Guide to the user

To facilitate early analysis of the resolutions and decisions on disarmament adopted at the seventy-fifth session of the General Assembly, the United Nations Office for Disarmament Affairs offers Part I of the Yearbook as a handy, concise reference tool, containing the full texts of all the resolutions and decisions, the date of adoption by the Assembly and the First Committee, the agenda item number, the symbol number of the Report of the Rapporteur, the main sponsors and the voting patterns in the Assembly. For a snapshot of this information in a convenient chart, see “Quick view of votes by cluster”. For a list of agenda items and their corresponding reports, see the Annex.

Bold type in the list of sponsors indicates the State(s) that submitted the draft resolution or decision.

Voting statistics in this publication are presented as three sets of numbers separated by two dashes, where the first figure represents the total of votes in favour, followed by votes against and abstentions.

Preface

The *United Nations Disarmament Yearbook* is now in its forty-fifth year of publication. Part I presents the official texts of the 61 resolutions and 10 decisions related to disarmament, arms control and international security that were debated in the First Committee and forwarded to the General Assembly for adoption at its seventy-fifth session.

Part I is issued as a separate publication to provide early access to the resolutions and decisions, each presented with key information: relevant agenda items, main sponsors and co-sponsors, vote counts, including voting patterns in the First Committee and the General Assembly, adoption and meeting number dates and draft resolution numbers.

A *Quick view by cluster* gives the reader an easy handle (using the First Committee's "cluster" arrangement of agenda items) on resolution numbers, titles and votes in the First Committee and in the Assembly.

We hope that Part I furnishes the reader with a handy, consolidated reference book on multilateral disarmament, in print and electronic form.

Part II of the Yearbook will contain main multilateral issues under consideration, including their trends, summaries of First Committee and General Assembly actions taken on resolutions and a convenient issue-oriented timeline. Part II is forthcoming in October 2021.

75/32 Advancing responsible State behaviour in cyberspace in the context of international security

Text

The General Assembly,

Recalling its resolutions 53/70 of 4 December 1998, 54/49 of 1 December 1999, 55/28 of 20 November 2000, 56/19 of 29 November 2001, 57/53 of 22 November 2002, 58/32 of 8 December 2003, 59/61 of 3 December 2004, 60/45 of 8 December 2005, 61/54 of 6 December 2006, 62/17 of 5 December 2007, 63/37 of 2 December 2008, 64/25 of 2 December 2009, 65/41 of 8 December 2010, 66/24 of 2 December 2011, 67/27 of 3 December 2012, 68/243 of 27 December 2013, 69/28 of 2 December 2014, 70/237 of 23 December 2015, 71/28 of 5 December 2016, 73/27 of 5 December 2018, 73/266 of 22 December 2018 and 74/28 and 74/29 of 12 December 2019, as well as its decision 72/512 of 4 December 2017,

Noting that considerable progress has been achieved in developing and applying the latest information technologies and means of telecommunication,

Affirming that it sees in this progress the broadest positive opportunities for the further development of civilization, the expansion of opportunities for cooperation for the common good of all States, the enhancement of the creative potential of humankind and additional improvements in the circulation of information in the global community,

Noting that the dissemination and use of information technologies and means affect the interests of the entire international community and that optimum effectiveness is enhanced by broad international cooperation,

Confirming that information and communications technologies are dual-use technologies and can be used for both legitimate and malicious purposes,

Stressing that it is in the interest of all States to promote the use of information and communications technologies for peaceful purposes and to prevent conflict arising from the use of information and communications technologies,

Expressing concern that these technologies and means can potentially be used for purposes that are inconsistent with the objectives of maintaining international stability and security and may adversely affect the integrity of the infrastructure of States, to the detriment of their security in both civil and military fields,

Underscoring the need for enhanced coordination and cooperation among States in combating the criminal misuse of information technologies,

Underlining the importance of respect for human rights and fundamental freedoms in the use of information and communications technologies,

Welcoming the effective work of the Group of Governmental Experts on Developments in the Field of Information and Telecommunications in the Context of International Security and the 2010,¹ 2013² and 2015³ reports transmitted by the Secretary-General,

Stressing the importance of the assessments and recommendations contained in the reports of the Group of Governmental Experts,

Confirming the conclusions of the Group of Governmental Experts, in its 2013 and 2015 reports, that international law, and in particular the Charter of the United Nations, is applicable and essential to maintaining peace and stability and promoting an open, secure, stable, accessible and peaceful information and communications technology environment, that voluntary and non-binding norms, rules and principles of responsible behaviour of States in the use of information and communications technologies can reduce risks to international peace, security and stability, and that, given the unique attributes of such technologies, additional norms can be developed over time,

Confirming also the conclusions of the Group of Governmental Experts that voluntary confidence-building measures can promote trust and assurance among States and help to reduce the risk of conflict by increasing predictability and reducing misperception and thereby make an important contribution to addressing the concerns of States over the use of information and communications technologies by States and could be a significant step towards greater international security,

Confirming further the conclusions of the Group of Governmental Experts that providing assistance to build capacity in the area of information and communications technology security is also essential for international security, by improving the capacity of States for cooperation and collective action and promoting the use of such technologies for peaceful purposes,

Stressing that, while States have a primary responsibility for maintaining a secure and peaceful information and communications technology environment, effective international cooperation would benefit from identifying mechanisms for the participation, as appropriate, of the private sector, academia and civil society organizations,

Noting the productive, useful and ongoing discussions within the Open-ended Working Group on Developments in the Field of Information

³ [A/70/174](#).

and Telecommunications in the Context of International Security, which is inclusive of all Member States, and the Group of Governmental Experts, and maintaining that these important processes should conclude before considering next steps,

1. *Calls upon* Member States:

(a) To be guided in their use of information and communications technologies by the 2010, 2013 and 2015 reports of the Group of Governmental Experts on Developments in the Field of Information and Telecommunications in the Context of International Security;

(b) To support the implementation of cooperative measures, as identified in the reports of the Group of Governmental Experts, to address the threats emerging in this field and ensure an open, interoperable, reliable and secure information and communications technology environment consistent with the need to preserve the free flow of information;

2. *Invites* all Member States, taking into account the assessments and recommendations contained in the reports of the Group of Governmental Experts, to continue to inform the Secretary-General of their views and assessments on the following questions:

(a) Efforts taken at the national level to strengthen information security and promote international cooperation in this field;

(b) The content of the concepts mentioned in the reports of the Group of Governmental Experts;

3. *Welcomes* the productive and ongoing work of the Group of Governmental Experts established by the Secretary-General pursuant to resolution [73/266](#), on the basis of equitable geographical distribution, whose mandate is set out in paragraph 3 of that resolution;

4. *Also welcomes* the productive and ongoing work of the Open-ended Working Group on Developments in the Field of Information and Telecommunications in the Context of International Security;

5. *Notes* the interruptions to the meeting schedules of the Group of Governmental Experts and the Open-ended Working Group on account of the coronavirus disease (COVID-19) pandemic;

6. *Decides* that the General Assembly will consider the outcomes of the Group of Governmental Experts and the Open-ended Working Group at the conclusion of those processes, as established in resolutions [73/266](#) and [73/27](#), respectively, and that the Assembly will decide thereafter on any future work, as needed;

7. *Also decides* to include in the provisional agenda of its seventy-sixth session the item entitled “Developments in the field of information and telecommunications in the context of international security”.

The General Assembly,

Bearing in mind the need to allay the legitimate concern of the States of the world with regard to ensuring lasting security for their peoples,

Convinced that nuclear weapons pose the greatest threat to humankind and to the survival of civilization,

Noting that the renewed interest in nuclear disarmament should be translated into concrete actions for the achievement of general and complete disarmament under effective international control,

Convinced that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Determined to abide strictly by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Considering that, until nuclear disarmament is achieved on a universal basis, it is imperative for the international community to develop effective measures and arrangements to ensure the security of non-nuclear-weapon States against the use or threat of use of nuclear weapons from any quarter,

Recognizing that effective measures and arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly, the first special session devoted to disarmament,¹ in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

¹ Resolution S-10/2.

Recalling the relevant parts of the special report of the Committee on Disarmament² submitted to the General Assembly at its twelfth special session, the second special session devoted to disarmament,³ and of the special report of the Conference on Disarmament submitted to the Assembly at its fifteenth special session, the third special session devoted to disarmament,⁴ as well as the report of the Conference on its 1992 session,⁵

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, in which it is stated, inter alia, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons,⁶ with a view to reaching agreement on this question,

Taking note of the proposals submitted under the item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the relevant decision of the Thirteenth Conference of Heads of State or Government of Non-Aligned Countries, held in Kuala Lumpur on 24 and 25 February 2003,⁷ which was reiterated at the Seventeenth Conference of Heads of State or Government of Non-Aligned Countries, held on Margarita Island, Bolivarian Republic of Venezuela, from 13 to 18 September 2016, as well as the relevant recommendations of the Organization of Islamic Cooperation,

Taking note further of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

² The Committee on Disarmament was redesignated the Conference on Disarmament as from 7 February 1984.

1. *Reaffirms* the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties with regard to evolving a common approach acceptable to all have also been pointed out;

3. *Appeals* to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. *Recommends* that further intensive efforts be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, be further explored in order to overcome the difficulties;

5. *Also recommends* that the Conference on Disarmament actively continue intensive negotiations with a view to reaching early agreement and concluding effective international agreements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

6. *Decides* to include in the provisional agenda of its seventy-sixth session the item entitled “Conclusion of effective international arrangements

to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons”.

Agenda item 101 (a)

75/35 Prevention of an arms race in outer space

Text

The General Assembly,

Recognizing the common interest of all humankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes and shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development,

Reaffirming also the provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,² in which it is stated that, in order to prevent an arms race in outer space, further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling its previous resolutions on this issue, the most recent of which is resolution 74/32 of 12 December 2019, and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing that the prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued

² Resolution S-10/2.

the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space, and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Noting also that there were no objections in principle in the Conference on Disarmament to the re-establishment of the Ad Hoc Committee, subject to re-examination of the mandate contained in the decision of the Conference on Disarmament of 13 February 1992,³

Emphasizing the mutually complementary nature of bilateral and multilateral efforts for the prevention of an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling, in this context, its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter alia, it reaffirmed the importance of confidence-building measures as a means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

Recognizing that negotiations for the conclusion of an international agreement or agreements to prevent an arms race in outer space remain a priority task of the Conference on Disarmament and that the concrete proposals on confidence-building measures could form an integral part of such agreements,

Noting with satisfaction the constructive, structured and focused debate on the prevention of an arms race in outer space at the Conference on Disarmament each year from 2009 to 2019,

Noting the introduction by China and the Russian Federation at the Conference on Disarmament of the draft treaty on the prevention of the

placement of weapons in outer space and of the threat or use of force against outer space objects in 2008 and the submission of its updated version in 2014,⁴

Recalling the comprehensive and substantive discussions of the Group of Governmental Experts that was convened in 2018 and 2019 pursuant to its resolution [72/250](#) of 24 December 2017,

Taking note of the decision of the Conference on Disarmament to establish for its 2009 session a working group to discuss, substantially, without limitation, all issues related to the prevention of an arms race in outer space, and the decision to establish for its 2018 session a subsidiary body on the prevention of an arms race in outer space,

1. *Reaffirms* the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;

2. *Reaffirms its recognition*, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space by itself does not guarantee the prevention of an arms race in outer space, that the regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness and that it is important to comply strictly with existing agreements, both bilateral and multilateral;

3. *Emphasizes* the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. *Calls upon* all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. *Reiterates* that the Conference on Disarmament, as the sole multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. *Invites* the Conference on Disarmament to establish a working group under its agenda item entitled “Prevention of an arms race in outer space” as early as possible;

7. *Recognizes*, in this respect, the growing convergence of views on the elaboration of measures designed to strengthen transparency, confidence

and security in the peaceful uses of outer space, without prejudice to efforts towards the conclusion of an effective and verifiable multilateral agreement or agreements on the prevention of an arms race in outer space;

8. *Urges* States conducting activities in outer space, as well as States interested in conducting such activities, to keep the Conference on Disarmament informed of the progress of bilateral and multilateral negotiations on the matter, if any, so as to facilitate its work;

9. *Decides* to include in the provisional agenda of its seventy-sixth session the item entitled “Prevention of an arms race in outer space”.

Agenda item 101 (a)

75/36 Reducing space threats through norms, rules and principles of responsible behaviours

Text

The General Assembly,

Reaffirming the applicability of international law, including the Charter of the United Nations, to activities in outer space and the right of all States to explore and use outer space without discrimination of any kind, on a basis of equality and in accordance with such law,

Recalling its resolutions 68/50 of 5 December 2013 and 74/32 of 12 December 2019,

Emphasizing the importance of maintaining outer space as a peaceful, safe, stable, secure and sustainable environment for the benefit of all and the significant contribution of outer space activities to social, economic, scientific and technological development, as well as to international peace and security,

Reaffirming the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹ and the obligations for States parties to the Treaty to explore and use outer space for the benefit and in the interests of all countries, and to be guided by the principle of cooperation and mutual assistance,

Welcoming the recent adoption by the Committee on the Peaceful Uses of Outer Space at its sixty-second session of the Guidelines for the Long-term Sustainability of Outer Space Activities,² the implementation of which may have a positive effect on international peace and security,

Urging all States, when developing, planning and executing their space activities, to remain committed to the peaceful exploration and use of outer space and to refrain from conducting activities contrary to their obligations under international law, including those that could threaten the ability of all States to freely use and explore outer space, now and in the future,

Stressing that the creation of long-lived orbital debris arising from the deliberate destruction of space systems increases the risk of in-orbit collisions and the potential for misunderstanding and miscalculations that could lead to conflict,

Reaffirming that the prevention of an arms race in outer space would avert a grave danger for international peace and security,

¹ United Nations, *Treaty Series*, vol. 610, No. 8843.

² *Official Records of the General Assembly, Seventy-fourth Session, Supplement No. 20 (A/74/20)*, annex II.

Recalling the primary role of the Conference on Disarmament on questions relating to the prevention of an arms race in outer space in all its aspects, including the weaponization of outer space and threats from capabilities on Earth, and the relevant responsibilities of the First Committee of the General Assembly and the Disarmament Commission,

Noting the rapid advances of technologies in space systems, the use of which could have positive or negative effects on international security, and seeking to understand how States behave in the light of these developments,

Recognizing that efforts to prevent an arms race and to prevent conflict from beginning in or extending into outer space must include consideration of the use of all potential technologies and means, whether on Earth or in outer space,

Stressing that uses of these technologies and means for purposes inconsistent with the objectives of maintaining international stability and security, including against signals for operators and users and the terrestrial infrastructure supporting space systems, can lead to the perception of threats and can have destabilizing effects on peace and security on Earth, and that such threats already exist in outer space and on Earth,

Recognizing the need for States to seek to avoid and mitigate the potential impact on peace and security arising from accidents, miscommunication or a lack of transparency, which could lead to miscalculations and the escalation of tensions and contribute to an arms race,

Cognizant of the challenges of effectively verifying the capabilities of space objects, which can have both civilian and military applications, interpreting their behaviour or determining whether the systems will be used for purposes inconsistent with the objectives of maintaining international security and stability, while reaffirming that verification is one of the essential components of all arms control instruments,

Noting the need for all States to work together to reduce threats to space systems through the further development and implementation of norms, rules and principles of responsible behaviours with the aim of maintaining a peaceful, safe, stable, secure and sustainable outer space environment, which might, as appropriate and without prejudice, contribute to further consideration of legally binding instruments in this area,

Recognizing the importance of the full involvement and equal participation of women and men in discussions on reducing space threats through responsible behaviours and the need to assess the possible differentiated impacts of such threats,

1. *Affirms* that all States must conduct their activities in the exploration and use of outer space, including the Moon and other celestial bodies, in conformity with international law, including the Charter of the United Nations, and urges Member States to take this into account when formulating their space policies;

2. *Encourages* those States that have not yet become parties to the international treaties governing the exploration and use of outer space to give consideration to ratifying or acceding to those treaties in accordance with their national law, as well as incorporating them into their national legislation;

3. *Expresses* the desire that all Member States reach a common understanding of how best to act to reduce threats to space systems in order to maintain outer space as a peaceful, safe, stable and sustainable environment, free from an arms race and conflict, for the benefit of all, and consider establishing channels of direct communication for the management of perceptions of threat;

4. *Invites* States members and observers of the Conference on Disarmament and the Disarmament Commission to inform those bodies of their national space security policies, strategies or doctrines, on a voluntary basis, in accordance with and in support of the mandates of those bodies;

5. *Encourages* Member States to study existing and potential threats and security risks to space systems, including those arising from actions, activities or systems in outer space or on Earth, characterize actions and activities that could be considered responsible, irresponsible or threatening and their potential impact on international security, and share their ideas on the further development and implementation of norms, rules and principles of responsible behaviours and on the reduction of the risks of misunderstanding and miscalculations with respect to outer space;

6. *Requests* the Secretary-General, within existing resources, to seek the views of Member States on the issues referred to in the foregoing paragraph and to submit a substantive report, with an annex containing these views, to the General Assembly at its seventy-sixth session, for further discussion by Member States;

7. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “Prevention of an arms race in outer space”, a sub-item entitled, “Reducing space threats through norms, rules and principles of responsible behaviours”.

