against the nuclear explosion conducted on 11 May 1988 at  
the Mururoa Atoll

In accordance with the intention I announced in my telex of today, and further to that communication, I have the honour to transmit herewith the text of the statement issued today by the Permanent Commission for the South Pacific (CPPS) concerning the nuclear explosion conducted by France on 11 May at the Mururoa Atoll, in which CPPS reiterates its opposition to and strongly protests against such nuclear explosions and calls for their immediate and definitive cessation.

I should be very grateful if you would kindly arrange for the text of the statement to be circulated to the representatives of the States Members of the United Nations.

APPENDIX

Statement issued by the Permanent Commission for the  
South Pacific on 11 May 1988

1. On 11 May 1988 France conducted another nuclear explosion at the Mururoa Atoll, having an estimated force of between 20 and 25 kilotons.
2. The second meeting of Ministers for Foreign Affairs of the States members of the Permanent Commission for the South Pacific (CPPS), held at Viña del Mar, Chile, in February 1984, reaffirmed the unswerving and categorical opposition of their Governments to the conduct of nuclear explosions and the dumping of radioactive wastes, especially in the Pacific Basin, as an expression of their common policy on the protection of the marine environment and called for the immediate and definitive cessation of those activities.
3. The 18th ordinary meeting of the Permanent Commission, held in the Galapagos Islands, Ecuador, in August 1985, instructed the Secretary-General, in pursuance of that common policy, to continue to protest on behalf of that maritime organization of the South American Pacific countries whenever any further nuclear explosions are conducted in the region.
4. Accordingly, on behalf of the Permanent Commission for the South Pacific (CPPS), the Secretary-General once again draws attention to the serious danger posed by nuclear explosions to the marine environment and its resources, reiterates the Commission's opposition to and strong protest against such activities, and calls for their immediate and definitive cessation.
