accounted for 0.6 percent of world exports of SITC section 7 and 0.2 percent of total world exports (see table 1).

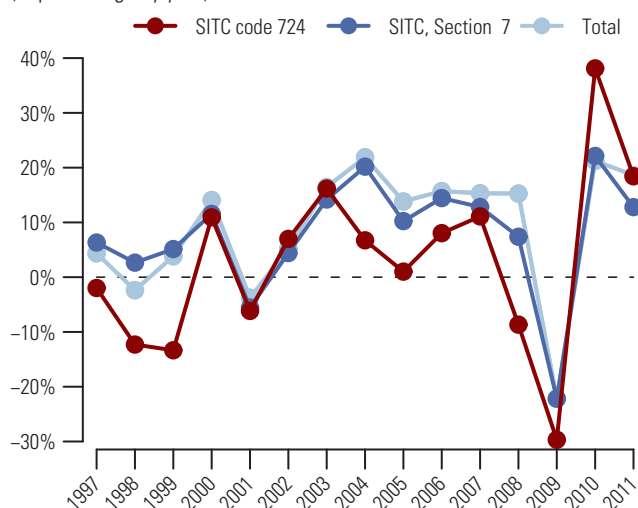

Germany was the top exporting country in 2011, representing 17.7 percent of world exports (see table 2). Other major exporting countries were China and Japan, respectively with 14.4 and 12.0 percent of world exports. The top importing countries were China, USA and India (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of exports of textile and leather machinery, and parts thereof, nes (SITC group 724). In 2011, its exports and imports were valued respectively at 14.1 bln US\$ and 5.2 bln US\$, resulting in a trade surplus of 8.9 bln US\$. Top trade surpluses were also recorded by Developed Asia-Pacific (+2.9 bln US\$) and Eastern Asia (+1.4 bln US\$). Top trade deficits were recorded by Southern Asia (-3.8 bln US\$), Developed North America (-2.7 bln US\$) and South-eastern Asia (-2.3 bln US\$).

725 Paper and paper manufacture machinery, and parts thereof

Following a significant decline of 23.5 percent in 2009, the value (in current prices) of exports of paper and paper manufacture machinery, and parts thereof (SITC group 725) bounced back in 2010 and further grew by 14.5 percent in 2011, reaching 11.5 bln US\$ (see tables 1 and 2). Similarly, imports showed a similar development with an increase of 19.1 percent in 2011 and reached 11.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was slightly higher than the increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but below the increase in total world exports of 18.6 percent. Exports of paper and paper manufacture machinery, and parts thereof (SITC group 725) accounted for 0.2 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

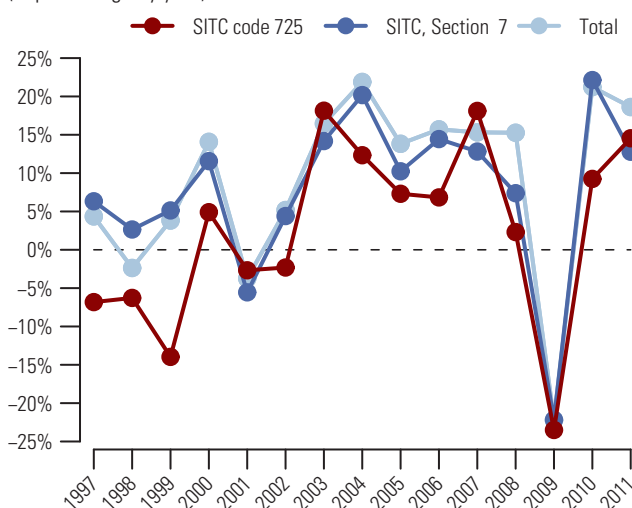

Germany, Italy and Finland were the three major exporting countries in 2011 (see table 2), representing 21.7, 13.2 and 8.7 percent of world exports, respectively. Imports of China, the top destination, increased by 35.3 percent and represented 16.5 percent of world imports (see table 3). Other major importing countries were USA and Germany. By MDG regions (see graph 2), Developed Europe accounted for the largest share of trade in paper and paper manufacture machinery, and parts thereof (SITC group 725). In 2011, its exports were valued at 8.5 bln US\$ compared to 3.4 bln US\$ for imports, resulting in a trade surplus of 5.1 bln US\$. Top trade deficits were recorded by South-eastern Asia (-1.0 bln US\$), Eastern Asia (-836.2 mln US\$) and Latin America and the Caribbean (-677.2 mln US\$).

Printing and bookbinding machinery and parts thereof 726

After a sizeable decline of 33.4 percent in 2009, the export value (in current prices) of printing and bookbinding machinery and parts thereof (SITC group 726) gradually recovered and further grew by 6.7 percent to amount to 15.8 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports increased by 6.3 percent and reached 16.3 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of printing and bookbinding machinery and parts thereof (SITC group 726) accounted for 0.3 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

In 2011, Germany was the top exporting country and represented 29.9 percent of world exports. Other major exporting countries were Japan and USA (see table 2), accounting respectively for 8.0 and 7.5 percent of world exports. Top importing destinations were China, Germany and USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in printing and bookbinding machinery and parts thereof (SITC group 726). In 2011, its exports amounted to 10.2 bln US\$ while imports were valued at 5.1 bln US\$, resulting in a trade surplus of 5.1 bln US\$. Developed Asia-Pacific recorded a trade surplus amounting to 850.4 mln US\$. Top deficits were recorded by Eastern Asia (-1.6 bln US\$), Latin America and the Caribbean (-1.4 bln US\$) and South-eastern Asia (-1.2 bln US\$).

727 Food- processing machines (excluding domestic); parts thereof

Despite a decline of 21.3 percent in 2009, the value (in current prices) of exports of food-processing machines (excluding domestic) and parts thereof (SITC group 727) recovered in 2010 and further grew by 27.2 percent in 2011 to reach its peak at 15.2 bln US\$ (see tables 1 and 2). Similarly, imports for the same year rose by 26.8 percent and amounted to 14.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group exceeded both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of food-processing machines (excluding domestic) and parts thereof (SITC group 727) accounted for 0.3 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

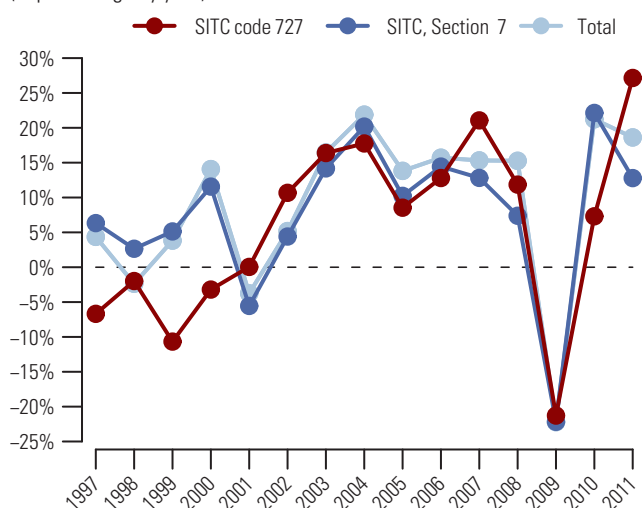

In 2011, Germany, Italy and Netherlands were the top exporting countries (see table 2). They accounted respectively for 18.3, 14.4 and 11.6 percent of world exports (see table 3). The top importing destinations were USA, Russian Federation and Germany. By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in food-processing machines (excluding domestic) and parts thereof (SITC group 727). In 2011, its exports and imports were valued at 10.9 bln US\$ and 4.5 bln US\$ respectively, resulting in a trade surplus of 6.3 bln US\$. Top trade deficits were recorded by Sub-Saharan Africa (-1.3 bln US\$), Commonwealth of Independent States (-1.1 bln US\$) and Latin America and the Caribbean (-964.9 mln US\$).

Other machinery, equipment, for specialized industries; parts nes 728

In 2011, the value (in current prices) of exports of other machinery, equipment for specialized industries, and parts nes (SITC group 728) continued to grow and reached its peak level at 189.6 bln US\$, a 18.7 percent increase from 2010 (see tables 1 and 2). Likewise, imports also showed an increase of 20.5 percent and reached a peak of 191.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded both the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and the increase in total world exports of 18.6 percent. Exports of other machinery, equipment for specialized industries, and parts nes (SITC group 728) accounted for 3.3 percent of world exports of SITC section 7 and 1.1 percent of total world exports (see table 1).

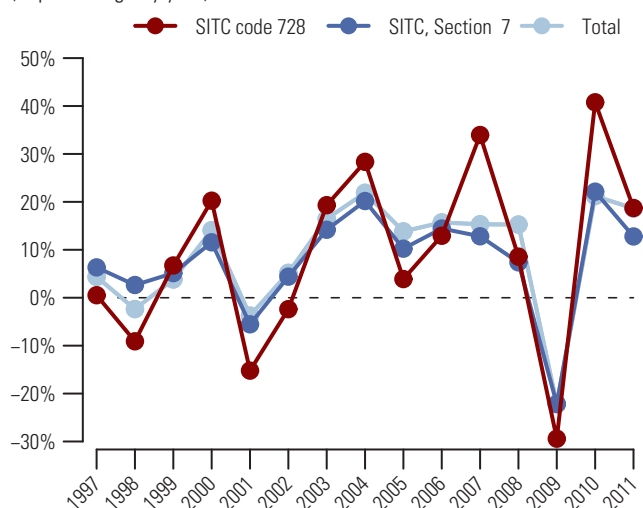

Japan, Germany and USA continued to be the top exporting countries in 2011 (see table 2), accounting respectively for 19.0, 15.3 and 11.1 percent of world exports. China was the top destination, representing 18.3 percent of world imports (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the largest share of exports of other machinery, equipment for specialized industries, and parts nes (SITC group 728). In 2011, its exports were valued at 86.6 bln US\$ while imports at 38.9 bln US\$, resulting in a trade surplus of 47.7 bln US\$. Major trade surpluses were also recorded by Developed Asia-Pacific (+29.3 bln US\$). Top trade deficits were recorded by Eastern Asia (-40.2 bln US\$), Latin America and the Caribbean (-8.4 bln US\$) and South-eastern Asia (-8.0 bln US\$).

731 Machine tools working by removing metal or other material

After a significant decline of 41.9 percent in 2009, the value (in current prices) of exports of machine tools working by removing metal or other material (SITC group 731) bounced back in 2010 and further grew in 2011 by 42.4 percent and amounted to 38.3 bln US\$ (see tables 1 and 2). Imports, with a similar development, increased by 44.9 percent and reached 37.9 bln US\$ (see tables 1 and 3). Graph 1 shows the increase in exports for 2011 in this product group well exceeded both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of machine tools working by removing metal or other material (SITC group 731) accounted for 0.7 percent of world exports of SITC section 7 and 0.2 percent of total world exports (see table 1).

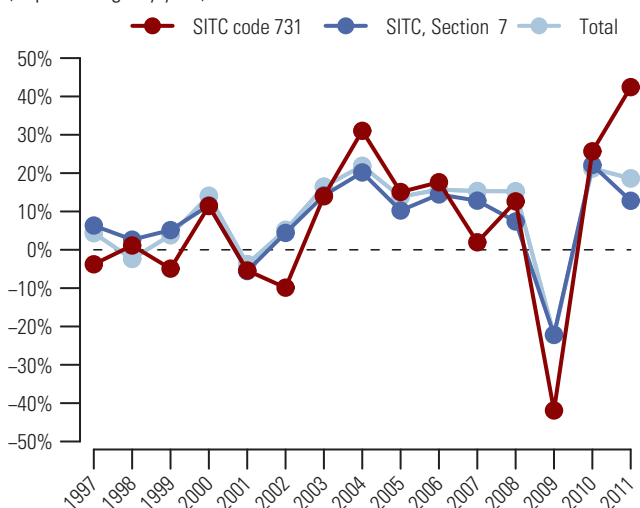

In 2011, the top exporting countries were Japan and Germany (see table 2), accounting for 28.0 and 19.2 percent respectively. The combined total represented nearly half of world exports. China, USA and Germany were the top destinations in 2011 (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the largest share of exports of machine tools working by removing metal or other material (SITC group 731). In 2011, its exports were valued at 16.6 bln US\$ while imports amounted to 9.1 bln US\$, resulting in a trade surplus of 7.5 bln US\$. Developed Asia-Pacific recorded a sizable trade surplus amounting to 10.0 bln US\$. Top trade deficits were recorded by Eastern Asia (-6.2 bln US\$), Developed North America (-2.6 bln US\$) and Latin America and the Caribbean (-1.9 bln US\$).

Machine tools for working metal, sintered metal carbides or cermets 733

After a sizable decline in 2009 and gradual recovery in 2010, the value (in current prices) of exports of machine tools for working metal, sintered metal carbides or cermets (SITC group 733) further grew by 33.4 percent in 2011 totaling 13.1 bln US\$ (see tables 1 and 2). In the same year, imports also increased by 34.8 percent to 13.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports for 2011 in this product group was well above both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of machine tools for working metal, sintered metal carbides or cermets (SITC group 733) accounted for 0.2 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

In 2011, Germany, Japan and Italy were the top exporting countries (see table 2). They accounted respectively for 18.2, 14.7 and 14.7 percent of world exports. China, USA and India were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports of machine tools for working metal, sintered metal carbides or cermets (SITC group 733). In 2011, its exports were valued at 6.9 bln US\$ and imports amounted to 2.6 bln US\$, resulting in a trade surplus of 4.2 bln US\$. Developed Asia-Pacific recorded a trade surplus amounting to 1.7 bln US\$. Top trade deficits were recorded by South-eastern Asia (-1.6 bln US\$), Latin America and the Caribbean (-1.3 bln US\$) and Eastern Asia (-892.1 mln US\$).

735 Parts, nes, accessories suitable for use with machines falling within 731&733

In 2011, the value (in current prices) of exports of parts, nes, accessories suitable for use with machines falling within SITC groups 731 and 733 (SITC group 735) increased by 30.1 percent and amounted to 16.9 bln US\$ (see tables 1 and 2). Imports also rose by 34.1 percent to 16.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was well above both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of parts, nes, accessories suitable for use with machines falling within SITC groups 731 and 733 (SITC group 735) accounted for 0.3 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

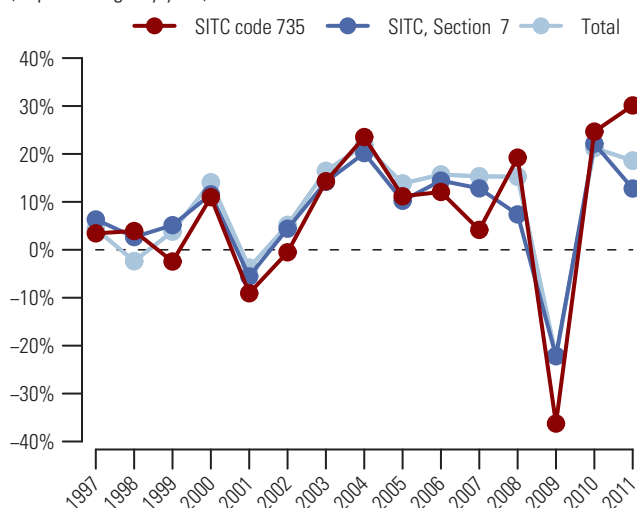

Germany, Japan and USA were the top exporting countries in 2011, accounting for 18.8, 11.4 and 11.2 percent respectively of world exports (see table 2). The top importing destinations were China, USA and Germany (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of exports in parts, nes, accessories suitable for use with machines falling within SITC groups 731 and 733 (SITC group 735). In 2011, its exports were valued at 9.3 bln US\$ and imports amounted to 6.9 bln US\$. This resulted in a trade surplus of 2.4 bln US\$. Developed Asia-Pacific recorded a trade surplus amounting to 1.0 bln US\$. Top trade deficits were recorded by Latin America and the Caribbean (-731.4 mln US\$), Eastern Asia (-571.6 mln US\$) and South-eastern Asia (-551.0 mln US\$).

Metalworking machinery and parts thereof, nes 737

After a significant decline of 23.3 percent in 2009 and gradual recovery in 2010, the value (in current prices) of exports of metalworking machinery and parts thereof, nes (SITC group 737) continued to grow in 2011 by 11.8 percent to reach 22.1 bln US\$ (see tables 1 and 2). With a similar development, imports rose by 14.7 percent to 22.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was below the increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of metalworking machinery and parts thereof, nes (SITC group 737) accounted for 0.4 percent of world exports of SITC section 7 and 0.1 percent of total world exports (see table 1).

In 2011, the top exporting countries were Germany, China and Italy (see table 2). They accounted respectively for 16.8, 12.9 and 11.4 percent of world exports. China, USA and Russian Federation were the top importing destinations (see table 3). By MDG regions (see graph 2), exports and imports of Developed Europe were valued respectively at 11.6 bln US\$ and 5.3 bln US\$, resulting in a trade surplus of 6.2 bln US\$. Another major trade surplus was recorded by trade with Developed Asia-Pacific (+1.7 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-1.6 bln US\$), Commonwealth of Independent States (-1.5 bln US\$) and Southern Asia (-1.4 bln US\$).

741 Heating and cooling equipment and parts thereof, nes

Following a 21.5 percent drop in 2009, the value (in current prices) of exports of heating and cooling equipment and parts thereof, nes (SITC group 741) gradually recovered in 2010 and further grew by 17.5 percent, reaching 111.2 bln US\$ in 2011 (see tables 1 and 2). For the same period, imports also increased by 17.0 percent and reached 112.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports for 2011 in this product group exceeded the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but was below the increase in total world exports of 18.6 percent. Exports of heating and cooling equipment and parts thereof, nes (SITC group 741) accounted for 1.9 percent of world exports of SITC section 7 and 0.6 percent of total world exports (see table 1).

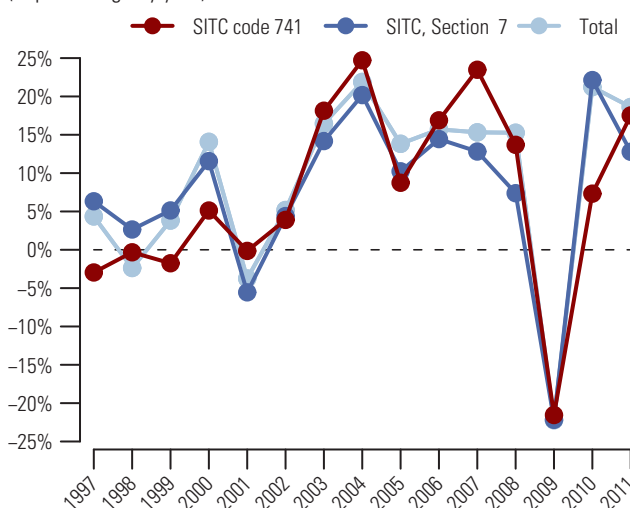

In 2011, China, Germany and USA were the top exporting countries (see table 2). They accounted respectively for 17.3, 11.6 and 9.0 percent of world exports. USA, China and Germany were also the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the largest share of trade in heating and cooling equipment and parts thereof, nes (SITC group 741). In 2011, its exports and imports were respectively valued at 50.6 bln US\$ and 35.2 bln US\$, resulting in a trade surplus of 15.4 bln US\$. Eastern Asia also recorded a large trade surplus amounting to 12.5 bln US\$. Top trade deficits were recorded by Commonwealth of Independent States (-6.9 bln US\$), Western Asia (-6.4 bln US\$) and Latin America and the Caribbean (-4.0 bln US\$).

Pumps for liquids; liquid elevators; parts for such pumps and liquid elevators 742

During the last five years, the export value (in current prices) of pumps for liquids, liquid elevators, parts for such pumps and liquid elevators (SITC group 742) grew 6.6 percent on average each year and reached its peak at 60.7 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development during the same period with an average increase of 7.5 percent and amounted to 64.7 bln US\$ (see tables 1 and 3). The 18.8 percent increase in exports for 2011 in this product group exceeded both the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and the increase in total world exports of 18.6 percent (see graph 1). Exports of pumps for liquids, liquid elevators, parts for such pumps and liquid elevators (SITC group 742) accounted for 1.0 percent of world exports of SITC section 7 and 0.3 percent of total world exports in 2011 (see table 1).

