Seventy-ninth session

Second Committee

Agenda item 15

**Information and communications technologies for
sustainable development**

Hungary:* amendment to draft resolution [A/C.2/79/L.33/Rev.1](#)

Information and communications technologies for sustainable development

Replace preambular paragraph 22 with the following text:

Acknowledging that our digital cooperation rests on international law, including the Charter of the United Nations, international human rights law and the 2030 Agenda for Sustainable Development, and considering the commitments in the Global Digital Compact, and looking forward to their implementation, taking into account different national realities, capacities and levels of development and respecting national policies and priorities, and applicable legal frameworks to harness digital technologies to fast-track progress in the achievement of sustainable development in all its three dimensions, and to bridge the digital divides within and between countries and advance an equitable and inclusive digital environment for all while acknowledging the need for the required means of implementation for developing countries, including the provision of financial resources, capacity-building and the transfer of technology on mutually agreed terms,

* On behalf of the States Members of the United Nations that are members of the European Union.