Agenda item 101 (b)

75/37 No first placement of weapons in outer space

Text

The General Assembly,

Recalling its resolutions [69/32](#) of 2 December 2014, [70/27](#) of 7 December 2015, [71/32](#) of 5 December 2016, [72/27](#) of 4 December 2017, [73/31](#) of 5 December 2018 and [74/33](#) of 12 December 2019, and its resolutions [45/55 B](#) of 4 December 1990 and [48/74 B](#) of 16 December 1993, which, inter alia, confirm the importance of transparency and confidence-building measures as a means conducive to ensuring the attainment of the objective of preventing an arms race in outer space,

Recognizing the common interest of all humankind in the exploration and use of outer space for peaceful purposes,

Seriously concerned about the possibility of an arms race in outer space and of outer space turning into an arena for military confrontation, and bearing in mind the importance of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Conscious that the prevention of an arms race in outer space would avert a grave danger to international peace and security,

Reaffirming that practical measures should be examined and taken in the search for agreements to prevent an arms race in outer space in a common effort towards a community of shared future for humankind,

Emphasizing the paramount importance of strict compliance with the existing legal regime providing for the peaceful use of outer space,

Reaffirming its recognition that the legal regime applicable to outer space by itself does not guarantee prevention of an arms race in outer space and that there is a need to consolidate and reinforce that regime,

Convinced that such measures could critically improve conditions for efficiently addressing the threat of an arms race in outer space, including the placement of weapons in outer space,

Welcoming, in this regard, the draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects, introduced by China and the Russian Federation at the Conference on Disarmament in 2008,² and the submission of its updated version in 2014,³

¹ United Nations, *Treaty Series*, vol. 610, No. 8843.

² See [CD/1839](#).

³ See [CD/1985](#).

Considering that transparency and confidence-building measures in outer space activities are an integral part of the draft treaty referred to above,

Stressing the importance of the political statements made by a number of States⁴ that they would not be the first to place weapons in outer space,

1. *Reaffirms* the importance and urgency of the objective of preventing an arms race in outer space and the willingness of States to contribute to reaching this common goal;

2. *Reiterates* that the Conference on Disarmament, as the single multilateral negotiating forum on this subject,⁵ has the primary role in the negotiation of a multilateral agreement, or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

3. *Urges* an early commencement of substantive work based on the updated draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects, introduced by China and the Russian Federation at the Conference on Disarmament in 2008, under the agenda item entitled “Prevention of an arms race in outer space”;

4. *Stresses* that, while such an agreement is not yet concluded, other measures may contribute to ensuring that weapons are not placed in outer space;

5. *Encourages* all States, especially spacefaring nations, to consider the possibility of upholding, as appropriate, a political commitment not to be the first to place weapons in outer space;

6. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “Prevention of an arms race in outer space”, the sub-item entitled “No first placement of weapons in outer space”.

Acknowledging the need to continue the exchange of technologies for peaceful uses, including in accordance with relevant international obligations,

Mindful of the rights of States, reflected in relevant international agreements, regarding the development, production, transfer and use of technologies for peaceful purposes, in accordance with relevant international obligations, as well as the need for all Member States to fulfil their obligations in relation to arms control and disarmament and to prevent proliferation in all its aspects of all weapons of mass destruction and their means of delivery,

Cognizant of the discussions on developments in science and technology at the International Atomic Energy Agency and the Organisation for the Prohibition of Chemical Weapons and within the meetings of experts on science and technology under the 2018–2020 intersessional programme established by the 2017 Meeting of the States Parties to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction,

75/39 Humanitarian consequences of nuclear weapons

Text

The General Assembly,

Recalling its resolutions [70/47](#) of 7 December 2015, [71/46](#) of 5 December 2016, [72/30](#) of 4 December 2017, [73/47](#) of 5 December 2018 and [74/42](#) of 12 December 2019,

Reiterating the deep concern about the catastrophic consequences of nuclear weapons,

Stressing that the immense and uncontrollable destructive capability and indiscriminate nature of nuclear weapons cause unacceptable humanitarian consequences, as has been demonstrated through their past use and testing,

Recalling that concern about the humanitarian consequences of nuclear weapons has been reflected in numerous United Nations resolutions, including the first resolution adopted by the General Assembly, on 24 January 1946,

Recalling also that at the first special session of the General Assembly devoted to disarmament, in 1978, the Assembly stressed that nuclear weapons posed the greatest danger to mankind and to the survival of civilization,¹

Welcoming the renewed interest and resolve of the international community, together with the International Committee of the Red Cross and international humanitarian organizations, to address the catastrophic consequences of nuclear weapons,

Recalling that the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons expressed deep concern at the catastrophic humanitarian consequences of any use of nuclear weapons,²

Noting the resolution of 26 November 2011 of the Council of Delegates of the International Red Cross and Red Crescent Movement entitled “Working towards the elimination of nuclear weapons”,

Recalling the joint statements on the humanitarian consequences of nuclear weapons delivered to the General Assembly and during the 2010–2015 cycle of the review of the Treaty on the Non-Proliferation of Nuclear Weapons,³

Welcoming the facts-based discussions on the effects of a nuclear weapon detonation that were held at the conferences on the humanitarian impact of

nuclear weapons, convened by Norway, on 4 and 5 March 2013, Mexico, on 13 and 14 February 2014, and Austria, on 8 and 9 December 2014,

Cognizant that a key message from experts and international organizations at those conferences was that no State or international body could address the immediate humanitarian emergency caused by a nuclear weapon detonation or provide adequate assistance to victims,

Firmly believing that it is in the interest of all States to engage in discussions on the humanitarian consequences of nuclear weapons with the aim of further broadening and deepening the understanding of this matter, and welcoming civil society's ongoing engagement,

Reaffirming the role of civil society, in partnership with Governments, in raising awareness about the unacceptable humanitarian consequences of nuclear weapons,

Emphasizing that the catastrophic consequences of nuclear weapons affect not only Governments but each and every citizen of our interconnected world and have deep implications for human survival, for the environment, for socioeconomic development, for our economies and for the health of future generations,

1. *Stresses* that it is in the interest of the very survival of humanity that nuclear weapons never be used again, under any circumstances;

2. *Emphasizes* that the only way to guarantee that nuclear weapons will never be used again is their total elimination;

3. *Stresses* that the catastrophic effects of a nuclear weapon detonation, whether by accident, miscalculation or design, cannot be adequately addressed;

4. *Expresses its firm belief* that awareness of the catastrophic consequences of nuclear weapons must underpin all approaches and efforts towards nuclear disarmament;

5. *Calls upon* all States, in their shared responsibility, to prevent the use of nuclear weapons, to prevent their vertical and horizontal proliferation and to achieve nuclear disarmament;

6. *Urges* States to exert all efforts to totally eliminate the threat of these weapons of mass destruction;

7. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled "General and complete disarmament", the sub-item entitled "Humanitarian consequences of nuclear weapons".

75/42 Effects of the use of armaments and ammunitions containing depleted uranium

Text

The General Assembly,

Guided by the purposes and principles enshrined in the Charter of the United Nations and the rules of international humanitarian law,

Recalling its resolutions [62/30](#) of 5 December 2007, [63/54](#) of 2 December 2008, [65/55](#) of 8 December 2010, [67/36](#) of 3 December 2012, [69/57](#) of 2 December 2014, [71/70](#) of 5 December 2016 and [73/38](#) of 5 December 2018,

Determined to promote multilateralism as an essential means to carry forward negotiations on arms regulation and disarmament,

Taking note of the opinions expressed by Member States and relevant international organizations on the effects of the use of armaments and ammunitions containing depleted uranium, as reflected in the reports submitted by the Secretary-General pursuant to resolutions [62/30](#), [63/54](#), [65/55](#), [67/36](#), [69/57](#), [71/70](#) and [73/38](#),¹

Recognizing the importance of implementing, as appropriate, the recommendations of the International Atomic Energy Agency, the United Nations Environment Programme and the World Health Organization to mitigate potential hazards to human beings and the environment from the contamination of territories with depleted uranium residues,

Considering that studies conducted so far by relevant international organizations have not provided a detailed enough account of the magnitude of the potential long-term effects on human beings and the environment of the use of armaments and ammunitions containing depleted uranium,

Recalling that the United Nations Environment Programme, in its report to the Secretary-General on the subject,² affirms that major scientific uncertainties persist regarding the long-term environmental impacts of depleted uranium, particularly with respect to long-term groundwater contamination, and calls for a precautionary approach to the use of depleted uranium,

Convinced that, as humankind becomes more aware of the need to take immediate measures to protect the environment, any event that could jeopardize such efforts requires urgent attention to implement the required measures,

¹ [A/63/170](#), [A/63/170/Add.1](#), [A/65/129](#), [A/65/129/Add.1](#), [A/67/177](#), [A/67/177/Add.1](#), [A/69/151](#), [A/71/139](#), [A/73/99](#) and [A/75/92](#).

² [A/65/129/Add.1](#), sect. III.

Noting that further research should be done to assess the health risks and environmental impact of the use of arms and ammunitions containing depleted uranium in conflict situations,

Noting also the technical and financial barriers faced by affected States seeking to implement post-conflict remedial measures that meet international standards for radioactive waste management for locations, infrastructure and materiel contaminated by arms and ammunitions containing depleted uranium,

Taking into consideration the potential harmful effects of the use of armaments and ammunitions containing depleted uranium on human health and the environment, and the ongoing concerns of affected States and communities, health experts and civil society about such effects,

1. *Expresses its appreciation* to the Member States and international organizations that submitted their views to the Secretary-General pursuant to resolution [73/38](#) and previous resolutions on the subject;

2. *Invites* Member States and relevant international organizations, particularly those that have not yet done so, to communicate to the Secretary-General their views on the effects of the use of armaments and ammunitions containing depleted uranium;

3. *Requests* the Secretary-General to request relevant international organizations to update and complete, as appropriate, their studies and research on the effects of the use of armaments and ammunitions containing depleted uranium on human health and the environment;

4. *Encourages* Member States, particularly the affected States, as necessary, to facilitate the studies and research referred to in paragraph 3 above;

5. *Also encourages* Member States to follow closely the development of the studies and research referred to in paragraph 3 above;

6. *Invites* Member States that have used armaments and ammunitions containing depleted uranium in armed conflicts to provide the relevant authorities of affected States, upon request, with information, as detailed as possible, about the location of the areas of use and the amounts used, with the objective of facilitating the assessment and clearance of such areas;

7. *Encourages* Member States in a position to do so to provide assistance to States affected by the use of arms and ammunitions containing depleted uranium, in particular in identifying and managing contaminated sites and material;

8. *Requests* the Secretary-General to submit an updated report on the subject to the General Assembly at its seventy-seventh session, reflecting the information submitted by Member States and relevant international organizations, including the information submitted pursuant to paragraphs 2 and 3 above;

9. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Effects of the use of armaments and ammunitions containing depleted uranium”.

The General Assembly,

Recalling its resolutions [67/39](#) of 3 December 2012, [68/32](#) of 5 December 2013, [69/58](#) of 2 December 2014, [70/34](#) of 7 December 2015, [71/71](#) of 5 December 2016, [72/251](#) of 24 December 2017, [73/40](#) of 5 December 2018 and [74/54](#) of 12 December 2019,

Welcoming the convening of the high-level meeting of the General Assembly on nuclear disarmament, on 26 September 2013, and recognizing its contribution to furthering the objective of the total elimination of nuclear weapons,

Emphasizing the importance of seeking a safer world for all and achieving peace and security in a world without nuclear weapons,

Reaffirming that effective measures of nuclear disarmament have the highest priority, as affirmed at the first special session of the General Assembly devoted to disarmament,

Convinced that nuclear disarmament and the total elimination of nuclear weapons are the only absolute guarantee against the use or threat of use of nuclear weapons,

Acknowledging the significant contribution made by a number of countries towards realizing the objective of nuclear disarmament by the establishment of nuclear-weapon-free zones, as well as by the voluntary renunciation of nuclear weapon programmes or withdrawal of all nuclear weapons from their territories, and strongly supporting the speedy establishment of a nuclear-weapon-free zone in the Middle East,

Recalling the resolve of the Heads of State and Government, as contained in the United Nations Millennium Declaration,¹ to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Reaffirming the central role of the United Nations in the field of disarmament, and reaffirming also the continued importance and relevance of multilateral disarmament machinery as mandated by the General Assembly at its first special session devoted to disarmament,

¹ Resolution [55/2](#).

Acknowledging the important role of civil society, including non-governmental organizations, academia, parliamentarians and the mass media, in advancing the objective of nuclear disarmament,

Taking note of the report of the Secretary-General submitted pursuant to resolution 74/54,² and welcoming the fact that a large number of Member States contributed their views to this report,

Noting the adoption, with a vote, of the Treaty on the Prohibition of Nuclear Weapons³ on 7 July 2017 at the United Nations conference to negotiate a legally binding instrument to prohibit nuclear weapons, leading towards their total elimination,

Mindful of the solemn obligations of States parties, undertaken in article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,⁴ particularly to pursue negotiations in good faith on effective measures relating to the cessation of the nuclear arms race at an early date and to nuclear disarmament,

Expressing its concern that improvements in existing nuclear weapons and the development of new types of nuclear weapons, as provided for in the military doctrines of some nuclear-weapon States, violate their legal obligations on nuclear disarmament, as well as the commitments made to diminish the role of nuclear weapons in their military and security policies, and contravene the negative security assurances provided by the nuclear-weapon States,

Expressing its deep concern that the negotiations in the Conference on Disarmament for the conclusion of a comprehensive convention on nuclear weapons have not yet commenced,

Determined to work collectively towards the realization of nuclear disarmament,

1. *Underlines* the strong support, expressed at the high-level meeting of the General Assembly on nuclear disarmament, held on 26 September 2013, for taking urgent and effective measures to achieve the total elimination of nuclear weapons;

Agenda item 103 (u)

75/47 Promotion of multilateralism in the area of disarmament and non-proliferation

Text

The General Assembly,

Determined to foster strict respect for the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolution 56/24 T of 29 November 2001 on multilateral cooperation in the area of disarmament and non-proliferation and global efforts against terrorism and other relevant resolutions, as well as its resolutions 57/63 of 22 November 2002, 58/44 of 8 December 2003, 59/69 of 3 December 2004, 60/59 of 8 December 2005, 61/62 of 6 December 2006, 62/27 of 5 December 2007, 63/50 of 2 December 2008, 64/34 of 2 December 2009, 65/54 of 8 December 2010, 66/32 of 2 December 2011, 67/38 of 3 December 2012, 68/38 of 5 December 2013, 69/54 of 2 December 2014, 70/31 of 7 December 2015, 71/61 of 5 December 2016, 72/48 of 4 December 2017, 73/41 of 5 December 2018 and 74/55 of 12 December 2019 on the promotion of multilateralism in the area of disarmament and non-proliferation,

Recalling also the purpose of the United Nations to maintain international peace and security and, to that end, to take effective collective measures for the prevention and removal of threats to the peace and for the suppression of acts of aggression or other breaches of the peace, and to bring about by peaceful means, and in conformity with the principles of justice and international law, adjustment or settlement of international disputes or situations which might lead to a breach of the peace, as enshrined in the Charter,

Recalling further the United Nations Millennium Declaration,¹ in which it is stated, inter alia, that the responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally and that, as the most universal and most representative organization in the world, the United Nations must play the central role,

Convinced that, in the globalization era and with the information revolution, arms regulation, non-proliferation and disarmament problems are more than ever the concern of all countries in the world, which are affected in one way or another by these problems and therefore should have the possibility to participate in the negotiations that arise to tackle them,

¹ Resolution 55/2.

Bearing in mind the existence of a broad structure of disarmament and arms regulation agreements resulting from non-discriminatory and transparent multilateral negotiations with the participation of a large number of countries, regardless of their size and power,

Aware of the need to advance further in the field of arms regulation, non-proliferation and disarmament on the basis of universal, multilateral, non-discriminatory and transparent negotiations with the goal of reaching general and complete disarmament under strict international control,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on disarmament,

Recognizing also that the proliferation and development of weapons of mass destruction, including nuclear weapons, are among the most immediate threats to international peace and security which need to be dealt with, with the highest priority,

Considering that the multilateral disarmament agreements provide the mechanism for States parties to consult one another and to cooperate in solving any problems which may arise in relation to the objective of, or in the application of, the provisions of the agreements and that such consultations and cooperation may also be undertaken through appropriate international procedures within the framework of the United Nations and in accordance with the Charter,

Stressing that international cooperation, the peaceful settlement of disputes, dialogue and confidence-building measures would make an essential contribution to the creation of multilateral and bilateral friendly relations among peoples and nations,

Being gravely concerned at the continuous and progressive erosion of multilateralism in the field of arms regulation, non-proliferation and disarmament, and recognizing that the abrogation of major instruments of the arms control and non-proliferation architecture as a result of unilateral actions by Member States in resolving their security concerns would jeopardize international peace and security and undermine confidence in the international security system as well as the foundations of the United Nations itself,

Noting that the Eighteenth Summit of Heads of State or Government of Non-Aligned Countries, held in Baku on 25 and 26 October 2019, welcomed the adoption of resolution [73/41](#) on the promotion of multilateralism in the area of disarmament and non-proliferation and underlined the fact that multilateralism and multilaterally agreed solutions, in accordance with the Charter, provide the only sustainable method of addressing disarmament and international security issues,²

² See [A/74/548](#), annex.