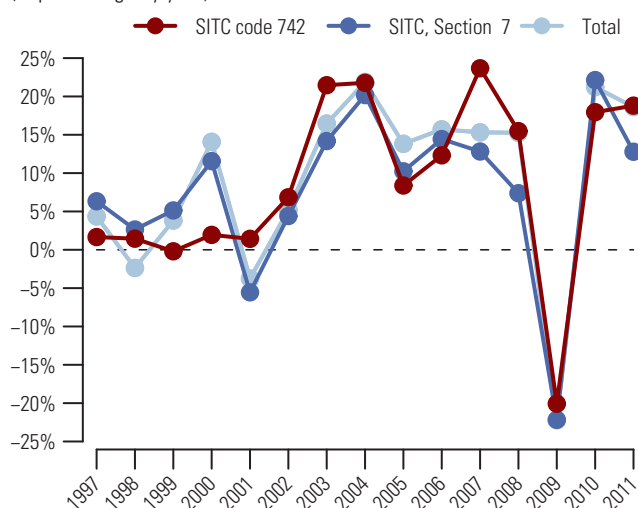

Germany, USA and Japan were the top exporting countries in 2011 (see table 2), accounting respectively for 18.9, 13.8 and 8.8 percent of world exports. The top destinations were USA, Germany and China (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the largest share of trade in pumps for liquids, liquid elevators, parts for such pumps and liquid elevators (SITC group 742). In 2011, its exports were valued at 31.8 bln US\$ while imports amounted to 22.5 bln US\$, resulting in a trade surplus of 9.3 bln US\$. Developed Asia-Pacific recorded a trade surplus amounting to 3.4 bln US\$. Top trade deficit was recorded by Western Asia (-3.2 bln US\$).

743 Pumps (other than liquid), air or other gas compressors and fans, etc; parts

Despite a drop of 17.1 percent in 2009, the value (in current prices) of exports of pumps, air or other gas compressors and fans, etc; parts (SITC group 743) bounced back in 2010 and further grew by 17.2 percent in 2011, reaching 123.6 bln US\$, above its 2008 level (see tables 1 and 2). Similarly, imports also recovered in 2010 and continued to grow by 17.3 percent to 126.1 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was above the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but slightly below the increase in total world exports of 18.6 percent. Exports of pumps, air or other gas compressors and fans, etc; parts (SITC group 743) accounted for 2.1 percent of world exports of SITC section 7 and 0.7 percent of total world exports in 2011 (see table 1).

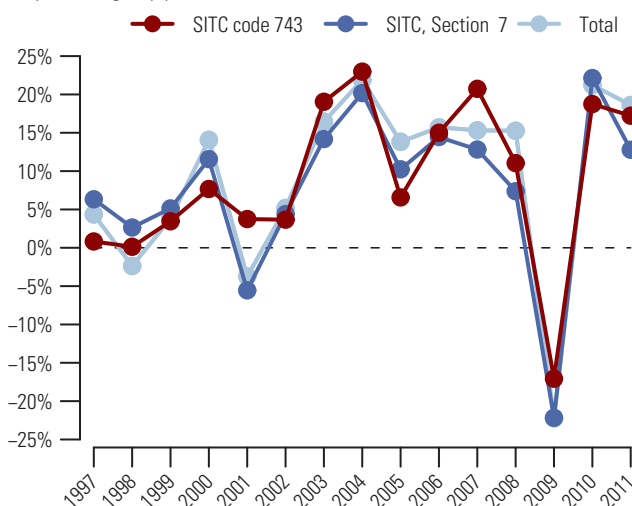

Germany, USA and China were the top exporting countries in 2011 (see table 2), accounting respectively for 16.9, 11.9 and 10.6 percent of world exports. USA, China and Germany were also the top destinations for imports (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a very large share of trade in pumps, air or other gas compressors and fans, etc (SITC group 743). In 2011, its exports were valued at 59.9 bln US\$ while imports amounted to 43.6 bln US\$, resulting in a trade surplus of 16.2 bln US\$. Top trade deficits were recorded by Latin America and the Caribbean (-5.8 bln US\$), Western Asia (-5.6 bln US\$) and Commonwealth of Independent States (-5.3 bln US\$).

Mechanical handling equipment and parts thereof, nes 744

After a significant decline of 31.7 percent in 2009, the value (in current prices) of exports of mechanical handling equipment and parts thereof, nes (SITC group 744) gradually recovered in 2010 and further grew by 23.6 percent in 2011 to 80.5 bln US\$ (see tables 1 and 2). Similarly, imports increased by 25.5 percent in 2011 and reached 78.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase of 23.6 percent in exports for 2011 for this product group exceeded both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of mechanical handling equipment and parts thereof, nes (SITC group 744) accounted for 1.4 percent of world exports of SITC section 7 and 0.5 percent of total world exports in 2011 (see table 1).

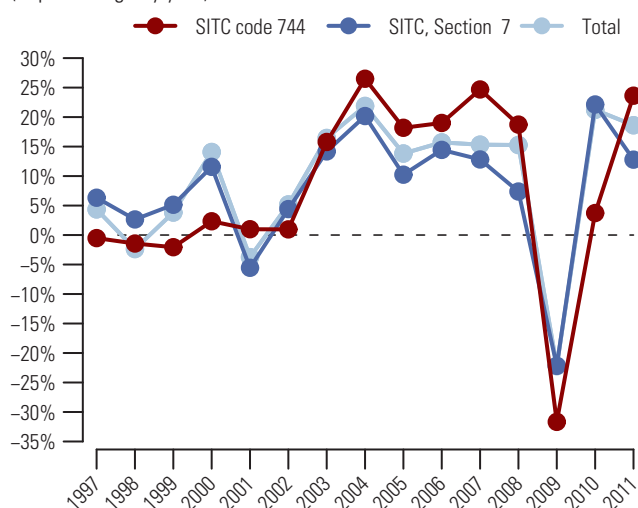

In 2011, the top exporting countries were Germany, China and USA (see table 2), accounting respectively for 16.7, 12.8 and 10.1 percent of world exports (see table 2). USA, China and Germany were also the top importing destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the largest share of trade in mechanical handling equipment and parts thereof, nes (SITC group 744). In 2011, its exports were valued at 44.7 bln US\$ while imports at 27.5 bln US\$, resulting in a trade surplus of 17.3 bln US\$. Top trade surpluses were also recorded by Eastern Asia (+5.8 bln US\$) and Developed Asia-Pacific (+2.4 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-5.3 bln US\$), Commonwealth of Independent States (-3.8 bln US\$) and Western Asia (-3.8 bln US\$).

745 Non-electrical machinery, tools and mechanical apparatus, parts thereof, nes

Despite a 23.5 percent drop in 2009, the export value (in current prices) of non-electrical machinery, tools and mechanical apparatus, parts thereof, nes (SITC group 745) bounced back in 2010 and further grew in 2011 by 18.7 percent to 56.2 bln US\$ (see tables 1 and 2). During the same period, imports showed a similar development with an increase of 20.9 percent amounting to 57.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded both the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and the increase in total world exports of 18.6 percent. Exports of non-electrical machinery, tools and mechanical apparatus, parts thereof, nes (SITC group 745) accounted for 1.0 percent of world exports of SITC section 7 and 0.3 percent of total world exports in 2011 (see table 1).

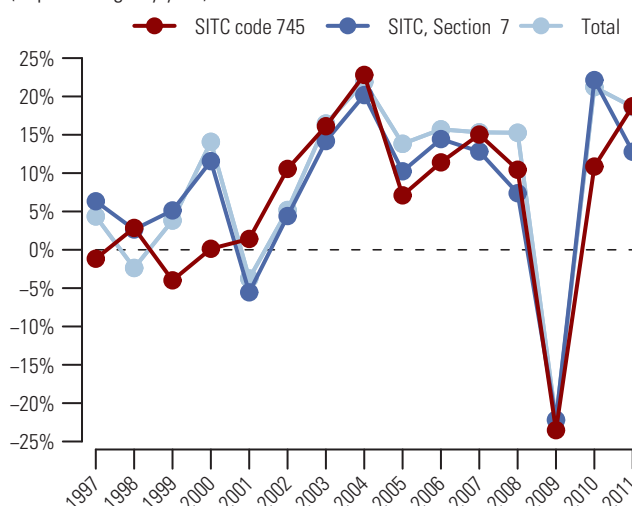

In 2011, Germany, Italy and China were the top exporting countries, accounting respectively for 21.0, 15.8 and 11.3 percent of world exports (see table 2). USA along with China and Germany were the top importing destinations (see table 3). By MDG regions (see graph 2), major trade surpluses were recorded with Developed Europe (+13.9 bln US\$) and Eastern Asia (+2.3 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-4.0 bln US\$), Commonwealth of Independent States (-2.9 bln US\$) and South-eastern Asia (-2.2 bln US\$).

From 2007 to 2011, the value (in current prices) of exports of ball or roller bearings (SITC group 746) grew on average by 8.2 percent each year and reached its peak level at 35.6 bln US\$ in 2011 (see tables 1 and 2). During the same period, likewise, imports increased on average by 7.7 percent and amounted to 36.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of ball or roller bearings (SITC group 746) accounted for 0.6 percent of world exports of SITC section 7 and 0.2 percent of total world exports in 2011 (see table 1).

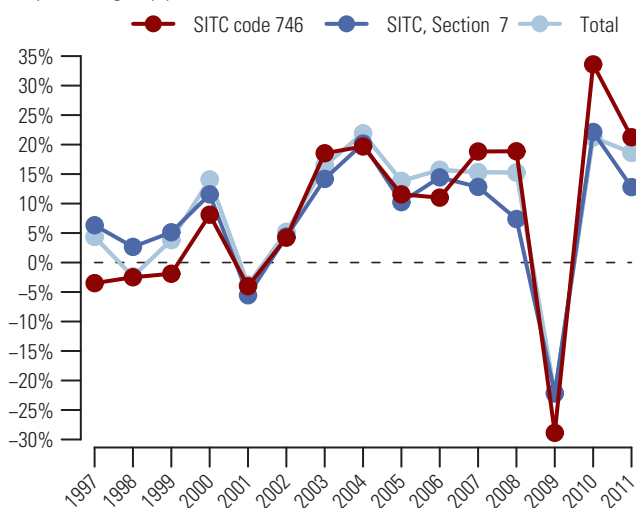

The top exporting countries in 2011 were Japan, Germany and China (see table 2). They accounted respectively for 16.0, 15.8 and 12.2 percent of world exports. Germany and China were also among top destinations, together with USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in ball or roller bearings (SITC group 746). In 2011, its exports and imports were valued respectively at 16.3 bln US\$ and 14.3 bln US\$, resulting in a trade surplus of 2.0 bln US\$. A larger trade surplus was recorded by Developed Asia-Pacific (+4.7 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-2.2 bln US\$), Developed North America (-1.3 bln US\$) and South-eastern Asia (-959.5 mln US\$).

747 Taps, cocks, valves, etc; pressure-reducing, thermostatically control valves

After several years of continuous growth marked by a peak in 2008, the export value (in current prices) of taps, cocks, valves, etc; pressure-reducing, thermostatically control valves (SITC group 747) dropped in 2009 but bounced back in 2010 and further grew in 2011 by 18.1 percent to reach 77.0 bln US\$ (see tables 1 and 2). Imports showed a similar development with a 17.6 percent increase in 2011 and reached 80.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but was slightly below that in total world exports of 18.6 percent. Exports of taps, cocks, valves, etc; pressure-reducing, thermostatically control valves (SITC group 747) accounted for 1.3 percent of world exports of SITC section 7 and 0.4 percent of total world exports in 2011 (see table 1).

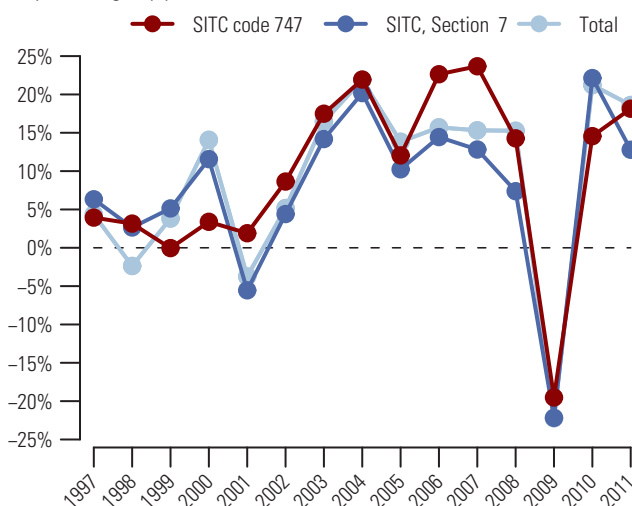

In 2011, China, Germany and USA were the top exporting countries (see table 2), accounting respectively for 15.4, 15.2 and 12.2 percent of world exports. USA, China and Germany were also the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the largest share of trade in taps, cocks, valves, etc; pressure-reducing, thermostatically control valves (SITC group 747). In 2011, its exports were valued at 38.4 bln US\$ while imports amounted to 27.4 bln US\$, resulting in a trade surplus of 11.0 bln US\$. Trade with Eastern Asia also recorded a surplus of 4.3 bln US\$. Top trade deficits were recorded by Developed North America (-4.6 bln US\$) and Western Asia (-3.9 bln US\$).

Transmission shafts (camshafts, crankshafts) and cranks; parts thereof 748

Following a 23.9 decline in 2009, the value (in current prices) of exports of transmission shafts and cranks, and parts thereof (SITC group 748) bounced back in 2010 and continued to grow in 2011 by 23.3 percent to 54.7 bln US\$ (see tables 1 and 2). Similarly, imports dropped by 24.6 percent in 2009 but recovered in 2010 and further grew in 2011 by 23.5 percent, amounting to 57.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 for this product group well exceeded both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of transmission shafts and cranks, and parts thereof (SITC group 748) accounted for 0.9 percent of world exports of SITC section 7 and 0.3 percent of total world exports in 2011 (see table 1).

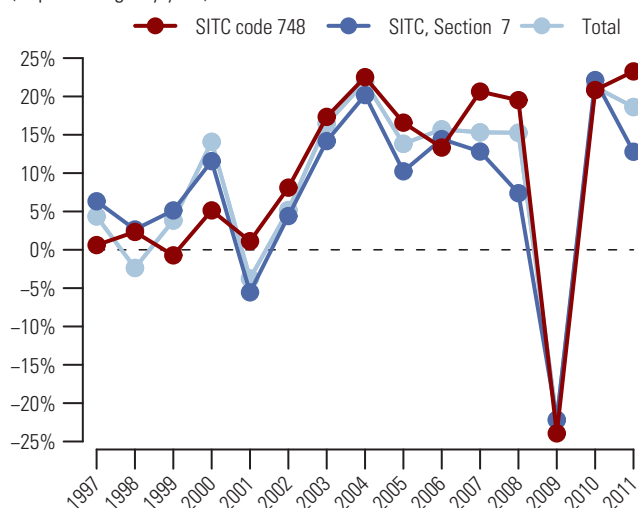

In 2011, the top exporting countries were Germany, Japan and China (see table 2), accounting respectively for 23.6, 12.7 and 10.0 percent of world exports. USA, China and Germany were the top importing destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for the largest share of trade in transmission shafts and cranks, and parts thereof (SITC group 748). In 2011, its exports were valued at 28.9 bln US\$ while imports amounted to 21.4 bln US\$, resulting in a trade surplus of 7.5 bln US\$. Another major trade surplus was recorded with Developed Asia-Pacific (+4.4 bln US\$). Top trade deficits were recorded by Developed North America (-4.0 bln US\$), Latin America and the Caribbean (-3.8 bln US\$) and South-eastern Asia (-2.6 bln US\$).

749 Non-electric parts and accessories of machinery, nes

After a 19.6 percent decline in 2009 and gradual recovery in 2010, the value (in current prices) of exports of non-electric parts and accessories of machinery, nes (SITC group 749) continued to grow in 2011 by 18.8 percent and reached 30.2 bln US\$ (see tables 1 and 2). Similarly, imports showed a 16.8 percent increase in 2011 and amounted to 28.7 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 for this product group was higher than both the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and that in total world exports of 18.6 percent. Exports of non-electric parts and accessories of machinery, nes (SITC group 749) accounted for 0.5 percent of world exports of SITC section 7 and 0.2 percent of total world exports (see table 1).

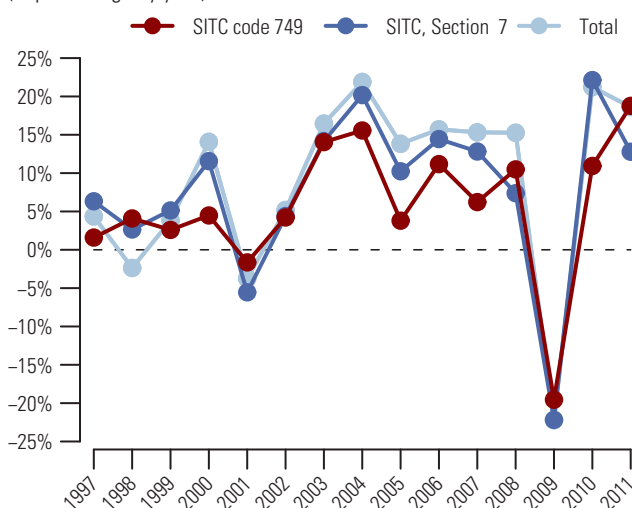

In 2011, Germany, China and Japan were the top exporting countries (see table 2). They accounted respectively for 13.8, 12.9 and 11.8 percent of world exports. Top destinations were China, USA and Germany (see table 3). By MDG regions (see graph 2), Developed Europe's exports and imports amounted respectively to 12.7 bln US\$ and 8.4 bln US\$, resulting in a trade surplus of 4.3 bln US\$. Top trade surpluses were also recorded by Eastern Asia (+2.6 bln US\$) and Developed Asia-Pacific (+2.1 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-2.4 bln US\$), South-eastern Asia (-1.4 bln US\$) and Western Asia (-1.0 bln US\$).

After several years of continuous growth marked by a peak of 49.4 bln US\$ in 2008, the export value (in current prices) of office machines (SITC group 751) dropped in 2009 but bounced back in 2010 and continued to grow in 2011 by 2.3 percent to reach 51.2 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 2.1 percent and amounted to 50.5 bln US\$ in 2011 (see tables 1 and 3). The increase in exports for 2011 in this product group was exceeded by both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent (see graph 1). Exports of office machines (SITC group 751) accounted for 0.9 percent of world exports of SITC section 7 and 0.3 percent of total world exports in 2011 (see table 1).

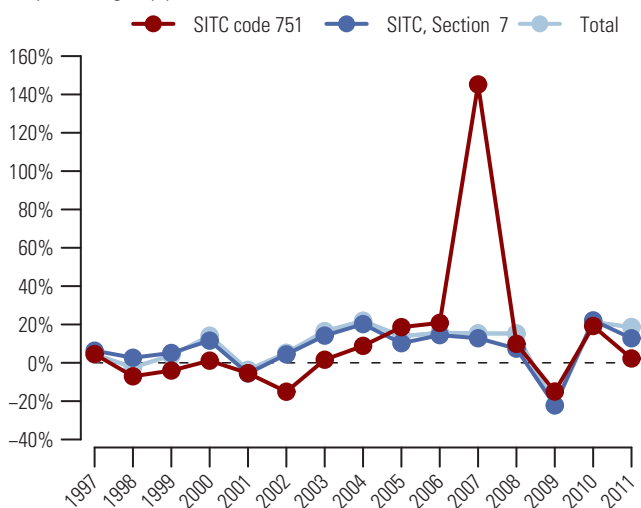

In 2011, China was the top exporting country of office machines and accounted for over one third (38.5 percent) of world exports (see table 2). Other major exporting countries were Germany and the Netherlands, representing respectively 9.6 and 7.1 percent of world exports. Top destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), Eastern Asia and South-eastern Asia recorded trade surpluses amounting respectively to 17.4 bln US\$ and 3.9 bln US\$. Top trade deficits were recorded by Developed North America (-7.4 bln US\$), Developed Europe (-4.5 bln US\$) and Developed Asia-Pacific (-2.1 bln US\$).

752 Automatic data processing machines and units thereof

Despite the 14.1 percent drop in 2009, the value (in current prices) of exports of automatic data processing machines and units thereof (SITC group 752) bounced back in 2010 and continued to grow by 6.6 percent in 2011 and reached 345.3 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 11.5 percent and amounted to 355.7 bln US\$ (see tables 1 and 3). Graph 1 shows the increase in exports for 2011 in this product group did not exceed both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of automatic data processing machines and units thereof (SITC group 752) accounted for 6.0 percent of world exports of SITC section 7 and 1.9 percent of total world exports in 2011 (see table 1).

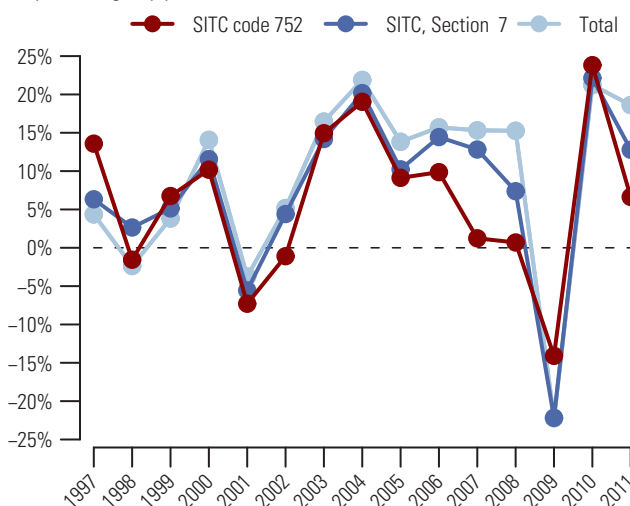

In 2011, China was the top exporting country and accounted for 46.4 percent of world exports (see table 2). Other major exporting countries were USA and Netherlands, respectively with 8.3 and 5.4 percent of world exports. USA and China were also among the top destinations, together with Germany (see table 3). By MDG regions (see graph 2), Eastern Asia accounted for a large share of exports of automatic data processing machines and units thereof (SITC group 752). In 2011, its exports were valued at 186.8 bln US\$ while imports amounted to 56.9 bln US\$, resulting in a trade surplus of 129.9 bln US\$. South-eastern Asia also recorded a trade surplus amounting to 15.7 bln US\$. Top trade deficits were recorded by Developed North America (-64.9 bln US\$), Developed Europe (-43.3 bln US\$) and Developed Asia-Pacific (-22.3 bln US\$).

