Item 3 – Report by the ad hoc consultative group of experts on accounting by small and medium-sized enterprises

4. At their seventeenth session, the ISAR experts identified several obstacles that small and medium-sized enterprises (SMEs) face in maintaining accounting records and generating meaningful financial information. They agreed on certain characteristics that a financial accounting and reporting system for SMEs needs to have. The session concluded by agreeing to work towards identifying an accounting and reporting framework for different types of SMEs that incorporates the desired characteristics that the experts agreed on. It decided to carry the work forward by conducting ad hoc expert consultations during the inter-session period, the results of which would be presented to the eighteenth session of ISAR. Accordingly, an ad hoc consultative group comprising 23 experts representing various accounting standard setters (including the International Accounting Standards Board), regulators and professional accountancy bodies from developing and developed countries was established and has been working during the inter-session period towards discharging its mandate. The group has concluded its consultations, and these will be discussed under agenda item 3.

Item 4 – Other business

4. Under this item, several topics can be raised, some of a substantive nature and others of a follow-up nature relating to the ongoing activities of the Intergovernmental Working Group. When the Group adopted its provisional agenda at the seventeenth session, it asked to review existing corporate governance practices, and country, company and regional codes and principles, under other business at the eighteenth session. Thus, the Group may wish to conduct the review under this agenda item. It may decide to review work in progress on environmental performance indicators and the implementation of the guideline on national requirements for the qualification of professional accountants. It may also wish an update on recent developments in international accounting from other international organizations.

Item 5 - Provisional agenda for the nineteenth session

5. The provisional agenda for the nineteenth session will be discussed in the light of the deliberations of the eighteenth session, as well as of previous sessions.

Item 6 – Adoption of the report of the Intergovernmental Working Group on its eighteenth session

7. The Intergovernmental Working Group may wish to adopt such agreed conclusions as it deems necessary. The Chairperson may wish to produce a Chairperson's summary. The final report will be compiled under the authority of the Chairperson after the conclusion of the session. It will be submitted to the Commission on Investment, Technology and Related Financial Issues.
