Letter dated 4 December 2023 from the Permanent Representative of the Islamic Republic of Iran to the United Nations addressed to the President of the Security Council

Further to our prior letters, including the latest dated 20 November 2023 ([S/2023/892](#)), I wish to firmly reject the continued unsubstantiated allegations made against the Islamic Republic of Iran in the letter dated 28 November 2023 from the Permanent Representative of the United States to the United Nations addressed to the President of the Security Council ([S/2023/923](#)). In this regard, I would like to reiterate once again that the Islamic Republic of Iran has not been part of any acts or attacks against United States military forces. Iran regards these unfounded allegations as a deliberate attempt by the United States, the occupying State, to justify and decriminalize its persistent criminal acts of aggression and serious violations of international law and the Charter of the United Nations within the Syrian Arab Republic and the region.

I should be grateful if you would have the present letter circulated as a document of the Security Council.
