Working Party on Road Traffic Safety
(Thirty-fifth session, 3-6 October 2000,
agenda item 10)

**TECHNICAL VISIT TO FRIBOURG
(5 October 2000)**

Note by the Chairman

As announced on the occasion of the last meeting of WP.1, a technical visit has been arranged as part of our next meeting to be held from 3 to 6 October 2000. We will be departing from Geneva during the afternoon of 5 October 2000.

The programme begins with a visit to the headquarters of the traffic police of the canton of Fribourg, after which a variety of traffic control installations can be inspected (which of course are the focus of attention of the ongoing round of discussions) directly on location: roundabouts, speed bumps, cycle lanes and cycle tracks. In the evening there will be a demonstration of a pilot public street-lighting system.

Please refer to the attached programme for full details of this technical visit (departure and arrival times, locations, etc.).