Parts and accessories (not covers, carrying cases, etc) for machines of 751-752 759

In 2011, the value (in current prices) of exports of parts and accessories for machines of 751-752 (office machines) (SITC group 759) slightly declined by 3.7 percent and amounted to 195.8 bln US\$ (see tables 1 and 2). Likewise, imports decreased by 6.1 percent to 199.7 bln US\$ (see tables 1 and 3). Graph 1 shows the decrease in exports for 2011 in this product group as compared to the increases in the world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent, respectively. Exports of parts and accessories for machines of 751-752 (office machines) (SITC group 759) accounted for 3.4 percent of world exports of SITC section 7 and 1.1 percent of total world exports in 2011 (see table 1).

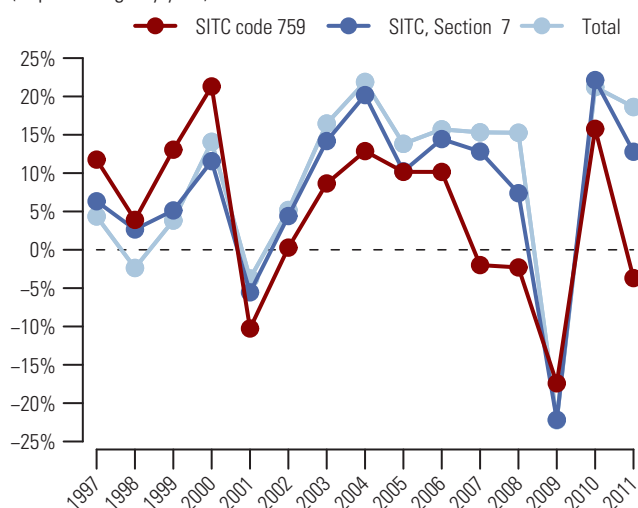

China, China, Hong Kong SAR and USA were the top exporting countries or areas in 2011 (see table 2). They accounted respectively for 19.7, 15.4 and 9.6 percent of world exports. Top destinations were USA, China, Hong Kong SAR and China (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus amounting to 24.9 bln US\$ in 2011. Top trade surpluses were also recorded by South-eastern Asia (+8.5 bln US\$) and Developed Asia-Pacific (+7.4 bln US\$). Top trade deficits were recorded by Developed Europe (-14.9 bln US\$), Developed North America (-11.4 bln US\$) and Latin America and the Caribbean (-10.7 bln US\$).

761 Television receivers

After a decline of 11.8 percent in 2009, the value (in current prices) of exports of television receivers (SITC group 761) bounced back in 2010 by 17.4 percent but dropped again in 2011 by 5.5 percent to 94.8 bln US\$ (see tables 1 and 2). Imports showed a similar development, with a decrease of 8.2 percent in 2011 to 92.5 bln US\$ (see tables 1 and 3). Graph 1 shows the decrease of exports for 2011 in this product group as compared to increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of television receivers (SITC group 761) accounted for 1.6 percent of world exports of SITC section 7 and 0.5 percent of total world exports in 2011 (see table 1).

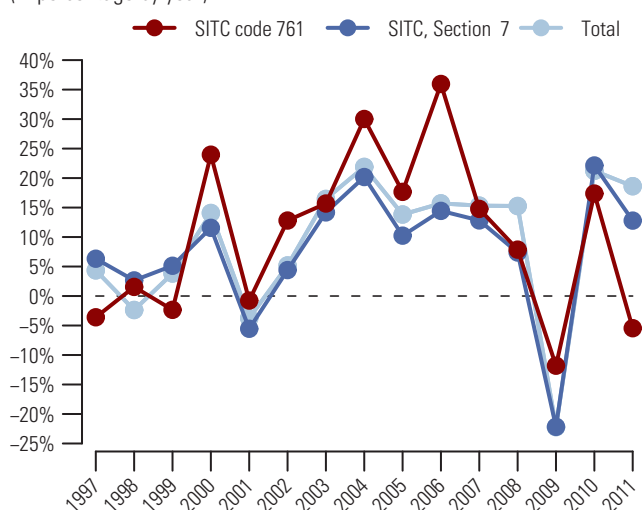

In 2011, China, Mexico and Slovakia were the top exporting countries (see table 2). They accounted respectively for 23.4, 19.5 and 7.9 percent of world exports. The top importing destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Eastern Asia (+23.6 US\$), Latin America and the Caribbean (+12.9 bln US\$) and South-eastern Asia (+5.5 bln US\$). Top deficits were recorded by Developed North America (-25.5 bln US\$), Developed Asia-Pacific (-7.4 bln US\$) and Developed Europe (-2.7 bln US\$).

Despite a 27.1 percent drop in 2009, the value (in current prices) of exports of radio-broadcast receivers (SITC group 762) bounced back by 21.7 percent in 2010 and continued to grow in 2011 by 3.2 percent to 16.5 bln US\$ (see tables 1 and 2). Imports showed a similar development. After a 24.3 percent drop in 2009, it bounced back in 2010 by 22.8 percent and further grew by 4.7 percent in 2011 to 18.3 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was less than both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and the increase in total world exports of 18.6 percent. Exports of radio-broadcast receivers (SITC group 762) accounted for 0.3 percent of world exports of SITC section 7 and 0.1 percent of total world exports in 2011 (see table 1).

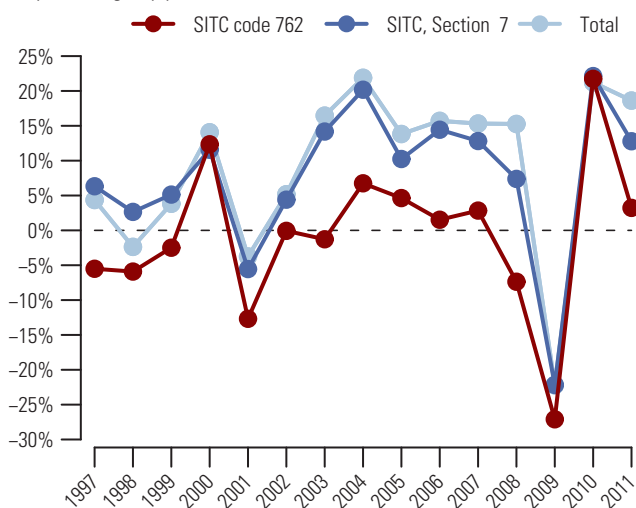

In 2011, China, Malaysia and Portugal were the top exporting countries (see table 2), accounting respectively for 25.7, 9.2 and 7.7 percent of world exports. The top importing countries were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), Eastern Asia and South-eastern Asia recorded trade surpluses amounting respectively to 4.3 bln US\$ and 2.6 bln US\$. Top trade deficits were recorded by Developed North America (-4.4 bln US\$), Developed Asia-Pacific (-1.3 bln US\$) and Developed Europe (-1.1 bln US\$).

763 Sound recorders or reproducers; television image and sound recorders

Following a drop of 11.2 percent in 2009, the export value (in current prices) of sound recorders or reproducers, television image and sound recorders (SITC group 763) gradually recovered in 2010 but dropped again in 2011 by 2.4 percent to 61.6 bln US\$ (see tables 1 and 2). On the contrary, after recovery in 2010, imports continued to grow in 2011 by 0.2 percent to 66.6 bln US\$ (see tables 1 and 3). Graph 1 shows the drop in exports for 2011 in this product group compared to the increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of sound recorders or reproducers, television image and sound recorders (SITC group 763) accounted for 1.1 percent of world exports of SITC section 7 and 0.3 percent of total world exports (see table 1).

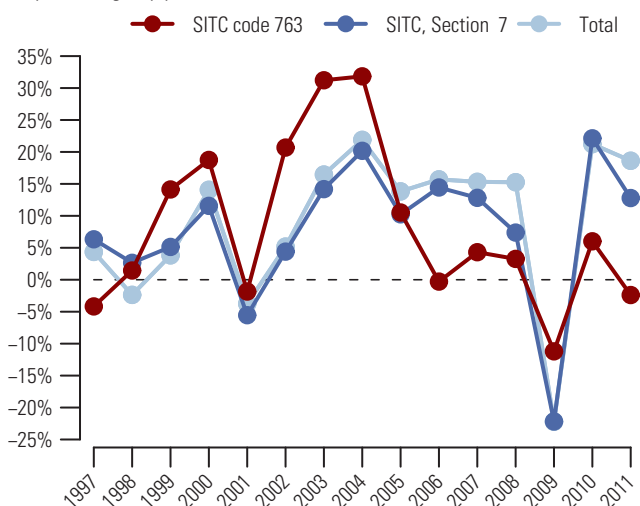

China was the top exporting country in 2011, accounting for nearly one third (32.6 percent) of world exports (see table 2). Other major exporting countries or areas were Japan and China, Hong Kong SAR, respectively with 14.2 and 9.1 percent of world exports. USA, China and China, Hong Kong SAR were the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus amounting to 12.8 bln US\$ in 2011. Major surpluses were also recorded by South-eastern Asia (+3.6 bln US\$) and Developed Asia-Pacific (+3.2 bln US\$). Top trade deficits were recorded by Developed North America and Developed Europe (both at -8.8 bln US\$).

Telecommunications equipment, nes, and parts, nes, and accessories of 76 764

After several years of continuous growth marked by a peak of 451.2 bln US\$ in 2008, the export value (in current prices) of telecommunications equipment, nes, and parts and accessories, nes (SITC group 764) decreased by 14.8 percent in 2009 but recovered in 2010 and further grew by 13.3 percent in 2011 to 506.1 bln US\$, above its 2008 level (see tables 1 and 2). Imports, with a similar development, increased by 13.3 percent in 2011 to 557.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but was below that in total world exports of 18.6 percent. Exports of telecommunications equipment, nes, and parts and accessories, nes (SITC group 764) accounted for 8.7 percent of world exports of SITC section 7 and 2.8 percent of total world exports in 2011 (see table 1).

In 2011, China, the top exporting country, accounted for nearly one third (32.0 percent) of world exports. Other major countries or areas were China, Hong Kong SAR and USA, respectively with 12.7 and 7.6 percent of world exports (see table 2). USA, China, Hong Kong SAR and China were also the top destinations (see table 3). By MDG regions (see graph 2), the largest share of trade surplus was recorded by trade with Eastern Asia (+160.0 bln US\$). Top trade deficits were recorded by Developed North America (-62.4 bln US\$), Developed Europe (-38.0 bln US\$) and Latin America and the Caribbean (-28.8 bln US\$).

771 Electric power machinery, and parts thereof

From 2007 to 2011, the value (in current prices) of exports of electric power machinery and parts thereof (SITC group 771) increased on average by 7.7 percent each year and reached 92.6 bln US\$ in 2011 (see table 2). Imports showed an average increase of 7.9 percent during the same period and totaled 96.2 bln US\$ in 2011 (see table 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of electric power machinery and parts thereof (SITC group 771) accounted for 1.6 percent of world exports of SITC section 7 and 0.5 percent of total world exports in 2011 (see table 1).

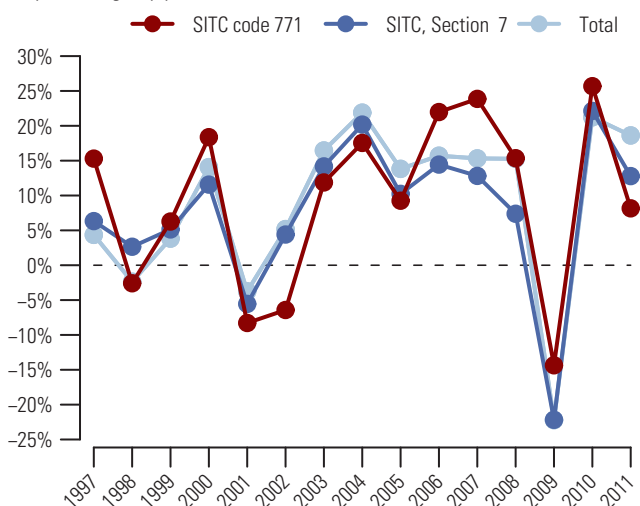

In 2011, the top exporting countries or areas were China, Germany and China, Hong Kong SAR (see table 2). They accounted respectively for 24.1, 11.3 and 10.6 percent of world exports. China, USA and China, Hong Kong SAR were the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus amounting to 10.5 bln US\$. Top trade surpluses were also recorded by Developed Europe (+5.3 bln US\$) and South-eastern Asia (+46.8 mln US\$). Top trade deficits were recorded by Developed North America (-7.9 bln US\$), Latin America and the Caribbean (-3.0 bln US\$) and Sub-Saharan Africa (-2.4 bln US\$).

Electrical apparatus for switching, protecting or connecting electrical circuits 772

Following a 19.1 percent drop in 2009, the value (in current prices) of exports of electrical apparatus for switching, protecting or connecting electrical circuits (SITC group 772) bounced back by a significant 26.5 percent in 2010 and further grew by 13.2 percent in 2011 to 231.6 bln US\$ (see tables 1 and 2). Imports, with a similar development, increased by 14.1 percent and reached its peak at 237.6 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group slightly exceeded the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but was below the increase in total world exports of 18.6 percent. Exports of electrical apparatus for switching, protecting or connecting electrical circuits (SITC group 772) accounted for 4.0 percent of world exports of SITC section 7 and 1.3 percent of total world exports in 2011 (see table 1).

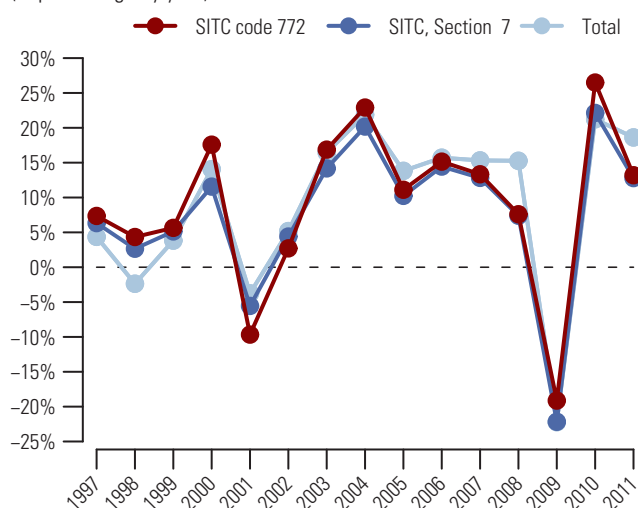

Germany, China and Japan were the top exporting countries in 2011 (see table 2). They accounted respectively for 14.0, 13.6 and 9.1 percent of world exports. Top destinations were China, USA and China, Hong Kong SAR (see table 3). By MDG regions (see graph 2), Developed Europe and Developed Asia-Pacific recorded trade surpluses amounting respectively to 19.0 bln US\$ and 13.5 bln US\$. Top trade deficits were recorded by Latin America and the Caribbean (-9.7 bln US\$), Developed North America (-5.9 bln US\$) and Western Asia (-4.6 bln US\$).

773 Equipment for distributing electricity, nes

Following a 27.8 percent drop in 2009, the value (in current prices) of exports of equipment for distributing electricity, nes (SITC group 773) recovered in 2010 and further grew by 19.4 percent in 2011 to reach its peak at 111.0 bln US\$ (see tables 1 and 2). Imports showed a similar development, with an increase of 20.4 percent in 2011 to reach 112.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded both the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and the increase in total world exports of 18.6 percent. Exports of equipment for distributing electricity, nes (SITC group 773) accounted for 1.9 percent of world exports of SITC section 7 and 0.6 percent of total world exports in 2011 (see table 1).

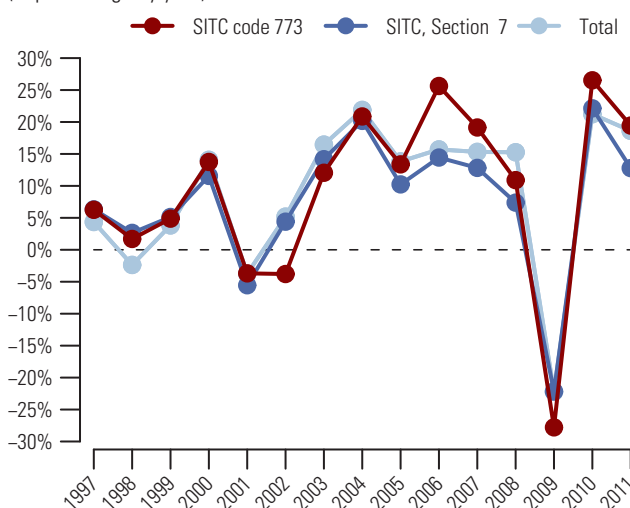

In 2011, China, Germany and USA were the top exporting countries (see table 2), accounting respectively for 14.7, 8.2 and 8.2 percent of world exports. USA, Germany and China were also the top importing destinations (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Eastern Asia (+11.9 bln US\$), Northern Africa (+2.6 bln US\$) and South-eastern Europe (+1.8 bln US\$). Top deficits were recorded by Developed North America (-8.9 bln US\$), Developed Asia-Pacific (-3.7 bln US\$) and Sub-Saharan Africa (-1.9 bln US\$).

From 2007 to 2011, the export value (in current prices) of electro-medical and radiological equipment (SITC group 774) increased on average by 5.6 percent each year to 41.8 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports showed an average increase of 6.2 percent during the same period and amounted to 41.3 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise of 10.3 percent in exports for 2011 in this product group was exceeded by both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of electro-medical and radiological equipment (SITC group 774) accounted for 0.7 percent of world exports of SITC section 7 and 0.2 percent of total world exports in 2011 (see table 1).

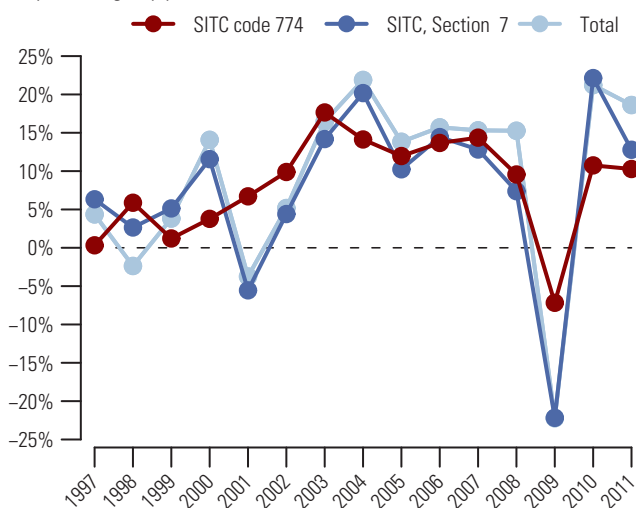

The top exporting countries in 2011 were USA, Germany and Netherlands (see table 2). They accounted respectively for 23.2, 21.3 and 10.7 percent of world exports. USA, China and Germany were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in electro-medical and radiological equipment (SITC group 774). In 2011, its exports amounted to 21.2 bln US\$ while imports was valued at 12.9 bln US\$, resulting in a trade surplus of 8.2 bln US\$. Top trade surpluses were also recorded by Developed North America (+1.2 bln US\$) and Developed Asia-Pacific (+0.6 bln US\$). Top trade deficits were recorded by Eastern Asia (-2.2 bln US\$), Commonwealth of Independent States (-2.0 bln US\$) and Latin American & the Caribbean (-1.8 bln US\$).

775 Household-type electrical and non-electrical equipment, nes

Despite a 14.0 percent decline in 2009, the value (in current prices) of exports of household-type electrical and non-electrical equipment, nes (SITC group 775) recovered in 2010 and further grew by 10.9 percent in 2011 and amounted to 94.0 bln US\$ (see tables 1 and 2). Similarly, imports went up by 10.2 percent in 2011 to 96.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 of 10.3 percent in this product group was exceeded by both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of household-type electrical and non-electrical equipment, nes (SITC group 775) accounted for 1.6 percent of world exports of SITC section 7 and 0.5 percent of total world exports in 2011 (see table 1).

