Report of the Board of Auditors to the General Assembly on the accounts of the United Nations Relief and Works Agency for Palestine Refugees in the Near East for the years ended 31 December 1977 and 31 December 1978	89

LETTER OF TRANSMITTAL

19 June 1979

Sir,

I have the honour to transmit to you the financial statements of the United Nations Relief and Works Agency for Palestine Refugees in the Near East as at 31 December 1977 and as at 31 December 1978.

In addition to the above, I have the honour to present the report of the Board of Auditors with respect to the accounts of the Agency for the years 1977 and 1978.

Accept, Sir, the assurances of my highest consideration.

*(Signed) Ahenkora OSEI
Auditor General of Ghana
and
Chairman of the United Nations
Board of Auditors*

The President of the General Assembly
of the United Nations
New York, N.Y.

Part One

ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 1977

I. AUDIT OPINION

We have examined the following appended financial statements, properly identified, and relevant schedules of the United Nations Relief and Works Agency for Palestine Refugees in the Near East for the year ended 31 December 1977. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances. As a result of our examination, we are of the opinion that the financial statements properly reflect the recorded financial transactions for the year, which transactions were in accordance with the Financial Regulations and legislative authority and present fairly the financial position as at 31 December 1977.

(Signed) Ahenkora OSEI
Auditor General of Ghana

(Signed) J. J. MACDONELL
Auditor General of Canada

Notes to the financial statements for the General Fund for the year ended 31 December 1977

Statement of budget and expenditure and commitments

Note 1

The budget figures reflect the Agency's budget for 1977 submitted to the General Assembly at its thirty-first session,¹ as adjusted and submitted to the Assembly at its thirty-second session.²

Statement of income and expenditure and commitments

Note 2

Only contributions to UNRWA are included in income. A contribution to UNRWA is one that comes under its direct control and is usable in its programme. All other contributions, even if handled by UNRWA, are considered as being made direct to the refugees and are excluded from income.

Note 3

Contributions in kind are recorded at the contributor's valuations, if known and reasonable, otherwise at valuations determined by the Agency with due consideration given to prevailing market valuations. To avoid inconsistency between the income and expenditure accounts where contributions in kind have been recorded in income at valuations different from Agency standard prices, these differences have been reflected in the expenditure accounts (see also note 7 below).

Note 4

Under contributions received from Governments is included a sum of \$6,000,000 which was a special contribution by the United States for 1976 but pledged and paid in 1977 after closure of the 1976 accounts. Strictly speaking therefore, expenditure and commitments for 1977 exceeded income by \$3,793,423. Conversely, on the same basis, income in 1976 exceeded expenditure and commitments by \$5,943,832 instead of leaving a deficit of \$56,168 as reported in the Agency's published accounts for 1976.³

Statement of assets and liabilities

Note 5

As from 1 January 1977, the Agency's Area Staff Provident Fund has been dealt with as a special fund under the Agency's financial regulation 13.1, and the accounts therefor are presented separately.

Note 6

(a) The fixed assets not reported in the accounts (see (e) under "Summary of significant accounting practices") are summarized below, at original cost values:

	US dollars
Vehicles	2 631 904
Other equipment	4 120 412
Land owned by UNRWA	51 248
Buildings on land owned by UNRWA	422 031
TOTAL	7 225 595

¹ Official Records of the General Assembly, Thirty-first Session, Supplement No. 13 (A/31/13 and Corr.1), chap. II.

² Ibid., Thirty-second Session, Supplement No. 13 (A/32/13 and Corr.1 and 2), chap. II.

³ Ibid., Supplement No. 7C (A/32/7/Add.3), chap. II, statement II.

(b) The Agency has only the right of current occupancy of buildings (schools, training centres, ration distribution centres, clinics, warehouses and other installations) constructed by it on land owned by Governments or leased from private land-owners. Total cost of construction of such buildings (including cost of financing purchase of land by local Governments in certain cases and of compensation to private land-owners of leased land) to 31 December 1977 is \$20,555,297.

