**Item 19**  
**Third-party assessment on governance and oversight functions of the Executive Boards**

In its decision 2022/22, the Executive Board requested a third-party assessment on how the Executive Board executes its governance and oversight functions. A similar decision was taken by the Executive Boards of UNICEF and UN-Women, and thus the Boards collectively decided that the third-party assessment would include the Executive Boards of UNDP/UNFPA/UNOPS, UNICEF and UN-Women. The Executive Boards selected the Joint Inspection Unit (JIU) to undertake this assessment, and the report entitled "Review of governance and oversight of the Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, and UN-Women (JIU/REP/2023/7)" was delivered by the JIU.

The Executive Board will discuss the recommendations contained in the report.

**UNDP segment****Item 7**  
**Midterm review of the UNDP Strategic Plan, 2022-2025, including the annual report of the Administrator for 2023**

The UNDP Strategic Plan, 2022–2025, endorsed by the Executive Board in its decision 2021/14, provides a framework for UNDP to work with countries to expand people's choices for a fairer and sustainable future, to build the world envisioned by the 2030 Agenda for Sustainable Development with planet and people in balance. The midterm review of the Strategic Plan, including the annual report of the Administrator, takes stock of progress, identifies opportunities and challenges, and distills lessons learned to inform the effective implementation of the Strategic Plan.

In line with General Assembly resolutions 59/267 and 62/246, the UNDP report on the recommendations of the Joint Inspection Unit (JIU) provides a synopsis of UNDP management responses to the recommendations contained in the reports issued by the JIU in 2023, as well as the implementation status of relevant JIU recommendations issued in 2022 and 2021.

The statistical annex contains detailed financial information on the annual stock of revenue and expenses for UNDP country programme activities from all sources of regular resources (core) and other resources (non-core) funding.

The Executive Board may wish to adopt a decision on this agenda item.

## **Item 8 Financial, budgetary and administrative matters**

In its decision 2021/15, the Executive Board took note of the UNDP integrated resources plan for 2022-2025 and approved the UNDP integrated budget for 2022-2025, covering the regular resources portion of the UNDP integrated resources plan, including programmatic as well as institutional activities. The integrated resources plan forms an integral complement to the Strategic Plan, 2022-2025, as it underpins and supports the implementation and operationalization thereof. The current document presents a midterm review of the integrated resources plan and the integrated budget with a focus on progress achieved in 2022-2023, underscoring UNDP's dedication to supporting programme countries, amplifying past successes, and focusing on strategic priorities. This midterm review should be read in conjunction with the midterm review of the UNDP Strategic Plan, 2022-2025 (DP/2024/12).

The Executive Board may wish to adopt a decision on this agenda item.

## **Item 9 Gender equality at UNDP**

The report presents the performance of UNDP in 2023 on the implementation of the gender equality strategy, 2022-2025, and a midterm review of the nearly two first years of its implementation. The report finds rapid progress despite a moment of crisis and backlash against gender equality. In the first two years of implementation of the strategy, UNDP has met targets, expanded new areas of work, and showcased how structural transformation can unfold by advocating, innovating, and demonstrating integrated development. UNDP has initiated long-term support for gender-responsive tax reforms and fiscal governance. It has integrated gender equality in social protection, encompassing unpaid care and the informal economy. UNDP is amplifying support for women to access justice, especially in cases of gender-based violence, including in crises. Two years into the strategy, UNDP is better equipped to navigate and influence negative gender norms and understands the need for continued effort and stronger analytical capacities. The Gender Seal has been fully implemented in 90 per cent of countries as the main vehicle to drive the institutional transformation required for the gender equality agenda.

The Executive Board may wish to take note of the report.

**Item 10  
UNDP evaluation**

The Independent Evaluation Office (IEO) of UNDP will present its annual report on evaluation for 2023, as well as the evaluation of UNDP support to private sector development and structural transformation and the Evaluation of UNDP support to ecosystem management and biodiversity conservation.

The annual report on evaluation presents the evaluation activities undertaken in 2023 by UNDP, the United Nations Capital Development Fund and the United Nations Volunteers programme. The report provides a summary of the evaluation-related work of UNDP and lessons learned from evaluations and the *Reflections* series. The report documents the efforts of UNDP in strengthening decentralized evaluations compared to the previous year and the progress in improving the quality of decentralized evaluations. It also presents the progress on ongoing enhancements to the knowledge management system of the Independent Evaluation Office. The leadership and contributions of the Independent Evaluation Office to syntheses of evaluations related to the Sustainable Development Goals are highlighted. The report is accompanied by management commentaries.

The evaluation of UNDP support to private sector development and structural transformation assesses the relevance, coherence, effectiveness and sustainability of UNDP support to private sector development and structural transformation. It illustrates the evolution of UNDP engagement with the private sector, particularly on sustainability matters and finance; and assesses UNDP contributions at macro (policies, incentives and dialogues), meso (institutional development, value chain, market and trade) and downstream levels (productivity and business practices).

The evaluation identifies opportunities to strengthen UNDP programmes through higher integration of market-based approaches and the promotion of support ecosystems for micro, small and medium-sized enterprises that go beyond national public institutions. The evaluation also reflects on the internal coherence of the UNDP offer and the suitability of its current policy framework to support partnerships with the private sector. The report includes six recommendations to this end. The report is accompanied by a management response.