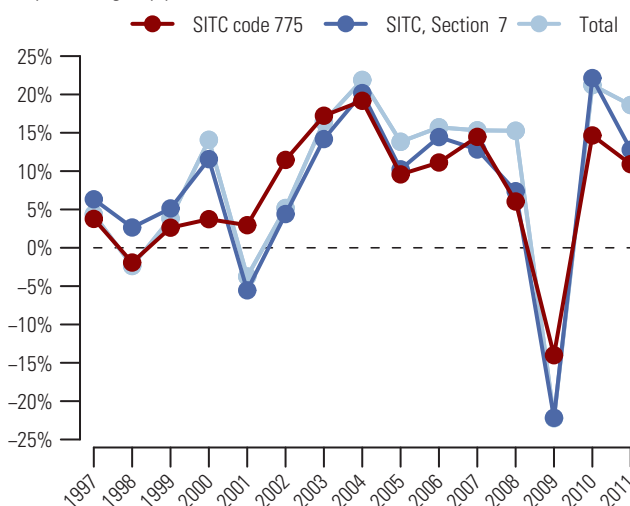

In 2011, China was the top exporting country in 2011 and accounted for nearly one third (31.7 percent) of world exports (see table 2). Other major exporting countries were Germany and Italy, respectively with 10.7 and 5.6 percent of world exports. USA, Germany and France were the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus amounting to 31.0 bln US\$ in 2011. A significant trade surplus was also recorded by South-eastern Asia (+3.3 bln US\$). Top trade deficits were recorded by Developed North America (-14.9 bln US\$), Developed Asia-Pacific (-7.0 bln US\$) and Developed Europe (-6.5 bln US\$).

During the last five years, the export value (in current prices) of thermionic, microcircuits, transistors, valves, cathodes, diodes, etc (SITC group 776) increased on average by 4.8 percent each year and reached 551.5 bln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development, with an average increase of 5.6 percent during the same period, and amounted to 653.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was well exceeded by both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of thermionic, microcircuits, transistors, valves, cathodes, diodes, etc (SITC group 776) accounted for 9.5 percent of world exports of SITC section 7 and 3.1 percent of total world exports (see table 1).

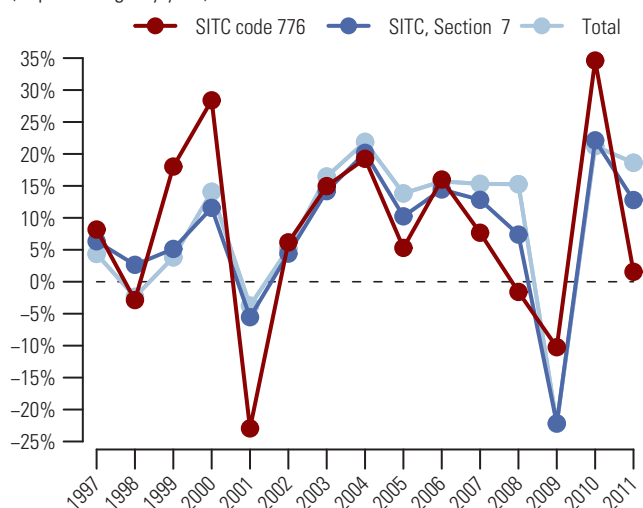

In 2011, Singapore, China and China, Hong Kong SAR were the top exporting countries or areas (see table 2), accounting respectively for 15.1, 12.6 and 12.4 percent of world exports. Top destinations were China, China, Hong Kong SAR and Singapore (see table 3). By MDG regions (see graph 2), Eastern Asia accounted for a majority of trade in thermionic, microcircuits, transistors, valves, cathodes, diodes, etc (SITC group 776). In 2011, its exports and imports were valued respectively at 249.0 bln US\$ and 348.4 bln US\$, resulting in a trade deficit of 99.4 bln US\$. Major trade deficits were also recorded by Developed Europe (-28.4 bln US\$) and Latin America and the Caribbean (-17.8 bln US\$). Top trade surpluses were recorded by South-eastern Asia (+29.0 bln US\$), Developed Asia-Pacific (+20.6 bln US\$) and Developed North America (+3.0 bln US\$).

778 Electrical machinery and apparatus, nes

Following a 18.9 percent decline in 2009 and recovery by 25.9 percent in 2010, the value (in current prices) of exports of electrical machinery and apparatus, nes (SITC group 778) further grew by 12.6 percent to 224.0 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports grew by 13.9 percent in 2011 and totaled 223.6 bln US\$ (see tables 1 and 3). Graph 1 shows that the growth in exports for 2011 in this product group was slightly exceeded by both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of electrical machinery and apparatus, nes (SITC group 778) accounted for 3.9 percent of world exports of SITC section 7 and 1.3 percent of total world exports in 2011 (see table 1).

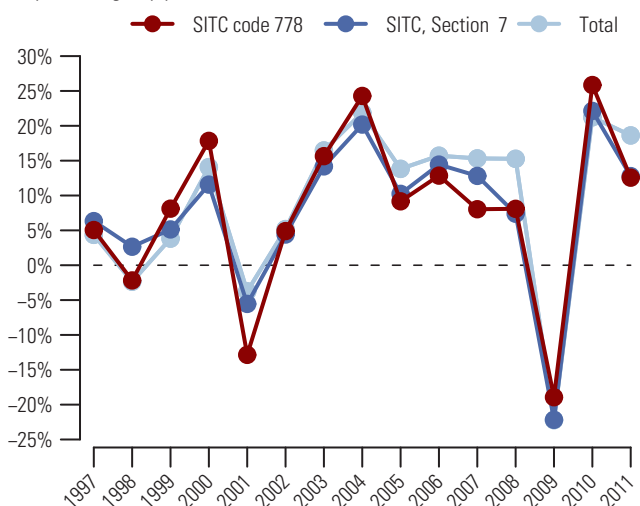

In 2011, China, Japan and Germany were the top exporting countries (see table 2). They accounted respectively for 20.9, 10.3 and 9.3 percent of world exports. Top destinations were USA, China and Germany (see table 3). By MDG regions (see graph 2), Eastern Asia's exports and imports were valued respectively at 79.3 bln US\$ and 51.7 bln US\$, resulting in a significant trade surplus of 27.6 bln US\$. Another major trade surplus was recorded by trade with Developed Asia-Pacific (+13.7 bln US\$). Top trade deficits were recorded by Developed North America (-16.5 bln US\$), Latin America and the Caribbean (-6.3 bln US\$) and Western Asia (-5.5 bln US\$).

Cars, other motor vehicles principally designed for the transports of persons 781

After a sharp decline of 31.1 percent in 2009, the value (in current prices) of exports of cars, other motor vehicles principally designed for the transports of persons (SITC group 781) bounced back in 2010 by 27.4 percent and further grew by 14.6 percent to 640.5 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports increased by 15.6 percent in 2011 totaling 632.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was slightly above the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but below the increase in total world exports of 18.6 percent. Exports of cars, other motor vehicles principally designed for the transports of persons (SITC group 781) accounted for 11.0 percent of world exports of SITC section 7 and 3.6 percent of total world exports in 2011 (see table 1).

In 2011, Germany, Japan and USA were the top exporting countries (see table 2), accounting respectively for 24.1, 13.6 and 7.6 percent of world exports. USA, Germany and China were among the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in cars, other motor vehicles principally designed for the transports of persons (SITC group 781). In 2011, its exports amounted to 345.0 bln US\$ while imports was valued at 263.1 bln US\$, resulting in a trade surplus of 81.9 bln US\$. Developed Asia-Pacific recorded a trade surplus of 63.2 bln US\$. Top trade deficits were recorded by Developed North America (-60.1 bln US\$) and Western Asia (-32.9 bln US\$).

782 Motor vehicles for the transport of goods; special-purpose motor vehicles

Despite a sharp decline in 2009 of 40.6 percent, the value (in current prices) of motor vehicles for the transport of goods, special-purpose motor vehicles (SITC group 782) bounced back in 2010 and continued to grow by 22.3 percent to 128.3 bln US\$ in 2011 (see tables 1 and 2). Imports, after a 39.3 percent drop in 2009 and recovery by 28.9 percent in 2010, further increased by 20.7 percent to 131.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group exceeded both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of motor vehicles for the transport of goods, special-purpose motor vehicles (SITC group 782) accounted for 2.2 percent of world exports of SITC section 7 and 0.7 percent of total world exports (see table 1).

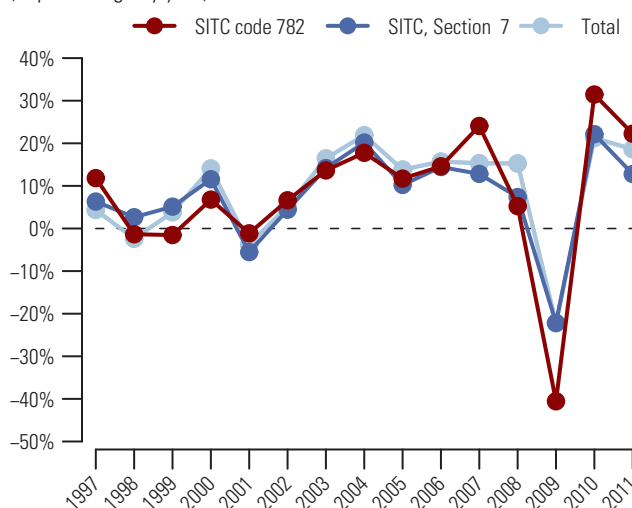

In 2011, the top exporting countries were USA, Germany and Mexico (see table 2), accounting respectively for 14.9, 12.2 and 9.7 percent of world exports. USA, Canada and Germany were the top destinations in 2011 (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in motor vehicles for the transport of goods, special-purpose motor vehicles (SITC group 782). In 2011, its exports were valued at 51.3 bln US\$ while imports amounted to 42.9 bln US\$, resulting in a trade surplus of 8.4 bln US\$. Major trade surpluses were also recorded by Developed Asia-Pacific and Eastern Asia (both at +4.6 bln US\$). Top trade deficits were recorded by Developed North America (-6.7 bln US\$), Sub-Saharan Africa (-6.5 bln US\$) and Northern Africa (-3.1 bln US\$).

After reaching the peak of 49.9 bln US\$ in 2008, the export value (in current prices) of road motor vehicles, nes (SITC group 783) dropped by 49.9 percent in 2009 but recovered in 2010 and continued to grow by 41.5 percent in 2011 to 46.3 bln US\$, still below its 2008 peak level (see tables 1 and 2). Similarly, imports showed a 39.9 percent increase in 2011 and amounted to 42.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group well exceeded both increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of road motor vehicles, nes (SITC group 783) accounted for 0.8 percent of world exports of SITC section 7 and 0.3 percent of total world exports (see table 1).

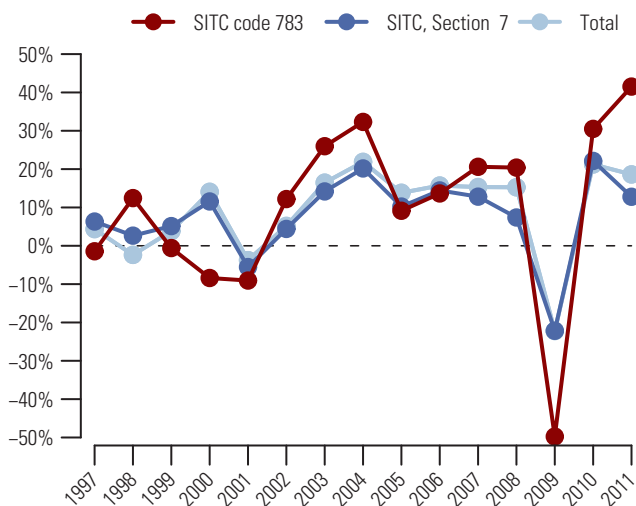

The top exporting countries in 2011 were Germany, Mexico and Netherlands (see table 2), accounting respectively for 16.2, 11.9 and 11.5 percent of world exports. USA, Canada and Russian Federation were the top destinations (see tables 1 and 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in road motor vehicles, nes (SITC group 783). In 2011, its exports were valued at 25.4 bln US\$ while imports amounted to 14.8 bln US\$, resulting in a trade surplus of 10.6 bln US\$. Major trade surpluses were also recorded by Eastern Asia (+3.0 bln US\$) and Developed Asia-Pacific (+2.9 bln US\$). Top trade deficits were recorded by Developed North America (-3.6 bln US\$), Sub-Saharan Africa (-2.8 bln US\$) and Commonwealth of Independent States (-2.5 bln US\$).

784 Parts and accessories of the motor vehicles of 722, 781, 782 and 783

In 2011, the value (in current prices) of exports of parts and accessories of motor vehicles (SITC group 784) grew by 17.7 percent and amounted to 354.5 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 18.8 percent in 2011 reaching 346.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent but fell slightly below the increase in total world exports of 18.6 percent. Exports of parts and accessories of motor vehicles (SITC group 784) accounted for 6.1 percent of world exports of SITC section 7 and 2.0 percent of total world exports in 2011 (see table 1).

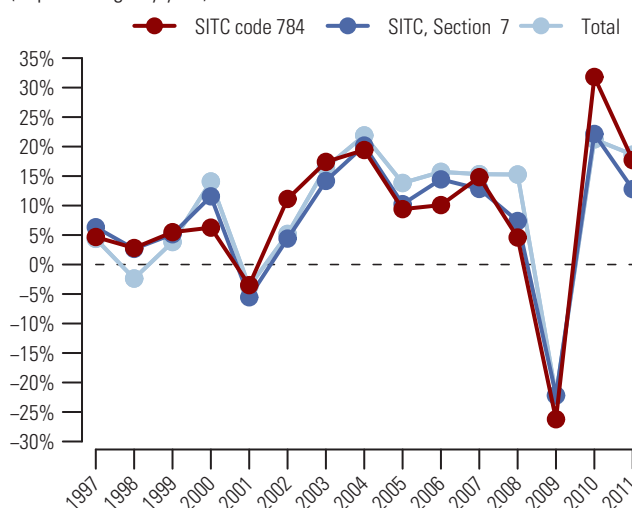

Germany, Japan and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 15.5, 10.9 and 10.8 percent of world exports. USA and Germany were also among the top importing countries in 2011, together with China (see table 3). By MDG regions (see graph 2), Developed Europe was the origin and the destination of a majority of trade in parts and accessories for motor vehicles (SITC group 784). In 2011, its exports and imports were valued respectively at 170.8 bln US\$ and 152.5 bln US\$, resulting in a trade surplus of 18.3 bln US\$. A larger share of trade surplus was recorded by Developed Asia-Pacific (+30.5 bln US\$). Top trade deficits were recorded by Developed North America (-22.6 bln US\$), Commonwealth of Independent States (-13.3 bln US\$) and Latin America and the Caribbean (-8.5 bln US\$).

Motorcycles and cycles motorized and non-motorized; invalid carriages 785

After a 24.5 percent drop in 2009, the value (in current prices) of exports of motorcycles and cycles motorized and non-motorized, invalid carriages (SITC group 785) bounced back in 2010 and further grew by 16.7 percent to 46.6 bln US\$ in 2011 (see tables 1 and 2). Similarly, after a drop of 23.0 percent in 2009 and gradual recovery in 2010, imports showed a 17.0 percent increase in 2011 and amounted to 43.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group exceeded the increase of 12.8 percent in world exports of machinery and transport equipment (SITC section 7) but fell under the increase of 18.6 percent in total world exports. Exports of motorcycles and cycles motorized and non-motorized, invalid carriages (SITC group 785) accounted for 0.8 percent of world exports of SITC section 7 and 0.3 percent of total world exports in 2011 (see table 1).

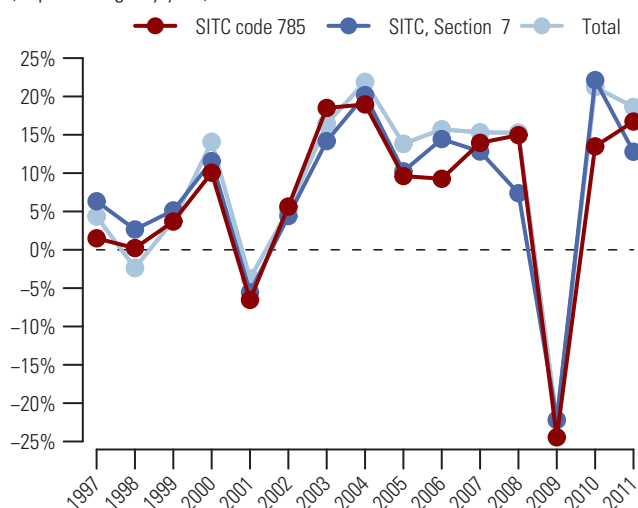

In 2011, China and Japan were the top exporting countries (see table 2). They accounted respectively for 28.8 and 11.4 percent of world exports. Top destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), Eastern Asia and Developed Asia-Pacific recorded trade surpluses amounting respectively to 15.8 bln US\$ and 2.2 bln US\$. Top trade deficits were recorded by Developed Europe (-5.7 bln US\$), Developed North America (-3.4 bln US\$) and Latin America and the Caribbean (-3.3 bln US\$).

786 Trailers, semi-trailers; other vehicles, not mechanically propelled

Following the sharp decline of 53.2 percent in 2009 and recovery in 2010, the export value (in current prices) of trailers, semi-trailers, other vehicles, not mechanically propelled (SITC group 786) grew again by a significant 42.1 percent and reached 36.3 bln US\$ in 2011 (see tables 1 and 2). Similarly, the value of imports in 2011 showed an increase of 36.4 percent amounting to 25.2 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group well exceeded the increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of trailers, semi-trailers, other vehicles, not mechanically propelled (SITC group 786) accounted for 0.6 percent of world exports of SITC section 7 and 0.2 percent of total world exports in 2011 (see table 1).

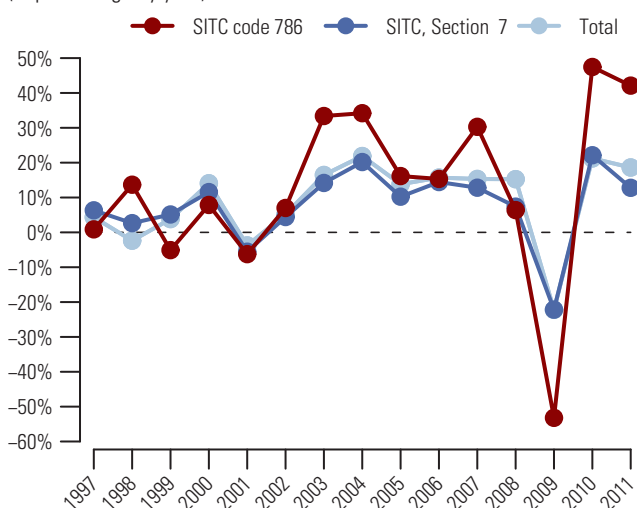

In 2011, China was the top exporting country, representing over one third (39.3 percent) of world exports (see table 2). Other major exporting countries were Germany and USA, respectively with 17.2 and 9.6 percent of world exports. USA, Canada and Germany were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in trailers, semi-trailers, other vehicles, not mechanically propelled (SITC group 786). In 2011, its exports and imports were valued respectively at 14.8 bln US\$ and 12.0 bln US\$, resulting in a trade surplus of 2.8 bln US\$. A larger trade surplus was recorded by Eastern Asia (+14.1 bln US\$). Top trade deficits were recorded by Commonwealth of Independent States (-1.5 bln US\$) and Developed North America (-1.4 bln US\$).

Railway vehicles (including hovertrains) and associated equipment 791

In 2011, the value (in current prices) of exports of railway vehicles and associated equipment (SITC group 791) rose by 17.6 percent and amounted to 28.9 bln US\$ (see tables 1 and 2). Similarly, imports increased by a significant 21.7 percent in 2011 and reached its peak level at 28.3 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase of 12.8 percent in world exports of machinery and transport equipment (SITC section 7) but fell below the increase of 18.6 percent in total world exports. Exports of railway vehicles and associated equipment (SITC group 791) accounted for 0.5 percent of world exports of SITC section 7 and 0.2 percent of total world exports in 2011 (see table 1).

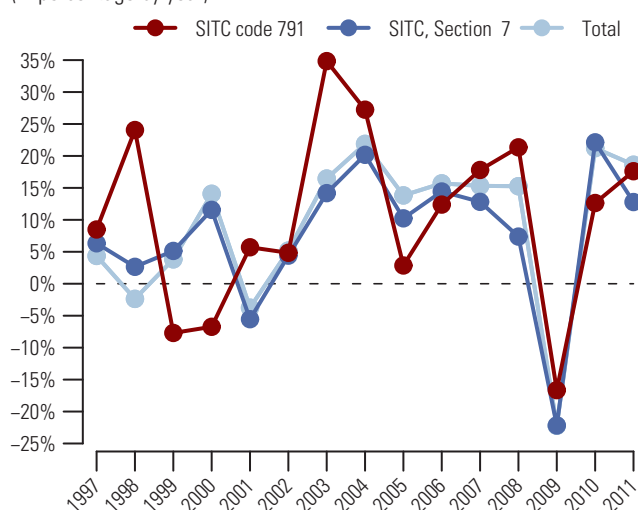

Germany, Ukraine and USA were the top exporting countries in 2011 (see table 2), accounting respectively for 15.9, 13.1 and 10.3 percent of world exports. Russian Federation, China and Germany were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in railway vehicles and associated equipment (SITC group 791). In 2011, its exports amounted to 14.2 bln US\$ while imports to 9.6 bln US\$, resulting in a trade surplus of 4.6 bln US\$. Top trade deficits were recorded by Commonwealth of Independent States (-1.6 bln US\$), Western Asia (-1.3 bln US\$) and Southern Asia (-0.8 bln US\$).

