**Identical letters dated 14 January 2003 from the Chargé d'affaires  
a.i. of the Permanent Mission of Iraq to the United Nations  
addressed to the Secretary-General and to the President  
of the Security Council**

On instructions from my Government, I have the honour to transmit to you herewith the daily report for 14 January 2003 on the activities of the inspection teams of the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) and the International Atomic Energy Agency (IAEA) in Iraq (see annex).

I should be grateful if you would have this letter and its annex circulated as a document of the Security Council.

*(Signed)* Mohammed Salman Ali  
Chargé d'affaires a.i.

**Annex to the identical letters dated 14 January 2003 from the Chargé d'affaires a.i. of the Permanent Mission of Iraq to the United Nations addressed to the Secretary-General and to the President of the Security Council**

**Report on the activities of the IAEA and UNMOVIC inspection teams in Iraq**

**Inspection activities on 14 January 2003**

**I. IAEA inspection team**

A group consisting of five inspectors left the Canal Hotel at 0840 hours for the Qa`qa` State Enterprise, an affiliate of the Military Industrialization Corporation (MIC), 50 kilometres south of Baghdad. Upon their arrival, at 0925 hours, the inspectors inspected the warehouses for storing HMX explosive supplies, where they affixed tags, took samples and meticulously examined inventories. After completing their assignment at 1310 hours, they arrived back at the Canal Hotel at 1400 hours.

A second group consisting of three inspectors left the Canal Hotel for the Dhu al Fiqar plant, 35 kilometres north of Baghdad, a subsidiary of the Rashid State Enterprise, an MIC affiliate. Upon their arrival, at 0915 hours, the inspectors inspected the plant, then proceeded to the site of the Nasr State Company to examine the aluminium tubes located there and make sure that their numbers corresponded. The team completed its assignment by visiting the Sumud State Company, where it inspected the aluminium foundry. Having completed its work at 1345 hours, it arrived back at the Canal Hotel at 1425 hours.

**II. UNMOVIC missile inspection team**

A group consisting of four inspectors left the Canal Hotel at 0830 hours for the disused missile propellant testing area in the Za`faraniyah suburb of Baghdad. Upon their arrival, at 0900 hours, the inspectors visited the site to make sure that there were no people or equipment there; they then looked around the site. Having completed their assignment at 1000 hours, they arrived back at the Canal Hotel at 1020 hours.

A second group consisting of five inspectors left the Canal Hotel at 0845 hours for the Mu`tasim plant, 60 kilometres south of Baghdad, a subsidiary of the Rashid State Enterprise, an MIC affiliate. Upon their arrival, at 0900 hours, the inspectors tagged Fath missiles and removed tags from some Ababil-50 missiles. Having completed its assignment at 1125 hours, the group arrived back at the Canal Hotel at 1230 hours.

A third group consisting of four inspectors left the Canal Hotel at 0840 hours for the Hittin State Enterprise, an MIC affiliate, 55 kilometres south of Baghdad. Upon their arrival, at 0940 hours, the inspectors made a thorough search, using aerial photographs, of three facilities which proved to belong to the Nu`man engineering plant, a subsidiary of the Hittin State Enterprise. The group inspected the plant facilities, then proceeded to the Al-Quds State Company whose buildings are adjacent to the Nu`man buildings and also appear on the above-mentioned aerial photographs. The group then inspected the engineering centre and inquired about the

activities conducted there. After completing its assignment at 1115 hours, the group arrived back at the Canal Hotel at 1200 hours.

### **III. UNMOVIC biological inspection team**

A group consisting of three inspectors left the Canal Hotel in Baghdad at 0835 hours for the site of an air force technical depot 30 kilometres north of Baghdad. Upon their arrival, at 0910 hours, the inspectors inspected aircraft fuel tanks that had been damaged, comparing them with intact ones. They then measured and filmed the damaged tanks. After completing their assignment at 1130 hours, they arrived back at the Canal Hotel at 1205 hours.

A second group consisting of nine inspectors left the Canal Hotel at 0840 hours for the Rabi` Centre managed by the National Industrial Research and Development Authority, which is affiliated with the Ministry of Industry and Mining. The centre is part of the scientific complex located in the Jadriyah area of Baghdad and conducts research in the following fields: agronomy, plant science and industrial crops. Upon their arrival, at 0930 hours, the inspectors met with the Centre's Director and asked him about its activities and the research work under way in the fields of microbiology and extraction of oils from industrial crops, requesting details concerning the heads of the various scientific departments and external consultants working for the Centre. After completing its assignment at 1050 hours, the team arrived back at the Canal Hotel at 1115 hours.

### **IV. UNMOVIC multidisciplinary team in Mosul**

The team, consisting of eight inspectors, left the Nineveh Palace Hotel at 0900 hours for the Technical Institute in the Nimrud area on the outskirts of Mosul. Upon their arrival, at 0945 hours, the inspectors met with the assistant to the Dean of the Institute and inquired about the identity, diplomas and other qualifications of the scientists working for the Institute and the type of research being conducted there. The team then meticulously checked the declarations relating to the Institute, made a detailed examination of tagged equipment and inspected the departments of the Institute specializing in agriculture. After completing its assignment at 1200 hours, the team arrived back at the Nineveh Palace Hotel at 1240 hours.

### **V. UNMOVIC multidisciplinary (chemical, biological and missile) team**

At 1020 hours, a team consisting of 33 inspectors left the Canal Hotel in Baghdad. At 1300 hours, it arrived at a site belonging to the Mojahedin-e Khalq, an Iranian opposition group. During the visit, the persons from the National Monitoring Directorate accompanying the team did not enter the site because it was not affiliated with any Iraqi authority. The inspectors then proceeded in two vehicles to the Al-Azim ammunition depot, where they inspected several storage areas, completing their assignment at 1715 hours and arriving back at the Canal Hotel at 1900 hours.