The evaluation of UNDP support to ecosystem management and biodiversity conservation summarizes the evaluation of UNDP support to ecosystem management and biodiversity conservation for the period 2018 to 2024 and its strategic approaches since 2012. It considers UNDP strategies and programming aimed at accelerating the implementation of global, national, and local measures to promote healthy ecosystems and biodiversity. The evaluation found UNDP played an important role in the protection, restoration, and sustainable use of ecosystems and the conservation of biological diversity. UNDP support enabled governments and local stakeholders to adopt a range of initiatives that had dual benefits for the environment and development. However, delivering on the ambitious UNDP Nature Pledge will require further efforts. Given the continued decline in biodiversity, the action plan for the Pledge must intently focus on addressing the drivers of biodiversity loss and scaling ecosystem management and biodiversity conservation practices that have been successful. The report is accompanied by a management response.

The Executive Board may wish to adopt a decision on this agenda item.

### **Item 14 Annual report of the Executive Director**

Under this item, the Executive Board will consider the report of the Executive Director on the midterm review of the implementation progress of the Strategic Plan, 2022-2025. It analyses the progress made in achieving the results of the UNFPA strategic plan, 2022-2025 and the extent of adopting the implementation strategies stipulated to transform UNFPA into a more fit-for-purpose organization to lead the acceleration of the strategic plan three transformative results. It should be read in conjunction with the report on the midterm review of the UNFPA integrated budget, 2022-2025 (DP/FPA/2024/3) and the statistical and financial review, 2023 (DP/FPA/2024/4 (Part I)/Add.1), which provides details of UNFPA expenditures. Also available is the UNFPA report on the recommendations of the Joint Inspection Unit (JIU) in 2022 (DP/FPA/2023/4 (Part II)).

UNFPA generated momentum to accelerate the achievement of the three transformative results of its strategic plan and to scale up the implementation of the Programme of Action of the International Conference on Population and Development. The report also takes stock of the challenges encountered and the lessons learned from the midterm review. The annexes to the report, available on the UNFPA Executive Board website, provide detailed analyses and information on the progress achieved.

The Board may wish to adopt a decision on the annual report of the Executive Director.

### **Item 15 Financial, budgetary and administrative matters**

Under this item, the Executive Board will consider the report on the midterm review of the UNFPA integrated budget, 2022-2025. It reviews the strategic and financial context within the 2030 Agenda for Sustainable Development and its implications on resource estimates, allocations and results. It should be read in conjunction with the midterm review of the UNFPA strategic plan, 2022-2025 (DP/FPA/2024/4 [(Part I)] and its annexes.

The revised income estimates show income growth compared to the initial budget. The expected regular resources income for the cycle is estimated at \$1.7 billion (up from \$1.65 billion), while other resources are estimated at \$4.9 billion (up from \$4.1 billion). However, the proportion of regular resources in total income is expected to decline, signalling a growing imbalance in funding sources.

In light of these estimates, and in pursuit of its strategic priorities, UNFPA is proposing focused adjustments to the integrated budget. Development activities, which account for 88.3 per cent of total available resources, will increase by 20 per cent, from \$4.5 billion to \$5.4 billion. UNFPA is also proposing an increased appropriation for its institutional budget to an amount of \$872.3 million, an increase of 3.9 per cent. However, it is notable that the proportion of total resources utilized for the institutional budget decreases (from 16.2 per cent to 14.3 per cent) in the revised integrated budget, 2022-2025.

UNFPA will also present the report of the Advisory Committee on Administrative and Budgetary Questions on the midterm review of the UNFPA integrated budget.

The Board may wish to adopt a decision on the report on the midterm review of the UNFPA integrated budget.

### **Evaluation**

In accordance with the revised evaluation policy of UNFPA (DP/FPA/2024/1) and relevant Executive Board decisions, the annual report on the evaluation function for 2023 (DP/FPA/2024/5) provides information on the performance of the evaluation function at centralized and decentralized levels and the contribution to coherence among evaluation functions across the United Nations and to national evaluation capacity development. It also presents the 2024 programme of work and budget for the Independent Evaluation Office.

In addition, the Board will review and take note of the Evaluation of the organizational resilience of UNFPA in light of its response to the COVID-19 pandemic (DP/FPA/2024/CRP.1).

The UNFPA management commentaries to the annual report on the evaluation function (DP/FPA/2024/CRP.5) and the management responses to the Evaluation of the organizational resilience of UNFPA in light of its response to the COVID-19 pandemic (DP/FPA/2024/CRP.1) are available on the UNFPA website.

### **Item 18**

#### **Statement by the UNOPS Executive Director**

The annual report of the Executive Director will provide an update on the implementation of the restated strategic plan, 2022-2025 endorsed by decision 2023/16. The report will account for realization of ambitions for impact, and achievement of operational and management results. It will present lessons learned and areas for tactical course-correction.

The report on the comprehensive response plan in response to the recommendations of the two independent third-party reviews of UNOPS summarizes the progress to date in implementing the comprehensive response plan. Out of the 43 recommendations, 33 have been completed to planned scope, two are not operationalized and one is led by the United Nations Office for Legal Affairs. Of the outstanding recommendations, six will be completed by end 2024 and one will continue until 2027.

In its decision 2024/4, the Executive Board “decide[d] that the third-party review on the recommendations that have been concluded by the end of 2024 will be conducted in early 2025, with the exception of one recommendation spanning until 2027 which concerns a multi-year programme on process innovation and digitalization”; and “recall[ed] its decision 2023/23 for UNOPS to submit the terms of reference for the external third-party review to the Executive Board for input and validation and request[ed] that UNOPS submit these at the second regular session 2024.” The Internal Audit and Investigations Group of UNOPS submits the terms of reference of the second interim follow-up of the implementation of the comprehensive response plan to the Executive Board for their review, inputs and endorsement.