Reaffirming the absolute validity of multilateral diplomacy in the field of disarmament and non-proliferation, and determined to promote multilateralism as an essential way to develop arms regulation and disarmament negotiations,

1. *Reaffirms* multilateralism as the core principle in negotiations in the area of disarmament and non-proliferation with a view to maintaining and strengthening universal norms and enlarging their scope;

2. *Also reaffirms* multilateralism as the core principle in resolving disarmament and non-proliferation concerns;

3. *Urges* the participation of all interested States in multilateral negotiations on arms regulation, non-proliferation and disarmament in a non-discriminatory and transparent manner;

4. *Underlines* the importance of preserving the existing agreements on arms regulation and disarmament and the multilateral disarmament forums, which constitute an expression of the results of international cooperation and multilateral negotiations in response to the challenges facing humankind;

5. *Calls once again upon* all Member States to renew and fulfil their individual and collective commitments to multilateral cooperation as an important means of pursuing and achieving their common objectives in the area of disarmament and non-proliferation;

6. *Requests* the States parties to the relevant instruments on weapons of mass destruction to consult and cooperate among themselves in resolving their concerns with regard to cases of non-compliance as well as on implementation, in accordance with the procedures defined in those instruments, and to refrain from resorting or threatening to resort to unilateral actions or directing unverified non-compliance accusations against one another to resolve their concerns;

7. *Takes note* of the report of the Secretary-General containing the replies of Member States on the promotion of multilateralism in the area of disarmament and non-proliferation, submitted pursuant to resolution [74/55](#);³

8. *Requests* the Secretary-General to seek the views of Member States on the issue of the promotion of multilateralism in the area of disarmament and non-proliferation and to submit a report thereon to the General Assembly at its seventy-sixth session;

9. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Promotion of multilateralism in the area of disarmament and non-proliferation”.

Recognizing the important role played by civil society organizations in promoting the role of women in disarmament, non-proliferation and arms control,

Taking into consideration the impact of the coronavirus disease (COVID-19) pandemic on the progress made in gender equality, multilateral disarmament and arms control, and acknowledging that the pandemic has further exacerbated the socioeconomic conditions of vulnerable groups across the world, which has resulted in the intensification of tensions and an alarming increase in cases of domestic and gender-based armed violence,

1. *Urges* Member States, relevant subregional and regional organizations, the United Nations and the specialized agencies to promote equal opportunities for the representation of women in all decision-making processes with regard to matters related to disarmament, non-proliferation

Believing that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

Affirming the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

Noting that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly,¹

Recalling the guidelines and recommendations for regional approaches to disarmament within the context of global security adopted by the Disarmament Commission at its 1993 substantive session,²

Welcoming the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

Taking note of the recent proposals for disarmament at the regional and subregional levels,

¹ Resolution [S-10/2](#).

² *Official Records of the General Assembly, Forty-eighth Session, Supplement No. 42 (A/48/42)*, annex II.

Recognizing the importance of confidence-building measures for regional and international peace and security,

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of all States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. *Stresses* that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. *Affirms* that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

3. *Calls upon* States to conclude agreements, wherever possible, for nuclear non-proliferation, disarmament and confidence-building measures at the regional and subregional levels;

4. *Welcomes* the initiatives towards disarmament, nuclear non-proliferation and security undertaken by some countries at the regional and subregional levels;

5. *Supports and encourages* efforts aimed at promoting confidence-building measures at the regional and subregional levels to ease regional tensions and to further disarmament and nuclear non-proliferation measures at the regional and subregional levels;

6. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Regional disarmament”.

75/50 Conventional arms control at the regional and subregional levels

Text

The General Assembly,

Recalling its resolutions [48/75](#) J of 16 December 1993, [49/75](#) O of 15 December 1994, [50/70](#) L of 12 December 1995, [51/45](#) Q of 10 December 1996, [52/38](#) Q of 9 December 1997, [53/77](#) P of 4 December 1998, [54/54](#) M of 1 December 1999, [55/33](#) P of 20 November 2000, [56/24](#) I of 29 November 2001, [57/77](#) of 22 November 2002, [58/39](#) of 8 December 2003, [59/88](#) of 3 December 2004, [60/75](#) of 8 December 2005, [61/82](#) of 6 December 2006, [62/44](#) of 5 December 2007, [63/44](#) of 2 December 2008, [64/42](#) of 2 December 2009, [65/46](#) of 8 December 2010, [66/37](#) of 2 December 2011, [67/62](#) of 3 December 2012, [68/56](#) of 5 December 2013, [69/47](#) of 2 December 2014, [70/44](#) of 7 December 2015, [71/41](#) of 5 December 2016, [72/35](#) of 4 December 2017, [73/34](#) of 5 December 2018 and [74/38](#) of 12 December 2019,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Recognizing also the importance of equitable representation of women in arms control discussions and negotiations,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on Conventional Armed Forces in Europe,¹ which is a cornerstone of European security,

¹ See [CD/1064](#).

Believing that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

3. *Requests* the Secretary-General, in the meantime, to seek the views of Member States on the subject and to submit a report to the General Assembly at its seventy-sixth session;

4. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Conventional arms control at the regional and subregional levels”.

75/51 Confidence-building measures in the regional and subregional context

Text

The General Assembly,

Guided by the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolutions 58/43 of 8 December 2003, 59/87 of 3 December 2004, 60/64 of 8 December 2005, 61/81 of 6 December 2006, 62/45 of 5 December 2007, 63/45 of 2 December 2008, 64/43 of 2 December 2009, 65/47 of 8 December 2010, 66/38 of 2 December 2011, 67/61 of 3 December 2012, 68/55 of 5 December 2013, 69/46 of 2 December 2014, 70/42 of 7 December 2015, 71/39 of 5 December 2016, 72/33 of 4 December 2017, 73/35 of 5 December 2018 and 74/39 of 12 December 2019 on confidence-building measures in the regional and subregional context,

Recalling also its resolution 57/337 of 3 July 2003 on the prevention of armed conflict, in which the General Assembly calls upon Member States to settle their disputes by peaceful means, as set out in Chapter VI of the Charter, inter alia, by any procedures adopted by the parties,

Recalling further the resolutions and guidelines adopted by consensus by the General Assembly and the Disarmament Commission relating to confidence-building measures and their implementation at the global, regional and subregional levels,

Considering the importance and effectiveness of confidence-building measures taken at the initiative and with the agreement of all States concerned, and taking into account the specific characteristics of each region, since such measures can contribute to regional stability,

Convinced that resources released by disarmament, including regional disarmament, can be devoted to economic and social development and to the protection of the environment for the benefit of all peoples, in particular those of the developing countries,

Recognizing the need for meaningful dialogue among States concerned to avert conflict,

Welcoming the peace processes already initiated by States concerned to resolve their disputes through peaceful means bilaterally or through mediation, inter alia, by third parties, regional organizations or the United Nations,

Recognizing that States in some regions have already taken steps towards confidence-building measures at the bilateral, subregional and regional levels in the political and military fields, including arms control and disarmament,

and noting that such confidence-building measures have improved peace and security in those regions and contributed to progress in the socioeconomic conditions of their people,

Concerned that the continuation of disputes among States, particularly in the absence of an effective mechanism to resolve them through peaceful means, may contribute to the arms race and endanger the maintenance of international peace and security and the efforts of the international community to promote arms control and disarmament,

1. *Calls upon* Member States to refrain from the use or threat of use of force in accordance with the purposes and principles of the Charter of the United Nations;

Text

The General Assembly,

Recalling its previous resolutions on the subject of chemical weapons, in particular resolution [74/40](#) of 12 December 2019,

Determined to achieve the effective prohibition of the development, production, acquisition, transfer, stockpiling and use of chemical weapons and their destruction,

Honouring the memory of and paying tribute to all victims of chemical weapons,

Reaffirming its strong support for the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction¹ and for the Organisation for the Prohibition of Chemical Weapons and its deep appreciation of the Organisation, which was awarded the Nobel Peace Prize for 2013 for its extensive efforts to eliminate chemical weapons,

Welcoming decisions C-24/DEC.4 and C-24/DEC.5 of 27 November 2019 adopted by the Conference of the States Parties at its twenty-fourth session, introducing changes to schedules 1 (A) and 1, respectively, of the Annex on Chemicals to the Convention,

Noting the work related to the Fourth Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention, held in The Hague from 21 to 30 November 2018,

¹ United Nations, *Treaty Series*, vol. 1974, No. 33757.

Reaffirming the importance of the outcome of the Third Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention, held in The Hague from 8 to 19 April 2013 (the Third Review Conference), including its consensus final report, in which the Conference addressed all aspects of the Convention and made important recommendations on its continued implementation,

Emphasizing that the Third Review Conference welcomed the fact that the Convention is a unique multilateral agreement banning an entire category of weapons of mass destruction in a non-discriminatory and verifiable manner under strict and effective international control and noted with satisfaction that the Convention continues to be a remarkable success and an example of effective multilateralism,

Convinced that the Convention, 23 years after its entry into force, has reinforced its role as the international norm against chemical weapons, and that it constitutes a major contribution to:

- (a) International peace and security,
- (b) Eliminating chemical weapons and preventing their re-emergence,
- (c) The ultimate objective of general and complete disarmament under strict and effective international control,
- (d) Excluding completely, for the sake of all mankind, the possibility of the use of chemical weapons,

2. *Condemns in the strongest possible terms* the use of a toxic chemical as a weapon against Alexei Navalny in the Russian Federation, and notes with grave concern the note by the Technical Secretariat of the Organisation for the Prohibition of Chemical Weapons of 6 October 2020 on the summary of the report on activities carried out in support of a request for technical assistance by Germany;²

Republic and the United Kingdom, including as reported by the Joint Investigative Mechanism of the Organisation for the Prohibition of Chemical Weapons and the United Nations and by the Investigation and Identification Team of the Organisation for the Prohibition of Chemical Weapons in:

(a) The reports of the Joint Investigative Mechanism of 24 August 2016³ and 21 October 2016,⁴ which concluded that there was sufficient information to determine that the Syrian Arab Armed Forces were responsible for the attacks which released toxic substances in Talmenes, Syrian Arab Republic, on 21 April 2014, in Sarmin, Syrian Arab Republic, on 16 March 2015, and in Qmenas, Syrian Arab Republic, also on 16 March 2015, and that the so-called “Islamic State in Iraq and the Levant” used sulfur mustard in Marea, Syrian Arab Republic, on 21 August 2015;

(b) The report of the Joint Investigative Mechanism of 26 October 2017,⁵ which concluded that there was sufficient information to be confident that Islamic State in Iraq and the Levant was responsible for the use of sulfur mustard at Umm Hawsh on 15 and 16 September 2016 and that the Syrian Arab Republic was responsible for the release of sarin at Khan Shaykhun on 4 April 2017;

(c) The first report of the Investigation and Identification Team, of 8 April 2020,⁶ which concluded that there were reasonable grounds to believe that the Syrian Arab Air Force used chemical weapons in Ltamenah on 24, 25 and 30 March 2017;

and demands that the perpetrators immediately desist from any further use of chemical weapons;

4. *Takes note with great concern in that regard* of the reports of the fact-finding mission of the Organisation for the Prohibition of Chemical Weapons regarding alleged incidents in Ltamenah, Syrian Arab Republic,⁷ and regarding an alleged incident in Saraqib, Syrian Arab Republic,⁸ as well as the final report of the fact-finding mission of the Organisation regarding the incident of alleged use of toxic chemicals as a weapon in Douma, Syrian Arab Republic, which concluded there were reasonable grounds that the use of a toxic chemical as a weapon took place;⁹

5. *Recalls* the adoption of decision C-SS-4/DEC.3 of the Fourth Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention (the Fourth Review

6. *Emphasizes* that the universality of the Convention is essential to achieving its object and purpose and to enhancing the security of States parties, as well as to international peace and security, underlines the fact that the objectives of the Convention will not be fully realized as long as there remains even a single State not party to the Convention that could possess or acquire such weapons, calls upon all States that have not yet done so to become parties to the Convention without delay, and in this regard recalls the outcome of the Third Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention (the Third Review Conference);

7. *Underlines* the fact that the full, effective and non-discriminatory implementation of all articles of the Convention makes a major contribution to international peace and security through the elimination of existing stockpiles of chemical weapons and the prohibition of their acquisition and use, and provides for assistance and protection in the event of use or threat of use of chemical weapons and for international cooperation for peaceful purposes in the field of chemical activities;

8. *Notes* the impact of scientific and technological progress on the effective implementation of the Convention and the importance for the Organisation for the Prohibition of Chemical Weapons and its policymaking organs of taking due account of such developments;

9. *Reaffirms* that the obligation of the States parties to complete the destruction of chemical weapons stockpiles and the destruction or conversion of chemical weapons production facilities in accordance with the provisions of the Convention and the Annex on Implementation and Verification (Verification Annex) and under the verification of the Technical Secretariat of the Organisation for the Prohibition of Chemical Weapons is essential for the realization of the object and purpose of the Convention;

10. *Stresses* the importance to the Convention that all possessors of chemical weapons, chemical weapons production facilities or chemical weapons development facilities, including previously declared possessor States, should be among the States parties to the Convention, and welcomes progress to that end;

¹⁰ EC-96/DG.1.

11. *Recalls* that the Third Review Conference expressed concern regarding the statement made by the Director General of the Organisation for the Prohibition of Chemical Weapons in his report to the Executive Council of the Organisation at its sixty-eighth session, provided in accordance with paragraph 2 of decision C-16/DEC.11 of 1 December 2011 adopted by the Conference of the States Parties at its sixteenth session, that three possessor States parties, namely, Libya, the Russian Federation and the United States, had been unable to fully meet the final extended deadline of 29 April 2012 for the destruction of their chemical weapons stockpiles, and also expressed determination that the destruction of all categories of chemical weapons should be completed in the shortest time possible in accordance with the provisions of the Convention and the Verification Annex, and with the full application of the relevant decisions that have been taken;

12. *Welcomes* the confirmation by the Director General of the Organisation for the Prohibition of Chemical Weapons expressed in his report of 5 October 2017,¹¹ based upon information received from the Russian Federation and independent information received from the inspectors of the Organisation, regarding the completion of the full destruction of chemical weapons declared by the Russian Federation;

13. *Also welcomes* the completed destruction of Libya's remaining category 2 chemical weapons, as reported by the Director General of the Organisation for the Prohibition of Chemical Weapons in his report of 22 December 2017,¹² as well as the completed destruction by Iraq of its entire declared stockpile of chemical weapons remnants, as reported by the Director General in his report of 28 February 2018;¹³

14. *Notes with concern* that, along with the threat of the possible production, acquisition and use of chemical weapons by States, the international community also faces the danger of the production, acquisition and use of chemical weapons by non-State actors, including terrorists, concerns which have highlighted the necessity of achieving universal adherence to the Convention, as well as the high level of readiness of the Organisation for the Prohibition of Chemical Weapons, and stresses that the full and effective implementation of all provisions of the Convention, including those on national implementation (article VII) and assistance and protection (article X), constitutes an important contribution to the efforts of the United Nations in the global fight against terrorism in all its forms and manifestations;

¹¹ EC-86/DG.31.

¹² EC-87/DG.6.

¹³ EC-87/DG.18.

16. *Stresses* the importance of the Organisation for the Prohibition of Chemical Weapons in verifying compliance with the provisions of the Convention as well as in promoting the timely and efficient accomplishment of all its objectives;

17. *Expresses grave concern* that, despite the verified destruction of all 27 chemical weapons production facilities declared by the Syrian Arab Republic, the Technical Secretariat, as reported by the Director General, cannot fully verify that the Syrian Arab Republic has submitted a declaration that can be considered accurate and complete in accordance with the Convention or Executive Council decision EC-M-33/DEC.1 as well as with the conclusion of decision C-SS-4/DEC.3, of the Fourth Review Conference, that the Syrian Arab Republic failed to declare and destroy all of its chemical weapons and chemical weapons production facilities, and underscores the importance of such full verification;

18. *Urges* all States parties to the Convention to meet in full and on time their obligations under the Convention and to support the Organisation for the Prohibition of Chemical Weapons in its implementation activities;

19. *Welcomes* the progress made in the national implementation of article VII obligations, commends the States parties and the Technical Secretariat for assisting other States parties, on request, with the implementation of the follow-up to the plan of action regarding article VII obligations, urges States parties that have not fulfilled their obligations under article VII to do so without further delay, in accordance with their constitutional processes, and in this context reaffirms that full, effective and non-discriminatory implementation of article VII is essential for the realization of the object and purpose of the Convention;

20. *Emphasizes* the continuing relevance and importance of the provisions of article X of the Convention, welcomes the activities of the Organisation for the Prohibition of Chemical Weapons in relation to assistance and protection against chemical weapons, supports further efforts by both States parties and the Technical Secretariat to promote a high level of readiness to respond to chemical weapons threats as articulated in article X, and welcomes the effectiveness and efficiency of the increased focus on making full use of regional and subregional capacities and expertise, including taking advantage of established training centres;

21. *Reaffirms* that the provisions of the Convention shall be implemented in a manner that avoids hampering the economic or technological development of States parties and international cooperation in the field of chemical activities for purposes not prohibited under the Convention, including the international exchange of scientific and technical information, and chemicals and equipment for the production, processing or use of chemicals for purposes not prohibited under the Convention;

22. *Emphasizes* the importance of the provisions of article XI of the Convention relating to the economic and technological development of States parties, recalls that the full, effective and non-discriminatory implementation of those provisions contributes to universality, and reaffirms the undertaking of the States parties to foster international cooperation for peaceful purposes in the field of chemical activities of the States parties and the importance of that cooperation and its contribution to the promotion of the Convention as a whole;

23. *Notes with appreciation* the ongoing work of the Organisation for the Prohibition of Chemical Weapons to achieve the object and purpose of the Convention, to ensure the full implementation of its provisions, including those for international verification of compliance with it, and to provide a forum for consultation and cooperation among States parties;

24. *Welcomes* the cooperation between the United Nations and the Organisation for the Prohibition of Chemical Weapons within the framework of the relationship agreement between the United Nations and the Organisation,¹⁴ in accordance with the provisions of the Convention;

25. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Implementation of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction”.