792 Aircraft and associated equipment; spacecraft and their launch vehicles; parts

Following a 35.4 percent drop in 2009, the value (in current prices) of exports of aircraft and associated equipment, spacecraft and their launch vehicles, parts (SITC group 792) gradually recovered in 2010 and further grew by 12.6 percent in 2011 amounting to 155.1 bln US\$ (see tables 1 and 2). Imports showed a similar development and went up by 10.9 percent in 2011 to 173.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of aircraft and associated equipment, spacecraft and their launch vehicles, parts (SITC group 792) accounted for 2.7 percent of world exports of SITC section 7 and 0.9 percent of total world exports in 2011 (see table 1).

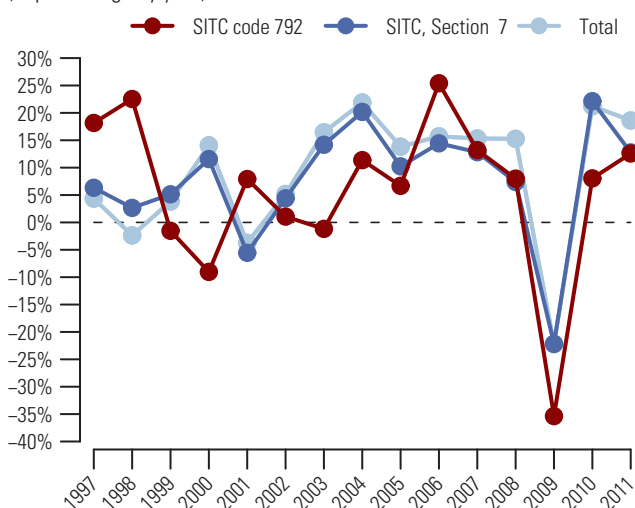

In 2011, France was the top exporting country, accounting for nearly one third (32.1 percent) of world exports (see table 2). Other major exporting countries were Germany and Canada, respectively with 23.9 and 6.3 percent of world exports. France, Germany and USA were the top importing countries (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in aircraft and associated equipment, spacecraft and their launch vehicles, parts (SITC group 792). In 2011, its exports amounted to 106.2 bln US\$ while imports to 71.6 bln US\$, resulting in a large trade surplus of 34.6 bln US\$. Top trade deficits were recorded by Eastern Asia (-16.7 bln US\$), Western Asia (-11.4 bln US\$) and Developed North America (-10.3 bln US\$).

Ships, boats (including hovercraft) and floating structures 793

From 2007 to 2011, the value (in current prices) of exports of ships, boats and floating structures (SITC group 793) increased on average by 15.3 percent each year and amounted to 187.4 bln US\$ in 2011 (see tables 1 and 2). Similarly, during the same period, imports went up on average by 9.1 percent each year to 72.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase of 9.5 percent in exports for 2011 in this product group was exceeded by the increases in world exports of machinery and transport equipment (SITC section 7) of 12.8 percent and in total world exports of 18.6 percent. Exports of ships, boats and floating structures (SITC group 793) accounted for 3.2 percent of world exports of SITC section 7 and 1.1 percent of total world exports in 2011 (see table 1).

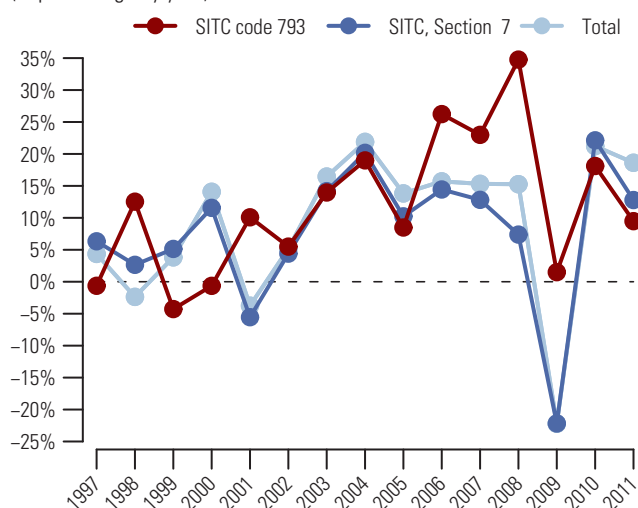

In 2011, the top exporting countries were Rep. of Korea, China and Japan (see table 2), accounting respectively for 28.9, 23.3 and 13.9 percent of world exports. Germany, Norway and Russian Federation were the top importing destinations (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus amounting to 93.5 bln US\$ in 2011. Major trade surpluses were also recorded by Developed Asia-Pacific (+23.9 bln US\$) and Southern Asia (+3.3 bln US\$). Top trade deficits were recorded by Developed Europe (-3.4 bln US\$), Commonwealth of Independent States (-3.1 bln US\$) and Latin America and the Caribbean (-0.9 bln US\$).

**Miscellaneous manufactured articles
(SITC Section 8)**

811 Prefabricated buildings

After recovering from a sharp decline in 2009, the value (in current prices) of prefabricated buildings (SITC group 811) continued to grow by 18.6 percent in 2011 and amounted to 8.6 bln US\$ (see tables 1 and 2). Imports, with a similar development, showed a significant increase of 23.4 percent amounting to 7.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group exceeded the increase in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and matched the increase in total world exports of 18.6 percent. Exports of prefabricated buildings (SITC group 811) accounted for 0.5 percent of world exports of SITC section 8 and less than 0.1 percent of total world exports (see table 1).

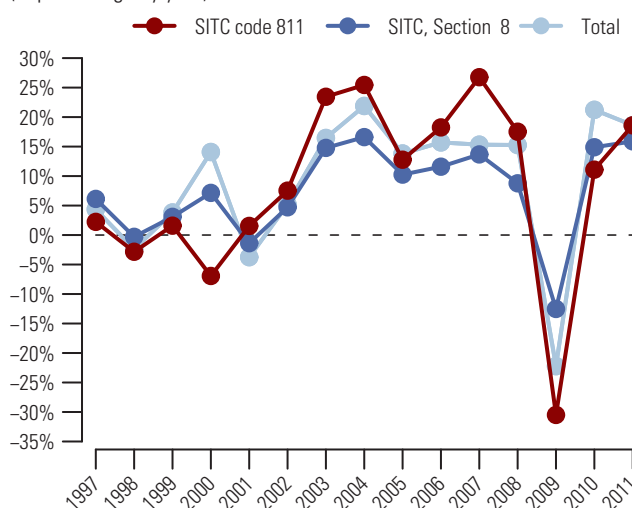

In 2011, China, USA and Germany were the top exporting countries (see table 2), accounting respectively for 17.4, 11.3 and 8.1 percent of world exports. Top destinations were Canada, Germany and Norway (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in prefabricated buildings (SITC group 811). In 2011, its exports amounted to 4.4 bln US\$ while imports reached 2.7 bln US\$. This resulted in a trade surplus of 1.7 bln US\$. Eastern Asia recorded a trade surplus amounting to 1.4 bln US\$. Top trade deficits were recorded by Commonwealth of Independent States (-0.7 bln US\$), Sub-Saharan Africa (-0.6 bln US\$) and Latin America and the Caribbean (-0.5 bln US\$).

Sanitary, plumbing and heating fixtures and fittings, nes 812

Following a 20.1 percent drop in 2009, the value (in current prices) of exports of sanitary, plumbing and heating fixtures and fittings, nes (SITC group 812) slowly recovered in 2010 and further grew by 11.1 percent in 2011 to 15.1 bln US\$ (see tables 1 and 2). Similarly, imports showed an increase of 11.4 percent and amounted to 15.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of sanitary, plumbing and heating fixtures and fittings, nes (SITC group 812) accounted for 0.8 percent of world exports of SITC section 8 and 0.1 percent of total world exports in 2011 (see table 1).

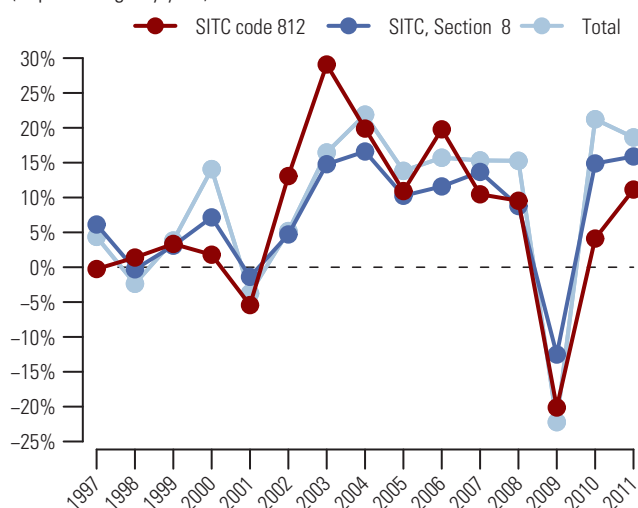

Germany, Italy and China were the top exporting countries in 2011, representing respectively 18.0, 11.7 and 7.3 percent of world exports (see table 2). Top destinations were Germany, United Kingdom and USA (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in sanitary, plumbing and heating fixtures and fittings, nes (SITC group 812). In 2011, its exports and imports were valued respectively at 10.3 bln US\$ and 9.6 bln US\$, resulting in a trade surplus of 0.7 bln US\$. Major trade surpluses were also recorded by Eastern Asia (+0.9 bln US\$) and Western Asia (+0.3 bln US\$). Top trade deficits were recorded by Developed North America (-1.2 bln US\$), Commonwealth of Independent States (-0.9 bln US\$) and Developed Asia-Pacific (-0.2 bln US\$).

813 Lighting fixtures and fittings, nes

During the last five years, the value (in current prices) of exports of lighting fixtures and fittings, nes (SITC group 813) increased on average by 8.2 percent each year and reached its peak at 34.0 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports showed an average increase of 4.6 percent during the same period and amounted to 33.4 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group well exceeded both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of lighting fixtures and fittings, nes (SITC group 813) accounted for 1.8 percent of world exports of SITC section 8 and 0.2 percent of total world exports in 2011 (see table 1).

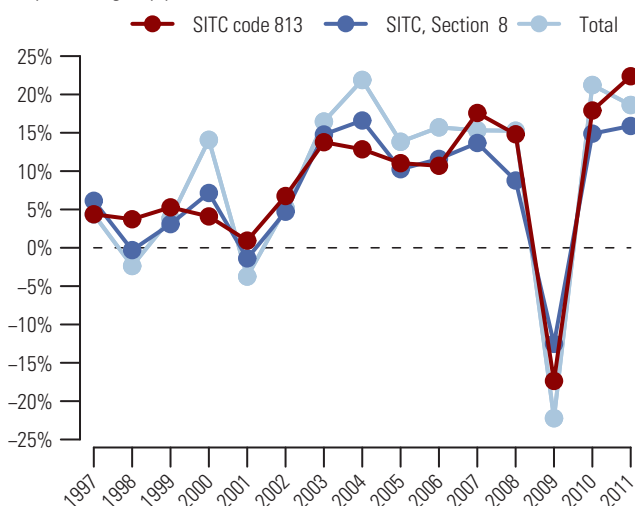

China was the top exporting country in 2011 and accounted for more than a third (41.3 percent) of world exports (see table 2). Other major exporting countries were Germany and Italy, respectively with 9.6 and 5.8 percent of world exports. Top importing destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), Eastern Asia accounted for a majority of exports of lighting fixtures and fittings, nes (SITC group 813). In 2011, its exports amounted to 15.8 bln US\$ while imports was valued at 1.6 bln US\$, resulting in a large share of trade surplus of 14.2 bln US\$. Top trade deficits were recorded by Developed North America (-6.1 bln US\$), Developed Europe (-1.8 bln US\$) and Developed Asia-Pacific (-1.7 bln US\$).

Furniture and parts thereof; stuffed furnishings 821

Despite a decline of 17.5 percent in 2009, the export value (in current prices) of furniture and parts thereof, stuffed furnishings (SITC group 821) bounced back in 2010 and further grew by 13.2 percent to 145.9 bln US\$ (see tables 1 and 2). Similarly, imports went up by 10.0 percent in 2011 and amounted to 143.0 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase of exports in 2011 for this product group was exceeded by the increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of furniture and parts thereof, stuffed furnishings (SITC group 821) accounted for 7.7 percent of world exports of SITC section 8 and 0.8 percent of total world exports in 2011 (see table 1).

In 2011, China was the top exporting country, representing nearly one third (30.7 percent) of world exports (see table 2). Other major exporting countries included Germany and Italy, respectively with 8.9 and 7.9 percent of world exports. USA, Germany and France were the top destinations (see table 3). By MDG regions (see graph 2), Developed Europe's exports and imports amounted respectively to 63.0 bln US\$ and 64.2 bln US\$, resulting in a trade deficit of 1.2 bln US\$. Major trade deficits were also recorded by Developed North America (-31.3 bln US\$) and Developed Asia-Pacific (-8.0 bln US\$). Top trade surpluses were recorded by Eastern Asia (+42.1 bln US\$), South-eastern Asia (+6.7 bln US\$) and South-eastern Europe (+2.0 bln US\$).

831 Travel goods, handbags, etc, of leather, plastics, textile, others

From 2007 to 2011, the export value (in current prices) of travel goods, handbags, etc (SITC group 831) increased on average by 13.1 percent each year, and with a further 29.6 percent growth in 2011, amounted to its peak at 52.9 bln US\$ (see tables 1 and 2). Imports showed a similar development with an increase of 20.6 percent in 2011 to 52.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group significantly exceeded both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of travel goods, handbags, etc (SITC group 831) accounted for 2.8 percent of world exports of SITC section 8 and 0.3 percent of total world exports in 2011 (see table 1).

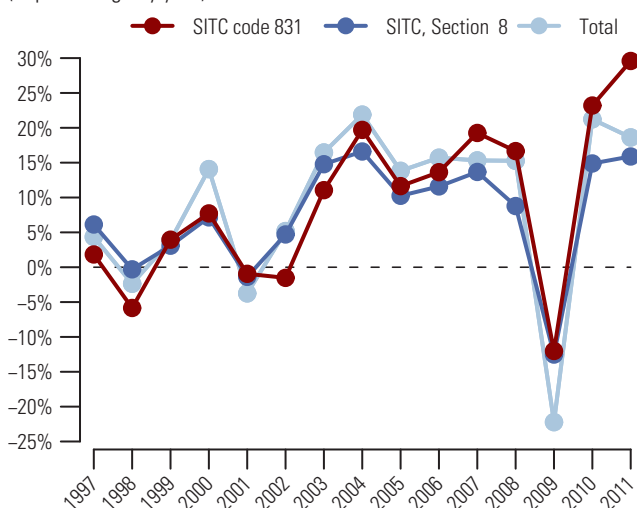

In 2011, exports of China further increased by 32.9 percent and represented more than a third (45.6 percent) of world exports (see table 2). Other major exporting countries or areas were China, Hong Kong SAR and France, respectively with 11.6 and 10.2 percent of world exports. USA, China, Hong Kong SAR and Japan were the top destinations (see table 3). By MDG regions (see graph 2), Eastern Asia accounted for a majority of exports of travel goods, handbags, etc (SITC group 831). In 2011, its exports amounted to 30.4 bln US\$ while imports was valued at 9.5 bln US\$, resulting in a trade surplus of 20.9 bln US\$. Top deficits were recorded by Developed North America (-9.5 bln US\$), Developed Asia-Pacific (-6.0 bln US\$) and Latin America and the Caribbean (-1.7 bln US\$).

Men's or boys' outerwear, of textile fabrics, not knitted or crocheted 841

After a 14.6 percent decline in 2009, the export value (in current prices) of men's or boys' outerwear, of textile fabrics, not knitted or crocheted (SITC group 841) gradually recovered in 2010 and further grew by 19.7 percent in 2011 amounting to its peak at 69.6 bln US\$ (see tables 1 and 2). Similarly, imports showed a 20.5 percent increase and reached 69.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group exceeded both the increase in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and the increase in total world exports of 18.6 percent. Exports of men's or boys' outerwear, of textile fabrics, not knitted or crocheted (SITC group 841) accounted for 3.7 percent of world exports of SITC section 8 and 0.4 percent of total world exports (see table 1).

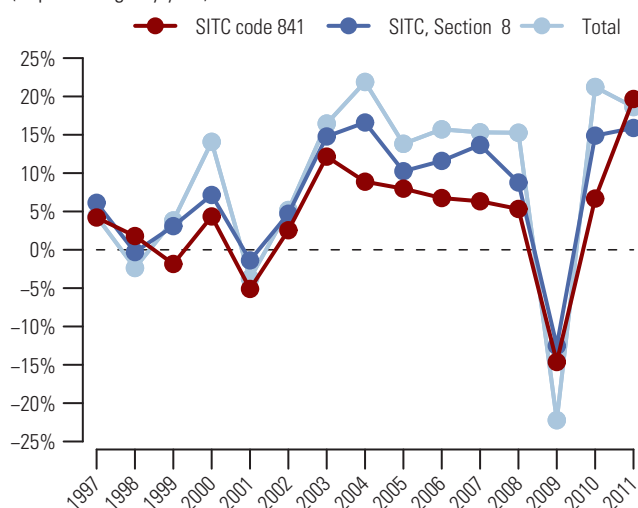

In 2011, China was the top exporting country and accounted for nearly one third (30.2 percent) of world exports (see table 2). Other major exporting countries were Bangladesh and Germany. Top destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a large share of trade in men's or boys' outerwear, of textile fabrics, not knitted or crocheted (SITC group 841). In 2011, its exports amounted to 19.4 bln US\$ and imports to 33.1 bln US\$, resulting in a trade deficit of 13.7 bln US\$. A larger trade deficit was recorded by Developed North America (-15.1 bln US\$). Top trade surpluses were recorded by Eastern Asia (+19.0 bln US\$), Southern Asia (+8.2 bln US\$) and South-eastern Asia (+5.3 bln US\$).

842 Women's or girls' outerwear, of textile fabrics, not knitted or crocheted

Following a 13.7 percent decline in 2009, the value (in current prices) of exports of women's or girls' outerwear of textile fabrics, not knitted or crocheted (SITC group 842) slowly recovered in 2010 and further grew by 14.2 percent in 2011 amounting to 82.1 bln US\$ (see tables 1 and 2). Imports, with a similar development, increased by 12.6 percent to reach its peak level at 84.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of women's or girls' outerwear of textile fabrics, not knitted or crocheted (SITC group 842) accounted for 4.3 percent of world exports of SITC section 8 and 0.5 percent of total world exports in 2011 (see table 1).

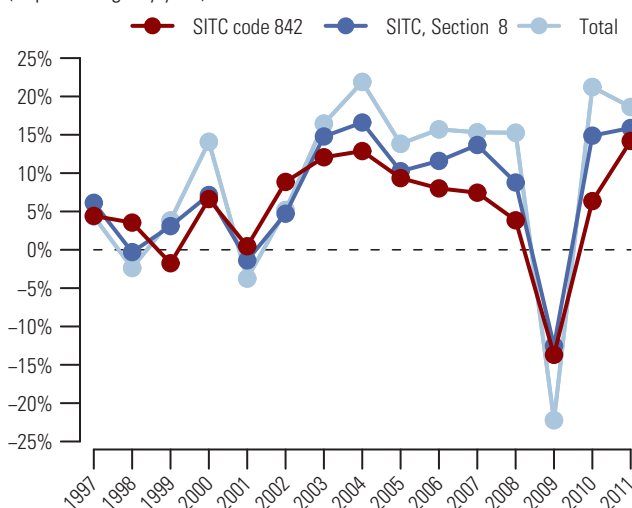

China was the top exporting country in 2011, representing nearly one third (32.3 percent) of world exports (see table 2). Other major exporting countries or areas were Italy and China, Hong Kong SAR, respectively with 6.8 and 6.2 percent of world exports. Top destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus amounting to 25.5 bln US\$. Major trade surpluses were also recorded by Southern Asia (+8.0 bln US\$) and South-eastern Asia (+4.6 bln US\$). Top trade deficits were recorded by Developed North America (-16.9 bln US\$), Developed Europe (-16.0 bln US\$) and Developed Asia-Pacific (-8.4 bln US\$).