(c) The Agency has also constructed refugee shelters at a total cost of \$10,657,755 on land owned by Governments or by individuals. The legal status of these shelters is uncertain.

Note 7

Contributions receivable in the form of food supplies are shown at the Agency's standard prices for such supplies (see also note 3 above) less a provision for certain old pledges now doubtful of collection. Provision has also been made for certain doubtful pledges in cash.

Note 8

Inventories are continuously valued at weighted average cost prices c.i.f. or equivalent less a provision for possible losses on unusable supplies.

Note 9

The provision for separation costs of staff would be greater by approximately \$14 million if provision were made for payment of certain separation benefits in full to all staff members. The Agency estimates, however, that 50 per cent of its locally recruited General and Teaching Service staff members and 40 per cent of its locally recruited Manual Service staff members will not qualify for payment of these separation benefits under the Agency's staff rules, either by reason of leaving the Agency's service voluntarily or by reason of being offered jobs with other employers immediately following separation from the Agency.

Note 10

At 31 December 1977, the Agency had contingent liabilities of \$2,567,145 comprising purchase orders issued for goods not yet received. In addition, a contingent liability of a material but undeterminable amount, may be considered to exist in respect of certain claims for subsidies by Governments.

Note 11

"Cash held for special project" in the assets is offset by "Provision for special project" in the liabilities (see statement IV). These funds were provided by the Government of Lebanon and are earmarked for the construction of a refugee camp near Bayssarieh, Lebanon. The funds, originally amounting to LL 5,000,000 (the equivalent of \$1,645,000 as at 31 December 1977), are for the time being banked in a United States dollar deposit account on which interest earned up to 31 December 1977 amounted to \$32,308. It is contemplated that, as from 1 January 1978, all transactions related to this project will be the subject of a special fund under financial regulation 13.1.

Notes to the financial statements for the Area Staff Provident Fund for the year ended 31 December 1977

General

Note 1

Following a recommendation of the Provident Fund Advisory Committee a special fund was established for the Area Staff Provident Fund under the Agency's financial regulation 13.1, effective 1 January 1977.

Statement of assets and liabilities

Note 2

United States dollar credits under the heading "Continuing participants' credits" represent participants' accounts in the Gaza field and Cairo liaison offices (see statement I). Prior to 1977, these participants' credits were in Egyptian pounds, and the figures shown for 1976 reflect the dollar equivalent of such credits at the rate of LE 1 to \$US 2.56.

Statement of income distribution account

Note 3

The amount transferred to unallocated surplus equals 10 per cent of net investment income less general administration expenses, i.e., 10 per cent of \$5,236,511 less \$30,612.

Schedule to the statements: Investments and investment income

Note 4

Investment managers' fees with regard to Bankers Trust, London, are included in net interest rate allowed on deposits.

Note 5

Investment yield is arrived at by dividing net investment income by the average amount of investments earning income during the year.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are some of the more significant accounting policies of the Agency. These policies apply principally to the General Fund, but they also apply to the Area Staff Provident Fund where appropriate:

(a) The Agency's accounts are maintained in accordance with the Financial Regulations of the United Nations Relief and Works Agency as established by the Commissioner-General in consultation with the Secretary-General and the Advisory Committee on Administrative and Budgetary Questions.

(b) The financial period of the Agency is the calendar year.

(c) The assets and liabilities and income (other than contributions from Governments and United Nations organizations) and expenditure are recognized on the accrual basis of accounting. Cash contributions from Governments and United Nations organizations are credited to income account in the financial period for which they are unconditionally pledged. Contributions in kind from Governments are credited to income account only for that part of the quantity pledged that is usable in that period; the remainder is allocated to income of later financial periods (see note 2 to the financial statements of the General Fund for exclusions from income).

(d) The accounts of the Agency are maintained in United States dollars. Transactions in other currencies are translated into United States dollars at the time of the transactions at rates of exchange established by the Agency. At the end of the financial period, assets and liabilities not in United States dollars are reflected in United States dollars at the then applicable Agency exchange rates.

