Letter dated 4 July 2024 from the Permanent Representative of the Russian Federation to the United Nations addressed to the Secretary-General

I would like to bring to your attention the note verbale dated 4 July 2024 from the Permanent Mission of the Russian Federation to the International Organizations in Vienna addressed to the secretariat of the International Atomic Energy Agency regarding the attack by the Kiev regime against the “Raduga” electrical substation in the town of Energodar and the employees of the Zaporozhskaya nuclear power plant that was carried out on 3 July 2024 (see annex).*

I would be grateful for the circulation of the present letter and its annex as a document of the Security Council.

(Signed) Vassily **Nebenzia**

* Circulated in the languages of submission only.

Annex to the letter dated 4 July 2024 from the Permanent Representative of the Russian Federation to the United Nations addressed to the Secretary-General

[Original: English and Russian]

The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to request to circulate among all IAEA Member States as soon as possible the information on the actual situation at the Russian nuclear facility – Zaporozhskaya NPP (ZNPP).

On July 3, 2024, the Kiev regime made another attack against the electrical substation “Raduga” located in the town of Energodar where the repair works on optimization of power supply of the ZNPP’s satellite town were taking place. Three hits with unmanned kamikaze aerial vehicles of a quadcopter type were made against this facility.

As a result of the attack, eight employees of the ZNPP were injured. This is the first time the plant’s employees were deliberately made the target of the attack.

Besides, two transformers of the substation were damaged, the system of the town’s power supply and the design operation of the plants facilities (transportation workshop, printing office and the department of industrial and technical procurement) were disturbed.

This yet another attack by Ukraine is aimed at destabilization of the situation in Energodar, intimidation of the ZNPP employees and, at the end of the day, creation of threats to the nuclear facility safety.

THE SECRETARIAT OF THE
INTERNATIONAL ATOMIC ENERGY AGENCY
Vienna

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.

Vienna, " 04/ " July 2024
