**Letter dated 20 November 2024 from the Permanent  
Representative of Ukraine to the United Nations addressed to  
the Secretary-General**

I write to inform you of Russia's ongoing terrorist attacks deliberately targeting civilians and civilian infrastructure. Ukraine's energy infrastructure remains a primary target of such attacks on an almost daily basis.

Most recently, in the morning of 17 November 2024, Russia launched a massive aerial assault across Ukrainian cities, killing civilians and inflicting severe damage on energy infrastructure. Approximately 120 missiles and 90 drones were fired in this attack – the largest since August 2024 – specifically targeting Ukraine's energy grid to disrupt power supplies ahead of winter.

I transmit herewith detailed information on the consequences of missile and artillery attacks by the Russian Federation on critical infrastructure facilities of Ukraine from 30 October to 20 November 2024 (see annex).\*

Given the persistent and ongoing nature of these crimes and recognizing the urgent need for immediate intervention, I would appreciate your personal attention and the full utilization of all available instruments within the mandates of the relevant United Nations agencies to address these continued crimes by the Russian Federation against the civilian population and infrastructure in Ukraine.

The crime of aggression, war crimes and crimes against humanity committed by the Russian Federation further underscore Russia's non-compliance with the United Nations membership criteria set out in Article 4 of the Charter of the United Nations, as well as the inadmissibility of inaction regarding Russia's illegitimate presence in the Security Council.

\* Circulated in the language of submission only.

I would appreciate your kind assistance in having the present letter and its annex distributed as a document of the General Assembly, under agenda items 62, 80 and 110, and of the Security Council.

(*Signed*) **Sergiy Kyslytsya**  
Ambassador  
Permanent Representative
