Section 10

Africa: New Agenda for Development

(Programme 8 of the medium-term plan for the period 2002-2005)

Overview

- 10.1 The main objectives of the activities of the programme are: (a) to mobilize the support and galvanize the efforts of the international community for African development, including through an increased flow of financial resources; (b) to ensure that the development of Africa remains one of the priorities of the international community; (c) to promote a supportive framework for African development efforts; (d) to promote a coordinated and effective response by the United Nations system at the policy and operational levels in support of African development; and (e) to strengthen and enhance South-South cooperation.
- 10.2 The basic orientation of the programme involves three main types of activities: (a) the mobilization and coordination of international support; (b) enhanced monitoring and assessment of activities; and (c) advocacy and promotion of global awareness with respect to Africa's critical economic and social situation. To that end, at the policy level, the programme will facilitate the work of intergovernmental and ad hoc bodies that discuss Africa through the submission of high-quality studies, proposals for action and progress reports on the status and implementation of action programmes. At the operational level, it will be based on regular consultations and information sharing on the priorities established by national Governments and through intergovernmental processes with a view to enabling Africa to derive maximum benefit from the improved coordination of the activities undertaken by the agencies of the United Nations system. The programme will actively promote partnership between Africa and the stakeholders in its development by facilitating a better flow of information and by organizing forums for policy makers and experts.
- 10.3 The programme of work has been developed in the light of the emphasis on meeting the specific needs of Africa and the least developed countries, as clearly set out by the Heads of State and Government of the world in their Millennium Declaration (General Assembly resolution 55/2 of 8 September 2000). It is expected that the activities set out under this programme may be revised in the light of the outcome of the Third United Nations Conference on the Least Developed Countries, to be held in May 2001, and the final review and appraisal of the New Agenda for Development of Africa in the 1990s, scheduled for September/October 2002.
- 10.4 The activities of the programme will be implemented by the Office of the Special Coordinator for Africa and the Least Developed Countries of the Department of Economic and Social Affairs (subprogramme 1); the Economic Commission for Africa (subprogramme 2); and the Department of Public Information (subprogramme 3). The Department of Economic and Social Affairs, through the Office of the Special Coordinator, will provide overall leadership and will coordinate the programme.
- 10.5 The resources for the biennium 2002-2003 under this section amount to \$6,492,700, reflecting an increase of \$632,900, or 10.8 per cent. The resource growth includes the following: (a) \$353,200 as a result of the establishment of three new posts (1 P-5, 1 P-4 and 1 General Service (Other level)) under subprogramme 1; (b) \$141,600 resulting from the delayed impact of two posts (1 P-4 and 1 General Service) established in the biennium 2000-2001 under subprogramme 2 and the reclassification from P-5 to D-1, as from 1 January 2002, of the post of the officer responsible for the implementation of the subprogramme; and (c) \$138,100, reflecting the delayed impact of two posts (1 P-3 and 1 General Service) established in the biennium 2000-2001 under subprogramme 3.

- 10.6 Estimated extrabudgetary resources of \$1,712,400 for the biennium 2002-2003 are to be used: (a) to organize regional and subregional expert group meetings, workshops and seminars and to provide advisory services; (b) to prepare and disseminate to the press a 30-page information kit on the end-of-decade review of the New Agenda for Development of Africa in the 1990s; and (c) to prepare studies, promote South-South cooperation and support field testing of the African microcredit model.