(e) Fixed assets of the Agency (consisting of vehicles, other equipment and certain lands and the buildings thereon) are not included in the assets reported in statement IV of the General Fund. Costs of these assets were fully charged to expenditure in the period of purchase, construction or budget commitment therefor. Memorandum records are maintained for such assets (see note 6(a) to the financial statements of the General Fund for a summary report). Also not included in statement IV of the General Fund are the buildings and refugee shelters constructed by the Agency on land owned by various Governments or by private individuals. Appropriate memorandum records, however, are also maintained for these buildings and refugee shelters, ownership of which will presumably revert to the land-owners concerned, although this is less certain in the case of refugee shelters (see notes 6 (b) and (c) to the financial statements of the General Fund for a summary report).

(f) Miscellaneous income:

(i) The net income realized from revenue-producing activities is reported as miscellaneous income;

(ii) Recoveries of expenditures which have been charged in the same financial period are credited against the same expenditure accounts, but recoveries of expenditures relating to earlier financial periods are credited to miscellaneous income.

(g) Gain or loss on exchange is reported as an addition to or deduction from income.

Part Two

ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 1978

I. AUDIT OPINION

We have examined the following appended financial statements, properly identified, and relevant schedules of the United Nations Relief and Works Agency for Palestine Refugees in the Near East for the year ended 31 December 1978. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances. As a result of our examination, we are of the opinion that the financial statements properly reflect the recorded financial transactions for the year, which transactions were in accordance with the Financial Regulations and legislative authority and present fairly the financial position as at 31 December 1978.

Notes to the financial statements for the General Fund for the year ended 31 December 1978

Statement of budget and expenditure and commitments Note 1

The budget figures reflect the Agency's budget for 1978 as submitted to the General Assembly at its thirty-second session,¹ and as adjusted and submitted to the Assembly at its thirty-third session.²

Statement of income and expenditure and commitments Note 2

Only contributions to UNRWA are included in income. A contribution to UNRWA is one that comes under its direct control and is usable in its programme. All other contributions, even if handled by UNRWA, are considered as being made direct to the refugees and are excluded from income.

Note 3

Contributions in kind are recorded at the contributor's valuations, if known and reasonable, otherwise at valuations determined by the Agency with due consideration given to prevailing market valuations. To avoid inconsistency between the income and expenditure accounts where contributions in kind have been recorded in income at valuations different from Agency standard prices, these differences have been reflected in the expenditure accounts (see also note 7 below).

Note 4

Under contributions received from Governments for 1977 is included the sum of \$6,000,000 which was a special contribution by the United States for 1976 but pledged and paid in 1977 after closure of the 1976 accounts. Strictly speaking, therefore, expenditure and commitments for 1977 exceeded income by \$3,793,423. Conversely, on the same basis, income in 1976 exceeded expenditure and commitments by \$5,943,832 instead of leaving a deficit of \$56,168 as reported in the Agency's published accounts for 1976.³

Statement of assets and liabilities

Note 5

As from 1 January 1978, the special project referred to in this statement in 1977 has been dealt with as a special fund under the Agency's financial regulation 13.1, and the accounts therefor are presented separately.

Note 6

A sum of \$4,543,086 included in "Cash on hand and in banks" represents cash in the hands of paymasters and unpaid cheques at 31 December 1978. The same amount is included in "Accounts payable". Prior to 1978, cash issued to paymasters before 31 December and cheques issued to creditors before that date were excluded from assets and liabilities at year-end because the amounts involved were not considered to be material.

Note 7

Contributions receivable in the form of food supplies are shown at the Agency's standard prices for such supplies (see also note 3 above).

¹ See *Official Records of the General Assembly, Thirty-second Session, Supplement No. 13* (A/32/13 and Corr.1 and 2), chap. II.

² *Ibid.*, *Thirty-third Session, Supplement No. 13* (A/33/13), chap. II.

³ *Ibid.*, *Thirty-second Session, Supplement No. 7C* (A/32/7/Add.3), chap. II, statement II.

