agenda item 5 (a))

**MISCELLANEOUS DRAFT AMENDMENTS TO THE MODEL REGULATIONS ON
THE TRANSPORT OF DANGEROUS GOODS**

Listing and classification

2-Methylbutyraldehyde

Transmitted by the expert from Germany

Background

Considerable quantities of 2-Methylbutyraldehyde are transported in Germany. Therefore the expert from Germany is of the opinion that this substance should be listed as a new entry in the Dangerous Goods List, Chapter 3.2 of the UN Recommendations.

The determination of the flash point, made by the "PTB" in Germany, shows for the above mentioned substance a flash point of - 3,5° C (see Annex 1 in ST/SG/AC.10/C.3/2000/27/Add.1)).

Details on other physical/chemical properties are recorded in the enclosed data sheet (see Annex 2 in ST/SG/AC.10/C.3/2000/27/Add.1).