Men's or boys' outerwear, of textile fabrics, knitted or crocheted 843

After several years of continuous growth marked by a peak of 24.2 bln US\$ in 2008, the value (in current prices) of exports of men's or boys' outerwear of textile fabrics, knitted or crocheted (SITC group 843) decreased by 13.1 percent in 2009 but bounced back in 2010 and further increased by 22.2 percent in 2011 to 29.5 bln US\$ (see tables 1 and 2). Similarly, imports increased by 20.3 percent amounting to 22.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase of 22.2 percent in exports for 2011 in this product group exceeded the increases of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8) and 18.6 percent in total world exports. Exports of men's or boys' outerwear of textile fabrics, knitted or crocheted (SITC group 843) accounted for 1.6 percent of world exports of SITC section 8 and 0.2 percent of total world exports in 2011 (see table 1).

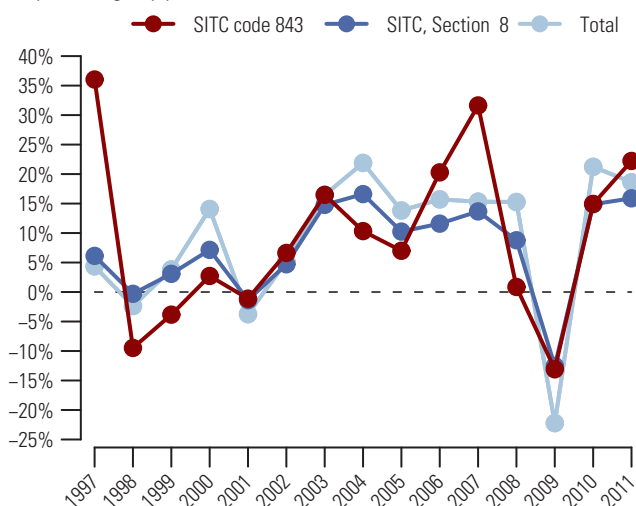

In 2011, China was the top exporting country and represented 45.0 percent of world exports (see table 2). Other major exporting countries or areas were India and China, Hong Kong SAR. USA was the top destination in 2011, accounting for 27.3 percent of world imports (see table 3). Other major importing countries were Japan and Germany. By MDG regions (see graph 2), top trade surpluses were recorded by Eastern Asia (+12.9 bln US\$), Southern Asia (+3.7 bln US\$) and South-eastern Asia (+3.1 bln US\$). Top trade deficits were recorded by Developed North America (-6.3 bln US\$), Developed Europe (-4.4 bln US\$) and Developed Asia-Pacific (-2.0 bln US\$).

844 Women's or girls' outerwear, of textile fabrics, knitted or crocheted

In 2011, the value (in current prices) of exports of women's or girls' outerwear, of textile fabrics, knitted or crocheted (SITC group 844) continued to grow by 17.6 percent and amounted to its peak level of 53.4 bln US\$ (see tables 1 and 2). Similarly, imports showed a 13.6 percent increase and reached 41.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was slightly above the increase of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8) but below the increase of 18.6 percent in total world exports. Exports of women's or girls' outerwear, of textile fabrics, knitted or crocheted (SITC group 844) accounted for 2.8 percent of world exports of SITC section 8 and 0.3 percent of total world exports (see table 1).

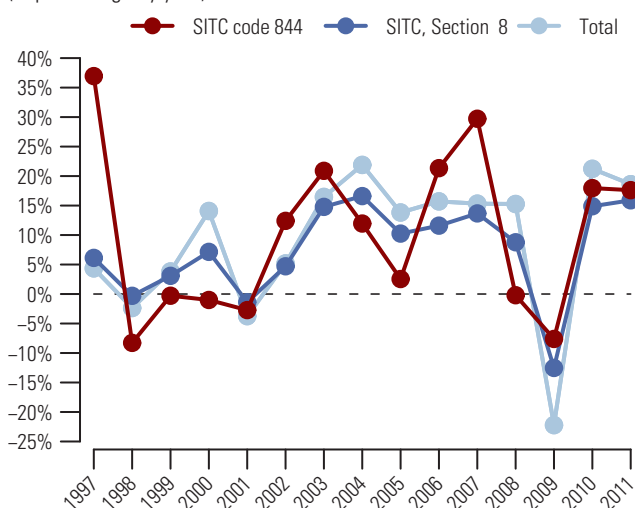

China was the top exporting country in 2011 and accounted for nearly half (46.5 percent) of world exports (see table 2). Other major exporting countries or areas were China, Hong Kong SAR and Turkey, respectively with 4.9 and 3.8 percent of world exports. USA, Germany and Japan were the top destinations in 2011 (see table 3). By MDG regions (see graph 2), Eastern Asia accounted for a majority of exports of women's or girls' outerwear, of textile fabrics, knitted or crocheted (SITC group 844). Its exports amounted to 27.7 while imports was valued at 2.8 bln US\$, resulting in a significant trade surplus of 24.9 bln US\$. Major trade surplus was also recorded by South-eastern Asia (+4.6 bln US\$). Top trade deficits were recorded by Developed North America (-10.1 bln US\$) and Developed Europe (-9.0 bln US\$).

Articles of apparel, of textile fabrics, whether or not knitted or crocheted, nes 845

From 2007 to 2011, the value (in current prices) of exports of articles of apparel, of textile fabrics, whether or not knitted or crocheted, nes (SITC group 845) increased on average by 3.8 percent each year and amounted to its peak of 139.3 bln US\$ in 2011 after a 15.4 percent increase (see tables 1 and 2). During the same period, imports showed an average increase of 4.5 percent and in 2011, went up by 14.2 percent to 138.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of articles of apparel, of textile fabrics, whether or not knitted or crocheted, nes (SITC group 845) accounted for 7.3 percent of world exports of SITC section 8 and 0.8 percent of total world exports in 2011 (see table 1).

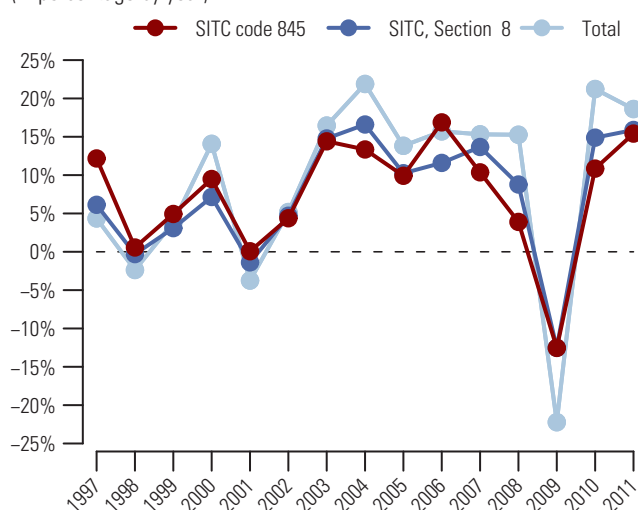

In 2011, China was the top exporting country and accounted for nearly a third (33.0 percent) of world exports (see table 2). Other major exporting countries or areas were China, Hong Kong SAR and Bangladesh, respectively with 7.5 and 5.3 percent of world exports. The top destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a sizable trade surplus of 47.0 bln US\$ in 2011. Major trade surpluses were also recorded by Southern Asia (+12.7 bln US\$) and South-eastern Asia (+9.1 bln US\$). Top trade deficits were recorded by Developed North America (-32.1 bln US\$), Developed Europe (-27.5 bln US\$) and Developed Asia-Pacific (-12.7 bln US\$).

846 Clothing accessories, of textile fabrics, whether or not knitted or crocheted

Despite a 10.1 percent decline in 2009, the export value (in current prices) of clothing accessories, of textile fabrics, whether or not knitted or crocheted (SITC group 846) bounced back by 14.8 percent in 2010 and further grew by 18.4 percent amounting to 29 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports showed a 18.3 percent increase and reached 26.7 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group went slightly above the increase in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent but fell below the increase in total world exports of 18.6 percent. Exports of clothing accessories, of textile fabrics, whether or not knitted or crocheted (SITC group 846) accounted for 1.5 percent of world exports of SITC section 8 and 0.2 percent of total world exports (see table 1).

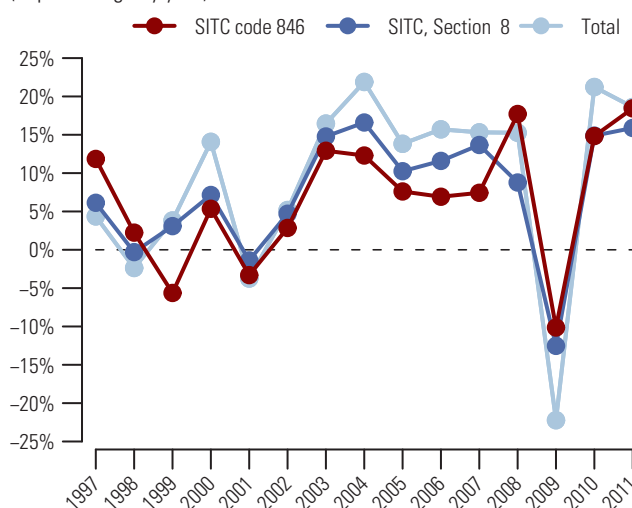

Exports of China, the top exporting country in 2011, further grew by 22.8 percent and accounted for more than a third (40.3 percent) of world exports (see table 2). Other major exporting countries were Italy and Germany, respectively with 9.5 and 4.6 percent of world exports. Top destinations were USA, Germany and Japan (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Eastern Asia (+12.2 bln US\$) and Southern Asia (+1.6 bln US\$). Top trade deficits were recorded by Developed North America (-4.2 bln US\$), Developed Europe (-3.3 bln US\$) and Developed Asia-Pacific (-2.7 bln US\$).

Articles of apparel, and clothing accessories not textile fabrics; headgear 848

During the last five years, the value (in current prices) of exports of articles of apparel, and clothing accessories not textile fabrics; headgear (SITC group 848) grew on average by 8.4 percent each year and amounted to 29.7 bln US\$ in 2011 after a further increase of 20.0 percent (see tables 1 and 2). With a similar development, imports showed an average increase of 7.1 percent during the same period, and reached 29.2 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and the increase in total world exports of 18.6 percent. Exports of articles of apparel, and clothing accessories not textile fabrics; headgear (SITC group 848) accounted for 1.6 percent of world exports of SITC section 8 and 0.2 percent of total world exports in 2011 (see table 1).

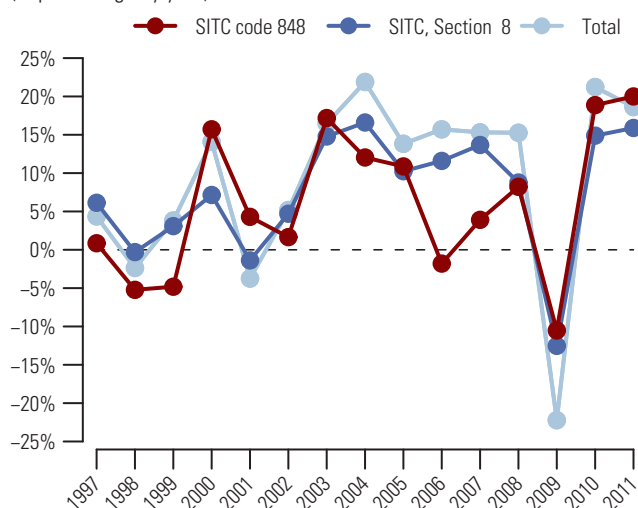

In 2011, China was the top exporting country and accounted for over one third (35.5 percent) of world exports (see table 2). Other major exporting countries were Malaysia and Italy, respectively representing 11.3 and 6.9 percent of world exports. USA, Germany and Japan were the top destinations (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Eastern Asia (+10.1 bln US\$), South-eastern Asia (+4.6 bln US\$) and Southern Asia (+1.6 bln US\$). Top trade deficits were recorded by Developed North America (-6.9 bln US\$), Developed Europe (-4.0 bln US\$) and Developed Asia-Pacific (-2.2 bln US\$).

851 Footwear

After a drop of 11.2 percent in 2009 and recovery in 2010 by a 17.8 percent increase, the export value (in current prices) of footwear (SITC group 851) further grew in 2011 by 17.5 percent and reached its peak of 112.7 bln US\$ (see tables 1 and 2). Imports showed a similar development and went up by 14.2 percent amounting to 114.3 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8) but was slightly below the increase in total world exports of 18.6 percent. Exports of footwear (SITC group 851) accounted for 5.9 percent of world exports of SITC section 8 and 0.6 percent of total world exports in 2011 (see table 1).

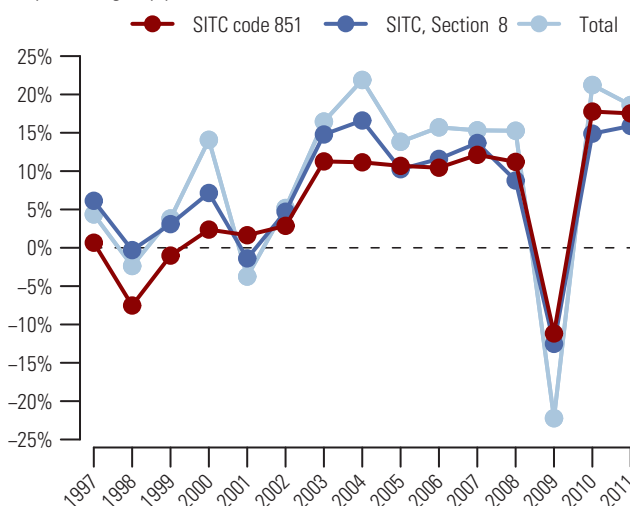

In 2011, China was the top exporting country and represented more than a third (37.0 percent) of world exports (see table 2). Other major exporting countries were Italy and Viet Nam, respectively with 10.2 and 5.3 percent of world exports. USA, Germany and France were the top destinations in 2011 (see table 3). By MDG regions (see graph 2), Eastern Asia recorded an increasing trade surplus amounting to 39.1 bln US\$ in 2011. Major trade surpluses were also recorded by South-eastern Asia (+8.9 bln US\$) and Southern Asia (+2.1 bln US\$). Top trade deficits were recorded by Developed North America (-24.3 bln US\$), Developed Europe (-11.0 bln US\$) and Developed Asia-Pacific (-6.9 bln US\$).

From 2007 to 2011, the export value (in current prices) of optical instruments and apparatus, nes (SITC group 871) grew on average by 9.4 percent each year and amounted to its peak of 102.8 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports showed a milder average increase of 3.2 percent to 86.0 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase of 5.5 percent in exports for 2011 in this product group was far exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of optical instruments and apparatus, nes (SITC group 871) accounted for 5.4 percent of world exports of SITC section 8 and 0.6 percent of total world exports (see table 1).

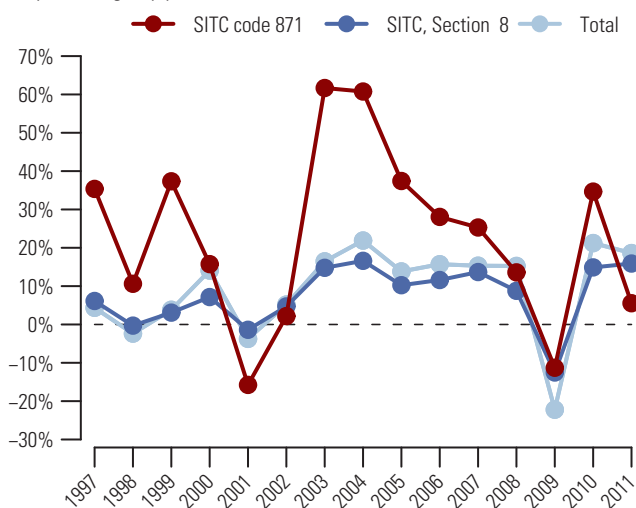

In 2011, China and Rep. of Korea were the top exporting countries (see table 2), accounting respectively for 31.3 and 27.0 percent of world exports. China was also the top destination (see table 3), accounting for a majority (62.6 percent) of world imports. Other major importing countries or areas were China, Hong Kong SAR and Rep. of Korea. By MDG regions (see graph 2), Eastern Asia accounted for a majority of trade in optical instruments and apparatus, nes (SITC group 871). In 2011, its exports and imports amounted respectively to 80.5 bln US\$ and 63.9 bln US\$, resulting in a trade surplus of 16.6 bln US\$. Top trade deficits were recorded by Latin America and the Caribbean (-3.8 bln US\$), Developed Europe (-1.7 bln US\$) and South-eastern Asia (-1.0 bln US\$).

872 Instruments and appliances, nes, for medical and veterinary sciences

In 2011, the value (in current prices) of exports of instruments and appliances, nes, for medical and veterinary sciences (SITC group 872) went up by 11.9 percent and amounted to its peak of 88.1 bln US\$ (see tables 1 and 2). Similarly, imports increased by 11.8 percent in 2011 to reach 89.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8) and 18.6 percent in total world exports. Exports of instruments and appliances, nes, for medical and veterinary sciences (SITC group 872) accounted for 4.6 percent of world exports of SITC section 8 and 0.5 percent of total world exports in 2011 (see table 1).

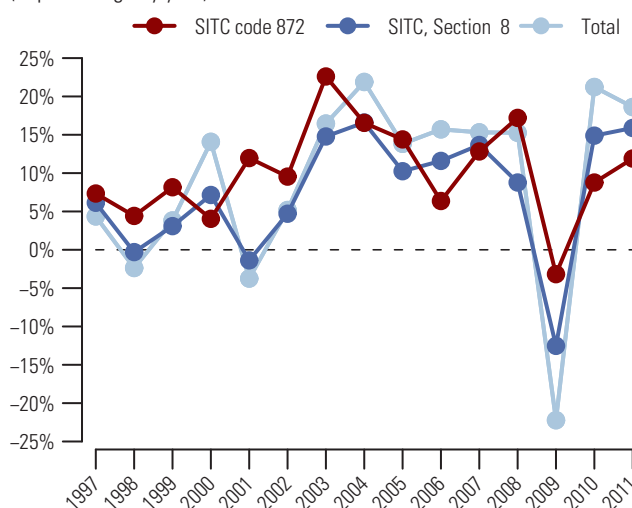

USA, Germany and Netherlands were the top exporting countries in 2011, accounting respectively for 23.0, 12.6 and 7.5 percent of world exports (see table 2). USA and Germany were also among the top importing countries, along with Japan (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Developed Europe (4.7 bln US\$), Developed North America (+2.7 bln US\$) and Eastern Asia (+1.1 bln US\$). Top trade deficits were recorded by Developed Asia-Pacific (-3.8 bln US\$), Commonwealth of Independent States (-2.8 bln US\$) and Western Asia (-1.7 bln US\$).

Despite a 13.9 percent drop in 2009, the value (in current prices) of exports of meters and counters, nes (SITC group 873) bounced back in 2010 by 21.3 percent and continued to grow by 19.2 percent in 2011 amounting to 12.0 bln US\$ (see tables 1 and 2). Similarly, imports recovered in 2010 and further grew by 20.7 percent in 2011 to reach 12.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group exceeded the increase in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent but fell slightly under the increase in total world exports of 18.6 percent. Exports of meters and counters, nes (SITC group 873) accounted for 0.6 percent of world exports of SITC section 8 and 0.1 percent of total world exports in 2011 (see table 1).

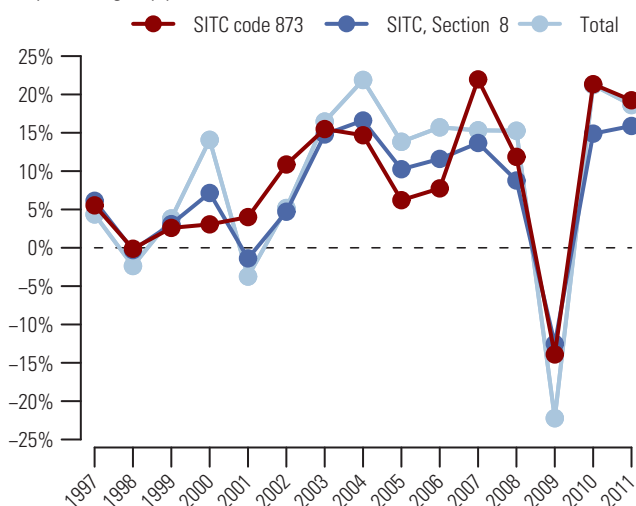

In 2011, Germany, China and Mexico were the top exporting countries (see table 2), respectively representing 13.8, 12.8 and 9.6 percent of world exports. The top destinations in 2011 were USA, Germany and France (see table 3). By MDG regions (see graph 2), Eastern Asia (+1.2 bln US\$) accounted for a majority of trade in meters and counters, nes (SITC group 873). In 2011, its exports were valued at 2.1 bln US\$, compared to 0.9 bln US\$ for imports. This resulted in a trade surplus of 1.2 bln US\$. A significant trade surplus was also recorded by Developed Europe (+1.0 bln US\$). Developed North America recorded a trade deficit amounting to 1.6 bln US\$. Other major trade deficits were recorded by Commonwealth of Independent States (-0.3 bln US\$) and Western Asia (-0.2 bln US\$).