Note 8

Prepaid expenses and advances to suppliers include unpaid balances of letters of credit whether or not the equivalent amounts have been formally blocked by the banks concerned.

Note 9

Inventories are continuously valued at weighted average cost prices c.i.f. or equivalent less a provision for possible losses on unusable supplies. A further reserve has been established for estimated losses due to local disturbances which have not yet been fully surveyed.

Note 10

The provision for separation costs of staff would be greater by approximately \$15 million if provision were made for payment of certain separation benefits in full to all staff members. The Agency estimates, however, that 50 per cent of its locally recruited General and Teaching Service staff members and 40 per cent of its locally recruited Manual Service staff members will not qualify for payment of these separation benefits under the Agency's staff rules, either by reason of leaving the Agency's service voluntarily or by reason of being offered jobs with other employers immediately following separation from the Agency.

Note 11

At 31 December 1978, the Agency had contingent liabilities of \$1,099,171 comprising purchase orders issued for goods not yet received. In addition, a contingent liability of a material but undeterminable amount may be considered to exist in respect of certain claims for subsidies by Governments.

Note 12

(a) The fixed assets not reported in the accounts (see (e) under "Summary of significant accounting policies") are summarized below at original cost values:

	US dollars
Vehicles	2 909 065
Other equipment	4 671 673
Land owned by UNRWA	51 248
Buildings on land owned by UNRWA	422 031
TOTAL	8 054 017

(b) The figures for vehicles and other equipment in sub-paragraph (a) above are subject to adjustment when local disturbances losses in Lebanon have been fully surveyed. The amounts involved are not expected to be significant.

(c) The Agency has only the right of current occupancy of buildings (schools, training centres, ration distribution centres, clinics, warehouses and other installations) constructed by it on land owned by Governments or leased from private land owners. Total cost of construction of such buildings (including cost of financing purchase of land by local Governments in certain cases and of compensation to private land owners of leased land) to 31 December 1978 is \$21,632,089.

(d) The Agency has also constructed refugee shelters at a total cost of \$10,685,066 on land owned by Governments or by individuals. The legal status of these shelters is uncertain.

Notes to the financial statements for the Bayssarieh Camp Fund for the period ended 31 December 1978

Note 1

This special fund was established as from 1 January 1978 under the Agency's financial regulation 13.1 to provide the accounting and budgetary framework for the construction of a refugee camp at Bayssarieh, Lebanon.

Note 2

Certain transactions related to this project actually occurred in 1977, namely the receipt of contributions and the earning of interest income on investments, although no expenditure was incurred prior to 1 January 1978. Consequently the initial operations account presented here exceptionally covers the entire period from establishment of the project in 1977 to 31 December 1978.

V. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are some of the more significant accounting policies of the Agency. These policies apply principally to the General Fund, but they also apply to the Area Staff Provident Fund and to the Bayssarich Camp Fund where appropriate:

(a) The Agency's accounts are maintained in accordance with the Financial Regulations of the United Nations Relief and Works Agency as established by the Commissioner-General in consultation with the Secretary-General and the Advisory Committee on Administrative and Budgetary Questions.

(b) The financial period of the Agency is the calendar year.

(c) The assets and liabilities and income (other than contributions from Governments and United Nations organizations) and expenditure are recognized on the accrual basis of accounting. Cash contributions from Governments and United Nations organizations are credited to income account in the financial period for which they are unconditionally pledged. Contributions in kind from Governments are credited to income account only for that part of the quantity pledged that is usable in that period; the remainder is allocated to income of later financial periods (see note 2 to the financial statements of the General Fund for exclusions from income).

(d) The accounts of the Agency are maintained in United States dollars. Transactions in other currencies are translated into United States dollars at the time of the transactions at rates of exchange established by the Agency. At the end of the financial period, assets and liabilities not in United States dollars are

reflected in United States dollars at the then applicable Agency exchange rates.