Text

The General Assembly,

Recalling its resolution [74/51](#) of 12 December 2019,

Deeply concerned by the magnitude of human casualty and suffering, especially among children, caused by the illicit proliferation and use of small arms and light weapons,

Concerned by the negative impact that the illicit proliferation and use of those weapons continue to have on the efforts of States in the Sahelo-Saharan subregion in the areas of poverty eradication, sustainable development and the maintenance of peace, security and stability,

Bearing in mind the Bamako Declaration on an African Common Position on the Illicit Proliferation, Circulation and Trafficking of Small Arms and Light Weapons, adopted in Bamako on 1 December 2000,¹

Recalling the report of the Secretary-General entitled “In larger freedom: towards development, security and human rights for all”,² in which he emphasized that States must strive just as hard to eliminate the threat of small arms and light weapons as they do to eliminate the threat of weapons of mass destruction,

Recalling also the International Instrument to Enable States to Identify and Trace, in a Timely and Reliable Manner, Illicit Small Arms and Light Weapons, adopted on 8 December 2005,³

³ See decision 60/519 and [A/60/88](#) and [A/60/88/Corr.2](#), annex.

⁴ Resolution [60/1](#), para. 94.

Recalling further the decision taken by the Economic Community to establish the Small Arms Unit, responsible for advocating appropriate policies and developing and implementing programmes, as well as the establishment of the Economic Community's Small Arms Control Programme, launched on 6 June 2006 in Bamako, in replacement of the Programme for Coordination and Assistance for Security and Development,

Taking note of the latest report of the Secretary-General on the illicit trade in small arms and light weapons in all its aspects and assistance to States for curbing the illicit traffic in small arms and light weapons and collecting them,⁵

Recalling, in that regard, the decision of the European Union to significantly support the Economic Community in its efforts to combat the illicit proliferation of small arms and light weapons,

Recognizing the important role that civil society organizations play, by raising public awareness, in efforts to curb the illicit traffic in small arms and light weapons,

Recalling the report of the sixth Biennial Meeting of States to Consider the Implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects, held in New York from 6 to 10 June 2016,⁶

Agenda item 103 (o)

75/57 Reducing nuclear danger

Text

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to humankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all humankind,

Emphasizing the need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomalies or other technical malfunctions,

Conscious that limited steps relating to de-alerting and de-targeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that a diminishing role for nuclear weapons in the security policies of nuclear-weapon States would have a positive impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly¹ and by the international community,

Recalling the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons² that there exists an obligation for all States to pursue in good faith and bring to a conclusion

¹ Resolution S-10/2.

² A/51/218, annex.

negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Recalling also the call, in the United Nations Millennium Declaration,³ to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

1. *Calls for* a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons, including through de-alerting and de-targeting nuclear weapons;

2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 above;

3. *Calls upon* Member States to take the measures necessary to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;

4. *Takes note* of the report of the Secretary-General submitted pursuant to paragraph 5 of its resolution [74/44](#) of 12 December 2019;⁴

5. *Requests* the Secretary-General to intensify efforts and support initiatives that would contribute to the full implementation of the seven recommendations identified in the report of the Advisory Board on Disarmament Matters that would significantly reduce the risk of nuclear war,⁵ and also to continue to encourage Member States to consider the convening of an international conference, as proposed in the United Nations Millennium Declaration, to identify ways of eliminating nuclear dangers, and to report thereon to the General Assembly at its seventy-sixth session;

6. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Reducing nuclear danger”.

75/59 Countering the threat posed by improvised explosive devices

Text

The General Assembly,

Recalling its resolutions [70/46](#) of 7 December 2015, [71/72](#) of 5 December 2016, [72/36](#) of 4 December 2017 and [73/67](#) of 5 December 2018,

Expressing grave concern over the devastation caused by the increasing use of improvised explosive devices by illegal armed groups, terrorists and other unauthorized recipients,¹ which has affected a large number of countries and has resulted in thousands of casualties, both civilian and military, and in this regard stressing the need for all actors to comply with applicable international law at all times,

Expressing concern over the increased use of and sophistication of the design and means of detonation of improvised explosive devices,

Expressing profound concern at the indiscriminate use and effects of improvised explosive devices and at the increasing humanitarian impact of such attacks on civilian populations worldwide, in particular through the perpetration of terrorist acts, and noting the need for a comprehensive approach in addressing this concern,

Expressing concern at the serious harm that such improvised explosive device attacks have caused to United Nations staff and peacekeepers, and to humanitarian workers, by threatening their lives, increasing the cost of their activities, limiting their freedom of movement and affecting their ability to effectively deliver on their mandates,

Expressing concern also about the negative impact of these attacks on socioeconomic development, infrastructure and freedom of movement, and on the security and stability of States, and thus underlining the need to address this issue in order to achieve relevant goals and targets under the 2030 Agenda for Sustainable Development,² in particular target 16.1 on significantly reducing all forms of violence and related death rates everywhere,

Urging Member States to ensure that any measures taken or means employed to implement the present resolution comply with international law, in particular the Charter of the United Nations, applicable international humanitarian law and human rights law,

¹ See resolution [69/51](#), [A/CONF.192/BMS/2014/2](#), [A/71/187](#) and Security Council resolution [2370 \(2017\)](#).

² Resolution [70/1](#).

Recognizing the importance of full involvement and equal opportunities for participation for both women and men in countering the threat posed by improvised explosive devices,

Underlining the importance of addressing the threat of improvised explosive devices and their differential impacts on women, girls, boys and men,

Recognizing that the wide spectrum of materials that can be used for the manufacture of improvised explosive devices, including those sourced from the military and civilian industry, contributes to their diverse nature and their deployment methods, which thus requires an appropriate approach to the formulation of measures to counter them,

Noting that the impact of improvised explosive devices spans a wide array of policy areas and that, owing to the extent of the cross-cutting nature of the issue, a whole-of-government approach focusing on the capacity of Governments to effectively bring together several policy strands for comprehensive action is essential,

Underlining the important role that States can play in raising awareness among private sector and other entities about the possible theft, diversion and misuse of their products to make improvised explosive devices, with a view to enabling those entities to develop effective strategies to counter the threat of improvised explosive devices,³ including to prevent the adverse impact of the diversion of materials and the potential loss of revenue and risk to reputation, either in a partnership with governmental authorities, or through business-to-business processes or activities,

Noting existing industry-led initiatives that seek to increase industry oversight and accountability along the supply chain for precursor components, and encouraging States to engage, as appropriate, with private sector industry actors in supporting such initiatives,

Noting also the contribution of good governance, the promotion of human rights, the rule of law, adherence to the principles of the Charter and sustained and inclusive socioeconomic growth, including through effective measures and mechanisms for persons belonging to vulnerable groups, as important elements in comprehensively addressing the issue of improvised explosive devices, in particular in post-conflict situations,

Stressing the paramount need to prevent illegal armed groups, terrorists and other unauthorized recipients from, and identify the networks that support them in, obtaining, handling, financing, storing, using or seeking access to all types of explosives, whether military or civilian, as well as other military or civilian materials and components that can be used to manufacture improvised

explosive devices, including detonators, detonating cords and chemical components, while at the same time avoiding any undue restrictions on the legitimate use of those materials,

Recalling, in this context, relevant resolutions on the prevention of the acquisition of weapons by terrorists, including improvised explosive device components, and their transfer to and between terrorists, associated groups and other illegal armed groups and criminals,⁴

Recalling also relevant resolutions on improvised explosive device threat mitigation, including those addressing the indiscriminate use of improvised explosive devices and the impact on peacekeeping operations, special political missions and humanitarian responses,⁵

Stressing the importance of effectively securing conventional ammunition stockpiles in order to mitigate the risk of their diversion to illicit use as materials for improvised explosive devices, and noting the voluntary, practical International Ammunition Technical Guidelines in this regard,

Stressing also the importance of engagement by all Member States in a comprehensive and coordinated community of action to counter the global threat posed by improvised explosive devices in the hands of illegal armed groups, terrorists and other unauthorized recipients, taking into account national capacities,

Noting that, at the global level, organizations across many sectors have expertise that can contribute to a useful set of measures for the mitigation of improvised explosive devices, and noting also the value of considered and coordinated efforts by various stakeholders, including intergovernmental and regional organizations and industry associations, with a view to investing effectively in coordination and information exchange,

Noting also the discussions on the issue of improvised explosive devices by the informal group of experts under the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby Traps and Other Devices as amended on 3 May 1996 (Amended Protocol II)⁶ and on the technical annex to the Protocol on Explosive Remnants of War (Protocol V)⁷ to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,⁸ and further noting that, for States parties thereto, anti-personnel mines of an improvised nature also fall within the scope of the Convention

on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction,⁹

Noting further the multilateral efforts to counter improvised explosive devices of the Programme Global Shield, led by the World Customs Organization and assisted by the International Criminal Police Organization (INTERPOL) and the United Nations Office on Drugs and Crime, to prevent the smuggling and illicit diversion of precursor chemicals that could be used to build improvised explosive devices, the network of regional and multilateral communities of action established by States to counter improvised explosive devices, the research on those devices undertaken by the United Nations Institute for Disarmament Research and the work undertaken by the Mine Action Service of the United Nations to mitigate the threat posed by those devices to civilians, United Nations staff, peacekeepers and humanitarian personnel, in particular in the field,

Recalling the International Convention for the Suppression of Terrorist Bombings¹⁰ and the United Nations Global Counter-Terrorism Strategy¹¹ and the efforts undertaken to strengthen the capability of the United Nations system to assist Member States in implementing the Strategy, including through the establishment of the Office of Counter-Terrorism,¹²

Reaffirming the inherent right of Member States to individual or collective self-defence in accordance with Article 51 of the Charter,

1. *Takes note* of the report of the Secretary-General submitted pursuant to resolution [73/67](#),¹³ including the recommendations contained therein;

2. *Recognizes* that existing approaches in multilateral arms regulation, while valuable, do not fully address the use of improvised explosive devices in conflict and immediate post-conflict environments, and therefore strongly urges States to develop and implement, where appropriate, all national measures, including outreach and partnerships with relevant actors, including the private sector, necessary to promote awareness, vigilance and good practices among their nationals, persons subject to their jurisdiction and firms incorporated in their territory or subject to their jurisdiction that are involved in the production, sale, supply, purchase, transfer and/or storage of precursor components and materials that could be used to make improvised explosive devices;

3. *Strongly encourages* States, where appropriate, to develop and adopt their own national policy to counter improvised explosive devices that

Recognizing the usefulness of the disarmament and non-proliferation education website “Disarmament education: resources for learning”, which is updated on a regular basis by the Office for Disarmament Affairs of the Secretariat, including to provide information in all its sections, such as presentations, interviews in the *Disarmament Today* series of podcasts, which include the experiences of the hibakusha, the atomic bomb survivors, films and publications on disarmament issues, and encouraging the use of the advances in new information and communications technologies and social media for the promotion of disarmament and non-proliferation education,

Emphasizing that efforts need to be continued to implement the recommendations of the study and follow the good examples of how they are being implemented to stimulate even further long-term results, including the assistance of Member States to academia and civil society in their important disarmament and non-proliferation pedagogical activities,

Desirous of stressing the urgency of promoting concerted international efforts at disarmament and non-proliferation, in particular in the field of nuclear

Conscious of the need to combat the negative effects of cultures of violence and complacency in the face of current dangers in this field through long-term programmes of education and training,

Remaining convinced that the need for disarmament and non-proliferation education and critical thinking skills, particularly among youth, has never been greater, not only on the subject of weapons of mass destruction but also in the field of small arms and light weapons, terrorism and other challenges to international security and the process of disarmament, as well as on the relevance of implementing the recommendations contained in the United Nations study,

75/62 Implementation of the Convention on Cluster Munitions

Text

The General Assembly,

Recalling its resolutions [63/71](#) of 2 December 2008 on the Convention on Cluster Munitions and [70/54](#) of 7 December 2015, [71/45](#) of 5 December 2016, [72/54](#) of 4 December 2017, [73/54](#) of 5 December 2018 and [74/62](#) of 12 December 2019 on the implementation of the Convention,

Reaffirming its determination to put an end for all time to the suffering and casualties caused by cluster munitions at the time of their use, when they fail to function as intended or when they are abandoned,

Deploing the recent cases of cluster munitions use and related civilian casualties, and calling upon those who continue to use cluster munitions to cease any such activity immediately,

Conscious that cluster munition remnants kill or maim civilians, including women and children, obstruct economic and social development, including through the loss of livelihood, impede post-conflict rehabilitation and reconstruction, delay or prevent the return of refugees and internally displaced persons, can have a negative impact on national and international peacebuilding and humanitarian assistance efforts, and have other severe consequences for many years after use,

Concerned about the dangers presented by the large national stockpiles of cluster munitions retained for operational use, and determined to ensure their rapid destruction,

Recognizing the impact of cluster munitions on women, men, girls and boys and the importance of relevant States providing adequate, gender- and age-sensitive assistance to victims of cluster munitions,

Believing it necessary to contribute effectively in an efficient, coordinated manner to resolving the challenge of removing cluster munition remnants located throughout the world, and to ensure their destruction,

Mindful of the need to adequately coordinate efforts undertaken in various forums, including through the Convention on the Rights of Persons with Disabilities,¹ to address the rights and needs of victims of various types of weapons, and resolved to avoid discrimination among victims of various types of weapons,

¹ United Nations, *Treaty Series*, vol. 2515, No. 44910.

Reaffirming that in cases not covered by the Convention on Cluster Munitions² or by other international agreements, civilians and combatants remain under the protection and authority of the principles of international law, derived from established custom, from the principles of humanity and from the dictates of public conscience,

Welcoming the steps taken nationally, regionally and globally in recent years aimed at prohibiting, restricting or suspending the use, stockpiling, production and transfer of cluster munitions, and welcoming also in this regard that, since 2014, all Central American States have joined the Convention, thus fulfilling their aspiration to become the first cluster munitions-free region in the world,

Stressing the role of public conscience in furthering the principles of humanity, as evidenced by the global call for an end to civilian suffering caused by cluster munitions, and recognizing the efforts to that end undertaken by the United Nations, the International Committee of the Red Cross, the Cluster Munition Coalition and numerous other non-governmental organizations around the world,

Noting that a total of 123 States have joined the Convention, 110 as States parties and 13 as signatories,

Noting also that 2020 marks the tenth anniversary of the entry into force of the Convention, and emphasizing the need to make further efforts in accelerating the universalization process,

Taking note of the initiative of the Secretary-General, *Securing Our Common Future: An Agenda for Disarmament*, in particular part III entitled “Disarmament that saves lives”,

Taking note also of the 2015 Dubrovnik Declaration³ and the Dubrovnik Action Plan⁴ adopted at the first Review Conference of States Parties to the Convention on Cluster Munitions, held in Dubrovnik, Croatia, from 7 to 11 September 2015,

Taking note further of the political declaration establishing 2030 as a target date to implement all individual and collective outstanding obligations under the Convention as adopted by consensus under the presidency of the Netherlands at the sixth Meeting of States Parties to the Convention on Cluster Munitions, held in Geneva from 5 to 7 September 2016,⁵

Welcoming the dialogue undertaken by the German presidency of the seventh Meeting of States Parties with States not parties to the Convention, including the military-to-military dialogue, in support of universal adherence

² Ibid., vol. 2688, No. 47713.

to the Convention, and recognizing the assistance that the country coalition concept can provide to affected countries in the implementation of their obligations under the Convention,

Noting with satisfaction the progress made in the full and effective implementation of the Convention, while being mindful of the important challenges remaining in the fulfilment of this goal,

Recognizing the importance of full involvement and equal opportunities for the meaningful participation of women and men in disarmament processes, policy and programming decisions related to the Convention,

1. *Urges* all States outside the Convention on Cluster Munitions to join as soon as possible, whether by ratifying or acceding to it, and all States parties that are in a position to do so to promote adherence to the Convention through bilateral, subregional and multilateral contacts, outreach and other means;

2. *Stresses* the importance of the full and effective implementation of and compliance with the Convention, including through the implementation of the Dubrovnik Action Plan;

3. *Expresses strong concern* regarding the number of allegations, reports or documented evidence of the use of cluster munitions in different parts of the world, related civilian casualties and other consequences that impede the achievement of sustainable development;

4. *Urges* all States parties to provide the Secretary-General with complete and timely information as required under article 7 of the Convention in order to promote transparency and compliance with the Convention;

5. *Invites* all States that have not ratified the Convention or acceded to it to provide, on a voluntary basis, information that could make the clearance and destruction of cluster munition remnants and related activities more effective;

6. *Reiterates* the invitation to States not parties to participate in a continued dialogue on issues relevant to the Convention in order to enhance its humanitarian impact and to promote its universalization, as well as to engage in a military-to-military dialogue in order to address specific security issues related to cluster munitions;

7. *Reiterates its invitation and encouragement* to all States parties, interested States, the United Nations, other relevant international organizations or institutions, regional organizations, the International Committee of the Red Cross, the Cluster Munition Coalition and other relevant non-governmental organizations to participate in the upcoming formal meetings under the Convention;

8. *Invites and encourages* all interested States, the United Nations, other relevant international organizations or institutions, regional

organizations, the International Committee of the Red Cross and relevant non-governmental organizations to attend the second Review Conference of the States Parties to the Convention, to be held in Lausanne, Switzerland, from 23 to 27 November 2020, and to participate in the future programme of meetings of the States parties to the Convention;

9. *Requests* the Secretary-General to continue to convene the Meetings of States Parties to the Convention on Cluster Munitions and to continue to render the necessary assistance and to provide such services as may be necessary to fulfil the tasks entrusted to him under the Convention and in the relevant decisions of the Meetings of States Parties and the second Review Conference;

10. *Calls upon* States parties and participating States to address issues arising from outstanding dues, including options to ensure sustainable financing for all formal meetings and prompt payment of respective shares of the estimated costs;

11. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Implementation of the Convention on Cluster Munitions”.