874 Measuring, checking, analyzing and controlling instruments, apparatus nes

During the last five years, the export value (in current prices) of measuring, checking, analyzing and controlling instruments, apparatus nes (SITC group 874) increased on average by 6.3 percent each year and amounted to its peak of 179.0 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports showed an average increase of 6.2 percent each year reaching 181.8 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows that the increase in exports of 16.8 percent for 2011 in this product group slightly exceeded the increase in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent but fell below the increase in total world exports of 18.6 percent. Exports of measuring, checking, analyzing and controlling instruments, apparatus nes (SITC group 874) accounted for 9.4 percent of world exports of SITC section 8 and 1.0 percent of total world exports in 2011 (see table 1).

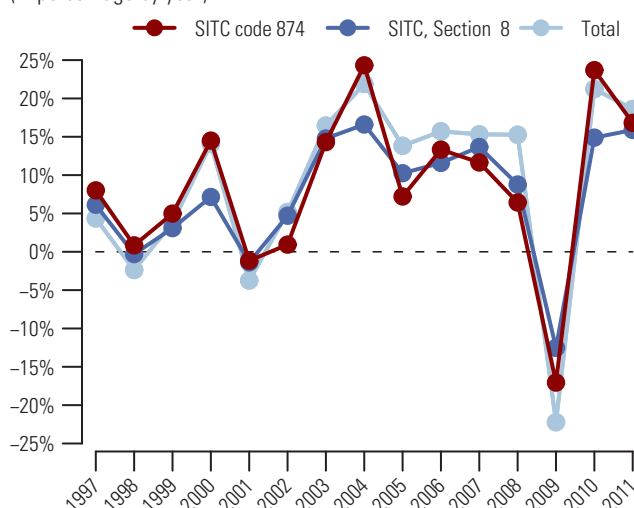

In 2011, USA, Germany and Japan were the top exporting countries in 2011 (see table 2), accounting respectively for 17.8, 17.6 and 10.7 percent of world exports. Top destinations were China, USA and Germany (see table 3). By MDG regions (see graph 2), a large share of trade surpluses was recorded by Developed Europe amounting to 25.2 bln US\$. Major trade surpluses were also recorded by Developed Asia-Pacific (+9.6 bln US\$) and Developed North America (+6.3 bln US\$). Top trade deficits were recorded by Eastern Asia (-22.3 bln US\$), Latin America and the Caribbean (-6.4 bln US\$) and Southern Asia (-3.7 bln US\$).

Photographic apparatus and equipments, nes 881

Following a sharp decline of 20.8 percent in 2009, the value (in current prices) of exports of photographic apparatus and equipments, nes (SITC group 881) recovered in 2010 by 11.2 percent but dropped again in 2011 by 6.6 percent to 6.6 bln US\$ (see tables 1 and 2). On the contrary, imports, after a significant drop of 41.9 percent in 2009 and recovery in 2010, further increased by 1.6 percent in 2011 to reach 6.0 bln US\$ (see tables 1 and 3). Graph 1 shows the decrease in exports for 2011 in this product group compared to the increase in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and the increase in total world exports of 18.6 percent. Exports of photographic apparatus and equipments, nes (SITC group 881) accounted for 0.3 percent of world exports of SITC section 8 and less than 0.1 percent of total world exports (see table 1).

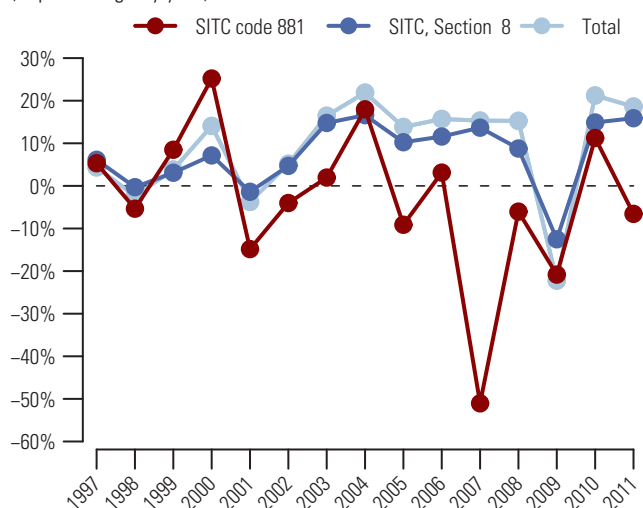

In 2011, the top exporting countries or areas were USA, China and China, Hong Kong SAR (see table 2). They accounted respectively for 13.0, 12.4 and 8.7 percent of world exports. China, USA and China, Hong Kong SAR were also the top destinations (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by South-eastern Asia (+0.9 bln US\$), Developed North America (+0.2 bln US\$) and Developed Asia-Pacific (+0.1 bln US\$). Major trade deficits were recorded by Latin America and the Caribbean at 0.2 bln US\$ and both Developed Europe and Sub-Saharan Africa at (-0.1 bln US\$).

882 Photographic and cinematographic supplies

After a 13.0 percent drop in 2009, the value (in current prices) of exports of photographic and cinematographic supplies (SITC group 882) gradually recovered in 2010 and continued to grow by 6.3 percent to 18.2 bln US\$ in 2011 (see tables 1 and 2). Similarly, imports showed a 14.7 percent decline in 2009, but bounced back in 2010 and further grew by 6.2 percent in 2011 to reach 18.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 for this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of photographic and cinematographic supplies (SITC group 882) accounted for 1.0 percent of world exports of SITC section 8 and 0.1 percent of total world exports (see table 1).

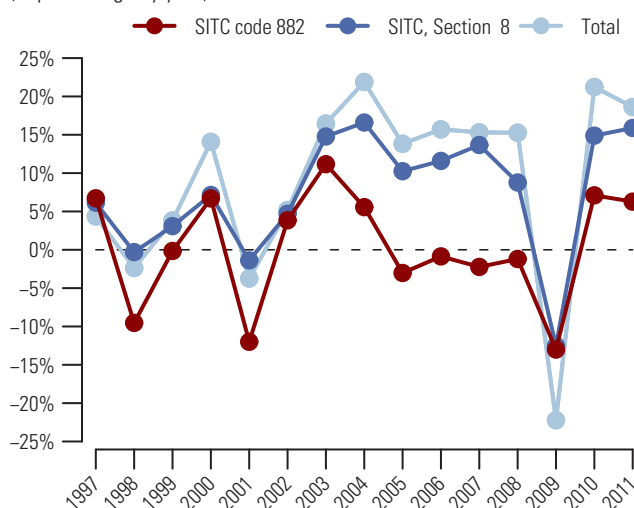

Japan was the top exporting country in 2011, representing 27.2 percent of world exports (see table 2). Other major exporting countries were USA and Belgium, respectively with 15.0 and 10.3 percent of world exports (see table 3). By MDG regions (see graph 2), Developed Asia-Pacific recorded a trade surplus amounting to 4.3 bln US\$. Significant trade surpluses were also recorded by Developed Europe (+1.2 bln US\$) and Developed North America (+0.8 bln US\$). Top trade deficits were recorded by Eastern Asia (-3.0 bln US\$), Latin America and the Caribbean (-0.9 bln US\$) and South-eastern Asia (-0.6 bln US\$).

Cinematographic film, exposed and developed 883

After reaching the peak of 815.9 mln US\$ in 2007, the export value (in current prices) of cinematographic film, exposed and developed (SITC group 883) started to decline in the following years and further dropped by 22.5 percent to 494.9 mln US\$ in 2011 (see tables 1 and 2). Imports showed a similar development with a 17.3 percent decrease in 2011 and amounted to 509.2 mln US\$ (see tables 1 and 3). Graph 1 shows the drop in exports for 2011 in this product group compared to both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of cinematographic film, exposed and developed (SITC group 883) accounted for less than 0.1 percent of both world exports of SITC section 8 and total world exports (see table 1).

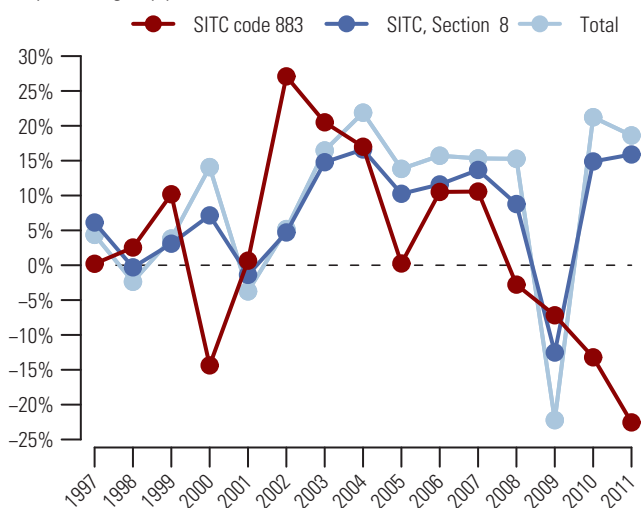

In 2011, Canada was the top exporting country, accounting for 45.6 percent of world exports (see table 2). Other major exporting countries were Italy and Thailand, respectively with 13.6 and 7.8 percent of world exports. The top destination was USA representing 45.5 percent of world imports (see table 3). Other major importing countries were Rep. of Korea and France. By MDG regions (see graph 2), Developed North America's exports and imports amounted to 250.0 mln US\$ and 235.0 mln US\$, resulting in a trade surplus of 15.0 mln US\$. A larger trade surplus was recorded by Developed Europe (+70.0 mln US\$). Major trade deficits were recorded by Eastern Asia and Western Asia, respectively with 71.5 mln US\$ and 21.0 mln US\$.

884 Optical goods, nes

After several years of growth marked by a peak of 43.4 bln US\$ in 2008, the value (in current prices) of exports of optical goods, nes (SITC group 884) dropped by 8.1 percent in 2009 but bounced back in 2010 and further grew by 9.8 percent in 2011 to reach 55.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with growth rate of 9.6 percent in 2011 and amounted to 54.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of optical goods, nes (SITC group 884) accounted for 2.9 percent of world exports of SITC section 8 and 0.3 percent of total world exports in 2011 (see table 1).

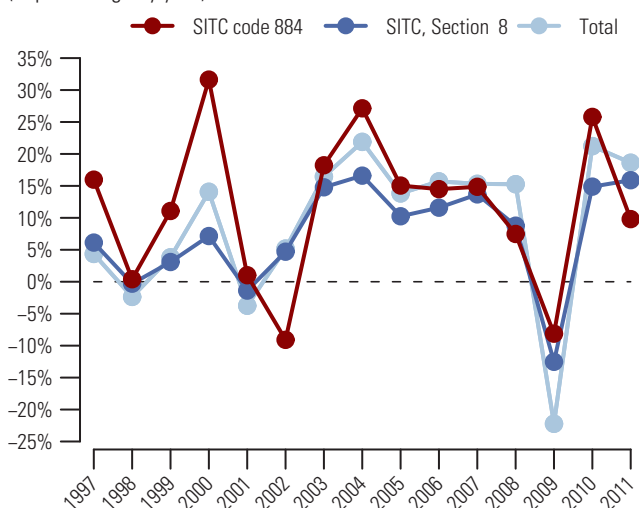

Japan, China and Germany were the top exporting countries in 2011 (see table 2). They accounted respectively for 17.3, 15.2 and 8.4 percent of world exports. The top importing destinations were China, USA and Japan (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a majority of trade in optical goods, nes (SITC group 884). In 2011, its exports and imports were valued at 20.0 bln US\$ and 19.5 bln US\$, resulting in a trade surplus of 0.5 bln US\$. A larger trade surplus was recorded by Developed Asia-Pacific (+5.0 bln US\$). Top trade deficits were recorded by Developed North America (-2.8 bln US\$), Latin America and the Caribbean (-1.0 bln US\$) and Western Asia (-0.8 bln US\$).

After a 18.7 percent decline in 2009, the value (in current prices) of exports of watches and clocks (SITC group 885) bounced back by 26.4 percent in 2010 and continued to grow 30.1 percent to its peak of 47.9 bln US\$ (see tables 1 and 2). Similarly, imports increased by 29.1 percent in 2011 to reach 46.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group well exceeded the increases of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8) and 18.6 percent in total world exports. Exports of watches and clocks (SITC group 885) accounted for 2.5 percent of world exports of SITC section 8 and 0.3 percent of total world exports in 2011 (see table 1).

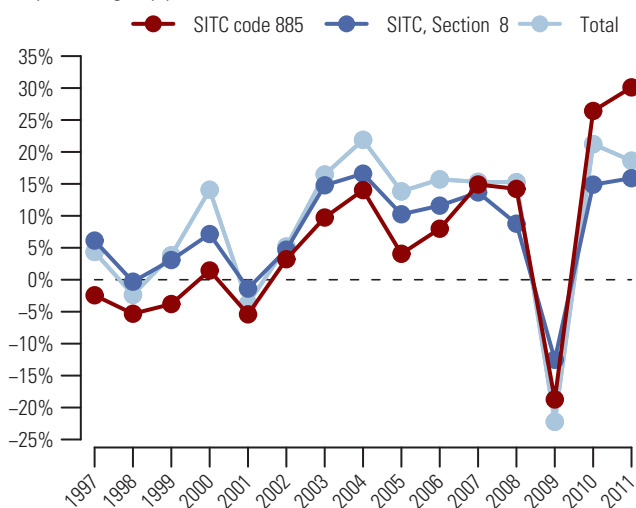

In 2011, Switzerland was the top exporting country and accounted for 45.4 percent of world exports (see table 2). Other major exporting countries or areas were China, Hong Kong SAR and China, respectively with 18.4 and 7.7 percent of world exports. Top destinations were China, Hong Kong SAR, USA and Switzerland (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in watches and clocks (SITC group 885). In 2011, its exports were valued at 29.3 bln US\$, while imports amounted to 14.8 bln US\$, resulting in a trade surplus of 14.5 bln US\$. Top trade deficits were recorded by Developed North America (-4.2 bln US\$), Western Asia and Eastern Asia respectively with (-1.9 bln US\$) and (-1.8 bln US\$).

891 Arms and ammunition

After several years of continuous growth marked by a peak of 11.8 bln US\$ in 2010, the export value (in current prices) of arms and ammunition (SITC group 891) dropped by 5.7 percent in 2011 to 11.2 bln US\$ (see tables 1 and 2). On the contrary, imports showed an increase of 5.3 percent and amounted to 11.5 bln US\$ in 2011 (see tables 1 and 3). Graph 1 shows the decrease in exports for 2011 in this product group compared to the increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of arms and ammunition (SITC group 891) accounted for 0.6 percent of world exports of SITC section 8 and 0.1 percent of total world exports (see table 1).

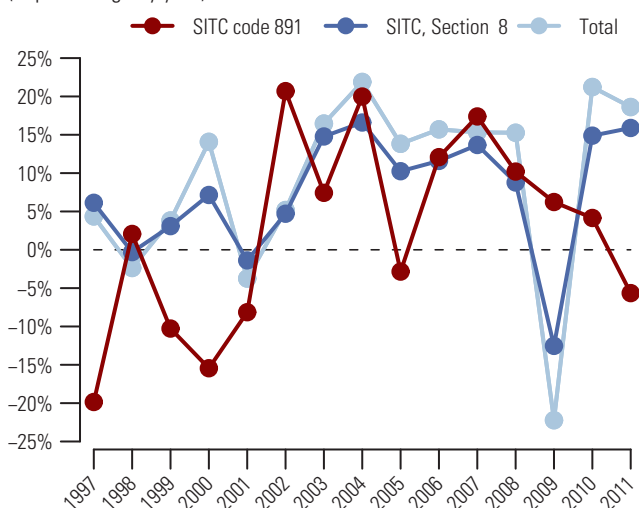

In 2011, exports of USA, despite a drop of 5.2 percent, still was the top exporting country and represented 42.8 percent of world exports (see table 2). Other major exporting countries were Canada and Italy, respectively with 8.1 and 5.6 percent of world exports. USA was also the top destination and accounted for 31.3 percent of world imports (see table 3). Other major destinations were Canada and Australia. By MDG regions (see graph 2), top trade surpluses were recorded by Developed North America and Developed Europe, respectively with 0.9 bln US\$ and 0.7 bln US\$. Top trade deficits were recorded by Developed Asia-Pacific (-0.7 bln US\$), Northern Africa and South-eastern Asia, both at 0.5 bln US\$.

After a 9.1 percent drop in 2009, the value (in current prices) of exports of printed matter (SITC group 892) gradually recovered in 2010 and further grew by 11.8 percent in 2011 to 55.6 bln US\$ (see tables 1 and 2). Imports, with a similar development, increased by 12.5 percent in 2011 and reached 52.0 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8) and 18.6 percent in total world exports. Exports of printed matter (SITC group 892) accounted for 2.9 percent of world exports of SITC section 8 and 0.3 percent of total world exports in 2011 (see table 1).

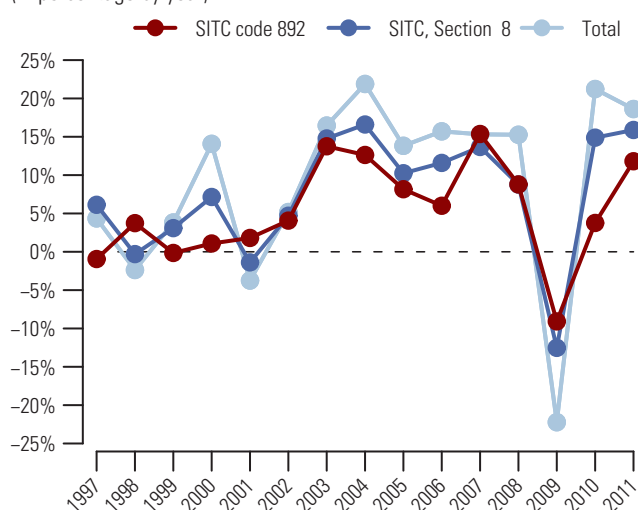

In 2011, USA, Germany and United Kingdom were the top exporting countries (see table 2), accounting respectively for 11.3, 11.2 and 8.1 percent of world exports. USA and United Kingdom were also top destinations for imports, together with Canada (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in printed matter (SITC group 892). In 2011, its exports were valued at 26.7 bln US\$ while imports amounted to 22.3 bln US\$, resulting in a trade surplus of 4.4 bln US\$. Major trade surpluses were also recorded by South-eastern Asia (+5.2 bln US\$) and Eastern Asia (+2.6 bln US\$). Top trade deficits were recorded by Sub-Saharan Africa (-2.0 bln US\$), Latin America and the Caribbean (-1.3 bln US\$) and Developed Asia-Pacific (-1.3 bln US\$).

893 Articles, nes, of plastics

In 2011, the export value (in current prices) of articles, nes, of plastics (SITC group 893) went up by 16.3 percent and amounted to its new peak of 133.6 bln US\$ (see tables 1 and 2). Similarly, imports increased by 13.1 percent in 2011 to reach 134.7 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group slightly exceeded the increase of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8), but was below the 18.6 percent increase in total world exports. Exports of articles, nes, of plastics (SITC group 893) accounted for 7.0 percent of world exports of SITC section 8 and 0.7 percent of total world exports in 2011 (see table 1).

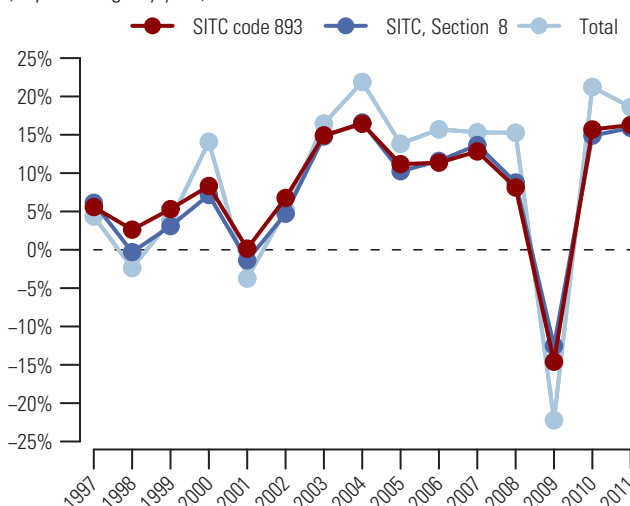

China, Germany and USA were the top exporting countries in 2011 (see table 2). They accounted respectively for 17.6, 12.5 and 8.6 percent of world exports. USA and Germany were also the top destinations for imports, together with France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in articles, nes, of plastics (SITC group 893). In 2011, its exports and imports were valued respectively at 62.7 bln US\$ and 60.1 bln US\$, resulting in a trade surplus of 2.6 bln US\$. A larger trade surplus was recorded by Eastern Asia (+22.7 bln US\$). Top trade deficits were recorded by Developed North America (-8.6 bln US\$), Latin America and the Caribbean (-6.7 bln US\$) and Developed Asia-Pacific (-4.9 bln US\$).

After a significant drop of 16.1 percent in 2009, the exports value (in current prices) of baby carriages, toys, games and sporting goods (SITC group 894) gradually recovered in 2010 and further grew by 9.2 percent in 2011 to reach 95.3 bln US\$ (see tables 1 and 2). Imports showed a similar development with a 14.3 percent drop in 2009, but recovered in 2010 and continued to grow by 2.5 percent in 2011 to 114.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of baby carriages, toys, games and sporting goods (SITC group 894) accounted for 5 percent of world exports of SITC section 8 and 0.5 percent of total world exports (see table 1).