(e) Fixed assets of the Agency (vehicles, other equipment and certain lands and the buildings thereon) are not included in the assets reported in statement IV of the General Fund. Costs of these assets were fully charged to expenditure in the period of purchase, construction or budget commitment therefor. Memorandum records are maintained for such assets (see note 12 (a) to the financial statements of the General Fund for a summary report). Also not included in statement IV of the General Fund are the buildings and refugee shelters constructed by the Agency on land owned by various Governments or by private individuals. Appropriate memorandum records, however, are also maintained for these buildings and refugee shelters, ownership of which will presumably revert to the land-owners concerned, although this is less certain in the case of refugee shelters (see notes 12 (c) and (d) to the financial statements of the General Fund for a summary report).

(f) Miscellaneous income:

- (i) The net income realized from revenue-producing activities is reported as miscellaneous income;
- (ii) Recoveries of expenditure which have been charged in the same financial period are credited against the same expenditure accounts, but recoveries of expenditures relating to earlier financial periods are credited to miscellaneous income.

(g) Gain or loss on exchange is reported as an addition to or deduction from income.

Part Three

REPORT OF THE BOARD OF AUDITORS

Report of the Board of Auditors to the General Assembly on the accounts of the United Nations Relief and Works Agency for Palestine Refugees in the Near East for the years ended 31 December 1977 and 31 December 1978

INTRODUCTION

1. As required by article XII of the Financial Regulations of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), the Board of Auditors has audited the accounts of the Agency for the years ended 31 December 1977 and 31 December 1978.

2. The examination was conducted in accordance with article XII of the Financial Regulations and Rules of the United Nations and the annex thereto and with the common auditing standards adopted by the Panel of External Auditors of the United Nations, the Specialized Agencies and the International Atomic Energy Agency. The examinations were conducted at the UNRWA headquarters in Vienna and at the field offices in Lebanon, Jordan and the Syrian Arab Republic.

3. The Board of Auditors' normal practice of reporting the results of specific audits was continued during the years under review, with the result that management letters containing detailed audit observations were issued to the Administration. This practice has helped in developing a dialogue with the Administration and is consistent with the Board's new audit approach of applying systems-based auditing to all the organizations in the United Nations system for which the Board has audit responsibility.

4. The completion of UNRWA's 1977 accounts was delayed because of exceptional circumstances involving the security situation in Beirut and the relocation of the Agency's headquarters. Accordingly, this report contains the observations and recommendations arising from our review of the activities of UNRWA for both 1977 and 1978, and our examination of the accounts upon which we have expressed separate opinions.

INTERNAL AUDIT

5. We have reviewed the mandate of the internal audit function and its method of operation, and are concerned that it is not operating as effectively as it should for an organization of the size and complexity of UNRWA. In particular:

(a) The internal audit function is under the direction of the Comptroller and thus is not independent of the operational management which it evaluates;

(b) Audit reports, particularly on Agency headquarters operations, have not received the close attention they deserve. As a result, weaknesses in internal control and irregularities brought to management's attention have not been rectified, and the same observations and recommendations are repeated year after year;

(c) Internal audit examinations have been restricted to the financial areas of the Agency although contemporary internal audit standards call for audit

coverage to be extended to all the operations of an organization;

(d) The staff of the internal audit function have been called upon frequently to perform work of a non-audit nature, thus limiting the extent of internal audit activity;

(e) Professional development programmes are not made available to the audit staff.

6. In our opinion, a more comprehensive internal audit would provide better assurance to the Administration that the resources for which it is accountable are managed economically, effectively and efficiently. Accordingly, we have recommended that immediate attention be given to reviewing the present scope, size and organizational arrangements of the internal audit function.

7. The Administration has explained that the fairly chronic shortage of manpower in recent years and the difficult conditions under which the Agency's headquarters has operated since 1975 resulted in the use of internal audit staff in other areas and prevented management from paying close attention to the internal audit reports. A continued period of stability in headquarters operations and the filling of established posts should provide better audit programmes in 1979 and thereafter.