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the establishment of a nuclear-weapon-free world,

Bearing in mind that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction of 1972¹ and the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction of 1993² have already established legal regimes on the complete prohibition of biological and chemical weapons, respectively, and determined to achieve a comprehensive nuclear weapons convention on the prohibition of the development, testing, production, stockpiling, loan, transfer, use and threat of use of nuclear weapons and on their destruction, and to conclude such an international convention at an early date,

Recognizing the urgent need to take concrete practical steps towards achieving the establishment of a world free of nuclear weapons,

Bearing in mind paragraph 50 of the Final Document of the Tenth Special Session of the General Assembly, the first special session devoted to disarmament,³ calling for the urgent negotiation of agreements for the cessation of the qualitative improvement and development of nuclear-weapon systems and for a comprehensive and phased programme with agreed time

frames, wherever feasible, for the progressive and balanced reduction of nuclear weapons and their means of delivery, leading to their ultimate and complete elimination at the earliest possible time,

Reaffirming the conviction of the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons⁴ that the Treaty is a cornerstone of nuclear non-proliferation and nuclear disarmament, and the importance of the decision on strengthening the review process for the Treaty, the decision on principles and objectives for nuclear non-proliferation and disarmament, the decision on the extension of the Treaty and the resolution on the Middle East, adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁵

Stressing the importance of the 13 steps for the systematic and progressive efforts to achieve the objective of nuclear disarmament leading to the total elimination of nuclear weapons, as agreed to by the States parties in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁶

Recognizing the important work done at the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁷ and affirming its 22-point action plan on nuclear disarmament as an impetus to intensify work aimed at beginning negotiations for a nuclear weapons convention,

Reaffirming the continued validity of agreements reached at the 1995 Review and Extension Conference and the 2000 and 2010 Review Conferences until all their objectives are achieved, and calling for their full and immediate fulfilment, including the action plan on nuclear disarmament adopted at the 2010 Review Conference,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on nuclear disarmament, and that bilateral negotiations can never replace multilateral negotiations in this respect,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States, without exception or discrimination, against the use or threat of use of nuclear weapons under any circumstances, and the multilateral efforts in the Conference to reach agreement on such an international convention at an early date,

Recalling the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons, issued on 8 July 1996,⁹ and welcoming the unanimous reaffirmation by all judges of the Court that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Recalling also paragraph 176 of the Final Document of the Seventeenth Conference of Heads of State or Government of Non-Aligned Countries, held on Margarita Island, Bolivarian Republic of Venezuela, from 13 to 18 September 2016, in which the Conference on Disarmament was called upon to agree on a balanced and comprehensive programme of work by, inter alia, establishing an ad hoc committee on nuclear disarmament as soon as possible and as the highest priority, while the necessity was emphasized of starting negotiations in the Conference on Disarmament, without further delay, on a comprehensive nuclear weapons convention that sets, inter alia, a phased programme for the complete elimination of nuclear weapons within a specified framework of time,

Noting the adoption of the programme of work for the 2009 session by the Conference on Disarmament on 29 May 2009,¹⁰ after years of stalemate, and regretting that the Conference did not succeed in reaching consensus on a programme of work for its 2020 session,

Welcoming the proposals submitted by the States members of the Conference on Disarmament that are members of the Group of 21 on the follow-up to the 2013 high-level meeting of the General Assembly on nuclear disarmament, pursuant to Assembly resolution [68/32](#) of 5 December 2013, as contained in documents of the Conference,¹¹

Reaffirming the importance and validity of the Conference on Disarmament as the sole multilateral disarmament negotiating forum, and expressing the need to adopt and implement a balanced and comprehensive programme of work on the basis of its agenda and dealing with, inter alia, four core issues, in accordance with the rules of procedure,¹² and by taking into consideration the security concerns of all States,

Reaffirming also the specific mandate conferred upon the Disarmament Commission by the General Assembly, in its decision 52/492 of 8 September 1998, to discuss the subject of nuclear disarmament as one of its main substantive agenda items,

Recalling the United Nations Millennium Declaration,¹³ in which Heads of State and Government resolved to strive for the elimination of weapons of mass destruction, in particular nuclear weapons, and to keep all options open for achieving that aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Underlining the importance of convening, as a priority, a United Nations high-level international conference on nuclear disarmament to review the progress made in this regard,

6. *Urges* the nuclear-weapon States to stop immediately the qualitative improvement, development, production and stockpiling of nuclear warheads and their delivery systems;

7. *Also urges* the nuclear-weapon States, as an interim measure, to de-alert and deactivate immediately their nuclear weapons and to take other concrete measures to reduce further the operational status of their nuclear-weapon systems, while stressing that reductions in deployments and in operational status cannot substitute for irreversible cuts in and the total elimination of nuclear weapons;

8. *Reiterates its call upon* the nuclear-weapon States to carry out effective nuclear disarmament measures with a view to achieving the total elimination of nuclear weapons within a specified framework of time;

article VI of the Treaty, and the reaffirmation by the States parties that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons;¹⁷

13. *Calls for* the full and effective implementation of the 13 practical steps for nuclear disarmament contained in the Final Document of the 2000 Review Conference;

14. *Also calls for* the full implementation of the action plan as set out in the conclusions and recommendations for follow-on actions of the Final Document of the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, particularly the 22-point action plan on nuclear disarmament;

15. *Urges* the nuclear-weapon States to carry out further reductions of non-strategic nuclear weapons, including on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;

16. *Calls for* the immediate commencement of negotiations in the Conference on Disarmament, in the context of an agreed, comprehensive and balanced programme of work, on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices on the basis of the report of the Special Coordinator¹⁸ and the mandate contained therein;

17. *Urges* the Conference on Disarmament to commence as early as possible its substantive work during its 2021 session, on the basis of a comprehensive and balanced programme of work that takes into consideration all the real and existing priorities in the field of disarmament and arms control, including the immediate commencement of negotiations on a comprehensive nuclear weapons convention;

18. *Calls for* the conclusion of an international legal instrument on unconditional security assurances to non-nuclear-weapon States against the threat or use of nuclear weapons under any circumstances;

19. *Also calls for* the early entry into force, universalization and strict observance of the Comprehensive Nuclear-Test-Ban Treaty as a contribution to nuclear disarmament, while welcoming the latest signatory to the Treaty, Tuvalu, on 25 September 2018, and its latest ratification, by Zimbabwe, on 13 February 2019;

20. *Reiterates its call upon* the Conference on Disarmament to establish, as soon as possible and as the highest priority, an ad hoc committee

¹⁷ 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, vol. I (NPT/CONF.2000/28 (Parts I and II)), part I, section entitled “Article VII and the security of non-nuclear-weapon States”, para. 2.

75/65 Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments

Text

The General Assembly,

Recalling its resolutions 1 (I) of 24 January 1946, 71/54 of 5 December 2016, 72/39 of 4 December 2017, 73/70 of 5 December 2018 and 74/46 of 12 December 2019,

Noting the twenty-second anniversary of the launch of the New Agenda Coalition and the joint declaration outlining a new agenda for disarmament, adopted in Dublin on 9 June 1998,¹

Recalling the seventy-fifth anniversary of the atomic bombings of Hiroshima and Nagasaki, which demonstrated the devastating humanitarian consequences of nuclear weapons,

Mindful of the seventy-fifth anniversary of the United Nations, which was established to save succeeding generations from suffering the scourge of war, representing a historic opportunity to reaffirm that nuclear weapons should never be used again and to advance nuclear disarmament,

Recalling the fiftieth anniversary of the entry into force of the Treaty on the Non-Proliferation of Nuclear Weapons,² the cornerstone of nuclear disarmament and non-proliferation,

Welcoming the Secretary-General's disarmament agenda, *Securing Our Common Future: An Agenda for Disarmament*, and emphasizing the importance of its implementation,

Reiterating its grave concern at the danger to humanity posed by nuclear weapons, which should inform all deliberations, decisions and actions relating to nuclear disarmament and nuclear non-proliferation,

Recalling the expression of deep concern by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons at the catastrophic humanitarian consequences of any use of nuclear weapons, and its resolve to seek a safer world for all and to achieve the peace and security of a world without nuclear weapons,³

¹ A/53/138, annex.

² United Nations, *Treaty Series*, vol. 729, No. 10485.

³ See *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vol. I (NPT/CONF.2010/50 (Vol. I)), part I, *Conclusions and recommendations for follow-on actions*.

Noting with satisfaction the renewed attention to the catastrophic humanitarian consequences and risks associated with nuclear weapons that has been generated by the international community since 2010 and the growing awareness that these concerns should underpin the need for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, and noting with satisfaction also the prominence accorded to the humanitarian impact of nuclear weapons in multilateral disarmament forums,

Recalling the discussions held at the Conferences on the Humanitarian Impact of Nuclear Weapons, hosted by Norway, on 4 and 5 March 2013, Mexico, on 13 and 14 February 2014, and Austria, on 8 and 9 December 2014, aimed at understanding and developing a greater awareness of the catastrophic consequences of nuclear weapon detonations which further reinforce the urgency of nuclear disarmament,

Emphasizing the compelling evidence, including that presented at the Conferences on the Humanitarian Impact of Nuclear Weapons, that has detailed the catastrophic consequences that would result from any nuclear weapon detonation, reaching well beyond national borders and also imperilling the achievement of the Sustainable Development Goals,⁴ the lack of capacity of States and international organizations to deal with the aftermath and the risk of an occurrence, including an occurrence due to an accident, systems failure or human error,

Noting the strongly disproportionate and gendered impact of exposure to ionizing radiation for women and girls,

Welcoming the commemoration and promotion of 26 September as the International Day for the Total Elimination of Nuclear Weapons, as established by resolution [68/32](#) of 10 December 2013,

Welcoming also the adoption on 7 July 2017 of the Treaty on the Prohibition of Nuclear Weapons, negotiated by the United Nations conference to negotiate a legally binding instrument to prohibit nuclear weapons, leading towards their total elimination, pursuant to resolution [71/258](#) of 23 December 2016,⁵

Underlining the importance of nuclear disarmament and non-proliferation education,

Reaffirming that nuclear disarmament and nuclear non-proliferation are mutually reinforcing processes requiring urgent irreversible progress on both fronts,

Recalling the decisions and the resolution adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation

of Nuclear Weapons,⁶ the basis upon which the Treaty was indefinitely extended, and the Final Documents of the 2000⁷ and the 2010⁸ Review Conferences of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, and in particular the unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament, in accordance with commitments made under article VI of the Treaty,

Reaffirming that transparency, verifiability and irreversibility are cardinal principles applying to nuclear disarmament and nuclear non-proliferation, and reaffirming also the commitment of all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to applying these principles in relation to the implementation of their treaty obligations,

Recognizing the continued vital importance of the entry into force of the Comprehensive Nuclear-Test-Ban Treaty⁹ to the advancement of nuclear disarmament and nuclear non-proliferation objectives,

Recalling that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons and the legitimate interest of non-nuclear-weapon States in receiving unequivocal and legally binding negative security assurances from nuclear-weapon States pending the total elimination of nuclear weapons,

Reaffirming the conviction that, pending the total elimination of nuclear weapons, the establishment and maintenance of nuclear-weapon-free zones enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objectives of nuclear disarmament, and welcoming the Conferences of States Parties and Signatories to Treaties that Establish Nuclear-Weapon-Free Zones and Mongolia,

Urging States to continue to make real progress towards strengthening all existing nuclear-weapon-free zones, inter alia, through the ratification of existing treaties and relevant protocols and the withdrawal or revision of any reservations or interpretative declarations contrary to the object and purpose of the treaties establishing such zones,

⁶ See *1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, Part I* (NPT/CONF.1995/32 (Part I) and NPT/CONF.1995/32 (Part I)/Corr.2), annex.

⁷ *2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vols. I–III (NPT/CONF.2000/28 (Parts I and II), NPT/CONF.2000/28 (Part III) and NPT/CONF.2000/28 (Part IV)).

⁸ *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vols. I–III (NPT/CONF.2010/50 (Vol. I), NPT/CONF.2010/50 (Vol. II) and NPT/CONF.2010/50 (Vol. III)).

⁹ See resolution 50/245 and A/50/1027.

Recalling the encouragement expressed at the 2010 Review Conference for the establishment of further nuclear-weapon-free zones, on the basis of arrangements freely arrived at among the States of the region concerned, reaffirming the expectation that this will be followed by concerted international efforts to create such zones in areas where they do not currently exist, especially in the Middle East, in this context noting with deep disappointment the non-fulfilment of the agreement at the 2010 Review Conference on practical steps to fully implement the 1995 resolution on the Middle East, and disappointed that no agreement could be reached at the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on this issue,

Acknowledging its decision 73/546 of 22 December 2018, in which it decided to entrust to the Secretary-General the convening of a conference aimed at elaborating a treaty on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction, on the basis of arrangements freely arrived at by the States of the region, and acknowledging also the successful organization of the first session of the conference held on the establishment of the zone,

Deeply disappointed at the continued absence of progress towards multilateral nuclear disarmament at the Conference on Disarmament, which has been unable for the past 24 years to agree upon and implement a programme of work, and disappointed that the Disarmament Commission has not produced a substantive outcome on nuclear disarmament since 1999,

Deeply regretting the lack of any substantive outcome of the 2015 Review Conference, as it missed an opportunity to strengthen the Treaty on the Non-Proliferation of Nuclear Weapons, enhance progress towards its full implementation and universality and monitor the implementation of commitments made and actions agreed upon at the 1995, 2000 and 2010 Review Conferences, and deeply concerned about the impact of this failure on the Treaty and the balance between its three pillars,

Noting with serious concern the rising tensions in international relations and the increased prominence being given by some States to nuclear weapons in their security doctrines, as well as the extensive modernization programmes under way, all of which contribute to the erosion of the disarmament and non-proliferation regime,

Noting with regret that, owing to the coronavirus disease (COVID-19) pandemic, the 2020 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons had to be postponed, emphasizing the importance of holding a constructive, comprehensive and successful meeting that results in a substantive outcome at the 2020 Review Conference, urging all Member States to step up their efforts in this regard, and emphasizing also the vital importance of ensuring that the 2020 Review Conference contributes

to the strengthening of the Treaty on the Non-Proliferation of Nuclear Weapons and making progress towards achieving its full implementation and universality, and monitors the implementation of commitments made and actions agreed upon at the 1995, 2000 and 2010 Review Conferences,

Welcoming that the Russian Federation and the United States have completed the nuclear weapon reductions agreed under the Treaty on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, while re-emphasizing the encouragement of the 2000 and 2010 Review Conferences to both States to continue discussions on follow-on measures in order to achieve deeper reductions in their nuclear arsenals, and urging in this regard both States to extend this Treaty and conclude negotiations on a successor agreement as soon as possible,

Underlining the importance of multilateralism in relation to nuclear disarmament, while recognizing the value of unilateral, bilateral and regional initiatives and the importance of compliance with the terms of these initiatives,

1. *Reiterates* that each article of the Treaty on the Non-Proliferation of Nuclear Weapons is binding on the States parties at all times and in all circumstances and that all States parties should be held fully accountable with respect to strict compliance with their obligations under the Treaty, and calls upon all States parties to comply fully with all decisions, resolutions and commitments made at the 1995, 2000 and 2010 Review Conferences;

2. *Also reiterates* the deep concern expressed by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons at the catastrophic humanitarian consequences of any use of nuclear weapons, and the need for all States at all times to comply with applicable international law, including international humanitarian law;

3. *Acknowledges* the evidence presented at the Conferences on the Humanitarian Impact of Nuclear Weapons, and calls upon Member States, in their relevant decisions and actions, to give due prominence to the humanitarian imperatives that underpin nuclear disarmament and to the urgency of achieving this goal;

4. *Recalls* the reaffirmation of the continued validity of the practical steps agreed to in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹⁰ including the specific reaffirmation of the unequivocal undertaking of the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties are committed under article VI of the Treaty, recalls the commitment of the nuclear-weapon States to accelerating concrete progress on the steps leading to nuclear

disarmament, and calls upon the nuclear-weapon States to take all steps necessary to accelerate the fulfilment of their commitments;

5. *Calls upon* the nuclear-weapon States to fulfil their commitment to undertaking further efforts to reduce and ultimately eliminate all types of nuclear weapons, deployed and non-deployed, including through unilateral, bilateral, regional and multilateral measures;

6. *Urges* all States possessing nuclear weapons to decrease the operational readiness of nuclear-weapon systems in a verifiable and transparent manner with a view to ensuring that all nuclear weapons are removed from high alert status;

7. *Encourages* the nuclear-weapon States to make concrete reductions in the role and significance of nuclear weapons in all military and security concepts, doctrines and policies, pending their total elimination;

8. *Encourages* all States that are part of regional alliances that include nuclear-weapon States to diminish the role of nuclear weapons in their collective security doctrines, pending their total elimination;

9. *Underlines* the recognition by States parties to the Treaty on the Non-Proliferation of Nuclear Weapons of the legitimate interest of non-nuclear-weapon States in the constraining by the nuclear-weapon States of the development and qualitative improvement of nuclear weapons and their ending the development of advanced new types of nuclear weapons, and calls upon the nuclear-weapon States to take steps in this regard;