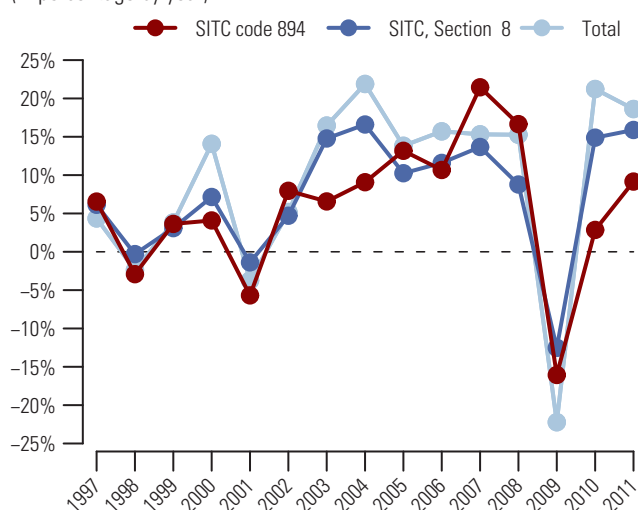

In 2011, China was the top exporting country and accounted for more than a third (38.3 percent) of world exports (see table 2). Other major exporting countries or areas were China, Hong Kong SAR and USA, respectively with 12.3 and 7.6 percent of world exports. USA was the top destination for imports and accounted for 26.1 percent of world imports (see table 3). Other major importing countries or areas were China, Hong Kong SAR and Germany. By MDG regions (see graph 2), Eastern Asia accounted for a majority of exports of baby carriages, toys, games and sporting goods (SITC group 894). In 2011, its exports were valued at 50.8 bln US\$ while imports amounted to 13.5 bln US\$, resulting in a trade surplus of 37.3 bln US\$. Major trade deficits were recorded by Developed North America (-25.8 bln US\$) and Developed Europe (-15.6 bln US\$).

895 Office and stationery supplies, nes

Despite a 14.0 percent decrease in 2009, the value (in current prices) of exports of office and stationery supplies, nes (SITC group 895) bounced back in 2010 and further grew by 14.5 percent amounting to its peak of 16.2 bln US\$ (see tables 1 and 2). Imports, with a similar development, increased by 8.5 percent in 2011 and also reached its peak of 16.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group were exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and the increase in total world exports of 18.6 percent. Exports of office and stationery supplies, nes (SITC group 895) accounted for 0.9 percent of world exports of SITC section 8 and 0.1 percent of total world exports (see table 1).

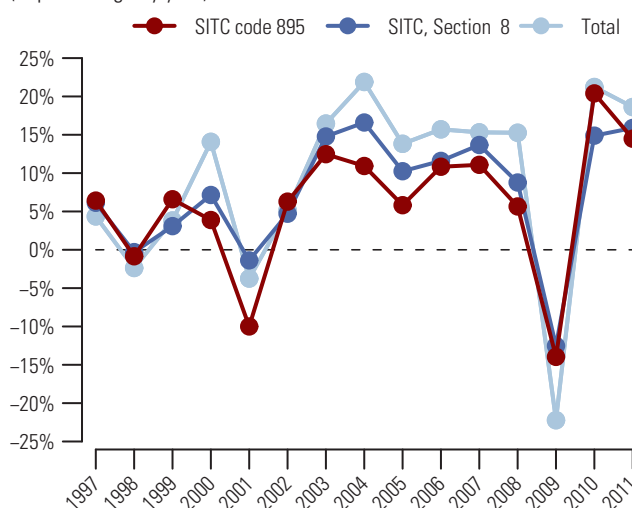

In 2011, China, Germany and Japan were the top exporting countries (see table 2), accounting respectively for 19.7, 13.5 and 8.9 percent of world exports. Top destinations were Germany, USA and France (see table 3). By MDG regions (see graph 2), Eastern Asia recorded a trade surplus amounting to 2.7 bln US\$. A significant trade surplus was also recorded by Developed Asia-Pacific (+0.9 bln US\$). Top trade deficits were recorded by Developed North America (-1.5 bln US\$), Developed Europe (-0.8 bln US\$) and Western Asia (-0.7 bln US\$).

After several years of continuous growth marked by a peak of 21.2 bln US\$ in 2008, the export value (in current prices) of works of art, collectors' pieces and antiques (SITC group 896) significantly dropped in 2009 but gradually recovered in 2010 and further grew by 14.4 percent in 2011 to 20.1 bln US\$ (see tables 1 and 2). Imports showed a similar development with a 36.0 percent drop in 2009, but bounced back in 2010 and rose again in 2011 by 25.9 percent to 20.9 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and the increase in total world exports of 18.6 percent. Exports of works of art, collectors' pieces and antiques (SITC group 896) accounted for 1.1 percent of world exports of SITC section 8 and 0.1 percent of total world exports (see table 1).

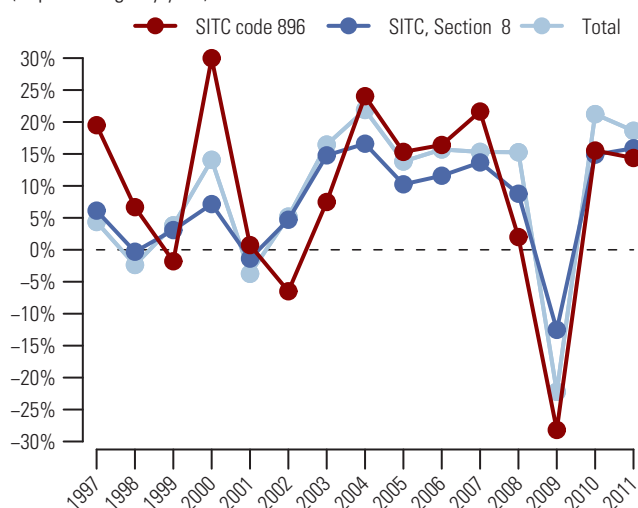

USA was the top exporting country in 2011 and accounted for more than one third (35.0 percent) of world exports (see table 2). Other major exporting countries were United Kingdom and France, respectively with 26.8 and 8.0 percent of world exports (see table 2). USA was also the top destination, along with United Kingdom and Switzerland (see table 3). By MDG regions (see graph 2), major trade surpluses were recorded by Developed North America (+0.3 bln US\$) and Southern Asia (+0.2 bln US\$). Top trade deficits were recorded by Eastern Asia (-0.8 bln US\$), Western Asia and Developed Asia-Pacific, both at 0.2 bln US\$.

897 Gold, silverware, jewellery and articles of precious materials, nes

In 2011, the value (in current prices) of exports of gold, silverware, jewellery and articles of precious materials, nes (SITC group 897) increased by a significant 45.2 percent and amounted to its peak of 113.0 bln US\$ (see tables 1 and 2). Similarly, imports went up by 20.5 percent to 74.1 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group well exceeded the increases of 15.9 percent in world exports of miscellaneous manufactured articles (SITC section 8) and the 18.6 percent increase in total world exports. Exports of gold, silverware, jewellery and articles of precious materials, nes (SITC group 897) accounted for 5.9 percent of world exports of SITC section 8 and 0.6 percent of total world exports in 2011 (see table 1).

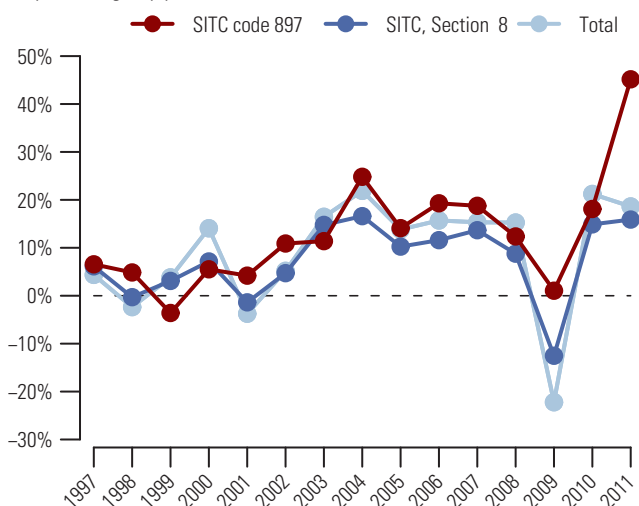

China, India and Switzerland were the top exporting countries in 2011 (see table 2). They accounted respectively for 19.7, 14.5 and 7.9 percent of world exports. Top destinations were USA, China, Honk Kong SAR and Switzerland (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Southern Asia and Eastern Asia (both at +16.0 bln US\$) as well as South-eastern Asia (+7.1 bln US\$). Top trade deficits were recorded by Developed North America (-4.1 bln US\$), Western Asia and Commonwealth of Independent States, both at 0.3 bln US\$.

Musical instruments, parts/accessories; records, tapes and similar recordings 898

Following a decline of 13.4 percent in 2009, the value (in current prices) of exports of musical instruments, parts/accessories; records, tapes and similar recordings (SITC group 898) gradually recovered in 2010 and further grew by 6.7 percent in 2011 amounting to 61.3 bln US\$ (see tables 1 and 2). Imports, with a similar development, went up by 7.5 percent in 2011 to 65.8 bln US\$ (see tables 1 and 3). Graph 1 shows that the rise in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of musical instruments, parts/accessories; records, tapes and similar recordings (SITC group 898) accounted for 3.2 percent of world exports of SITC section 8 and 0.3 percent of total world exports (see table 1).

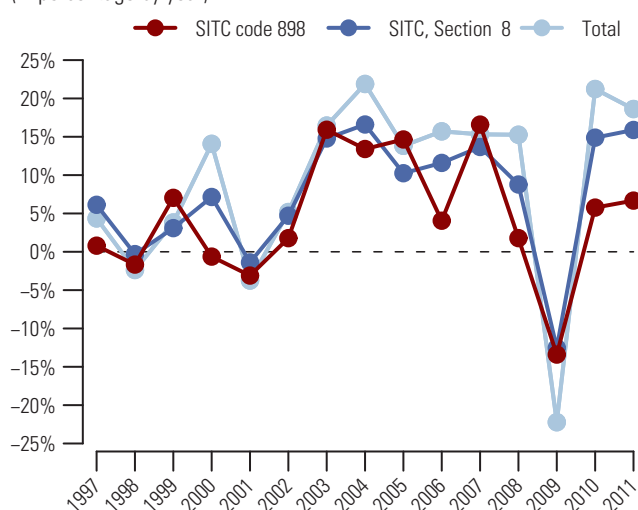

In 2011, China and Germany were the top exporting countries (see table 2). They accounted respectively for 11.9 and 11.3 percent of world exports. The top destinations were China, USA and China, Hong Kong SAR (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by South-eastern Asia (+3.3 bln US\$) and Eastern Asia (+2.6 bln US\$). Top trade deficits were recorded by Latin America and the Caribbean (-2.4 bln US\$), Developed North America (-1.8 bln US\$) and Southern Asia (-1.7 bln US\$).

899 Miscellaneous manufactured articles, nes

In 2011, the value (in current prices) of exports of miscellaneous manufactured articles, nes (SITC group 899) increased by 10.9 percent and amounted to 80.7 bln US\$ (see tables 1 and 2). Similarly, imports increased by 12.5 percent in 2011 to reach 80.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase in exports for 2011 in this product group was exceeded by both increases in world exports of miscellaneous manufactured articles (SITC section 8) of 15.9 percent and in total world exports of 18.6 percent. Exports of miscellaneous manufactured articles, nes (SITC group 899) accounted for 4.2 percent of world exports of SITC section 8 and 0.5 percent of total world exports in 2011 (see table 1).

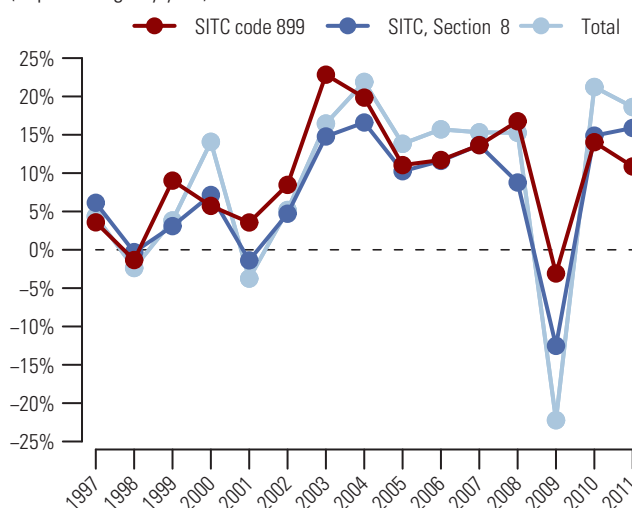

China, USA and Switzerland were the top exporting countries in 2011 (see table 2). They accounted respectively for 22.2, 12.3 and 8.1 percent of world exports. Top destinations were USA, Germany and France (see table 3). By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in miscellaneous manufactured articles, nes (SITC group 899). In 2011, its exports and imports were valued respectively at 40.9 bln US\$ and 36.9 bln US\$, resulting in a trade surplus of 4.0 bln US\$. A larger trade surplus was recorded by Eastern Asia (+15.6 bln US\$). Top trade deficits were recorded by Developed North America (-6.5 bln US\$), Developed Asia-Pacific (-5.3 bln US\$) and Latin America and the Caribbean (-2.3 bln US\$).

**Commodities and transactions not classified
elsewhere in the SITC
(SITC Section 9)**

931 Special transactions and commodities not classified according to kind

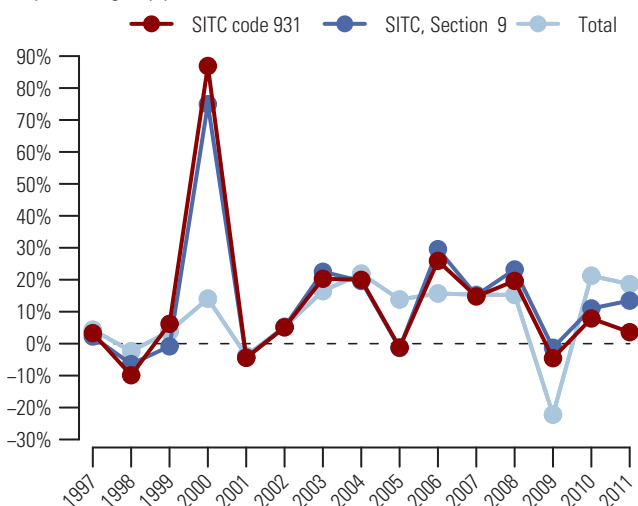

From 2007 to 2011, the value (in current prices) of exports of special transactions and commodities not classified according to kind (SITC group 931) increased on average by 6.3 percent each year and amounted to its peak of 629.6 bln US\$ (see tables 1 and 2). During the same period, imports decreased by 0.4 percent on average and reached 453.4 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase of 3.6 percent in exports for 2011 in this product group was exceeded by both increases in world exports of commodities and transactions not classified elsewhere in SITC (SITC section 9) of 13.5 percent and in total world exports of 18.6 percent. Exports of special transactions and commodities not classified according to kind (SITC group 931) accounted for 72.7 percent of world exports of SITC section 9 and 3.5 percent of total world exports in 2011 (see table 1). In 2011, USA, Russian Federation, and Germany were the top exporting countries (see table 2). They accounted respectively for 19.3, 11.9 and 11.2 percent of world exports. The top destinations were USA, Germany, and China (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Developed North America (+67.6 bln US\$), Commonwealth of Independent States (+66.1 bln US\$), and Developed Europe (+55.2 bln US\$). Top trade deficits were recorded by Eastern Asia (-47.9 bln US\$), Western Asia (-17.1 bln US\$) and Sub-Saharan Africa (-5.0 bln US\$).

Coin (other than gold coin), not being legal tender 961

After several years of continuous growth marked by a peak of 576.3 mln US\$ in 2010, the value (in current prices) of exports of coin (other than gold coin), not being legal tender (SITC group 961) dropped sharply by 29.3 percent to 407.6 mln US\$ (see tables 1 and 2). On the contrary, imports rose by a significant 66.4 percent and amounted to 938.0 mln US\$ in 2011 (see tables 1 and 3). Graph 1 shows the decrease in exports for 2011 in this product group compared to the increases in world exports of commodities and transactions not classified elsewhere in SITC (SITC section 9) of 13.5 percent and in total world exports of 18.6 percent. Exports of coin (other than gold coin), not being legal tender (SITC group 961) accounted for less than 0.1 percent of world exports of SITC section 9 and less than 0.1 percent of total world exports (see table 1).

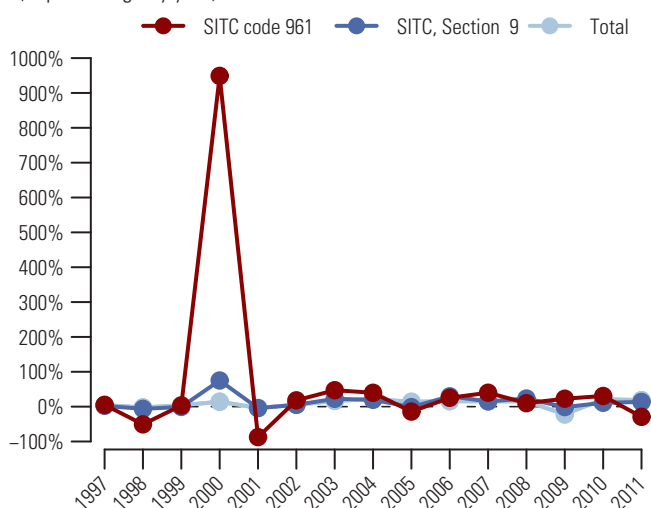

The top exporting countries in 2011 were USA, United Kingdom and Germany (see table 2), representing respectively for 33.0, 16.6 and 11.9 percent of world exports. Germany was the top destination and accounted for over two thirds (72.4 percent) of world imports (see table 3). Other major destinations were USA and Netherlands. By MDG regions (see graph 2), Developed Europe accounted for a majority of trade in coin (other than gold coin), not being legal tender (SITC group 961). In 2011, its exports amounted to 213.0 mln US\$ and imports of 771.0 mln US\$, resulting in a trade deficit of 558.0 mln US\$. Trade surpluses were recorded by Developed North America (+103.0 mln US\$) and Latin America and the Caribbean (+10.1 mln US\$).

971 Gold, non-monetary (excluding gold ores and concentrates)

From 2007 to 2011, the export value (in current prices) of gold, non-monetary (excluding gold ores and concentrates) (SITC group 971) increased on average by 34.7 percent each year and amounted to 236.2 bln US\$ in 2011 (see tables 1 and 2). During the same period, imports also rose by 30.7 percent on average and reached 210.5 bln US\$ (see tables 1 and 3). Graph 1 shows that the increase of 52.3 percent in exports for 2011 in this product group well exceeded the increases in world exports of commodities and transactions not classified elsewhere in SITC (SITC section 9) of 13.5 percent and in total world exports of 18.6 percent. Exports of gold, non-monetary (excluding gold ores and concentrates) (SITC group 971) accounted for 27.3 percent of world exports of SITC section 9 and 1.3 percent of total world exports (see table 1).

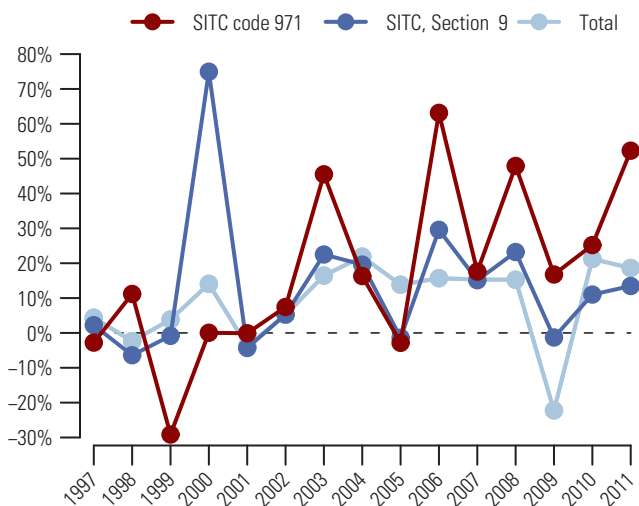

In 2011, USA, China, Hong Kong SAR and United Arab Emirates were the top exporting countries or areas (see table 2). They accounted respectively for 14.0, 11.2 and 7.8 percent of world exports. India, United Arab Emirates and China, Hong Kong SAR were the top destinations (see table 3). By MDG regions (see graph 2), top trade surpluses were recorded by Latin America and the Caribbean (+28.0 bln US\$), Developed North America (+23.4 bln US\$) and Sub-Saharan Africa (+22.3 bln US\$). Trade deficits were recorded by Southern Asia (-54.3 bln US\$), Western Asia (-15.9 bln US\$) and South-eastern Asia (-12.5 bln US\$).