AREA STAFF PROVIDENT FUND

8. UNRWA entrusts the investments of the Provident Fund to commercial money managers while it retains over-all control of its operations. Considerable improvement in the management of the Fund would result if procedures were established to ensure that money managers complied with the investment policies, if investment monitoring procedures were improved, and if a policy for the receipt of contributions were clearly defined and established.

Investment policy

9. The Provident Fund's investment policy was revised during 1977 to allow the Fund's money managers to invest in relatively longer term investments which are readily realizable, but no formal procedures have been established to ensure that the new investment policy is fully complied with by the money managers. Since UNRWA is a temporary United Nations organization subject to termination of operations at comparatively short notice, non-compliance with the new policy could result in capital losses in investments to the Agency. Accordingly, we recommended that procedures should be established to ensure that all investments purchased by the money managers are in fact readily realizable.

10. The Administration has acknowledged our concerns and we urge that a study of the matter be undertaken at an early date.

11. Our examination of financial reports submitted by one of the three money managers of the Provident Fund, as well as internal audit reports thereon, disclosed unsatisfactory financial practices, unnecessary delays in the investment of funds resulting in losses of interest income, and a forward sale of investments without the knowledge and consent of the Agency. This latter activity resulted in an exchange loss of about \$100,000. We are concerned about both the standard of financial reporting and the manner in which the Agency's funds are handled.

12. We have recommended that in order to prevent similar occurrences, an early review of the arrangement with the money manager concerned should be undertaken in the interest of the Provident Fund.

Funding policy

13. At the present time, contributions by the Agency to the Provident Fund are made on an irregular basis. For instance, the first funding of contributions for 1978 was made in March 1978 and related to contributions for January and February 1978. In another instance, the December 1977 contribution was not made until mid-1978. Thus, it does not appear that the Agency's funding policy has been fully defined and accordingly we have suggested that appropriate action be taken to develop such a policy, including the disposition of any interest which should accrue to the fund as a result of delays in transfer of funds.

ACCOUNTING POLICY

Letters of credit

14. It is the practice of the Agency to deduct at the end of the financial year, the total value of letters of credit relating to unfulfilled purchase orders from its bank balances and add the same amount to prepaid expenses and advances to suppliers' accounts. On the first day of the following year, the Agency reverses the entries to restore the bank balances to their true position. The Agency also reports this amount as a contingent liability in the notes to the financial statements. At 31 December 1977 and 1978, outstanding letters of credit amounted to \$2.5 and \$1.1 million respectively.

15. While we agree that these amounts are correctly disclosed as contingent liabilities, the practice of reducing cash balances and increasing prepaid expenses for financial statements is not in accordance with generally accepted accounting principles and distorts the presentation of financial information. Accordingly, we have recommended that this practice be discontinued in future years.

16. During the course of our audit, a number of pertinent issues were discussed with officials of UNRWA and incorporated in our management letters. We are pleased to report that the Administration has taken appropriate action or agreed to give them further consideration. The more significant of these are outlined below:

(a) *Procurement system*

Our examination revealed instances of unusual contract awarding practices, non-conformance with prescribed procedures, and liberal interpretation and use of emergency powers. Accordingly, we have recommended that policies and procedures be reviewed to ensure that they conform to operational and internal control requirements and that all offices be alerted to the importance of complying with established procedures.

(b) *Cash management*

We have drawn to the attention of the Administration that a more effective utilization of funds would be achieved by a closer monitoring of current account balances which would prevent the accumulation of uninvested funds, prompt deposit of cash contributions by field offices, and more timely collection of accounts receivable.

(c) *Payroll procedures*

We recommended a strengthening of internal controls over international staff payroll procedures.

COMMENTS ON MATTERS DEALT WITH IN THE 1976 REPORT

17. The Administration has provided satisfactory explanations or taken appropriate action on the matters raised in the 1976 report, other than the question of internal audit which is referred to again in this report.

ACKNOWLEDGEMENT

18. The Board of Auditors wishes to express its appreciation for the co-operation and assistance extended by the Acting Commissioner-General, his officers and members of their staff.