10. *Notes with concern* recent policy statements by nuclear-weapon States relating to the modernization of their nuclear weapon programmes, which undermine their commitments to nuclear disarmament and increase the risk of the use of nuclear weapons and the potential for a new arms race;

11. *Encourages* further steps by all nuclear-weapon States, in accordance with the previous obligations and commitments on nuclear disarmament, to ensure the irreversible removal of all fissile material designated by each nuclear-weapon State as no longer required for military purposes, and calls upon all States to support, within the context of the International Atomic Energy Agency, the development of appropriate nuclear disarmament verification capabilities and legally binding verification arrangements, thereby ensuring that such material remains permanently outside military programmes in a verifiable manner;

12. *Calls upon* all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to work towards the full implementation of the resolution on the Middle East adopted at the 1995 Review and Extension Conference of

the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹¹ which is inextricably linked to the indefinite extension of the Treaty, and expresses disappointment and deep concern at the lack of a substantive outcome of the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, including on the process to establish a Middle East zone free of nuclear weapons and all other weapons of mass destruction as contained in the 1995 resolution on the Middle East, which remains valid until fully implemented;

13. *Urges* the co-sponsors of the 1995 resolution on the Middle East to exert their utmost efforts with a view to ensuring the early establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction as contained in the 1995 resolution on the Middle East, including through support for the convening of the conference on the establishment of such a zone;

14. *Stresses* the fundamental role of the Treaty on the Non-Proliferation of Nuclear Weapons in achieving nuclear disarmament and nuclear non-proliferation, and looks forward to the Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons once it has been rescheduled;

15. *Calls upon* all States parties to spare no effort to achieve the universality of the Treaty on the Non-Proliferation of Nuclear Weapons, and in this regard urges India, Israel and Pakistan to accede to the Treaty as non-nuclear-weapon States promptly and without conditions, and to place all their nuclear facilities under International Atomic Energy Agency safeguards;

16. *Notes with encouragement* the dialogue and discussions held with the Democratic People's Republic of Korea, including the recent inter-Korean summits, and the summit between the United States and the Democratic People's Republic of Korea, urges the Democratic People's Republic of Korea to fulfil its commitments, to abandon all nuclear weapons and existing nuclear programmes, to return, at an early date, to the Treaty on the Non-Proliferation of Nuclear Weapons and to adhere to its International Atomic Energy Agency safeguards agreement,¹² with a view to achieving the denuclearization of the Korean Peninsula in a peaceful manner;

17. *Urges* all States to work together to overcome obstacles within the international disarmament machinery that are inhibiting efforts to advance the cause of nuclear disarmament in a multilateral context, and once again urges the Conference on Disarmament to commence immediately substantive work that advances the agenda of nuclear disarmament, particularly through multilateral negotiations;

¹¹ See *1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, Part I* (NPT/CONF.1995/32 (Part I) and NPT/CONF.1995/32 (Part I)/Corr.2), annex.

¹² United Nations, *Treaty Series*, vol. 1677, No. 28986.

18. *Urges* all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to fully implement without delay their obligations and commitments under the Treaty and as agreed to at the 1995, 2000 and 2010 Review Conferences;

19. *Also urges* all State parties to the Treaty on the Non-Proliferation of Nuclear Weapons to move forward with urgency in implementing their article VI obligations in order to ensure the good standing of the Treaty and its review process;

20. *Urges* the nuclear-weapon States to implement their nuclear disarmament obligations and commitments, both qualitative and quantitative, in a manner that enables all States parties to regularly monitor progress, including through a standard detailed reporting format, thereby enhancing confidence and trust not only among the nuclear-weapon States but also between the nuclear-weapon States and the non-nuclear-weapon States and contributing to nuclear disarmament;

21. *Also urges* the nuclear-weapon States to include in their reports to be submitted during the 2020 review cycle of the Treaty on the Non-Proliferation of Nuclear Weapons concrete and detailed information concerning the implementation of their obligations and commitments on nuclear disarmament;

22. *Encourages* States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to improve the measurability of the implementation of nuclear disarmament obligations and commitments, including through tools such as a set of benchmarks, timelines and/or similar criteria, in order to ensure and facilitate the objective evaluation of progress;¹³

23. *Urges* Member States to pursue multilateral negotiations without delay in good faith on effective measures for the achievement and maintenance of a nuclear-weapon-free world, in keeping with the spirit and purpose of General Assembly resolution 1 (I) and article VI of the Treaty on the Non-Proliferation of Nuclear Weapons;

24. *Calls upon* Member States to continue to support efforts to identify, elaborate, negotiate and implement further effective legally binding measures for nuclear disarmament, and welcomes in this regard the adoption on 7 July 2017 of the Treaty on the Prohibition of Nuclear Weapons;

25. *Recommends* that measures be taken to increase awareness among civil society of the risks and catastrophic impact of any nuclear detonation, including through disarmament education;

26. *Calls upon* all Member States to reflect on the vast amount of resources dedicated to the maintenance, development and modernization

¹³ See [NPT/CONF.2020/PC.I/WP.13](#).

of nuclear arsenals and to consider whether these resources could be better utilized in pursuit of a better future as envisaged in the Sustainable Development Goals;

27. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments” and to review the implementation of the present resolution at that session.

Agenda item 103 (oo)

75/68 Strengthening and developing the system of arms control, disarmament and non-proliferation treaties and agreements

Text

The General Assembly,

Recalling its previous relevant resolutions,

Recognizing the common interest of all humankind in strengthening and developing the system of arms control, disarmament and non-proliferation treaties and agreements,

Stressing the vital importance of efforts in arms control, disarmament and non-proliferation for providing international peace and strengthening global security,

Stressing also the paramount importance of full and strict implementation, strengthening and development of arms control, disarmament and non-proliferation treaties and agreements providing enhanced security to individual nations and the international community,

Underlining that any weakening of confidence in and compliance with such treaties and agreements diminishes their contribution to global or regional stability and undermines the credibility and effectiveness of the international legal system and regime applicable to arms control, disarmament and non-proliferation,

Recognizing in this context that full implementation by Member States of existing treaties and agreements to which they are parties and resolving implementation concerns effectively by means consistent with such treaties and agreements and international law facilitate the conclusion of additional arms control, disarmament and non-proliferation treaties and agreements, and thereby contribute to better relations among States and the strengthening of the existing system of such treaties and agreements, as well as international peace and security,

Believing that supporting and developing the system of arms control, disarmament and non-proliferation through the strengthening of appropriate treaties and agreements and their regimes is a matter of interest and concern to all members of the international community, and noting the role that the United Nations has played and should continue to play in that regard,

Stressing the importance of appropriate and sustainable financial support for the effectiveness and efficiency of the relevant international arms control, disarmament and non-proliferation instruments and proper functioning of their regimes,

Emphasizing the importance of appropriate technical assistance and capacity-building efforts for the implementation of arms control, disarmament and non-proliferation treaties and agreements by Member States,

Concerned that any actions that undermine the existing system of arms control, disarmament and non-proliferation treaties and agreements affect the interests of the international community,

Mindful that it is the responsibility and obligation of all Member States to contribute to the process of easing international tension and to strengthening international peace and security and, in this connection, to refrain from steps that negatively affect the security environment and to make efforts to advance along the path of nuclear disarmament, as well as general and complete disarmament under strict and effective international control,

1. *Urges* all States parties to arms control, disarmament and non-proliferation treaties and agreements to implement all provisions of such treaties and agreements in their entirety;

2. *Calls for* continued efforts to strengthen the system of arms control, disarmament and non-proliferation treaties and agreements and to preserve its integrity and validity for maintaining global stability and international peace and security;

3. *Calls upon* all Member States to give serious consideration to the negative implications of undermining arms control, disarmament and non-proliferation treaties and agreements and their regimes for international security and stability, as well as for progress in the field of disarmament;

4. *Urges* all Member States to support efforts aimed at the resolution of implementation issues by means consistent with arms control, disarmament and non-proliferation treaties and agreements and international law, with a view to encouraging strict observance by all States parties of the provisions of such treaties and agreements, maintaining or restoring the integrity of such treaties and agreements and strengthening and developing their regimes;

5. *Considers* that any actions that undermine the system of arms control, disarmament and non-proliferation treaties and agreements also undermine global stability and international peace and security;

6. *Supports* efforts by the international community, in the light of emerging developments, towards safeguarding the integrity of the existing arms control, disarmament and non-proliferation treaties and agreements, which is in the strongest interest of humankind;

7. *Welcomes* the role that the United Nations has played and continues to play in fostering negotiations on arms control, disarmament and non-proliferation treaties and agreements;

8. *Expresses the need* to maintain the effectiveness and efficiency as well as the consensus-based nature of the relevant multilateral instruments in the field of disarmament, non-proliferation and arms control;

9. *Requests* the Secretary-General to continue to provide assistance that may be necessary in protecting the integrity of arms control, disarmament and non-proliferation treaties and agreements, and in strengthening the system of such treaties and agreements;

10. *Encourages* States in a position to do so to provide, upon request, technical assistance and capacity-building in support of national implementation of arms control, disarmament and non-proliferation treaties and agreements by Member States;

11. *Encourages* efforts by all States parties to elaborate additional cooperative measures, as appropriate, that can increase confidence in existing arms control, disarmament and non-proliferation treaties and agreements and facilitate the conclusion of additional treaties and agreements of that kind;

12. *Notes* the importance of effective verification provisions for arms control, disarmament and non-proliferation treaties and agreements;

13. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Strengthening and developing the system of arms control, disarmament and non-proliferation treaties and agreements”.

Noting with satisfaction the continued international efforts to strengthen further the security of radioactive sources worldwide,

Mindful of the responsibilities of every Member State, in accordance with their national legal frameworks and international obligations, to maintain effective nuclear safety and security, asserting that responsibility for nuclear security within a State rests entirely with that State, and noting the important contribution of international cooperation in supporting the efforts of States to fulfil their responsibilities,

Deeply concerned by the threat of terrorism and the risk that terrorists may acquire, traffic in or use radioactive sources in radiological dispersion devices,

Deeply concerned also by the potential threat to human health and the environment that would result from the use of such devices by terrorists,

Noting with concern the occurrence of nuclear and radioactive materials that are outside of regulatory control or being trafficked,

75/72 Decreasing the operational readiness of nuclear weapons systems

Text

The General Assembly,

Recalling its resolutions [62/36](#) of 5 December 2007, [63/41](#) of 2 December 2008, [65/71](#) of 8 December 2010, [67/46](#) of 3 December 2012, [69/42](#) of 2 December 2014, [71/53](#) of 5 December 2016 and [73/60](#) of 5 December 2018,

Recalling also that the maintenance of nuclear weapons on high alert was a feature of cold war nuclear postures, and welcoming the increased confidence and transparency since the cessation of the cold war, while noting with concern the recent deterioration in the international security climate,

Concerned that several thousand nuclear weapons remain on high alert, ready to be launched within minutes,

Noting the continuing engagement in multilateral disarmament forums in support of further reductions to the operational status of nuclear weapons systems,

Recognizing that the maintenance of nuclear weapons systems at a high level of readiness increases the risk of the unintentional or accidental use of such weapons, which would have catastrophic humanitarian consequences,

Recognizing also that reductions in deployments and the lowering of operational status contribute to the maintenance of international peace and security, as well as to the process of nuclear disarmament, through the enhancement of confidence-building and transparency measures and a diminishing role for nuclear weapons in security policies,

Welcoming the steps taken by some States in support of nuclear disarmament, including de-targeting initiatives, increasing the amount of preparation time required for deployment and other measures to diminish further the possibility of nuclear launches resulting from accidents, unauthorized actions or misperceptions,

Recalling the adoption by consensus of the conclusions and recommendations for follow-on actions by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹ including the commitments of the nuclear-weapon States to promptly engage with a view to, inter alia, considering the legitimate interest of non-nuclear-weapon States in further reducing the operational status of nuclear weapons systems in ways that promote international stability and security,

¹ See *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vol. I (NPT/CONF.2010/50 (Vol. I)), part I.

Encouraging, in this regard, continued dialogue among the nuclear-weapon States to advance their nuclear non-proliferation and disarmament commitments under the action plan of the 2010 Review Conference,² and acknowledging the potential of this process for leading to deeper engagement on nuclear disarmament and greater mutual confidence,

Taking note of the references to operational readiness in reports of the nuclear-weapon States during the last and current review cycles of the Treaty on the Non-Proliferation of Nuclear Weapons, and looking forward to further information on this matter being provided in national reports to the tenth Review Conference of the Parties to the Treaty,

Welcoming all opportunities to address the further reduction of the operational status of nuclear weapons systems as a step leading to nuclear disarmament,

1. *Calls for* practical and concrete steps to be taken, unilaterally, bilaterally or multilaterally, to decrease the operational readiness of nuclear weapons systems, with a view to ensuring that all nuclear weapons are removed from high alert status;

2. *Looks forward* to the issue of the lowering of the operational readiness of nuclear weapons systems being addressed further at the tenth Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;

3. *Urges* States to update the General Assembly on progress made in the implementation of the present resolution;

4. *Decides* to remain seized of the matter.

75/73 Ethical imperatives for a nuclear-weapon-free world

Text

The General Assembly,

Recalling its resolution 70/50 of 7 December 2015, adopted on the occasion of the seventieth anniversary of the United Nations, which was established to save succeeding generations from the untold suffering of the scourge of war, and its resolutions 73/68 of 5 December 2018 and 74/47 of 12 December 2019,

Recalling also that the United Nations emerged at the time of the immense trail of death and destruction resulting from the Second World War, 75 years ago,

Recalling further the noble principles of the Charter of the United Nations, which enjoin the international community, individually and collectively, to spare no effort in promoting the ethical imperative of “in larger freedom”, so that all peoples may enjoy freedom from want, freedom from fear and the freedom to live in dignity,

Convinced that, given the catastrophic humanitarian consequences and risks associated with a nuclear weapon detonation, Member States have long envisaged nuclear disarmament and nuclear non-proliferation as urgent and interlinked ethical imperatives in achieving the objectives of the Charter, which is reflected in the first resolution, resolution 1 (I), adopted by the General Assembly on 24 January 1946, aimed at the elimination from national armaments of atomic weapons and of all other major weapons adaptable to mass destruction,

Acknowledging, in this connection, the ethical imperatives outlined in the provisions of its resolutions and reports and those of other related international initiatives on the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, including the declaration that the use of nuclear weapons would cause indiscriminate suffering and as such is a violation of the Charter and the laws of humanity and international law,¹ the condemnation of nuclear war as contrary to human conscience and a violation of the fundamental right to life,² the threat to the very survival of humankind posed by the existence of nuclear weapons,³ the detrimental environmental effects of the use of nuclear weapons,⁴ and the disquiet that was expressed

² See resolution 38/75.

³ See resolution S-10/2.

at the continued spending on the development and maintenance of nuclear arsenals,⁵

Acknowledging also the preamble to and article VI of the Treaty on the Non-Proliferation of Nuclear Weapons⁶ and the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons,⁷ in which the Court unanimously concluded that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Acknowledging further the United Nations Millennium Declaration,⁸ in which Heads of State and Government resolved to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving that aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Concerned that, despite the long-standing recognition that it has accorded to these ethical imperatives and while much effort has been directed to addressing nuclear non-proliferation, limited progress has been made in meeting the nuclear disarmament obligations required to achieve and maintain the nuclear-weapon-free world that the international community demands,

Disappointed at the continued absence of progress towards multilateral negotiations on nuclear disarmament in the Conference on Disarmament, despite unrelenting efforts of Member States towards this end,

Noting with satisfaction the increasing awareness, renewed attention and growing momentum that has been generated by Member States and the international community since 2010 regarding the catastrophic humanitarian consequences and risks associated with nuclear weapons, which underpin the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, together with all related international initiatives,

Recalling the adoption on 7 July 2017 of the Treaty on the Prohibition of Nuclear Weapons,⁹ in which the ethical imperatives for nuclear disarmament are acknowledged,

Conscious of the absolute validity of multilateral diplomacy in relation to nuclear disarmament, and determined to promote multilateralism as essential to nuclear disarmament negotiations,

⁸ Resolution [55/2](#).

⁹ [A/CONF.229/2017/8](#).

1. *Calls upon* all States to acknowledge the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, whether by accident, miscalculation or design;

2. *Acknowledges* the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, which is a “global public good of the highest order”, serving both national and collective security interests;

3. *Declares* that:

(a) The global threat posed by nuclear weapons must urgently be eliminated;

(b) Discussions, decisions and actions on nuclear weapons must focus on the effects of these weapons on human beings and the environment and must be guided by the unspeakable suffering and unacceptable harm that they cause;

(c) Greater attention must be given to the impact of a nuclear weapon detonation on women and the importance of their participation in discussions, decisions and actions on nuclear weapons;

(d) Nuclear weapons serve to undermine collective security, heighten the risk of nuclear catastrophe, aggravate international tension and make conflict more dangerous;

(e) Arguments in favour of the retention of nuclear weapons have a negative impact on the credibility of the nuclear disarmament and non-proliferation regime;

(f) The long-term plans for the modernization of nuclear weapons arsenals run contrary to commitments and obligations to nuclear disarmament and engender perceptions of the indefinite possession of these weapons;

(g) In a world where basic human needs have not yet been met, the vast resources allocated to the modernization of nuclear weapons arsenals could instead be redirected to meeting the Sustainable Development Goals;¹⁰

(h) Given the humanitarian impact of nuclear weapons, it is inconceivable that any use of nuclear weapons, irrespective of the cause, would be compatible with the requirements of international humanitarian law or international law, or the laws of morality, or the dictates of public conscience;

(i) Given their indiscriminate nature and potential to annihilate humanity, nuclear weapons are inherently immoral;

4. *Notes* that all responsible States have a solemn duty to take decisions that serve to protect their people and each other from the ravages

¹⁰ See resolution 70/1.

of a nuclear weapon detonation, and that the only way for States to do so is through the total elimination of nuclear weapons;

5. *Stresses* that all States share an ethical responsibility to act with urgency and determination, with the support of all relevant stakeholders, to take the effective measures, including legally binding measures, necessary to eliminate and prohibit all nuclear weapons, given their catastrophic humanitarian consequences and associated risks;

6. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Ethical imperatives for a nuclear-weapon-free world”.

