Comité del Consejo de Seguridad establecido en virtud de la resolución 1540 (2004)

Nota verbal de fecha 15 de mayo de 2020 dirigida a la Presidencia del Comité por la Misión Permanente de Alemania ante las Naciones Unidas

La Misión Permanente de Alemania ante las Naciones Unidas saluda atentamente a la Presidencia del Comité del Consejo de Seguridad establecido en virtud de la resolución 1540 (2004) y, en relación con las resoluciones del Consejo de Seguridad 1540 (2004), 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012) y 2325 (2016), tiene el honor de proporcionar información sobre la aplicación nacional de las disposiciones que se derivan de esas resoluciones (véase el anexo).

Desde la última vez que presentó información, Alemania ha depositado el Protocolo de 2005 relativo al Convenio para la Represión de Actos Ilícitos contra la Seguridad de la Navegación Marítima, el Protocolo de 2005 relativo al Protocolo para la Represión de Actos Ilícitos contra la Seguridad de las Plataformas Fijas Emplazadas en la Plataforma Continental y el Convenio de 2010 para la Represión de Actos Ilícitos Relacionados con la Aviación Civil Internacional.

La Ordenanza de Protección Radiológica se revisó en 2018, sobre la base de la Directiva 2013/59/EURATOM del Consejo Europeo. Todos los cambios se reflejan en la matriz adjunta¹, que constituye el informe nacional sobre la aplicación revisado de Alemania. En la matriz se indican, entre otras cosas, los cambios pertinentes en la legislación de la Unión Europea, como el Reglamento (UE) núm. 952/2013 (código aduanero de la Unión) y la Directiva (UE) 2015/849 del Parlamento Europeo y del Consejo relativa a la prevención de la utilización del sistema financiero para el blanqueo de capitales o la financiación del terrorismo, y las correspondientes leyes de transposición de Alemania de 24 de junio de 2017 y 12 de diciembre de 2019.

¹ Se acordó con el Comité que la matriz remitida por Alemania se publicaría únicamente como un anexo en inglés.

Anexo de la nota verbal de fecha 15 de mayo de 2020 dirigida a la Presidencia del Comité por la Misión Permanente de Alemania ante las Naciones Unidas

Implementation matrix

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to intergovernmental organizations. The matrices are prepared under the direction of the Security Council Committee established pursuant to resolution [1540 \(2004\)](#).

The Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of resolution [1540 \(2004\)](#).

The matrices are not a tool for measuring compliance of States with their non-proliferation obligations but for facilitating the implementation of resolutions [1540 \(2004\)](#), [1673 \(2006\)](#), [1810 \(2008\)](#), [1977 \(2011\)](#), [2055 \(2012\)](#) and [2325 \(2016\)](#). They do not reflect or prejudice any ongoing discussions outside the Committee, in the Security Council or any of its organs of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purpose only and does not constitute in any way a legal obligation arising from resolution [1540 \(2004\)](#) or its successive resolutions.

Matrix entries are only indicators of fact and not indicators of the degree of compliance under resolution [1540 \(2004\)](#) and its successor resolutions.

An "X" in any data field signifies only that the Committee considers that a State has taken the steps required and/or has provided specific references to the applicable legal basis or executive behaviour as evidence of such steps. An "X" against any data field does not necessarily signify that a State has met in full its obligations for that data field.

A "?" in any data field signifies that the references to legislative or other measures may not be directly relevant or are incomplete.

A "N/A" (not applicable) in any data field signifies that the data field is not applicable to a State that, through legally binding instruments, specified that it did not possess related materials or facilities.

A blank in any data field signifies that there is insufficient information available to enter an "X" or "?" against a particular data field.

Paragraph 1 and related matters from paragraphs 5, 8 (a), (b) and (c) and 10

Paragraphs 7 and 8 (d): assistance, work with and inform industry and the public, and other information

<i>Assistance, work with and inform industry, and other information</i>		<i>Remarks</i>
1	Assistance offered	<p>The Government of Germany offers legal and implementation assistance to all regions on the following subjects: weapons of mass destruction disarmament, export controls, chemicals and physical protection. Types of assistance offered: expertise and financial</p> <p>The Government supports bilaterally, through its implementing agencies (Federal Office of Economics and Export Control and the customs authority), the establishment and further development of a national export control system in several European and non-European States. This support shall be maintained and partly expanded</p> <p>Furthermore, Germany has extended assistance in the field of national implementation of Chemical Weapons Convention obligations to several countries. Lastly, on the occasion of the meeting of State parties to the Biological Weapons Convention, Germany also offered assistance to several countries in implementing prohibition and export control obligations pursuant to that Convention</p> <p>In addition, Germany has been advising and supporting nations in designing and improving their national systems for physical protection of chemical, biological, radiological or nuclear materials on a bilateral basis, through direct technical assistance, expert services and training courses in various countries. This support is expected to continue</p>
2	Assistance point of contact (for assistance providers only)	Permanent Mission of Germany to the United Nations and the Federal Foreign Office, Berlin
3	Assistance requested	
4	Action taken to work with and inform industry	On a national level, Germany holds regular information days and expert discussions with the economic sector, including academia. The comprehensive Federal Office of Economics and Export Control website (www.bafa.de) provides legal and technical information, as well as points of contact. On global and regional levels and with regard to resolution 1540 (2004) , in 2012, Germany initiated the 1540 Wiesbaden process, which facilitates industry-government dialogue through conferences on export control issues
5	Action taken to work with and inform the public	The federal ministries and the Federal Office of Economics and Export Control have published pamphlets and information sheets to be read and downloaded from relevant websites (from legal texts to explanations of administrative practice)
6	Point of contact	Permanent Mission of Germany to the United Nations and the Federal Foreign Office, Berlin
7	Voluntary national implementation action plan	
8	Committee visits to States
