

REPORT OF THE COMMITTEE ON INFORMATION

Corrigendum

1. Page 14

After paragraph 49 insert

4 (b) (viii). Maintenance and enhancement of the functions of the Middle East and Arabic Radio Unit

50. In an oral report on this item, the Under-Secretary-General for Public Information said that the radio and television functions of the Middle East and Arabic Radio Unit had been maintained and that its radio output had been doubled. However, it had not been possible either to upgrade the post of the Chief of the Unit or to enlarge the Unit through redeployment.

51. One delegation called for a strengthening of the Unit and requested that a written report on the subject should be submitted to the Committee at its next session.

2. Renumber the subsequent paragraphs and adjust the table of contents accordingly.