75/74 United Nations disarmament fellowship, training and advisory services

Text

The General Assembly,

Having considered the report of the Secretary-General,¹

Recalling its decision, contained in paragraph 108 of the Final Document of the Tenth Special Session of the General Assembly, the first special session devoted to disarmament,² to establish a programme of fellowships on disarmament, as well as its decisions contained in annex IV to the Concluding Document of the Twelfth Special Session of the General Assembly, the second special session devoted to disarmament,³ including its decision to continue the programme,

Noting that the programme continues to contribute significantly to developing greater awareness of the importance and benefits of disarmament and a better understanding of the concerns of the international community in the field of disarmament and security, as well as to enhancing the knowledge and skills of fellows, allowing them to participate more effectively in efforts in the field of disarmament at all levels,

Recognizing the need for Member States to take into account gender equality when nominating candidates to the programme,

Recalling all the resolutions on the matter since the thirty-seventh session of the General Assembly, in 1982, including resolution 50/71 A of 12 December 1995 and resolution 73/73 of 5 December 2018,

Believing that the forms of assistance available under the programme to Member States, in particular to developing countries, will enhance the capabilities of their officials to follow ongoing deliberations and negotiations on disarmament, both bilateral and multilateral,

1. *Reaffirms* its decisions contained in annex IV to the Concluding Document of the Twelfth Special Session of the General Assembly and the guidelines approved by the Assembly in its resolution 33/71 E of 14 December 1978;⁴

2. *Notes with satisfaction* that the programme has trained 1,033 officials from 170 Member States throughout its more than 40 years of

existence, many of whom hold positions of responsibility in the field of disarmament within their own Governments;

3. *Expresses its appreciation* to all Member States and organizations that have consistently supported the programme throughout the years, thereby contributing to its success, in particular to the European Union and to the Governments of Brazil, China, Germany, Japan, Kazakhstan, the Republic of Korea and Switzerland for continuing extensive and highly educative study visits for the participants in the programme during 2017, 2018 and 2019;

4. *Expresses its appreciation* to the International Atomic Energy Agency, the Organisation for the Prohibition of Chemical Weapons, the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, the International Court of Justice, the Organization for Security and Cooperation in Europe and the Vienna Centre for Disarmament and Non-Proliferation for organizing specific study programmes in the field of disarmament in their respective areas of competence, thereby contributing to the objectives of the programme;

5. *Encourages* Member States to leverage the knowledge of the United Nations disarmament fellows as a useful resource on matters related to disarmament and international security;

6. *Commends* the Secretary-General for the diligence with which the programme has continued to be carried out;

7. *Requests* the Secretary-General to continue to implement annually the programme within existing resources and to report thereon to the General Assembly at its seventy-seventh session;

8. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “Review and implementation of the Concluding Document of the Twelfth Special Session of the General Assembly”, the sub-item entitled “United Nations disarmament fellowship, training and advisory services”.

75/75 Convention on the Prohibition of the Use of Nuclear Weapons

Text

The General Assembly,

Convinced that the use of nuclear weapons poses the most serious threat to the survival of humankind,

Bearing in mind the advisory opinion of the International Court of Justice of 8 July 1996 on the legality of the threat or use of nuclear weapons,¹

Convinced that a multilateral, universal and binding agreement prohibiting the use or threat of use of nuclear weapons would contribute to the elimination of the nuclear threat and to the climate for negotiations leading to the ultimate elimination of nuclear weapons, thereby strengthening international peace and security,

Conscious that some steps have been taken by the Russian Federation and the United States towards a reduction of their nuclear weapons and that further steps – in all relevant formats – on nuclear arms control and disarmament can contribute to the improvement of the international climate and the goal of the complete elimination of nuclear weapons,

Recalling that, in paragraph 58 of the Final Document of the Tenth Special Session of the General Assembly,² it is stated that all States should actively participate in efforts to bring about conditions in international relations among States in which a code of peaceful conduct of nations in international affairs could be agreed upon and which would preclude the use or threat of use of nuclear weapons,

Reaffirming that any use of nuclear weapons would be a violation of the Charter of the United Nations and a crime against humanity, as declared in its resolutions [1653 \(XVI\)](#) of 24 November 1961, [33/71 B](#) of 14 December 1978, [34/83 G](#) of 11 December 1979, [35/152 D](#) of 12 December 1980 and [36/92 I](#) of 9 December 1981,

Recognizing that a legally binding prohibition of the use of nuclear weapons is not contrary to but in fact contributes to international efforts for the achievement and maintenance of a world free of nuclear weapons,

Stressing that an international convention on the prohibition of the use of nuclear weapons would be an important step in a phased programme towards the complete elimination of nuclear weapons, with a specified framework of time,

¹ [A/51/218](#), annex.

² Resolution [S-10/2](#).

Noting with regret that the Conference on Disarmament, during its 2020 session, was unable to undertake negotiations on this subject as called for in General Assembly resolution [74/68](#) of 12 December 2019,

1. *Reiterates its request* to the Conference on Disarmament to commence negotiations in order to reach agreement on an international convention prohibiting the use or threat of use of nuclear weapons under any circumstances;

2. *Requests* the Conference on Disarmament to report to the General Assembly on the results of those negotiations.

Text

The General Assembly,

Recalling its resolution 34/83 M of 11 December 1979, in which it requested the Secretary-General to establish the United Nations Institute for Disarmament Research, and its resolution 39/148 H of 17 December 1984, in which it approved the statute of the Institute,

Considering the continuing need for the international community to have access to independent and in-depth research on security issues and prospects for disarmament and non-proliferation,

Underlining the particularly relevant contribution of the Institute to thinking and analysis on international security issues in the current context,

Recognizing that, despite the coronavirus disease (COVID-19) pandemic, the Institute managed to uphold its activities,

in disarmament efforts, assist ongoing negotiations and carry out in-depth, forward-looking and long-term research on disarmament,

Recognizing also the importance of the Institute's location in Geneva,

75/83 Report of the Conference on Disarmament

Text

The General Assembly,

Having considered the report of the Conference on Disarmament,¹

Recalling its resolution 74/74 of 12 December 2019,

Convinced that the Conference on Disarmament, as the single multilateral disarmament negotiating forum of the international community, has the primary role in substantive negotiations on priority questions of disarmament,

Recognizing the addresses of the Secretary-General of the United Nations, as well as the addresses of Ministers for Foreign Affairs and other high-level officials in the Conference on Disarmament, and referring to their various expressions of support for and concern about the endeavours of the Conference and calls for the Conference to commence negotiations without delay to advance disarmament goals through the adoption of a balanced and comprehensive programme of work,

Recognizing also the need to conduct multilateral negotiations with the aim of reaching agreement on concrete issues, and emphasizing the importance of effective multilateralism in the context of the changing international climate,

Noting with renewed concern that, despite the intensive efforts by States members and Presidents of the Conference on Disarmament at its 2020 session to reach consensus on a programme of work on the basis of relevant proposals and suggestions, the Conference did not succeed in commencing its substantive work by means of negotiations or agree to a programme of work,

Recalling, in this respect, that the Conference on Disarmament has a number of priority issues for negotiation to achieve disarmament goals,

Welcoming the overwhelming call for greater flexibility with respect to implementing the substantive work of the Conference on Disarmament on the basis of a balanced and comprehensive programme of work,

Underlining the need for continued cooperation among the States members of the Conference on Disarmament as well as among the successive Presidents of the Conference,

Noting with appreciation the contributions made at the 2020 session to promote substantive discussions on issues on the agenda,

¹ *Official Records of the General Assembly, Seventy-fifth Session, Supplement No. 27 (A/75/27).*

Acknowledging the United Nations Institute for Disarmament Research, as a stand-alone, autonomous institution, and the contribution that its research makes,

Recognizing the importance of engagement between civil society and the Conference on Disarmament according to decisions taken by the Conference,

1. *Reaffirms* the role of the Conference on Disarmament as the single multilateral disarmament negotiating forum of the international community;

2. *Appreciates* the strong support expressed for the Conference on Disarmament at its 2020 session by Ministers for Foreign Affairs and other high-level officials, while also acknowledging their concern about its ongoing impasse, and takes into account their calls for greater flexibility with respect to commencing the substantive work of the Conference without further delay;

3. *Calls upon* the Conference on Disarmament to further intensify consultations and to explore possibilities for overcoming its ongoing deadlock of two decades by adopting and implementing a balanced and comprehensive programme of work at the earliest possible date during its 2021 session, bearing in mind the decision on the programme of work adopted by the Conference on 29 May 2009,² as well as other relevant present, past and future proposals;

4. *Encourages* the current President and the incoming President of the Conference on Disarmament to conduct consultations during the intersessional period and, if possible, to make recommendations, taking into account all relevant proposals, past, present and future, including those submitted as documents of the Conference, views presented and discussions held, and to endeavour to keep the membership of the Conference informed, as appropriate, of their consultations;

5. *Requests* the current President and successive Presidents of the Conference on Disarmament to cooperate with the States members of the Conference in the effort to guide the Conference to the early commencement of its substantive work, including negotiations, at its 2021 session;

6. *Recognizes* the importance of continuing consultations in 2021 on the question of the expansion of the membership of the Conference on Disarmament;

7. *Requests* the Secretary-General to continue to ensure and to strengthen, if needed, the provision to the Conference on Disarmament of all necessary administrative, substantive and conference support services;

8. *Requests* the Conference on Disarmament to submit to the General Assembly at its seventy-sixth session a report on its work;

² *Ibid.*, *Sixty-fourth Session, Supplement No. 27 (A/64/27)*, para. 18.

9. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “Review of the implementation of the recommendations and decisions adopted by the General Assembly at its tenth special session”, the sub-item entitled “Report of the Conference on Disarmament”.

75/84 The risk of nuclear proliferation in the Middle East

Text

The General Assembly,

Bearing in mind its relevant resolutions, the latest of which is resolution [74/75](#) of 12 December 2019,

Taking note of the relevant resolutions adopted by the General Conference of the International Atomic Energy Agency, the latest of which is resolution GC(64)/RES/15, adopted on 24 September 2020,

Cognizant that the proliferation of nuclear weapons in the region of the Middle East would pose a serious threat to international peace and security,

Mindful of the immediate need for placing all nuclear facilities in the region of the Middle East under full-scope safeguards of the Agency,

Recalling the decision on principles and objectives for nuclear non-proliferation and disarmament adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on 11 May 1995,¹ in which the Conference urged universal adherence to the Treaty on the Non-Proliferation of Nuclear Weapons² as an urgent priority and called upon all States not yet parties to the Treaty to accede to it at the earliest date, particularly those States that operate unsafeguarded nuclear facilities,

Recognizing with satisfaction that, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,³ the Conference undertook to make determined efforts towards the achievement of the goal of universality of the Treaty, called upon those remaining States not parties to the Treaty to accede to it, thereby accepting an international legally binding commitment not to acquire nuclear weapons or nuclear explosive devices and to accept Agency safeguards on all their nuclear activities, and underlined the necessity of universal adherence to the Treaty and of strict compliance by all parties with their obligations under the Treaty,

Recalling the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on 11 May 1995, in

¹ See *1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, Part I* (NPT/CONF.1995/32 (Part I) and NPT/CONF.1995/32 (Part I)/Corr.2), annex.

which the Conference noted with concern the continued existence in the Middle East of unsafeguarded nuclear facilities, reaffirmed the importance of the early realization of universal adherence to the Treaty, and called upon all States in the Middle East that had not yet done so, without exception, to accede to the Treaty as soon as possible and to place all their nuclear facilities under full-scope Agency safeguards,

Acknowledging that, in the Final Document of the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁴ the Conference emphasized the importance of a process leading to full implementation of the 1995 resolution on the Middle East and decided, inter alia, that the Secretary-General of the United Nations and the co-sponsors of the 1995 resolution, in consultation with the States of the region, would convene a conference in 2012, to be attended by all States of the Middle East, on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction, on the basis of arrangements freely arrived at by the States of the region, and with the full support and engagement of the nuclear-weapon States,

Expressing regret and concern that the conference was not convened in 2012 as mandated and that little progress has been achieved towards the implementation of the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty,

Noting, in this context, the relevant resolutions of the League of Arab States aiming at the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction,

1. *Recalls* the conclusions on the Middle East of the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁷ and calls for the speedy and full implementation of the commitments contained therein;

2. *Stresses* that the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty⁸ is an essential element of the outcome of the 1995 Conference and of the basis on which the Treaty was indefinitely extended without a vote in 1995;

3. *Reiterates* that the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty remains valid until its goals and objectives are achieved;

4. *Calls for* immediate steps towards the full implementation of that resolution;

5. *Reaffirms* the importance of Israel's accession to the Treaty on the Non-Proliferation of Nuclear Weapons and placement of all its nuclear facilities under comprehensive International Atomic Energy Agency safeguards, in realizing the goal of universal adherence to the Treaty in the Middle East;

6. *Calls upon* that State to accede to the Treaty without further delay, not to develop, produce, test or otherwise acquire nuclear weapons, to renounce possession of nuclear weapons and to place all its unsafeguarded nuclear facilities under full-scope Agency safeguards as an important confidence-building measure among all States of the region and as a step towards enhancing peace and security;

7. *Requests* the Secretary-General to report to the General Assembly at its seventy-sixth session on the implementation of the present resolution;

Text

The General Assembly,

Reiterating that the cessation of nuclear-weapon test explosions or any other nuclear explosions constitutes an effective nuclear disarmament and non-proliferation measure, and convinced that this is a meaningful step in the realization of a systematic process for achieving nuclear disarmament,

Recalling that the Comprehensive Nuclear-Test-Ban Treaty, adopted by the General Assembly by its resolution [50/245](#) of 10 September 1996, was opened for signature on 24 September 1996,

Stressing that a universal and effectively verifiable Treaty constitutes a fundamental instrument in the field of nuclear disarmament and non-proliferation and will be a major contribution to international peace and security,

Stressing also the vital importance and urgency of achieving the entry into force of the Treaty, and affirming its resolute determination, 24 years after the Treaty was opened for signature, to achieve its entry into force,

Encouraged by the signing of the Treaty by 184 States, including 41 of the 44 whose ratification is needed for its entry into force, and welcoming the ratification of the Treaty by 168 States, including 36 of the 44 whose ratification is needed for its entry into force, among which there are 3 nuclear-weapon States,

Recalling its resolution [74/78](#) of 12 December 2019,

Recalling also the adoption by consensus of the conclusions and recommendations for follow-on actions of the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹ in which the Conference, inter alia, reaffirmed the vital importance of the entry into force of the Comprehensive Nuclear-Test-Ban Treaty as a core element of the international nuclear disarmament and non-proliferation regime and included specific actions to be taken in support of the entry into force of the Treaty,

Recalling further the Final Declaration adopted by the eleventh Conference on Facilitating the Entry into Force of the Comprehensive Nuclear-Test-Ban Treaty, held in New York on 25 September 2019, convened pursuant to article XIV of the Treaty, and welcoming the message issued by the Friends of the Comprehensive Nuclear-Test-Ban Treaty on 1 October 2020,

¹ 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, vol. I (NPT/CONF.2010/50 (Vol. I)), part I, Conclusions and recommendations for follow-on actions.

Noting the contribution of diverse and inclusive participation in building and sustaining momentum for the universalization and entry into force of the Treaty, including through the Youth Group of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization,

Welcoming continuing progress in the development of the Treaty's verification regime, which advances the Treaty's primary non-proliferation and disarmament objective, and the establishment of 300 certified facilities of the International Monitoring System network,

Recognizing the civil and scientific benefits provided by the Treaty's global monitoring system,

Commending the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization for maintaining its vital operations, including that of the International Monitoring System and the International Data Centre, during the coronavirus disease (COVID-19) pandemic,

1. *Stresses* the vital importance and urgency of signature and ratification, without delay and without conditions, in order to achieve the earliest entry into force of the Comprehensive Nuclear-Test-Ban Treaty;²

2. *Welcomes* the contributions by the signatory States to the work of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, in particular its efforts to ensure that the verification regime of the Treaty will be capable of meeting the verification requirements of the Treaty upon its entry into force, in accordance with article IV of the Treaty, and encourages their continuation;

3. *Underlines* the need to maintain momentum towards the completion of all elements of the verification regime;

4. *Urges* all States not to carry out nuclear-weapon test explosions or any other nuclear explosions, to maintain their moratoriums in this regard and to refrain from acts that would defeat the object and purpose of the Treaty, while stressing that these measures do not have the same permanent and legally binding effect as the entry into force of the Treaty;

5. *Reiterates its condemnation* of the six nuclear tests conducted by the Democratic People's Republic of Korea in violation of relevant Security Council resolutions,³ urges full compliance with the obligations under those resolutions, including that the Democratic People's Republic of Korea abandon its nuclear weapons programme and not conduct any further nuclear tests, reaffirms its support for the complete, verifiable and irreversible denuclearization of the Korean Peninsula in a peaceful manner, including through the Six-Party Talks, welcomes all efforts and dialogue to this end, including the inter-Korean summits and summits between the United States

6. *Urges* all States that have not yet signed or ratified, or that have signed but not yet ratified, the Treaty, in particular those whose ratification is needed for its entry into force, to sign and ratify it as soon as possible and to accelerate their ratification processes with a view to ensuring their earliest successful conclusion;

7. *Encourages* further expressions from among the remaining States whose ratification is needed for the Treaty to enter into force of their intention to pursue and complete the ratification process;

8. *Urges* all States to remain seized of the issue at the highest political level and, where in a position to do so, to promote adherence to the Treaty through bilateral and joint outreach, seminars and other means;

9. *Decides* to include in the provisional agenda of its seventy-sixth session the item entitled "Comprehensive Nuclear-Test-Ban Treaty".

