IMPLEMENTATION OF THE NARCOTICS TREATIES AND INTERNATIONAL CONTROL

Report of the Division of Narcotic Drugs

LIST OF DRUGS UNDER INTERNATIONAL CONTROL

1. A list of narcotic substances under international control, designed essentially for reference purposes, is attached. The substances are arranged alphabetically according to the names used in the international conventions or the proposed international non-proprietary names selected by the World Health Organization. If an international non-proprietary name or a new use of a name (e.g., cannabis) has taken the place of a name appearing in the conventions, the name used in the conventions is underlined in the first and third columns, with a reference to the name at present used. Since the publication of the previous list, one new substance has been placed under control - nicodicodine. The Multilingual List of Narcotic Drugs under International Control (E/CN.7/436) contains synonyms and other designations for the narcotic drugs under international control.
2. The chemical names given for the substances follow closely the system of the International Union of Pure and Applied Chemistry - also used in the text of the Single Convention on Narcotic Drugs, 1961. The nature of the substances are indicated in column 5 (whether they are natural products, or derived from alkaloids extracted from opium or from coca leaves, or whether produced synthetically). The final column gives the instruments whereby the substances fall under international control.

GE.66-12885

66-24685

3. It should be noted that, according to Schedule I of the 1961 Convention, control is extended not only to the drugs there listed but also to

- (a) their isomers, unless specifically excepted, whenever the existence of such isomers is possible within the specific chemical designation;
- (b) their esters and ethers, unless appearing in another schedule, whenever the existence of such esters or ethers is possible;
- (c) the salts of the drugs, including the salts of esters, ethers and isomers as provided above whenever the existence of such salts is possible.

The control extended to the drugs listed in Schedule II of the 1961 Convention includes also

- (a) their isomers, unless specifically excepted, whenever the existence of such isomers is possible within the specific chemical designation;
- (b) the salts of the drugs, including the salts of the isomers as provided above whenever the existence of such salts is possible.

For the control regime applicable to the esters, ethers and salts of drugs (including the salts of the esters and ethers) according to the 1931 Convention, see Chapter 1 of that Convention. For the control of salts according to the 1912 and 1925 Conventions see Chapters III of these Conventions.

3/ The World Health Organization has recommended that Governments be invited to place norcocaine under a control regime no less severe than that applicable to drugs of Group II of the 1931 Convention and to treat it for all international purposes as if it were a drug of Group II of that Convention (Circular letter of the Secretary-General, NAR/CL.1/1959 of 18 February 1959). This recommendation was made since, for technical legal reasons, the World Health Organization was not able to recommend that norcocaine be placed under international control.

4/ As an ester and ether of dihydromorphine, nicodicodine is automatically included in Schedule I of the 1961 Convention.

3/ L'Organisation mondiale de la santé a recommandé d'inviter les gouvernements à soumettre la norcocaine à un régime de contrôle non moins rigoureux que celui qui est applicable aux drogues du groupe II de la Convention de 1931 et de la traiter pour tout ce qui ressort du domaine international, comme une substance du groupe II de ladite Convention (Lettre circulaire du Secrétaire général NAR/CL.1/1959 en date du 18 février 1959). L'Organisation mondiale de la santé a formulé cette recommandation parce que, pour des raisons juridiques d'ordre technique, il ne lui était pas possible de recommander de placer la norcocaine sous contrôle international.

4/ En tant qu'ester et éther de la dihydromorphine, nicodicodine figure automatiquement au tableau I de la Convention de 1961.

Phenoperidine*	1-(3-hydroxy-3-phenylpropyl)-4-phenylpiperidine-4-carboxylic acid ethyl ester	Phénopéridine*	ester éthylique de l'acide (hydroxy-3 phényl-3 propyl)-1 phényl-4 pipéridine carboxylique-4	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
Pholcodine*	morpholinylethylmorphine	Pholcodine*	morpholinylethylmorphine	Derivative of morphine Dérivé de la morphine	1931 and 1961 Conventions Conventions de 1931 et 1961
Piminodine*	4-phenyl-1-(3-phenylamino-propyl)-piperidine-4-carboxylic acid ethyl ester	Piminodine*	ester éthylique de l'acide phényl-4 (phénylamino-3 propyl)-1 pipéridine carboxylique-4	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
Piritramide*	1-(3-cyano-3,3-diphenylpropyl)-4-(1-piperidino)piperidine-4-carboxylic acid amide	Piritramide*	amide de l'acide (cyano-3 diphenylpropyl-3,3)-1 (pipéridino-1)-4 pipéridine carboxylique-4	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
Proheptazine*	1,3-dimethyl-4-phenyl-4-propionoxyazacycloheptane	Proheptazine*	diméthyl-1,3 phényl-4 propionoxy-4 azacycloheptane	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
Properidine*	1-methyl-4-phenylpiperidine-4-carboxylic acid isopropyl ester	Propéridine*	ester isopropylique de l'acide méthyl-1 phényl-4 pipéridine carboxylique-4	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
Racemethorphan*	(+)-3-methoxy-N-methylmorphinan	Racéméthorphane*	(+)-méthoxy-3 N-méthyl-morphinane	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
Racemoramide*	(+)-4-/2-methyl-4-oxo-3,3-diphenyl-4-(1-pyrrolidinyl)butyl/ morpholine	Racémoramide*	(+)-/méthyl-2 oxe-4 diphenyl-3,3 (pyrrolidinyl-1)-4 butyl/-4 morpholine	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
Racemorphan*	(+)-3-hydroxy-N-methylmorphinan	Racémorphane*	(+)-hydroxy-3 N-méthyl-morphinane	Synthetic substance Substance synthétique	1931 and 1961 Conventions Conventions de 1931 et 1961
