Identical letters dated 20 February 2001 from the Permanent Representative of Iraq to the United Nations addressed to the Secretary-General and to the President of the Security Council

On instructions from my Government, I have the honour to transmit to you herewith a letter dated 19 February 2001 from Mr. Mohammed Said Al-Sahaf, Minister for Foreign Affairs of Iraq. The Minister calls attention to the ongoing wanton aggression against Iraq by United States and British aircraft in the unlawful no-flight zones and to the fact that in the period from 7 to 15 February 2001 they carried out 291 sorties, 99 of them from Saudi Arabia, 128 from Kuwait and 64 from Turkey.

The Minister reaffirms the Government of Iraq's condemnation of these acts of aggression against Iraqi territory, and he states that international responsibility for them must be borne by the United States of America, the United Kingdom and the countries that provide the logistic support for this aggression, namely Saudi Arabia, Kuwait and Turkey. He urges you to perform the duties assigned to you under the Charter by halting this unwarranted aggression and ensuring that it does not recur.

I should be grateful if you would have the present letter and its annex circulated as a document of the Security Council.

This aggression illustrates the bellicose attitude being maintained by the United States of America and the United Kingdom towards Iraq. Since 1992, it has become a fixed policy aimed at undermining the country's sovereignty, independence and territorial integrity and at the systematic and concerted destruction of Iraqi lives, infrastructure and civilian installations. It is a policy that has been affirmed in successive statements made by United States and British officials.

The Government of Iraq categorically rejects the two so-called no-flight zones, which were imposed by unilateral decision of the United States of America and the United Kingdom and lack any legal basis. Iraq rejects all the consequences of this illegal decision and, in particular, the flimsy excuses and pretexts used by these States in an attempt to justify their military aggression against our country.

The logistic support provided by Saudi Arabia, Kuwait and Turkey to the Americans and the British has made these countries key partners in the aggression being committed against Iraq, so that they bear full international responsibility under international law. This includes liability for full compensation for the loss and damage, in both human and material terms, that is caused by these illegal practices.

The Government of Iraq further renews its call to the countries participating in this aggression to desist forthwith from internationally prohibited acts that violate Iraq's sovereignty, place its security and integrity in grave danger and pose a direct and serious threat to international peace and security.

As it condemns these acts of aggression against Iraqi targets and installations, the Government of Iraq urges you to perform your assigned duties as they relate to the maintenance of international peace and security by intervening with the governments of the countries in question with a view to inducing them to halt, end

and desist from any resumption of their constant and unwarranted aggression against an independent, sovereign State.