Text

The General Assembly,

Recalling its previous resolutions relating to the complete and effective prohibition of bacteriological (biological) and toxin weapons and on their destruction,

Noting that there has been no increase in the number of ratifications of and accessions to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction,¹ and stressing at the same time that there is a continuing need to achieve its universalization,

Reaffirming its call upon all signatory States that have not yet ratified the Convention to do so without delay, and calling upon those States that have not signed the Convention to become parties thereto at the earliest possible date, thus contributing to the achievement of universal adherence to the Convention, which will facilitate its success,

Bearing in mind its call upon all States parties to the Convention to participate in the implementation of the recommendations of the review conferences of the parties to the Convention, including the exchange of information and data agreed to in the Final Declaration of the Third Review Conference of the Parties to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction, later amended by the Final Declaration of the Seventh Review Conference, and to provide such information and data in conformity with the standardized procedure to the Implementation Support Unit within the Office for Disarmament Affairs of the Secretariat on an annual basis and no later than 15 April,

Welcoming the reaffirmation made in the Final Declarations of the Fourth, Sixth, Seventh and Eighth Review Conferences that under all circumstances the use of bacteriological (biological) and toxin weapons and their development, production and stockpiling are effectively prohibited under article I of the Convention,

Recognizing the importance of ongoing efforts by States parties to enhance international cooperation, assistance and the fullest possible

exchange of equipment, materials and scientific and technological information for the use of bacteriological (biological) agents and toxins for peaceful purposes, recognizing also that there still remain challenges to be overcome in order to enhance international cooperation, and recognizing further the value of building capacity through international cooperation as well as strengthening coordination and coherence of efforts of all relevant international organizations, in line with the Final Document of the Eighth Review Conference,²

Reaffirming the importance of national measures, in accordance with constitutional processes, in strengthening the implementation of the Convention by States parties, in line with the Final Document of the Eighth Review Conference,

Reaffirming also the importance of the review of developments in the field of science and technology related to the Convention,

Encouraging the equitable participation of women and men in the framework of the Convention,

Recalling previous intersessional processes carried out under the Convention,

Noting, in the decisions and recommendations of the Final Document, that the Eighth Review Conference decided that States parties would hold annual meetings and that the first such meeting would start on 4 December 2017, have a duration of up to five days and seek to make progress on issues of substance and process for the period before the next Review Conference, with a view to reaching consensus on an intersessional process,

Recalling the decision of the Eighth Review Conference that the Ninth Review Conference shall be held in Geneva not later than 2021,

1. *Notes* the consensus outcome of and the decisions on all provisions of the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction reached at the Eighth Review Conference of the Parties to the Convention, and calls upon States parties to the Convention to participate and actively engage in their continued implementation;

2. *Notes with appreciation* that the meeting of States parties to the Convention, held in Geneva from 4 to 8 December 2017, was able to reach consensus on reaffirming previous intersessional programmes carried out during the period 2003–2015, on retaining the previous structure of annual meetings of States parties preceded by annual meetings of experts, and on reaffirming that the purpose of the intersessional programme was to discuss, and promote common understanding and effective action on, those issues

identified for inclusion in the intersessional programme, and that the work of the intersessional period would be guided by the aim of strengthening the implementation of all articles of the Convention in order to better respond to current challenges;³

3. *Also notes with appreciation* that, in the light of the need to balance an ambition to improve the intersessional programme within the financial and human resources constraints facing States parties, 12 days were allocated to the intersessional programme each year from 2018 to 2020, that the meetings of experts for eight days would be held back to back and at least three months before the annual meetings of States parties of four days each, and that the meetings of experts would be open-ended and would consider the following topics: cooperation and assistance, with a particular focus on strengthening cooperation and assistance under article X (two days); review of developments in the field of science and technology related to the Convention (two days); strengthening national implementation (one day); assistance, response and preparedness (two days); and institutional strengthening of the Convention (one day);

4. *Appreciates* the information and data on confidence-building measures provided by States parties to the Convention to date, and calls upon all States parties to participate in the exchange of information and data on confidence-building measures called for in the relevant decisions of the review conferences, and invites them to make use of the new platform for electronic submission, on a voluntary basis, without prejudice to their choice of methods for submission;

the annual meetings, welcomes the continued willingness among States parties to provide voluntary contributions, and calls upon States parties in a position to do so to offer voluntary contributions for the programme;

8. *Also notes* the decision of the Eighth Review Conference to renew the mandate of the Implementation Support Unit agreed to at the Seventh Review Conference, mutatis mutandis, for the period from 2017 to 2021, and notes with appreciation the work of the Unit;

9. *Notes with appreciation* the events organized by some States parties, regional organizations and the Office for Disarmament Affairs of the Secretariat for exchanges of views on the implementation of the Convention, and encourages States parties to continue to participate in such informal exchanges and discussions;

10. *Requests* the Secretary-General to continue to render the necessary assistance to the depositary Governments of the Convention and to continue to provide such services as may be required for the conduct and the implementation of the decisions and recommendations of the review conferences;

11. *Recalls* that the meeting of States parties in Geneva in December 2018 agreed that the financial difficulties of the Convention stemmed from three principal sources, namely the non-payment of contributions by some States parties, delays in the receipt of contributions from other States parties and the financial requirements of the United Nations with respect to activities not funded from its regular budget, and calls upon States parties to consider ways of addressing these serious issues as a matter of urgency;

12. *Notes* that the meeting of States parties in Geneva in December 2019 welcomed the improvement of the financial situation for that year, following the measures endorsed by the meeting of States parties in 2018, including the establishment of the working capital fund, and stressed the need to continue monitoring the financial situation of the Convention and requested the Chair of the 2020 meeting of States parties, in close consultation with the States parties, the Implementation Support Unit, the Office for Disarmament Affairs and the United Nations Office at Geneva, to report on the overall financial situation of the Convention, implementation of the measures endorsed in 2018, and possible further measures, in a transparent way and taking into account outstanding credits for those States parties that paid their contribution in full, to bring about timely payment as required, for consideration by the 2020 meeting of States parties;⁴

13. *Encourages* the meeting of States parties in 2021 to consider and to agree upon arrangements for the Ninth Review Conference, and its

75/240 Developments in the field of information and telecommunications in the context of international security

Text

The General Assembly,

Recalling its resolutions 36/103 of 9 December 1981, 43/78 H of 7 December 1988, 53/70 of 4 December 1998, 54/49 of 1 December 1999, 55/28 of 20 November 2000, 56/19 of 29 November 2001, 57/53 of 22 November 2002, 58/32 of 8 December 2003, 59/61 of 3 December 2004, 60/45 of 8 December 2005, 61/54 of 6 December 2006, 62/17 of 5 December 2007, 63/37 of 2 December 2008, 64/25 of 2 December 2009, 65/41 of 8 December 2010, 66/24 of 2 December 2011, 67/27 of 3 December 2012, 68/243 of 27 December 2013, 69/28 of 2 December 2014, 70/237 of 23 December 2015, 71/28 of 5 December 2016, 73/27 of 5 December 2018 and 74/29 of 12 December 2019,

Noting that considerable progress has been achieved in developing and applying the latest information technologies and means of telecommunication,

Underscoring the aspirations of the international community to the peaceful use of information and communications technologies for the common good of humankind and to further the sustainable development of all countries, irrespective of their scientific and technological development,

Noting that capacity-building is essential for cooperation of States and confidence-building in the field of information and communications technology security,

Recognizing that some States may require assistance in their efforts to bridge the divide in the security of information and communications technologies and their use,

Noting that providing assistance, upon request, to build capacity in the area of information and communications technology security is essential for international security,

Affirming that capacity-building measures should seek to promote the use of information and communications technologies for peaceful purposes,

Confirming that information and communications technologies are dual-use technologies and can be used for both legitimate and malicious purposes,

Expressing concern that a number of States are developing information and communications technology capabilities for military purposes and that the

use of such technologies in future conflicts between States is becoming more likely,

Stressing that it is in the interest of all States to promote the use of information and communications technologies for peaceful purposes, with the objective of shaping a community of shared future for humankind in cyberspace, and that States also have an interest in preventing conflict arising from the use of such technologies,

Expressing concern that embedding harmful hidden functions in information and communications technologies could be used in ways that would affect the secure and reliable use of such technologies and the information and communications technology supply chain for products and services, erode trust in commerce and damage national security,

Considering that it is necessary to prevent the use of information resources or technologies for criminal or terrorist purposes,

Underlining the importance of respect for human rights and fundamental freedoms in the use of information and communications technologies,

Noting that the United Nations should play a leading role in promoting dialogue among Member States to develop common understandings on the security and use of information and communications technologies, as well as in developing common understandings on the application of international law and norms, rules and principles for responsible State behaviour in this sphere, encourage regional efforts, promote confidence-building and transparency measures and support capacity-building and the dissemination of best practices,

Emphasizing the global importance of the negotiation process of the Open-ended Working Group on Developments in the Field of Information and Telecommunications in the Context of International Security, established pursuant to General Assembly resolution [73/27](#),

Noting the truly democratic, inclusive and transparent nature of the discussion within the Open-ended Working Group on Developments in the Field of Information and Telecommunications in the Context of International Security,

Recalling that, in considering the application of international law to State use of information and communications technologies, the Group of Governmental Experts on Developments in the Field of Information and Telecommunications in the Context of International Security, in its 2015 report,¹ identified as of central importance the commitments of States to the following principles of the Charter of the United Nations and other international law: sovereign equality; the settlement of international disputes

¹ [A/70/174](#).

by peaceful means in such a manner that international peace and security and justice are not endangered; refraining in their international relations from the threat or use of force against the territorial integrity or political independence of any State, or in any other manner inconsistent with the purposes of the United Nations; respect for human rights and fundamental freedoms; and non-intervention in the internal affairs of other States,

Confirming the conclusions of the Group of Governmental Experts, in its 2013² and 2015 reports, that international law, and in particular the Charter of the United Nations, is applicable and essential to maintaining peace and stability and promoting an open, secure, stable, accessible and peaceful information and communications technology environment, that voluntary and non-binding norms, rules and principles of responsible behaviour of States in the use of information and communications technologies can reduce risks to international peace, security and stability, and that, given the unique attributes of such technologies, additional norms can be developed over time,

Confirming also that State sovereignty and international norms and principles that flow from sovereignty apply to State conduct of information and communications technology-related activities and to their jurisdiction over information and communications technology infrastructure within their territory,

Reaffirming the right and duty of States to combat, within their constitutional prerogatives, the dissemination of false or distorted news, which can be interpreted as interference in the internal affairs of other States or as being harmful to the promotion of peace, cooperation and friendly relations among States and nations,

Recognizing the duty of a State to abstain from any defamatory campaign, vilification or hostile propaganda for the purpose of intervening or interfering in the internal affairs of other States,

Stressing that, while States have a primary responsibility for maintaining a secure and peaceful information and communications technology environment, effective international cooperation would benefit from identifying mechanisms for the participation, as appropriate, of the private sector, academia and civil society organizations,

1. *Decides* to convene, starting from 2021, with a view to ensuring the uninterrupted and continuous nature of the democratic, inclusive and transparent negotiation process on security in the use of information and communications technologies, under the auspices of the United Nations, a new open-ended working group on security of and in the use of information and communications technologies 2021–2025, acting on a consensus basis, to continue, as a priority, to further develop the rules, norms and principles

² A/68/98.

of responsible behaviour of States and the ways for their implementation and, if necessary, to introduce changes to them or elaborate additional rules of behaviour; to consider initiatives of States aimed at ensuring security in the use of information and communications technologies; to establish, under the auspices of the United Nations, regular institutional dialogue with the broad participation of States; to continue to study, with a view to promoting common understandings, existing and potential threats in the sphere of information security, inter alia, data security, and possible cooperative measures to prevent and counter such threats, and how international law applies to the use of information and communications technologies by States, as well as confidence-building measures and capacity-building; and to submit, for adoption by consensus, annual progress reports and a final report on the results of its work to the General Assembly at its eightieth session;

2. *Also decides* that, upon the conclusion of the work of the current Open-ended Working Group on Developments in the Field of Information and Telecommunications in the Context of International Security, the General Assembly at its seventy-fifth session may adopt a decision in this respect;

3. *Further decides* that the open-ended working group on security of and in the use of information and communications technologies 2021–2025 shall start its activities upon the conclusion of the work of the current Open-ended Working Group and considering its outcomes, and shall hold its organizational session in 2021 in order to agree on the organizational arrangements connected with the group;

4. *Decides* that the open-ended working group on security of and in the use of information and communications technologies 2021–2025 may decide to establish thematic subgroups, as the Member States deem necessary, with a view to fulfilling its mandate and facilitating the exchange of views among States on specific issues related to its mandate, and may decide to interact, as appropriate, with other interested parties, including businesses, non-governmental organizations and academia;

5. *Also decides* to include in the provisional agenda of its seventy-sixth session the item entitled “Developments in the field of information and telecommunications in the context of international security”.

75/241 The illicit trade in small arms and light weapons in all its aspects

Text

The General Assembly,

Recalling its resolution 74/60 of 12 December 2019, as well as all previous resolutions on the illicit trade in small arms and light weapons in all its aspects, including resolution 56/24 V of 24 December 2001,

Emphasizing the importance of the continued and full implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects, adopted by the United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,¹ and recognizing its important contribution to international efforts on this matter,

Emphasizing also the importance of the continued and full implementation of the International Instrument to Enable States to Identify and Trace, in a Timely and Reliable Manner, Illicit Small Arms and Light Weapons (the International Tracing Instrument),²

Recalling the commitment of States to the Programme of Action as the main framework for measures within the activities of the international community to prevent, combat and eradicate the illicit trade in small arms and light weapons in all its aspects,

Underlining the need for States to enhance their efforts to build national capacity for the effective implementation of the Programme of Action and the International Tracing Instrument,

Mindful of the implementation of the outcomes adopted by the follow-up meetings on the Programme of Action,

Welcoming the successful conclusion of the third United Nations Conference to Review Progress Made in the Implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects (the third Review Conference), held in New York from 18 to 29 June 2018,

Recognizing the need for the strengthened participation of women in decision-making and implementation processes relating to the Programme of Action and the International Tracing Instrument, and reaffirming the need for States to mainstream gender dimensions into their implementation efforts,

¹ *Report of the United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects, New York, 9–20 July 2001 (A/CONF.192/15)*, chap. IV, para. 24.

² See decision 60/519 and A/60/88 and A/60/88/Corr.2, annex.

Noting that web-based tools developed by the Secretariat, including its searchable database and the Modular Small-arms-control Implementation Compendium, and the tools developed by Member States could be used to assess progress made in the implementation of the Programme of Action,

Reaffirming the acknowledgement, by the third Review Conference in its outcome document,³ of the proposal on the establishment of a dedicated fellowship training programme on small arms and light weapons in order to strengthen technical knowledge and expertise in areas relating to the implementation of the Programme of Action and the International Tracing Instrument, in particular in developing countries,

Welcoming the series of open, informal consultations in early 2020 held by the Chair-designate of the Seventh Biennial Meeting of States to Consider the Implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,

Noting the decision of the General Assembly to postpone the Seventh Biennial Meeting of States to 2021 in response to the situation concerning the coronavirus disease (COVID-19) pandemic,⁴

Noting also that voluntary national reports on the implementation of the Programme of Action can serve, inter alia, to provide a baseline for measuring progress in its implementation, build confidence and promote transparency, provide a basis for information exchange and action and serve to identify needs and opportunities for international assistance and cooperation, including the matching of needs with available resources and expertise,

Noting with satisfaction regional and subregional efforts being undertaken in support of the implementation of the Programme of Action, and commending the progress that has already been made in this regard, including the tackling of both supply and demand factors that are relevant to addressing the illicit trade in small arms and light weapons,

Recognizing that sharing and applying best practices, on a voluntary basis, at the regional, subregional and national levels support the full and effective implementation of the Programme of Action and the International Tracing Instrument and should therefore be an ongoing effort, in order to address ongoing challenges associated with the diversion of and illicit trade in small arms and light weapons,

Reaffirming that international cooperation and assistance are an essential aspect of the full and effective implementation of the Programme of Action and the International Tracing Instrument,

Recognizing the efforts undertaken by civil society in the provision of assistance to States for the implementation of the Programme of Action,

³ [A/CONF.192/2018/RC/3](#), annex.

⁴ See decision 74/552.

Recalling that Governments bear the primary responsibility for preventing, combating and eradicating the illicit trade in small arms and light weapons in all its aspects, in accordance with the sovereignty of States and their relevant international obligations,

Reiterating that illicit brokering in small arms and light weapons is a serious problem that the international community should address urgently,

Highlighting new challenges and potential opportunities with regard to effective marking, record-keeping and tracing resulting from developments in the manufacturing, technology and design of small arms and light weapons, and bearing in mind the different situations, capacities and priorities of States and regions,
